Dora Dots.

The March winds have begun to blow in the good old fashioned way. Mr. Scott from Noble, Okla., came home March 9th to see after farm manipulations (on which he made commutation proof in January). He expects to be with us for four weeks, after which he intends to go overland back to his home at Noble.

Mr. Scott brought with him 200 apple trees which he is going to plant on his farm. We would like to see more fruit trees put out.

E. J. and G. C. Bradford made a trip to Portales Monday and brought back a load of cotton seed. Rufus Bradford made a business trip to Hollada Tuesday, returning Thursday.

There was a wedding anniversary dinner given at the home of Uncle Sam Carier Wednesday, given in honor of Mr. and Mrs. Jim Bull, Mr. and Mrs. Dick Carier and Uncle Lum Carier and wife. All present had a very enjoyable day.

The young folks had a singing Wednesday night at Mr. Lum Carier's.

A lecture at the Dora school house Thursday night delivered by Mr. Cox was well rendered, his subject being "How to Get Married and Stay That Way." We noticed the schoolers gave a very attentive ear to the lecturer.

Mr. George McMillan made a trip to Portales Friday and brought out a load of lumber for a Mr. Dutton of Parsons, Kas., who is to build on the claim one mile south of Dora.

The pie supper at Thompson's school house last Saturday night was a grand success. The pies were sold to the highest bidder to make money for the calling of the school house. The proceeds were near \$30.00. The writer could learn of a crowd from Dora, attended the Dora "Male Quartette," sang them a song entitled "The Antingale." E. J. and G. C. Bradford and Mr. McClintock from Dora entertained the audience with music on the violins and guitar.

Some candidates were at the pie supper and announced their candidates.

Notice to Singers.
Arch, N. M., 5-16-08.
Editor Roosevelt County Herald.

Dear Sir:
There will be a meeting of the Roosevelt County Singing Convention on Saturday night and Sunday, Mar. 28th and 29th. Each class is allowed three delegates. Those coming from a distance should come Saturday night.

G. F. LAND,
Pres.

Call up Phone 78 when you want meat, eggs, etc., for breakfast. They will be delivered promptly.

Uncle Bob, Forbis, one of Roosevelt county's old and respected farmers, was in from Canby this week bringing his chickens, eggs and butter to the Horton Market.

Mrs. Callie Maxwell and children, who have been visiting in Portales, left for their home in California Tuesday.

Don't miss our big street parade at noon. The Elder King of the Court line carries one of the best concert bands in the road.

J. A. Saylor, with the Saylor Confectionery, is having a well defined stock of his store to run his soda fountain with.

Dad Hardy, Proprietor Hardy Hardware Co., left Tuesday morning on a visit to relatives and friends at Ardmore, Okla.

The P. V. railroad has put new benches (with backs to them) in the depot at this place, which helps the look of the waiting room considerably, and also the patience of their to be passengers.

Joe Adlington has received his skates, which are full bearing. He and three or four good ones, and the lovers of the sport can now skate on a good floor with most skates to their hearts content.

The Roosevelt County Democratic Executive Committee met at the court house in Portales last Saturday and decided on June 8th as the date for the primary election. It is the duty of everyone to cast a vote on that day, and we hope there will be a full vote polled.

For Silverware, the finest ever brought to Portales, see Pearce & Dobbs.

Mr. Alva Williams of the Portales Realty Co., while visiting his home at his claim last week, fell and broke his arm in two places, fractured a rib and bruised himself up considerably, though not seriously.

The young folks had a party at the residence of G. A. Low, two miles Northwest of town, last Saturday night, with a very good crowd present, and all expressed themselves as having a "high time," and left with the wish for another one in the near future.

A Reason For Everything

There is a reason why so many people do business with us.
There is a reason why we have One Thousand Depositors.
There is a reason why we have in the fullest degree the confidence of the people.
There is a reason why we do not have to ask our borrowers to make sacrifices to pay their notes due us.
There is a reason why we do not have to borrow money.
There is a reason why we are lending money when other banks don't.

The Reason is Good Management and that the best there is in banking is found at the **FIRST NATIONAL BANK** of Portales, New Mexico. We have an abundance of money, our cash and exchange being over **ONE HUNDRED THOUSAND DOLLARS (100,000.00)**.

For the present we will lend our **BEST INTEREST** money for actual needs. If you have kept your money with us and are now without, we are ready to show our appreciation in a manner commensurate with the value of your account as a depositor when times were good. If you have not been fortunate enough to have had a deposit account with us, we may help you anyway, circumstances will govern.

From Plateau.

Men are studying some, though our school is still small.
Did you see D. J. Howard and J. L. Monroe with those receipt books? That means pay your poll tax.
D. J. Howard is busy assessing taxes and shaking hands with the good people. He is candidate for County Commissioner and is going to be elected.
Many prospectors at Plateau this week.

We are all going to vote for E. H. Robinson of Texas for School Superintendent. Not that we like him, but others less, but Robinson is a man, a teacher and well fitted for the work.
E. V. Monroe lost a fine young horse last week.
E. D. Ryan, the real estate man, is rustling for business.
Our town well is 125 feet deep with prospects of water.
Simon "overcrow" was sent from John Wyle last week. Dry and lock your doors.
E. L. Hainical is all smiles. It is a girl.
T. H. Norris is home from an extended visit to Oklahoma. He is now accumulating votes for what to buy anything in the way of notions.

The Pecos Valley Hotel.

Since buying this hotel, the proprietor, Mr. Josepa Bugas, has been repairing and fitting up same and today it is one of the best hotels in this part of the territory. Its bill of fare is unsurpassed by any hotel in these parts. The hotel is situated near the depot and its accommodations proper for transient trains. Drummers and the traveling public generally are respectfully invited to visit this house their headquarters when in the city.

The fact that we have sold 490,905 pounds of coal in the last 35 days is positive proof that our coal is the best ever brought to Portales. **T. M. Laister.**

S. A. Bird will be Wednesday for San Antonio, where he is to attend the Gentlemen's Convention.

In the announcement column

of this paper will be found the name of M. H. Davis as a candidate for Commissioner of Precinct No. 2. Mr. Davis is favorably known by a number of our citizens. He has been a citizen of this county for five years; has served a number of years in Texas as County Commissioner and County Judge, which enables him to come before the people well qualified to protect and guard their interest as Commissioner. He refers you to any citizen who knew him as an officer.

The Republicans of Roosevelt county met at the court house Monday, March 16th, for the purpose of selecting delegates to the Republican Convention at Silver City. W. J. Hagan was elected chairman and E. L. Bruce Secretary. Everything passed off quietly and harmoniously. The following delegates were selected: W. E. Lindsey, Portales; A. L. Brooding, Texico and A. J. Matthews, delegate at large, Melrose.

Mr. E. C. Price announces in this

DO YOU KNOW PROFESSOR HOLDEN?
The Man whose Corn Lectures and Corn Trains have Added More than Twenty Million Bushels to the Corn Crop of Iowa.
Prof. Holden has prepared for us a book which gives the cream of his lectures on corn growing. It tells all about seed selection, seed testing, getting a stand, corn judging, corn pests, etc. etc. It is a practical farmers handbook. It is not theory, but practice, just as it has been worked out on the farm. The name of this work is
THE A B C OF CORN CULTURE
"MOST VALUABLE BOOK OF THE CENTURY"
A. I. Root, the veteran agriculturist and bee man, says: "This book is the most valuable work published in last century if the farmer will take right hold of it with enthusiasm and put its teachings into practice."
The book is 5 1/4 by 8 1/4 inches. Contains 100 pages and over 30 illustrations. Well printed, neatly bound. We want to put this book in the hands of every live farmer and farmer's boy in the country, and will make the price low accordingly.
A BARGAIN PRICE Send us 10 cents, coin or stamps, and we will send you the book by mail postpaid. If, when you get it, you are not satisfied drop us a card and we will return your money, also postage for the return of the book. Could anything be fairer? Address

There is a scheme on foot in the democratic party of this county to inveigle the Republicans in to the Democratic primary on the grounds of assisting some friend to secure the nomination and then by placing a pledge on the primary ticket obligate all who cast one of these primary ballots to support the straight Democratic ticket. This is a remarkably high handed proceeding and should keep all people out of the Democratic primary who value his right of suffrage to vote according to the dictates of his own conscience. All Republicans who value their standing in the party will not think of entering the Democratic primary. The Republican party of Roosevelt county will have a ticket in the field composed of as good men as the county affords and we ask all men who believe in Republican principles, fair play and good government to give the Republican ticket just and fair consideration.—Portales Times.

If the United States land offices should decide not to publish any more land notices, how many Republican papers in the territory would "drap out" within the next few months?
The Republican Territorial Convention will be held at Silver City. We venture if there had been a town in New Mexico whose name came nearer suggesting "pie" than Silver City the convention would have been held at that place.

New Mexico, as never before, is filling up with homesteaders and farmers. These are the people who are the real bulwarks of any country. And the fact that New Mexico is now getting her share of the immigration is proof that the outside world is beginning to recognize the advantages existing here. Then we say come on; more farmers are needed to till the soil, more are needed to build churches and school houses, and last, but not least, to assist in the formation and upbuilding of a grand commonwealth where justice reigns, and corporations shall not rule.—Capitan News.

In a few years Cotton will be the leading product of Eastern New Mexico.
Last Friday was an ideal spring day.—And the wind wasn't blowing either!

Amtrillo is preparing for a big fair, in which every town in the Panhandle will participate.

The Tolar Tribune, edited by Jas. R. Little, formerly of this place, is the latest addition to our exchange table. The Tribune is a well gotten up, four page, five column weekly, and would do credit to a town many times the size of Tolar. Here's hoping the Tribune will live long and prosper.

It is time for the Democratic papers to show their colors. If all the papers in the territory that favor Democracy would come out and fight for their principles there would be a great addition to the Democratic ranks at the election. Run up the battle flag, and don't be afraid of what these little "in-it-for-the-money-of-the-Republican-land-office" sheets may say. Let 'em howl; that proves you are doing some good. Let's all join together and send a Democratic delegate to Congress next year.

Former Delegate to Congress, B. S. Rodey, has suggested "Acoma" as the name of New Mexico when she becomes a state.

Some of the Republican papers in the territory get so disgusted with Republicanism that they can't keep from wobbling over on the Democratic side occasionally.

The Republicans throughout the territory are really getting anxious about the outcome of the coming election, although they try to hide the fact. And they certainly have cause to get scared, for the Democratic party has a better chance now than ever before, and if the territory doesn't go Democratic the race will be so tight there won't be anything for the Republicans to brag about.

Do you want to help the town in which you live? Build sidewalks, plant trees,—help to make the place more beautiful. You do not have to be a capitalist to do this. Every man who owns a place should be willing to improve it, not only for his own comfort, but for the comfort of his neighbors.—Brownwood Bulletin.

Mrs. Hetty Green made the remark that she would rather have her daughter wed a live, energetic newspaper man than any duke or count in the world. Will someone please inform us by return mail if Mrs. Green has a marriageable daughter, and if so what her address is?

The Democratic primaries are for Democrats, and pledges on the primary tickets are to keep any other than Democrats from voting in them.
Give us a square deal, Mr. Times.

"President Roosevelt is getting on," says the Providence Journal. "His cable to the President of Peru reads like the egoism of any Hottentot chief who carries his tribe in a bag behind 'Accept the assurances of the highest consideration and warm regards from me and my people.' The 'my people' might have been forgiven if he had put it before 'me.' But 'me and my people.' Now we know why he took 'In God We Trust' off his and our gold pieces."

The Democratic National Convention to be held at Denver will be the greatest event ever witnessed in the Southwest. Every one who can possibly do so should attend.

MEETING OF THE DEMOCRATIC EXECUTIVE COMMITTEE

Special Call of Committee to Determine on Date of Primary Election and Rules For Governing Same.

Committee met at 2:00 o'clock p. m. at the court house in Portales, New Mexico, on Saturday, March 14. Chairman Nixon presided and called for suggestions on time for holding primary.

Several suggestions were made from members of the committee and also from candidates.

Call for expression from all Democrats as to pledge.

Mutilated ticket discussed as to disposition.

Rules read and offered by Mr. Fridley.

Moved by Mr. Taylor that we adopt the rules read at this time.

First paragraph read and discussed. (copy attached.)

Moved by Mr. Taylor that we adopt the first paragraph as read. (Carried.)

Second paragraph read and adopted.

Third paragraph read and adopted.

Resolution as to wording of the pledge for the ticket read and adopted. (copy attached.)

RULES ADOPTED BY THE COMMITTEE FOR THE PRIMARY TO BE HELD ON THE SIXTH DAY OF JUNE, 1908.

I.—There shall be three Judges appointed by the Chairman of this Committee, and they to select two clerks, and should any of the Judges fall to appear and act by 8 o'clock a. m. on the said day of holding the said primary election, the vacancies shall be filled by those officers present, and should none of the Judges appointed by the Chairman of this Committee appear to open the polls and to hold the said primary election at the hour named above, then the Democratic voters present may select from their numbers the said three Judges and two clerks, and proceed to open the polls and hold the said primary election at the various voting places that are now or hereafter may be established in said county. Provided that four clerks, if needed, may be used at Portales, Texico, Melrose, Clovis and Elida.

II.—The Judges and Clerks shall open the polls at 8 o'clock a. m. on the said 6th day of June, 1908, and keep said poles open until 12 o'clock noon of said day, and said election board may close the said polls until 1 o'clock p. m., at their discretion and they shall reopen the said polls

Medicine that is Medicine.

"I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters: a medicine that is medicine for stomach and liver troubles and for run down conditions," says W. C. Kestler, of Halliday, Ark. Electric Bitters purify and enrich the blood, tone up the nerves and impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at Pearce & Dobbs' Drug Store.

Ask for the Tickets

A number of the enterprising business men of New Mexico have interested themselves in giving away, absolutely free, a beautiful Diamond Ring, a Gold Watch and a valuable Organ.

The organ is to be given to the organization receiving the greatest number of votes, and the diamond ring and the gold watch to the two individuals receiving the greatest number of votes—the one getting the greatest number get the ring and the one receiving the next highest the gold watch.

The plan is a novel one and at once commends itself to the public, there being no outlay on the part of any one other than the people who are doing this to stimulate cash trade, and at the same time bestow valuable gifts that will be a permanent advertisement to them.

A ten cent purchase entitles to one vote, 20 cents to two votes, 50 cents to five votes, \$1 to 10 votes and so on. Tickets should be filled out in ink or indelible pencil and can only be had from the firms who have secured an interest in the contest, and on cash purchases. No charge whatever is made for tickets. You can vote for the organization and individual of your choice, on each ticket. Each week the vote will be counted and the standing announced in the Roosevelt County Herald. A disinterested committee will be selected to count the vote. Contest will close April 15th, 1908, at noon, at which time the organ will be awarded the organization having received the greatest number of votes, and the diamond ring and watch to the individuals having received the greatest number of votes.

The merchants interested in the affair agree, should a tie occur, to divide the amount of the prize equally among the tying contestants.

The following firms will supply voting tickets free of charge on line of goods indicated and take pleasure in explaining all about the contest:

SERIAL STORY
LANGFORD
of the
THREE BARS
AND VIRGIL D. BOYLES

SYNOPSIS.

Williston, a poor ranchman, and cultured, searches for a spot in the river. The "Three Bars" ranch is an island in the river at high water, he discovers these thieves engaged in work on the cattle. He creeps up to note the changing of the brand on one steer to the brand of the "Three Bars" ranch. The rich "Three Bars" ranch is sent to Williston his friend, if he can get the law and authority. Langford is struck with the beauty of Mary, commonly known as the "Three Bars" girl. Louise, a court reporter, who had her uncle, Judge Hammond, living with him in Wind City, is ordered by the county attorney to come to Kansas and make her first trip into the Kansas country. Arriving at Velpen on the river from Kansas, she is met by Williston, a hot blooded cowboy of the "Three Bars" ranch. In waiting for the "Three Bars" ranch, she is met by Williston, a hot blooded cowboy of the "Three Bars" ranch. In waiting for the "Three Bars" ranch, she is met by Williston, a hot blooded cowboy of the "Three Bars" ranch.

CHAPTER V.—Continued.

"Where is the Three Bars?" asked Louise, sinking into a chair at the nearest table, with two other women. One was, that she had seen Helen could have seen along in the wake of this "bold and licentious" man, and comfortably sitting at a cozy little supper for two in a comfortable house; the other thought was to the effect that the invitation was redolent with the promise, and she wondered if not expected to say, "A whiff of home, please."

"Where is the Three Bars?"

"I have some tea and toast," said Louise, sinking into a chair at the nearest table, with two other women. One was, that she had seen Helen could have seen along in the wake of this "bold and licentious" man, and comfortably sitting at a cozy little supper for two in a comfortable house; the other thought was to the effect that the invitation was redolent with the promise, and she wondered if not expected to say, "A whiff of home, please."

"Mr. Williston informed, did he not?"
"Williston? Oh, yes, he informed, but he'd never 'a' done it if it hadn't 'a' been for the boss. The ol' jellyfish wouldn't 'a' had the nerve to inform without backin', as sure as a stone wall. The boss is a dot'n this, I tell you, Miss. But Williston 's a goin' on the stand to-morrow all right, and so am I."

The two cowboys at the corner table had long since finished their supper. They now lighted bad-smelling cigars and left the room. To Louise's great relief Munson rose, too. He was back very soon with a neat little runabout and a high-spirited team of bays.
"Boss's private," explained Jim with pride. "Nothin' too good for a lady, so the boss sent this and me to take keer o' it. And o' you, too, Miss," he added, as an afterthought.
He held the lines in his brown, muscular hands, lovingly, while he stowed away Louise's belongings and himself snugly in the seat, and then the blood burned hot and stinging through his bronzed, tough skin, for suddenly in his big, honest, untrained sensibilities was born the consciousness that the boss would have stowed away the lady first. It was an embarrassing moment. Louise saved the day by climbing in unconcernedly after him and tucking the lines over her skirt.
"It will be a dusty drive, won't it?" she asked, simply.
"Miss, you're a dandy," said Jim as simply.
As they dove upon the pontoon bridge, Louise looked back at the little town on the bluffs and felt a momentary choking in her throat. It was a strange place, yet it had tendrils reaching homeward. The trail beyond was obscurely marked and not easy to discern. She turned to her companion and asked quickly: "Why didn't Mary come?"
"Great guns! Did I forget to tell you? Williston's got the stomach-ache to beat the band and Mary's got to physic him up 'gin to-morrow. We've got to get him on that stand if it takes the bull Three Bars to hol' him up and the gal a pourin' physic down him between times. Yep, Ma'am. He was

"The Three Bars is gettin' busy!" glibbed Jim over his shoulder.
"It's a sorry day for you and yours," cried the other, in black and ugly wrath.
"We ain't afraid. You're nothin' but a hons thief, anyway!" responded Jim, sleepily, as a parting shot.
"Now what do you suppose was their game?" he asked of the girl at his side.
"I don't know," answered Louise, thoughtfully. "But I thought it not wise to say too much to them. You are a witness, I believe you said."
"Then you think they are part o' the gang?"
"I consider them at least sympathizers, don't you? They seemed down on the Three Bars."
In the Indian country at last. Mile after mile of level, barren stretches after the hill region had been left behind. Was there no end to the thirst-inspiring, monotonous, lonely reach of cañon? Prairie dogs, perched in front of their holes, chattered and scolded at them. The sun went down and a refreshing coolness crept over the hard, baked earth. Still, there was nothing but distance anywhere in all the land, and a feeling of desolation swept over the girl.
The moon came up. Then there were miles of white moonlight and lonely plain. But for some time now there has been a light in front of them. It is as if it must be a will-o'-the-wisp. They never seem to get to it. But at last they are there. The door is wide open. A pleasant odor of bacon and coffee is wafted out to the tired travelers.
"Come right in," says the cheery voice of Mary. "How tired you must be, Miss Dale. Tie up, Jim, and come in and eat something before you go. Well, you can eat again—two suppers won't hurt you. I have kept things warm for you. Your train must have been late. Yes, dad is better, thank you. He'll be all right in the morning!"
(TO BE CONTINUED.)

Man's Prejudice for Sick Clothes.
In opening an artistic dress exhibition Mr. Louis N. Parker, master of the recent Warwick pageant, said there could be no doubt that the clothes men wore were foolish, says the Fall Mall Gazette. He claimed that as woman could array herself in sympathetic colors and flowing folds, the time had arrived when man should be placed on equality with her, instead of the having to array himself in black for dinner, the theater, funerals and weddings. He believed and hoped that his pageants would do something to sweep away the prejudice for black, for it was a horrid custom on the part of civilization.
Correct Interpretation Essential.
Many of the most beautiful pieces of poetry in literature would seem uninteresting and flat if read by a bad reciter. In the same way, a good reciter will make attractive a poem whose beauties are not so apparent. A fine painter will light up each little beauty in his pictures until the smallest detail is attractive and strikes the eye. It is only the mediocrity whose work is characterized by sameness and lack of interest.
Hypnotic Sunstroke.
A German physician who had a patient who could not afford to go to a warm climate, thought he would accomplish the same result by means of hypnotism. The doctor chalked a picture of the sun on the ceiling, and by suggestion induced the patient to believe it really was the sun and that it would cure him. But the patient soon died. When the doctor's friends gazed him about the novel treatment he indignantly explained that the patient was getting along nicely and would have got well had he not unexpectedly died of sunstroke.

ALFALFA IN THE NORTH.
Discussion of the Best Methods of Securing a Stand.

Alfalfa for Wisconsin and the possibilities of growing this wonderful plant in our northern latitudes was the theme of an interesting and helpful address by Prof. R. A. Moore of the University of Wisconsin, before the 1908 meeting of the cheesemakers' association. Prof. Moore believes that alfalfa, while yet in its experimental stage in Wisconsin, has come to stay.
A thing most important in the production of alfalfa is testing the seed for germination. In recent years alfalfa seed has tested as low as ten per cent. germinating quality. Much of the germination power is ruined in the way alfalfa seed is occasionally handled through heating before being separated, etc. The remedy for farmers is, of course, to put the seed through a germinating test before seeding. The usual process may be followed, taking for example 100 seeds and placing these on a moistened pad of cotton cloth, a similar pad placed on the top of these between two plates, where they may be left at the proper temperature for a few days to germinate. Then remove the top plate and pad and count results. If the seed tests below 80 per cent. you may begin to feel suspicious of it.
In securing this crop in these northern latitudes the farmer should first learn how, experimenting in a small, though practical way. Put in an acre, or a half acre, to begin with, and then start in to get conditions right.
Do not seed on low, level valley. Select a gentle slope. An ideal soil for alfalfa is a clay loam on top of gravel. This plant wants a soil it can penetrate. You, who are at all familiar with alfalfa, will remember that it sends down a taproot occasionally 10 to 15 feet and more. Where alfalfa will be grown to advantage in the near future in Wisconsin is in the older, subdued soils of the south central counties. Further north in the state its development must necessarily be slower.
Alfalfa is easy on a soil. It is a legume and has the power of taking nitrogen from the air, a most wonderful and valuable consideration. In preparation of the soil we like to sow alfalfa in rotation with other crops. We like to use a thin sward crop of either oats or barley, preferring barley, if this does well on the land. Make a fine seedbed in the spring and sow one bushel of oats or barley to the acre and 20 pounds of good alfalfa seed. Put in only one or two acres at most at the beginning, and not 40 acres. We must largely learn by doing, even though we understand the principles of alfalfa growing. It is often found best to cut this crop the first year, in order to prevent the nurse away from smothering the young alfalfa plants. Out the oats the first year for hay and you may possibly cut a second crop of alfalfa the same season.
In harvesting, cut in the morning after the dew is off the ground and on a fair day. In the afternoon rake into windrows and cock it up, even if it appears quite green to the eye. You will thus save the leaves through excessive drying off. They will not crack and become lost. I favor the use of hay racks to protect alfalfa from sun and air. It keeps the plant palatable to stock. We like, if possible, to let alfalfa go through the sweating process in the cock before taking to the barn.

It is often found best to cut this crop the first year, in order to prevent the nurse away from smothering the young alfalfa plants. Out the oats the first year for hay and you may possibly cut a second crop of alfalfa the same season.
In harvesting, cut in the morning after the dew is off the ground and on a fair day. In the afternoon rake into windrows and cock it up, even if it appears quite green to the eye. You will thus save the leaves through excessive drying off. They will not crack and become lost. I favor the use of hay racks to protect alfalfa from sun and air. It keeps the plant palatable to stock. We like, if possible, to let alfalfa go through the sweating process in the cock before taking to the barn.

REPAIRING BUGGY WHEELS.
Holder Which Will Make the Task an Easy One.

Make a box eight or ten inches square at the bottom and six inches square at the top, 2 1/2 to 3 feet tall, as shown in fig. 1.

The shop floor, explains the Prairie Farmer, place the box over it, catch the eyebolt into the hook, place the wheel on top of the box with a board washer and tighten the nut on the eyebolt to hold the wheel while at work, as in fig. 2.

TOO MUCH. THE IRISHMAN'S RETORT.

He had married a rich and beautiful widow, thus making it unnecessary for him to ever work again. At first he appeared to be very happy, but before long his friends began to notice a look of sadness on his countenance. He seemed to be gradually sinking into a state of melancholia, and one morning the community was startled by the announcement that he had applied for a divorce. Then it was that one of his friends went to him for the purpose of learning the nature of his trouble.
"Surely," the friend said, "you must be mistaken in your suspicions. Your wife is one of the most estimable women I ever knew. It is impossible for me to believe that she can have given you any reasonable cause for a separation. Come, old man, make a clean breast of it. Perhaps you have become morbid and fallen into the habit of imagining that things are worse than they are."
"No, I appreciate your kindness; but my imagination is not in any way to blame. I prefer not to say anything about it."
"Well, if your wife has been guilty of any wrongdoing I'll confess that I have no ability as a judge of human nature. I have always considered her one of the most—"
"Who said anything about my wife being guilty of wrongdoing? She's the sweetest little woman in the world."
"Then why do you want a divorce?"
"Well, I suppose it'll have to come out, anyhow, so I'll tell you. Her big brute of a son, who is a college athlete, calls me a mollycoddle, and, by George, that's a thing I can't stand even for the sake of being able to get along without caring whether I have a job or not."—Chicago Record-Herald.

THE DRINK AGAIN.

James—I'm glad I've met you, doctor. Can you give me anything for a bad headache?
Doctor—Have you had had headaches before?
James—No; always after.

Reciprocity.
Penelope—What is his pet name for you?
Perdita—He calls me his "doe," because I am so sweet and gentle.
Penelope—And what do you call him?
Perdita—I call him my "dough," because he is so soft.

Broke His Promise.
His Wife—Before we were married you once said you would give the world for me.
Her Husband—Well, what if I did?
His Wife—Why, now you won't even sell that little old corner lot downtown so I can get an electric runabout.—Chicago Daily News.

SADDEST PART OF IT.

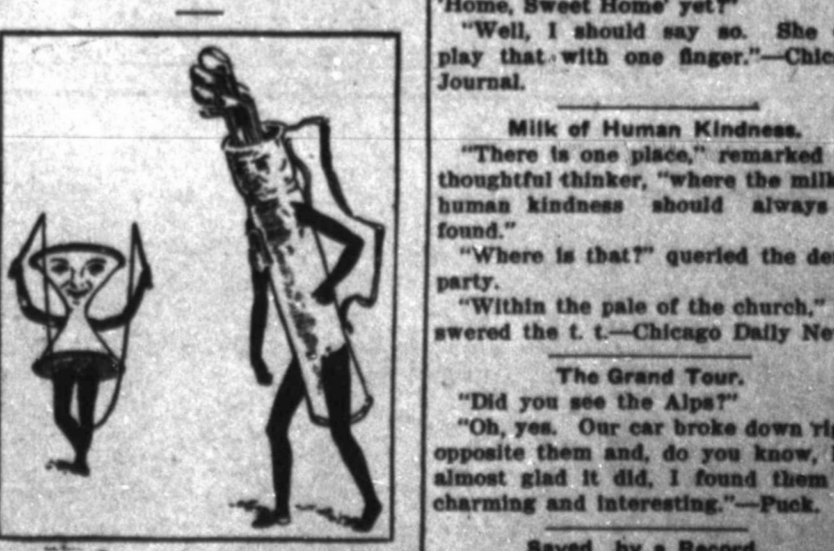

"Can your little daughter play 'Home, Sweet Home' yet?"
"Well, I should say so. She can play that with one finger."—Chicago Journal.

Milk of Human Kindness.
"There is one place," remarked the thoughtful thinker, "where the milk of human kindness should always be found."
"Where is that?" queried the dense party.
"Within the pale of the church," answered the t. t.—Chicago Daily News.

The Grand Tour.
"Did you see the Alps?"
"Oh, yes. Our car broke down right opposite them and, do you know, I'm almost glad it did. I found them so charming and interesting."—Puck.

Saved by a Record.
The Pioneer—I was a burglar once, lord; now I'm a county councillor.
Judge—Then you are discharged, because of your previous good record.

JEALOUS.

Diablo—"I'm a reel crase, you know!"
