### OUR BEAUTIFUL COURT YARD LAWN

#### Much Credit Is Due Pioneer Members of Woman's Club

Every citizen must feel proud of our beautiful Court Yard Lawn and trees. We hear many complimentary expressions, from traveling men regarding its attractive, well kept appearance and prospectors entering the town receive therefrom a most favorable impression. Much credit is due to the pioneer members of the Woman's Club who inaugurated the work of beautifying the square. A few of our most interested and public spirited men and women have also been endeavoring to get trees growing in our cemetery and on our school grounds but owing to scarcity of water and other disadvantages, not much progress has been made at either place. Let this much needed work receive the encouragement and help of every person living in Portales for truly he who causes a tree to grow in this county is, to that extent, a public benefactor.

#### Clean-up Day

The little city of Wagon Mound in Mora county, has adopted a novel and we believe original plan to better their sanitary conditions. The business men have gone into agreement to close their doors during certain hours each Wednesday afternoon and spend the time in cleaning and grading their streets and alleys. This indicates a spirit among her citizens which is worthy of imitation. A clean, well kept town is one of the best inducements to the investor to spend his money therein while unsightly weeds and garbage are "knockers" of the worst kind. If it be not practicable for Portales to fully carry out this plan, let us have a day set apart as "clean-up" time and each resident spend that day putting his property in the best possible condition.

#### Married

Mr. Fred Tims and Miss Ruth Butler were married in Portales last Friday, Rev. F. G. Calloway officiating. The bride is the daughter of Mr. and Mrs. Geo. Butler of Shelby and the groom is a successful young farmer of the same community. The Herald extends congratulations.

### The Jackson Farm

The farm of Walter Jackson, four miles west of town is an object lesson as to what may be accomplished here by an intelligent industrious farmer.

Mr. Jackson came to Portales three years ago from Missouri and bought what was then called the Sands place near the H-ranch. Since that time he has had some discouragements such as insect pests, sand storms etc., to contend with but through it all has worked on cheerfully and now he has one of the best crops in the country. He has been shipping green beans for some time and now has onions and cantaloupes of exceptional quality on the market. There is also a large acreage of maize which will soon be ready to cut and Mexican beans, "more than Carter had oats". In addition to the things mentioned there are sugar beets, peanuts, tomatoes, "potatoes and in fact nearly all kinds of vegetables growing and producing an excellent yield.

This farm is under irrigation but for several weeks past our abundant rains have rendered the use of the well unnecessary. The appearance of this place speaks for itself. The editor of the Herald can vouch for the quality and flavor of the melons and vegetables.

#### G. H. Stover Dead

G. H. Stover died Thursday night at the Boucher wagon yard. His death was due to heart failure.

Deceased was born in Tennessee, Feb. 15th, 1815 and is survived by several children.

He was member of the M. E. church and of the K. P. fraternity.

Interment was in Portales cemetery, Friday afternoon, Rev. J. Q. Herrin conducting the services and a number of K. P.'s participating.

John Tyson is home from a trip to Roswell.

#### Portales Hotel Leased

The Portales Hotel has been leased to J. W. Farmer of Upton and will take charge Monday morning.

Mr. Farmer is too well known to need any introduction having formerly been engaged in this business here. The many friends of the family will be glad to welcome them back to our city and wish them success a plenty.

### PUBLIC SCHOOL REOPENS MONDAY

#### A Good Many Old Teachers To Be With School Again

On next Monday, August 27, the Portales Public School will reopen its doors for the benefit of the children of the city and surrounding country. The faculty will be a good deal the same as it was last year with a few exceptions in the lower grade teachers.

The school board has been very careful this year in the selection of teachers and they are of the opinion that the corps of teachers will give satisfaction to the public.

Last year the school did nice work and with few exceptions there were no kicks made on the way the children were instructed or on the teachers in charge.

As a whole Roosevelt county enjoys as good schools as any county in the new state and last year Portales had one of the largest and best schools of her history.

This year the school trustees and teachers are hopeful of a larger attendance and a better year's work.

The parents of this vicinity should endeavor to send their children to school this year. Every boy and girl in this section of country should be in school, and every parent is fully aware of the fact. It is impossible for every parent to give children the education that they would like for their child to have, but it is not impossible for the children to attend the different public and high schools that are maintained under the present system. The cost to the parent is so small that at the end of the year the money spent for text books and school supplies will not be missed. The county has and will be put to a big expense to maintain this school, and the school run whether or not your child is there and, if you have property you will bear your part of the cost just the same whether you put your children in school and partake of the advantage that is offered you, or let your children stay at home and waste his time and fail to get the education that is rightfully his and which he can not afford to be without.

A few weeks ago, Dr. Roberts was here and made an address on the education of children. Every parent in the community should have been present and heard what Dr. Roberts said. One of his remarks that was particularly impressive was that one man out of every million who never went to school at all attains distinction; one man out of every 100,000 who graduates from high school attains distinction; and one man out of every forty who is a college graduate makes a mark of distinction.

Study these figures for awhile and see do you owe it to your boy or girl to give him or her all of the education you possibly can.

The teachers employed for the term of school are as follows:

R. A. Deen, Supt., O.S. Strickland, Prin., Grace Foglesong, German and History; B. A. Stafford Jr., Latin and English; Effie Anderson, 7th grade; Fern Foglesong, 5th and 6th grade; Carrie Reece, 4th grade; Willie Leahy, 3rd grade; Vera Humphrey, 2nd grade; Lula Anderson, 1st grade.

### MEETING OF DEMOCRATS SATURDAY

#### Elected Ten Delegates to Attend County Convention

Last Saturday afternoon the democrats of this precinct met in the court house at 2 o'clock to elect delegates to attend the county convention that is to be held at 2 p. m., next Saturday afternoon at the same place.

In the absence of chairman, T. E. Mears, A. F. Jones called the meeting to order and J. A. Fairley was elected to fill that place. A. F. Jones was elected secretary of the meeting.

S. J. Nixon made a motion, which was duly carried, that the chair appoint a committee of three to recommend the delegates to go to the county convention.

The committee consisted of J. B. Priddy, Coe Howard and S. A. Morrison. The committee reported to the floor. S. J. Nixon, C. M. Dobbs, P. E. Carter, J. A. Fairley and S. A. Morrison recommended them to be elected as delegates to the county convention. These gentlemen were elected by acclamation.

Judge Carter then made a motion that five additional delegates be elected and that each delegate seat from this precinct have one-half vote each instead of a whole vote. The motion was duly seconded and carried. The chair appointed five additional delegates who are J. B. Priddy, Coe Howard, Mr. Honea, S. E. Morrison and J. O. Wood. The delegates from this precinct, ten in number, have one-half vote each. While the committee was out selecting delegates, the chair called for speeches from different democrats present. Judge Carter was the first to make an address and stated that he thought that the democratic party comes nearer standing for the right and square thing than it has since he has been able to remember. "The discordant element in the democratic party, he said, has been in the northeastern states and has consisted chiefly of politicians and office seekers. The bosses have lost control now and the democratic party is clean and is recognized as such by the people. Roosevelt is running a good race, but he is standing on some of the principles that Bryan advocated twenty years ago."

With reference to the democratic nominee for president. Judge Carter stated, "Wilson is a progressive in spite of his environments, and is to be commended for it. He has a better idea of the rights of man than anyone else in the United States. He deserved great consideration for the stand he has taken. While practically a young man he has taken New Jersey, the rottenest state politically in the Union, and has completely remodeled it, and I believe he can remodel this government."

J. W. Burnsides, after spending several days in Roswell, returned to the city Monday.

### The Melon Feast

The melon feast on the court yard lawn last Friday afternoon, was a decided success and Mr. Wash Williams is to be congratulated, not only as a melon raiser, but also for the generosity and originality of his entertainment. The affair was given in honor of his son, D. L., of Dallas, Texas, and his daughter, Mrs. Caudel, of East St. Louis. Short addresses were made by T. J. Molinari, Sam J. Nixon and Wash Williams and these remarks were liberally applauded but the culminating feature of the occasion was the melons—and such melons—large, finely flavored water melons and delicious cantaloupes such as are seldom produced save in the Portales Valley, and in quantities to have satisfied the proverbial "Georgia Nigger".

There were melons still uncut after the large crowd had regaled themselves to their hearts content. It was a jolly social hour and the suggestion that we have an annual melon feast each August is a good one.

#### Change in Management

With the beginning of next week, the first of September, Mr. N. Connally will sever his connection with the Joyce-Pruit Co. as manager of the Dry Goods Department. His vacancy has been filled by a Mr. John R. Moore of Carlsbad. Mr. Moore has been employed by this same company at Carlsbad for the past seven years. He will move his family here within a week or two.

Mr. Connally found it necessary to quit the store in order that he might attend to his irrigated farm.

Lawrence L. Connally who has been assisting his father in this department, will leave next week for Las Cruces where he will attend school, and his place will be filled by John Luikart of this city.

#### Mrs. T. A. Higgins

Mrs. T. A. Higgins died at her home in the Doss settlement, August 23, 1912. She was a victim of cancer and had suffered from this trouble for twenty years. She was about sixty-one years of age and leaves a husband and five children to mourn her departure. She was a member of the baptist church and Rev. J. Q. Herrin officiated at the funeral service Saturday afternoon when she was laid to rest in the Portales cemetery.

### COUNTY INSTITUTE COMPLIMENTED

#### In Letter From Chief Clerk, R. F. Asplund to R. A. Deen

We have your letter of August 30th enclosing resolutions which will be referred to Superintendent White upon his return to Santa Fe. I have been greatly interested in looking over these resolutions and find them unusual in many respects. As a rule teachers content themselves with a series of paragraphs of thanking everybody. Your resolutions on the contrary are full of suggestions and indicate a program worthy of serious consideration. I am quite sure that Supt. White will be interested in the various resolutions. Your institute must have been what it should be in every county, the center of educational enthusiasm and interest.

#### Buys Property Here

Mrs. Rhoda E. Johnson of Olive, New Mexico, was in the city the latter part of last week and the first of this week. Mrs. Johnson has made several trips to Portales and on her last trip here bought a residence in the city. The purpose of her visit this time was to install part of her household goods that she had shipped from her ranch near Olive, and getting the house ready for herself and sister, so that they will be able to move in to it within a few weeks.

Ed Potes has been repairing and remodeling his house in east Portales. Mr. Potes bought this property last winter and has wrought quite a change in its appearance by planting trees, flowers and grass, which he irrigates by means of a gasoline engine. He also has one of the finest gardens in Portales.

Mrs. Hardy after about a month with relatives in Portales, returned to her home in Ardmore, Wednesday.

#### Richland Picnic

This office last week, printed bills announcing a picnic to be held at Richland next Thursday, September 5th, a large list of prizes are offered for farm products, stock and etc.

Plenty of refreshments will be on the ground and a general good time is assured to all. Be there; go early and stay late.

## Fellowship

By JAMES WHITCOMB RILEY.

When a man ain't got a cent, an' he's fellin' kind o' blue,  
And the clouds hang dark and heavy, an' won't let the sun  
shine through,  
It's a great thing, O my Brethren, for a feller just to lay  
His hand upon your shoulder in a friendly sort o' way!  
It makes a man feel queerish; it makes the tear drops start,  
An' you sort o' feel a flutter in the region of the heart;  
You can't look up and meet his eyes; you don't know what to  
say,  
When his hand is on your shoulder in a friendly sort o' way.  
O, the world's a curious compound, with its honey and its  
gall,  
With its cares and bitter crossness—but a good word after all  
An' a good God must have made it—least-wise that is what I  
say.  
When a hand is on your shoulder in a friendly sort o' way.

## Perpetual Motion

When protest arises and rumors grow rife,  
And reformers are armed for implacable strife;  
When fierce resolutions they threaten to make  
And chop a few heads for propriety's sake,  
Oh, then is the time to shun title and power,  
The price of position will fade in an hour.  
When discussing the blame for what ever goes wrong,  
Pass it along boys; pass it along.  
While prosperity smiles and the air is serene,  
It is proper to step to the front of the scene  
And seem the responsible party in all  
That fortune or favor may bring to our call,  
But when the black clouds of adversity frown,  
Seek the man higher up or the man lower down,  
The blame may be lost in a side-stepping throng,  
So pass it along, boys; pass it along.—Washington Post

Good rains—good crops—prosperity.

Form all over the country come reports of good crops. The proposed canning factory would solve in great measure the problem of a market for our products.

In our contemporary, The Portales Times, of last week, Capt. T. J. Molinari in his usual graceful style announces that he is now editor of that publication. H. B. Ryther retaining connection with the paper as manager.

The teachers of Roosevelt Co. are to be commended upon the high moral and educational standard indicated in their resolutions adopted at the close of their institute. This is as it should for next to the parents, the teacher is the most potent influence in the lives of children.

In our neighboring state of Texas, this year several prizes have been offered for the cleanest and best kept streets in towns of varying population and much interest is being manifested in the contest. The press states that civic pride is developing and sanitary conditions improving, especially in the small cities and towns.

An exchange asks whether murder has become an occupation? Not exactly, but maybe a distraction. There are so many going out by violence they must either court extinction or fated so to pass away. But it does not seem natural that anyone be removed even by accident. Take away the instruments of destruction, such as the gun and knife, the participants would be put to it in order to remove the enemy or those to whom they have taken a violent dislike. Murders are hard to explain. It must be that they are instruments in the hand of fate or the individual temporarily deranged at the moment of the act. Most are inclined to the latter belief.

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Theford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Theford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Theford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

Doan's Kidney Pills are especially for sick, weakened kidneys. Many people in this locality recommend them.

Here's one case:

B. W. Miller, E. Eleventh St., Hereford, Texas, says: "I used Doan's Kidney Pills when suffering from pain in my back and they quickly relieved me. Now when I stoop to lift, I don't have that pain in my loins and the trouble with my kidneys has also been corrected. I do not know of a better medicine for kidney complaint than Doan's Kidney Pills and I cheerfully give this public statement in their praise.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

President American Association of Advertisers

I do Not know of any joy quite so keen as the joy of seeing people respond to advertising.

The business world is divided up into two general classes:

Those who employ, and

Those who are employed.

In every talk the employer is calling the "boss," and the employed is called the "Hired Man."

There are about thirty Hired Men in the United States for every Boss.

In other words, only one man in thirty rises up from the ranks and makes a substantial success.

Every young man who reads this is going to be either a Boss or a Hired Man---one or the other sure.

Which shall it be for you?

The matter is one which you can largely control.

If you get the right thought started you can be a Boss.

If you start in and advertise persistently you can be a Boss.

The main reason why only one man in thirty grows up to be a Boss is because only one man in thirty recognizes the power of advertising.

When you once get the right view of advertising, you solve the most perplexing problem of the times.

When you recognize how to create a demand for what you have to sell, the whole world is before you as a field from which to garner the gold.

Write out what you want the public to know; go to the publisher of the paper you read and have a talk with him. Show him your copy and take his advice if he tells you to change it.

Decide with him how much space to use and how often.

Feel your way along, until you get a grip on the thing.

Then go at it with both hands and feet.

I do not know of any better way to learn advertising than to advertise.

August 23 1912: Resolved that the Williams watermelon and cantaloupe feast given by Col. Wash Williams of Portales, on the 23rd, day of August 1912; was not only a treat but was an agreeable surprise to the Col's many friends who enjoyed his hospitality and rejoiced with him in his splendid success in growing the finest melons ever yet plucked from the fruitful vines which grow only beneath the ideal and canopied skies of the Portales Valley. The crystal clearness of the valley skies beaming upon a bunch of human energystimulates and idealizes every worthy effort which if properly directed brings forth utilities that beautifies and adorns, and finally supports and perpetuates the industries that develops countries and builds cities. Resolved further that we, commend the Col's worthy efforts and rejoice with him in his success which has made him the "King" of the melon patch. MONROE HONEA. T. J. MOLINARI. SAM J. NIXON. Brick cream and nabiscos were served and an appropriate fish souvenir given to each guest. After refreshments, the party went out upon the lawn and played various out door games until time for departure which came all too soon for the happy crowd of little people.
