### **BIG RAISE IN VALUATIONS**

Roosevelt County Goes From Third To Second Class County

Many Road Petitions And School Matters Before Them

The State Tax Commission has placed a taxable valuation on the property in Roosevelt county of \$8,570,229,27, or an increase of \$923,249 over the valuation as fixed by the assessor. The proceedings of the Commissioners have not been published so it is impossible to tell what classes of property have been raised and just what the percent is, but the figures show that the average raise has been about 12%.

It is probable that the assessor will not get the proceedings of the Commissioners for about ten days and it will be impossible for him to get to work on the books before that time. It usually takes about six weeks from the time the extension work is started and the prospects are that it will be after December first before this year's taxes can be paid.

The County Commissioners met Monday and this session promises to be the longest that they have ever held. A greater volume of business has to be disposed of than at any other ses sion of that body. There are road petitions and school matters galore several of which are requiring a great deal of consid-

It is probable that the tax rate will be fixed at this session, as the clerk has received the total valuation from the Secretary of the Tax Commission. The limit ot five mills on the new valuation should furnish plenty of money to run the schools of the county. This will net about \$40,000 and with the poll tax and money derived from other sources should be an adequate amount.

#### Ship Cattle.

The Williamson-Oldham Cattle Co. last week shipped three cars of cattle to the Kansas City market. It was part of the herd which has been on their ranch south of town and which they did not care to keep over winter. G. M. Williamson who accompanied the shipment said the price received was very satisfactory.

#### After Prisoner.

Deputy Sheriff B. B. Clayton alias C. B. Williams whom it is alleged passed fradulent checks at Taiban. This is the man who came to Taiban some time ago and purported to people that he was going to organize a bank.

It is said that he gave some checks to residents of that place who wired to the bank at Seattle on which they were drawn and found to be no good. The sheriff's office immediately got busy with result that the Wyley was apprehended in Seattle

JURY ACQUITS PORTER

VERDICT IN MURDER CASE RE-TURNED IN TWO HOURS.

Las Cruces.-James L. Connell. charged with shooting Ralph S. Connell as he was passing Porter's home en route from Tularosa to the Mesca lero reservation in June, 1914, was acquitted by the jury after having deliberated two hours.

After two grand juries had failed to indict Poster last April a third was impaneled which returned an indictment. The state then attempted to have Porter remanded to jail without bail, but the motion was overruled and Porter's bond fixed at \$20,000, the original bond being accepted as a continuing bond. The state\_then moved for a change of venue, alleging that a fair and impartial trial could not be had in Otero county, and this motion was sustained and the case sent to Dona Ana county for trial.

It is understood that in the event a motion for a new trial is overruled. the case will be appealed to the State Supreme Court.

POLAVERDA LAND GRANT.

Judge Hanna Makes Report Tending to Settle Case.

Santa Fé.-After more than ten ears occupied in the taking of testimony, the title to the Polvadera grant in Rio Arriba county is now in a fair way toward settlement. Judge R. H. Hanna, who was referee in the case before being elected to the supreme bench, has made a report as to the ownership, which is of much import-

The grant was made in 1766 to Juan Pablo Martin, and the present suit in partition was begun early in 1905 by former Governor L. B. Prince, representing José Vicento Cordova and a large number of others in Rio Arriba county, who claimed interests under a deed from Miquela Martinez, a daughter of the grantee, made in 1798 to Gabriel Quintana. Meanwhile a Mr. Perew of Buffalo, N. Y., had bought the interests of other heirs, claiming the whole grant, and, through his agents, carried on a cattle ranch on the property

The grant is of considerable size, and includes considerable timber land. The referee's report gives two-thirds of it to the Perews but throws out all 900 pounds of potatoes from less than of the claimants under the deed of Miquela, who number several hundred fourteen true bills, and in eleven cases county, on the ground that there is "U. 100; constunive, evidence that, she was

Santa Fé.-The reclamation offiers report the completion and sucessful test on the east side canal of he Rio Grande irrigation system. Water is running through the canal and the syphon between Mesquite and Brazito works perfectly. The steel head gates in the McMillan reservoir replacing the wooden gates will be supplemented with a concrete syphon under the Pecos river, the water being taken out of the main headgate of Lake Avalon and carried under the river. Maxwell.-It is probable that the holdings of the Maxwell Irrigated Land Company will pass to Denver parties within a few days.

The closing of the sale will mean hat work on the construction of the Hebron dam, which was washed out by the high water in 1914 will begin luring the month of October and that the entire irrigation system will be finished in the shortest possible time. The completion of the work will require between \$75,000 and \$100,000 and will provide an abundance of water for the 25,000 acres of land ander the ditch, even in the most unfavorable of seasons.

Land Business Good.

Santa Fé .- The land business transacted by Uncle Sam'during the past month of August was fairly good, according to the reports of the U.S. land office here. The area of lands taken up totaled 51,621.9 acres and the sum of \$3,174 was received. There were 249 entries in all, and of these 105 were homestead original under the at of June 11 1906.

Of Course It Will Be Recognized as Fable, Since There is None Like Him.

Once upon a time an unfortunate traveler fell off from the top shelf of a sleeping car and dented his left kneepan quite a good deal. He forthwith hied him, limping and lamenting, to a lawyer who was reputed to be so honest that he preferred to tell the truth even when a lie would do just as well, and would not accept a retainer from a client unless the latter had a just cause for action. He also had plenty of time to practice on the violin.

"I choose to sue the soulless corpo ration for \$10,000 damages," qouth the injured man, "both because I really am damaged fully \$16 worth and also because \$10,000 is the only sum for which anybody ever sues a corpora-

"Pish, likewish tush!" returned the attorney, reaching out for his faithful fiddle. "You would but waste your time and mine, for the counsel for the defense would make you a laughing stock and cause your dreams of avarice to turn to ashes in your mouth, by proving on your own testimony that you were lame from your berth."

Ah, was he not a queer lawyer, thus to carelessly throw away an opportunity for a fee, merely to make a sad witticism?-Kansas City Star.

PLANT LIFE WORTH STUDY

Men of Science Have Ascribed t Them Nearly All the Attributes of Humanity.

Occasionally a writer bobs up who ascribes to plant life nearly all the at tributes claimed for humanity. Rec ognized scientific authorities are painfully silent on the subject, as must be the case with all who have had an intimate acquaintance with plants, yet plant life reveals many wonders to those who study it closely.

A magazine, whose name we have diplomatically forgotten, contains an article on the "Passions of Plants," in which occurs the following: "In the light, moreover, of the new knowledge we have regarding the joys and sorrows of buds and blossoms, what can be said in defense of the heartless race of florists and horticulturists? Every year-nay, every month!-they deliberately snip off from the parent plant thousands and thousands of unoffending blossoms and innocent buds, who are thus brought to an untimely end. And for what? Merely to heighten, perhaps, the beauty of a ball-

When it comes to dash and boldness, the submarines hold the record of war. Their feats would, a generation ago, have sounded fit only for the good, old-fashioned fairy tales, in which all heroes were super human and nearly all their deeds impossible.

Every nation engaged has now de clared that the war was forced upon it. On a gigantic scale, it is the human excuse, as old as Adam, "I didn't do it." The profound mystery, then, awaiting the solution of the ages is who did the forcing?

The ball and chain were discarded many years ago in the name of humanity; and yet men will still try to toil with a sluggish liver, and get nowhere in particular.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

## MUST WATCH TIRES

Cuts in the Casings Will Be Found to Have Tendency to Expand.

FACT NOT REALIZED BY ALL

Expert Advises All Automobile Own ers to Heed the Warning and Save Needless Expense and Possibly Delay When on a Journey.

"Many motorists do not realize the importance of prompt attention to small cuts or injuries in their tires," says an expert. "It is especially important, at this time of the year that this warning be heeded.

"A cut in the tread or cover of the case has a tendency to expand when that part of the tire is in contact with the road. This permits mud, grit, pebhies and other foreign matter to lodge in the opening. When the injured part of the tire is relieved of the weight of the car the foreign matter, which has accumulated, acts as a wedge and with each revolution of the wheel this foreign matter is forced farther and farther between the cover and fabric, not infrequently completely separating

"If this separation of the tread and fabric is neglected for any length of time it is often necessary to apply a new cover. If the fabric is in very good condition this can generally be done in a very satisfactory manner, but how much expense and trouble can be saved by prompt attention when the cut is first made.

"It sometimes happens that a tire having a good cover and appearang all right from the outside fails to give long service and the car owner is astonished when he learns from a repair man that it is not practical to rebuild the tire. This is often due to water working through neglected cuts in the cover and causing decay and disintegration of the fabric. The fabric constitutes the real foundation and strength of the tire and therefore it is highly important that it be pro-

"Examine your tires carefully at regular intervals and especially after long trips. Tacks, glass or any other matter which may have become imbedded in the tread should be removed before any serious damage is done. Wash away all mud to permit a thorough examination of the tire.

"By the use of preparations intended for emergency repairs, small cuts, punctures or snags can be healed and thus prevent them growing and becom ing serious. Large cuts or injuries should be vulcanized at once by an experienced and competent repair

Most of the things that are customary with us have some good reason for their origin, though we are apt to accept them and not inquire what the origin was. The water in a great many public fountains, whether for man or beast, comes out of a lion's mouth. Did you ever stop to think why a lion's head should be chosen in preference to any other design? This is said to be the reason; Among the ancient Ekyptians the rising of the waters of the River Nile was the most important event of the year, as it meant life and prosperity to the whole nation. This rising of the waters always took place when the sun was in the constellation of Leo, or the lion. So they adopted the shape of a lion as the symbol of the life-giving waters of the Nile, and all their fountains were carved with a Hon's head. The Greeks and Romans copied this

Country's Abounding Prosperity.

Plain Facts Show That "Hard Times" Are Things of the Past-Railroads Planning to Spend Much for Equipment.

The Pennsylvania railroad system announced recently that it was placing orders for \$7,000,000 worth of equip ment at once, and taking options on locomotives and freight cars to the value of \$13,000,000 more

War and Treaties. In discrediting arbitration and con ciliation treaties, the critics seem to condenin them because they have failed to prevent war But no such treaties have positively forbidden war; they have almost invariably been limited in their scope, leaving the signa tories entirely free in the last resort to take up arms. General von Bernhardi concedes to the United States the distinction of booming arbitration treaties more than any other nation but the United States has not a single treaty which would be broken in case this country should go to war after obeying all of the treaty's mandates. All treaties of this class, beginning with The Hague peace conventions have been designed merely to render war more difficult to begin. At least, they have done no harm. If they should prevent one war in the course of time—and they are credited with that much in the Dogger bank affair -they would justify their existence

### Fifty Years.

Columbia, Conn.-Needing a flat stone for repairs that he was making. Ed ward Phillips pried up one which for over fifty years had been used as a stepping stone near the farmhouse back door. To his surprise he saw on the reverse side, in fairly plain letters,

the inscription: In memory of Emily, daughter of Mr. Joseph and Mrs. Eunice Smith, who died April 15, 1814, aged six months and fifteen

Rest, thou, sweet slumberer, in the peace Short was thy life; forgotten soon shall be.

Nobody knows where the stone had been used or where it came from. Mr. Phillips' father bought the house over fifty years ago and the stone was at the back door then for a stepping stone. It is five feet long and nearly two feet wide.

#### LAST SHOT OF CIVIL WAR.

Weman Asked Police to See if Old Gun Was Londed-It Was.

New York.-The "last shot of the civil war" was fired recently in a courtroom. It came from a gun which had been hanging for years on a wall in the home of the late Willard H Hodgson. The musket had been car ried in the war of the rebellion by Mr. Hodgson's father.

VETERINARY SURGEON Mr Hodgson's sister was preparing Calls made day or night. All to move to another bouse, but was diseases of domestic animals afraid to take down the old musker She called in Lieutenant Henry Brown treated and all surgical operaof the Platbush police station and turned the gun over to him. He took It around to the station house and showed it to Attendant Patrick O'Loughlin of the Flatbush court. which is in the same building.

Standing in the corridor O'Loughlin pointed the gun at the floor and pull ed the trigger. The old war musket was heavily loaded, and there was a report which startled the police reserves and the people in the court-

### WANTS A NATIONAL BANK IN CANAL ZONE

### Helm of Kentucky Would Go After South American Trade.

Washington. - Representative Helm of Kentucky has a plan to establish national bank at Ancou, in the Paul na canal sone, with branches else where in that country. He would call it the Pan-American bank and give it a capital stock of \$25,000,000 divided into shares of par value -\$100 euch.

Just before congress adjourned Mr Helm introduced a bill to incorporate the Pan-American bank, and when the Sixty-fourth congress convener be will press it for action

"The commercial tleup resulting from the European war has convinced every thinking man in this country that foreign trade is a vital element in our domestic prosperity and that the continents of North and South America have greater identity of in terests than was ever realized before said Mr. Belm. "There never was time when opportunity was knocking so loud at our doors. The commerce and business of a continent are with in our grasp. The manufacturing en terprises in Central and South America are very limited, and it is to this matter that I wish the attention of the country could be directed.

"Few, if any, of the republics to the outh of us have the means of trans porting or delivering their products to any other country. Under existing con dittins nearly all the trade of Central and South America flows across the Atlantic. It ought to be dowing from North America to Central and South

"About the only means of creating ommercial and business relations are anking facilities, transportation, press pureau and mercantile agents. Under the federal reserve act a bank with \$1,000,000 capital in the United States can establish a branch bank in any of he countries in Central or South Amer
