manent appointment is made.

les southwest from Roswell, New dexied The Historical Society of New Mexco recently secured a number of ineresting stone articles that had been excavated fr m the ruins of an ancient ueblo situated about six miles northast from Tesuque, near the Rio Del Medfo. This ruin has been entirely unknown to archaeologista and has never been visited by tourists. Consequently it is a virgin field for exploration and excavation.

This afternoon Lawrence Lee, son of Mr. and Mrs. Fred W. Lee, was badly injured as a result of Fourth of July fireworks, and Burt Skinner received painful wounds. They had been firing a toy cannon nearly all day, and this afternoon it exploded with the result that Lawrence's left hand was so badly mangled that it had to be ampu-It is feared, also that his eyes are ruined from powder burns. The Skinner boy escaped with less serious injuries, but he will carry marks on his face during his lifetime.

Robert L. Slaughter, a 12-year-old boy, who with Charley Bruell, a goat herder 15 years of age, were watching their flocks in the White mountains near the head of the Ruidose river, saw a big black bear, apparently trying to belligerent actions, but the younger boy seized a 80-30 rifle and went after bruin. The first shot broke the bear's leg, and the second killed him instant-The lad's relatives refused to give credence to his story that he had killed a bear, but when he persisted they went with him and brought in the body of a very big black bear

The Central Labor Union at Albuqueque, in order to get some funds to pay certain expenses, gave a two-days' celebration at the Fair grounds, consisting of horse racing, footracing, and a series of ball games between Fort Wingate and Albuquerque teams. The game July 3rd resulted in a victory for the Albuquerque team by a score of 21 to 8, and the same club team won on the 4th by a score of 16 to 0. July 4th the orators were Delegate B. S. Rodey, Mayor Frank M. McKee and Attorney R. W. D. Bryan. An immense crowd attended the two days' festivi-

The following is the report of the crop service for New Mexico issued June 28th. The temperature has averaged considerable below normal the closing days of the week being quite cool. Beneficial showers occurred at the beginning and at the end of the week, heavy in some localities, principally in the Northeast. Light showers occurred in the South portions of the territory. The western parts of Mc-Kinley, Vafencia and Soccorro countles remain dry and forest fires continue in he Gila reserve, causing destruction to imber. There is slight improvement n the condition of corn, wheat, oats, ans and peas. Further planting has aken place in unirrigated sections which have been visited by rains, espefally in northern and central counties. Alfalfa continues to be harvested in the higher districts. Stock and range have een especially benefited by the showers. Grass is growing nicely and stock conditions are improving in the north-eastern districts. Shearing is progressing in the northern counties with light clip, owing to the poor condition of the sheep.

The United States Civil Service Commission announces an examination to be held on July 20, 1904, at Albuquerque and Las Vegas to secure eligibles from which to make certification to fill vacancies as they may occur in the position of railway mail clerk in this territory. The examinations will consist of spelling, arithmetic, letter writing, penmanship, copying from plain copy, geography of the United States, systems of railway transportation, questions relating to the names of railways entering and running through the applicant's railway mail division and connecting the principal cities or important railway centers within or near its borders; also functure points on the required railway routes and the railroads connecting at such juncture points, and reading addresses. As the commission has experienced considerable difficulty in securing eligibles for this position, but one eligible having resulted from the examination held on April 13, 1904, qualified persons are urged to enter the examination. Age limit, eighteen to thirty-five years. This examination is open to legal residents of New Mexico only. Applicants must be at least five feet six inches in height, exclusive of boots and shoes, weigh not less than 135 pounds in ordinary clothing, without hat or overcoat, and have no physi- farming country.—Santa Fe New Mex- tain road to be found west of the Mis- pitelty in the Victor riot of June 5th. west Youth Bigh

Review of Wool Market. The buying season for the wool in dustry in Albuquerque is now rapidly approaching its end and the represen tatives of the various eastern houses are leaving for other districts in the wool belt prior to their return to the

other market.
This year, in the local market, says he Pecos Valley lines have ordered comparison to the supply on hand in material for a handsome new depot previous sensons. Owing to the fact Roswell and work will begin in the ar future. The new building will be the mountains has not been brought to o stories in height and will be built this city, but has gone direct to the Rast, a shortage in comparison with previous sessons of over 1,000,000 ill health, has resigned the position pounds is recorded. H. E. Mooney, a well known Philadelphia buyer, mates that there were 1.500,000 pounds in the Albuquerque market this year in comparison to the 3,000,000-4,000,000 common in previous seasons.

The prices obtained for the clip have been on the average high which is ac counted for by the increased demands al school students left Santa Ee for ir homes June 30th; to spend the of the manufacturers. Many of the large factories have entered the market direct, not relying on commission firms for their season's supply. This, along with the shortage and the disinglinahas caused the market to retain the upward tendency which was first appar ent last season. Out-of-town-buyers have all been dissatisfied with the high prices, claiming that there was no reason for the advance and its maintenance when the eastern demand was taken into consideration, but the fact that there was not a break seems to have proven conclusively that the relation between the demand and supply as shown by the prices asked, was correct, The fleece this year, if anything, has

been heavier than in former years and will, from the woolman's standpoint, continue to grow heavier as the breeding continues. No unusually large sales have been reported, but the business done by the local buyers is a criterion of the future. Most of the wool has left the country for the East to be scoured. There are a few scattered lots still remaining of wool in the An Albuquerque dispatch of July 4th grease, which must be sold before the market is brought to a final close. is in order to secure these lots that the few buyers now in the city remain and it is only a question of a few days when the market will be as nearly "cleaned out" as is possible.

### Wool Crop Profitable.

A Las Vegas dispatch says that notwithstanding the ravages of drouth, wool men in the northern part of the territory will have a prosperous year. The wool clip, both in quality and in quantity, is above the usual standard. Prices are higher than they bare heen for years and the competition is so keen that the product finds a ready sale at 14 cents.

In one instance that is known a big lot of Union county wool brought 16 steal a goat. The elder lad advised no cents. The buyers are kicking about the high prices but the fight is considered of much importance to this section. With the exception of parts of Union and Colfax counties the northern New Mexico sheepmen have lost from twenty-five to ninety per cent, of their lambs and there has been considerable loss of 'old sheep.

'ine money paid to the sheepmen for wool will be kept in the country, will help all the business men and will go far towards averting the suffering that was anticipated among the country

The whole northern part of the territory now looks like a garden. The rainy season has set in and the people generally look to the future with considerable confidence.

Stock is in fine condition and the rains came soon enough to enable the native farmers to plant late crops of beans and chili. There will be some hardships, but not nearly as much as was expected, and the business outlook is not at all bad.

## Electric Storm at Roswell

A Roswell dispatch of July 4th says: Several electric storms occurred in this city last night and were accompanied by a downpour of rain. The Honde ran over the banks and the southern part of the city was flooded. Seventy-five telephones were disbled by the electrical disturbance.

Lightning struck the rear end of the Celiseum bowling alley and two pinboys were severely shocked and were knocked from their seats.

Six alleys were being used and the players all felt the shock of the lightning, but none was seriously injured. One of the bowlers said: "The light ning made a strike and also spared, as it did not kill any one."

A part of the dam at the Turkey, Track' ranch was washed out yesterlay. It will require \$50,000 or more to

Governor Otero has been requested by the Secretary of the Interior to prepare his report for the fiscal year which ended June 30, 1904, and to submit the same as speedily as possible. The wish is expressed that the report be made as complete as possible but that it be condensed within much less space than formerly. In accordance with this request, Governor Otero has commenced work on the report and requests that those who can furnish any data touching New Mexico's industries and progress, will submit these at an early date, for embodiment in the re-

A company has recently been incorporated to put down artesian wells at Tularosa as an experiment and if it proves successful, it will mean much to the people of that vicinity. The corporation is known as the Tulaross Artesian company, with J. P. Dieter of El Paso, James C. Carroll of Mescalero, N. M. Sutherland of La Luz, W. D. Tipton of Tularosa, and H. J. Anderson of Alamogordo, as incorporators. An experienced well driller, J. D. Strickland, has been engaged to superintend the drilling. He has examined the lands about Tuleross and is con-vinced that water can be found at no great depth. The soil and climate of that section of the country are peculiarly adapted for fruits and berries of all kinds and if artesian water can be secured Tularosa will be a valuable

### ENTERPRISE BLOCKED Irrigation Work Must Await Decision in Elephant Butte Case.

Because of the machinations of the Gathering of Men Who Carry Mail to enemies of firigation for New Mexico the Farmers—Colorado Rural Carand through their continued protests against any measure that while it could not possibly prove detrimental to them, would prove of inestimable value to this section another project for the reclaiming of arid lands in the vicinity of Albuquerque has been temporarily abandoned, and the promoters are now counting their losses, says the Albuquerque Journal.

The Rio Grande Irrigation and Power Company, after spending several hundred dollars in preliminary surveys preparatory to damming the mouth of White Rock canon, is now unable to proceed with its work. The eason is because they have been notified by the secretary of the interior that all improvements of the nature contemplated must cease until the Supreme Court hands down a decision

in the Elephant Butte case,
The work which the company had in view would have proven of great benefit to Albuquerque and its vicinity in many ways. Cheap power would have been secured for the electric The farms in the bottom lands could have had the advantages of irrigation as far south as Socorro, from the dam. Many mining and manufacturing industries heretofore unable to operate, when a supply of water was uaranteed could have been established at a profit. These advantages which make a country were thrown aside because of the intervention of Mexico; and the company without previous warning now is unable to proceed with the construction of the

It was proposed to have a dam built across the mouth of the canon eighty feet in depth and 250 feet wide, and the reservoir thus obtained was to be used for the irrigation of surrounding valley lands and for the generation of electricity sufficient for traction pur poses. The company had secured its charter, had gone ahead with the necessary survey work and was ready to begin construction when the order ar rived calling a halt on all future opera tions.

Colonel W. H. Greer, an officer of the company, yesterday in speaking of the present status of the case, said: 'We have received notice to discontinue operations on our dam across the mouth of the White Rock canon. This notice comes from the Department of the Interior, and is the result of protestations made by Texans and the Mexican government in an endeavor on their part to monopolize the waters of the Rio Grande. Mexico desires the benefit of any improvements made for irrigating purposes in this seems that the federal government is giving the a ster republic many opportunities to ret, of work in the upper waters of the rive. What our company would have done would not interfere in any way with Mexico or Mexico's rights, but nevertheless we are forbidden to start work.

"All rights for any individual or orporation to impound the waters of the Rio Grande for irrigating pu. poses is now withdrawn, because Mexice is afraid that in some way it might affect the settlers nearer the mouth of the river.

"Our money is invested, our time is ost and the opportunities for better ing the condition of the country are slipping by because of this order from the Department of the Interior. I consider that the order is a great injustice to the territory and do not believe that the authorities would take such action but for the simple fact that we are a territory and unprotected. There is no act of Congress or any law that know of that says it is right to stop he development of a great country.

"The idea of the company was to se cure power for the Albuquerque car lines, to frrigate the country in the vicinity and below the dam and to provide power for various manufactories and mining industries which were in. view at the time the charter was applied for and granted. The carrying out of the plans of the company would have been of material benefit to Albuquerque, but it is impossible to act contrary to the orders of the Department of the interior. Nothing can now be done until the Elephant Butte dam and International dam controversies. are settled, and how long than will be no one knows."

## Relay Race Project.

Am Albuquerque dispatch of June 29th says: The press bureau of the World's Fair in sending out a notice describing a cowboy relay ritle from this city to St. Louis, the first week in July for a purse of \$1,500, and giving the names of E. H. Leland, a retired cavalryman, and E. William Clossan m New Mexico comboy, as the promot

It is true that the ride was talked of some time ago, but it is not likely that it will occur. F. H. Leland is not known here, whife Closeon is a switch man employed in the local Santa Fe railway yards. It is thought that Closson, who stated to-day that he is still working on the scheme, has not the influence to swing such a hig undertaking.

In any event as far as can be earned to-day, nothing has been done, and it is only a few days until the ride is amprosed to start. However, Closson may get some big cattle company interested, and the ride may take place later in the year.

Alamagordo has been advanced from third to a second class postoffice and Springer has been reduced from third to fourth class.

James W. Abbott, special agent of the Rocky Mountain division of the public roads inquiry of the United States, was in Santa Fe several days and made a thorough examination of the scenic road to the Pseos river forest reserve. He said that New Mexico has solved successfully the problem of convict labor in building public roads by the humane way in which the convicts are treated and the system with which the camps are maintained. If the several officers of the Western Fedrecent plans are carried to completion eration of Miners in this city, who have the scenic road will be the best moun- been charged with murder and com- tiations for the settlement of these are sissippi.

HOLD CONVENTION IN DENVER OVER SEVEN HUNDRED PERISH

the Farmers-Colorado Rural Carriers' Association in Session.

Denver, July 5 .- Rural free delivery carriers on routes in Colorado, organ-ized under the manie of the Colorado Rural Carriers' Association, met in this city yesterday and listened to addresses on topics of interest to them in their work.

The convention was held at 1548 California airest and lasted late into the is held out. riers rode about the city seeing a few of the sights and taking their trains late in the evening.

During the afternoon J. T. Doyle, secretary of the Civil Service Commission, and the Denver postmaster, P. J. Sours, addressed them, speaking many words of encouragement for the work which is yet in embryo and prophesying many good things for the future of the organization. President K. M. Titus presided over

the meeting and delivered a brief address. Congressman R. W. Bonynge addressed the convention. He discussed the affairs of the service as presented to Congress and said that many bills of benefit to the service would have been passed had it not been for the introducing of numberless and confusing amendments by the friends of the bills. He said they were not systematic in their efforts and did not seem to know just what they wanted. He said that it was true that the compensation for the work was not all that it should be, but that this would doubtless be reme died at the rext session of Congress.

This address was replied to by W. E. Niven, secretary and treasurer of the organization. He thanked Mr. Bonynge his kind words and said they would doubtless result in great good to the organization.

Those in attendance at the meeting

Fere: President K. M. Titus, Longwood; Postmaster Sours of Denver, Secretary H. E. Niven, Berthaud, John B. Wellman, Longmont; Fred E. Marsh, Fort Collins: Louis E. Alder, Denver; James L. Prince, Edgewater; C. H. McNeil, New Windsor; A. E. Holland, Pine; W. P. Burgess, Broomfield; W. E. Vap ion, Fort Collins; Emmett Fox, Fort Collins: Fred Tipton, Trinidad: Edward M. Miller, Boulder: Charles P. Smith, Broamfield; J. C. Teas, Greeley, and J. F. Harrell, Boulder.

In the afternoon Senator T. M. Patde a few remarks vention upon the growth made by the rural systems in the past few years and the great benefit conferred upon resideuts of the rural districts. The same officers were re-elected for

the ensuing year, being K. M. Titus, Longwood, president; F. E. Marsh, Fort Collins, vice president; Harry E. Niven, Berthoud, secretary and treas-

The convention next year will be joint convention of the city carriers of Colorado and the rural carriers, and .' be held in Boulder on the Fourth of July. It has been determined to have the carriers of both the city and rural districts work along the same lines as much as possible. Secretary Niven was elected as delegate to the national convention of the Rural Letter Carriers at St. Le ris in September, at which time some detaile plan of action will be determined up a to have the scale of wages paid to rural earriers made to conform more closely to that paid to city carriers. The rural carriers new receive \$720 per year, but under an order recently issued by Fourth Assist ant Postmaster General Bristow, by which they are to be paid according to the distance traveled by each on his route, some of them will get less than the former \$600. There seems to be a general feeling of dissatisfaction with the latter plan and some means will be determined upon at St. Louis, which, if successful, will remedy it,

## Enviror Colorado All Right

Dolaware Breakwater, Del., July 3.-On the unofficial or builders' trial trip yesterday, the United States armored cruiser Colorado achieved a maximum speed over a measured course of 22.31 knots an hour, an average of two runs under ferred draught being at the rate of 22.10 knots an hour. This result in highly gratifying to the builders, asthe requirements of the contract were exceeded in every respect. Experts on board predicted after the run that the Colorado will average 221/2 knots on the official trial trip and thus exceed the contract speed requirement by at: least one-half knot.

Vice President Edwin S. Cramp & the Cramp Shipbuilding Company, anid:

"The model of the ship is so excel lent that at the top speed there was a remarkable absence of waves, both at the bow and at the stern.

"Another noticeable feature of the trial was the entire absence of vibration at all speeds. "The results, altogether, show the Colorado to be without a peer in the American navy or any other navn."

## Moyer In Denver.

Denver, July 8 .- President Charles H Moyer of the Western Federation of Miners was brought to Denver last night at % o'clock in charge of Sheriff Edward Bell of Teller county and takon to the Albany betel, where he spent the night. Deputy Shortff Ed. Dereddy accompanied Sheriff Bell, After registering at the hotel, Mr.

Moyer was taken out to supper, then returned to the hotel. All visitors were denied an interview. Mr. Moyer will meet his bondsmen at the office of his attorneys, Messrs. Richardson & Hawkins, in the Ernest & Cranmer building, at 10:30 o'clock this morning, and will be released after the filing of a

bond for \$10,000. Prior to the release of Mr. Mover Sheriff Bell will serve the warrants on

Steamer Norge Strikes a Reef in the North Atlantic and Goes to the Bottom. With a Load of Danish and Norwegian Emigrante.

London, July 4.- Over 700 Danish and Norwegian emigrants bound for New York are believed to have been drowned in the North Atlantic on June 28th. Out of 800 souls on board the Danish steamer Norge, which left Copenhagen June 22, only twenty-seven are known to be alive and for the rest no hope

When last seen the Norge was sinking where she struck on the islet of Rockell, whose isolated peak rises itself from a deadly Atlantic reef 290 miles off the west coast of Scotland. Early in the morning of last Tuesday the Norge, which was out of her course in heavy weather, ran on the Rockall reef, which in the distance looks like a ship under full sail. The Norge was

quickly backed off, but the heavy seas poured in through a rent in her bows. The emigrants, who were then awaiting breakfast below, ran on deek. The hatchways were scarcely built for the hundreds of souls, and became clogged. The Norge quickly began to go down by the head. Eight boats were lowered, and into these the women and children were hurriedly put. Six of these boats smashed against the side of the Norge and their helpless inmates

were caught up by the heavy seas. Three boatloads got safely away from the side of the sinking ship, and many of the emigrants who were left on board, seizing life preservers, threw themselves into the sea and were

One of the survivors, a man, said 'We left Copenhagen June 22nd. There were 700 emigrants, Norwegians, Swedes, Danes and Finns on board. The crew numbered about eighty. "All went well until June 28th. I lay in my bunk waiting for breakfast. We

heard a little bump, then another bump, and then I rushed on deck. 'I saw at once that something serious had happened and I made a dash below to gather up my few belongings. "Scores were rushing on deck and the batchway was crowded with emigrants. They were launching boats and rushing into them, but there was

no panic. "Four or five were in the boat into which I got and we cleared the ship. Luckily for us, in our party was the only seaman from the Norge who escaped and he was able to navigate our little

"We saw two other bosts capsize owing to the heavy weather and because no one could navigate them. We made straightaway and when we last saw the Norge so large number

of emigrants were on deck. Gundle stood on the bridge. "Dozens of passengers had jumped into the sea. They wore life belts but were drowned before our eyes.

"After twenty-four hours the Salvin bore down and picked us up. "About 700 persons must have been drowned."

## CAPTAIN'S ACCOUNT.

Of the Sinking of the Emigrant Steam er Norge.

London; July 5; 3:45 a. m .- Of 774 souls on board the Danish steamer Norge, 128, including Captain Gundel, are known to have been saved up to this hour. One of the children dled in a lifeboat which brought others to safety. For the missing 645 persons small hopes are entertained.

In addition to the twenty-six sons who landed at Grimsby, 102 survivors of the Norge were handed at Stornoway, thirty-two by the British steamer Cervons and seventy by the German steamer Energie: They were all in a pittful condition. Many were taken to a hospital and most of them had to be carried ashore. Among those on board the Energie was Captain Gundel of the Norge. He

: bias "Ail went well until about 7:45 o'clock last Tuesday. Whom about eighteen miles south of Rockett I felt the steamer strike heavily ward on a sunken rock. There gentle breeze blowing from the south with a cloudy sity.

"I was on the bridge with Chief Officer-Carpenter. Soundings were taken and its was reported that there was five foot of water in the forward hold.

"Orders were given to commence sumping and also to the passengers to put on life belts and be ready to get into the ligate, which were ordered ne put out. T went down with the steamer, My

right leg got jammed between two stanchions and was very much injured. When I rose to the surface oticed a number of bodies floating. "The Norge was affect only abou outy minutes after striking.

"I swam for about twenty minutes. came heross, Second Engineer Brauge, who is a good swimmer. We kept company for about an hour and half, when we noticed a boat some stance off, and we both made for it, "I was hindered by my sore leg and the engineer reached the boat first, Both of us were taken on board, enhousted. We found that it was life boat No. 1. It was crowded and under the charge of Seaman Peter Ole

After recovering a little, 1 took charge of the boat and provisions which consisted only of a box of bread and two flasks of water. The boat was steered for St. Kilds, 150 miles distant.

"At about 12 o'clock Sunday land was sighted and the drooping spirits of all were revived. It proved to be St. Kilda. "Some time afterward a steame

was noticed coming from the west bearing down on our boat. She proved to be the Energie, and at 6 o'clock we were safe on board."

All the damage suits arising out of the disaster of last January at Stratton's Independence mine have been settled excepting two cases and negoin progress.

MINERS' PRESIDENT OUT ON BAIL

Other Leaders Arrested and Balledy Haywood and O'Nelli Will Be Arrested.

Denver, July 6.-After having been confined by the state militia for 103 days, most of which time was spent in bull pens or county jails at Telluride and Cripple Creek, President Charles H. Moyer of the Western Federation of Miners was yesterday released under \$10,000 bonds, the surety being the United States Fidelity and Guaranty

Warrants were also served by Sheriff Bell of Teller county upon Vice President J. C. Williams and Assistant Sec retary James Kirwan of the Pederation at 10:30 o'clock yesterday forencon charging complicity in murder at the Victor riot. They were both released later, however, upon bonds in the sum of \$5,000 each. Other-warrants against other officers are also out and will be served as soon as the men can be found.

Secretary-Treasurer William Haywood is in Chicago attending a convention, being held there by organized labor of that state. The body will pass resolutions tendering a request to organized labor of the United States to hold their convention in Victor, Colorado, on August 25th, for the purpose of giving the labor representatives a chance to view the scene of the trouble in the field. It is expected Secretary Haywood will return to-morrow, when one of the largest owners of real estate | the warrants against him will be

in this city, with Kearns, made an served. He will furnish bond, Editor John M. O'Neill of the Miners' Magazine is also away on a short vaeation at Omaha and other places. is expected back at any time, and will likewise be served with a warrant, charging him, as in the other cases, first with assault with intent to kill Fred Stutvoss, one of the miners of the Independence mine who was wounded in the street riot of June 6th at Victor, and second, with conspiracy and murder. His bond will be readily given.

Capiases are also supposed to be out for all of the members of the old board, whose terms expired on June 8th last All except two of the members of that body of six were re-elected-J. of Lewis of the First district and D. Copley of the Fourth district. The other members of the old board are: J. L. Simpkins, Second district; J. P. Murphy, Third district; Assistant Secretary Kirwan of the Fifth district, who is now under bonds, and A. C. Baker of the Sixth district, British Columbia.

POPULIST NOMINAT) IONS.

Tibbles of Nebraska.

Springfield, Ill., July 6 .- After spending an entire day in debate speeches, the Populist convention last evening adopted its platform, reaf-firming the platform of 1892, and nom-inated Thomas E. Watson of Georgia for president and Thomas H. Tibbles

friends and relatives returning on the of Nebraska for vice president. William V. Allen of Nebraska and Samuel Williams of Indiana were cominated for president, but before the result of the first ballot was an-nounced they withdrew. Tibbles had Nurses were sent out on a special. as opponents L. H. Weller of lowa and Theodore Rynders of Pennsylvs mis; but he had more than both on the

first ballot.
A motion early in the afternoon lo awaif the action of the St. Louis convention was voted down una The committee on resolutions in its report to the convention reaffirmed adherence to the basic truths of the Omaha platform of 1892, and of the er towns in the district. These were subsequent platforms of 1896 and 1900. The platform then demands that all money be issued directly by the goverament, every dollar to be a full legal tender; demands postal savings banks; upholds the right of labor to erganize and favors the enactment of legislation for the improvement of the condition of the wage earners; demands the initiative and referendum; favors prohibition of the alien ownership of lands; demands the withdrawal of special privileges of trusts and monopolies, and declares that the government should own and control the railrowth, telegraph and telephone sys-tems and should provide a parcels poet. The platform was adopted mani-

J. Rosena who was killed, was a Colorado Springs man who had lived in Denver. He was maded in action in the Spanish war. He has attended Colorado Gollege. He was on his way mously: After the convention adjourned as meeting of the national committee was held. James H. Farris of Joliet; Children () Defrance of Lincoln, Ne-brasica Cripple Creek to enter the employ subbara of Ser, and George W. O. Dresser, one of the men badly hurt, was the last to jump. In his arm was the baby of Mrs. Hanes, who mp, treasurer.

Salvation Army Crowds Co. hondon, July 6,-Members of Salvation army by the thousands goth gred at the Crystal palace yesterday recessions representing the vactous ferent nationalities and led by bands marched to the palace and abon the grounds and buildings were, overrun. A grand reception to General was held in the main hall, which was

destroying the better parts of the of cattle and large profits to the cattle baron. During the reign of the golden era the great plains offered an almos limitless expanse of grazing room, and, though the common domain might be designated as a desert, it was thickly interspersed with oases which never roping contest was also good, there left the wandering herds witho abundant reserves of food, save when an unusually severe winter buried even the tallest grass beneath a mass of thickly crusted snow. Then it was death, and their bones still whiten hillkind, not an intoxicated man being side and plain. But these occasions losses mattered notito the cattle baron for the natural increase of his herds, the nominal cost of grazing them and the high price of beef made them of little consequence in the casting up of accounts one year taken with ano

But these richer pasture lands, lying as they did along the alluvial valleys, were the very ones to be taken up by the settler, and railroads, too, tave a peculiar weakness for skirting the river lands, laying off tempting town sites and offering unusual inducements for the incoming of the thrifty emigrant. So the great ranges have been broken up, and the herds perforce have been pushed back upon what might from a purely agricultural standpoint be classified as waste landis. Even these in many instances are of a limited extent and are not calculated to furnish a substantial and unvarying supply of forage when an o ccasional drought, followed by a harvi winter, is taken frito account. As f. consequence the big herds have been cut up into small enes, cat tlemen are securing deeded lands, which are being fenced and the bottom land, turned into hayfields to supply hay for winter feeding, while many ( if the old rangemen are turning their stiention to feeding beef for the

Hinnies. The cross of a jack on a mare prodr ces the hybrid known as a mule, ad the product of the reverse cross: (a Are one) of the horse on the jennet is known as a hinney. A very interestia's Mustration is presented in The Breed

marke A.

predom'mant influence of the sire is clearly seen in these two hybrid cross-The mule always reveals in head and ergs the characteristics of the jack, while the hinney takes after the horse in this respect. The sire of the hinnies is a pure bred Shetland pony, a bay, weighing 500 pounds and bred from stock that came from Woodburn farm, in Kentucky, and the dam is a Mexican jennet. One is a black yearling weighing 420 pounds and the other a.2-year-old weighing 544 pounds. The

are little if anything less than that, so rare is the cross of the stallion on the jennet-is W. C. Meyer, Ashland, Or., and he states that they are the only ones of such breeding on the northwest disposition and good action and promise to make a fine family pair.

The Roots of Trees. The roots of a tree do not cover the same area beneath the earth as they do above. A gardener of many years' experience, having had a vast deal to do in digging and transplanting trees, says he has found that the roots of trees cover on an average about twothirds of the area of its branches. The tree which has the largest area under ground is the weeping willow. This tree's roots spread to such an extent that should there be any trees or shrubs planted within thirty feet of them in a trees, such as apples, pears and plums, have very small roots in comparison with their size. The roots of currant bushes do not occupy more than a quarter the space their branches cover.

Printing Figures.

Prof. Otlet, the secretary of the Brussels International Bibliographical Institute, estimates that since the introduction of printing the following percentage of different classifications of subject matter has held good: Law and sociology, 29.42; literature, 20.46; applied science, 12.18; history, geography, 11.44; theology, religion, specu lation, 10; miscellaneous and bibliography, 9; philology and languages, 4.08; natural sciences, 3.44; art. 2.62; philosophy, 1.36.

## Alton B. Parker Of New York

ON THE FIFTH BALLOT TAKEN

Esopus Man Verifies Claims Made By His Friends

## THE CONVENTION HARMONIOUS

And No Talk of Bolt Is Heard Democracy Will Present an Unbroken Front to the Cohorts of Misrule and Imperial ism Platform Adopted Is Patriotic, Concise and Terse

St. Louis, July 9.—Special to the Herald,—Amid scenes of the wildest enthusiasm Judge Alton B. Parker, of New York, was nominated, on the fifth ballot, as Democracy's standard bearer in the coming campaign. The opposition to the Esopus man disappeared immediately when his success was an accomplished fact.

Judge Parker has verified every claim made by his friends, and his managers have been abundantly rewarded for their tireless efforts in his behalf. The convention was harmonious and enthusiastic throughout and no hard feelings will follow as a result. It is confidently predicted that Mr. Bryan will take the situation philosophically and that he will give the same support to the present nominee which he received from him during his two national campaigns. The resolutions adopted are straightforward and patriotic and will receive the endorsement of the Democratic voters at large. Mr. Parker is a man of strong individuality, of uncompromising integrity and of great ability. Under his leadership, and with a united Democracy, the cohorts of imperialism and misrule, of boodlers and grafters and of mountebanks and negro lovers will meet an ignominious defeat in November, and Roose veltism and Booker Washington episodes will be no more, for ever. Here's to Judge Alton B. Parker, the next president of these United States.

BEGGS' BLOOD PURIFIER

CONTRACTOR STATE OF COMMENTAL ST

The radium clock of Harrison Mar-findale, English physicist, practically gives perpetual motion through the dissipation of negatively charged rays. A small quantity of radium supported in an exhausted glass yessel by a quartz rod is placed in a small tube, to the lower end of which is attached an electroscope of two long strips of silver. The activity of the radium causes an electric current minus beta rays to be transmitted to the silver strips which expand until they touch conducting wires instantly discharge then and they fall together. This is repeated every two minutes, marking repeated every two minutes, marking time in beats of that duration, and theoretically the action will continue until exhaustion of the radium—in this case computed to be 30,000 years in the future.

New York Hoodlums.

The young tough, or half-grown street boy, is one of the terrors of life in New York City. Gangs of these hoodlems furnish more work for the police, day in and day out, than do the adult males of the rougher sort. The bad boy is rapidly becoming one of the most serious of social problems of the metropolis. He never was so bad as he is to-day, and ther seems to be no end to his meanness, his wickedness, and his crielty

Beer Bills Repudiated. American delegates to the Congress of the International Woman's Suffrage Committee, have come into conflict with a time-honored custom, says a dispatch from Berlin. Upon their united protest, it may be added, the system was set aside. Miss Susan B. Anthony, Mrs. Carrie Chapman Catt, Mrs. Mary Wood Swift, Mrs. Shaw. Mrs. Sewall and Mrs. Harper, all of whom are total abstainers, had been staying at a well known hotel. their astonishment, they found in their bills charges for "beer and wine." After an explanation had been demanded, it was found that to charge for such liquid refreshments, whether they are consumed or not, is the rule of the hostelry.

It Pays to Road Newspapers.

Cox, Wis., July 4.-Frank M. Russell of this place, had Kidney Disease so bad that he could not walk. He tried Doctors' treatment and many difworse. He was very low.

He read in a newspaper how Dodd's Kidney Pills were curing cases of Kidney Trouble, Bright's Disease, and Rheumatism, and thought be would try them. He took two boxes, and now he is quite well. He says:

"I can now work all day, and not feel tired. Before using Dodd's Kidney Pills, I couldn't walk across the

Mr. Russell's is the most wonderful case ever known in Chippewa County. This new remedy-Dodd's Kidney Pills—is making some miraculous cures in Wisconsin.

Where the Boy Slept.

John L. Sullivan, at his recent Bosapproached to shake 'ds 'said' "Boys, if you want to get on, deyour work. Work is the only thing to make men happy and successful. won't be like the fad who worked so badly that when his father wrote to the boss of the concern asking back was:

Your son sleeps in the shop in the daytime, but we don't know where he sleeps at night.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz .- one full pound-while all other Cold Water Starches are put up in % pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large let ters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Successful Negro Inventor. Andrew Beard, a negro whe has worked in the machine shops of the Louisville & Nashville Railroad Company in Birmingham, Alabama, for twenty years, has just sold a patent for a car coupler of his own invention for \$100,000. In addition he is to get a royalty on every coupler made on his model for seventeen years.

Is It Not Worth While if you travel, on business or pleasure to get the best service for the lowest rates? Ask the Erie Railroad Company, 555 Railway Exchange, Chicago, for full information. Booklets free de scribing Summer Tours and the Beautiful Chautauqua Lake Region; also Cambridge Springs.

DEATH CLOSES BRIGHT CAREER

Apoetolic Delogate to the Philippines Succumbs to Heart Falluce. Archbishop Guidi was born in April. 1852, at Alatri, province of Rome. He studied at the Gregorian University and Collegio Romano until 1870, when he entered the pontifical seminary, where he took the degree of philoso phy. Pope Pius IX highly regarded the peculiar talents of the young student and sent him to the University of Innsbruck, where he remained until 1877, taking the degrees of theology and law.

He spent a year in Paris, studying at the Sorbonne, where he was awarded the degree of oriental languages. Guidi was appointed in 1879 secretary to the extraordinary embassy which represented the Pope at the marriage of King Alfonso of Spain and he re-Madrid until 1883, when he acted as

ARCHBISHOP GUIDI

secretary of the extraordinary papal embassy at the coronation of the crar From 1882 to 1887 Monsignore Guidi served as secretary of the nunclature at Lisbon; from 1887 to 1890 he was auditor and then charge d'affaires of ferent remedies, but was getting the nunciature at Munich; from 1890 to 1892 he was secretary of extraordinary ecclesiastical affairs at the vatican and from 1892 he was auditor and then charge d'affaires in Brazil.

In 1899 Monsignore Guidi was sent on an extraordinary mission to Ecuador and from 1899 to 1902 he had been secretary of extraordinary ecclesiastical affairs at the vatican. The monsignore had numerous decorations conferred by almost all countries, including those of Charles III and Isabella the Catholic.

DIPLOMATIC POST FOR LOW.

Former Mayor of New York to Be Ambassador to Italy.

Former Mayor Seth Low of New ton benefit, said to two schoolboys York will be the next ambassador to Italy. The change will soon be an nounced, though it may be deferred until after election. George V. L. Meyer of Massachusetts was made

Kinley in December, 1900, with the alleged understanding that he would year it was intimated to him that his resignation would be acceptable, but he denied that he had been a party to such an agreement. Mr. Roosevelt did not care to remove him, and he was allowed to hold on. He is now home on leave, and it is predicted that he will not return. The place pays \$12,000 a year.

Mr. Roosevelt told Mr. Low if he would rather have it he could take Powell Clayton's place as ambassador to Mexico, which he will resign next March. The Mexican ambassadorship pays \$17,500. It is the only post at which an ambassador can live within his salary. Mr. Low prefers to go to

The "doll army" in the Paris Army Museum contains 19,000 figures of soldiers about two inches high in five great cases. The armor and uniform of every military branch are represented with the utmost exactness. The picturesque work occupied the lifetime of an old Alsatian, who fought under the "Little Corporal."

Use for Hawthorne Fund. Mrs. Rose Hawthorne Lathrop, daughter of Nathaniel Hawthorne who has devoted her life for some years now to the relief of cancer suffers-work in which her father took a lively interest-hopes that the Hawthorne centennial anniversary will be observed by raising a fund for use in this charitable work.

Thrift in Norway. To encourage working people to establish homes of their own. Norway has founded a bank for workingmen. It lends money at 31/2 per cent, and gives the borrower forty-two years in which to pay the loan. The total cost of the house must not exceed £160, and the area of land must not be more than five acres.

Women Wanted to Knew. Dr. Wiley, the government chemist, says that after a story was published which stated that the Washington 'poison squad" had beautiful pink cheeks after eating a certain food he received thousands of letters from women all over the world begging for

## S THE WORLD REVOLVES

LIVES WITH STITCHED HEART. Chicago Boy Survives Wonderful Sur

gical Operation. His bullet-gashed heart sewed together with needle and thread, Edward Pelt, the Chicago office boy who attempted suicide, will probably live to law, Lem A. Smith, at Littleton, June join the list of the most remarkable 25th. surgical patients in American medical

chest. It was at the extreme bottom his faculties. of the heart, grazing the edge and cutting a wide, ragged gash. Besides the heart wound the bullet

mained secretary of the nunciature at crashed through the lung and tore away much tissue. The self-inflicted wounds brought

on a hemorrhage. Early death was

certain unless the flow was stopped. Dr. Wagner quickly decided on the heroic operation as the only chance. Chisels were brought into use and three ribs cut through on the left side close to the breast bone. These three ribs also had to be broken at the extreme left side. The surrounding flesh was cut through, and then the whole laid back like a lid.

The heart was first attended to. It was beating feebly because of the

vived one of the most remarkable operations of the age. The drawing shows how Dr. Wagner opened his pectoral cavity and stitched up the heart and lungs lacerated by the bul-

patient's weakness. The task was delicate and extremely dangerous, but the patient's fast-waning strength made necessary great speed.

Only during the slight pause between beats could the surgeon apply. his instruments. Six stitches were taken and the wound closed. The hemorrhage immediately stopped.

The ruptured tender tissues of the lung were then drawn together, the lid of the chest closed down and fast

in Belgium because King Leopold promised his mother as she was dying that he would never sign his name to a death warrant. Consequently, al though the statute prescribes the ex treme penalty it is only carried constructively. The condemned person is regarded as dead in the eyes of the law. In place of his personal appearance on the scaffold the headsman substitutes a broadside bearing his name and sentence, posts this where it may be read by the people and so leaves it, while the criminal is put in prison to stay there for the term of his life.

Doubtful Compliment.

Feliz Adler, notably witty in his lec tures, has too, a decided humorous vein in conversation. Here is one of the stories he tells on himself in casual talk: Two women who had attended Mr. Adler's lectures at Carne gie hall, New York, for many consecutive Sundays, with unfailing 'egularify, finally called on the lectures one day at his home. "We wish to tell you in person, Mr. Adler," they said, "how much we have enjoyed your lectures. We wish to thank you for them. We have enjoyed them for months, and now we go back to our own church perfectly satisfied.

Boer Colony for Kansas.

Gen. William Fouche, Boer patriot near Geneseo, in Ellsworth county, the property. The purchase by Gen. Fouche is said to mean that a Boer colony will be established there. Gen. Fouche is in correspondence with for mer companions in arms who are still in South Africa, and who have been waiting for Gen. Fouche to find a suitable location before they came to America with their families.

Baron Rothschild's Shrewd Trick

Upon a client complaining to Daron francs to a person who had gone of to Constantinople without leaving any acknowledgement of the debt the Baron said: "Well, write to him and tell him to send you the 50,000 france he owes you." "But he only owes me 19,000," objected the other. "Precisely," rejoined the Baron, "and he will write and tell you so and thus you will get his acknowledgement of

mentally and physically, after ninety Dr. Carl Wagner, who performed seven years of life spent for the greater the extraordinary operation, believes the lad will survive. If Edward Peit does live he will be the only human being in the world with a stitched heart. mountains in winter, making his home A slit nearly half an inch long was for years where night overtook him, to cut by the bullet he fired into his almost the day of his death he retained Born in Carlow, Ireland, near Dublin,

on May 4, 1807, he was an officers in the British army before leaving his native land in 1834 for Jamaica, West Indies. There, while still attached to the army of Queen Victoria, he became interested in church work and resolved to enter the ministry. In 1842 he was appointed principal of

the Normal Institution established on the island for the training of missionaries for the service of the Western African Civilization Society, under the patronage of his royal highness, Prince

On St. Mark's Day, April 24, 1850, he was ordained to the prizthood, by Lord Spencer, bishop of Jamaica; and was also about that time married to the good, noble woman who during all the labors, trials and blessings of his long and arduous campaign, has ever kept warmth and brightness in his quarters

The Rev. Francis Byrne left Jamaica for New York in 1854, officiated in Boston until 1867, when he came with Bishop Randall to Colorado, where he labored as a missionary to within five years of his death, having started numerous missions and helped to build

in Nevadaville and Central City, he was transferred by Bishop Randall to Golden, where he acted as superintendent, or House-Father, of the origi-

der, Bergen Park, Fort Collins, Central City, Larimer and Chevenne, After leaving Golden, his next posts were Rosita, Silver Cliff, Wet Mountain Valey and Fort Garland.

ing also at Fort Logan as chaplain, in Castle Rock and Plum Creek. Then he was transferred by Bishop Spalding to Denver, where he became a member of the clerical corps of the Cathedral, as an assistant to the Very Rev. Dean

time when Wilberforce was negotiating for the purchase of the freedom of the slaves. Father Byrne was fond of telling. He never lost his pride in the fact that he had served Queen Victoria in the army, and never was heard to prosounce her name without adding to it his heartfelt "God bless her." He came across the plains to Colorado with Bishop Randall overland, of course, in 1867, and those experiences were also ones he was ever fond of relating.

Nabob's Private Railroad It was recently announced that J. B. Haggin, the millionaire turfman. would soon complete a private electric track from the front gate of his Elmdorf farm to his residence near Lexington, Kentucky. Arrangements have been completed to connect it with the Paris and Lexington Inter-Urban line. Haggin can then step into his private car in New York and not leave the car until he steps out on his front porch. The inter-urban electric line connects with the railroad. He will use the private track also for hauling coal and other freight.

Employs Only Women Lady Henry Somerset, the English temperance and woman's rights advocate, is consistent in all things. She keeps only women servants in her house and on her estates. Tall women are her footmen, a stout woman is her butler and women have charge of her

It is intimated that John D. Rocke feller proposes to make a radical reduction in the price of illuminating oil. but the story may be regarded as light
