### Mrs. Lindsey Entertains.

One of the most enjoyable affairs of the winter was the five course Suffrage Luncheon given at the home of Judge and Mrs. Lindsey at one o'clock, Feb 28. Motherhood and Preparedness were the two chief topics discussed and showed much interest and thought given to them by the ladies led by Mesdames Oldham and Nixon.

Much credit is due Mrs. Lindsey for such an occasion where the ladies could meet and discuss the issues of the day and enjoy the delicious cooking of a Suffrage lady.

The following were present:— Mesdames Oldham, Wollard, Dunaway, Hardy, Culberson, Rogers, Merrill, Puckett, Leach, Thompson, Lemmons, Carr, Nixon, Beaver, Culberson, Seay, Hough, M. Jones, Lindsey.

### A Cozy Corner.

There is one little cozy corner in the town that a great many people do not know anything about and we want them to know as it is worth while. The Womens Club has one of the neatest and cosiest little libraries that might be found anywhere in the balcony of the Joyce-Pruitt dry goods department. Comfortable rockers, writing tables and book cases adorn the railed in space. The three book cases are full of the best books obtainable and some twenty or thirty have recently been added. This library is open to people not members of the club who pay a nominal fee and if you enjoy good reading you had better see the librarian or member of the club and find out the particulars.

### In Honor of Mrs. C. S. Hart

A very happy and pleasing luncheon was given by Mrs. Carr at her beautiful home on last Friday. Mrs. Hart was the guest of honor as well as Mrs. Carr's sister, Mrs. Mock, of Hereford, Texas.

Covers were laid for the following ladies, Mesdames Hart, Mock, Mears, H. F. Jones, Jordan and Lindsey.

Blue was the prevailing color scheme and included the beautiful doily set in blue made by the hostess in spare moments during the last three years.

Mrs. Hart is soon to remove to Clovis, and while her stay in Portales has been short, she will be greatly missed by a host of friends.

### Tucumcari Coming.

The Tucumcari High school basketball teams, both boys and girls will be in Portales and play two games Thursday night of next week. Don't forget this date and come out and help the high school. They need your help to bring this team such a long distance and can assure you of a game worth the money.

### Washington Birthday Picnic.

C. M. Dobbs and wife and J. H. Sandefer and wife were the guests of the Portales Springs people last Washington's birthday. This birthday was fittingly celebrated at the Portales Springs school taught by Miss Marguerite Patterson and Messrs. Sandefer have nothing but praise to offer for the hospitality shown them. All of the patrons of the community quit work for one day and made this a real holiday. A varied program was rendered before and afternoon by school children and all who were present state that it was one of the best ever held anywhere but to cap the climax a grand debate between scholars of the school was held and the old folks say that the youngsters taught things about the subject that they had never known. The subject debated was, resolved, that Washington was a better president than Lincoln. Miss Ellen Turner was leader for the affirmative and S. A. Crabb's daughter leader for the negative. Get-together meets like this are beneficial for both parents and the children and we would be glad to hear of more of them over the county.

### Yoschum Prosperous.

Bob Yoschum, one of the well known and liked citizens of the Dora community shows what Roosevelt county is doing for him. This past week Bob invested some of his money from this year's crop in a Ford car and a pair of good mules. One of the mules was as large as any ever seen in the county possibly and though only a coming four year old weighed thirteen hundred pounds on the scales Saturday. The two mules are native products and were raised by J. W. Battenfield, east of town.

### C. S. Hart To Move.

Charles S. Hart, one of the old timers and land marks of the town and county will move to Clovis about the middle of this month. It is understood that Mr. Hart is becoming interested in a new bank that is being organized in Clovis and that he has bought the B. D. Oldham residence there. Portales will be sorry to lose Mr. Hart and his family.

### Report Card Week.

This week is report card week at the school building and we wish to call attention of parents to this matter. Look over your child's report card and if he or she has not made the right kind of grades for the past month look into the matter and find out why. If it is the teacher's fault go and talk to the teacher about the matter, if it is the child's fault, get in behind the youngster and say "Go to work," and then make what you say stick. If it is your fault then be doubly sure that you wake up and get on the right foot about the matter. Remember this parents, when you let your boy or girl go away from home every night or so in the week and do not force them to study, you are doing more harm to the child than the teacher can possibly do good during that week. You get tired and angry trying to take care of one or two and do it right, so don't blame the teacher so strong if your boy or girl brings in bad reports but think that this same teacher has from forty to sixty to take care of and try to teach. The parent can either be a great help or hindrance in the school work and if you're not doing what you can to make your child study don't throw all the blame on the teacher. Every child gets a report card. Insist that you see your child's.

### Dobbs Decorating.

C. M. Dobbs the old reliable confectionery, drink and newspaper man is this week having some parts of his store remodeled and he is having special work done on his old tobacco case, placing glass doors in it and getting ready to put in one of the most extensive lines of chewing and smoking tobacco in the city. Mr. Dobbs has also just finished painting the inside of his ice cream factory. It is painted white and Mr. Dobbs says that his cream will now as before, be noted for it's purity.

### K. P. Get Robes.

One of the most beautiful and expensive set of lodge robes that have ever come to Portales arrived the first of this week for the Knights of Pythias lodge. This is one of the liveliest lodges of the state and attracting attention in various national lodge journals. Putting in this new set of robes is only one of the things this live body of men are doing and Portales is much bettered by such fraternal orders.

### Mays Feeds Bulls.

Guy Mays, the feed buyer, at the old Servis yard has purchased fifty-three head of bulls from the Keen ranch and is feeding some of the grain that he is buying to these animals. He believes that there is as much or more money to be made by feeding his grain as by shipping it. He is feeding this stuff in the old yard where his warehouse is located.

### Baptist Notes.

Last Sunday was red letter day at the Baptist church. Full Sunday school and good congregation in the preaching service. Two fine young people were received into the membership. The B. Y. P. U. was very good. Glad to enroll a new member. We will have our regular morning service next Sunday. All the members and friends are requested to be present in the morning.

Owing to the revival meeting at the Methodist church we will call in the night service. We trust that the members of our church will do all they can to help have a great meeting. We all know Bro. McIntosh and learned to love him when he was here before. Lets make it a great meeting.

W. E. Dawn, Pastor.

### Methodist Church.

After several days of anxious waiting, Bro. McIntosh, his splendid wife and Ed Phillips, the singer, have arrived. Let all of the christian people co-operate in the meeting. God will surely give us the victory with these splendid workers to help. We have no better in the field.

We had great congregations at our church last Sunday and fine attention. All seemed to be expecting a great revival.

Richard says that things look fine down in his part of the county and that it will take two lists for them to get in the big crop that they intend planting this year.

### John Tyson In Town.

John Tyson, the would-be commissioner from precinct three was a visitor from Taiban the latter part of this week. A good many Portales people seem to think that John is about the liveliest candidate out so far as good stories and sociability are concerned and are glad to have him drop around just any old time.

### Small Pox at Clovis.

Between thirty and forty cases of small pox have been reported at Clovis during the past week. The public schools have closed it is understood and there has been some talk of even quarantining the city but thanks to the method of handling the cases it is not believed that this step will be necessary.

The grain dealers are this week walking around with a long drawn face. The grain market is off and their prices here have dropped accordingly. Maize was worth seventy cents the first of the week and the first drop was to sixty-four. It is expected to drop lower. No reason is assigned except a glutted market over the United States.

Reynolds was the owner and now becomes owner of the Jones' property in town. We understand that Mr. Jones is not figuring on making any move until fall and he says that farming is out of his line and Mrs. Jones will be the farmer. Bascom Howard made the deal.

### Movies at Elida.

A great many people do not know that Elida has one of the best picture shows in the country but nevertheless such is the case Louie Kirby has opened up the "Dixie" and has satisfied good houses for the past few weeks. He runs on Tuesday and Saturday nights and gives good shows from all reports.

### Basket Ball Game Success.

The basket ball game held at the Armory last Friday night between the two literary societies of the high school was a decided success. The Germans, though having a weaker team of both boys and girls, came out victorious. The Allies ate that hard luck was with them and that the next game will tell the tale.

### It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

### The Brisk Smoke—"Bull" Durham

When you see an alert-looking young man in a lively argument roll a "Bull" Durham cigarette—it's the natural thing. He likes to punctuate a crisp sentence with a puff of "Bull". His mind responds to the freshness that's in the taste of "Bull". His senses are quickened by the unique aroma of "Bull". A cigarette of "Bull" Durham just fits in with keen thinking and forceful action.

GENUINE  
**"BULL" DURHAM**  
 SMOKING TOBACCO

You get more wholesome, lasting satisfaction out of "Bull" Durham than from any other tobacco ever rolled up into a cigarette.

Made of "bright" Virginia-North Carolina leaf, "Bull" Durham is rich, fragrant, mellow-sweet—the mildest, most enjoyable of smokes.

"Roll your own" with "Bull" and join the army of smokers who have found that so good a cigarette cannot be obtained in any other way.

**FREE** An illustrated booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

THE AMERICAN TOBACCO CO.

Even if you can't keep your money in your possession, at least keep it in this town.

There's a time for work and a time for play, but some people in this town forget to wind the clock.

Perseverance is an admirable trait, but without the safety valve of common sense it becomes a menace.

Now the brainless boobies are talking again about "corsets for men." Meaning, no doubt, the manless man.

Hang onto your pennies, boys. The growing scarcity of copper may some day put a premium on the little devils.

Nobody can claim with reason that the voters have no rights that ought to be respected by the bosses and the officeholders.

Ideas of November will teach some lessons to a certain class of politicians that have hazy notions about the rights of the people, and entertain exaggerated opinions about their own superiority.

It is all right to accuse congress of hunting for pork, but we don't know of a political district in this neck o' the woods that won't grab off all of the bacon it can get.

#### Acquaintance.

A small chamber of commerce in one of the inland cities has for its motto this little suggestion, "Get acquainted with your neighbor, you may like him." It is just an ordinary motto, conceived by some genius with a faculty for assembling phrases in effective manner but it contains more or less of value to the residents of other cities.

Cordiality and friendliness used to be more or less superficial; now are becoming daily more essential. Friendliness is an obligation; wide acquaintance is an aid and an asset and is one of the easiest things in the world to acquire.

#### Reduce Market Cost.

For the reason possibly that every other individual engaged in producing, transportation and selling farm products is afraid of offending the consumer, the one most responsible for the high cost of marketing, has not borne his share of the blame. While the producer is being censured for "poor packing," the transportation companies for neglect, the wholesaler, retailer and commission man for "extortion," the consumer has escaped responsibility, but he has been the most eloquent—some times perhaps more profane—in denouncing others for the high cost of living.

The facts are that the consumer himself is more at fault for our present system of waste in unnecessary expenses in marketing than any others. He has demanded unnecessary, expensive and wasteful service. He buys in small quantities, demands the best, calls for quick deliveries upon a moment's notice and has not always been fair in recognizing trademarks, guarantees and standard packs. He has often increased the expense of his dealer without due regard for economics and trade ethics.

#### 7,000 License Tags.

Receipts from 1916 motor vehicles licenses today reached a total that is within \$153 of the amount collected from motor vehicles in 1915, notwithstanding the fact that the total licenses issued is 545 less than the 1915 total of 5000. The increase in receipts is explained by the fact that a \$6.00 fee is this year being charged for all Ford licenses, while last year many Ford owners registered their cars as below 20 horse-power, and paid only \$4.00 for each license. A fee of \$6.00 is charged for licensing cars of from 20 to 30 horse-power.

Last year's total from motor vehicle licenses was \$29,624.89, and up to today \$29,471 had been received at the office of the secretary of state for 1916 licenses. Today's total of licenses issued is 4,445, against 5,000 issued last year. Additional license tags to the number of 2,000 have been ordered, making a total of 7,000 and it is believed that at least this number will be required to supply the demand. Assistant Secretary of State Adolph Hill is of the opinion that more than 8,000 motor vehicles will be licensed during the present year.

#### NOTICE TO TAXPAYERS.

Notice is hereby given to the taxpayers of Roosevelt county New Mexico, that any property not rendered on or before the last day of this month will be assessed with a penalty of twenty-five per cent for non-remittance as provided by law.

Respectfully yours,  
 J. E. McCALL,

#### Ransoming Girls From Turks.

The American committee for Armenian and Syrian relief in New York is engaged in the work of ransoming girls and women from the hands of Turks and Kurds, according to a statement issued by the committee. The Turkish officers, the statement says, will for so much money tell where the captive women can be found. Further payments will cause the captors to bring them to an appointed place.

#### Gunless Boat For Food.

Simon Lake, of Bridgeport, Conn., has produced an undersea cargo carrying boat, so unique that every claim asked was granted by the U. S. patent office without change. This boat is a submarine with two hulls, outside and inside, with no armament and is capable of carrying grains, foodstuffs or other material beneath a blockade and into a beleaguered port. One of the marked features of the new craft is the novel method of obtaining quick "trim" and fore and aft stability under varying loading conditions.

No navy is known today to

have such a vessel, although it is suspected that German cargo-carrying undersea boats have been utilized in this present war.

#### Condensed Milk to Europe.

American condensed milk is enjoying a vogue in Europe that it never knew before. During 1915 the exports amounted to 76,000,000 pounds, valued at \$6,000,000. In normal times the average has been a little over \$1,000,000 a year.

#### Roosevelt's First Grandchild.

Richmond, Va., Feb. 17.—A cablegram from Buenos Aires announces the birth of a son to Mr. and Mrs. Kermit Roosevelt. Mrs. Roosevelt was Miss Belle Willard of Richmond, daughter of the American ambassador at Madrid. Mrs. Roosevelt has been in Buenos Aires two months. This is Colonel Roosevelt's first grandchild.

He who tells the truth when he knows it, and anything when he doesn't, is sure to do more talking than is necessary, for the reason that man can talk too much even while confining himself to all the truth he knows.

#### Antisubmarine Torpedo Used From Aeroplane.

To enable an air craft to effectively attack an enemy submarine, a New Jersey inventor has developed a rather novel aerial torpedo which will explode at a predetermined depth beneath the water. It is slender and cylindrical in form, and provided with a sharp nose to insure its rapid and straight descent beneath the water after it has been dropped from a height. A picture in the March Popular Mechanics Magazine shows how the torpedo operates. The head of the bomb is filled with a high explosive, while in a compartment at the opposite end are batteries and a detonator. A light cable several yards in length, is attached to it and carries a pair of wires connected with the batteries. At the free end of the cable is a small parachute and immediately beneath it a contact device to which the wires leading from the batteries are attached. When this strikes the surface of the water it collapses, allowing two metal pieces to come together and close a circuit. This actuates the detonator and in turn causes the bomb to explode.

#### 700 Pound Maize Fed Hog.

Harry P. Whiteside of Quay, this week delivered a seven hundred and thirty pound native hog to the M. B. Goldenburg company. The animal was raised by Mr. Whiteside and had been fattened exclusively on maize. He thinks Eastern New Mexico affords fine opportunities for hog raising.—Tucuman Sun.

#### Lobby Fighting Parcel Post Bill.

The charge that "the greatest lobby ever known to the American people" is seeking to prevent the substitution of the space for the weight payment system in the railroad postal service, is made by congressman Moon, chairman of the House Post Office Committee. He said the real object of the opposition was to throttle the parcel post service in the interest of express companies, whose profits are shared equally by the companies and railroads.

The following gentlemen present their names as candidates for the office as indicated. Subject to the action of the Democratic primaries.

And what office do you want?

A funny man seldom sees any humor in his own product.

Just why is a mean man? But 'hen, only the mean man can tell.

Yep, election time is trotting right along. It will soon be on the gallop.

"Push and Go" is bully in a kid, provided it doesn't require a push to make him go.

Smile and the world giggles with you. Sowl and you are just grouch.

Speaking of the weather, my minds us that it continues to be just weather.

A wise man oftentimes changes his mind. The fool has no mind to change.

Cheer up! At worst this life is just one blissful dream of things we never get.

The editorial countenance is no indication of the spirit within. Even the wisest of men have resembled the fool.

Justice to National Guard.

Congress is definitely committed to the policy of preparedness against war, preparedness for a continuation of American peace and prosperity. That much is settled beyond a doubt.

The Continental Army scheme is dead. Peace to its ashes.

With regard to the land forces, there remains now but to increase the size of the regular army to reasonable proportions and to augment and develop the National Guard of the several states. They will constitute the "citizenry trained to arms" for which the president is contending.

Justice at last will be done to the National Guard, and in its new development will constitute an army upon which the nation may safely depend in time of distress. It has never failed yet to respond to the call of our country, and it never will.

From a reliable and trustworthy source, from one actively concerned in the framing and shaping of this legislation, the editor of this paper learns that the new plan will call for increasing the National Guard to approximately 500,000 men, apportioned among states according to population.

These troops will be armed and equipped in precisely the same manner as the regular army, will be subject to the same regulations and discipline, and will be educated in their duties under the tutelage of experienced officers of the army.

A pay bill on a graduated scale will be passed by congress which will give private soldiers approximately \$48 a year each for attending drills, with pay for officers in proportion to their grade.

In times of peace the Guard will remain under the control of governors of the several states but in time of war or in the event of a national need the president will have authority to order out troops of any state for service without the formality of calling for volunteers.

The development of the National Guard is probably the most practical and effective, and yet the least expensive, method that could be devised for supplying an army of adequate size and efficiency for defensive purposes, and the federalizing of the state troops will practically eliminate any hostility that may have been entertained toward them in certain quarters heretofore.

The National Guard of this state is made up of young men of a high order of intelligence whose patriotism has been tried and found true, and if the time ever comes when the nation needs their services the president may rest assured that the patriotism of this state will be second to none.

There is but one flag, and that flag is our flag!

People and Roads.

When a very amiable gentleman steps in his car or climbs into a buggy and takes a drive out into the country and gets stuck in the sand of a bad road he immediately calls down something besides blessings upon the heads of the people responsible for such conditions.

It never enters his head that perhaps he himself is one of those people. But he is.

He is one of them because he has not done his part toward compelling our officials to see that the roads are in proper condition. He has not raised his voice in behalf of better country roads, or if he has it has been so weak and half-hearted that it has neither been heard nor heeded.

It is the duty and should be the pleasure of every citizen to talk and work for better roads, for better roads mean more prosperous conditions generally. The man in town is just as much interested in the condition of roads as the farmer, for when roads are bad and the marketing of crops is difficult and expensive, the farmer is less prosperous, and this in turn is detrimental to the best interests of the man in town.

This is an era of road building and the time is opportune for us to rise to the occasion and look to the condition of our own roads.

We as a people are not paupers and there is no occasion for poor roads in this community. That such roads do exist is simply an evidence that we as citizens are not alive to our opportunities or duty and that so long as we sleep we may expect our officials to share our slumbers.

While we are simply joggling along others in other communities are building better roads and reaping the financial results.

Are we to be satisfied with be-

ing the tail of the cow? Boost for good roads and whoop up the boosting!

Greece Transfers Money.

The government of Greece has been transferring millions of dollars of its funds from London to New York bankers, who estimate that \$75,000,000 of Greek funds is now on deposit here. This action is regarded by bankers as a precautionary move in case of a break in the relations of Greek government with the entente allies.

A sleeping volcano never makes much smoke.

When a fellow can't attract attention any other way, he gets out in front of better people and makes a big noise, and the noise is about the only thing seen or heard.

I take this means of expressing my appreciation to the Woodmen Circle, also to Grove No. 12, of Elida, New Mexico, for the prompt settlement of the amount due under the certificate held by my mother, the late Mary E. Johnston.

Too much credit cannot be given the Order for the prompt attention given this claim.

Iva Beal.

**Card of Thanks.**

We take this method of thanking all friends who so kindly and willingly administered to us during the illness and death of our husband and father. Words cannot express our gratitude, but your kindness has been appreciated and has helped us to bear the burden very much.

Mrs. W. E. Miller and children.

**Dance at the Armory.**

Probably the best joke that has been pulled on the young dancing set of the town was pulled Saturday night when all arrangements were made the regular crowd of "fellows" to dance that night and everything seemed to be going fine until their arrival at the armory and nothing so far as calico was concerned, could be seen. Nine o'clock arrived and still the feminine element was lacking and at last reports those "fellows" waited until about ten o'clock before making bee line for home and Mam-ma. We don't look for any more stag dances in the near future.

No use talking fellows, this war must peter out. Thousands and thousands of lives are being sacrificed and the generals and admirals can not get enough glory to go around. Even the kings, emperors and other fools can only tear off an occasional snuff.

A "good fellow" doesn't need to tell it as he goes along.

**Prize Corn Worth \$125 a Bushel.**

One bushel of corn, containing 70 ears Reed's yellow dent, sold for \$125 at the seed auction in Carrollton, Mo. It was a prize bushel and was raised in Cooper county.

**Germany Now Has 80 Zeppelins.**

Eighty Zeppelins are now in the German service, according to information developed at Friedrichshafen, where the works are located. The new model is considerably longer than previous types. It is of fish-like shape and gray-tinted, which renders it practically invisible at a great height. Each has six machine guns in its quick-fire battery and apparatus for throwing bombs and air torpedoes.

**The Value of Preparedness.**

Preparedness is in the air and everybody is talking about it—preparedness against war.

But there is another brand of preparedness that is of vital import to the American people, and that is preparedness for prosperity.

There is probably no class of people in this country who should be more alive to the possibilities of commercial preparedness than the farmer. Upon him will devolve the vast amount of supplies demanded by the world when this war ends. His will be the burden of feeding the millions of mouths that will be hungering for the products of the farm. And his will be the pockets that will sag with the weight of the gold that pays for these supplies.

If there is an acre of tillable ground in this shallow water section that has not been contracted for it should be promptly put under cultivation. It should be made to yield its quota of the wealth that will be waiting for some one to pick up.

Congress at last is aroused and will take care of preparedness against war, but the American farmer is the man who must prepare for the prosperity of peace. Preparedness is in the air, brother. Go to it—and get it!

Of course your Willie has high ideals, but has he a single practical idea of his own?

At any rate, there is no law to prevent women telling us men how to vote.

The fellow who boosts his town never lacks for friends to boost him. Be a booster.

If you want to know the truth about a man, ask any one but the man himself.

God loves the man who loves his country. Where do you get off?

The merchant who wants to sell goods to our people must first let them know that he has the goods to sell. The mountain never goes to Mahomet.
