ROOSEVELT COUNTY EXHIBIT TAKES FIRST PLACE

Doctor J. L. Reid the Exhibitor From Portales Sends Enthusiastic Telegram Showing Success

PORTALES VALLEY AND ROOSEVELT COUNTY ON THE MAP

It Is Going Some to Cop Twenty-nine First Prizes and a Host of Second--That is Exactly What We Did

A telegram received just as we are going to press from Dr. J. L. Reid, who accompanied the Roosevelt county exhibit to Albuquerque, and who is this week exhibiting the same at the State Fair, announces that our exhibits at that place have attracted the attention of every one, and that the advertisement which we are receiving is simply great. This telegram announced the results up to last night, and of course there will be more to follow imparts the good information to the citizens of Portales and Roosevelt county that we have won first prize as the best irrigated community, second prize for the best county exhibit, twenty-nine first prizes for the best exhibits of various farm and garden products, eighteen second prizes, six third prizes and one fourth prize. This ought certainly to make the world sit up and take notice, because it fully demonstrates that the claims we have been accustomed to making about the great possibilities of our country are not only true and well founded, but that all our claims have been an under estimate of the wonderful productivity of our soil and climate.

The exhibits sent to Albuquerque in charge of Doctor Reid were all blue ribbon exhibits from the county fair held here last week, and of course were simply excellent in every respect. They are the results of a pick from the very best stuff of all kinds in the country, but yet there is an abundance of the same kind and quality left on the farms of our county. The county fair in all its various departments was, indeed, a most wonderful success, and was a revelation to our own citizens—even to those who are accustomed to boosting for the means of a livelihood. It proved to every one that there is a country any-

where that can excel us in the production of livestock, poultry, and in all the horticultural and agricultural products. It demonstrated to us all that our faith was well founded, and that by work and perseverance the entire county will soon become a veritable Garden of Eden.

The Herald had intended this week to give a detailed statement of the various prizes awarded at the county fair, but owing to the fact that some one from the country, who had listed the dry farming articles as they were brought in, left town with the name key and that Mr. Fairly, the secretary of the association, only has in his possession the numbers to which prizes were awarded, it has been impossible to learn the names of a large number to whom prizes were awarded. However the complete data can be had as an item for next week. It would not be amiss, however, for us to say at this time that Inez was certainly well represented. Uncle Polk Williams, the father of Inez, was here with his entire community and the exhibit from that section was certainly an eye opener and fully demonstrates just what can be done by hard work on the dry land farms of our country. A finer exhibit than that was never seen in scarcely any country, and Uncle Polk had high hopes that the Inez people would captivate the entire list of prizes, but whether or not he hoped in vain can only be determined when the names have reached Mr. Fairly and Judge Lindsey. However, the fact that we had a county fair has given us some splendid advertising which could not have been had in any other manner, and which could not be purchased for any price. The county fair is indeed a great thing and the wisdom of the legislature in providing for these organizations should certainly be realized by every person in our state.

Court to Convene Monday

District Court will convene Monday, the thirteenth, with Judge John T. McClure presiding. Judging from the number of civil cases on docket, and the prospective number of criminal cases, it will be one of the heaviest dockets that Roosevelt county has ever had for a number of years. There are some three or four civil cases that it will likely take several days each to try, beside a large number that it will take from one to two days to dispose of. On the criminal docket there will likely be several cases that it will take from two to four days to try. Of course there are always some cases that are compromised and some criminal cases in which there are pleas of guilty and no one can tell beforehand just

what cases will be disposed of in this manner. Consequently the term may not be as long as it now appears it will. In view of the coming term of court the county commissioners have taken particular pains to provide for the welfare of the trial juries and from this standpoint the term will not be as burdensome as in the past. The new beds and bedding, has been provided for the trial juries will add much to the comfort of those gentlemen who must serve their county in this manner.

The sheriff's office has just this week completed the work of summoning the grand and petit jury panels. The names of those who have been summoned to serve for this term of court are:

PETIT JURY
F. A. Anderson, W. M. Battenfield, H. J. Farnham, Claud Mans-

field, Joe Bradley, T. V. Denton, Devine Cook, A. M. Sanders, J. W. Hawks, S. T. Ford, H. P. Townsend, S. E. Guillems, S. F. Lane, John M. Holly, Frank M. Beard, G. W. Sanders, B. T. Ross, John J. Stevenson, A. L. King, Felix Holmes, W. M. Kelly, and John Lappien.

GRAND JURY
T. J. Dilbeck, Frank P. Sanders, I. G. Trimble, W. H. Williams, W. H. Ball, A. S. Alexander, E. G. Forrest, T. L. Harrington, A. R. Hoover, Oliver Gore, Hugh King, J. A. Lane, L. M. Raleigh, W. L. Doyal, Frank Shaw, J. E. Hatfield, E. E. Tusha, W. F. Miller, H. S. Allen, J. L. Gilliam, R. G. Bryant, F. P. Prater, J. W. Dodd, and W. J. Phillips.

The petit jury panel requires twenty-four and for this process was issued for thirty-six, the sheriff finding and serving twenty-two. The grand jury requires twenty-one and for this process was issued for twenty-seven and the sheriff found and served twenty-three. Barring excuses and disqualifications there will not be a special venire issued to fill the grand jury panel but it is apparent that a special will be necessary to fill the petit jury panel, but this however does not come in until Monday of the second week. The grand jury will begin its labors on the thirteenth.

Henry Shapcott of Wichita, Kansas, this week demonstrated his faith in the Portales Valley by investing his hard earned cash in soil. Through a trade consummated by Joe Howard & Sons he became the owner of one hundred and ten acres of the Cassidy farm, paying therefor the sum of one hundred dollars per acre.

Captain Fred Fornoff of the New Mexico mounted police, is an official visitor in our city this week. Captain Fornoff came down from Clovis where he is in attendance on the Jim Lynch case.

Rev. H. A. Covington of Elida was a business visitor Thurs. Mr. Covington was pastor of the Baptist church in Portales several years ago.

Portales vs Roswell

Roswell high won its third victory of the season yesterday when they took the Portales huskies into camp to the tune of 18 to 6. The game was snappy from the start, both teams putting all they had into the game. The boys from up the road showed that they had been well trained and that they knew the game from start to finish. It looked for a time that their long and accurate forward passes would win the day for them but the local boys soon got on to it and there was no more in this line. For Portales the stars, were Ball and Langston, but all the others played great ball all the time and never gave up until the last whistle sounded. For Roswell the stars would be hard to pick as every man played a wonderful game from the start. Jones, Lowe, Aydelott, Rose, Wyatt and Rowland are deserving of special mention.

Roswell won the toss and chose to defend the south goal. Jones received the ball and gained thirty yards. After this Portales tightened up and although Roswell tried again and again to make a hole in their line they were at last forced to kick. Portales also could do nothing with the Roswell line and kicked. At this point Jones made a wonderful run around left end for a forty-five yard gain. On the next play Jones passed to Aydelott on a fake and Aydelott crossed the goal line for the first touchdown after a thirty yard run through the most of Portales' back field. Roswell failed to kick and the score was Roswell 6, Portales 0. Roswell then kicked to Portales. Portales tried a long pass which was recovered by Rowland who made a good gain. Here the whistle blew and the quarter ended with the ball on Roswell thirty yard line.

SECOND QUARTER
Portales gained the ball and by a long pass to Ball scored a touchdown. This was one of the prettiest plays of the game and Ball at once was seen to be a dangerous man. Portales failed to kick and the game was even. Port-

THE BIG PANHANDLE FAIR AT AMARILLO

Two Representative Citizens Accompany Big Exhibit From Portales to the Fair at Amarillo

PUBLIC DONATIONS OF CITIZENS MAKE IT POSSIBLE

Take Down All the Blue Ribbon Prizes at Amarillo When in Competition With Much Older Sections

To see the Portales Valley and Roosevelt county products was put on display at the big Panhandle Fair at Amarillo, Texas, this week and the way these products copped first premiums was a shame, but then we are not to blame. We simply had the goods and just couldn't help but take down the first prizes and wag off home with them.

Here is how things went up the Amarillo way. Portales cantaloupes, first premium; Portales sweet potatoes first premium; Portales onions, first premium; Portales pepper, first premium, and Portales general display, first premium. Five first premiums is going some. Fact is, we got about all we went after, then some.

This is all the more remarkable when one considers the fact that the Portales Valley and Roosevelt county products had to go up against other irrigated sections much older, many of them, agriculturally, than this section. It speaks in unmistakable terms of the richness of this soil and the salubrity of this climate. Difficult indeed would it be to find a section of country with prospects more

flattering and with greater possibilities. The only thing needed to populate this section with the cream of farmers from the north and east is simply to let them know what we have here. This is no "hot air" or "skin game" proposition. We have the goods to back up every statement made. We court investigation. "Seeing is believing." We are dreadfully anxious for the multitudes to "see." Any person who is contemplating a change in location should not fail to see the Portales Valley and Roosevelt county, "the prize winning section" of the southwest.

The Herald is rolling up its sleeves and bucking on the armour, more determined, if possible, to boost, louder and longer, for this magnificent, rapidly growing section of the great southwest.

We cannot refrain from speaking a word just here in praise of the enterprising citizenship who made the display possible with their donation. This was certainly money well spent. We would also thank Messrs. Carl Mueller and Carl Johnson, the two splendid farmers, for the excellent way in which they handled this display and for the great amount of effective advertising this section received through their wise efforts. A. A. Rogers, that natural born booster, of course was there, and when Rogers wasn't talking Portales valley he was either dreaming or writing about it.

W. M. Day, the Joyce-Fruit company Bookkeeper, plead guilty yesterday in the district court at Roswell, before Judge John T. McClure, to an information filed by James A. Hall, assistant district attorney, charging him with the larceny of five hundred dollars. He was sentenced to a term in the penitentiary of from twelve to eighteen months.

Mr. Beatty, formerly with Joyce Fruit company and erstwhile prominent member of the Portales Band, returned this morning after an absence of several months. Mr. Beatty has a host of friends here who are glad to welcome him.

R. H. Kemp came up from Roswell this morning to look after the interests of the Kemp Lumber company at this place, making his regular tour of inspection.

Minister Shepard left Thursday for Texico to look after church matters. He will preach at the Union and Locust Grove school houses on the way.

Rev. Doyle, of Clayton, Texas, will preach at the Baptist Church Tuesday night.

Mrs. Grace Dohoney of Elida was a Portales visitor this week.

Out Where the West Begins

Out where the hands
Out where a smile d
That's
Out where the sun is
Where the snows tha
Where the bonds of h
That's w
Out where the skies a
Out where friendship
That's w
Where there's laught
Where there's more c
That's w
Out where the world
Where fewer hearts
That's w
Where there's more c
Where there's more of giving and less of buying,
And a man makes friends without half trying—
That's where the West begins.

THE HEN AND THE COW.

(Roswell Record.)
When we talk of the great crops of the country we naturally think of cotton, corn and wheat and we say Cotton is King, or Corn is King, but we have another guess coming.
We figure up the mineral production of the country coal, iron, gold, silver, etc., and the hundreds of millions of dollars paid the oil trust with its other hundreds of millions, and we think these are the big things of the country.
But, when it comes down to brass tacks the humble hen and the meek dairy cow have them all skinned a thousand miles. The products of the hen, eggs and spring chickens, sell for well over a billion of dollars each and every year, while the milk, butter and cheese of the dairy cow exceeds the two billion mark.
The hen and the cow are the true Queens of Trade. They have everything else literally wiped off the map when it comes to value, and they figure more to the average family than almost anything else. They feed the country, fatten the babies, make coffee worth drinking, make pies and cakes worth while, and make the difference between poverty and plenty for thousands of families.
Columbus made the egg stand on end when the wise men could not, but the humble hen could stand the country on its head if it refused to work.
And so it is that the dairy is becoming more important every day in the Pecos Valley. Dairymen are coming from the great dairying states of the middle west and making a success in the Pecos Valley. The production of cheese, eggs and butter is constantly increasing and bids fair before long to be one of the most important products of the valley.
A few years ago it was difficult to secure milk or cream in Roswell. Dairymen refused to add to their customers because they could not supply them. Now it is different. Herds of dairy cattle have been increased and the stock improved. Thousands of pounds of butter and cheese are made every week, and not only is the valley well supplied with the best of fresh butter, but large shipments are made every week to outside points.
It is this kind of work that is adding to the wealth of the farmers, to the comforts and the possibilities of the valley. We need industries that supply the outside world and bring cash to the valley. We need to produce a balance of trade in our favor.
And the time may come when the humble hen and the cow—the dairy cow—will produce more wealth for the valley than the orchard or the fields.

CONFLICT OF LAWS IS NOW BEFORE HIGHEST COURT

Interstate Commerce Commission Asks for Decision on Right of Texas to Regulate Railroad Rates.
Washington, Oct. 1.—The interstate commerce commission in a brief to the supreme court in the so-called Shreveport cases, completed today strongly contends for power to prevent discriminations against interstate commerce by state railroad commissions. The conflict between federal and state jurisdiction in the regulation of railroads is sharply drawn in these cases which grow out of orders by the Texas state railroad commission, alleged to be discriminatory in favor of Houston and Dallas, Texas, and against Shreveport, La.
The interstate commerce commission ordered the Houston, East & West Texas Railway Co., and the Texas & Pacific Railway Co. to remove the discrimination resulting from the exaction of rates on traffic from Shreveport to Texas points that were relatively greater than the rates maintained on like traffic to the same destinations from Dallas and Houston. The rates on traffic from Houston and Dallas to other Texas points were made by the Texas railroad commission and the railroads contest the power of the interstate commerce commission to investigate these intrastate rates in connection with interstate commerce. P. J. Farrell, the commission's solicitor, holds, however, that the purpose of the Texas state rates was to discriminate against interstate commerce and that congress has clothed the commission with power to prevent this. The proviso of the interstate commerce act which exempts intrastate traffic from the regulations of the interstate commerce commission refers, the solicitor contends in his brief to traffic wholly within one state which does not affect any other state.
To construe the law otherwise, Mr. Farrell continues, would inevitably have the effect of letting the individual states with control over a very large portion of the interstate commerce of the country.
PROTEST IN CALIFORNIA.
Tokio, Sept. 30.—Another note of protest in the California alien land controversy has been dispatched to the United States. It is understood if it is accepted on the point of which the Japanese are very optimistic. It will necessitate a new treaty between the two countries.
The protest implies the application of the Roman law extending the authority of the president beyond the possibilities of the veto of the supreme court, and invokes clause 2, article 3, of the constitution of the United States.
Clause 2, of article 6 of the constitution says:
"This constitution and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the constitution or the laws of any state notwithstanding."
TO WRITE WELL.
For a man to write well, there are required three necessities: To read the best authors, observe the best speakers, and much exercise of own style. In style, to consider what ought to be written, and after what manner. He must first think and exorcise his matter, then choose his words and examine the weight of either. Then take care in placing and ranking both matter and words, that the composition be comely, and to do this with diligence, and often. No matter how slow the style be at first, so it be labored and accurate; seek the best, and be not glad of the forward conceits or first words that offer themselves to us, but judge of what we invent, and order what we approve.—Ben Johnson.

SANTA ROSA SCENE OF BOLD JAIL DELIVERY

Prisoner Awaiting Removal to Penitentiary, Knocks Guard Senseless and Makes His Escape.
Santa Rosa, N. M., Sept. 30.—A large posse, headed by Sheriff Jose S. Duran of Guadalupe county, is securing the country in the neighborhood of Santa Rosa in an effort to capture Max Goldbach, who escaped last night from the county jail here, after having knocked Jailer Jose Romero senseless with the officer's own weapon.
Goldbach got a good start and the officers are having difficulty in getting on his trail. It is thought the man is hiding somewhere in the hills near here.
At the recent fall term of the district court, Goldbach pleaded guilty to larceny and was sentenced to not less than one year nor more than eighteen months in the state penitentiary. The man was placed in the Guadalupe county jail to await his removal to Santa Fe.
Last night, when Jailer Romero opened Goldbach's cell door and started to lead the man into the room where the prisoners are given their meals, the convicted man seized the officer and wrested his gun away from him. He then struck the jailer over the head with the weapon and made his escape.
Goldbach was the only prisoner in the jail. The unconscious jailer lay upon the floor until his groans attracted investigators to the place. Romero's condition is said to be serious, though it is thought he will recover.
Officers all over the state have been asked to be on the lookout for Goldbach. Santa Fe secret service men are assisting the regular peace officers.
The offense for which Goldbach was sentenced was stealing \$113 in negotiable checks.

COMMISSION FIXES DEMING BEAN RATE

Deming, N. M., Sept. 30.—The secretary of the chamber of commerce is in receipt of a letter from Hugh H. Williams, state corporation commissioner, in which he advises that the rate on beans in car load lots from Deming to El Paso has been reduced by the traffic department of the Southern Pacific company, from 30 cents to 22 cents per hundred, with a minimum weight of 40,000 pounds. Of course this is very good, but Mr. Williams is endeavoring to have the minimum reduced to 36,000 pounds, or as to meet all emergencies. This will be welcome news to the farmers of the Mimbres valley who have an unusually heavy bean crop this year. Another good thing that the state corporation commission has interested itself in is the reduction of freight rates upon sugar from the California producing points to Deming. The commission is looking into the adjustment of freight rates all over the state, and the railroads are disposed to be very fair in the matter when the facts are brought to their attention.

TO SOJOURN IN WILDS OF SOUTH AMERICA

New York, Sept. 30.—For more than three months—from about the middle of December to the end of March—Theodore Roosevelt will sojourn in the wilds of South America. Arrangements for this end of the Colonel's South American trip were partly described today.
Col. Roosevelt will sail from New York Oct. 4th and will spend about two months visiting Brazil, Argentina, Chile and Paraguay cities. In these countries he will be the government's guest and he will deliver several formal addresses. Late in December a steamer will leave him and his party of naturalists at Cuyaba, Brazil, the head of navigation on the Paraguay river and at that point the hardships of the journey will begin.

Game Law

(In effect June 14th, 1912.)
Deer with horns—With gun only; October 1st to November 15th of each year; limit: one deer with horns to each person, in each season.
Wild Turkey—With gun only; November 1st to January 15th, of each year; limit: four in possession at one time.
Grouse—With gun only; September 1st to November 15th, of each year; limit: six in possession at one time.
Native or Crested, Messina, California or Helmet Quail—With gun only; November 1st to January 31st of each year; limit: thirty in possession at one time.
Doves—With gun only; July 1st to September 30th, limit: thirty in possession at one time.
Ducks, Snipes, Curlew and Plover—With gun only; September 1st to March 31st, of each year; limit: thirty in possession at one time.
Trout—All species; with rod, hook and line only, May 15th to October 15th, of each year. Weight limit: 25 pounds in one calendar day. Size limit not less than six inches.
Bass—(Large and small mouth) with rod, hook and line only. Weight limit: 15 pounds in one day. Size limit: seven inches.
Elk, Mountain Sheep, Mountain Goat, Beaver and Ptarmigan (or White Grouse)—Killing Capturing or injuring prohibited at all times.
Antelope, Pheasant, Bob White Quail, Wild Pigeon or Prairie Chicken—Killing, capturing or injuring prohibited until 1917.
NOTE—Sec. of the Act—"Game fish as defined by this act are: small and large mouthed Bass and Speckled Trout of whatsoever variety and species, also catfish, crappies and Ring Perch."
Hunting License Fees.
Big game, meaning deer and turkey, resident \$1.00.
Bird license, resident \$1.00
General license, covering big game and birds, resident \$1.50.
Big game and bird license, non-resident \$10.00.
Big game and bird license, resident, alien \$10.00.
Bird license, non-resident alien \$10.00.
Transportation permit, live game \$1.00.
Permit to transport out of the state, each deer \$2.00.
Permit to ship out of the state, each lot of fish \$1.00.
Duplicate license, certificate or permit \$1.00.
All non-residents over the age of twelve years will be required to pay a fish license of \$1.00.
Pueblo and reservation Indians of this state shall be considered residents for the purpose of this Act.
Section 57, Chapter 82; Laws of 1912.
Sec. 67.—Any person who shall willfully and maliciously set on fire, or cause to be set on fire, any timber with the few "friends" has blinded him so to speak, to something equally as desirable as serving friends, which is serving ones employers—the whole people. There is one safe course for the public man, and that is that one which he believes to be the right one. Mistakes may and certainly will in some instances, accrue, and even multiply it may seem, but time will tell. It is much better to trust a poor political judgment backed by an honest purpose and an unselfish desire to do real service, than it is to rely upon the judgment of the inner circle, who are more or less liable to be prejudiced for personal or political reasons and who, if unchecked, will lead the public servant into mighty dark and uncomfortable, as well as eventually unpopular, ways.
Fortunately we are coming to a better understanding between the people and the men who are serving the people. It will be better in the future for all.

Cucumber seed retain their vitality 8 years which is longer than any other common garden seed, if exposed to the air. Melon and pumpkin come a close second, and Onion, Tomato and parsnip seeds are not good after the second year at best.

Numbers 12—Oct. 12.
"Less enough not; love yourself not itself, is not puffing up, doth not behave itself arrogantly."—1 Corinthians 13: 4, 5.
TODAY'S Bible Study tells of a serious error made by Aaron and Miriam, Moses' brother and sister. That Miriam was the leading spirit is fully demonstrated by the outcome, which shows that God's punishment rested upon her, and not upon Aaron.
Moses had married an Ethiopian. At this time she had come to live with him in the Camp, and thus became the first lady of the nation. Previously, Miriam had filled this office. It was but natural that she should feel the loss of her position, especially as she reflected that her sister-in-law was of an alien race.
This fact seemed to give Miriam's jealousy a religious footing; and she undoubtedly convinced herself that her hostility to her sister-in-law was based upon a high moral ground, affecting God's honor and the future possibilities of Abraham's seed in the Promised Land. No good people can harbor jealousy, envy, etc., without deluding themselves into thinking that the peculiar circumstances of their case fully justify their attitude.
Miriam became convinced that God would not use especially one who had thus lost caste with herself. Her poisoned mind began to see evidences that the Lord had forsaken Moses, that otherwise he would not have made so great a mistake, as she thought. She communicated her fears to Aaron. The two doubtless prayed much respecting the sad fall of Israel's leader and the necessity laid upon them to make good his dereliction.
Apparently Aaron was a weak character, merely used and useful as Moses' mouthpiece. He showed much weakness on this occasion, as also when he made the golden calf and assisted the people in their idolatrous worship. Miriam probably assented at that time that such was the only course to take to satisfy the rebellious people.
The text implies that Miriam began to spread her insidious suggestions throughout the Camp. The people were to be prepared and the Lord helped, of course, by the primary suggestion that Moses was not the only leader of the people, that Miriam and Aaron were also prophets, in relationship with the Lord exactly as was Moses. This insidious preparation would make ready for the expected time when the Lord would disown Moses and speak through Miriam, Aaron being her mouthpiece.

And the Lord Heard It.
Suddenly the Lord called Moses, Aaron and Miriam into His presence before the Tabernacle. All three obeyed the summons, Miriam doubtless supposing that now the Lord would cast Moses as leader and appoint herself.
The denouement, however, was very different. God did, indeed, declare that He had used Miriam and Aaron, but that His dealing with Moses was on a very much higher plane. To him the Lord had spoken directly, not through dreams and visions. Thus the ambitions which were the grounds of the jealousy and evil speaking God promptly set aside.
Additionally the Lord gave a punishment. As the Divine presence departed, Miriam was smitten with leprosy. Aaron recognized this to signify that he had upheld his sister in a wrong course. To Moses he prayed for relief, acknowledging their sin and pleading for Miriam.
Then Moses cried to the Lord. God heard him and healed Miriam, but directed that she be treated like others healed of leprosy. All such were required to remain seven days outside the Camp, to see that no further symptoms of the disease appeared.
"The Law Was a Shadow."
St. Paul explains that the various things commanded Israel under their Law Covenant were prophetic shadows illustrating things appertaining to Spiritual Israel. Thus leprosy, practically incurable, except by Divine interposition, was a type of sin; and the seven days of excommunication from the favored people represented a complete period of tests respecting a putting away of sin, a cleansing, a return to harmony with God.
The Golden Text is St. Paul's exhortation to the Church. The Church, we must remember, is that special class called out from humanity in general by the Gospel to become followers of Jesus. Their call is to sacrifice all earthly rights, and to be fully submissive to the Divine will in everything. Their Covenant is to be loyal to every principle of the Divine Program, under the headship of the Savior.
This leaves no room for the works of the flesh or of the Devil. All these are to be put off, as displeasing to God. On the contrary, the fruits and graces of the Spirit are to be substituted, that ultimately Jesus' followers may attain to the fulness of Divine favor. Love represents the full character of God; for "God is Love."

The French Dry Cleaning process is the only way to clean clothes without shrinking or fading them. We have it. Portales Tailoring company.

Corn—snapped, for sale at 50 cents per sack and up. Cheap trading stock, \$10 and \$20, can take pigs or poultry in exchange if suited.

Herdlaw Jones, east of town.

The Racket is headquarters for butter and eggs.

To trade a gentle all purpose mare for milk cow. Enquire at this office.

Commencing this week we will deliver laundry on Thursdays and collect on Monday.—Portales Tailoring company.

Rev. H. A. Covington of Elida was a business visitor Thurs. Mr. Covington was pastor of the Baptist church in Portales several years ago.

We are making a specialty of ladies work so don't be afraid to risk your best garments with us Phone 7.—Portales Tailoring Co.

Mrs. Grace Dohoney of Elida was a Portales visitor this week.

Investment of School Fund

The controversy between Governor McDonald, Attorney General Clancy and Secretary of State Lucero on one side, and State Treasurer O.N. Marron on the other side, which has been of considerable statewide interest for some two or three months, wherein Mr. Marron refused to invest the state school fund as was directed by the majority of the board having charge of such investments, is now in the supreme court of the state. Mr. Marron has been served with an alternative writ of mandamus, issued out of the supreme court on the 25th, of September, directing him to either invest the funds as directed by the majority of the board or else appear before the court and show cause why he has not done so on October the second. It is expected, of course, that Mr. Marron will appear to show cause and that the court will then determine whether or not he has the right to ignore the other members of the board.

For Trade

Two lots, seven room house in the city of Stanford, Texas, to trade for relinquishment, stock, etc., or deeded land. If you want to trade your stuff and get to a fine town where there are fine schools, colleges, churches, etc., this is your opportunity. Write me fully what you have. F. I. Green, Stanford, Texas.

Minister Shepard left Thursday for Texico to look after church matters. He will preach at the Union and Locust Grove school houses on the way.

Clovis steam laundry still holds the business phone number seven.

Notice of Postponement of Foreclosure Sale

Notice is hereby given that the undersigned, special commissioner, has adjourned the time for making sale of the following described real estate and in the following named causes, from the 14th day of October, 1913, at one o'clock p. m., until the 21st day of October, 1913, at the hour of one o'clock p. m., at the same place, to-wit: the Northeast front door of the court house in the town of Portales, New Mexico.

Cause No. 866 wherein Alexander F. Kopplin is plaintiff and Joe Howard, et al, are defendants, the land to be sold being the Southwest quarter of Section four in Township two South of Range thirty-three East, N.M.P.M.;

Cause No. 880 wherein Alexander F. Kopplin is the plaintiff and Joseph M. Aldridge, et al, are defendants, the land to be sold being the Southwest quarter of Section twenty-two in Township two South of Range thirty-three East, N. M. P. M.;

Cause No. 887 wherein Alexander F. Kopplin is plaintiff and William H. Frame, et al, are defendants, the land to be sold being the Northwest quarter of Section twenty-two in Township two South of Range thirty-three East, N. M. P. M.

Cause No. 865 wherein Alexander F. Kopplin is plaintiff and Tennessee J. Beard is the defendant, the land to be sold being the Northwest quarter of Section twenty-five in Township one South of Range twenty-nine East, N. M. P. M.;

Cause No. 867 wherein Alexander F. Kopplin is plaintiff and Thomas H. Hammond, et al, are defendants, the land to be sold being the Northwest quarter of Section seventeen in Township one South of Range thirty-two East, N.M.P.M.;

The sale on the last named date—October 21st, 1913, to be made at the same place and under the same terms, conditions and provisions, as heretofore advertised in the Portales Herald. All parties desiring to bid for said property will therefore attend at the time and place to which said sales are adjourned.

T. J. Molinari, Special Commissioner.

Farms For Trade

One hundred and sixty acres in Harmon county, Oklahoma, 120 acres in cultivator, ten in alfalfa, good improvements, plenty of water. 360 acres, section 36, school land, 100 in cultivation and rest good grass land with running water and good improvements. Will trade for New Mexico or Texas grass land. For further information address, J. H. FLEMING, 36-4t Route 2, Reed, Okla.

INTERESTING FACTS

Alaska is twice the size of Texas and yet hasn't as many miles of railroad as had the Chickasaw nation before the days of modern Oklahoma.

The present steel pen which is in universal use and which succeeded the old style goose quill, was invented and first manufactured by and Englishman at Birmingham in 1820.

John Wilkes Booth, the assassin of President Lincoln, was a brother of the other famous American actor, Edwin Thomas Booth, and both were sons of Junius Brutus Booth, a famous tragedian.

The first attempt to manufacture watches or clocks in America was made by Eli Terry, a Connecticut Yankee, who invented wooden wheels for clocks in 1792. The metal wheeled clocks in 1837, invented by Chauncey Jerome, put the wooden wheeled instruments out of the market.

The point of greatest annual rainfall in the United States is recorded at Neah Bay, Wash., and is 123 inches. Sitka, Alaska, has 83 inches, counting the snowfall of course; Baton Rouge, La., 66, while the lowest is recorded at Ft. Garland, Colorado, and is only 6 inches. Ft. Bliss, near El Paso, in the state of Texas, has an annual precipitation of less than 9 inches.

Mexico has a population of 13,607,000 while the United States has a population of over 91,000,000 and yet

the Republic of Mexico has an army strength of 70,000 while the United States army strength is only 61,000 on a war footing. Of course it may be interesting to speculate upon the question of which country could raise the biggest armies from volunteers and citizen soldier reserves.

The "Imperator," the largest ocean liner afloat just a few weeks ago made its maiden voyage from Hamburg to New York. It carries more than 4,000 passengers, and the prominent deck is a quarter of a mile long. One of the novel features of the big vessel is a roomy swimming-pool in a beautiful Pompeian hall. Among other luxuries with which the vessel has been fitted are a great entertainment hall two stories high, three electric elevators, a completely equipped gymnasium, a "cottage" cafe, a winter garden and a Ritz-Carlon restaurant. The main dining salon is 300 feet long.

The X or Rontgen Ray, was discovered by a german in 1895.

IN THE BEGINNING.

"In the beginning God created Heaven and Earth." Then he created man and woman—and the loafers they just happened. In due time these multiplied and spread into the post office, the depots and upon the side walks of our towns and villages, where they sit and together settle all questions that have vexed great minds and which shall determine the destiny of the country, while their wives are out washing for their neighbors and the kids are at home taking care of themselves or out in the streets or barn lots developing good specimens for the devil to use. Next to a loafer the meanest thing we know of is the man who beats his wife or shoves little chickens off in the creek to drown.

AN OPPORTUNITY

To Save big money on fall Millinery. Beginning next Monday Oct. 13, and continuing the entire week, I will give 10 percent off

On all Trimmed hats. Don't fail to take advantage of this offer.

JAMES A. HALL EDITOR

J. H. DARNELL BUSINESS MANAGER

What has become of Harry Thaw?

Every stranger who enters our portals comments favorably upon the many beautiful trees and the beautiful lawns in which Portales citizens take so much pride.

Jack Frost will soon be here and we are watching his advent with a considerable interest. Will he bring a needle and thread with him and sew up the slit skirt? Time, alone, can answer this question.

Two prisoners were singing from an old Methodist hymnal. A bishop of this denomination overheard them. He reasoned that anyone singing with such fervor could not be wholly bad. He secured their pardon through interceding with the governor of the state. Moral: Unconscious effort of the right sort often leads to better things.—Rock Island Tribune

According to figures demanded by local sheep men there seems to be no fear that free wool is going to send sheep down to \$9.00 a dozen, as forecasted by Senator Catron and other standpaters. Meanwhile local jewelers are preparing to supply the demand for mutton chop stick pins and beefsteak buttonieries.—Roswell Morning News.

President Wilson has seen another of his campaign promises—democratic pledges—enacted into law. The administration tariff bill, revising the tariff downward instead of upward as was done by the Taft administration, has become a law. Thus the American people see that the pre-election promises of the party now in power were made in good faith, and were not merely used as a horse on which to ride into power.

The Herald is exceedingly glad to note that Governor McDonald saw fit to appoint our old friend, Hon. Edward D. Tittman, of Hillsboro, district attorney of the seventh judicial district. Mr. Tittman is a true, staunch and stalwart democrat; a lawyer of ability, and a man who will endeavor to see that the law are justly and impartially administered. The vacancy which Mr. Tittman was appointed to fill occurred by reason of the death of Hon. John E. Griffith, of Socorro.

Three or four years ago land around Portales could be bought for ten dollars per acre, and the grantor would have thought himself lucky. Only last week a tract of land twelve miles west of town, and practically unimproved, sold for one hundred and seventeen dollars per acre. Some advance, isn't it? It will not be long until the land around Portales will be selling at the high prices usually commanded by developed land in irrigated countries, because those people who are paying the present prevailing prices expect to fully develop their holding as rapidly as can be done.

The exhibits from the High School of Portales, entered at the county fair last week, should convince every one of the good there is in the manual training department of our school. While this branch is now only in its second year, the pupils having been retarded by reason of the lack of proper tools—yet, the work exhibited was excellent and of a character which no one would expect to be turned out by pupils with so little experience. Manual training should be encouraged in every school, in fact it should be one of the requirements. No matter what vocation a man or woman contemplates entering the time spent in school in the manual training department will always prove a blessing.

The physicians in all parts of the state are now busily engaged, but not on account of the sickness of the people. No, this great wave of energy in the medical fraternity is not occasioned from any plague in New Mexico, and the consequent influx of patients into the doctor's office. The reason for it is the fact that twenty-five of Albuquerque's most prominent physicians were last week indicted for failure to comply with the law relative to the filing of death and birth certificates. County Clerk Mitchell of this county advises a Herald reporter that demand for certificates has been received from all physicians in the county and that they are filing their certificates for all deaths and births during the past two or three years, and that as a result his office is simply being swamped. The neglect upon the part of the doctors in this respect was occasioned by the fact that they, as a rule, do not keep abreast with the laws enacted by the legislatures and that their New Mexico association evidently failed to notify them. The law making this requirement was enacted in 1907, six years ago.

BETTER BABIES.

The important campaign lately instituted by a popular magazine for Better Babies has reached Portales, and a wide-awake, energetic member of the Woman's Club has successfully put through a Better Babies contest for the Roosevelt County Fair Commission. Better Babies mean our babies and all the babies in our town. Better Babies mean better homes, better cities, and a better nation.

Friday of fair week was a notable day in Portales, at 9:30 a. m. a score of mothers presented their babies to be registered for entry in the Better Babies contest which is a simple and scientific examination of babies by physicians who score them for mental and physical points; and prizes are awarded not for beauty, but for physical and mental development.

It is not to be expected that any other town in New Mexico, will reach the standard established by Roosevelt county. Never were seen such examples of near perfection as the cherubs who were examined on Friday, and the only regret is that there were not prizes for all—while nine measured up to the absolutely perfect standard, the fault was, in most cases, over development, and over weight, rather than falling below the standard measurements and weights.

Carus Dean Strickland won first prize for boys, with Joel Kenneth Jones and George Judson Byars, Jr., close seconds. Emma Clementine Carlton, a rural baby, won first prize for girls with Willie Vale Oldham second.

The Woman's Home Companion presents medals and certificates for highest scores and these, with the local prizes offered by the Fair Commission, will soon be ready for presentation.

ELIDA ITEMS.

Mr. and Mrs. C. A. Coffey presented the Elida High School with a nice, New American Flag.

Mrs. James L. Anthony is considerably improved after an attack of Appendicitis.

C. A. Coffey was a visitor at the County Fair at Portales last week.

H. F. Anthony has returned from Roswell with a nice load of Apples.

T. A. Tillinghast is filling his Silo this week.

There have been five farms sold in the past week. Consideration not learned.

Mr. J. W. Stone is running the Nobe Star Mail Route, that Mr. Veasey was making.

Perpetual motion may never be discovered by man, but it seems that Mexico has been billed for a perpetual war.

Mrs. S. J. Crucey and daughter left for an extended visit at Putnam, Texas.

Roy Haderick is slightly improved after a long illness, with Typhoid Fever.

Mr. J. T. Eakin has moved to town on account of sickness.

There are about 15 pupils from the country attending the Elida High School.

Miss Pauline Anthony entertained a number of young folks Friday evening in honor of her 22nd birthday.

Best line of Shoes at Coffey's.

One of the most complete lines of dry goods at Coffey's.

A complete line of Men's, Youths and Boys' Clothing at COFFEY'S.

COFFEY Pays the Highest Price for your Produce.

S. Street and wife are visiting friends in Amarillo, Texas, this week.

Messrs. Harvey and Kendis of Rogers were in town selling grain Monday. These gentlemen report a fine crop in that locality.

Homer Nelson is visiting his parents at Red Lake this week.

J. R. Darnell of the Portales Herald was in town last Saturday.

Boys come to Elida and enter the best school in the county.

John W. Anthony is working in Deputy Sheriff Lee Percell's place in the Elida Blacksmith shop, while the latter is out on official business with Sheriff Creen.

Earl H. Uhl, was in town attending professional engagements, last Friday and Saturday.

TUCUMCARI BANK REPORTED NOT HEAVILY INVOLVED.

Tucumcari, N. M., Oct. 4—The First State Bank of Tucumcari, which went into the hands of the state bank examiner yesterday, it is said is not badly involved and probably will pay out. There is said also to be a probability of the institution being bought by northern parties and continued.

J. H. Fronsing, of the George Barnard Company, was calling on his trade the early part of the week.

SUITS MADE TO ORDER.

OBITUARY.

Gone but not forgotten, Ernest O. Stovall, passed out of this life September 28, 1913, was born March 15, 1888, in Delta Co., Texas. His parents moved to Stephens County, Texas, and made that their home until 1892, in which they moved to the plains and made that their home until 1903, in which they moved to N. Mex. and made that their home until the present time.

Ernest was a dear good boy and who had many friends to mourn for him. He was sick 39 days. He bore his pain so brave and never complained, and he said he was ready to go when the Lord called for him, only he hated to leave his friends and loved ones, but we know it is our loss and our Heavenly Fathers gain. One precious to our hearts is gone. The voice we loved is still. The place made vacant in that home, can never more be filled.

But Jesus called unto the skies The one he had given, And though on earth the body lies His soul is safe in Heaven.

Thy gentle voice we cannot hear Thy heart is forever still, And on thy face to us so dear Is resting death's cold chill.

We gaze upon the form laid low, We weep around his tomb And in our aching hearts We know we have no Darling Ernest now

In Heaven there was an Angel band, And there a vacant seat, They took our darling Ernest To make that home complete.

Upon the earth a new made mound, The lonely casket keeps And where the sunshine lingers round, Our darling Ernest sleeps.

'Twas hard so hard to see thee go When love had bound our hearts So hard to speak those words of woe, That we must part.

We hope to meet thee Ernest dear When life on earth is fled And be with thee in Heaven where, No farewell tears are shed.

Oh God! amid our trials sore Be this our constant prayer That when life's changing scenes are over We'll meet our darling Ernest there.

Written by one that loved him dear—
By B. M. J.

Wrote by Bettie M. Johnson, Arch., N. M.

Letter to Editor

Artesia, New Mexico,

October Six, 1913,

Mr. James A. Hall, Editor,
Portales, Herald Times,
Portales, New Mexico

Mr. Hall:—
We are sending you herewith some "dope" on the biggest and most unique entertainment ever pulled off in the Southwest; and we hope that you will kindly use it in your columns. Mr. Brinker of the Santa Fe, to whom I wrote asking the principal papers of the section, replied that I most certainly must not forget the Portales Herald-Times and Mr. Hall.

We, all of the Southwest ought to be better in touch with all our country—we ought to visit once in a while. As you will see by the enclosures, there will be a great many newspaper men here during the three days of the Festival—October 14, 15, 16—and that two Press Associations are to meet here on those days; this ought to be an added inducement for you to come.

Won't you kindly put Dinmore's Industrial Magazine on our exchange list? We shall be glad to exchange with you.

For the Festival, we have secured a round trip rate of 1.15 fare, and that will bring us crowds.

Any how, use some of the dope; and any how, come.

Sincerely,
Chamber of Commerce of Artesia,
Per Chas. A. Dinmore, Sec'y.

Notice for Publication.

Department of the Interior, U. S. land office at Fort Sumner, N. M., Sept. 22, 1913.

CONTEST NOTICE.

F S 010490
Contest 1548
Department of the Interior, United States Land office, Ft. Sumner, N. M., Sept. 16, 1913.
To Edward Schertler of Redvale, N. M., contestee.

You are hereby notified that Richard L. Thompson who gives Portales, N. M. as his post office address, did on Aug. 18, 1913, file in this office his duly corroborated application to contest and secure the cancellation of your homestead entry Serial No. 010490, made Dec. 21, 1912, for S W 1/4, section 18, township 4 south, range 33 east, N. M. P. M., and as grounds for his contest he alleges that you never established residence on the land and have never improved or cultivated the land.

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be canceled, unless you, without further delay, file in this office, before the date of its receipt, or the affidavit of the person by whom the delivery was made stating when and where the copy was delivered, if made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed stating when and the post office to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

Celestials Vainly Attempted to Imitate Gaudy Attire of English Dude.

Singapore, Sept. 25.—An entertaining light is thrown by a letter addressed by a Chinese to the Singapore Free Press on the desperate efforts of Straits-born Celestials to vie with the English "knot" (or dude) in gaudiness of attire.

Referring to the dress regulations in vogue at his club, Lim Pong Foo, the writer of the letter, utters the following lament:

"The committee want to manifest that futurely we must all wear clothing of a bright green color, with tails of pink, and cuffs of dark blue. Four buttons go down the front and eight up the back.

"The stockings are to be of white silk, with clockwork. A peacock's feather is to be worn in the left buttonhole of the green coat.

"And the committee are wishful that all the members agree, so that the club will be quite topohole, and altogether the limit.

"But some of us are not revolving in wealthiness, and about twenty of us are displeased with such a pretense to compel us to uniformity.

"Our conversations are very angry, and the Tinggal-Tangooling Club is now, alas, rent in twine. If, sir, you can give us the beneficulousness of your advice it will be welcome to excess.

"As a Straits-born Chinese who is cherishing noble schemes in his head to copy the finest Western behaviors and socialisms, I wish much respectfully to appeal before you for your honorable notification.

"A number of our young Chinese gentlemen who show much likeliness to what English gentlemen call the knits have made society for practicing Western dances and decourms, and their polite deportments. Once a week on Saturday in the evening time we meet and assemble for amusements and diversification. With gramophone music we try experiment in the bunny's hug, the turkey trotters, and other gracious agilities, but in this committees manifesto is too heavy for us to stand."

PECOS VALLEY PRESS TO MEET AT ARTISIA OCT. 15th.

There is to be a meeting of the Pecos Valley Press Association at Artesia, N. M., on October 15th, the date of the meeting of the commercial club organization and a big time is expected if the newspaper men show up as they should. The following letter is sent out by the officers of the organization which shows that the newspaper boys must be up and doing if the crew is to stay with the old ship.

Dear Sir and Friend:

After consultation, it has been decided to hold a conference of the Pecos Valley Press Association at Artesia, on Wednesday, October 15th, at the time of the Commercial Club Meet.

This is not to be a formal session. There will be no set program. Its purpose is to put it straight up to the editorial fraternity of the slope whether or not they desire the continuance of the association.

Believing that such a body was necessary and that it would grow into a distinctly useful body in time, a devoted few have held it year after year, and have accomplished a great deal, but we are tired of doing it all, and each year seeing a great majority of the fraternity stay away and act as though they didn't care whether there was an association or not.

It has been suggested that the Association merge with the Texas-New Mexico Commercial Body at Artesia. It is to consider this that the conference will be held. We can talk it over and do what seems best. The trip will be worth your while after a rest and diversion, outside of the object named.

The matter is straight up to you brother. If you want the association for the good it can do you and has done, be there. If you are absent, we will understand to the contrary, of course.

Yours respectfully,
JAMES M. WOOD,
Pres. P. V. Press Association

Attest:
WILL ROBINSON, Secretary.

New Discovery

Washington, D. C., Sept. 27.—Scientists of the bureau of animal industry have compiled a bulletin which is of practical interest to all who raise goats and to such invalids as have been prescribed goat's milk as a diet.

Proofs have conclusively established that the transmission of a fever known variously as "Malta," "mountain," "low typhoid" or by certain other designations, to man is accomplished by the milk of infected goats.

Careful observation in Texas and New Mexico show that the disease has always made its appearance among people connected with goat raising. Entire families have been taken sick with it on goat ranches. The sickness appears usually after the kidding season, during the months of April, May and June, when the people are in closer contact with the goats.

Observations have also shown that just over the border in Mexico goat herders are not nearly so liable to the disease. Conclusions have been drawn that this is not due to any natural immunity but to the fact that the Mexicans always boil the milk before drinking it, while the Americans use it raw.

The general opinion has prevailed that the United States is free from Malta fever and that the disease has only occurred through importations. However, it now seems evident that the Malta fever has existed in Texas and New Mexico for at least 25 years.

Mexico Election

Douglas, Ariz., Sept. 27.—"I declare that whoever proclaims himself president of Mexico as the result of the elections Huerta promises in October, will be considered a traitor to his country. If he falls into our hands he will be tried under the law of January 25, 1862, and the same treatment will be accorded to all who recognize him as president."

This declaration formed a part of a lengthy message received here today from Governor Venustiano Carranza, the constitutional leader, at Hermosillo. It was in response to a request that he state his position on the candidacy of Federico Gamboa, for the Mexican presidency.

The law to which Carranza refers was that enacted by Benito Juarez. It provides that all traitors may be summarily executed, without trial. Under it, Maximilian was put to death.

In his message, Carranza announced that he had just received visits from representatives of constitutional leaders in Coahuila, Durango, Zacatecas, Chihuahua, Sinaloa, Sonora and other states, and all were in accord with his declaration.

"Our aim," continued the message, "is to exterminate Huerta and his ententional leaders in Coahuila, Durango, Zacatecas, Chihuahua, Sinaloa, Sonora and other states, and all were in accord with his declaration."

"Our aim," continued the message, "is to exterminate traitors and assassins and to prove ourselves good patriots, which our country expects us to be. Peace in Mexico is impossible until one party or the other has been exterminated. The constitutionalists will continue to fight on the battlefield against usurpers."

The present state of revolt makes it impossible to hold legal elections in Mexico. If the so-called Huerta administration endeavors to persuade the people of the United States and other nations that any election it may hold will be legally verified, it will once more show the utter corruption of that administration."

A Hustler

Notwithstanding that he has been one of the busiest men in Washington since Congress convened, Senator Robert M. LaFollette has taken time from his other work to prepare for the October number of NATIONAL WATERWAYS, the magazine published by the National Rivers and Harbors Congress, a most interesting and highly instructive article on the "Physical Valuation of Railroads," which Congress authorized the Interstate Commerce Commission to make at the earliest possible time.

"The magnitude of the work required of the Commission," says the distinguished Senator from Wisconsin, "begins to appear when it is realized that there are 250,000 miles of railroad, with all of the cuts and fills and grades and culverts and bridges to be surveyed and appraised. Then there is the rolling stock, the 50,000 passenger cars, the 60,000 locomotives in all the varying stages of depreciation and upwards of 2,250,000 freight cars, grading from the little wooden cars, placed in service in the early 'seventies, to the great steel cars of the present time."

"Three things belong to the public at the hands of every transportation company that holds a franchise, and the government owes it to the public to secure those three things—reasonable rates, impartial rates, and adequate services. On the other hand it owes it to the railroad company to see to it that it has a fair return on the fair value of its property—no more and no less. Now for the first time, the Government is putting itself in position to require the railroad to discharge its obligations in full measure. The railroads, through more than half a century, have had more than their own. The people now, so far as transportation rates and services are concerned, are coming into their own."

LUBBOCK BANK GOES TO AMARILLO MEN

Lubbock, Texas, Sept. 30.—Negotiations were closed here today by which Ray Wheatley and Charles A. Fisk of Amarillo purchased the stock of L. T. Lester in the First National Bank of this city, the transfer giving the Amarillo financiers controlling interest in the institution.

Tennessee Has Adopted the Honor System for her Convicts and the Dallas News Inquires why it would not be well to get up something for the legislators.

According to the official count Rowell lost out in the county high school election held a few days ago by a majority against her of 200.

With Thaw and Jerome both placed in jail by the impartial Canadian authorities, the weak hope arises that Salter and Murphy will be persuaded to carry their fight across the Dominion border.—Chicago News.

The billion dollars Americans have invested in Mexico can't get away, and the Mexicans are not at all inclined to furnish it with passports.—St. Louis Globe Democrat.

Who would rather spend a week end in Oklahoma than a whole week at the State Fair at Albuquerque?

Mr. Taft may be president of the American Bar Association all he pleases.—Newark News.

The "Oh Yes" cry of the court balliff, and other public crier, comes from the French word "oyez" which means, Hear ye!

Mr. McAdo has announced butter-milk as his favorite drink. The split in the Cabinet, so long waited for, has arrived.—Milwaukee Sentinel.

DO YOU KNOW?

The most polite man in town?
About that broken engagement?
The fellow who hasn't had his palm read?
Lofty manners are never above reproach?
Even a deaf man may have sound judgment?
A woman's proper sphere is a round of shopping?
The lady who goes duck shooting in man's apparel?
The popular girl who has a "date" every single night?
The fellow who goes to see his best girl, rain or shine?

That young lady who has a smile and a kind word for every one?
The two disengaged people who seem to be consoling each other?
The good looking stranger in town who is causing so much comment?
The fellow, who tells his best girl she is pretty every time he sees her?
The woman who refuses to go anywhere this week because she is missing a tooth?
Why a young lady persisted in whispering in company last Sunday night?
Every grape has a seed, but it is really the juice that make a fellow feel seedy?
Who calls "is that you Bill?" from an upstairs window, when she hears a whistle below?
The two pretty girls who can put on as novel a vaudeville stunt as is seen on the stage?

ADAMS CONFECTIONERY

WON'T WAIT FOR CONSTITUTION

Washington, D. C., Sept. 30.—The American consul at Chung King has telegraphed that fighting is likely to occur there at any moment.

MISSIONARIES ARE CAPTURED.

Hankow, China, Sept. 30.—Five American and four Norwegian missionaries are in the hands of the Chinese bandits, who on Friday captured the town of Tsao Yang.

The Rev. C. Stokstad, of the Hague's Norwegian mission, telegraphs from Fancheng that on Saturday, Mr. Fauske, who is attached to the Lutheran brethren mission, was still held in Tsao Yang for ransom but was separated from his wife.

General Li Yuen Heng, vice president of the republic, told J. Paul Jamison, acting American consul at Hankow, yesterday that he believed the foreigners would not be harmed.

IN MEXICO.

El Paso, Texas, Sept. 30.—Owing to a money stringency in Mexico, Mexican customs authorities in Juarez have instructed the two customs stations on the international bridges to prohibit the exportation to the United States of large quantities of Mexican gold and silver money.

Recently the Government placed a ten per cent export duty on all metal money going out of Mexico, but even this did not keep the residents of Juarez from changing their currency into silver and gold and bringing it to El Paso, where, they said, they could get a higher exchange on it than on currency.

OPPORTUNITY.

For the opportunity for real service and for material success as well, no field of activity compares with the country newspaper. To work among friends, knowing each one personally, sharing their sorrows and their pleasures, is to do something worth while.

A teacher may reach his own small classes, or the minister his congregation once a week, but the country newspaper reaches its audience day after day.

FORGIVENESS.

Forgiveness is better than revenge; for forgiveness is the sign of a gentle nature, but revenge is the sign of a savage nature.—Epictetus.

A greater truth was never contained in four lines of eight point type. How much more we should all get from life only could we act Epictetus' teaching; but alas human nature contains too much of the savage! We are yet as little children who look upon the playmate who breaks our toys as a fit subject for childish revenge and chastisement.

THE STRAIGHTFORWARD THING IS WISDOM.

The thing that ruins a public official is his feelings that he must "play politics."

A mayor or chief of police or a police judge are brought face to face with a situation simply so far as the law is concerned.

If they used the ordinary judgment and normal courage which they use in their affairs of every day life they would pull through.

Instead of doing that sometimes begin to try to figure out the best thing to do from a political standpoint.

They try to take inventory of the influences of various men who will be affected by what they do. When an official begins to do this he is lost. There need never be any difficulty in deciding what to do from a legal or a moral standpoint and the official who sees his duty from that standpoint and does it promptly makes no mistakes.

When he loses sight of this and tries to set his course by political wisdom he's as helpless as a sailor who throws his chart and compass overboard and tries to sail his ship by guesswork.—Roswell Record.

EDITING A NEWSPAPER.

It is an undertaking that calls for not only ready wit, discernment, a sound understanding of human nature and industrious traits, but the successful publisher must also have more. If his work is to live and grow and be widely known, as every aspiring newspaper publisher justly hopes, it must do good. It can do good by teaching and exploiting that which, while perhaps not the most popular or digestible with a big part of the community served, is good to think upon.

The President of Cuba is suing a man for slander who said he was like Roosevelt. What the Colonel is going to do about it is not announced.—Philadelphia Press.

Serious floods are reported late this week from the South Texas and Louisiana towns. Also San Antonio, San Marcos and other Southwestern Texas points are suffering from flood damages.

New York, Sept. 30.—August Belmont today refused \$200,000 for Tracy, the four-year-old son of Rock Sand-Topary, offered by W. Allison, the well known newspaper man and breeder abroad, as agent.

Los Angeles, Sept. 29.—George H. Bixby, a millionaire of Long Beach, charged with having contributed to the downfall of minor young women, was found not guilty by a jury tonight.

Washington announced Thursday of this week that orders had gone forward to Commander Bliss of the troops on the Mexican border that no American soldiers should be sent into Mexican territory, no matter how great the provocation, unless ordered from Washington.

The tariff bill as it passed the House last week, has been informally accepted by the senate. It will pass the senate unchanged from the provisions submitted by the conference committee, and then it will go to the House for passage there, which will close the present tariff bill chapter.

Winnipeg, Man., Sept. 30.—With the receipt of 1,739 cars, all records of wheat inspection were broken in the Winnipeg market today. The highest previous record of one day's receipts was in 1912, when 1,603 cars were received.

None of the scientists or divinity students have ever been able to agree upon the location of the Garden of Eden. It was supposed to be somewhere in the Holy Land, but even this is not certain, or near certain, to their minds.

Trinidad, Colo., Sept. 30.—Approximately \$3,000 was distributed in Trinidad today, at the headquarters of the mines at Morley and Wootton, were reported as thoroughly organized and that no more coal would be mined until the strike was settled.

John R. Lawson, a member of the international board, leaves here tonight for Denver, where he will confer with Governor Ammons.

A meeting of the international board of the United Mine Workers of America convened today, at Indianapolis, Ind., and Vice President Hayes, who is a member, stated that the work here was too important for him to leave to attend the meeting.

Gleaned from Our Exchanges

EQUALLY DISTANT.

While jaunting through the desert out Mojave way this summer, we stopped to ask drink of a forlorn homesteader on a desert claim. He supplied us from a barrel of warm, acrid liquid.

"Where do you get your water?" we inquired.

"In town at the railroad tank."

"How far is that?"

"Six miles."

"Why don't you dig a well for it?"

"Same distance and harder work."—Harper's Magazine.

If you have bought any real lately you will appreciate the reckless generosity of the old man toward the prodigal son.—Chicago News.

If Mr. Carnegie is so rampant for peace, why doesn't he offer to pension Huerta?—Birmingham Age Herald.

New York, you may have noticed, was not represented at the Conference of Governors.—St. Louis Republic.

One great trouble about the politics of New York City is that most of the reformers commute.—Philadelphia Public Ledger.

With the employment of policemen, inspectors will now watch the side doors of the department stores.—Wall Street Journal.

The President of Cuba is suing a man for slander who said he was like Roosevelt. What the Colonel is going to do about it is not announced.—Philadelphia Press.

Serious floods are reported late this week from the South Texas and Louisiana towns. Also San Antonio, San Marcos and other Southwestern Texas points are suffering from flood damages.

WILL FIGHT PROHIBITION LAW.

Little Rock, Ark., Sept. 29.—Officers of the Arkansas Federation of Labor announce that they have engaged attorneys to represent the federation when the validity of the act of the last Legislature, which practically provides for State-wide prohibition, is being argued before the Arkansas Supreme Court, on Oct. 6th. They said the federation does not oppose prohibition, but that if the act is held valid it will practically mean an end of the referendum in Arkansas.

A TOT'S LONG JOURNEY

New York, Sept. 30.—Stitched to the skirt of a four-year-old girl who reached here unattended on the liner Kronprinzessin Cecilie today, was a placard on which was written in several different languages:

"Please take care of me. I am going to my mamma. Please do not kiss me."

The little girl, Margaret Haritschen came from a town near Vienna and is going to her mother at Kenwood, Sonoma County, California.

The steamship doctor, who wrote the placard, was thoughtful enough to protect the child from germs that might be transmitted through kisses.

SAYS AMERICANS SHOT.

El Paso, Texas, Sept. 29.—That ten American cavalrymen of Troop H second cavalry, crossed into Mexico last Saturday and began shooting at some Mexican woodcutters is the version of the international shooting incident near San Elizario which was given out by Federal officials of Juarez.

In proof of their assertion, the Mexicans show a hat which they say one of the Americans lost when woodcutters returned their rifle fire and forced the Americans to retreat to the United States.

THE "GUNBOAT" AND MORRIS

Heavy Weights Will Fight in New York, October 9th.

New York, Sept. 27.—Desiring some night attraction for the thousands of ball fans who will be here October 9 for the world's series games, arrangements were made today for a bout between Gunboat Smith and Carl Morris.

The big fellows have begun preparations for the battle in Madison Square Garden.

"YOUNG TOGO" IS SLAIN.

St. Louis, Sept. 30.—"Tackle" Sanders, Memphis feather weight, was awarded the decision over "Young Togo" of Fort Smith, Ark., after eight rounds of snappy boxing here tonight. The Memphis boy severely bruised the Japanese, who fought back gamely but lacked the science. Each fighter scored a knockdown.

WORLD PEACE THRU MASONRY.

St. Louis, Sept. 30.—That the efforts of the Masonic order throughout the world be exercised in the interests of universal peace was the recommendation made by Jacob Lambert, grand master of the Missouri grand lodge of Masons at the convention of that body here today.

He suggested a meeting of all the grand masters of the order in the United States at which a movement should be launched.

WHEN YOU'VE HARVESTED YOUR COIN PUT IT IN THE BANK

Just a few bushels of wheat planted in the ground become MANY BUSHELs of grain; so will the money you put in our bank from time to time become a BIG SUM. The interest we will pay you will help it grow.

We pay liberal interest consistent with safety.

THE JOYCE-FRUIT COMPANY

The Local Field

Bailey Stewart and Lawrence Connally left Friday for Amarillo, Texas, where they will take in the big fair to be held there this week. They made the trip in Mr. Stewart's auto. Lawrence expects to go from Amarillo to Memphis, Texas, at which place he has a position as clerk in his father's shoe store.

Dr. J. L. Reed left Sunday with the Roosevelt county agricultural and horticultural exhibit, which he will display at the State fair in Albuquerque this week. We expect our exhibit will take down sufficient prizes to more than pay the expense of sending it.

County Clerk C. P. Mitchell left Saturday for Amarillo, Texas, where he goes to meet and consult with a specialist from New York City. Mr. Mitchell has improved considerably during the past few weeks and the Herald trusts that his present trip and consultation will prove of material benefit to him.

Dr. R. H. Bailey was a business visitor in Roswell the early part of this week.

Judge E. C. Abbott at Santa Fe last week sentenced Mr. Lucero, convicted of bribery in connection with the legislative investigations of last year, to not less than one year in the State Penitentiary. Under the law the punishment could have been no more than a small fine, or as much as five year term. The case will be appealed so the attorney for the defense states.

It is announced from Santa Fe that the state board of equalization has now about completed its labors and that the tax books will soon be returned to the various county assessors. The state board will direct the assessment of something more than a million dollars valuation which was overlooked by the various assessors of the state.

Hon. Miguel A. Otero, nine years governor of the Territory of New Mexico, and Mrs. Maude H. Frost were married in Santa Fe Wednesday of last week. The ceremony was performed by Hon. Frank W. Parker, associate justice of the supreme court.

J. R. Darnell was attending business matters in Elida a couple of days the latter part of last week. The trip was made by auto.

B. B. Clayton spent the greater part of last week in the Bereno and Taihan country summoning the members of the grand and petit juries for the coming term of the district court.

John Tyson has purchased the Arthur Jones ranch and cattle, and will move his cattle from near Bereno to the new ranch within the next few days. Mr. Arnold who has been ranching with Mr. Tyson will move his cattle to the old Busch ranch in south of Taihan.

Dr. J. H. Jenkins, state veterinarian was here a couple of days this week, having come up from Roswell to inspect some dairy stock.

C. A. Coffey, United States Commissioner and prominent Elida merchant, was a fair visitor Thursday and Friday of last week. Mr. Coffey was well pleased with the exhibits and thinks that a county fair is an excellent idea.

Judge Sam J. Nixon left Friday for his old home at Paris, Texas, for a few days visit with his father and mother. He also expects to have the pleasure of meeting his sister, also there on a visit, who he has not seen for ten years.

Lee Perciful, deputy sheriff of Elida, was here Friday on official business.

Uncle Polk Williams and that fine bunch were here in force at the fair. They came for prizes and got them too. Their exhibits of dry farming products of all kinds were simply great. Uncle Polk stated to the editor of the Herald that they would have a fair at Inez next year.

Judge T. E. Mears was a professional visitor in Clovis Thursday.

The trial of Jim Lynch, the Roswell man who shot and killed Roy Woolfer, Roswell's city marshal two years ago, is now in progress in Clovis. Considerable interest is attached to this case since in the trial a year and a half ago in Elidy county, to which the case had been sent by change of venue, Lynch was found guilty and sentenced to be hanged, but he was successful in his appeal to the higher court and is now facing the jury for the second time.

Coe Howard was on the sick list the early part of the week but is now able to be out and boost the country as usual. Coe can't talk without boasting the Portales valley.

R. G. Bryant expects to leave within a few days for the Dry Farming Congress which meets at Tulsa, Okla., on the 18th. Mr. Bryant goes as a delegate from New Mexico, an honorary appointment given him by Governor McDonald. He will also take with him a splendid exhibit of the Roosevelt county farm products and incidentally do some boosting for Portales.

D. K. Smith of La Lande and Ed Johnson of Elida, are here this week attending the regular meeting of the county commissioners. These gentlemen are the out of town commissioners.

Emmett Gore one of Roosevelt county's old timers was in from his home at Upton Saturday. Mr. Gore states that the farmers of his section are all engaged in the cream business and that they are more than pleased with the results.

Senator T. J. Mabry of Curry county was a business visitor in Portales Saturday.

Miss Jewell Bayless, society editor of the Clovis Journal, was visiting with friends in our city Saturday.

Deputy United States Marshal Baca of Santa Fe was a business visitor in our city the latter part of last week. Mr. Baca was deeply interested in the exhibits at the county fair and stated to a Herald reporter that they were much better than he had anticipated, notwithstanding the fact that he had often heard the praises of Roosevelt county sung in all parts of the state. While here Mr. Baca visited the irrigation plant and was deeply impressed with the good opportunities that Portales has.

Capt. T. J. Molinari, W. F. Faggard, H. B. Ryther and A. B. Seay have been subpoenaed to appear before the United States grand jury at Topeka, Kansas, on the thirtieth of this month. We understand that this is in connection with the investigations of Mr. and Mrs. Don A. Moun Day.

Oliver Gore and wife of Upton were visitors in Portales Friday and Saturday of last week.

Next Sunday, October 12th, closes the conference year for the Methodist church. The morning service will be a prayerful consideration of the things essential to keeping men right. The entire work of the church is included in this. The evening service will be an appeal for workers. All the members and friends of the church are especially invited to be present at this last Sunday of the conference year. Strangers and those not elsewhere engaged are invited.

Miss Lois McConnell, of Haskell, Texas, is visiting this week with Mrs. Ed Connally. Miss McConnell and Mrs. Connally were in school together at Sherman, Texas, a couple of years ago.

Joe Aschbacher of Elida is a business visitor in our city this week.

Miss Margaret Patterson is taking a look at the state fair this week. While in Albuquerque she is the guest of Miss Mary Egan, who is a student in the State University.

The sheriff's office is busily engaged this week in inspecting scales at the various stores in the county. The last legislature made the sheriff inspector of weights and measures and provided that he must inspect and test all scales twice each year. This is quite an additional task on this of his.

A. A. Rogers and wife were visitors the early part of this week at the fair in Amarillo, Texas. Mr. Rogers states that the exhibit from Roosevelt county is undoubtedly the best exhibit now on display. The fact that all the best stuff was sent from Portales to our own state fair. All blue ribbon exhibits from Roosevelt county fair were sent to the big fair at Albuquerque.

Mrs. S. E. Ward, Miss Sallie Bryant and Mrs. Ed J. Nixon are in Santa Fe this week attending the state meeting of the federated clubs of New Mexico. They went as delegates from the Women's Club of this place.

Langdon Greig, of Dallas, Texas, is visiting with friends in Portales this week. Langdon formerly lived at the place, being assistant cashier of the First National Bank, for a number of years.

J. R. Darnell was a business visitor in Clovis the first of this week.

Joe Addington spent a greater part of this week in Clovis supervising the packing and shipping of the bar furniture and fixtures of the old Antlers Bar which he recently purchased. Mr. Addington has also bought the E. N. Hall pool hall and he expects to open a bar in connection with the pool hall, this latter bar to be run in the building just opposite the First National Bank.

Carl Johnson and Carl Mueller are this week at Amarillo in charge of the Roosevelt county fair exhibit. These gentlemen are said to be in charge of the very best exhibit at this fair, but they will not be able to take down any premiums since they are barred from entering out of the state staff. The exhibit was sent merely for the purpose of advertisement.

The Portales Utilities company this week has a bunch of surveyors dividing their large holdings into twenty acre tracts. Mr. Rogers says that he finds this is the most profitable way in which to sell the lands, and also the most beneficial to the country. When the Portales Valley becomes settled with farmers on twenty and forty acre tracts it will certainly be a hummer, and this will not be at any distant day as it is now rapidly approaching.

WRITING.	
1st prize—Maxine Dameson; 1st grade,	\$1.00

Cause of Death

Madison, Wis. Oct. 4.—Of the hundreds of death certificates handled annually by the state board of health in making its classification of diseases many contain interesting remarks as to the cause of death. These death certificates generally are filled out by a local physician and mailed to the court. Some of the "causes" as found in the reports by Chief Statistician L. W. Hutchcroft, follow:
"A mother died in infancy."
"Went to bed feeling well, but woke up dead."
"Died suddenly at the age of 103."
"Do not know cause of death, but patient fully recovered from last illness."
"Decided had never been fatally sick."
"Died a mere child. (An infant of one-half year)."
"Last illness caused by chronic rheumatism, but was cured before death."
"Died suddenly; nothing serious."
"While cranking his automobile, sustained what is technically known as a colles fracture of the right rib."
"Pulmonary hemorrhage—sudden death. (Duration four years)."
"Kick by horse; showed on left kidney."
"Chronic disease."
"Deceased died from blood poison caused by a broken ankle, which is remarkable, as the automobile struck him between the lamp and the radiator."

SELLS LEGLESS CALF.

A. H. Elliston has sold his legless calf to Pike Stroud of Amarillo, who is gathering a bunch of freaks for a show. Mr. Elliston came in possession of the calf in a perfect legitimate way. Mr. Money, who runs a large ranch east of town, one morning not long since, discovered a calf in his pasture that seemed not to be running around like the others. So he found that while the calf was perfectly whole every other way, he was minus legs, having only short stubs an inch or two long for fore legs and no sign of hind legs. Mr. Money brought the legless calf to town in his auto and after showing it, struck a trade in Mr. Elliston, who gave him a perfectly good white face calf for the legless one, and both knew they had made a good deal. Now Mr. Elliston in turn sells it to Mr. Stroud at a good fancy price. Thus the world moves on. Herford Brand.

ROOSEVELT COUNTY MAN BUYS HOLSTEIN HERD.

La Lande, N. M., Oct. 3.—L. W. Dillon recently bought out of the Bays herd of Holstein Friesian cows, the original bunch of ten selected out of an Albuquerque herd of one hundred head of thoroughbred, this being the same herd from which George Mann afterward bought his. The La Lande Enterprise says: "When you draw a picture of a herd of 100 head of nice, clean Holstein stuff then pick a choice of ten out of the lot, one can imagine the class of this bunch. It is a pleasure to see one who is thorough in all he undertakes, have charge of these cows. We will expect Mr. Dillon to develop several ten-gallon per day registered Holstein bull of the Friesian type, belonging to W. F. Bays. So it will be a matter of a very short time until this will grow into one of the best dairy herds in the state."

Free Methodist Quarterly meeting begins October 9th and continuing over Sunday. Services every night at 7:30 o'clock. Also Sunday morning love feast at 10, preaching at 11 a. m. Our District Elder Rev. W. C. Rose of Mt. Dora, N. M., will be with us and do the preaching. Everybody cordially invited.

J. L. BROWN

Dan W. Vinson, of the New State Development Company, has returned home from a trip of several days in Colorado.

Prof. Timmons, of the Portales High School, was sick for several days this week, but is now able to resume his duties. Miss Williamson substituted during his disability.

Oval Keen left this week for El Paso, Texas, to look after a shipment of cattle.

The county commissioners are this week having some more much needed improvement done in the court house. They are trying to make arrangements for the better accommodations of the petit jury, and to that end have purchased good beds, springs and mattresses. These they are arranging a room for and when completed no man need disqualify from petit jury service account of the meager accommodations. They are also making sewer and water connections in the jury room. It is unfortunate for a man to be called for this duty, but it is a service one owes his country and when called he should be well cared for in every respect. He is entitled to the best that can be afforded and the Roosevelt county commissioners fully realize this and are faithfully laboring to that end. It is a great injustice to compel a juror, accustomed to a good bed, to sleep on a cheap mattress thrown down upon the floor as has always been done in this county—in fact such is almost a crime, at least it ought to be.

SOCIETY

IN HONOR OF MISS MCCONNELL.

Mrs. Roy Connally's reception on Tuesday afternoon was a very delightful affair. The decorations were exceptionally pretty. A wealth of roses and dahlias emphasized the color scheme which ranged from palest pink to deep red. Throughout, the colors were in red and white repeating themselves in the ices and candies.

Receiving with Mrs. Connally was her guest, Miss Lois McConnell, in whose honor the reception was given. Mrs. James Hall served punch and in the dining room where the lovely decorations achieved their climax, Mrs. Sam J. Nixon presided. Assisting her in serving were: Mrs. Puckett and Mrs. Harris.

Mrs. Connally's guest list included: Misses Marguerite and Zenona Calloway, Mary Williamson, Beola McMinn, Nettie Cheaher, Myrtle and Lucile Moore, Mahoney, Scott, Hazelwood Moore, Corrie Smith and Sara Moore. Mesdames Thomas Amos, Regan Connally, Sam J. Nixon, James A. Hall and R. E. Puckett.

THE WEDDING BELLS RING IN PORTALES

One of the prettiest home weddings ever seen in Portales was that solemnized on last Tuesday evening, October 7th, at the home of Mr. W. E. Keeter; when Miss Mary Keeter became the bride of Mr. J. W. Pruitt and Miss Ethel Keeter became the bride of Mr. L. T. Martin.

The house was artistically decorated in profusion of pink and white cosmos, and the place of ceremony was a bower of graceful blossoms. To the strains of the wedding march played by Mrs. Louis Cole, Miss Mary Keeter bowed in a handsome creation of broad satin and lace, and wearing diamond ornaments—entered the parlor on the arm of Mr. Pruitt. Following them came Miss Ethel Keeter—beautifully gowned in a modish gray silk, with lace and chiffon trimmings—on the arm of Mr. Martin.

While Mrs. Cole played the flower song, Rev. H. A. Covington, of Elida, performed the ceremony, in part as follows: "Marriage is divine in origin and therefore should be maintained under divine law. It is sacred; so sacred, that in the union of the first couple, God surrounded them with the tenderest expressions of His love, the fragrance and blushes of the most beautiful flowers or Eden; so sacred that none but God could officiate in the ceremony; so sacred that none but angels could be attendants, and all these were witnesses. So sacred that it should now be God's prerogative to form such unions," which united each happy couple.

After the ceremony, and the hearty congratulations of the concourse of friends present, the guests were taken to the dining room, where a plaid and white luncheon was served.

Mr. Pruitt is a well known professional of Taft, California, whence he will take his charming bride. Mr. Martin is a popular young stock farmer of Elbert, Texas, and has shown rare discrimination in his choice of a young wife, as did also Mr. Pruitt.

The Misses Keeter have lived in New Mexico for five years, and have endeared themselves, by their charming Christian graces, to a host of friends, who wish them every happiness in the rosate future stretching out before them.

MRS. HIGHTOWER ENTERTAINS U. S. G's.

Varina Jefferson Davis Chapter U. S. G. met with Mrs. Hightower, Tuesday, October 7th and a pleasant afternoon was spent. Roll call was answered with current events. The interest which Col. Jones herd of buffalo has created called up notices of articles in late magazines relating to herds containing thousands of buffaloes which have been discovered in Canada. And radium, it has been discovered can be retained intact and the gaseous matter which it gives off may be used in the cure of diseases with no loss to the original quantity.

The Chapter is preparing for an entertainment at an early date when it is hoped, sufficient funds will be raised to pay off the indebtedness to the Cemetery Association incurred by the purchase of the circle.

The Chapter desires to thank Mr. Long, Mrs. Freeman, Mrs. Connally and all others who contributed to the success of the entertainment when the Bestowal of Crosses of Honor was held.

The Chapter will meet with Mrs. C. V. Harris, Tuesday, October 21st, 1913.

WOMEN'S CLUB IN SESSION

The general Federation meeting of the state is now taking place at the capitol. Several Portales women went and about 12 club women from Roswell.

Mrs. S. F. Cuberson and Mrs. W. O. Oldham from Portales are both in the program.

Mrs. S. F. Cuberson is chairman of the Educational committee of the state and Mrs. W. E. Lindsey is chairman of the Legislative committee. The placing of women on the state Board is one of the things asked for by the women of the state.

The Woman's Republic will cooperate with the school Board and participate in opening up the Manual Training and Domestic Science Rooms in the school basement.
