NEW MEXICO NEWS SUMMARY

Ex-Gov. B. L. Prince returned re-cently from an exploration trip to the Puebles of Zuni and Laguna and brought with many relics of great value and interest, which he has do-asted to the New Mexico Historical So-

working of the gypsum beds in ecos valley, in southern Eddy. For a number of months eting has been going on on the of J. C. Jones of El Paso, and near future the product will be the market in large quantities. A Las Vegas dispatch of August 9th says: At the little village of La. Cuesta, last night, Jesus Baca set upon Fernando Villeneuva with a knife, inflicting several wounds in the abdomen, which will likely prove fatal. Baca had a grudge against the other and after drinking freely, attempted to settle it.

Judge L. S. Trimble died at Albu-querque, August 9th, of dysentery at the age of eighty years. He was a Ken-tuckian by birth and represented that state four terms in Congress. Although an attorney at law by profession, he made a large amount of money in New Mexico in the mercantile business. He me to New Mexico in 1880. Judge never married

On August 12th, the annual fiesta neld at the Santa Clara pueblo and scores of tourists from all parts of the United States were in attendance. The dances and ceremonies were given by the Indians with some-thing of the old-time spirit which had Clara, to view some of the 20,000 cave dwellings, and big communal 1,200 rooms in their time.

Postmaster General Payne has filed in the District Court at Washington his answer to the application for a writ of mandamus made by Margaret Romers to compel the postmaster general to re-establish the postoffice at Las Vegas, New Mexico. The postoffice formerly at that place was removed to East Las Vegas in March, 1903. The postmaster general in his reply says that those applaying for the writ or mandamus have no interest in the matter. He further claims that his action in discontinuing and establishing postoffices is a matter of discretion and not subject to the review of the courts.

Reports bring the good news that much rain has fallen pretty much all over New Mexico during the last ten days, says the New Mexican of August 9th. This is not only refreshing, but will prove verey beneficial to the farmers, ranchmen, horticulturists and stock raisers. Although considerable damage in various sections has been done by cloudbursts and floods, still the good brought by these rains is so great that these lesser troubles and difficulties are easily lost sight of. The outlook for cattle and sheep for the coming fall and winter is improving

A telegram received at Santa Fe August 11th from Puerta De Juna, Leonard Wood county, announces the death of Lorenzo Labadie, one of the ploneers of the Santa Fe section, at the age of eighty years. Labadie was a native of Valencia county, and served as sheriff of Santa Fe county several terms before the American oc-cupation. He was also sheriff of Valencia county and of San Miguel county. During the civil war he served as a United States Indian agent and rendered valuable services to the government as one of the officers of a volunteer regiment. He was a noted Indian fighter and had a prominent family and business connections.

Governor Otero returned to Santa Fe from his eastern trip on the 8th inst. On his trip he visited Washington, where he looked after several matters of interest to New Mexico in the Department of the Interior. The principal mission upon which he went East was to Join the committee of notification which called on President Roosevelt on July 27th to inform him of his nominathe presidency, . This is the third time the governor has served on such a committee. He was member of the committee that notified President Harrison of his re-nomination in 1892 and the com-mittee which called upon the late Pres-ident McKinley for the same purpose in

"I understand that the writer is an estimable retired army officer, who was in New Mexico many years ago, and no doubt his ideas are those that were current then; or long absence may have obscured his recollections of the geography of the country. It cuic was west of the Rio Grande. It is not worth while to multiply authorities on a point as to which there is now no dispute, but I will simply quote one line from Bandollen, who gave great attention to the pueble of Pecosand who says (page 20 of Historical Introduction), 'It is easy to locate Clcuye; it can be nothing less than Pecos.' George Parker Winship, who is the authority on Coronado's expedition, and who lives in Providence, where

ted to the press of the territory that they should exercise a little more history? As a rule, our people have few sources of local information except the press, and yet the strange mis-takes which are almost constantly printed, in communications and even been lacking in late years. Many of which is, at least, unfortunate. Within the visitors went to the Pajarito cliff a month, an esteemed daily in a sister dwellers park, ten miles west of Santa city, gravely referred to the interesting church in Old Albuquerque as a cathedral; a confusion of the Quivera City on the Gila forest reserve that Kansas with the ruins called Gran Quivera in Socorro county, is of constant recurrence, and recently appeared even in a highly official publication;

and in a contribution published in your own paper of July 15th, we are informed quite innocently that when the pueblo of Pecos was deserted, part of the people went to Cochiti and the others to Taos, where their descend-ants are still to be found. In reality, one went to Taos and none to Cochi ti; there were thirteen in all, eight men and five women, and they all went to Jemez, where they were received as brothers, and where one of them,

Agustin Peco, still survives. Unless some reasonable limit can be placed on the imagination of writers on the Old Bell, recently sent from Algodones to St. Louis, that really interesting relic will be entirely discredited among the well informed, and considered on a par with the trunk of Cabeza de Baca which used to adorn one of our curiosity shops.

To the casual observer the work of ederal officials under the reclamation act in reclaiming the arid lands in this territory is slow and on the sur face little appears to have been accomplished. That these are not the true facts would appear in the following brief recital of what has been don by the government engineers and the stants in an interview with Dele

New Mexico Irrigation Work.

"As a matter of fact New Mexico has had more preliminary work and gathering of data than any other state or territory," said Mr. Rodey when approached on the matter by the Morning Journal. "The reclamation ser wice in the last year has had over 200 men in this territory hard at work on the difficult problem of securing irrigation for the settlers of New Mexico. A large force has been constantly working up and down the Rio Grande valley and valuable data secured regarding the whole region. Maps and charts have been made; the water flows guaged, calculations made as to the surface area and possible contents of reservoirs; all of which takes a of reservoirs; all of which takes a long time, but in the end cannot but

"The ground from San Antonio to El Paso has been thoroughly explored as has the entire Pecos from the south headwaters. Maps and charts have been made of the San Carlos, of all the country about Las Vegas, and the greater portion of the Rio Grande north of Santa Fe. A large force in the northwestern portion of the ter ritory measuring the San Juan valley

and data absolutely necessary to any project is being rapidly collected. "Many small projects have been in-vestigated on the Texas line on the east side of New Mexico. A project is about to be inaugurated at Las Vegas to irrigate from 10,000 to 20,000 acres of land. Bids have been asked on the Hongo reservoir at Roswell, which will reclaim 15,000 and acres of the territory's land. A diversion dam is in sight in the near future on the Rio Puerco, west of Albuquerque, and another one on Las Cruces on the Rio

"Great pressure is being brought of the service to investigate the Whit Rock Canen project, north of this city, and it is very possible that something will be done in that direction in the near future. The Elephant Butte project, near Rincon, is said to be the argest irrigating project in the world not excepting that on the Nile.

"There is also a small project that is said to be feasible at Gallup and the if the geological survey reports conditions suitable for irrigation. Several propositions are receiving the attenon the east side of the Rio Grande, north of Santa Fe.
"Added to this is the work on the

Indian reservations. The Zuni reservation is now having a reservoir constructed at an estimated expenditure of \$200,000 while the Navajo and Pueblo Indians will received \$250,000 in ditches, diversion dams and other im-"From the foregoing it would ap-

pear that New Mexico is not being neglected nor is it really possible to expect that the service will construct large improvements until a thorough investigation has been made. The simple fact that so much time and money is being spent in preliminary surveys shows conclusively that it is only a question of a very short time when work will begin in earnest on the larger projects in New Mexico."

New Mexico's Mineral Display. This territory may well be proud of

the mineral exhibit at the St. Louis Exposition if the constant reports received from the World's Fair are to receive any consideration. Visitors from New Mexico are unanimous in their praise of the space devoted to New Mexico in the Mines and Metals building and those known for their conservatism assert that it is the best collection of any state or territory in that building.

"In my opinion and in the opinion of the St. Louis press and other newsany at the Fair," said G. W. Stubbe resterday to the Morning Journal. Stubbs has just returned from a brie visit to the exhibition, the major por tion of which he passed inside the Mines and Metals building. "Other states and territories have larger exhibits but hone show such great variety as that from our territory. Professor F. A. Must Protect All Alike. Those Republicans who are urging free trade with Canada or with other countries can scarcely accept the declaration that protection is a cardinal principle of the Republican party. Protection must protect all alike or it is unfair? Reciprocity that proposes to swap one industry away in order to benefit another is not the reciprocity declared for in the Ghicago platform, where it commits the party only to a reciprocity that shall work no injury

The Only Way. The Boston Herald says a little re rue. Many a Democrat has seen the efficacy of protection demonstrated time and again until he has come to see that, after all, it is the desirable policy for this country to maintain. Still, the leaders who will control the course of the Democratic party are most of them committed to the very apposite tariff theory, and if we are to have any assurance of maintaining the tariff protective policy, the only way is to keep in power the party that established it as the policy of the government in opposition to the deter-mined resistance of the Democratic leaders.-Shelbyville (Ind.) Omaha the Scene of Rioting.

Omaha, Aug. 16.—A car carrying strike breakers to the Swift packing plant at South Omaha was bombarded at Sheely station yesterday and three of the inmates, names unknown, were injured, one being knocked uncon-scious with a brick. The car was taken to South Omaha and the men removed.

Sheriff Power and a number of deputies returned to Sheely in the same car and were attacked by the rioters, who believed the strike breakers were returning. The sheriff's force captured six of the rioters after a strug-gle and hustled them oft to Jail, Quiet

was soon restored.

Judge Vinsonhaler in the County Court issued a blanket warrant for twenty seven strikers who are charged with participating in a riot in the packing house district Saturday night. Part of the men have been placed in jail. The riot was the result of an attempt to prevent non-union men from going to work, and a number of the latter were injured.

H. h s last 1/2 8.69 .43 600 trict of Kansas, Mr. Simpson proved conclusively his ability as a statesman and demonstrated that he was the peer of the ablest members of the Deewoody, Wesley house. Mr. Simpson is the only Democrat who ever succeeded in leading his party to victory in the dis- Foster, W. S. trict which he so ably represented. His first oponent was "Jim" Hallo-well, og "Prince Hal" as he was Gatlin, R. M. more commonly known. Mr. Hallo-well was an uncommonly shrewd politician, but he proved unequal to the masterly campaign conducted by Mr. Simpson. His opinent in the Herring, A. Q. Scheequent campaigns was Hon. Chester I. Long, now United States Hardin, E. M. Handy, J. W. Hall, T. E. twice fell a victim to the irresistible Hunt, J. R. twice fell a victim to the irrespands force of Mr. Simpson's logic, and Jones, H. During July a well-known magazine and newspaper writer from New York, Mr. Addison Steele, spent a week at the World's Fair, inspecting the grounds, buildings and various attractions as thoroughly as was possible in that limited period. Returning home, Mr. Steele published in Brooklyn Life the following appreciative comments on the Exposition:

In the expressive language of the cay, St. Louis "has the goods." I had expected much of the Louisiana Purchase Exposition, for I had kept in touch with the making of it from its the Fine Arts building directly behind. very inception, five years ago; but after nearly a week of journeying through this new wonderland I must confess that in every essential particular it is far beyond my expectations. Voice From Arkansas.

Cleveland, Ark., August 15 (Spe cial).-Nearly every newspaper tells of some wonderful cure of some form of Kidney Disease by the Great American Remedy, Dodd's Kidney Pills, and this part of Arkansas is not without its share of evidence that no case is too deeply rooted for 1 add's Kidney Pills to cure.

Mr. A. E. Carlile, well known and highly respected here, tells of his cure after nearly a quarter of a century's suffering. Mr. Carlile says: "I want to let the public know what I think of Dodd's Kidney Pills.

I think they are the best remedy for sick kidneys ever made. "I had Kidney Trouble for 23 year and never found anything that did me so much good as Dodd's Kidney Pills. recommend them to all sufferers."

There is no uncertain sound about Mr. Carille's statement. He knows that Dodd's Kidney Pills rescued him from a life of suffering and he wants the public to know it. Doid's Kidner Pills cure all Kidney ills from Back ache to Bright's Disease.

Old Men in Business.

Henry G. Davis, the Democratic candidate for vice president, is not the only old man in politics. Senator Pet-tus of Alabama is 83, while his colleague, Senator Morgan, is 79. Senator Hoar of Massachusetts, the most chipper of all the reformers, is 78, while Senator Frye of Maine, who presides over the Senate, is 73. Governor Garceion of Maine, the Democrat who was elected in the Hancock year, 1880, is now 94, and continues his practice as a physician. Russell Sage, who hauls in the interest while other people go on vacation, is 87, as anxious as ever to escape the poorhouse.

Discovery of Cliff Dwellers. Dr. Bush, the well-known archaeologist, is back from a trip of 700 miles into the interior of northern Mexico, in the Sierra Madre mountains, and says he discovered a race of people that prove the perpetuation of the race of Cliff Dwellers who once inhabited this section. The language of these people s unknown and different from any other he ever heard, and the hieroglyphics on stones correspond to the hieroglyphics found in the remains of Cliff Dwellers' homes.

He also found mummies exactly like these unearthed in the Cliff settle ments and people of about the same size. Their huts are practically under ground on mountain sides and every thing indicates a connection with the Cliff Dwellers. The doctor got photographs of his discoveries and will return to investigate fully.

Sometimes I was so nervous I could not hold a plate in my hands! and other times I thought I would surely die sitting at the table. "This went on until about two years

ago when one day I did not use any coffee and I noticed I was not so nervous and told my husband about it. He had been telling me that it might be the coffee but I said 'No, I have been drinking coffee all my life and it cannot be.' But after this I thought I would try and do without and drink hot water. I did this for several days. but got tired of the hot water and went to drinking coffee and as soon as I began coffee again I was nervous ed him, but doubted whether my New a keen man of business, a yachts- again. . Stick to Colorado.

Don't be deluded. Don't go a thousand miles, far from railroads and markets to find a location. Go where you can take your tools and stock to start with. Colorado is and always will be better than Idaho or Wyoming. We have good land, absolutely no alke i, right on the railway line, with splendid markets, a good potato country, water rights dating back to 1855, which we sell cheap and on easy terms to good farmers. To be a successful wife, to retain the love and admiration of her husband should be a woman's constant study: If she would be all that she may, she must guard well against the signs of ill health. Mrs. Brown tells her story for the benefit of all wives and mothers.

"DEAR MRS. PINEHAM: - Lydia B. Pinkham's Vegetable Compound will make every mother well, strong, healthy and happy. I dragged through nine years of miserable existence, worn out with pain and weariness. I then noticed a statement of a woman troubled as I was; and the wonderful table Compound, and decided to try three months. At the end of that time, I was a different woman, the neighbors remarked it, and my hus-band fell in love with me all over again. It seemed like a new existence. I had been suffering with inflammation and falling of the womb, but your medicine cured that, and built up my entire system, till I was indeed like a new woman. — Sincerely yours, Mrs. Chas. F. Brown, 21 Cedar Terrsce, Hot Springs, Ark., Vice President Mothers Ciab. - \$5000 forfeit if original of above letter proving genuineness cannot be produced.
