NEW MEXICO NEWS SUMMARY

How Land Grants Grew. Judge Wilbur F. Stone of Denver, in a recent historical sketch of the Court of Private Land Chains, says: A number of land grants have had their boundaries stretched and areas were made by natural landmarks such as a "white rock," a "red hill" or a "lone tree," another rock, hill or res of like description could always to family a league or two farther off. and claimed to be the original land-mark described in the grant docu-ment. Thus it has been found—unofcially-by the court, that, in the uned climate and under the genus sun of the Rocky mountains not sely-without irrigation.

Work of Cattle Growers. At the recent meeting of the Cattle Growers' Association of New Mexico at Roswell, in the absence of the president, Secretary Barnes made the report of the work of the association during the past year and spoke for some time upon the general conditions of the cat-

tle industry, needed legislation and other matters of interests. Mr. Barnes showed the necessity for a strong central stock organization, and gave most excellent reasons why the association should receive the hearty support of all cattle and horse

During the past year the association has done everything in its power to aid the cattle men in the many perplexing questions that have confronted them. It has taken up the fight against the reliroads, with the Texas National As-sociations, to secure lower rates on cat-tle shipments, better service and especially the matter of return passes for

An immense amount of correspondence has been carried on with the bureau of animal industry, covering diseases among the cattle of the western ranges. Not that New Mexico cattie have any disease, but to guard against the accidental introduction of some disease, existing among the cattle in adjoining states.

Mr. Barnes discussed the subject of the lack of buyers on the western ranges and offered some suggestions as to obtaining relief from the present methods of shipping cattle to a few leading markets. He urged the formation of local associations in every county or district these smaller associations to deal with the questions of prosecution of thieves and such local matters which the large association does not try to handle.

He suggested the advisability of joining the National Live Stock Assoclation, the better to aid in the grand work done for the stock raisers by that large and vigorous organization.

creased and the sheep immensely increased. However, there is no good reason for questioning these figures, and it was urged by Mr. Barnes that they should be studied by the cattle men carefully could hold for the business.

Roping Contests Discouraged. At the Cattle Growers' convention Roswell, Hon. J. F. Hinkle offered the following resolution, which was

forcibly indorsed by several large cattle owners present:
"Resolved, That the Cattle Growers' Association of New Mexico is opposed to the so-called 'Roping Contests' as now held at fairs and carnivals throughout the West and urge upon the officers of this association the preparation of a suitable law covering such contests, for passage by the com-ing Territorial Legislature and thus

EXAMINATION OF MURDERER

Galbraith and Mrs. Russell Questioned By the Chief of Police in Denver.

Denver, April 13 Last night Azel D. Galbraith and his paramour, Mrs. Lottic Russell, were examined in the office of the chief of police in the resence of District Attorney H. G. decided that the preliminary hearing he held Friday in Central City, providing sentiment against the murderer is not too strong there. Mrs. Russell will, it is thought, be held as an accessory. In any case she will have to ppear in Central City at the prelim inary hearing. The trial will come un in the Criminal Court in Central City on the second Monday in June. Gal-braith told the district attorney he would waive examination.

During the examination it came ou that Galbraith twice pawned his wife's wedding ring, which he took from her finger after he had murdered her, to secure money with which to carous with Mrs. Russell. The ring is now in Golden with a pawabroker. For the first time since his arrest Galbraith broke down and lost the cold-blooded demeanor which has characterized him throughout. He had to be taken to the police surgeon for a stimulant. Mrs. Russell was questioned in the presence of Galbraith and showed plaisly her contempt for him, but his eyes hardly ever wandered from her face and he did not try to conceal his infatuation for her. Mrs. Russell has engage torney Milton Antenger to guard her

"If you knew what I have done you would not let me in your house," are the words Mrs. Russell says Galbraith addressed to her one night after the murder. She says he was very drunk and had sent her a note asking get a carriage and call for him at a saloon. She did so and after riding around she took him to ber home. As she and the driver assisted him into the house he said those words to ker. She says she paid no attention to them because he was drunk.

WOOD ATTACKS MOROS

Sultan Taraca Was Intractable and Brought on Fight. Washington, April 13.—The follow ing bulletin has been posted at the

War Department:

"General Wood reports that he inwited Sultan Taraca to meet him at Vicars March 31st for consultation, and that the Sultan refused to come preparations. Marching columns from Marahut and Vicars left on April 2d to assemble the cavalry. The Vicars column was fired into all night ten miles from Vicars and one enlisted man was seriously wounded. The Marabut column was strongly resisted at the mouth of Taraca river, although every effort was made to effect a peaceful landing. Two enlisted men

were seriously wounded. The combined forces assembled in the valley April 4th and a large number of hostile fortified cottas, occupied were destroyed from April 4th to April 7th. The troops then returned to their proper stations. Newcomb, Company K, Seventeenth

infantry, and Wampler, Company D, Twenty-third infantry, were killed. "Every effort was made to bring the Moros to terms peacefully, but in each instance our troops were attacked before firing a shot and force was only used when all other methods falled and the enemy attacked us. The two chiefs who have been at the bottom of all the trouble on the east side of Lanao for two years are now in hiding and they will be arrested if possible. "General Wade, to whom General Wood's report was made and who transmitted it to the depretment, adds that the conditions in the Taraca valley for the last three months have been such as to render the above sotion absolutely necessary."

Parker Cheered in Congress,

Washington, April 13.—Judge Par-ker was named as the Democratic candidate for President in the House yesterday and Mr. Cleveland was with drawn. Mr. Cleveland also had himself placed on record. He wrote to Representative Bartlett of Georgia a letter which Mr. Bartlett read, in which he said:

"It so happens that I have never, in my official position, either when sleeping or waking, alive or dead, on my head or on my heels, dined, lunched or supped, or invited to a wedding reception, any colored man, woman or child."

Mr. Cleveland also denied that he signed the bill as governor of the state of New York abolishing separate schools for colored children. This denial was presented by Mr. Bartlett. After Mr. Bartlett had placed the letters in the Congressional Record he exclaimed that Mr. Cleveland needed no defense at his or any one else's

Brewster.
The platform strongly endorsed the administration of President Roosevelt and the administration of Governor Odell and the delegates at large to the national convention are "directed to use all honorable means to secure the nomination of Theodore Rossevelt.". There was some discussion over the fact that these "directions" included

only the delegates at large, but Gover nor Odell explained that in this way "since 1880, when we abandoned the plan of selecting the district delegates, the state convention has not, and, in-deed, cannot, instruct the district delegates. These delegates are elected and, if desired by their home conventions, are instructed. This direction of the convention to the delegates at large to secure Mr. Rocsevelt's nomination is the strongest way possible in which the matter could be put." When the convention was called to order Senator Chauncey M. Depew was introduced as temporary chairman. The senator spoke in part as follows: "When Panama fulfilled the threat known to all the world for months and successfully accomplished her revolution, the President acted within his

constitutional privilege with the di-rectness, courage and wisdom charac-teristic of his whole public life." The senator ridiculed the speech Representative Cockran, who had attacked the President for following the example of President Cleveland in fixing the age of total disability for veterans of the Civil war, by reducing the age limit from seventy-five years to

seventy years. Representative Sereno E. Payne was made permanent chairman. His speech was received with applause. 'We meet on the threal tional campaign. We point to things done in the past seven years of Republican ascendency.

Rate Does Not Apply to Books Published Periodically. Washington, April 13.-The United States Supreme Court has decided that books published periodically are not entitled to transmission through the mails as second class matter. The opinion was delivered by Justice Brown and covered three cases against the postmaster general, instituted respectively by Houghton, Miffilm & Co., Smith and others, and Bates & Gill. The Chief Justice and Justice Harlan

dissented. The question decided has been the subject of long controversy between the Postoffice Department and the publishers, both before Congress and inthe department. For sixteen years, and under eleven postmaster generals, these publications were carried as second class mail matter, though under protent from the department, which made many efforts to have the law modified or repealed, but without success. Failing in this, the postmaster general issued an order in 1902 excluding the books from the second class Thereupon the matter was taken to the courts, the effect being that | of Chinese into this country more difthe postmaster general was sustained | ficult than while the treaty remained in by the final decision just rendered.

After waiting with much patience for many days, Mr. Heyburn found opportunity to speak to the Senate on the subject of pure food. Technically, the speech was in support of a resolution calling on the secretary of agriculture to send to the Senate the results of the investigations made by his department into adulterated foods, but in reality it was in support of the pure food bill Mr. Heyburn contended that a very large proportion of foods, drugs and liquors were adulterated, and that many drugs were absolutely poisonous.

Eulogies of Mark Hanna. Most of the day in the Senate Aprill 7th was devoted to eulogies upon the

character of the late Senator Marcus A. Hanna. Mr. Foraker presented the usual resolutions of sorrow and was the first speaker. He said: "In the grave with him lies buried all differences, all hostilities, all prejudices and all unkindness of feeling of every sort that ever at any time may

have been entertained." He did not believe that if living, Mr. Hanna would want other than a frank discussion of his qualities, Con-

The Senate committee on finance knew him for the first four years of lovable man. He was bright cheery, generous, kind, strong and ever ready to practice self-denial, especially when it involved the preferment of a friend "These qualities were so pronounce and so manifest that none other co well be seen by those who looked offly through the partial eyes of friendship

"By these truits and habits he nat-urally made such ardent friends of all with whom he met that it was easy for them to think and believe that of he had differences with anyone or me with opposition from anyone it must have been without fault on his part. "But while he thus appeared to his friends, and to all who were in accord with him and had no occasion to know him except in agreeable relation appeared to have some additional and less agreeable characteristics to those who were so unfortunate as to be in-

opposition to him concerning any matter he deemed important. "To all such he was the very imper sonation of antagonism itself. He had such strong convictions that he always felt impelled in such cases to co with all his energy and power for wiviews he entertained and the cause he

espoused.
"As a result, he seldom resorted to diplomacy, or to any kind of effort to placate or mollify opposition, but re-lied upon the logic of hard knocks. "Like Napoleon, he believed that the way to win victories was to have the heaviest artillery and plenty of it, and to make vigorous use of it."

Mr. Foraker spoke eulogistically of Mr. Hanna's intellectual qualities, of his unerring judgment of me executive qualities, his executive qualities, his strong common sense, his business train-ing, etc., but said that he was deficient in scholarship and oratorical

gifts. Speaking of Mr. Hanna's career is "His services in the Senate covered all this time he was influential and helpful in determining policies and in shaping legislation of national and international importance and consequence, but he left behind him no statute or other measure of which he was

Government Irrigation Projects

The progress made in irrigation work of the government is reviewed in a publication issued by the Geological Survey which points out the necessity of great caution and conservatism in the extension of reclamation work. it says that of the irrigation pro-

jects favorably reported in 1903 which soluded those on the Truckee river in Nevada, on the Salt river in Ari at Ellis island. The agent will have access to all immigrants after they have been admitted, for the purpose of setting forth the advantages of the states or fortitories as phases for the been found feasible and construction on the engineering works along the Truckee and Salt rivers has pro gressed to a reasonable extent. The Montana project, however, has presented unexpected engineering dif-ficulties, as well as complications regarding water rights, so that progress is slow. It has been found necessary

to modify the first plans in order to achieve early results. The Wyoming project, as first out-lined, has been found impracticable. A better reservoir site than that on the Sweet Water river, however, has been a large system of development may be worked out there in the future.

Engineering difficulties are encountered in the Colorado project. The amount of arid lands thereby reclaim able is less, too, than was anticipated

At the coming national Demo cratic convention to be held in St. Louis, two names are prominently advanced for the presi-dential nomination, Judge Parker and W. R. Hearst. Of the former but little is known, save that he is a man of sterling integrity and strict morality, an uncompromising foe to the evil doer and a lasting friend to his associates. Of his position on the many and intricate problems confronting the nation, he has never publicly expressed himself, but his supporters claim that his lifelong Democracy has never been impeached, and that his staunch support of that party during adversity and success is sufficient evidence of his being thoroughly sound on national issues. That he is a man of extraordinary ability is without question, and that, if elected president, he would guide the old ship of state along those lines indicated by the platform resolutions. It is confidently expected that Judge Parker's nomination will heal the breach made in the ranks in the two late campaigns. Whether or not these expectations will be realized remains yet to be seen. That he will, if nominated, make a strong and vigorous candidate is acknowledged alike by both

William R. Hearst is a man widely known throughout the nation. He has many ardent admirers and, likewise, many bitter enemies. In fact, his friends love him best for the enemies he has made. In his newspaper career he has made the subju gation of the trust evil the para mount endeavor of his life. His generosity to the poor and destitute, and his personal interest in, and cordial co-operation in all movements tending toward the uplifting of the laborer and the amelioration of his condition has won for him the admiration and enthusiastic support of the artisans of the nation. BANK OF PORTALES,

The Bank of Portales, the oldest financial institution in Portales, sends greetings to the people of Roosevelt county, and wishes a happy and prosperons New Year to all. We are are in a better condition than ever to accomdate our customers, and if you are in search of a safe and conservative institution with which to do business; you

can find none better than the Bank of Portales.

Out of the 18,425 banking houses in the United States only about 5,000 are National Banks, and bank statistics show that in proportion to numbers, more National Banks

failed during the past year, than any other kind.

The banking laws of the territory are so framed as to rotect the depositor and, under its wise provisions, but few, if any, bank failures occur.

The Territorial Auditor is compelled, under the law, to visit all Territorial Banks twice a year and make an examination of their condition, and report the same, and the banks are required, by law, to make two reports, thus making four annual reports.

We want your business. Our motto is, "Live and Let Live." Call and see us and be convinced that it will be to your interest to do business with us.

STATE COURT HAS JURISDICTION.

ion of United States Circuit Court Reversed and Case Remanded to

Minnesota Courts. Washington, April 12.-The United States Supreme Court to-day decided the case of the state of Minnesota vs. the Northern Securities Company and the Northern Pacific and Great Northern Companies, involving the validity ern Companies, involving the validity of the merger of the two railroad companies, holding that it was without jurisdiction and reversing the opinion of the court below.

Justice Harlan, who delivered the opinion, said that the Circuit Court ahould not have undertaken jurisdiction in the case, the effect being to

remand the case to the state courts. St. Paul. April 12.—The Supreme Court decision in the case of Minne-sota against the merger is considered by the state's legal officers as a virtual victory for the state, although it puts the litigation back exactly where it was when the suit was first begun. This was the original suit against the merger, begun before the federal government began its action. It was transferred from the state to the federal court.

Judge Lochren in the Federal District Court took jurisdiction without much question and decided the case on its merits against the state. The United States Supreme Court now says virtually that Judge Lochren should not even have assumed jurisdiction, much less decided that the merger was a legal corporation, that could not be reached by the laws of Minnesota. The suit now goes back to the state courts The attorney general's office, in view of the dissolution of the merger or-dered by the Supreme Court, may decide to drop the litigation. But it is considered probable that it will be ushed in order to secure a test of the onstitutionality of the state law forbidding the consolidation of parallel and competing lines of railroads. The state and the merger attorneys both oined in urging upon the States Supreme Court that the federal courts had jurisdiction and the state filed a supplementary brief supporting het view.

UNITED STATES COURT.

Sheepmen Fined in Federal Court at Pueblo.

Pueblo, Colo., April 12.-George M. miley and Andrew Smiley, brothers and prominent sheepmen near Greeley, pleaded guilty in the federal court at 5 o'clock this evening to a charge of violating the shipping law by shipping scabby sheep out of the state. Their fines were made \$200 each and costs. This is the first case of the kind

tried in the West and the only one tried under the new law in the county. District Attorney Cranston received telegrams yesterday from Attorney General Knox asking him to push the case to conviction. The men confessed "having locked

Boles Refused New Trial.

Denver, April 12.—Russell Boles, new trial unless one is ordered for him by the Supreme Court. This was the Pueblo, who heard the case in this micro-organisms. city. Boles was sentenced yesterday. He was asked what he had to say why sentence should not be passed:

"I am just as innocent of this mur fer as you are," were the words which came tremblingly from his lips. Judge Dixon replied that the jury had found otherwise and he could see no reason for not taking the word of the twelve

In deciding the motion for a new trial Judge Dixon strongly criticised the action of Maurice Finn the attorney for Boles. He stated also that the defendant had the benefit of the good will of the sheriff's office and the police force, both of which assisted him in getting witnesses from all over the United States.

Martial Law Ends in Teller County. Denver, April 12.-By an order yesterday, martial law is no longer in force in Teller county, and all the troops will be withdrawn from there to-day. This action was taken by Governor Peabody in compliance with a request signed by officials, many citizens, and mine owners of Teller county, and declaring that the situation in the county was such that no further need of martial law or the occupancy of the county by troops was necessary.

"This ends the strike in Teller county so far as the military is concerned," said Governor Peabody, "The statement I received from the citizens convinced me that peacable conditions now prevailed there and that there was no necessity for the troops to remain longer."

Labor Leaders Coming.

Washington, April 12 .- An attempt will be made by the American Federa tion of Labor to put an end to mine and other strikes in Colorado. While the federation is not empowered to bring strikes to a close, its leaders are of the opinion that they may be able to settle some of the difficulties.

The executive committee of the American Federation will leave Washington next Thursday, going first to Chicago, where a meeting will be held to discuss some of the labor conditions in Illinois. Saturday the committee will leave Chicago for Denver.

short distance. An Easy Way To Do It.

Mineral, Idaho, April 11.-Mr. D S. Colson of this place has something to say which will be of interest to many men. Mr. Colson claims to have found a simple way to get rid of pains in the back, Sciatica or Rheumatism. He has cured himself and so claims personal experience in proof of his method.

Mr. Colson says:-"I had awful pains in my hip. They got so bad at last that I could hardly walk. I tried several things, but got no relief till I began to use Dodd's Kidney Pills and I had taken but a few of these pills till the pain left

me entirely. "Dodd's Kidney Pills certainly didme lots of good and I consider them

great medicine." The remedy that cured Mr. Colson is the same that has been making such sensational cures of Bright's Disease, Diabetes, Dropsy and Rheumatism all over the country. The name of the medicine is Dodd's Kidney Pills.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an infamed condition of the mucous lining of the Eustachian Tube. When this tube is indiamed you have a rumbing sound or imperfect hearing, and when it is extirely closed. Deatness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: — Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me.

"Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems

pleasant and easy.

Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. R. A. Our Home Treatment has proven successful.

Every housewife gloats over finely starched linen and white goods. Conceit is justifiable after using Defiance Starch. If gives a stiff, glossy whiteness to the clothes and does not rot them. It is absort lutely pure. It is the most economical because It goes farthest, does more and costs less than others. To be had of all grocers at 16 oz.
