Notice to Normal Patrons

Word has just been received by the county superintendent of education, Mrs. S. F. Culberson, that the matter of paying the third grade teachers \$15.00 under certain conditions, these conditions being well known to the teachers without stating here, was now under consideration for this term of the county normals and that the matter seemed to be unsettled so far.

In the State Constitution there was an article in regard to the money that has heretofore been used for this purpose and the attorney general of the state has passed on the article and says that only in one way can the matter be determined, by bringing it into the courts.

Accordingly all teachers qualifying for the payment will be issued vouchers and the same can be turned in to the state auditor and a test case will then be given the courts. If the courts decide to use the money for the payment of the \$15.00 to all teachers deserving same, their vouchers will be paid and if the court rules against the payment of the money, the voucher will be worthless.

Four weexs attendance at the institute, if all other requirments are carried out, will, as usual, exempt the student from payment of an institute fee.

Notice to Normal Patrons

Word has just been received by the county superintendent of education, Mrs. S. F. Culberson, that the matter of paying the third grade teachers \$15.00 under certain conditions, these conditions being well known to the teachers without stating here, was now under consideration for this term of the county normals and that the matter seemed to be unsettled so far.

In the State Constitution there was an article in regard to the money that has heretofore been used for this purpose and the attorney general of the state has passed on the article and says that only in one way can the matter be determined, by bringing it into the courts.

Accordingly all teachers qualifying for the payment will be issued vouchers and the same can be turned in to the state auditor and a test case will then be given the courts. If the courts decide to use the money for the payment of the \$15.00 to all teachers deserving same, their vouchers will be paid and if the court rules against the payment of the money, the voucher will be worthless.

Four weeks attendance at the institute, if all other requirments are carried out, will, as usual, exempt the student from payment of an institute fee.

Hunting Club

The following article may bring back fond memories to some of our readers and it also brings into prominence as an old hunter, one of our foremost fellow citizens. It was clipped from an Arkansas paper.

Last week, Tuesday morning the Bellville Hunting club donned their hunting clothes, loaded their equipment into two wagons and pulled out for the regu lar hunting grounds, on the Cape Slough, in Petit Jean bottom.

When we arrived at our regu lar camping place we met a local hunter just coming out of the bottom. He said he had been in the bottom ever since daylight, and had seen only one squirrel, and that there were none in the bottom. This somewhat amused us but we were in no way dis-

After partaking of a hearty dinner, we singled out and went after game. It was not over five minutes until guns began firing in every direction, but as no two of us were together, we cannot tell in detail what happened until about night, when the tired boys began to return to camp. When all had returned we counted up and the score was seventy nine Then the fun skinning commenc ed. As soon as we had a few skinned the cook had hot grease the aroma of trying squirrel be gan to whet our appetites. By the time we got done skinning. supper was ready and a large dish pan full of nicely browned squirrel sat ready to be devoured. You fellows who never saw rel one man can eat. The editor ate so much he had to go to bed After the feast was over and the dishes were washed, cigars were passed and the funny man began his camp jokes and a ound of merriment began that would have made a wooden Indi an smile. Some of the boys played dominoes until a late hour and they quarreled so much that they disturbed the owls. We all got to bed about two o' clock and Dan Mangum set the alarm clock for four o'clock So you see we got but little sleep. We were all out early and our cooks soon had plenty of coffee ready for a hurried breakfast. Before it was good daylight we were in the bottom ready for the first game that came off the roost. Soon the roar of the au tomatics was heard and the bat tle was on. By ten o'clock the weary hunters began to return to camp, each laden with game of the snake was knocked so according to his skill and luck, high that about a minute after By noon all had returned except wards it fell on him. one man and fears were enter tained that he was lost and the camp horn was tooted.
