### SCHOOL NOTES

Portales has again been victori ous in the debate which entitles her to debate in the Pecos Valley contest and in the basketball game with Elida in which the score stood \$1.5 in our favor. Portales should be proud of her boys, both as debaters and basket ball players.

Mr. Ralph Emerson Twitchel of Santa Fe has presented his work, The Spanish Archives of New Mexico, [in two volumes] to the Portales library. These beautiful books are heartily appreciated and the pupils extend to the author a vote of thanks for his generosity.

The visitors of the past week were, Mesdames Boucher, Mundy, Nixon, Stephenson. Mesdames Shock and Russell of Elida, and the debaters of that place.

Miss Haydon Trigg is a new pupil in the third grade.

All pupils are urged to be punctual and present each day at school that we may win in the attendance contest with Clovis. HONOR ROLL

In the nine foreign countries shown on the map there is a total population of 214.878.502

More than one hundred times as many people as there are in the territory of your telephone company

Yet all nine of the countries could be laid down in your telephone company's territory with several thousand miles to spare

Your telephone company operates 222.572 telephones in an area of 777,705 square miles

In these seven states there is one telephone to every eleven people

In Europe there is only one telephone to every forty-three people

In Europe the government owns the telephone companies

In the United States the telephone users, through their Public Utilities Commissions, control them

The development shows which is the better way
