They say thou art gone, loved one; And yesterday, when 1 didst see Thee in that still, calm state, called death;

I thought that thou wert gone from me:

But today, thy sweet spirit, free From all earthly care, doth speak To me, in every bird song, leaf Or lovely flower, pure and meek, Art gone from us who loved thee so? Silenced forever that pure heart Whose every throb spoke kindness? This earth supreme divenest art. Oh no, this we cannot believe.

Thou art not gone, dear one, for ave Our Father hath but claimed His own, To save thee grief for e'en one day, Hadst thou stayed with us in the flesh, Great sorrow might have been thy lot; And we who love thee, would not ask To keep thee, lest one small blot Of sadness touch thy lovely soul; Ah no! E'en better far this pain Which like a vulture, claws our hearts, Than bring thee back to earth again If this be true; - And with this thought I bow my head upon my breast, And try to think, to feel, to know; That for us all, what is, is best. I know not where thy soul hath flown, To other spheres, or realms above; I only know thy faith in God Will waft thy soul to His great love. I shall no longer weep for thee, For well I know thou art at rest, Where naught but love can ever be Serenely resting on His breast.

"Whole caboodle workin' like a charm," he said, good humoredly, happened to me, there must be no "Thought onct the deputy might show alarm, no noise sufficiently loud so as up ugly, but a quart o' :ed-eye sure fixed him—thar's our party a comin' guard. They were advancing toward us up held him to me in a bear grip, but his the bank which sloped down toward overmastering strength bore me backthe creek. Rale moved forward to meet them across the little open space. and a moment later, from my hiding place among the motionless horses I hissed savagely, and his jaws snapped became able to distinguish the slowly at me like a mad beast. "Let go! approaching figures. There were four in the party, apparently from the garb two men and two women. The second man might be the preacher, but if so, why should he be there? He strained, but failed to break Unless the two main conspirators had my grasp, and I should have hurled special need for his services, I could him over the hip, but at that second conceive no reason for his having any part in the action that night. Had I bling down, with the saloonkeeper been deceived in their plans? Even as this fear overwhelmed me with consternation, I was compelled to notice how helplessly the first of the two women walked-as though her limbs refused to support her body, even though apparently upheld by the grip of the man beside her. Rale, joining them, immediately grasped her other arm, and, between the two, she was impelled forward. The saloonkeeper seemed unable to restrain his voice.

"Yer must'r give her one h- o' a dose," he growled, angrily. "Half o' thet wud a bin' nough. Why, d- It, she kin hardly walk."

"Well, what's the odds?" it was Kirby who replied sarcastically. "She got more because she wouldn't drink. We

Crazed by the pain, I swerved to one side, and half fell, my grip torn loose from about his arms, but as in-Gaskins struck me, and I went tumfalling flat on top of me, his pudgy fingers still clawing fiercely at my throat. It seemed as though consciousness left my brain, crusLed into death by those gripping hands, and yet the spark of life remained, for I heard the ex-preacher utter a yelp, which ended in a moan, as a blow struck him; then Rale was jerked off me, and I sobbingly caught my breath, my throat free. Into my dazed mind there echoed the sound of a voice.

"Is thet 'nough, Jack?-then holler. kintry. Yes, it's Tim Kennedy talkin', whar yer are. Yer ain't killed, be ye, Gaskins must'r tied 'em thar." Knox?"

> "It has been a hellish affair all the way through, and the only way in which I can serve her, if this is so, is by getting her away-as far away as possible, and where this devil can never find her again. What bothers me right now is your case."

"Mine? Lord, what's the matter with me?"

"Considerable, I should say. You can't be left here alone to face the resuit of this night's work. If Gaskins is dead from the blow you struck him away just for revenge. Even if you told the whole story, what chance would you have? That would only expose us, and still fail to clear you. It would merely be your word against theirs-you would have no witnesses. unless we were caught."

"I reckon thet's true; I wasn't thinkin' 'bout it."

"Then there is only the one road to take, Tim," I insisted. "We've got to strike the trail together." "Whar?"

"I cannot answer that now; I haven't thought it out yet. We can talk that mafter over as we ride. I have a map with me, which will help us decide the best course to choose. ravine. I was obliged to dismount and feel my way cautiously to the bottom, delighted to discover there was a smoothly flowing, narrow stream, running from the eastward between high banks, overhung by trees. It was a dismal, gloomy spot, a veritable cave of darkness, yet apparently the very place I had been seeking for our pur-Dose.

"Kennedy."

"Right yere, sir. Lord, but it's dark -found enything?"

"There is a creek here. I don't know where ft flows from, but it seems to come out of the east. One thing is certain, we have got t get off this trail. If we can lead the horses up stream a way and then circle back it would keep those fellows guessing for a while. Come here and see what you think of the chance."

"Ye let me go ahead with the nigger gurl, an' then follow after us, leadin' Miss Beaucaire's hoss. By jeminy crickets, 'tain't deep' nough fer ter drown us enyway, an' I ain't much afeered o' the dark. Thar's likely ter be sum place whar we kin get out up thar. Whar the h- are them hosses?"

We succeeded in locating the animals by feeling and I waited on the edge of the bank, the two reins wrapped about my arm, until I heard the others go splashing down into the water. Then I also groped my own way cautiously forward, the two horses trailing behind me, down the sharply shelving bank into the stream. Tim chose his course near to the opposite shore, and I followed his lead closely, guided largely by the splashing of Elsie's animal through the shallow water. Our movement was a very slow and cautious one, Kennedy halting frequently to assure himself that the passage ahead was safe. Fortunately the bottom was firm and the current not particularly strong, our greatest obstacle being the low-hanging branches which swept against us.

I think we must have waded thus to exceed a mile when we came to a fork in the stream and plumped into a tangle of uprooted trees, which ended our further progress. Between the two branches, after a little search, we discovered a gravelly beach, on which the horses' hoofs would leave few permanent marks. Beyond this gravel we plunged into an open wood, through

peering in through the narrow ings between the upright poles. Th light was so poor I was not able to perceive much, but did succeed in fully convincing myself that the dismal shack was unoccupied. The door stood unlatched and I pushed it open. A single glance served to reveal every thing the place contained. Without doubt it had been the late abode of Indians, who, in all probability, had fled hastily to join. Black Hawk in his foray up Rock river. What interested me most was a small bit of jerked deer meat which still hung against an upright and the rude stone fireplace in the center of the hut, with an opening above to carry away the smoke.

I had found during the night a fair supply of hard bread in my saddle-bag. and now, with this additional gift of Providence, felt assured, at least, of one sufficient meal.

"It is all right, Tim, there is no one here. An old Indian camp with nothing but a hunk of jerked deer meat left behind. Eisie, gather up some of that old wood yonder and build a fire. Kennedy and I will look after Miss Beaucaire."

It was bright day by this time, the red of the rising sun in the sky, and I could trace the radius of swamp land stretching about us on every hand, a grim, desolate scene even in the beauty of that clear dawn. We had been fortunate enough to approach the spot along the only available pathway which led to this little oasis, and a more secure hiding place it would be difficult to find. I felt almost at ease for the present and satisfied to rest here for several hours.

Tim assisted me in unstrapping Eloise, and lifting her from the saddle, and, as she made no effort to help herself, the two of us carried her to a warm, sunny spot beside the wall of the hut. Her cramped limbs refused to support her body, and her eyes, then open, yet retained that vacant look so noticeable from the first. The only change was in the puzzled way with which she stared into our faces, as though memory might be struggling back, and she was vaguely endeavoring to understand.

Tim led the horses away and staked them out where they could crop the rich, dewy grass. After removing the saddles he followed the mulatto giri into the hut, and I could hear the murmur of their voices. I endeavored to address Eloise, seeking thus to awaken her to some sense of my presence, but she merely smiled meaninglessly, leaned her head wearly back against the poles and closed her eyes. It was a poor meal enough. although it sufficed to dull hunger and yield us some strength. Eloise succeeded m choking down a few morsels, but drank thirstily. It was pitiful to watch her, and to mark the constant effort she was making to force the return of memory. I had Eisle bathe her face with water and while, no doubt, this refreshed her somewhat she only rested her head back on my coat, which I had folded for a pillow, and again closed her heavy eyes. The negress appeared so tired I bade her lie down and sleep, and soon after Tim also disappeared. I remained there alone, guarding the woman I loved. How were we to escape, burdened by this helpless girl, from pursuit, which perhaps had already started from Tellow Banks? At all hazards I must now prevent this dazed, stupefied woman from ever again falling into the power of Joe Kirby. That was the one fact I knew. I would rather kill her with my own hand, for I was convinced the fellow actually possessed a legal right, which I could not hope to overthrow, However it had been accomplished, through what villainy, made no oddsshe was his wife, and could only be released through process of law. He could claim her, hold her in spite of me, in spite of herself. No influence I might bring to bear would save her now from this contamination. It would all be useless, a thing for laughter. Hea signature-of which Kirby had boasted -and the certificate signed by the dead Gaskins, would offset any pos sible efforts I might put forth. There remained no hope except through flight; outdistancing our pursuers; find ing a route to safety through the wilderness which they would never Buspect. I must find an unknown path, as wotraveled trail. Our only hope lay in baffling pursuit, in getting far beyong Kirby's grip. I dragged the map out from its slik wrapping and spread it forth on the ground between ma knees. It was the latest government survey, given me when I first departed for the North, and I already knew every line and stream by heart.

had to make her take it, and it wasn't no easy job. Gaskins will tell you that. Have you got your man here?"

"O' course; he's waiting' thar with the hosses. But I'm d-d if I like She don't know nuthin', does this. she ?"

"Maybe not now; but she'll come around all right, and she signed ber bame. So there ain't no hitch. She seemed to get worse after that. Come on, we can't stand talking here; let's get them off. Jack ; there isn't any time to waste. I suppose we'll have to strap her into the suddle."

I held back, and permitted them to work, merely leading my own horse slightly to one side and keeping in his shadow. Gaskins brutally jerked the shrinking mulatto forward ...nd forced her to mount one of the horses. She made some faint protest, the nature of which I failed to catch clearly, but the fellow only laughed in reply and ordered her to keep quiet. Eloise uttered no word, emitted no sound, made no struggle, as the two other men lifted her bodily into the saddle, where Kirby heid her, swaying helplessly against him, while Rale strapped her securely into place.

The entire proceedings were so brutally cruel that it required all my strength of will to restrain myself from action. My fingers closed upon the pistol in my pocket, and every impulse urged me to hurl myself on the fellow, trusting everything to swift, bitter fight. I fairly trembled in eagerness to grapple with Kirby, hand to hand, and crush him helpless to the earth.

"Thar," said the saloonkeeper, at last, testing his strap. "I reckon she can't fall off nowhow, even if she don't sit up worth a d-. Go ahead now, Moffett."

Both men stepped aside, and I led my horse forward. The movement brought me more into the open, and face to face with Kirby. By some trick of fate, at that very instant a stargleam, plercing through the screen of leaves overhead, struck full into my eyes. With an oath he thrust my hat wack and stared straight at me.

I could not see the mingled hate and horror glaring in the man's eyes, but there could be no doubt of his recognition. The acknowledgment found expression in a startled exclamation. "By God l-you, here !"

That was all the time I gave him. With every pound of strength, with every ounce of dislike, I drove a lenched fist into that surprised face. and the fellow went down as though smitten by an ax. Even as he reeled. Rale leaped on me, cursing, failing to ui lerstand the cause, yet instinctively re. "ing the presence of an enemy, His ; " was at my throat, and, even as his . "And the other fellow? He hit me." "My ol' frien,' Gaskins; thet's him,

all right." The deputy gave vent to a got hold ov a club somwhar, an' wus goin' ter give yer another. It will be a while, I reckon, 'fore he takes much interest. What'll I do with this redheaded gink?"

I succeeded in reaching my feet, and stood there a moment, gaining what view I could through the darkness. The short struggle, desperate as it had been, was not a noisy one, and I could hear nothing about us to indicate any alarm. Kennedy had one hard knee pressed into Rale's abdomen

and the star-rays reflected back the steel glimmer of the pistol held threateningly before the man's eyes. The horses beyond stood motionless, and the two women in the saddles appeared like silent shadows. I stood up once more, peering through the darkness and listening. Whatever was to be done I must decide, and quickly.

"Have Rale stand Jp, but keep him covered. Don't give him any chance to break away; now wait-there is a lariat rope hanging to this saddle; I'll get it."

It was a strong cord and of good length, and we proceeded to bind the fellow securely in spite of his objections, I taking charge of the pistol, while Tim, who was more expert, did the job in a workmanlike manner.

"Now gag him, Tim," I said quietly. "Yes, use the neckerchief. That will do; all we can hope for is a few hours' start."

"Is Kirby dead?"

"I'm afraid not, but he has got an ugly bump and lost some blood; his head struck a rock when he fell. It will be a while, I imagine, before he wakes up. How about your man?" "I reckon he's a goner, cap," he admitted, as though surprised. "Gosh, 1 must'r hit the cuss harder than I thought-fair caved in his hed, the pore devil. I reckon it's no great loss ter nobbody." "But are you sure he is dead? That

I picked up the trailing rein of my horse and slipped my arm through it. Tim faded away in the gloom like a vanishing shadow. The young woman next me, strapped securely to her sadsbort, mirthless laugh, "Oh, I rapped die, made no movement, exhibited no him with the butt; had ter do it. He'd sign of interest; her head and body drooped, yet her hands grasped the pommel as though she still retained some dim conception of her situation. The face under her hood was bent forward and shaded and her eyes, sl-

though they seemed open, gave no heed to my presence. I touched her hands -thank God, they were moist and warm, but when I spoke her name it brought no response.

I started forward on foot, leading my horse, the others trailing after through the darkness. Knowing nothing of the way, I was thus better able to pick the path, yet I found this not difficult, as it was rather plainly outlined by the forest growth on either side. The trail was clay with a few small stones embedded in it, and the horses made little noise in their descent, except once when Elsie's animal slipped and sent a loosened bit of rock

rolling down to splash in some pool below. We came to the bank of the creek at last, a narrow stream, easily fordable, but with a rather steep shore line beyond, and waited there a moment until Tim emerged from out the black woods at our right and joined us. He was mounted, and, believing the time had arrived for more rapid movement, I also swung up into saddle and ranged the girl's horse beside mine.

They were not stock to be proud of. yet they did fairly well, Tim's mount evidently the best of the four. The

going was decidedly better orice we had topped the bank. We may have ridden for two miles without a word, for, although I had no intention of proceeding far in this direction, I could discover no opportunity for changing our course so as to baffle pursuit. That Kirby and Rale would endeavor to follow us at the earliest opportunity was most probable. They were neither of them the sort to accept defeat without a struggle, and, after the treatment they had received, the desire for revenge would be uppermost. Nor

whose intricacies we were compelled to grope blindly. Tim and I both afoot. and constantly calling to each other, so as not to become separated. I had lost all sense of direction, when this forest finally ended, and we again emerged upon open praifie, with a myriad of stars shining overhead.

CHAPTER XIV.

The Island in the Swamp.

The relief of thus being able to perceive each other and gain some view of our immediate surroundings after that struggle through darkness cannof be expressed in words. We were upon a rather narrow tongue of land, the two diverging forks of the stream closing us in. So, after a short conversation, we continued to ride straight forward, keeping rather close to the edge of the wood, so as to better conceal our passage. Our advance, while not rapid, was steady, and we must have covered several miles before the east began to show gray, the ghastly light of the new dawn revealing our tired faces. Ahead of us stretched an

extensive swamp, with pools of stagnant water shimmering through lush grass and brown fringes of cat-tails bordering their edges. Some distance out in this desolation, and only half revealed through the dim light, a somewhat higher bit of land, locky on its exposed side, its crest crowned with trees, arose like an islan 4. Tim stared across at it, shading his eyes with one hand.

"If we wus goin' ter stop enywhar, cap," he said finally, "I reckon thar ain't no better place then thet, pervidin' we kin git thar."

"We certainly must rest," I confessed. "Miss Beaucaire seems to be sleeping, but I am sure is thoroughly exhausted. Do you see any way of getting across the swamp?"

He did not answer, but Elsie instantly pointed toward the left, crying out eagerly:

"Sure, Ah do. The lan' is higher long thar, sah-yer kin see shale rock."

"So you can; it almost looks like a dyke. Let's try it, Tim."

It was not exactly a pleasant passage, or a safe one, but the continual increase in light aided us in picking our way above the black water on either hand. I let my horse follow those in front as he pleased and held tightly to the bit of the one bearing Eloise. The island proved a small one, not exceeding a hundred yards wide, rather sparsely covered with forest trees, the space between these thick with under-

GENERALLY IS LOSING GAME

Method of Doing Business is Very Different When You Purchase **Goods From Your Home** Merchant.

(Copyright.) When you were a youngster, did you ever make a trade, "sight unseen?" Of course you did. What boy has not risked his jackknife or his choicest marble on such a proposition and how often has he repented of his rash deed when he discovered what he got in the trade? He generally found that the deal turned out to the advantage of the one who made the proposition.

There is a little of the gambling instinct in the blood of nearly every man, woman and child, but even the hardened gambler likes to get a "run for his money." The "sight unseen" proposition doesn't appeal to him in the least. There are thousands of people, however, who would be properly indignant if they were accused of being gamblers, who every day take a chance on the greatest gambling game in the world. And worse than that, they are risking their money on a "sight unseen" proposition.

When one of the thousands of persons who build up and keep up the great mail order houses of the country sends his money away to pay for some article that he has selected from the inail order catalogue, he is taking a chance on getting what he expects to The mail order house may be get. perfectly honest and still the purchaser stands a good chance of not getling what he expects to get. The mail order catalogues are filled with pictures that catch the eye. The descriptions are brief, as they must be when thousands of articles are to be described within the confines of one book. No matter how hard the mail order house might try to tell the truth, the whole truth and nothing but the truth, it would be an impossibility. The buyer is simply taking a chance.

see what you are buying, you take your suit or your stove or whatever it is you buy home or it is sent home for you without any delivery charges, and after you get home and take another look at it and decide you don't want it after all, you send it back.

You are not buying something "sight unseen" when you buy from your home merchant. You don't look at a picture of an article in a newspaper, read a short description of it, go to the post office and buy a money order and send it to the merchant with the instructions, "Send me a suit of clothes"-or a stove or whatever it may be-"and I'll pay your delivery man 50 cents for delivering it to me."

There's a world of difference in the two methods of doing business and its not hard to figure out which is the best for the man who is doing the buying.

Buying "Sight Unseen."

How much more satisfactory it is to walk into a store in your home town PORTALES TAILORING CO and ask to see an article which you may have seen advertised in your home paper. What would anyone think of your business ability or your common sense if you walked into a store at home and said: "I saw a picture in the paper today of a suit C. J. WHITCOMB which I liked very much. Please wrap up one for me. Here's the money.' The merchant would think that you were crazy, but that is exactly what you do every time you send an order to a mail order house. You buy "sight unseen" and you haven't a ghost of a chance of getting your money back if the article is unsatisfactory when it reaches you.

How different is the proceeding when you go into the store in your own home town to buy a suit of clothes, or a stove or a yard of ribbon. You may have seen a picture of it in the merchant's advertisement in the home paper and you know that, as the merchant is reliable, you can count on the goods being as he represents them in his advertisement. But does he ask you to take his word for everything? Does he hide the article behind the counter and tell you that you can't even see it until you buy it and pay over the money for it? Hardly. If the article is not already in plain sight on the counter, the merchant produces it for your inspection. If it does not exactly suit you, he has others that are a little different and that he is glad to have you inspect.

Then, if it is a suit of clothes you are buying, or a piece of dress goods or a pair of socks, you may ask if the merchant will guarantee that it will wear as long as an article of that kind could be expected to wear and he will tell you either that he will guarantee it or that he will not. HENS BECOME FOND OF EGGS

Habit Usually Formed Through Accldental Breakage-See That Nests Are Darkened.

Fowls become very fond of eggs, once they begin to eat them. This eggeating usually begins through accident, by eggs being broken. Be careful to see that this does not happen. See that the nests are properly supplied with straw, and have them darkened, so that if an egg is broken the fowls will not be likely to discover it. When egg-eating is discovered among the flock, the best plan is to kill the of. fending hen.

MILK DISHES.

The value of skim and sour milk as a food is not generally appreciated.

Taken by itself skim milk is rather thin, but when taken with bread or used in cooking it forms a very nutritious addition to the diet. IMILK Skim milk has nearly all the protein of the whole milk and is one of

the richest sources of lime and phosphorous. Some children refuse to take milk in its natural form. Then the wise mother covers the

taste by serving it as milk toast, custard, creamed vegetables, soups, junket and other simple desserts with milk as a basis.

"You see," said Gerry, "the people of the circus are giving a dinner to their friends and they're having it here in this big room.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Womens' complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this reat preparation send ten cents to Dr. Kilmer & Co., Binghamston, N. Y., for a sample bottle. When writing be sure and mention this paper.-Adv.

MARRIAGE THAT AMAZES ENGLAND

All England-and doubtless America's "four hundred"-is amazed over the marriage of the former duchess of Westminster to Capt. J. Fitzpatrick Lewis. American interest is keen because the bride is the stepdaughter of Mrs. Cornwallis West, who was Miss Jennie Jerome, a New York heiress and beauty. Mrs. Cornwallis West's first husband was Lord Randolph Churchill and Winston Churchill is

In order to make this love match the duchess was compelled to relinquish upon her divorce from the richest duke in England all her interests in the estates and family heirlooms and jewels of the Westminsters, although, of course, she received a liberal settlement.

A feature of the romance is that the duchess is a good many years older than her modest bridegroom, for she has a grownup daughter in so-

ciety eighteen years old, while he cannot he much over thirty, as he was an eviator in the war. Before that he worked for an insurance company.

Owe Their Health To

Lydia E. Pinkham's Vegetable Compound - overshadowing indeed is the success of this great medicine. Compared with it, all other medicines for women's ills seem to be experiments.

Why is it so successful? Simply because of its sterling worth-For over forty years it has had no equal. Women for two generations have depended upon it with confidence.

Thousands of Their Letters are on our files, which prove these statements to be facts, not mere boasting.

Here Are Two Sample Letters:

Mother and Daughter Helped. Middleburg, Pa. - 'I am glad to state that Lydia E. Pinkham's VegetableCompounddidmemuch good when I was 35 years old. I was run down with female trouble and was not able to do anything, could not walk for a year and could not work. I had treatment froin a physician but did not gain. I read in the papers and books about Lydia E Pinkham's Vegetable Compound and decided to try it. The first few bottles gave me relief and I kept on using it until I got better and was able to do my work. The Vegetable Compound also regulated my daughter when she was 15 years old. I can recommend Vegetable Compound as the best medicine I have ever used."-Mrs. W. YERGER, R. 3, Box 21, Middleburg, Pa.

Fall River, Mass. - "Three years ago I gave birth to a little girl and after she was born I did not pick up well. I doctored for two months and my condition remained the same. One day one of your little books was left at my door and my husband suggested that I try a bottle of Lydia E. Pinkham's Vegetable Compound. I started it immediately and I felt better and could eat better after the first bottle, and I continued taking it for some time. Last year I gave birth to a baby boy and had a much easier time as I took the Vegetable Compound for four months before baby came. On getting up I had no pains like I had before, and no dizziness, and in two weeks felt about as well as ever."-Mrs. THOMAS WILKINSON, 363 Columbia Street, Fall River, Mass.
