Bankhead Road Assured

G. L. Reese, one of the delegates who attended the Hot Springs annual meeting of the National Bankhead Highway Association on the 15th, and 16th, of April, 1920, returned to Portales on Tuesday of this week. J. L. May, the other delegate, stopped over in Little Rock to visit his sister for a few days.

It was definitely determined at the convention that the Bankhead highway is to come through Portales. It enters the state at Texico and runs to Clovis, Portales, Roswell and on to El Paso, Texas, and thence to San Diego, California.

This highway is one of the greatest in the country. It begins at Washington, D. C. and terminates at the Pacific coast, and Portales is certainly fortunate in obtaining this great highway.

The two delegates were sent by the chamber of commerce, of Portales, and the success of obtaining this road was largely due to the activities of the chamber of commerce as well as procuring the Ozark Trails to be routed through Portales.

G. L. Reese was elected as a member of the board of directors for New Mexico in the National Bankhead Highway Association.

Earnest Best

Funeral services of Earnest C. Best, who was gassed and drowned in an irrigation well near Dexter, New Mexico, Monday, April 12, were conducted from the Portales Baptist church, of which he was a member, Wednesday, April 14, by Rev. Slaughter assisted by pastor, Rev. J. F. Nix. The interment was in Portales, cemetery.

Pall bearers were; John McDonald, Frank Campbell, Mose Jones, Cleveland Compton, Walter Crow, Burl Johnson and W. O. Oldham.

Earnest Calhoun Best was born in Greensboro, North Carolina, Jan. 19, 1889. Joined the Thomasville Orphanage Baptist church at the age of thirteen. After completing his school work at the orphanage he came to Statesville, North Carolina, then to New Mexico. On July 22, 1912, he was happily married to Miss Betty Lora Brookes, youngest daughter of Mr. and Mrs. P. E. Brooks, of Portales. To this union were born three boys, Eddie, who died in infancy, and his twin brother, Edwin and James Ara. Those who survive are his wife and two sons, of Dexter, a mother one sister and three brothers, all of Greenville, North Carolina. I have known Earnest and was intimately associated with him since he was a mere lad, and I have never found one more loyal to his duty, clean of speech or industrious than he in all my experience, never heard him tell a smutty joke, use slang or say anything that couldn't be said in the presence of ladies.

I regard him as one of God's noblemen. The pity is we haven't more of his kind. Peace to his ashes. May God's richest blessings be on the bereaved wife and orphan children and sympathizing friends. May this dispensa-

tion of God's providence be a reminder to all of us the uncertainty of life and the certainty of death, and the need of preparing to meet our God before it is eternally too late. One who loved him.

Flake T. Burke.

Thanks

To the citizenship of 20th legislative district comprising Roosevelt and De Baca counties.

The will of the people expressed by their ballot in our recent primaries called me to be their Democratic nominee in the coming general election to be held in November. For their approbation of my public conduct, through a period which has not been without difficulties, and for this renewed expression of their confidence in my good intentions, I am at a loss for terms adequate to the expression of my gratitude. It shall be displayed to the extent of my humble ability and continued efforts to so represent the citizenship of my district, so as to promote their future welfare and happiness, and one great object should be as a party, to conduct the affairs of our state, to so maintain our principals of justice that succeeding generations will feel that we have done our duty.

Now it only remain for me to thank each and every one of you who so generously assisted me in my election, and to my friends who spent their time in working for my election, and to the ladies of De Baca county, I especially wish to thank each and every one for your kindly consideration and vote, and now let us not trust to human effort alone, but humbly acknowledging the goodness and power of Almighty God who presides over the destiny of nations. Let us invoke his aid and blessings upon our labors that we may continue forever a united and happy people.

And now again, I thank you, I thank you.

Yours very truly,

COE HOWARD,

Littlefield Boys Bulls

George T. Littlefield this week bought ten head of registered Hereford bulls at the stock sales at Clovis. One of these bull cost him four hundred dollars. Mr. Littlefield is one of the Roosevelt county cow men who believe in getting about the best there is to be had.

I want to thank the people of Roosevelt county for the very liberal support given my candidacy in the recent Democratic primaries and I hope that my services in the office to which I have been nominated will be as pleasing to them as my majority was to me. Jess McCormack.

Harold Rogers and family left this week for Colifornia, Mrs. Rogers and son to remain for the summer and Harold for a month's vacation with his parents. Mr. Rogers is cashier of one of the banks of the city.

Capt. and Mrs. T. J. Molinaai, left this week for a trip to California. They will be gone for a month or more.

Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

- 1 FOR THE CHURCH'S WORK AT HOME. A score of times come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?
- 2 FOR HOSPITALS AND HOMES. Every year thousands of men and women are helplessly turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.
- 3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools; and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.
- 4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?
- 5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.
- 6 PREACHERS' SALARIES. The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than \$20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

Oil Leases Good

The state land commissioner of New Mexico has the right to make oil leases for a period of five years without advertisement and public sale, holds Judge S. G. Bratton in a decision just filed in the Fifth judicial district.

Judge Bratton, who heard the case of Neal vs. Barker involving the validity of the state leases for oil and gas, has decided the case in favor of the contestee, the synopsis of the opinion being:

1. That the status of the land under the grants of 1898 and 1910 are practically the same and any limitations upon one will be good upon the other.

2. That congress had a right to make limitations relative to the disposal of lands granted to a state by it.

3. That congress has granted to the state of New Mexico only nonmineral lands and expressly declared them to be non-mineral; and the clear listing by the secretary of the interior of the lands as non-mineral; fixed the status of the lands, insofar as the United States is concerned, as non-mineral land; and, that therefore, the provision of the enabling act relative to the status of state lands before leasing, does not apply to leases for oil and gas purposes.

4. That even had congress intended that the provision for advertising leases to apply to oil and gas leases, that the leases made by the state land commissioner for a period of five years are good for such period.

The decision in substance upholds the state land commissioner and the position he has taken heretofore with respect to oil and gas leases issued by him.

This decision will materially affect the development through out the state of New Mexico, as there has been some question raised, especially by people living outside of the state relative to the validity of state leases and there has been considerable propaganda to the effect that the leases were not valid.

The effect of the third point decided by Judge Bratton would seem to be that the only limitation upon the land commissioner in making oil and gas leases is the limitation by the state statute, and that leases for five years and so long thereafter, so long as oil and gas is found, will be good for the length of time that it is produced in commercial quantities.

Lee Percifull, an experienced garage man from Elida, has opened the garage here owned by Capt. T. J. Molinari and has employed Pink West, another Elida gas wagon expert, as assistant. These gentlemen have every facility for handling anything in the automobile repair line.

Judge G. L. Reese and J. L. May left this week for Hot Springs, Arkansas, where they will attend the Bankhead convention.

James A. Hall left this week for Oklahoma City, Oklahoma, for a visit with his brother and family. He will be absent about days.

SEASONABLE SALADS.

A most pleasing salad combination is the following: Arrange leaves of lettuce on a salad plate, then place ripe pears cut in eighths. After peeling and coring, add a tablespoonful or less of finely shredded celery, two dates cut in quarters, and one small banana sliced. Cover with a dressing, using three teaspoonfuls of boiled dressing and half a cupful of whipped cream. Add more seasoning if need, especially salt, and pour the dressing over the salad just as it goes to the table. Mayonnaise may be used with cream in the same proportion.

Japanese Salad.—Cook one cupful of rice in boiling water until tender. Add one small chopped onion, a teaspoonful of salt, a few dashes of cayenne pepper. Serve garnished with sardines and sweet red pepper cut in strips.

Date and Nut Salad.—Prepare dates cut in eighths and arrange them on lettuce with walnut meats. Serve with French dressing. Stewed prunes may be used in place of the dates and are equally as dainty.

Shredded Cabbage With Cream.—Shred a firm head of cabbage, or if large, a portion of the head. Sprinkle with salt after letting the finely shredded cabbage become crisp in cold water. Add a dash of cayenne and the salt after draining very dry, two tablespoonfuls of sugar and two tablespoonfuls of vinegar with half a cupful of thick sweet cream. Sour cream may be used with a very little vinegar.

Orange and Water Cress Salad.—To serve with duck, there is no more appetizing salad than this: Arrange a nice bed of well-washed water cress on salad plate, place overlapping slices of orange which has been carefully peeled. Serve with a highly seasoned French dressing.

Tomato Salad.—Cut small peeled tomatoes in halves or large ones in thick slices. On each slice or half, heap a teaspoonful each of chopped onion, celery and cucumber and top with a spoonful of thick mayonnaise. Dash over the dressing a sprinkling of paprika just before serving.

"Hope and courage and sympathy and trust are great producers, and they are great factors in a man's doing his duty, as well as his having the joy of achievement."

FOOD FOR THE FAMILY.

In these days of high-priced eggs the following cake will be most happily received:

Eggless Chocolate Cake.—Grate two squares of chocolate and melt it in half cupful of milk; in another half cupful of milk dissolve one teaspoonful of soda. Mix together one cupful of sugar and a tablespoonful of softened shortening; add a teaspoonful of vanilla and one-third of a teaspoonful of salt, mix all together and add 1 1/4 cupfuls of flour, then beat in the hot milk in which the chocolate has been dissolved and bake in a loaf pan fifty minutes in a moderate oven.

Maple Rolls.—Make a baking powder biscuit mixture as usual; roll in an oblong one-half inch thick. Brush with melted butter and spread with maple sugar grated. Dampen the outer edges and roll up firmly. Cut in slices one-half inch thick, place in a well-greased pan and bake in a hot oven twenty to twenty-five minutes. Chopped nuts may be added with the sugar if desired.

Graham Griddle Cakes.—Take two cupfuls of Graham flour, half a cupful of white flour, two tablespoonfuls of corn meal, two teaspoonfuls of sugar, three-fourths of a teaspoonful of soda, one teaspoonful of cream of tartar, one-half teaspoonful of salt, half a teaspoonful of melted fat and 2 1/4 cupfuls of milk. Mix the dry ingredients then stir in the melted fat and the milk. Beat well and fry on a hot griddle.

Raisin Gruel.—Take a dozen large, choice raisins, seed them and place in a double boiler with a pint of boiling water and cook for an hour. Strain the water and return it to the boiler, thicken with a teaspoonful of cornstarch mixed in a tablespoonful of cold milk, stir while adding and cook ten minutes. Add salt and sugar. When cool add a half cupful of milk and serve.

Consolation for Mother.

Jack went to the bathing beach one day with his father and mother, the latter being very stout. He went in bathing with the other boys and after he had again joined his parents he told them of the fun he had had, adding that the boys had made a lot of fun over a big fat woman they had seen in bathing at a distance. Then he added, consolingly: "But you bet I didn't tell them you were my mother."

The best you can get is probably better than you desire.

HESSIAN FLY THREATENS WINTER WHEAT

The HESSIAN FLY

This pest lives through the winter in the bases of the wheat stalks as pupae in small brown cases resembling flaxseeds. In spring the winged flies emerge from the injured wheat and fly to healthy wheat where they lay their eggs in rows on the leaves. From the eggs hatch tiny maggots that crawl down within the bases of the leaves, feed there on the plant sap, mature, and change again to pupae by harvest time. These pupae remain in the stubble and, unless the stubble is plowed under, will form a second generation of flies in the fall. These flies leave the stubble and look for young winter wheat on which to lay their eggs. The fall flies live but a few days. If they can find no live wheat above ground they will die without laying their eggs.

(Prepared by the United States Department of Agriculture.)

Serious injury to the winter wheat crop of 1920 by the Hessian fly seems extremely probable. Reports received by the United States department of agriculture entomological experts in the Mississippi basin winter wheat region indicate a rapid increase of the Hessian fly in that important wheat-growing district. These reports show that considerable young wheat already has been killed by the Hessian fly, and that serious losses to the crop of 1920 are almost certain.

Unless winter wheat growers east of the Rocky mountains can be induced to unite in a concerted movement to observe the approved methods of combating the Hessian fly during the summer and fall of 1920, it seems that a disastrous general outbreak of the pest very probably will occur in 1921.

A shortage of farm labor and unfavorable weather conditions at planting time have combined to influence many wheat growers in planting their grain too early in the season. This has resulted in a heavy infestation of Hessian fly in practically all of this early planted wheat.

Damage Feared in East.
A dangerously heavy infestation of Hessian fly also exists in the Piedmont plain wheat regions lying east of the Appalachian mountains and embracing Maryland, Virginia and eastern Pennsylvania. Complaints of serious Hessian fly damage in that region have already begun to be heard, and there is at present every indication that early-sown wheat in these states will be considerably if not seriously reduced in yield this year.

There is no remedy for the Hessian fly when once it takes possession of a crop of wheat. Grain that is so heavily infested as to afford little promise of a profitable yield should be decely plowed down and lightly harrowed early in the spring as is practicable. This should be done by March 1, if possible, so as to bury the stubble and prevent a large part of the flies from issuing and reinfesting other fields of growing wheat or barley. The land may then be planted to oats, corn or other immune, quick-growing crops, so as to avoid a complete loss of profit from the land during the current year.

IDENTIFY VARIETIES OF SWEET POTATOES

Department of Agriculture is Working Out a Key.

It is Based on Color, Size and Shape of Stems and Leaves and in Quality of Tubers Themselves—Results Promising.

The United States department of agriculture is working out a key by means of which varieties of sweet potatoes can be identified. There has always been a great deal of confusion regarding sweet potato varieties, and this key will make it possible to positively identify all true varieties. It is based on the color, size and shape of the stems and leaves, and on the color, size and quality of the potatoes themselves. That the key works is attested by the fact that by its use varieties described at the time Colum-

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

Mr. Carnegie's Advice.
"In considerable fear," said a banker. "I once consulted Mr. Carnegie about a new venture. The business looked as if it ought to be profitable. There seemed to be a public need of it. Still there was some risk involved, and I was afraid."

"But Mr. Carnegie laughed at my fears. 'If it is a good thing plunge in,' he said. 'Fear is old womanish. Fear is what keeps untold millions from making fortunes. When Benjamin Franklin thought of starting a newspaper in Philadelphia his mother, greatly alarmed, tried to dissuade him. She pointed out that there were already two newspapers in America.'"

SOUNDED ALL RIGHT TO HER

Prisoner's Defense Naturally Had a Lot of Weight With the Fair Prosecutor.

The case looked black against the prisoner, who was charged with loitering suspiciously at the railway station. Presently the magistrate said sternly:

"This lady says you tried to speak to her at the railway station." "It was a mistake," pleaded the man in the dock. "I was looking for my wife's young niece, whom I've never seen, but who'd been described to me as a handsome young lady, with golden hair, well-cut features, fine complexion, perfect figure, beautifully dressed, and—"

With a charming blush, the principal witness against him interrupted his flow of eloquence. "I don't wish to prosecute the gentleman, sir," she said to the magistrate. "Any one might have made the same mistake."

Petersons Leave

J. B. Peterson and family left this week for Las Cruces, where Mr. Peterson has accepted the position of county agent at that place at a substantial raise in salary. While the Petersons have been in Portales only a little more than one year, yet they have made many warm friends who will miss them sadly. It has been a long recognized fact that Roosevelt county could not long hold the services of "Pete" it had been hoped that he would remain until the many new projects he started had become healthy enough to get by without his aid, but Las Cruces made him such a substantial offer, and that position holding out such flattering promises of advancement, that he could not, in justice to himself, turn them down. It is a well established fact that "Pete" is the one pebble on the beach in the county agent game and any one who attempts to fill his place will find his work cut out for him. Here's to you, "Pete," but, dern you, you might have stayed for awhile, yet.

McCauley Acquitted

In the case of the state against E. L. McCauley, charged with an assault with intent to kill upon the person of Robert C. Dow, formerly district attorney for this district, the jury brought in a verdict of not guilty. The contention of the state was that McCauley had made an unjustifiable assault with a knife upon Dow which resulted in Dow's having received a cut in the side. The testimony of the defense that Dow was the aggressor and that McCauley acted in a proper defense of his person when unlawfully assailed. The state was represented by Assistant Attorney General Harry S. Bowman and District Attorney W. A. Havener; The defense by James A. Hall, of Portales.

Rev. J. F. Nix Resigns

Rev. J. F. Nix tendered his resignation last Sunday night as pastor of the Baptist church here having accepted an urgent call from the Portales Baptist church. It was a great crowd that gathered at the church to hear his last sermon. Many people from Pleasant Hill and other communities were present. People of all denominations and many of the church affiliation were present and expressed their regret at the going of Bro. Nix and his estimable family. They have made many friends in Texico, Farwell and surrounding community, Bro. Nix was not only pastor of the Baptist church but a preacher for the whole community, and a citizen moving among all men.

He leaves the church in fine condition. Every obstacle has been overcome and the respect of the church has been greatly raised with all people. There have been over one hundred additions and about sixty-five conversions during the time he has been pastor. His work here is considered by all to be unusually successful.—State Line Tribune.
