BIG GET-TOGETHER MEETING

At the Roosevelt county courthouse Saturday, February 1st. at 1:30. If you are a resident of Roosevelt county you are invited. This is for the citizens of Roosevelt county and we ask you to attend. This meeting will be attended by the business men of the town and by all the farmers of the country who can get here.

Your neighbor will be there to tell you why he fell down on his maize crop and you can tell him why you raised peanuts instead of corn. Everything that pertains to the farm in this country will be discussed by men whom you know to have had the experience. You will not have to come and listen to a lecture but to several short talks.

Rub the cob-webs off your own mind a little and be ready to tell your fellow citizen why you are still here and why you are going to stay. This treat will cost you nothing and the merchants will have special sales for you that day so that you can do your shopping then better than other time.

... The County is Meeting for YOUR Good ...

Now Mr. Citizen you have the invitation of your fellow citizens to come to Portales on the above mentioned date and help to boost your country. We are asking you for nothing except your presence and what you know. You will not be asked for a five cent piece while you are here nor later and all that this meeting is for is to get the benefit of listening to the men of the country who have made good. Irrigation subjects will be taken up but the dry lands especially will be discussed. Your proposition that faces you will be discussed and you may know more about how and where to sell your products when you go home than when you came. Your roads that give you trouble will be talked over and see what is best to be done about them. Everything that pertains to your betterment and that means the betterment of the country, will be discussed and you are once more urgently requested to be present.

BE THERE.

R. P. CONNALLY

The Wilson Page bill that is now before the national legislature is one which should interest all of the people of the state of New Mexico and every state along the line of vocational training. The bill is one to make an appropriation of funds for the national training of the domestic arts and kindred lines and thus save one state from going to the expense of training the young people for good teachers along these lines and then another state which has not trained them along the same lines coming in and bidding for the first states trained students and taking from her after the people have paid out their money to train them found. Very good, let the good for use in their native state. A more concrete example of the matter would be to take our own state for instance and now that we are appropriating funds for are with you and will do all in the training of such teachers our power, though this is not possibly the surrounding states much, for you. You have made that are not doing the same the right move in getting the will, as soon as we have men and organization in a state wide conwomen trained for the purpose dition and you can count on us to teach the children coming up, come in and take from us the trained students that you and I have paid taxes to support. HIS TROUBLE trained students that you and I Keep your eye on this bill and see what becomes of it.

State game warden, T.C.de Bacastates in a recent interview that he could take the surplus money of the game protection fund of the state and with ponds of the state over 2,000,000 fingerlings. This means that in and tried various medicines in vain. a few years the fish supply of the state would be twice or three times what it is at present so we money. The governor in his! message to the legislature stated that he would like to see a hatchery started so here is his chance to make good what he has said, and we believe in him strong good health do not go together. enough to think that we will the hatchery started next year at the outside. That is one step in the right direction for the new state and moves us another of the notches that we are behind some of our older sisters.

We appreciate you down here Mr. Woodrow and also Mrs. Sulzer. Both of them have made the statements that in the White house and in the governor's mansion of New York there will be no inaugural balls nor other society events that will mean much money paid by the common people for these events and nothing gained by them. Further it shows to the common people such as we are that they are there for business and not for frivolity and if they are setting the example of saving for the public from the first they will assuredly save for them throughout the administration of both President-elect Wilson and Governor-elect Suizer.

And some one please tell us what is the trouble with the coming panic. The school apportionment for Roosevelt county for the month of January was the best in the history of the country for that month. It amounted to one dollar per capita for every school child in the county. Theamount was \$3,033.00 and the scholastics are numbered at 3033 children. Nine rahs for the coming president and the coming prosperity that is showing on every corner.

The university of New Mexico is after another appropriation for her work and here we agree with them. Our university does not hold the rank that it should hold in the other universities of the land and since our schools mean and spell what our next generation will be, and since this is the highest of our schoolswe should spare neither money nor pains in its betterment.

Too bad about this coming panic. A recent issue of the Albuquerque paper makes a call for plumbers and bricklayers. It states in very bold type that they are at a premium and cannot be work go on. That panic seems to be losing hold every day.

Go ahead, newspapermen, we to be at the next meeting.

Write Ideas For Moving Picture Plays!

CAN WRITE PHOTO PLAYS AND EARN \$25,00 OR MORE WEEKLY

We will Show You How

If you have ideas---if you can THINK ---- we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100.00 and more, for single scenarious, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITIGRAPH, EDISON, ESSANY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are Selling Photoplays Written by People Before Wrote a Line for Publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for \$25.00, a low figure,

Will Earn \$100.00 TREE Send Your name and address at once for free copy of our illustrated book. "MOVING PIGTURE PLAYWRITERS."

GET THESE Money-making Secrets Farm Journal

FARM JOURNAL ("cream, not skim milk") is the great little paper published for 36 years in Philadelphia by Wilmer Atkinson. It is taken and read by more families than any other farm paper in the WORLD. Its four million readers (known as "Our Folks") are the most intelligent and prosperous country people that grow, and they always say the Farm Journal helped to make them so. Their potatoes are larger, their milk tests higher, their hogs weigh more, their fruit brings higher prices, because they read the Farm Journal.

Is this cock properly held? "Poultry Secrets" tells how to carry fowls, and other secrets far more important.

Do you know Peter Tumbledown, the old fellow who won't take the Farm Journal? By showing how NOT to run a farm, Peter makes many prosperous. Nobody can go on reading the Farm Journal and being a Tumbledown too. Many have tried, but all have to quit one or the other.

The Farm Journal is bright, brief, "boiled down," practical, full of gumption, cheer and sunshine. It is strong on housekeeping and home-making, a favorite with busy women, full of life and fun for boys and girls. It sparkles with wit, and a happy, sunny spirit. Practical as a plow, readable as a novel. Clean and pure, not a line of fraudulent or nasty advertising. All its advertisers are guaranteed trustworthy.

The Farm Journal gives more for the money and puts it in fewer words than any other farm paper. 32 to 80 pages monthly, illustrated. FIVE years (60 issues) for \$1.00 only. Less than 2 cents a month. No one-year, two-year or three-year subscriptions taken at any price.

What Our Folks Say About F. J. "I have had more help, encouragement and enjoy-

"It is a queer little paper. I have sometimes read it through and thought I was done with it, then pick it up again and find something new to interest me," says Alfred Krogh.

"Farm Journal is like a bit of sunshine in our home. It is making a better class of people out of farmers. It was first sent me as a Christmas present, and I think it the choicest present I ever received," says P. K. LeValley.

"We have read your dear little paper for nearly 40 years. Now we don't live on the farm any more, yet I still have a hankering for the old paper. I feel that I belong to the family, and every page is as dear and familiar as the faces of old friends," says Mrs. B. W. Edwards.

"I fear I neglect my business to read it. I wish it could be in the hands of every farmer in Virginia," says W. S. Cline. "I live in a town where the yard is only 15 x 18 feet, but I could not do without the Farm Journal," says Miss Sara

"I get lots of books and papers, and put them aside for future reading. The only paper I seem to have in my hands all the time is Farm Journal. I can't finish reading it. Can't you make it less interesting, so can have a chance at my other papers?" writes John Swail.

"If I am lonesome, down-hearted, or tired, I go to Farm Journal for comfort, next to the Bible," says Mabel Dewitt. . "Farm Journal has a cheerful vein running through it that makes it a splendid cure for the "blues." When coming home tired in mind and body, I sit down and read it, and it seems to give me new inspiration for life," writes G. E. Halderman.

"We have a brother-in-law who loves a joke. We live in Greater New York, and consider ourselves quite citified, so when he sent us the Farm Journal as a New Year's gift we nearly died laughing. 'How to raise hogs'—we who only use bacon in glass jars! 'How to keep cows clean'—when we use condensed milk even for rice pudding! 'How to plant onions'—when we never plant anything more fragrant than hises of the valley. I accepted the gift with thanks, for we are too well-bred to look a gift horse in the mouth. Soon my eve was caught by a beautiful poem. I began to read it, then when I wanted the Farm Journal I found my husband deeply interested in an article. Then my oldest son began to ask, 'Has the Farm Journal come set?' He is a jeweler, and hasn't much time for literature, but we find so much interest and uplift in this fine paper that we appreciate our New Year's gift more and more,' writes Ella B. Burkman. "We have a brother-in-law who loves a joke. We

SLIM SHELL SOME DAIRYMAN

Continued from first page

crop came in. From these horses he says colts are the crop and that they eat very little and do his work too. He started in with three or four head three years ago. His hogs are what he calls the best in the world and some of them which were raised on nothing except skimmed milk until they were three months old and then began to be fed New Mexico corn, weigh now at the end of six months of age, over two hundred and twenty five pounds and he says that they are sure enough hogs and not razor backs. He feeds all of his pigs from this skim milk and says that for fattening hogs it is the best in the world as they will drink this milk so heartily that they can not be overfed and that you can drive up to the pen and pour out a full wagon load of corn to them and they will not gorge themselves on it as ordinarily hogs will do.

Another little thing that Slim mentioned was the fact that his skim milk calves, as the stock men call them, brought him the sum total of fifteen dollars apiece when they were five months old. Not so bad in itslf when you take into considerertion that the cows he was milking were only worth about fifty or sixty dollars. Besides this he has milk for his flock of chickens and milk to sell vict farm. to the neighbors besides the cream which he delivers to town law be passed regulating covered in counties. and states that it averages him over twenty five dollars per month in and mouth out from the six cows.

When asked about the separa tor that would have to be bought he said that you could get one from any creamery and pay them for it in the cream that you shipped to them and that the separator was the least of his trouble.

Slim says that one of the best things that the business men or merchants of the city could do for the farmers would be to go in and sell them cows at the price a good cow is worth and let them pay for the stock out of the sales of milk. When asked if a man could take a good cow and pay for it besides making a living from the bunch he said that first it depended on the man and second on the rate of interest that he had to pay on his investment. He said that at ten per cent a man could pay it out if he were any worker and manager at all but that it would be much better for the farmer if the rate could be lowered to at least eight if possible.

Slim is an enthusiast over the country and he has lived here and most of the time on a farm for the past eight years and you would do well to talk to him if you have the blues over your place or want to know just exactly the ifs and ands of the dairy business.

What Our Folks Say About F. J.

"I have had more help, encouragement and enjoy-ment out of it in one year than I did out of my other papers in ten years," says C. M. Persons.

"It is a queer little paper. I have sometimes read it through and thought I was done with it, then pick it up again and find something new to interest me," says Alfred Krogh. "Farm Journal is like a bit of sunshine in our home, It is making a better class of people out of farmers. It was first sent me as a Christmas present, and I think it the choicest present I ever received," says P. R. LeValley.

"We have read your dear little paper for nearly 40

"I fear I neglect my business to read it. I wish it could be in the hands of every farmer in Virginia," says W. S. Cline. "I live in a town where the yard is only 15 x 18 feet, but I could not do without the Farm Journal," says Miss Sara

"I get lots of books and papers, and put them aside r future reading. The only paper I seem to have in my hands I the time is Farm Journal. I can't finish reading it. Can't you ake it less interesting, so I can have a chance at my other pers?" writes John Swail.

"If I am lonesome, down-hearted, or tired, I go to Farm Journal for comfort, next to the Bible," says Mabel Dewitt. "Farm Journal has a cheerful vein running through

to give me new inspiration for life," writes G. B. Halderman.

"We have a brother-in-law who loves a joke. We live in Greater New York, and consider ourselves quite citified, so when he sent us the Farm Journal as a New Year's gift we nearly died laughing. 'How to raise hogs'—we who only use bacen in glass jars! 'How to keep cows clean'—when we use condensed milk even for rice pudding! 'How to plant onloan—when we never plant anything more fragrant than lilies of the valley. I accepted the gift with thanks, for we are too well-bred to look a gift horse in the mouth. Soon my eye was caught by a beautifut poem. I began to read it, then when I wanted the Farm Journal I found my husband deeply interested in an article. Then my oblest son began to ask, 'Has the Farm Journal come yet?' He is a jeweler, and hasn't much time for literature; but we find so much interest and uplift in this fine paper that we appreciate our New Year's gift more and more," writes Ella B. Barkman.

"I received 'Corn Secrets' and 'Poultry Secrets,'

"I received 'Corn Secrets' and 'Poultry Secrets,' deconsider them worth their weight in gold," says W. G. Newall. "What your Egg Book tells would take a beginner "Duck Dollars is the best book I ever had on duck-

raising," says F. M. Warnock, "If your other booklets contain as much valuable information as the Egg-Book, I would consider them cheap at double the price," says P. W. Mansfield.

"I think your Egg-Book is a wonder," says "The Farm Journal beats them all. Every issue has

"One year ago I took another agricultural paper, and it took a whole column to tell what Farm Journal tells in one paragraph," says N. M. Gladwin.

"It ought to be in every home where there is a chick, a child, a cow, a cherry, or a cucumber," says I. D. Bordus.

LYKINS LETTER

King George of Lykins is evi-

dently a live wire, judging from

his latest exhibit of political talent. We find him supporting the doctrine of long ago, as with the surprise displayed by a man at some familiar fact. You may judge of his general culture. So from the administration which an age accords to a new thought its average decree of enlightment may be infered that this apophthegm of Jefferson and Grants should have been quoted and requoted "as it has," shows COMMISSIONER'S how profound has been the ignorance of the G.O.P. A small ray of truth has seemed brillians as a rushlight looks like a star, in the surrounding darkness to them. Such a conception could not indeed fail to be startling, when let fall at such a time, and so many to be ousted from office. Should it have been a popular 1918. opinion in Jefferson and Grant's Present: time? It was explained on the hypotesis of holding the party together, rather than growth. As it is in our day, both parties have good men and of course in harmony with such ideas. Parties were tacticly assumed to be arranged thus, by direct interposition of providence. We do know that the life of a party does not depend upon what would be just to an individual, but what is just to it's supporters; and as many very important changes are to come before the public which will need prompt attention and support of those loyal men that really won our victory. Then if the Woodrow Wilson administration is a success he will be applauded, and if not, his poiicies will be criticised. Then it is not the most brilliant enticing ath, but the safest course along which hes the real progress and which will bring that great *mount of prosperity which is due us.

"The G.O.P. withers and the world is more and more." Further it isto be noted that, the over greatest party ceases to be needful, and while the apperditions awe, which upholds that mee unlimited authority dwin tles. At the same time irecemes almost impossible for as to get the greatest good out of or first administration; but with party strength, courage, will, and in an advance.complex and com parative peaceful state like ours there is absolutly no cause for us

o feel the intimidation. The characteristics required are not a love of conquest, but a desire for general happiness, not undying hate of enimes, but a calm, dispassionate equity, not artful manoeuvering, but philosophic insight. How is one to be found endowed with such qualities? In our country he is not born heir to the throne. He can be chosen at random out of twenty three million voters, and none will be foolish enough to hink that a few forming the eadership of our party can not pick the best man from among them selves then these millions of "voters" certainly can not do it.

President Buchanan said that he believed when men voted for a change in the president, they voted for an entire change in that party. So we roll merrily on.

ATTENTION

In taking charge of the Herald we want all of people of the county to have the benefits of the paper and we want to and will make the paper a paper for the people and by the people. This paper will not stand for Elida more than it will for Portales nor will it stand for Portales more than it will for any other town or neighborhood in the county and the only way in which we can make the paper a paper for the people and by the people is for us to have correspondents over the county and in every commu-

In order that we get good correspondents we have decided to make the following offer and the offer will hold good until every town and community in the county has been represented by a good booster from that neighborhood. We will furnish any person who shows their ability and aptness for the work with all of the necessary stationery and stamps for their work. We will also issue free to the parties so representing us the Herald for purpose of abolishing herd law all of the time that they keep us in precient No. 2, Roosevelt in copy from their respective communities. Please state when you send in your first letter of notes whether you will write every week or every two weeks. Remember that the paper will come out on Thursday and if you want the news notes in on that week ness, appearing the board do they will have to be in the office

The school sending in largest subscription list will receive the organ. Every school sending in ten subscriptions will receive an up-to-date globe. We are now on the eve of making the subscription list of this official county paper to include every family in the county and in order to do this we are going to give away on March Twenty-second, a handsome \$125.00 organ and a number of modern globes, besides a ten volume library. : : : The paper will carry all of the official news for the next four years and this alone is worth the price of it. We are also working up a staff of county correspondents and this assures news from all of the county. It will carry news of value to the farmer, both irrigation and dry land and will be a helper to him in many ways. We will also endeavor to carry a condensed page or half page of national and state news, thus giving the subscriber more for his money than ever before. Now if you want to help your school and community you can do so. Since the country is thinly settled it means that very few subscriptions will win the organ so get to work. If you don't intend to stay here very long you will want the paper sent where you go so don't fail to subscribe on that account. NOW IT IS UP TO YOU. IF YOU WANT THE ORGAN, WORK FOR IT

Increasing Daily Attention and Consul entious Visits to the Dentist Are Imperative If Good Looks Are to Be Preserved.

A good, firm white set of teeth is more to be desired than a rare string of pearls. Unfortunately, all cannot possess good teeth, but the few women who have a perfectly good white set of teeth should guard them as they would the finest jewels. On good authority, it may be stated that a bad stemach causes bad teeth, and if the transit before it reaches the city comtomach is not kept in good condition. no matter how strong the teeth may be they cannot last;

Germs develop and live almost everywhere. When there is one bad teeth in the mouth, there is certain to be germs. One bad tooth not taken care of in time may lead to many vis its to the dentist and possibly the loss of one or more teeth.

Some years back the dentist would be visited once a year, later on twice a year was considered sufficient, but now four times or every three months is deemed none too often to have the dentist look your teeth over. There may be a tiny cavity, so small, in fact, that it is revealed only when the dentist looks through his magnifying class. But that cavity attended to in time will involve small cost, little pain, and result in the preservation of the tooth. Sometimes the dentist's examination may fail to reveal a small cavity way down near a root and if you yourself do not find it soon it will nean a good-sized filling when you next visit the dentist. Therefore, if longer than three months is allowed to elapse between the visits to the dentist it is easy to estimate the dain

that may result to your teeth. Much has been written and said cor orning the care of the teeth, and in many instances the statements are ex One of them-that the cond!

A cleansing and refreshing tooth powder may be made with the following ingredients:

Equal parts of precipitated chark rowdered erris root, borax and powdered castile soap. Weigh these ingredients, and, if a half pound or more, five cents worth of oil of winter green may be added. Then sift all through several times. When not us ing, keep closely covered.

If the practice of rinsing the teeth and month after eating were mor generally observed, the teeth would last longer and dentists' bills would be fewer. Pour a pint of boiling water ever a tablespoonful of bicarbonate of soda. When cool is may be used to acumulation of acid. Larger proportions may be mixed and kept handy for use. It takes but a moment to rinse the teeth, and this precaution helps in a large measure to preserve them.

The annual egg production of the United States is estimated to be worth four hundred million dollars, and of that total two eggs in every dozen, worth over sixty-six million dollars in all, go into the garbage can as unspeakable. Is it any wonder that the United States government is co-operating with the farmers to save those two expensive eggs? The most elaborate campaign for the conservation of the egg is that conducted in the state of Minnesota by Mr. N. E. Chapman of the extension staff of the agricultural college of the State University. His mission is to encourage the egg to get to market while it is fresh. He preaches the doctrine of fresh eggs to railroads, dealers, teachers, farmers, and country children. He traces each bad egg to the source of its badness, and delivers an earnest lecture to the responsible party. Mr Chapman glorifies the hen. He tells her story on an average of four times a day the year round. His best audiences are the children to whom the rosy gentleman in gold-bowed spectacles is known as "Uncle Norton." Dr Holmes said that many men and women whom the world holds normal were really deficient. Persons with aquiline noses were rarely deficient, he asserted. Persons with long slender bands of a smooth texture were most apt to lack energy and to be deficient mentally, he added.

Thoughtful Wife. Weary of life, a farmer went out to

his barn and hanged himself. A little later his wife, entering the barn to feed some animals, saw her husband swinging from the rafters. Arguing that if, as it was natural to think, her husband intended to commit suicide. he would be exasperated by the frus tration of his intention, she left the body as it was and went on with the work of the farm.

Several hours later in the evening, when her daughter came back from the fields, the woman told her what had happened. Mother and daughter deliberated for some time as to what ought to be done, and finally decided to inform the mayor. When that offcial came in haste and cut down the body life had been extinct for several hours.--London Telegraph.

E. CHAPMAN, AN ADVOCATE OF FRESH EGGS MASSAGE BY SLAPS

New Treatment to Correct a Loose, Flabby Skin.

French Beauty Specialists Introduced This Innovation, and It Has Been. Eagerly Taken Up in This Country.

By MME. ARMAND.

If your skin is loose and flabby and you hesitate to massage it for fear of pushing or dragging it-which, by the way, is very harmful, especially when lines are apparent—then try the new-

er treatment of slapping the flesh. French beauty specialists believe more in slapping and kneading the flesh than in massage, and judging from the patronage they receive, it is a real success. Of course, the slapping is a sort of massage, but as it is applied with the flat of the hand, there is no pushing, pulling or dragging of the skin, which is likely to occur with ordinary massage if one is

not careful and skilled in the work. In taking one of these treatments not long ago I was told that the skin and flesh responded more quickly to this kind of work and that almost any part of the body could be filled out in much less time than with the ordinary

massage. It certainly makes the blood which is dormant and sluggish come to life. The regular pit-pat sends it tingling through the veins until it seems that the whole skin is aglow with fresh, warm blood. In the Turkish baths part of the treatment consists of slapping and kneading the entire body, and that is why one feels so good thereafter, because every bit of blood possible to reach has been set in mo-

How to Slap Your Own Face. First cleanse the face thoroughly then warm the skin either by holding hot cloths upon it or by steaming it. Next pat in some of your favorite cream or skin food. Allow all that will to absorb and then with the nat of the hand slap firmly, yet severely, at the corners of the eyes and temples, The work of slapping is done best by BICYCLE REPAIRER alternating with the hands, using one and then the other. Next slap the cheeks from the sides of the nose. Work out over the jawbone and on to good living with a the neck. If what is known as the bicycle repair character lines, those which run from shop, and he has the nostril to the corners of the the promise of at mouth, are deep, then push the tongue beneath the line and slap well. When working about the eyes do so very While driving gently. Use only the cushion of the with his sons re second finger-tip. Remember always cently the king that the eyes are sensitive to any ran down a cyclist hard or vigorous application, so one with his carriage must be careful to do no harm to

lessness of the bi- each side. Double Chin Necds Slapping. To remove the superfluous fat and hands, alternately, slap upward, octhe chin, never down toward

> When the face, neck and chin have been sufficiently slapped they should tingle and smart, but not pain. Then, after a few moments' rest, the hands should be doubled up into fists, and the flesh softly kneaded all over, and wherever the skin is loose and bagg it should be picked up between the thumb and second finger and gently rolled back and forth. When finish ed the face can be cleansed of dust and foreign particles just as it is with ordinary massage. If you will take an old soft towel first to remove the superfluous cream you will notice how soiled it is. This slapping and kness ing not only helps to fill out the fiesh but makes an excellent way of ridding the skin of many impurities.

Another Method of Using Cream. It is very difficult to make so skins absorb oils and creams and matter how hard one may try steaming the skin and other warmin methods to open the pores, the crest skill remains on the surface. If reskin is of this texture, then, after steaming or warming it, rub a little of the cream on the tips of your finger or the palms of the hands, and while you are slapping the skin this work into it. A good many women prefer to be massaged in the way, and do not care to have the way, and do not care to have cream rubbed on the face first. It et tainly has the advantage over the method of applying the cream, as it more dainty and does not grease the whole face or skin at once. can also tell just how much cream skin will absorb. If you take well little at first, and it works in, hands become dry and then you take up a little more, and in this m ner you can tell that the cream sinking into the skin.

Colored Caps. A rather daring departure has

made in the matter of boudoir Aside from the finest Irish linen lace of the same manufacture, co ribbons are now being run through the lace openings at the bottom of cap, and in some cases caps of colored linen, with white lace, being shown. This is strikingly because of the fact that white has ways been the predominating for a morning cap. In the co caps Irish linen is not being These caps may last, but it is unli as milady is discriminating and refuse to depart from the white linen cap.
