Dallas and Roswell Road. It is announced that President E. P. Spears of the Dallas & Roswell rail-road, which is a projected railroad to built between Dallas, Texas, and Roswell, has advanced far enough in his plans to be able to authorize the commencement of grading work on the fered very seriously from the contin-ine out of Dallas. Dallas has been used absence of water in the river, but orking on this project for two or hree years, and, while many rebuffs ave been encountered, it appears that he hopes of the city will be realized. . he line itself will open a new and virin country, the resources of which have been lying practically dormant, wing to the great distance to rail ransportation. Thus out of Dallas the his will pass through what is known as the coming cotton country of Texas. and thence through a rich agricultural and cattle country. The line will tap the country situated between the Texas & Pacific line and that of the Fort Worth & Denver railroad, and the company also has under consideration the building of an extension from Roswell to Texas.-Albuquerque Journal

Attempted Lynching. Santa Fe dispatch of May 5th says: James Lelleard, a colored barber who on April 4th was released from the territorial penitentiary, attempted to commit a criminal assault on Erma Klein, the little daughter of Oscar Klein of this city, last night. A mob collected and at one time it looked as if a lynching would take place. The negro sought to hide, but was found by City Marsaal Gorman in an unused elevator at the Claire hotel. Lelleard is also accused of having attempted to entice several other small girls into isolated places by promising them small sums of money. He has just served a term in the penitentiary for attempted assault on little girl in Albuquerque,

Klein swore out a warrant for his arrest and he is now in the county jail. He was given a preliminary hear ing this morning and pleaded not guil-All danger of lynching is considered past.

### Normal School Teachers

At a meeting of the board of regents of the territorial normal school at Las Vegas May 5th the following were elected teachers for the ensuing year: President, E. J. Vert; mathematics, Prof. A. S. Otto, Grand Junction, Colorado; music and physical culture, Martha Furro; Latin, Myrtle Ball; principal of model school, Lira Levins; A. Waring, Grand Junction, Colorado; supervising critic, Florence Quigg: professional methods and reviews, Eleanor Thomas of Ypsilanti, Michigan; English, Helen G. Garrick, Yakima, Washington.

The last four are new. Seven of the old ones, were not re-elected owing to changes which will be made in the departments of the normal. Miss Minnie Enteman, Ph. D., of Chicago, who has been at the head of the science department for the past year. has just received notice of a scholarship amounting to \$1,000, conferred by the Carnegie institute as a result of the young lady's thesis on wasps.

J. W. Benham has been appointed by Governor Otero New Mexican representative of the Territorial Board of the Louisiana Purchase Exposition Managers of New Mexico, and will

have an office at St. Louis, Hugh Freeman of Carlsbad, son of Judge A. A. Freeman, died on the 4th instant from injuries received several days before by being thrown from a buggy during a runaway. An operation, "Diseases of the Horse," and his tion was performed, which gave temporary relief, but it was found that the skull was fractured and he died without recovering consciousness.

A Santa be dispatch of May 2nd says: Hugh Freeman of Carlsbad, son of Judge A. A. Freeman, was thrown from a buggy in a runaway to-day and sustained injuries which may prove fatal. His skull was fractured and he was picked up in an unconscious condition. His father is in Roswell attending court, but has been tele

In the District Court for Rio Arriba county, Maria Zenobia Valdez is suing her father, Antonio Valdez, to recover property which she claims as he'r of her mother, who died a few weeks ago at Coyote. It is alleged that while the mother was out of her mind her husband influenced her to disinherit the daughter of one-half of the estate, amounting to \$4,000. The annual convocation of the Epis

copal church in New Mexico closed its session in Albuquerque May 6th, after a successful session of two days, The church is reported in a very healthy condition throughout the territory, and marked increase in the membership is shown by the reports from the several parishes. The next convocation will be held May 11, 1905, in Deming. Nazario Gonzales, one of the oldest

citizens of Santa Fe, and for many years a prominent figure in public af fairs, died at his home at La Cienega twelve miles south of the city, May 2nd. He was eighty-seven years old and leaves several sons and daughters and a number of grandchildren. He served several terms in the Legislative Council, and as county commissioner.

An Albuquerque dispatch of May 5th says: Mariano Areinjo y Otero one of the best known Spanish editors in the Southwest, died here last night after an illness of a few days from pneumonia. He was a member of one of the oldest and wealthiest Spanish families in the country, and at one time wealthy. He built the first two-story building in the new town of Albuquerque. His funeral will occur tomorrow morning, and it will be one of the largest ever held in this city.

A Las Vegas dispatch of May 2nd says: The mysterious order of Los Hermitanos is celebrating its rites on Hermit peak, one of the loftlest mountains in New Mexico, to-night. Many great fires, plainly discernible from the city, are blazing brightly. The sacred ife of this peasant order will continue all day to-morrow on the mountain top and in a little chapel. Huge crosses have been carried up the stupendous cliff to-day. No one outside the order has ever fathomed the mysteries of the annual celebration.

INDIAN INDUSTRIES.

Exhibit of Blanket Weaving and Pottery Making.

the efficient head of the United States Industrial Indian School in this city. will leave to-morrow morning, says the Santa Fe New Mexican of April 30th, for St. Louis, where for a month or two he will be on duty with the United States Government Ethnological Exhibit in the Ethnological build ing of the Department of the Interior He will assist in the arrangement of exhibits and perform other official du twenty feet lower, they would all drown." With all the drouth and lack ties. He will take with him the following: Two Navajo young women whose names are Bah-tso and Zah-tso, experienced Navajo blanket weavers charging a stream of the vital fluid and who have been employed at the school for about a year. The necesfarm. By to-morrow evening the pumping plant will have run for a sary looms, implements, dyes and naweek, day and night, without inter-mission, during which time the well tive wool in large quantities in order that they may perform the work, will also be taken. general Indian bill and elsewhere an appropriation of \$200,000 that will be Would Open Up Rich Undeveloped expended in this territory. He secured Mineral Field. \$50,000 in the agricultural bill for ex-

Some little headway has been made towards the culmination of the project to construct a line of railway connecting El Paso with Durango, Colorado, and the rich coal fields of western Pecos valley and through his efforts New Mexico, and the Durango people on their part seem to be very anxious to help this matter along. Some time ago a company was formed in Durango for the purpose of fostering a line to Clifton to connect there with the Arizona & New Mexico road and thence reach El Paso; they now seem willing to again take hold of this matport for the striking out of the Amity

ternational Miners' Association, has had this matter up for a number of months and has had considerable correspondence along that line with different financial men in the east and has met with considerable encouragement from that field.

Mr. Gifford has also had this matter up with a number of El Paso peoplo and others in this section who are also interested in the building of the road and has met with encouragement nation to the public schools of the city on every hand. The most encouraging letter, however, is one just received from B. N. Freeman, president of the Colorado State Bank of Durango,

"Regarding the railroad enterprise, the people of our city incorporated some two years ago the Colorado & Gulf railroad and we had a survey made from here to Clifton, where it was proposed to connect with the Phelps-Dodge roads and thence into El Paso, making a short and valuable line. Why would not this an swer the purpose in which your El Paso people are now becoming interested. You can write me fully regarding this, as I can assure you that this section will join heartly in any movement which will open up that section to the world. It means a revolution to this country and it also means a great deal to your section.'

ers in Colorado. This project will, of course, be slow of realization, but there now hardly seems any doubt but that it will come and when it does it will be worth an untold amount to this section, as it will open up a rich mineral section, which hitherto has been almost inaccessible owing to its remoteness from rail transportation and then, too, it will open a rich coal section that will

Bell With a History.

An old bell bearing the inscription "A. D. 1355," has been acquired by Governor Otero, and will be shipped for exhibition in the New Mexico building at the St. Louis Exposition. The bell has a unique history. was brought to New sexico from Spain by a Franciscan friar, one Juan De Padilla, who accompanied Coronado, and was first hung in the of the of the seven cities of Cibolia. which proclaimed the beginning of It was then taken to Gran Quivers work in dead earnest on the electric and hung in the church there, and af-atreet rallway for Albuquerque. The terward to Algodones, and has hung next spike, a regular steel one, was driven by J. Yilkinson, attorney for the company, after which Chief Engineer in the parish church trers ever since. Rules Governing Democratic Primaries.

The Democratic Central committee, at their last meeting, adopted the following rules for the Democratic primaries, to be held on Saturday, June 11, 1904:

In any precinct, if a sufficient number of voters shall apply to the chairman of said precinct for a change in the voting place, the chairman may make the desired change and appoint necessary officers, subject to the approval of the committee.

man may make the desired change and appoint necessary officers, subject to the approval of the committee.

In the svent of the precinct election officers
being absent on the day of the primaries, any
and all vacancies shall be filled by the voters
present at the time of opening the polls.

No one shall be allowed to vote unless he
shall be a legal elector of the precinct in which
he offers to vote on the day of the next general
election. The legal qualifications of electors
shall be the same as those governing general
elections, and further, that he must be a Democerst. Any elector who has not heretofore afdilited with the Democratic party, may become a Democrat by remouncing all former
political allegiance, severing all former political ties and pledsingthimself to support the
numbers of the Democratic primaries and also
the numbers of the territorial convention.

It entered of challenged votes and contests, the
mode of procedure shall be same as gover a

save that the Democratic shall canvass all votes and central elections, save that the Democratic Central committee shall canvass all votes and decide all contests.

On or before the 22d day of May, 1904, each candidate for office must submit in writing to the chairman of the Democratic Central committee of Roosevelt county, which shall be kept on file by him, his declaration, which shall be, in substance, that he submit his name to the decision of the Democratic primaries and will abide by the result and support all the nominees made thereat. He shall also pay to the chairman, at the time of filing his statement, the sum designated below, which shall be used for defraying the expenses of the primaries. In case of failure to comply with these requirements, the caladidate so failing shall not, even should be receive a majority of the votes cast, be declared the nominee of the party, and his place shall be filled by the Democratic Central committee, it always observing the next high, est vote.

Within five days after the holding of the

Republicans can't vote at Democratic primaries, that's tyranny. Homesteaders who desire to make final proof on their place, have to pay \$7.50 to advertise their intention, but, under the regime of "Teddy-the-Conceited" no Democratic paper can publish these notices, this is Republican liberality.

As was very naturally expected our Republican friends are kicking with all their power against the rules governing the primary election. The Democrat'c Central committee did not consult the wishes of the Republican bosses for the reason that this is to be a Democratic affair, and we want nothing foreign or unclean about it. The motive the Republicans have in view is to create all the trouble they can in the Democratic ranks and thus strengthen their own chances of success.

Apropos of the criticisms passed upon the rules governing our Democratic primaries by the three or four Republicans who would like to control the whole works, we would suggest that had your advice been desired, the committee would have solicited it, not having done so, it naturally follows that your valuable counsel was not deemed advisable or necessary to Democratic success. Gratuitous and unsolicited services We sell them in are usually below par, and unsought advice is quite frequently valueless.

In the announcement column of this paper the name of J. W. Gregg See us for "up-to-now" Footwear. Just rehas appeared for some time as a candidate for the office of county treasurer at the ensuing primary election. Mr. Gregg is one among those who first determined to transform Inland Valley from a grazing section into an agricultural community, and the faith which first moved his resolution still abideth with him. Like many of our best people, he came here from Texas. which, in itself, is a guaranty of his Democracy. His integrity is unimoffice of county commissioner for Rooserelt county, subject to the action of the Democratic primaries.

P. E. BROOCKE.

peachable, and his qualifications to fulfill the duties of the office are required by all who know him.

Mr. C. W. Morris, who, at present occupies the position of justice of the peace for this precinct, is now a candidate for the ofice of county treasurer. To those who have long resided in this county, Mr. Morris needs no introduction from us. He was formerly engaged in business here, in fact, he was the first to open a lumber yard in Portales. He has long been known, not only here, but in Texas, as an uncompromising Democrat, and a man of broadguaged business ability, coupled with that honesty of purpose and straightforwardness in his dealings afford to be without your official which infallibly denote the true man.

Mr. A. J. Gaines left Texas for the more congenial climate of Roosevelt county, in which last mentioned section he has taken up his permanent abode. For many years Mr. Gains was a merchant in Texas, and came here accompanied by an enand discharge the duties in a manner satisfactory to those who elected

years he has resided within the confines of what is now Roosevelt countp. Formerly an influen ranchman, he bowed gracefully to the trend of agricultural advancement, and is now recognized as one of our most successful and public spirited stock farmers. He has left no stone unturned to promote the rapid development of the country, and has signalized the sincerity of his convictions by constructing valuable improvements upon his homestead near town. He is a Democrat of the aggressive order, and a business man of consummate ability. He is eminently qualified for the office to which he aspires.

Artesian Water in Sight.

Judge Briant and Bert Roby, of Portales, were in Texico this week, circulating a petition to our honorable commissioner's court to allow Roosevelt county to comply with the law, and issue bonds to sink artesian wells in the county. Our territory has a plain, safe and practical law on this point, and we herewith publish the sections bearing on this subject, verbatim, that our people may understand it fully. We wonder that this wholesome law has not been tried before, instead of the inefficient private subscription plan. which is now being tried at Portales Our people readily signed the petition, and it is hoped that it will be put before the commissioners next Monday.—Texico Trumpet.

Right you are Brother Hornbeck, and your stand on the side of progression and enterprise is ample proof that the welfare of Texico and vicinity are safe in your keeping and that you will always be found with those who have the common weal

Judge Hunt and A. Ragsdale, of Texico, were in Portales Monday. Their mission was the delivery of a petition to the county commissioners to comply with the law and divide the county into commissioner districts. This is the second petition of the same nature filed.

Rev. John Lane, evangelist and scriptural lecturer, returned to Portales this week and will assist in the Baptist revival here. Rev. Lane recently purchased several residence lots in the Benson addition and contemplates the erection of a residence and the establishment of headquarters here.

K. E. Tiptop has employed a new apprestice at his blacksmithing establishment. "Tip" says be is small and will only get his board and cloths to start on, but that he possesses genius of a high order and twelve pounds.

Men engaged in the promotion of industry and enterprise should not miss the opportunity of visiting the Portales draw, where they can investigate the greatest nattral advantages ever offered in the direction of successful irrigation. Thousands of acres of rich soil, inexhaustible supply of fresh water at an average depth of 20 feet, flowing water at 300 feet. Where can you beat it?

H. F. Stoldt, candidates for assessor change Building, Chicago, Illinois. probate clerk and sheriff, left this week for Socorro to attend the U. S. court. These gentlemen would like to be with the people during the present campaign, but the mandates of the court are peremptory and faculty. His services will also be they leave their cases in the hands of their friends, asking for an impartial consideration at the coming music, or who desire the best inprimaries. Should circumstances struction in music will be greatly depermit, they will return in time to lighted as Prof. Garrett is recogmeet the Democratic voters of the nized as being one of the most tal-

Secular or Spiritual.

In a new country many people do not get to church; others, for reasons best known to themselves have given up the church. The west is the New England or ploneer country of today, and it would pay anyone to figure out whether the development of this new land without the widespread presence of the religious "Good morning, vote for bonds." impulse will ultimately produce the See Blankenship & Woodcock for best type of American community. In the struggle for existence, man may easily drop to the mere secular view of life; a view, however, that scarcely distinguishes him from the animal creation. But man's life was made to go upward. Today, there A little money buys lots of shoes exists in all communities a class who, while ignoring the claims of religion, Tom Trammell was doing Portales are apparently earnest and true to a high moral conception of life. No one can deny that they believe in the great law of work, and, as a class can be depended on to uphold the dignity of honest labor, whether it be with muscle or mind. In the industrial and commercial progress of the bee-hive era, this class seems to be an immensely important factor. Furthermore they believe in the law of love, operating in the home, in society, in the nation. Indeed, after a fashion, they respect the church, often support it floancially, attend somewhat, and are by no means "heathens." In fact, with quite high standards of morality and a cordial toleration of religion, they live their lives, and when they die,

Go and see them. Sanders' harness wise view of life. Jesus Christ said it. Teacher after teacher had come before him expounding beautiful morality and ideal society, but Christ preached not primarily the science of morality, nor the law of work, but the science of a kingdom, not on earth. Said he. "Seek ye first the kingdom of God and all things shall be added unto you." The man fashfonable markets at Breeding & therefore, who reverses this law; thereby emphasizing the secular, is Those desiring a first-class daily the enemy of true progress upward. JOHN MEEKER.

# To Vote Bonds For Deep Well

Question Meets With Unqualified Approval From All Sections of the County

### A STRAIGHT BUSINESS PROPOSITION

Should the Bonds Be Issued the Artesian Well Proposition will Be on a Sound Financial Basis.

THE EXPENSE WILL THUS BE EQUALLY DIVIDED

Well Will Be Sunk on Private Property and Paid for by Owner if the Well Proves Successful.

The acts of 1897, governing the issuance of bonds for the purpose of securing money for the sinking artesian wells, by the Commissioner's Courts, of the respective counties in the territory, are as follows: passed on to their reward." Much

### Zeige igte gleiche gleiche igte gleiche gleich

640. Any county in this territory may issue and sell bonds to the amount of six thousand (\$6,000.00) dollars for

the purpose of sinking artesian wells. 641. The object of said wells shall be to ascertain whether flowing water be procured on lands, at present, considered above and beyond the belt wherein it has been demonstrated that flowing wells can be obtained, and to encourage the boring of such wells, for the purpose of increasing the area and productiveness of our agricultural lands and to reclaim high mesa lands, which are now valless for agricultural purposes.

642. Before any bonds shall be issued for the purpose set forth in the preceding sections, not less than twentyfive tax payers of the cnunty shall present a written petition to the board of county commissioners, requesting them to call an election within and for that particular county, for the purpose of voting on the proposed bond issue. When any such petition shall have been presented to the board of county commissioners, at a regular meeting of said board, it shall be the duty of said board to call an election to be held within thirty days, for the purpose of letting all qualified voters vote on the said bond issue. Said election shall be conducted in the same manner and form as general elections are now held.

643. If two thirds of all the votes cast at said election be in favor of the bonds, it shall be the duty of the county commissioners to forthwith issue and sell said bonds

644. Said bonds shall mature in not less than fifteen nor more than thirty years, and shall bear an annual rate of interest not exceeding 7 per cent, and shall not be sold for less than their value.

645. The funds derived from said sale of bonds shall be known as the artesian well fund, and shall be under the control of the county commissioners. 646. As soon as the bonds are sold the commissioners shall advertise for bids for boring a well, and shall let a

contract to the lowest responsible bidder. 647. Said well shall be sunk on the land of the person, or persons who will agree to give the highest price for the same, provided water is obtained; the person making the bid to accompany said bid with a good bond for the faith-

648. If water is secured and said business proves successful, the commissioners shall keep all moneys so derived from the sale of wells, in active use until said bonds mature at which time they shall apply the money then on hand to the payment of said bonds, and convert the surplus, if any, to the general expense fund of the county.

\*

cheap, adequate and expeditious method by which the people of Office in Bank of Portales Building. Roosevelt county may, without prejudice against, or favor for, any particular section of the county, secure the necessary money at low interest. In addition to this, it takes the matter out of the bands of private individuals and places it in the custody of the commissioners' court, who are under bond to exercise, in a proper and legal manner, a judicial supervision over the affairs of the county, and to handle and disburse, under the provisions of law, the people's money. In the event artesian water is obtained, the amount bid for the well reverts to the artesian well fund, and repays the county the amount expended for drilling, together with the bonus artsing from such sale. The amount of interest payments incurred by the county to the bond purchasers will probably not exceed \$375 per annum, and the additional tax rate incurred can not exceed one fortieth of one per cent, and probably not so

To those who profess belief in the story of sectional advantage them to J. J. Wilsford, who will re- from the issuance of the bonds, we desire to draw your attention to section 647 of the statute printed above, wherein it is provided that the well must be sunk on the property of the person or persons who will agree to give the highest price for the same. Un-"The Earth" is a new illustrated der this provision, no section of the county is debarred from participating in the benefits accruing from an artesian well. The pe Santa Fe. When E. J. Vawter retired from the active life of a banker he sought recreation in ranching. Part of the land is the confines of Santa Monica, the perticular section of this city claiming title ticular section of the experimented with, to Ocean park, he experimented with, five years ago, for a more remunerative trop than that of barley. A tract of about two acres was planted with pure Salifornia seeding carnation plants. Since then the acreage has increased to twenty, and at the close of the planting work this season the ranch will have 200,000 plants in active growth. Ultimately, the most of a 200-acre ranch will be devoted to the culture of

In brief, the carnation fields are yielding on an average from 6,000 to 10,000 flowers every day in the year, with a market in which the demand is at all times greater than the supply. The plants are perpetuating in a sense, are propagated in the open fields, cultivat-ed with less labor than ordinary crops, and are exempt from insect pests and but rarely troubled with disease, excepting ordinary fungus attacks.

The average life of a field carnation varies from two to three years. New plants are taken in cuttings from the old ones and put directly into the ground. They take root in about four rocks, and in about ten months are in bloom and continue to give their daily quota of blossoms until they die out, In planting the carnations are placed in rows three feet apart and the plants two feet from each other. This permits the cultivation with horses, and after once in healthy growth they require only watchfulness for disease and insect pests, irrigation about every two weeks and daily picking.-Los An- river. geles Times.

A Sure Protection.

Barton, N. Dak., May 9th.-Many cases are being published of how diseases have been cured and lives saved by Dodd's Kidney Pills, but there is a family in this place who use this remedy as a protection against the coming on of diseases and with excellent results.

Mr. W. A. Moffet says: "We have no very serious illness or complaint for we always use Dodd's Kidney Pills the very moment we feel the least symptom of sickness and they soon put us right. If we have a touch of lame back or think the kidneys are not right, we take a few Dodd's Kidney Pills and the symptoms are soon all gone.

"My brother had diabetes and the doctor told him he could not live until spring. - I got some Dodd's Kidney Pills for him, and although that was several years ago, he has lived through all the winters and springs since and is still living. Dodd's Kidney Pills are a wonderful medicine."

"The Bible says, 'swear not at all."
"Well, I don't swear at everybody, but I tan't help swearing at Bill Lynch." her disease is catarrh, and that Peruna can be relied upon to cure catarrh

How to Clean Laces. To clean delicate laces, take a large jar, cover with old cotton and spread the lace carefully on it. Set the bottle in warm Ivory Soap suds and leave for an hour. It sun and they will disappear. Rinse by dipping the bottle in clear water. ELEANOR R. PARKER.

Young woman, be not deceived; the marriage altar cannot be relied upon to alter a man's habits.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to ary other brand, but because each 10c package contains 16 ozs. while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

A man seldom gets what he asks for without regretting that he didn't ask for more.

H. M. STANLEY DIES IN LONDON.

EXPLORER DEAD

of the Career of One of the World's Greatest Explorers and Newspaper Correspondents. London, May 10.-Sir Henry M. Stanley, the African explorer, is dead.
Sir Henry, who was attacked by pleurisy a fortnight ago, died at his London residence. His illness was complicated by chronic heart trouble. He

had been in a semi-conscious condition since Sunday afternoon.

Henry M. Stanley was conceded to be the most noted traveler and explorer of his time. His greatest fame grew out of his finding Dr. David Livingston in the heart of Central Africa, after that greatest of all missions rich and hear lost to the world

sionaries had been lost to the world for several years, and later Stanley's successful efforts in carrying out the work begun by Livingston in solving for the world the secrets of Darkest The first years of Stanley's life were spent in an English poor-house. His name was Henry M. Ragland, but at an early age he went to New Orleans to live with an uncle and assumed that uncle's name—Stanley. His school education was limited, and before he had reached the age of 20 he had enlisted

in the Southern army. At the close of the war he drifted to Colorado, and he is remembered by many of the men who first gathered at the Gregory diggings near Central City. It is said that his first journey of exploration was made down the Platte river, starting in a common row boat at Denver, and extending his journey to the Missouri At that time Stanley commenced to write for the newspapers, and the next heard of him was when he accompanied a government expedition, of

which John D. Howland, the Denver

artist, was the official secretary, to

the Rosebud and Sioux agency in Da-

kota. He was then correspondent for the New York Herald. Later Stanley went to Europe, and next made two journeys into Africa as war correspondent-first to Abys-

sinia and then to Ashanti. James Gordon Bennett then sent Stanley to find Livingston, and then followed his memorable journeys into the unknown regions of that continent, his discovery of the sources of the Congo river, and a further five years spent in the development of the Congo region in the employ of King Leopold. In 1886, while on a lecturing tour in

the United States, he was called upon to rescue Emin Bey, the lost governor of Ethiopia, in upper Egypt. That work he carried out successfully in the next three years, winning the acclaim of the entire world. No man was ever given higher honors.

Stanley settled down in London. His one aim in life was to sit as a member in the English Parliament. At first be met defeat, the next effort was successful, and he has been re-elected time and time again. From a poor-house he rose, by his unaided efforts, to be a member of the

Haywood on Trial.

Denver, May 10 .- William D. Haywood, secretary of the Western Federation of Miners, who has been under arrest for several weeks on a charge of desecrating the American flag, was given a trial yesterday morning in Justice Hynes' court. The act of desecration, as claimed, consisted in the printing by the federation of a number of questions on a picture of the flag and passing them out as circulars. Among the questions was: "Is Colorado in America?"

Deputy District Attorney Taylor offered one of the flags as evidence and brought out the fact that the Western Federation had had it issued. He made his argument on the statute which strictly prohibits the use of a flag for advertising purposes.

Attorney Hawkins for Haywood insisted that the statute was not constitutional, and that if it were, nothing chuld be done to his client, as the law said that flags could not be desecrated. He held that a picture of a flag was not a flag, and went on to show that innumerable business houses all over the country used pictures of the national colors for advertising purposes without the least objection from anybody. Justice Hynes took the matter un-

der advisement and will render a decision Thursday.

Wray Telephone System. Denver, May 10 .- A Republican special from Wray, Colo., last night says:

"The stockhoiders of the Wray Telephone company held a special meeting to-day for the purpose of making some changes in their articles of incorporation giving them greater powers and extending the territory in which they will operate. The proposed changes were adopted, and the company is now in a position to branch out in Colorado, Kansas and Nebraska. The construction work on the line west to Akron and Brush has begun and will be pushed rapidly.

"There was a large representation of stockholders present from this county and from Kansas and Nebraska, and each one expressed gratification over the progress made and the promising future. Already the Wray system is the largest of any system near the conjunction of the three states named, and has recently added a local exchange at Benton, Neb., and will soon place one at Stratton."

Pueblo Officials Arraigned. Pueblo, Colo., May 10 .- City and county officials and others indicted by the grand jury were arraigned before Judge Dixon in the District Court yesterday. Pleas in abatement will be filed in all cases and ten days will beallowed in which to file them. Judge Dixon said that such filings must be made promptly, as he expected to ask another judge to try the cases. One indictment against Officers Roesch and Grant was nolled. District Attorney Low gave as a reason for this action a request in writing made by Frank P. Lannon, father of Jesse Lannon whom the officers were accused of assaulting, while in jail, that such action be taken. He expressed the belief that the officers did not assault his son.

British Fight in Thibet.

British Camp, Caro Pass, Thibet, May 9 .- A stiff fight on the 6th drove the Thibetans from their position two miles below the pass. The fight lasted six hours. The Thibetans, numbering 1,500, held the positions with great tenacity and lost nearly 200 before

In local treatment of female ills Paxtine is invaluable. Used as a Vaginal Wash we challenge the world to produce its equal for thoroughness. It is a revelation in cleaning and healing power; it kills all germs which came inflammation and discharges.

All leading druggists keep Paxtine; price, No. a hox; if yours does not, send to us for R. Boart take a substitute—there is nothing like Paxtine. they were expelled.

The British losses were Captain Bethune and three men killed and twenty-one men wounded.

A snow storm prevailed throughout the fight. ABOUT THE BEAR

ARUIN USUALLY GOOD NATURED

A Bad Thief, but Not Go Cross as Some Farm Dogs-It is Best Not to Pick a Fight With Him.

The brown or black bear of California ria is the most cowardly animal that roams the hilis. He is a worse thief than the Northern wolverine and at the same time better natured than half the farm dogs the hunter chances upon. A pair at play will furnish more amusement than a three-ring circus and run like scared deer if you but show yourself through the brush-in short, the brown bear is the most "amoosin' cuss" of all, if approache

But don't be misled into picking a fight with either of our small bears unless you are well armed, for the black or the brown bear-one and the same animal under variations of pelage -will fight feroclously when cornered. You will come upon them, too, in the most unexpected places; not even the willful jacksnipe can beat a brown bear in variability of moods or choice of feeding ground. Traveling in the mountains one is apt to come upon Sir Bruin drinking from a little wayside stream, and the very next day, having descended into the foothills, find possibly a pair playing about some poorly guarded sheep camp. Good-natured as is either of these

smaller bears, which weigh from 400 to 500 pounds apiece, it is best to know how to hunt them before attempting it. As with most big game, the best way to hunt them for sport is alone with a reliable rifle and a good knife, though there is seldom occasion for using the latter if the hunter keep cool. If one is hunting for hides or to rid a section of undesirable bear neighbors, a well-trained little dog is probably the best ally. Fox terriers usually are best, as they are quick, resourceful, and brave to a degree. A little dog brought up in a good bear country, where he has roamed the hills all his life, has had the best training possible and is a prize to be taken care of.

As has been said, a black or brown bear seldom keeps one address long, but likely most of them just now are down among the oaks, where the faller acorns afford them an easy living There are possibly a good many along the willow fringes of the larger water courses, but once let the bear get first sight of you there and he will make off into a tangle of elder scrub, willow underbrush, and blackberry vines in which you and your dogs will last about three minutes.

If a bear could be persuaded to play football he would make the swellest line bucker ever on a gridiron, judging by the way he goes through a tangle of undergrowth, and the way a bear of any species will attend to a dog that dares to follow him alone into such retreat is certainly scandalous. Los Angeles Times.

\$100 Reward, \$100.

has been able to cure in all its stages, and that is Catarrh, Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, setting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The projectors have so much faith in its curative powers that they offer One Hundred Doilours for any case that it fails to cure. Send for list of testimonials:

"So you have discovered another germ?" "Well," answered the scientist, "we haven't exactly discovered it, but we have christened it."

Superior quality and extra quantity must win. This is why Defiance Starch is taking the place of all

quire riches, and the rest of us have got to hustle.

No chromos or cheap premiums, but a better quality and one-third more of Defiance Starch for the same price of other starches.

The president of the Colorado Norhouse built by the state. Birch is used for the woodwork—lest he forget.

Wiggle-Stick LAUNDRY BLUE Won't spill, break, freeze nor spot clothes. Costs 10 cents and equals 20 cents worth of any other bluing. If your grocer does not keep & send 10c for sample to The Laundry Blue Co., 14 Michigan Street, Chicago.

"It takes three generations to make a gentleman, they say." "Yes: the first makes the dough, the second makes high connections and the third makes an ass of theif."

Colorado farmers who want to own land where they can make as much money raising potatoes and field peas as on a Greeley farm, should find out this spring about Romeo, the new settlement in the San Luis Valley. Conejos County Land & Investment Company, Zeph. Chas, Felt. president, 616 Majestic building, Denver, Colorado.

The girl who makes sheep's eves at Every housekeeper should know

that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz .- one full pound-while all other Cold Water Starches are put up in %-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injur.ous chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Dellance. He knows that Defiance Starch has printed on every package in large letters, and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

If a pupil placed a bent pin in your chair, wouldn't you think it a case for corporal punishment?" "No: capital pun-

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing so helpful to young girls who are just arriving at the period of womanhood Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I cannot praise Lydia E. Pinkam's Vegetable Compound too highly, for it is the only medicine i ever tried which cured me. I suffered much from my first menstrual period. I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish, I had headaches backaches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over. In fact, I was sick all over.

Finally, after many other remedies had been tried, we were vised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in perfect health. I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, for it made a different girl of me. Yours very truly Miss M. Cartledge, 533 Whitehall St., Atlanta, Ga."

At such a time, the grandest aid to nature is Lydia E. Pine

ham's Vegetable Compound. It prepares the young system for the necessary changes, and is the surest and most reliable cur-for woman's ills of every nature. Mrs. Pinkham invites all young women who are ill to write her for free advice. Addres, Mrs. Pinkham, Lynn, Mass. Mrs. Estes, of New York City, says:

"DEAR MES. PINEHAM: —I write to you because I believe all young ought to know how much good your medicine will do them. I did d making for years before I was married, and if it had not been for Lydia E. Pinkham's Vegetable Compound, I do not believe I could have stood how my back used to sche from Ab. the strain. There is no other work that is such a strain on the system how my back used to ache from the bending over! I would feel as the I would have to scream out from the pain, and the sitting still made me to terribly tired and weak, and my head throbbed like an engine. I never could eat after work, I was so worn out. Then I was irregular, and had such frightful cramps every month they would simply double me up with pain. I would have to give up working and lie down. But Lydia E. Pin ham's Vegetable Compound changed me into a strong, well wom Yours very truly, Mrs. MARTHA ESTES, 513 West 125th St., N. Y. City."

No other female medicine in the world has received such wide spread and unqualified endorsement. No other medicine has such a record of female troubles cured. Sold by druggists everywhere. Refuse all substitutions. Remember every woman is cordially invited to write to Mrs. Pinkham, if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
