PORTALES, NEW MEXICO, THURSDAY JANUARY 20, 1916.

Number 5

Girls Win, Boys Lose.

The two basket ball teams that left Saturday for Tucumcari arrived home in sections Sunday and Monday. The girls came in Sunday afternoon and though the day was very stormy and snowing, made the trip through in good shape. The boys arrived home Monday afternoon and were about all in on arrival. They had a Jonah day on Sunday and made about eight miles from Sunday noon to Sunday night. Tire trouble was theirs and patching tires in snow storms with the temperature about so many above is a great pleasure, we don't think. The boys had the same luck at playing basket ball that they had automobiling and were beaten about forty to twenty-five while the girls played a fine game and won from the Tucumcari girls who claimed the state championship, by a score of about forty-one to twenty-nine. Nola Keen, and Dora Smith seemed to be the favorites of the evening and both did some extraordinarily good playing, Nola especially being able to make a goal practically every time she got the ball in her hands.

Odd Fellows' Installation.

The Odd Fellows at their regular meeting Tuesday night installed the following elective and appointive officers for the ensuing year: Walter Crow N. G.; C. W. Carroll, V. G.; Cleve Compton, Secretary; R. M. Sanders, Treasurer; J. W. Ballow, Chap. J. S. Sanders, W. J. N. McCall, C. Burl Johnson, E. S. S. S. E. Moore, L. S. C. V. Harris, R. S. R. S. Adams, L. S. C. M. Compton, Jr. R. S. W. H. Hopkins, L. S. M. P. Jones, I. G. C. M. Dobbs, O. G. The lodge now has 58 members and is one of the strongest in the state.

Crimm To Marry.

Evangelist B. B. Crimm, left Monday for Tucumcari where it is reported he goes to be married. Mr. Cumby remained in Portales and will be here until the latter part of this week or the first part of next when upon Crimm's return they will travel together in their cars to Santa Rosa, where their next meeting will begin. The Herald-Times extends congratulations to the Preacher and his bride.

Cremery Officers Elected.

At a regular meeting of the Roosevelt County Cremery stock holders held at the courthouse Tuesday the following officers were elected for the ensuing year: J. P. Deen, president; Ben Smith, secretary; A. A. Rogers, G. W. Carr, Henry Katchel, F. D. Galloway, Directors. As a whole the stockholders seem to be satisfied with the present management and conditions of the cremery is looking forward to a heavy run as soon as spring opens up.

Addition To Parsonage.

Work began last week on the addition that is being made to the Baptist parsonage, but little headway has been made on account of the weather for the past few days. This addition when completed will give to Portales two of the neatest parsonages to be found in any town this size and both the Methodists and Baptists should be proud of their preacher's homes.

New Classes In School.

Monday was the beginning of the second semester or half of the school year of the Portales schools and several new classes were opened for the ensuing half year's work. Classes in chemistry, physiology, agriculture, domestic science and civics were opened and many pupils are taking advantage of these courses.

Fords Move Around.

Ben Smith this week sold his Ford, to Jack Wilcoxen, Mr. Wilcoxen having traded his to some other party.

Call for Democratic Committee.

A call has been issued by T. J. Guilfoil, secretary of the Democratic central committee, for a meeting to be held in Santa Fe on Friday, February 4, at 2:30 p. m. for purpose of selecting a state chairman to fill the vacancy caused by the resignation of J. H. Paxton and to take up any other business that may come before the meeting.

All active and ex-officio members of the state central committee, the executive committee, the chairman and officers of county and city Democratic organizations are urged to attend.

Dreams Never Win.

The Democrats of New Mexico have a fine chance to place the party in full control of affairs at the coming election—if they will secure party managers who know something about the state, and its politics; who have some understanding of organization—and who are willing to work. Dreams and conversation never yet won an election, and we are sure that it will not win this one.

Snow Over the County.

Probably the heaviest snow that has fallen in the county fell Sunday and Sunday night. Some where in the neighborhood of two inches. The temperature also fell with the snow and many water pipes, etc., are bursted for the first time this winter. The snow was general and from a. reports reached over all eastern New Mexico. It has put a great deal of moisture into the ground and will start next spring's work as soon as it warms up.

Readjustment of Rates.

The State Corporation Commission has under consideration the question of readjustment of class rates locally within the State of New Mexico, and it has been decided to arrange for conferences at several points for the purpose of discussing the situation with jobbers, dealers and others interested and have arranged for dates at Clovis, Tuesday, Feb. 1st and Roswell, Wednesday and Thursday, Feb. 2nd and 3rd.

Likes Roosevelt County, N. M.

Roy Smith, of Des Moines, Ia. came in Saturday to look after his land holdings in the county. He lived near Inez, New Mexico for about four years and he says, "Once a person lives in this climate he never can get away from the witching effect." He is a constant booster for Roosevelt county and the Portales Herald-Times, and is contemplating moving back and buying more land.

General Huerta Dead.

General Huerta passed away in El Paso Friday night. He has been termed the iron man of Mexico and has figured prominently in the Mexican war, and his death will end the United States charges against him of conspiracy to foment a revolution in neutral territory against a government with which the United States was at peace.

Methodist Church.

We will hold our regular services at the Methodist church Sunday. Rev. S. E. Allison, P. E., preached a real helpful sermon last Sunday at 11 o'clock. At the close of the service we received eleven into the church. Our Second Quarterly conference was held at 3 o'clock in the afternoon. There was a very good representation present and we had an interesting session. Come worship with us next Sunday. A. C. Bell.

Republican Newspaper.

It is rumored that Portales will soon have a Republican Newspaper, edited by our esteemed citizen, W. H. Ball, who purchased the plant of the Valley News at the foreclosure sale some ten days ago.

Chop Teacher's Salaries.

The proceedings of the Commissioners Tuesday night to be in next week's paper will show very plainly what has happened to the "school marm's" of Roosevelt county. After studying the situation from every angle the decision was reached to have nearly as possible a uniform salary over the county for teachers and this was set as \$70 for first grade \$60 for second grade and \$50 for third grade certificate teachers. Some few were given \$5.00 more and some the same amount less where for various reasons it seemed best. The applications of the school trustees of the county were gone over and out down. In this way what seemed at first to be a \$15,000 deficit turned out to be probably \$6,000 or \$7,000. This deficit will not be felt until about the second month of next year and there will be plenty of money to run this year's schools. All schools except some graded and municipal schools will run only seven months.

Allies Well Fortified.

There are at least 10,000 miles of trenches now in the western theater of the European war. In one section of the French lines there are already on a front of over ten miles, 234 miles of trench as. To make certainty still more sure 46 miles of other trenches are being dug, so that by the end of the year there will be in that neighborhood 280 miles of front. Other French and British divisions are similarly entrenched.

Taking these figures into consideration, it is estimated that there are at least 20 miles of trenches to every mile of front between Switzerland and the North sea, making a total of 10,000 miles.

To Make Invasion Impossible.

The present European conflict is going to render future wars impossible, in the opinion of the British correspondent. The new triple trench defenses, he asserts, will make it impossible for an invading army to make any progress. The result of the war will be that each European nation will have trenches all around its island borders and one nation cannot penetrate another.

Mr. Ashmead-Bartlett declares that before leaving Europe he learned that Germany had lost 70 submarines in her campaigns in the North sea and in the Mediterranean.

New York is Largest City.

New York is now the largest city in the world. London by reason of losses occasioned by war and because of a gigantic mistake in estimating population, is forced to admit that the American metropolis is bigger by about 250,000. The exact number of people in London, according to 1911 figures, is 4,521,358, whereas New York city in 1910 numbered 4,766,883.

Counting "extra London," that is London outside the county, the population of the erstwhile metropolis of the world was 7,251,358. Greater New York, including West Chester and the New Jersey suburbs, was, at last census, 7,358,871.

Jack Johnson Boosts Recruiting.

It is reported that Jack Johnson, former heavyweight boxing champion of the world, has been helping the British secure recruits for the war. Recently, in Glasgow, Scotland, he is said to have stood in a public square and made a recruiting speech. In a short time big crowds surrounded him, a number of whom enlisted for military service.

Travelers' Inn Changes.

Mrs. Jett Hunter and her sister, Miss Webb, of Bangerlake, took charge of the Travelers' Inn Monday and will run a first class hotel. Mr. Siegner and family have moved to the south part of town and will remain in Portales.

Elida Mission Society.

The ladies of the Mission Society entertained their husbands last Thursday evening at the home of Mr. and Mrs. Lum Asker. It was a real square meal they served. About seven the serving began and the gentlemen were invited to come out to the dining room, seat themselves and lean over to a laden table. Everything choice that was in their reach had been placed there, fruit salads, turkey and "meat" dressing and cranberries, and cake, etc. There were present about sixty-five and all were fed to a full capacity and there was gathered up of that remained over twelve baskets full.

After the dinner was over there was a program of an impromptu nature. Music was furnished by Mrs. A. G. Eisenberg, Mrs. Fletcher Graham, and Mrs. J. W. Hendrix. C. A. Coffey was master of ceremonies and Revs. S. E. Allison and J. W. Hendrix gave short talks. All reported a good time.

Plains Grow Wheat.

The Denver Field and Farm says: Some day in the near future our high plains region will grow a variety of wheat so drought resistant that it will flourish in a country of less than six inches of rainfall. If such a prophecy comes true, it means the reclamation of this great plains region from Mexico into Canada and the pouring of untold millions of bushels of wheat into the granaries of the world.

Pecos Hay Bought by England.

Practically all the hay crop in the Pecos valley is now being moved from stacks and storage barns. The stuff is going to Cleveland, where it is understood it is being shipped to the English and their allies. The order for the hay requires that it leave Roswell by January 15, and \$12 a ton is being paid.

The womens' Club will meet with Mrs. C. B. Thompson, Wednesday, January 26th, at 2:30. PROGRAM—The Nature of the Short Story. Mrs. E. E. Hoagland Music—"Gondolied" Mrs. S. J. Nixon. Education, Elumosity Institutions. Miss Sallie Bryant, Pres. Miss Sallie Bryant, Pres.

A. E. James Here.

A. E. James, a director of the State Taxpayers association with headquarters at Santa Fe was in Portales Tuesday helping the county commissioners straighten out the deficit in the school applications over the county. His services were much appreciated and have probably placed the school finances in such shape that they will be able to finish out a good year's record.

School Good At Rogers.

W. W. Vanwinkle, Ezera Watson and Milt Powell were Portales visitors in attendance at the cremery meeting. They report the school in their community in fine shape and the best attendance ever.

Recent Marriages.

Herschel V. Ball and Miss Ora Self of Elida and Elba Deane Wright and Lula Mae Adams of La Lande were those to whom marriage certificates have been issued in the past week. The Herald-Times extend congratulations.

Games and fortune telling passed the time away until about six o'clock when a lunch was served. Those present were Mesdames Timmons, Rogers, Waggoner, Skelton, Neer, Bryant, Reynolds and Roy Connally, Misses Carter, McMinn, Smith, Wilson, Humphrey and Thompson.

Ready To Begin Listing.

W. F. Brown Buys Tract.

W. F. Brown this week bought from Joe Howard a five acre tract in the north part of town and will as soon as his four room house is completed, start a model chicken ranch. Mr. Brown sold his home place in east Portales to Mr. Howard.

Baptist Notes.

The Crimm and Cumbie meeting has passed into history. Some of the sermons were masterpieces. Mr. Cumbie rendered some beautiful solos. No one is able to judge what good may have been accomplished in the meeting. God takes care of results. May the great Head of the church add His blessings.

The subject for next Sunday will be "The Relation of the Shepherd and the Flock."

B. Y. P. U. will be conducted in the reception room of the parsonage, providing the work on the house is completed, at 6 o'clock.

Subject for the night services, "The Trial of Jesus." The closing sermons of the Life of Jesus ought to be the most interesting. It is the desire of the pastor that all the members of the church be present at the morning service. All friends and well wishers of the church are cordially invited to be present.

W. E. Dawn, Pastor.

Sheriff Offers Reward.

The following reward has been posted in conspicuous places over town and elsewhere: Will pay \$50.00 reward for the apprehension and conviction, or for sufficient information leading to the arrest and conviction of any person guilty of the unlawful sale of intoxicating liquor within the limits of Roosevelt county, New Mexico. Geo. C. Deen, Sheriff, Roosevelt County.

F. E. Wilson returned Tuesday from Carlsbad and other valley points on business matters.

Carl Johnson Improving.

Carl Johnson gave our reporter a spin to the Johnson Bros. Farm some seven miles west of town Tuesday evening and even though the reporter got a square meal once more he was able to tell us of the many good things of the Johnson farm.

First among the things that he told of was a new home just finished by Bramlett and Watson and probably the finest country home in the county. It is a modern seven room bungalow with bath, running water in the house built-in kitchen cabinets, numerous closets and a swell built-in chiffonier. This last piece of furniture was an idea of Mrs. Johnson and adds many dollars value to the new home. The floors are finished beautifully in oil and nowhere in or out of town will anyone find a neater or more comfortable home.

After a trip through the house Carl took him out to give his new barn the "once over." Speaking of barns, our reporter says this one is a record breaker for the Portales Valley. It is sixty by fifty-two feet and with a loft sixty by thirty-two feet. The loft will hold approximately one hundred tons of that fine alfalfa Carl raises and beneath there is room for twelve or fifteen horses and stanchions with cement floors for fourteen Jersey cows. Besides there is plenty of room for all kinds of machinery and for more stock in the center.

Back of this barn was found a monster silo that did service last year and again at work this year not only supplying the twenty milk cows, but furnishes feed for calves, colts, work horses and some fifteen head of white faces belonging to Mayor Hawkins. Besides this feed there was tons of alfalfa, maize and corn.

From here a monster tank was seen that is supplied by three windmills and is stocked with fish. Bank house, milk house and etc. were seen between there and a cellar, better known as a dug-out, and which was filled with hundreds of fruit jars of fruits, preserves and vegetables. Sugar cured meat was also plentiful from home raised hogs.

Now when a man can show you all these things and tell you that he is actually making a living and some money it seems to us that it ought to convert non-believers even to Portales Valley farms. This is only a beginning for good homes and barns in the Valley and another two years will see many of this class of farms.

A. A. Jones In Line.

With Secretary Lane on the bench, place Hon. A. A. Jones, in line for the succession. With a man from New Mexico in the cabinet, confer much honor upon the state. The President has given a number of important places in the government, to eminently qualified citizens, testifying to their capability. All of which places an obligation upon the voter for the honor conferred. But the President's peace policy will win him more favor than all else, and assure him a renomination, which is equivalent to an election, at least in his case.

Wheels Go Around.

There is always something about an electric light meter which is difficult for the average person to understand. We house-holders, who look at the "wheels going around" and see nothing in them but half a week's salary at the end of the month and went to glance, with considerable awe, at the gentleman who talks in kilowatts and really seems to know what he means.

A. U. Kearns was in Fort Sumner this week getting a record of the proofs made, subject to taxation for the year 1916.

County Commissioner Ed Johnson, accompanied by his wife and L. E. Forbes came up Tuesday to transact business pertaining to the county and also the cremery.

Range Cattle in N. M.
Raising and handling cattle on the range and in pastures in New Mexico is being done differently than formerly and the change will be still greater in the next year or two. Cattle raising is being placed on a business basis. Among the changes now opening into use may be noted the segregation of the steers and cows and heifers.

In the words of a leading stock man of New Mexico, "I have learned by experience that it pays to segregate my cattle keeping all the steers in a pasture by themselves and the cows and heifers in another pasture. In handling them in this way I find less disturbance and better results generally."

"I have also discovered," he continues, "that we must dehorn our cattle if we expect to receive the highest price for them. We use registered bulls and select the very best cows, letting the off-colors and poor kinds go. When our calves are about ten months old we dehorn all of them. At that age the horns is just starting and its removal does not cause any harm and does not disfigure the shape of the head as in the case when an animal reaches an advanced age. These changes from the old ways of handling our cattle bring their reward."

The winter care of live stock on the ranges and in the pasture is another change that has come just recently. The spread of agriculture out over what was for long time considered exclusive grazing areas has helped to bring the change to winter feeding. Last season proved conclusively that the stockmen who fed their cattle and sheep through the winter on cake or farm feed, last winter, lost no stock and that when spring came their cows and ewes brought a larger and better increase.

A. M. Hovey.

A Tax or a Raise in Price

A short time ago users of gasoline protested hotly against the suggestion of the president that the stuff be taxed one cent a gallon. Since then the Standard Oil people have advanced the price some twelve cents per gallon, and not half as much is said about it as the one cent proposition called out. At least it is not said in public. Apparently it makes a difference whether a thing is just a tax or just a raise in price.—Carlsbad Argus.

Dry.

Few persons who are not close readers of the daily papers realize the wonderful growth of prohibition in this country in late years. On the first of January of this year, seven additional states "went dry" by vote of their residents and South Carolina, Idaho, Arkansas, Iowa, Oregon, Washington and Colorado are now closed against the sale of liquor. West Virginia has also been voted "dry" and will begin accumulating dust November first, next.

Town Moved When Its Bonds Came Due.

Ulysses, Kan.,—has been wild and extravagant in her civic pride. She voted bonds which could not be paid when they became due, and her debts were greater than the assessed value of the town. One day a block of bonds fell due. The town couldn't pay, so it decided to move. The houses and store buildings were placed on wheels and moved a distance of several miles. The new town site was named New Ulysses.

E U Willing to Help.

Co-operation is one of the most prominent constitutions in the alloy on which is based the building of a great city anywhere. It is as essential in Portales as in any other town and, at times, has been sadly lacking in this community.

Want of co-operation is sometimes occasioned by a lack of complete knowledge of the subject matter under consideration. Opinions, easily formed from hearsay evidence, could often be corrected by the injection of a little accurate testimony into a prejudiced mind. "Getting together" is one of the most potent factors in moulding general opinion.

The city of Minneapolis faced, some years ago, just the same conditions which have hindered the growth of thousands of other municipalities before and since. There was no public forum for the discussion of civic matters and, as a result, each man thought for himself and concerted action was almost impossible. A few prominent men of that city, however, decided to provide for a daily "get together" session of the men who "did things;" they organized a club where the business men lunched and where they could discuss plans for civic improvement.

Minneapolis has literally raised itself by its own boot straps as a result of that club. More big things have been done by that organization than by the rest of the city in its entire previous history. The city is "run" by the club and the race is swift.

Why can't Portales people get together and all pull together for our own welfare at the same time and the same direction? We have plenty of business men with the ability to do things and all that is lacking is organization. Had it not been for the organization we would have failed to get the Roosevelt County Creamery and ice plant built, and by organization we could get many other needed enterprises.

Hard Milkers Made Easy.

I have found that hard-milking cows will influence this quality in their daughters. Here is the way, however, to overcome defect without danger to the cows.

Take a quill from a small breed of chickens. Sterilize by boiling thoroughly. Dip the quill in pure carbolic vaseline. Then carefully insert the quill in the teat orifice and leave until the next milking. The quill should be inserted about an inch and an equal length left outside with which to pull it out easily. It is seldom necessary to use the quill again.

Another serious trouble is "spider teat" My treatment for spider teat is to make a mixture of one teaspoonful of carbolic acid and 2 teaspoonfuls of olive oil. When the first spattering is noticed, apply spirits of camphor liberally to the end of the affected teat. Then apply the carbolic acid olive oil mixture, after shaking to the end of the teat between milkings, making sure to soak the teat well in the carbolic oil each time.—Farm and Fireside.

Householders At Farmer's Conference.

The interest which the housewives are taking in household economics is demonstrated by the large number that have been attending the lectures and demonstrations during the Farmers' Week. Over seventy-five women have registered so far, which is a much larger number than was registered last year. Many helpful ideas and new scientific methods are being presented which can be put into practice in the homes.

U. S. An Old Nation.

The United States of America is one of the oldest nations on earth. With the exception of England and Russia it is, as a present nation, older than any country in Europe. And alone in the Western world, it has stood for the past 125 years with an unchanged government. Its bound-
