Teachers From Various Parts of County Hold Helpful Meeting

INTERESTING TOPICS DISCUSSED

Our Teachers Are Among Best in State, Many University Graduates

The first regular meeting of the Roosevelt County Teachers' Association for this season, held at Portales last Friday and Saturday, was a decided success. R. A. Deen, president, was present at all meetings and put much life and vigor into the meetings. Some fifty teachers from over the county were present and some twenty addresses of merit were delivered. Practically every phase of the work in the county was taken up and ably discussed by various speakers. The meeting was noticeable for the number of first grade and better teachers present and Roosevelt county can well be proud of her teaching force, many of them being university graduates of good standing tates wide in their profession and many other normal school graduates who are and have proved to be successful teachers. Possibly no county in the state can boast of such an average set of teachers as can our county and accordingly the reason for the high standing of the county in the educational work of the state.

In the session held Friday night at the church there was not a large attendance of the teachers but a very interesting round-table discussion of local, state and national educational problems. To the average layman and to those present the meeting was an eye opener in some respects, giving them ideas of the school and its work that they did not have before.

The meeting closed Saturday at noon in order to give those who wished to do so, a chance to get home Saturday night and all teachers seen and talked to were enthusiastic in their praise of the meeting and stated that they had received a real benefit from same.

Resolutions.

We, the teachers of Roosevelt county, in County Institute assembled at Portales, N. M., November 5-6, 1915. That this County Association do hereby recommend that the "Boys and Girls' Encampment" as instituted by the A. & M. College at the State Fair be made a permanent feature and that "Camp Putney" be honored for the benefit of New Mexico.

That we fully and heartily endorse the efforts of our County Superintendent toward alleviating the present financial stress and the furthering of the general interests of the teachers of Roosevelt county.

That we extend our sympathy to Miss Grinstead in this sad hour of bereavement.

That we express to Mrs. Oldham and Judge Lindsey our appreciation for their very able and interesting discussions of the subject selected for them and also to Mrs. Nixon, Miss Merrill, Mrs. Timmons, Miss

Creamery Will Open.

The board of directors of the Roosevelt county creamery met Wednesday and decided to open the creamery for business next Tuesday. All stations outside of Portales will receive cream on Mondays and deliver same to the creamery on Tuesdays. All farmers who deliver direct to the creamery will be expected to come in on Tuesdays.

If all patrons of the creamery will deliver on these days it will do much toward the success of the creamery and otherwise facilitate matters. From what we hear the creamery is going to start off in splendid shape and is going to be well patronized from the start.

Visitors to Portales will find it worth their while to inspect the creamery while here. It is worth time. A visit to this institution will open your eyes and show you what a splendid creamery has been built by the farmers of this county.

More Turnips.

W. F. Jernigan brought to this office some specimens of the turnips he raised on his farm southwest of town. They were large ones which he says he picked out of the pile without paying particular attention to the size. He says that he has some which are larger than the one grown by Mr. Wallace which is mentioned elsewhere in this issue.

Mr. Jernigan says that his turnip crop this year which he has been shipping to Clovis has been averaging six pounds each. Last year he raised three-quarters of an acre of turnips which sold for \$133.

J. B. Priddy, W. H. Ball and E. L. Kohl and their families and Charley Greathouse returned Wednesday from their hunting trip in the mountains near Carrizozo. They report that the weather was ideal, game plentiful, and they enjoyed a general good time. Among the game they secured was four deer, a number of turkeys, quail and squirrel.

Jones and Miss Smith who contributed to our entertainment by their literary and musical renditions.

That we express our thanks for the hospitality of the citizens of Portales in general.

Committee:

L. L. Brown,
Miss Belle Norton,
J. E. Owens.

The following are the names of those registered at the Association from the various districts of the county.

Misses Claudia Whittle, Eula Ross, Julia Hale Dillon, Myrtle Preston, Maude West, Pauline Anthony, Hester Kennemore, Sue Mayfield, Willie Warnica, Heien Elrod, Rose Davis, Louise Wright, Belle Norton, Bessie Young, Callye Shannon, Messdames A. STOCK BUSINESS ACTIVE IN ROOSEVELT COUNTY

General Boom All Over The County, With Many Sales Reported at Fancy Prices, Showing The Highly Prosperous Condition Which Exists Here.

MANY REGISTERED HERDS OF THIS COUNTY BECOMING FAMOUS.

If Business Continues to Advance In Future As It Has In Past This County Will Be The Leading Stock County in New Mexico

Much activity exists in the live stock business in Roosevelt county. During the past month many sales have been made and the business generally is on the boom. The residents of this county have learned that this is one of the surest and best ways of investing their money. There is not a man in the county who has dealt in or raised cattle to any great extent who has not made good money the past few years and many who made money who bought with little or no money are now almost independent.

Better cattle are now being raised in this county than ever before because the stockmen are constantly breeding up their herds. A few years ago there were scarcely any thoroughbred or registered beef cattle in the county but now there are many herds. Just how much more the cattle business can continue to grow here is difficult to tell. If it does continue to grow in the next few years as it has in the past few Roosevelt county will be the leading cattle county in the State, perhaps not in numbers, because our county is not so large as many others, but in their valuation, as we have a much higher grade of stock than can be found in many counties.

As time goes on, the alfalfa of the Portales Valley, is being more utilized for feeding and fattening purposes. This is one part of the cattle business that has not been taken advantage of by the cattlemen to the extent that it warrants. However many cattlemen are seeing the profits that can be made in this manner and are taking advantage of the alfalfa in the Valley. Cattle feeding lots are certain to become more plentiful for the abundance of all kinds of grain that is usually to be obtained here at reasonable prices insures success along this line.

We regret that we can not give all the principal cattle deals that have been made recently because they have been numerous. Representative R. G. Bryant whose ranch is some 20 miles south of Portales recently sold to Craig & Hunter of Texico 10 yearling heifers for the handsome price of \$150 each. They are registered white faces. These gentlemen are going to handle nothing but thoroughbred stuff and after considerable search decided that they wanted part of Mr. Bryants herd even though it took a fancy price to get it.

Frank Warnica and Frank McInturff last week bought 100 cows and calves from J. E. Gandy near Kenna. They have been placed in their pasture north of Portales. Rev. Lee Evans of Dora this week purchased from the Keen Cattle Co. 100 calves which he is going to feed on his ranch. He has raised an abundance of feed and we predict that he will double his investment by next spring.

W. E. Roberts of Garrison, returned from Kansas City last week where he had marketed 10 cars of mixed cattle including cows and steers. Before returning he bought 70 stockers which he shipped back for feeding during the winter. E. C. Hewitt, whose ranch is west of Portales on the Pecos was here recently and reports that he is making many improvements to his headquarters. He also proposes to plant 200 acres of alfalfa. Mr. Hewitt has one of the best bunches of thoroughbreds in this section and has supplied many of our stockmen with breeding stock. Mr. Hewitt sold some heifer calves here last year which he believes will be worth \$1000 when they are three years old. He bases his figures on the conclusion that they will bring calves worth \$100 apiece which is equivalent to 10 per cent on an investment of \$1000.

C. V. Harris and Roy W. Connally received about 150 calves from Taiban last week and have them on alfalfa pasture on the Tom Taylor place east of town. They are the best herd of calves that have been seen here in some time.

Much activity also exists at Elida in the cattle business and many sales have been reported recently. E. B. Logan and Sam Beal whose ranch is located at Ranger Lake south of Elida have been heavy buyers. Many cars have been shipped to Kansas City this fall as the range was in fine shape and the cattle in good condition for market. The following are among some of the purchases made by Logan & Beal, many smaller bunches not noted here were bought by them: from Henry Rankin, 75 calves; from Robertson & Hancock, 100 calves; these gentlemen have 150 more on the range; from W. E. Collins, 30 calves; from Collins and Rutherford, 75 head. Logan & Beal expect to feed 1000 head of calves on their ranch this winter.

The range all over the county is in fine shape and cattle will winter in better shape than they have for many years. Where feeding is necessary home grown feed can be obtained in abundant quantities and at prices that the cattleman can well afford to pay.

We are anxious to give all the important live stock news in these columns and will appreciate stockmen over the county reporting their sales each week. Each communication should be signed by the writer, not for publication, but to show that the report is made in good faith.

Miss Reagan Wins Contest.

East Las Vegas, N. M., Nov. 6.—With the subject "Tact," Miss Edith Reagan, of Portales, this afternoon won the preliminary oratorical contest in the college section at the New Mexico Normal University. Edwin Rosenthal, of this city, won the first honors in the academic section, his subject being "Americanism." These young people will represent the Normal university in their respective sections at the State contest, which will be held in Albuquerque the latter part of this month, during the convention of the New Mexico Educational association.

Raises Good Crop.

One of the most successful farmers in the Cromer community is T. P. Ragsdale who lives about a mile east of that place.

This year he raised seven and one-half tons of brood corn which he brought to town last week and an immense amount of feed of all kinds. The feed raised on his farm will feed 50 cattle over winter.

Mr. Ragsdale done all the work himself and had only a two horse team. He settled in the Cromer section about four years ago and has never failed to raise a good crop but his crop this year excels all previous ones.

Fancy Price.

J. Wilcox, who is one of the most recent to see the big money in the cow business in Roosevelt county and bought a bunch of fine calves from the G. P. Smith Cattle Co. reports that he sold one of the best bul calves in his herd to R. J. Anderson of Longs for \$75.

This may seem like a fancy price but when one considers the high quality of the animal, Mr. Anderson really bought something that is well worth the money.

Getting Larger.

The turnips are getting larger in Roosevelt county. Last week we reported one weighing five and one-half pounds which was grown by J. A. Fairly and thought it was the biggest one yet but it is small compared with one exhibited and grown by D. A. Wallace on his place south of town. Mr. Wallace's turnip weighs 7 and one-half pounds and is 27 inches in circumference. He has about one-half acre in his patch.

Conn Trial On.

The Sam Conn trial is on at Roswell. The defendant was taken down last week by deputy sheriff, B. B. Clayton. Sheriff Geo. C. Deen and the defendant's attorney, Judge C. M. Compton went down Monday. The witnesses, of which there were several, left Tuesday. Conn is to be tried for the murder of Adolph Molsberger, who was killed here last spring.

Suffrage Meeting.

The regular meeting of the Suffrage Club was held at the home of Mrs. W. E. Lindsey, on Monday afternoon at 3 o'clock. Mrs. C. A. Skelton and guests, Miss Jane Gregg and Mrs. D. Hardy were the invited guests. It is reported that a very enjoyable program was rendered.

STATE TEACHERS' MEETING

Should Be Well Attended By Every School Teacher In County

SHOULD BE ENCOURAGED BY BOARDS

Opportunity For Teachers To Learn More Of State

(A. M. Hove)

Every teacher in New Mexico will benefit by sitting in the teachers' convention in Albuquerque November 22nd to 24th. Their pupils will reap great good from the increased enthusiasm brought home from the convention. The program is interesting. At the same time the teachers will touch elbows and become more familiar with this state of great resources, distinguished history, and dual civilization. Every teacher will come home better fitted to train the boys and girls, the men and women of to-morrow.

The school boards may therefore very properly encourage the teachers employed in their districts to attend the convention. Carlsbad has set a meritorious example by closing the schools during the week, permitting every teacher to go. But Carlsbad went further and appropriated \$10.00 towards the expenses of every teacher that attends. The Carlsbad children will be the better served for it.

The Santa Fe Railway also recognizes the value of this meeting to the growth of New Mexico and this year grants the low rate of one fare for the round trip. J. Brinker, General Freight and Passenger Agent at Amarillo, was instrumental in arranging this low rate, itself an inducement to the teachers to come.

The country schools are fully as important as the town schools and the teachers in these should be induced to go to this meeting. A few dollars towards the expenses will be money well spent.

It will be a great educational convention. Come and help to make it the best ever held in New Mexico.

Musical.

The Music Department of the Womens' club will meet with Mrs. Nixon next Monday evening at 8:15. Subject, "Early and Modern French Music."

Mrs. S. E. Ward and baby left Tuesday to visit relatives in Columbus, Ohio. She was accompanied by her uncle and aunt Mr. and Mrs. J. D. Orr, of Newark, Ohio, who have been visiting her.

Misses Montana and Jewel Grinstead received word Friday of the sudden death of their brother Claude, in Kansas. They have many friends here who extend their sympathy.

Joe Brinker, passenger agent of the Santa Fe, of Amarillo was in town Wednesday and enjoyed an outing with Coe Howard, S. E. Ward, G. W. Carr and Ed J. Neer.

John B. Keachie and family arrived today from Minnesota. Mr. Keachie will be associated with Mr. Blunt in the Roosevelt county creamery.

TREES! TREES! TREES!

If you want home grown trees that are healthy and propagated from varieties that have been tested and do best in the West, it will pay you to investigate all that claim to have nurseries on the Plains. Plainview Nursery will pay \$5.00 a day to anyone who will investigate. If they do not find that we have the largest and best stock of home grown trees anywhere in Texas west of Fort Worth or in New Mexico. We are practically the only institute that has a stock of fruit trees ready for the market. For your good and ours too, we solicit your investigation. Plainview is not far away. Would it not justify you to visit our nursery and see what can be done on the plains in the way of propagating and growing fruits.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is usually caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is strictly closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, since every sound that enters the ear is muffled, which is nothing but an inflamed condition of the mucous surfaces.

sent to run the thieves to earth. These plans for a private invasion of Guatemala are in progress there is no doubt. A posse is expected to leave in a day or two well provided with arms and ammunition, to accompany the men of the village to the mountain lair where, it is thought, the brigands hold their fair captives.

The border near the point where the Mexican, Guatemala and British Honduras lines join is infested with outlaws, who, by jumping from one country to the other, avoid the rather lax vigilance which is maintained by the police departments in this vast and sparsely settled region. Near the line, in British territory, is the village of Bullet Tree Bank, one of the chief stations on the Upper Belize river. At present only ten families are making their homes in the place.

It was during the day that the robbers descended on the village and carried away the women, when the men were all in the woods tapping the sapote trees and collecting the chicle. Five young women, daughters of the chicle gatherers, accompanied by an older woman, who was the wife of one of the workmen, were washing clothing on the banks of the river. The other women, who were in the houses, heard screams and ran out to see their friends and relatives being driven before a band of no less than 15 men. The alarm was given as soon as possible, but as the men of the village were several miles away and widely scattered in the forests, it was not before all were summoned home. Their lack of sufficient firearms made pursuit impossible until arms and ammunition had been secured.

The Herald-Times is constantly working for the upbuilding of Portales and the rest of Roosevelt county. We boost the country, tell of its wonderful resources, of what a fine place it is to live, of the success made by some that others may profit thereby. Directly and indirectly we boost for the business men of Portales. Naturally one would think that they would pass part of the prosperity around and patronize an institution that is an asset to their business. Most of them are but many of them are not. The mail order house is natural enemy of the local merchant. The same is also true of mail order printing establishments in the eyes of a local newspaper. We realize that there are some jobs that we are not equipped to do but the Herald-Times equipment consists of a larger and more complete variety of type than any town the size of Portales in New Mexico and many establishments in towns much larger than Portales. This paper believes in home institutions and patronizes them, first, last and all the time. Surely you cannot blame us for wanting to get an opportunity to figure on your job work. There are jobs going right out of Portales, Portales money going to Kansas, and other states when they can be done cheaper right here at home. We know where of we speak for recently we had the pleasure of scrutinizing one of their price lists. These smooth tongued traveling artists drop in, put up a good line of talk to you, get your order, (possibly in some cases to get rid of him) take your money, none of which is spent here and it is gone from Portales forever. Think this matter over. Help people who are trying to help you or at least give them an opportunity to figure on your work.

The state of New York has passed a law prohibiting the posting of bills within a certain distance of all highways. It is only a matter of time until laws of similar nature will be passed in other states and the gaudy street poster will be a thing of the past. The business houses of Portales will help advertising if they will prohibit itinerant shows from posting their windows under the pretense that they will be given free admission to these shows when they reach town. This has been done in Portales and the business man had to pay the regular price of admission.

The proposed candidacy of R. E. Putney of Albuquerque for Governor has caused much favorable discussion from the Democrats in this county. Mr. Putney made many friends during his visit here last summer and made a strong impression with all with whom he came in contact. No doubt if he consents to become a candidate, it will meet with the general approval of the Roosevelt county Democrats.

KEEPING SUGAR TAX

Wise Course Is That Taken by the Administration.

European War, That Has Dislocated Commerce and Industry, Makes the Step in the Highest Degree Advisable.

World-wide war, dislocating commerce and industry, reduced finance and credit to chaos and made a jest of economics. The new tariff has failed as a revenue producer solely for the reason that the conditions to which it was adjusted have been shot away by a dozen nations in conflict.

It was the expectation of the Wilson administration and congress that under more liberal customs rates the total receipts, while more evenly distributed, would not be greatly diminished and that the loss of revenue in providing for free sugar and molasses, effective May 1 next, would be more than offset by the income tax. That this hope would not be realized was plainly seen last year when the emergency war taxes were levied.

In their conclusion to ask congress for a renewal of the war taxes and the repeal of the free-sugar and molasses clause of the tariff, the president and secretary of the treasury are fully justified by facts. The situation that confronts them is abnormal. While hostilities last there is no possibility of a customs revenue, no matter what the rates may be, that will equal the requirements of the treasury. Not until peace shall have been restored will it be advisable for the United States to enter upon experimental reforms in taxation or relinquish any of its imposts that, like the sugar tariff, are highly productive of revenue.

Want Political Tariff.
 In this last fiscal year our purchases of foreign goods were smaller by \$200,000,000 than in the year before, and at the end of the period commodity prices in the United States, as reflected by Bradstreet's index number, were the highest ever known. But in spite of that the country, our protectionist friends tell us, is being mysteriously ruined by the pauper labor of Europe.

The aforesaid labor is getting killed and maimed to an extent that appalls the world. Factories in which it was employed are increasingly disorganized by war. The capital behind it is being shot away at the rate of tens of millions of dollars a day. But those things were mere broken reeds to lean upon, unless we are further fortified against European competition by a very high tariff.

You might sink Europe in the sea tomorrow, and your true high protectionist would still go about pale and trembling unless he had in his pocket the rabbit's foot of high duties to fend off the specter of pauper labor. A Ku rope with both arms in a sling and not a leg to stand on would still frighten him into gooseflesh unless he had the tariff horseshoe over his door.

So the tariff will no doubt be one of the issues of the next presidential election, and if the Republicans win we shall have another revision of it. The loudest champions of high protection do not want an intelligent tariff, they want a political one, with the usual logrolling—Saturday Evening Post.

Turn to New Campaign Cry.
 Attacks on the administration contained in the Massachusetts Republican platform show that the "hard times" cry has died out. Not even in calling the tariff a failure is there an appeal to the voters on the ground that President Wilson has prostrated the nation's industries. At the banquet of the Home Market club of Boston Senator Sherman of Illinois denounced the "indefensible cruelty of the Wilson tariff," and was seconded by John Hays Hammond, but neither of them hinted that relief from erstwhile depression is a mere accident of war. Protection may be espoused, but it will be with an eye to post-bellum conditions. In his recent speeches in the West, Senator Weeks has been telling the Republicans that the Democrats would be defeated next year if defeated at all—upon the question of the success or failure of Wilson's foreign policies. The Massachusetts platform bears this theory out, but it must be plain to the Republicans that the issue is hazardous. If the goals reached in our relations with Mexico and Europe please the people, they are not going to look askance at mistakes in detail.

Safe Statement.
 In announcing that the president approves Secretary McAdoo's plan to retain the duty on sugar and reenact the law providing for the special war tax, the correspondents are taking no chances. It is just as safe to say that the two measures will receive a large majority vote in congress.

Democratic Harmony.
 "Many of my Republican friends predicted that the Democrats in the Sixty-fourth congress would not be able to keep together, and furthermore that President Wilson would not be able to get through his legislative program this winter, but from all I can see harmony will prevail," said D. G. Clinton of Washington, D. C. "The Democratic majority is considerably diminished, but that very fact should result in all the greater cohesion in the party. I think congress will have an exceptionally harmonious session."

AS TO "SPECIFIC GRAVITY"

Archimedes Was Central Figure in the Earliest Record of Its Determination.

Parents who may be asked to explain what is meant by "specific gravity" might do worse than tell the classical tale of the earliest record of its determination, in connection with a king's crown. You will recall how—a couple of centuries or so before the Christian era—Hiero, king of Syracuse, commissioned a goldsmith to make him a new crown out of a certain weight of pure gold. He was a rogue of a smith, but not cunning enough to bamboozle the greatest of the Greek mathematicians.

For when the finished product arrived the king expressed to Archimedes a fear that it might contain an admixture of base metal. To test the matter, Archimedes put the crown into a vessel brimful of water. Into a similar vessel he put an equal weight of pure gold. The latter caused a smaller overflow of water than did the crown, and the correct conclusion was drawn that the crown contained some baser (and lighter) metal. The smith saw the gravity of the matter in more ways than one.

FINDS POSITION OF PIPES

What Might Be Called Plumbers' "Detective" Has Been Proved of Great Value.

Piping of various kinds such as gas, water, steam heating, vacuum cleaning or compressed air, is often concealed within walls, generally under plaster, but when it comes to making repairs or replacing such pipes, their exact position cannot always be found without doing considerable damage to the wall.

A recently patented electric method for locating the pipes is simply a special application of the well-known induction balance principle. A convenient apparatus is made up consisting of two sets of coils placed on ends of a magnet bar. One set of coils receives alternating or vibratory current from a suitable source, and the other coils are connected to a telephone.

The balance is first established so that no sound is heard in the telephone. When the device comes near the metal piping, this disturbs the balance and a sound is heard. It is thus an easy matter to find the exact position of the pipes and to reach them with less damage to the wall.

Queer Sights on Cars.
 You see some queer sights on the street cars here, writes a New York correspondent. Today a well-dressed woman boarded a Madison avenue car, carrying a peculiar looking square tin box suspended from a leather handle. Just as she sat down the car gave a jolt—the lid flew off the tin box and out shot a streak of blurred gray and brown fur. "Rats," called a cheerful man. A dozen shrieks pierced the air and 24 pairs of the latest style shoes clambered up on the seats. But it wasn't a rat after all—it was a squirrel. He went tearing down the car, scurried up the new spring suit of a woman in the corner and made the return trip over the hats of the astonished passengers. Then he disappeared. Finally a small boy crawled under the seat and restored the squirrel to its owner. "My baby! My baby!" cried the owner of the tin box as she kissed her pet ecstatically. The car stopped at Forty-third street. A woman stood grasping the rail—her foot on the lower step. "Is this the regular Madison avenue car?" she asked anxiously. "No," said the conductor scornfully. "It's the nut special—get right on!"

Spoonfuls or Spoons Full.
 Certain purists have risen in protest against "Three Spoonfuls." They maintain that the Criterion poster should announce "Three Spoons Full." The male partner in the writing of the play always took this latter view. But the advertisement side doubtless saw the possibilities of a strictly grammatical quarrel. All the same it might have done even better with "Three Spoons Full," as arousing the furious comment of the amateur pedant.

The doctor orders us "three spoonfuls," but he does not mean that we should employ three spoons in the simple measurement. You may employ twenty if it does not occur to you that one is enough. And as the more logical lady of the Criterion plays hints, if I say I've had only three mouthfuls for a scrappy dinner I do not imply that I had three mouthfuls—of my own or of others.

Year's Sleep in Prison.
 A remarkable case of lethargy is reported from one of the towns in South Russia. A certain Moisselynko was put on his trial in March of last year on the charge of having committed an armed robbery, but in the midst of the proceedings he dropped to the floor in what was supposed at the time to be a fainting fit, but which afterward proved a lethargic sleep.

In this condition the prisoner has lain till March 8 of the present year. He has evidently been all the time in complete possession of his wits, but was unable to move a limb, open his eyes or take food. When his eyelids were raised the pupils could be seen, and he was all the time fed by artificial means.

During his sleep he has lost some weight, but he has kept throughout the external appearance of a man in normal and healthy sleep.

NOTICE OF FORECLOSURE SALE.

BEST LITERATURE IS SIMPLE
 Should Give Beautiful Expressions to Thoughts Entertained by Plain People.

There is no higher achievement in literature than to delight plain people with beautiful expression of thoughts which they themselves have already entertained but could not express, says the Minneapolis Journal. For there are no men or women so rude, so illiterate or so depraved that fine thoughts and imagings do not intrude upon them betimes. To seize and utilize these flashes of divine ideas is beyond the ability of the groundling, and so it becomes the business of the gifted to give them utterance and perpetuity. So that, in the end, the best function of literature is to immortalize the thoughts, aspirations and beliefs of ordinary people so that they may gain faith in themselves having something to cling to and being sure that their best impulses have the endorsement of the nurtured minds of their day. And it is for this reason that the best literature is that which is distinguished by simplicity, sincerity and that plainness which—above all other qualities—is commendable in preservative art. Books do not contain anything so precious as the songs of the people, for no matter how unlettered they seem they are vital and vocal of the yearning of human hearts, and no amount of criticism or rhetorical analysis can rob them of their essential value.

Pronunciation of "Newfoundland."
 The noun "Newfoundland" is pronounced "Nu-fund-land," with the accent on the first and last syllables. To quote Lippincott's Gazetteer: "This word is universally pronounced by the inhabitants with the accent on the first and last syllables. When, however, it is used as an adjective, as in the phrase "a Newfoundland dog," euphony requires that the accent should be placed on the penultima. The same rule seems to hold with respect to some other names: Leghorn and Cashmere, as nouns, are usually accented on the last syllable, but as adjectives almost invariably on the first." It is, no doubt, this distinction in accenting the word, by its two usages, which has led to the suspicion of a change in the standard of pronunciation.

Senior Among Nations.
 Italy may fairly claim to be senior among the nations of Europe, so far as its name is concerned. The peninsula has been "Italia" almost as far back as even legend reaches. According to Mommsen the "Itali" proper were the inhabitants of the southern part of the country. As to the origin of the name, there is the normal legend of a King Italus; but his name must have been pronounced Vitulus or Vitulus, which means a bull-calf, and it is easy to recognize in it an allusion to Italy as the land of cattle.

Two Favorite Shotguns and the Steel Lined "Speed Shells"

"Dope" on shooting is plentiful. And shooters know where the right dope comes from—and that it leads straight to Remington-UMC.

The Remington-UMC Pump Gun and Autoloading Gun—these are the shotguns of today. Adopted everywhere, for use in the field and over the traps—shot by more of the men who are setting the pace in the sport than any other make of guns in the world.

In the matter of Shells—where is the sportsman who does not know the Remington-UMC "Speed Shells," Steel Lined—all the drive of the powder kept back of the shot, and showing results that flatter any make of gun?

For the right dope—see the Remington-UMC Dealer. He displays the Red Ball Mark of Remington-UMC—the sign of his store is Sportsmen's Headquarters of the town.

NOTICE OF SUIT.

No. 1145
In the District Court of Roosevelt county New Mexico.
P. N. Valliant, Plaintiff.

vs.
S. A. Tipton, Belle Souther, Emma Hall, Frankie Tipton, Edward Tipton, Vera Tipton, Howell Carr, Ida E. Dyer and all unknown claimants of interest in the premises adverse to Plaintiff, Defendants.

The defendants, S. A. Tipton, Frankie Tipton, Howell Carr, Ida E. Dyer and all unknown claimants of interest in the premises adverse to Plaintiff, hereby notified that suit to quiet title to Block No. (7), in the Bogard, addition to the town of Portales, Roosevelt county, New Mexico, and to establish a lost or destroyed deed dated the 14th day of June, A. D. 1908 signed, acknowledged and delivered by P. S. Tipton and S. A. Tipton, his wife, to Mrs. Blanche Goodloe and her husband, J. Bush Goodloe, has been commenced against them in the District Court of Roosevelt county, New Mexico, by said plaintiff.

Said plaintiff charges in his complaint that he is the owner of the fee simple title to said above described land and that same is evidenced by a certain deed executed and delivered to this plaintiff by one J. C. Courney, and dated the 12th day June 1915, a copy of which deed is attached to the complaint in this action.

Plaintiff further charges that defendants make some claim to said premises adverse to the estate of the plaintiff, and he prays that the plaintiff's title and estate in said described premises and that said deed be established, and plaintiff's title be established against any adverse claim of the defendants be barred and forever stopped from having or claiming any right or title to said premises, and that plaintiff's title be forever quieted and confirmed and set at rest.

Said defendants are further notified that unless they enter their appearance in said suit on or before the 10th day of January, A. D. 1916, the plaintiff will apply to the Court for the relief demanded in his complaint and judgment will be rendered against them by default.

Plaintiff's attorneys are Compton and Compton and their business address is Portales, New Mexico.

Witness the hand and seal of the clerk of said Court this 9th day of November, A. D. 1915. J. W. Ballow, clerk.

"Dress Up Boys!"

SCHLOSS BALTIMORE CLOTHES

Why? Because Mr. Prosperity is coming. **Dress Up!**

Look prosperous and Prosperity will knock at your front door. **Dress Up!**

When President Wilson about a year ago remarked that such business depression as existed was largely due to psychological causes, he meant that the fear of hard times was the main factor in causing hard times.

Today we face a situation far different than that of last August. Business has passed through the "fear" period; lived through it; economized; discounted the worst; seen that the "fear" boogie was mostly imaginary; and now—

Now we see a great tide of Prosperity sweeping strongly and surely upon us. Each week ends with more millions of dollars to our credit in the balance of international trade. Billions of bushels of grain ripening into more dollars which will be spent to **Dress Up**. Two Billions of dollars in Gold suffocating to get into many times this amount of credit to buy things,—fairly bursting its sacks for opportunity to earn its interest in any enterprise.

All this money is seeking business; it must come into circulation to pay its way. And that means business, big business Prosperity, activity in every line. It means busy factories, new industries, busy trade, big prices for farm products; everybody prosperous.

"Prosperity" is not a prediction; it is a present fact right now. Don't be afraid to recognize it when you meet it face to face. What this country needs is One Hundred Million People Unafraid, who can understand the facts, and **Dress Up** to meet Prosperity.

Start something! **Dress Up** and every neighbor in your vicinity will follow suit.

The year old policy of retrenchment is no longer wise. Take that cash you have hidden in a stocking and **Dress Up** to hasten the new Prosperity which is coming faster every day. Be patriotic; look prosperous; talk Prosperity; help the good cause along. It's coming anyway; but you can make others realize its here!

Look Up! Cheer Up! Dress Up!
