The Town Of Portales.

A sense of public pride is felt in the progress made in the organization of the town of Portales. It is just another expression of the determination to build a town here that will be worthy of our own people and that will appeal to the prospective citizen. No town the size of this could be made decently and safely habitable without a local government. The problems of a town government are many, not the least of which is the maintenance of a proper sanitary condition. This is acknowledged as a specially urgent necessity here, but our Council will solve all these problems in the due course of time. It can not all be done in a day but it will be done as rapidly as good business methods and scientific processes will justify. A complete system of sewerage will be installed and other approved methods of public sanitation will be adopted.

The days of the saloons are numbered. This means well for the commercial, social and moral life of Portales. In a very short time they will be gone and the money which has flowed to no purpose through that channel will begin to flow into the channels of legitimate lines of trade. The producer will get something genuine for his product and be a better producer besides. The men engaged in the business will find ample room, if they want it, in other lives and they will undoubtedly live it better.

The Council is working steadily to give us a good town and they ought to have every possible moral and active support. We venture to assert that there is not a town anywhere that can show a council which represents more capacity for competent service or more conscientious regard for public interest than the one composed of W. E. Lindsey, W. O. Oldham, B. Blankenship, J. B. Priddy and J. A. Fairly.

The Portales Sanitarium.

More than a week ago a new and far-reaching enterprise, to be known as the Portales Sanitarium, took definite and concrete form in our midst. And when it is known that this Sanitarium, which will be completed and ready for occupancy by the 15th of the coming April, is absolutely the only institution of its kind in all the vast and densely populated territory between Amarillo and Roswell on the one hand and between Albuquerque and Abilene on the other; and when it is further known that the institution is to be built of brick and to be furnished with thoroughly modern equipment in every particular and that it is to be open to all reputable physicians and to the treatment of all diseases, save only tuberculosis, we will not be regarded as overstating the case when we say that Mr. Sam D. Lowry, the owner and promoter has placed this whole section of Texas and New Mexico, as well as Roosevelt county and Portales, under the deepest and most lasting obligations. And now that the institution has become a reality, the wonder is why some one didn't project such an enterprise long since. And why did Portales come to be so fortunate as to secure its location. The answer is at hand: Sam D. Lowry is a hustler, and he is more—he is an intently public spirited man, and he is also far-sighted enough

to see the need of such an institution and is conscious of the business ability to make it "go." The building of the Sanitarium will be a handsome two-story brick, trimmed with white stone, consisting of 20 rooms, heated with furnace and lighted with electricity, and will cost \$5000 or more. Dr. J. F. Garmany of Portales, will be physician in charge. The work on the building is progressing rapidly. Located one block south of the square, almost opposite to the Presbyterian church, it will be in easy access to all parts of the community. What more befitting monument could be erected to commendate the push and patriotism of one of the most progressive citizens of Portales? Long may it be a blessing to the sufferer, an inspiration to the worker and a joy to the promoter.

Territorial Lands Vacant.

The Commissioner of Public Lands at Santa Fe, N. M., advises that on February 19th, 1908, the Territorial lands listed below were vacant and subject to lease, all being situated within Roosevelt county. "The Future of The Democratic Party."

Under the above title Hon. W. J. Bryan contributes a carefully written article to the March number of Munsey's magazine. The article is stripped of all the passion of campaign stress and is the result of sane and deliberate calculation as to the party's hope for the future. The prediction has been passed around that Democracy has had its day of hope and that only gloom and permanent defeat await it in the future. Mr. Bryan does not believe that, and he gives convincing reasons for his opinion.

This article reviews the history of all our national campaigns from 1892 to 1908. In 1892 the Democrats won the national fight but they soon fell out among themselves over the money question, and the years since then

We are approaching the 7th milestone of our existence as a Bank in Portales.
..... 1902
Is the year of our birth and we can truthfully say "We have grown up with the Country" thus far. Since our organization we have paid dividends to stockholders every six months and have built up a business second to none in Eastern New Mexico.
At this time our Capital, Surplus and Undivided profits..... \$ 70,000.00
Deposits..... 225,000.00
Cash and Exchange..... 115,000.00
We do not owe a dollar of borrowed money. This shows confidence in our stability as well as a very prosperous condition of the Bank.
We thank our friends for their patronage in the years gone by and if we merit it we hope to make the New Year

have been spent either in contention or in the healing of troublesome wounds. But in the recent years the strife has been giving way to peaceful conditions and the healing wounds are being forgotten. The last campaign was far from a complete failure. Only nine hundred thousand more Democratic votes properly distributed would have given us a Democratic president. New Democratic members were added to both houses of Congress, several Democratic governors were elected where the Republican ticket usually wins. The party is imbued with the spirit of reform which Mr. Bryan declares is the popular demand of the American people at this time. As the exponent of this great demand, he believes the Democratic party is rowing with the tide and by this movement, will be borne into power. Republican pretenses and presumptions can not always control the political life of this great country, but the principles of the great party of the people will win as certainly as principals do not die. And Mr. Bryan believes that triumph is not far in the future.

The "Good Stuff" Stores are not only "growing up with the country," they are making the country grow. They are doing this by persistent adherence to their business methods. Our friends are well acquainted with the points on which we place emphasis. "ONE PRICE" that means a square deal for every customer. "CASH" for all sales that means a minimum profit to us and a lower price to our trade.

Large Purchases in The Market for Eight Large Stores

That means buying at low prices and all these points together produce the low prices which our friends are enjoying. In fact they are what brought the prices down. The "Good Stuff" Store will welcome you. When its over you'll be glad you came.

At the time of final proof on the new 320-acre homesteads an entryman in addition to proofs ordinarily required under homestead laws, shall prove by two reliable witnesses that at least one-eighth of the area embraced in his entry was cultivated continuously to agricultural crops other than native grasses beginning with the second year of entry, and that at least one-fourth of the area embraced in the entry was cultivated so continuously beginning with the third year of entry.

Texas Oil Company May Rival The Standard.
New York, Feb. 24.—In addition to extensive operations in the Southwest, a Texas company promises to become a serious rival of the Standard Oil Co. in the East. A large tract of land has been purchased at Bayonne, N. J., says the Herald today, and preparations have been made for the erection of several large tanks to supply the eastern markets. The site chosen for the plant is not far from the one now being established by the Standard. The aggressive policy of the company is ascribed to Jno. W. Gates who has become a director in the company.

Arizona Creates a Railroad Commission.
Phoenix, Feb. 24.—The house bill creating a Territorial railroad commission passed the council yesterday and went to the governor. It provides for the members to be appointed by the governor and confirmed by the council at a salary of \$2,500 per annum each. One must be a lawyer and one an experienced railroad man. Not more than two of the same political faith are to be named as commissioners. The council today also passed the horticultural bill providing for inspection of imported fruit trees.—Roswell Daily Record.

Oklahoma Dispenses With State Dispensary System.
Outhrie, Okla., Feb. 23.—The senate today passed a bill doing away with the state dispensary system. This is regarded as foreclosing similar action in the house. The democrats are for it. Should this bill become a law Oklahoma would have absolute prohibition, as liquors could not be obtained for medicinal purposes, save as they might be used in the compounding of physician's prescriptions that could not be used at beverages.

Dry Farming Congress.
Cheyenne, Wyo., Feb. 23.—With more than 900 delegates present and hundreds more to arrive on belated trains the third Trans-Missouri Dry Farming Congress opened its sessions here this morning and will continue three days.

A blanket of snow a foot deep greeted the delegates. The program today included an address by Governor B. R. Brooks of Wyoming, president of the congress, and reading of papers of delegates from a number of states on various phases of the problems of dry farming. A letter from President Roosevelt to Governor Brooks, extending his greeting and congratulations to the congress was read. The president expresses deep interest in progress of the work and says: "Any organization having for its purpose the development of the agricultural resources of the great arid section of the United States should have the hearty support of all good citizens. Be reassured that so far as lies in my power every thing that can be done will be done."

Washington, Feb. 23.—The verdict of the United States circuit court for the southern district of New York, imposing a fine of \$108,000 upon the New York Central Railroad company on a charge of granting rebates to the American Sugar company, was affirmed today by the supreme court of the United States. Rebates were charged in six alleged offenses and fines of \$18,000 each were imposed by the trial court. The government prosecuted under the interstate-commerce and Elkins laws.

Jefferson Davis' Name Restored On Bridge.
Washington, Feb. 22.—Official amendment for the sensational elimination of Jefferson Davis' name from the tablet on Cabin John bridge, six miles west of the city during President Lincoln's administration is given in the directions that the president issued today through the secretary of war to the chief engineers of the army to restore the name. The tablet was begun under Davis as secretary of war and when he joined the Confederacy and became its president this name

Flour Barred in War Time.
While the grading of Main street in this town was in progress the other day preparatory to receiving the macadam, which is being applied to the streets, the workmen discovered that their picks went to a depth that indicated a subterranean cavity. Upon investigation it was discovered that a trench to the depth of three feet had been dug, presumably during the war, and a number of barrels of flour put therein and concealed from the enemy on the evacuation of Manassas by the confederate troops.

A large quantity of barrel staves and a white substance resembling decayed flour were exhumed.—Manassas Correspondence, Richmond Times-Dispatch.

A Lively Disturbance.
Two young chaps from Buchanan, with probably more brawn than brain, came into town this week and on Wednesday night undertook to make a general rough house at the bowling alley. They were promptly arrested but while in the hands of the officers one of them tried to escape. Two shots were fired from Ed Hunt's gun before his flight could be stopped. They paid their fines on Thursday and left town having fresh in their memory another proof that booze is bad company.

District Court.
The grand jury and district court will begin work next Monday. Judge Pope and Attorney Fullon will be at their places and the mill will begin its usual grind on a variety of material. Sheriff Bain and Deputy District Clerk O'Connell are kept busy with the preliminaries, and the hotels and tradesfolk are "shining up" for the rush.

Miss Ula Belle Boone was visiting the Misses Morrison last week.

We hope to have Mr. Smith with us next Sunday to sing. We are to have singing every Sunday afternoon that the weather permits.

A large crowd enjoyed the hospitality of the good ladies of Lacy, who prepared a delicious dinner and served same at the school house Monday. The occasion was one of much enjoyment to the young people as well as the older ones who spent the day in putting out trees and beautifying the school ground. The men are to meet next Saturday and do some work on the school building which has not been completed.

He adopted the policy of running down his competitors.
He did not know that a fatal reaction always follows deception.

He did not make his advertisements interesting, attractive or convincing.

He did not follow up his advertisements until he got the ear of the public.

He never learned that many a good customer has been lost by a careless letter.

His advertisements "pulled," but the effect was lost by bad handling afterwards; in careless inefficient correspondence.

He was conscious of the superiority of what he had to sell, but did not know how to bring it to the attention of others effectively.

He did not know that a brief, graphic description, in a few short, pungent, telling sentences that will attract and hold the attention, is more effective than a whole page of fine print, written in a loose-jointed, hap-hazard way.—Success Magazine.

No doubt the Dry Farming Congress mentioned elsewhere in this issue will be of much interest to the farmers of this country. For the benefit of our readers The Herald will endeavor to give a brief resume of its work next week. The New Mexico and West Texas Districts were represented in the attendance and on the program of the meetings.

Women Rescued from Hotel Fire in Chicago.
Chicago, Feb. 24.—Three women unconscious from smoke, were carried from the building by the firemen when smoke attacked the Normandie Hotel in North Clark street today. The flames leaped across the Northwestern elevated tracks which pass the building and ignited the new terminal being built.

Fort Worth Stock Show.
The National Feeders and Breeders Stock Show will be pulled off in Fort Worth March 18 to 20th. A very comprehensive program has been published, including special side attractions. Geronimo, Apache Chief, was widely announced to be in attendance, but since his death arrangements have been made for Quanah Parker and a band of his Indians to be present.

Would Abolish Gambling in Futures.
Washington, Feb. 25.—Representative R. L. Henry of Texas, is striving to have the house committee on agriculture adopt his bill for prohibition of gambling in futures. The measure would make it unlawful for any telephone or telegraph or other company engaged in interstate commerce to receive and transmit any message relating to margin contracts for sale and to purchase agricultural products known as futures. The mails are also to be barred to speculators by the bill.

ABOUT THE HERALD

With regard to the HERALD we can simply promise to do our level best. We are making some improvements in different ways. A far as in us lies we want to give a better news service, covering the entire county with local news and giving brief general items. An effort will be made to print the right kind of news.

We can now do more and better job work. Power fixtures are being put in giving us a larger capacity. A large order of new display and job type is expected within a very few days, and we have a new foreman too, Mr. U. V. Dobbs. Everybody knows him. He is capable and accommodating. His work will be satisfactory to you. If your job can be done anywhere outside a city printing office it can be done here. Tell your troubles to "Buck" he'll fix you up.

We call attention to our splendid list of advertisers. They conduct legitimate businesses and will gladly give you prompt and satisfactory service. They are our friends and we shall be pleased to have our readers remember them.

**Development in New Mexico Con-
tinues.**

Santa Fe, N. M.—Territorial
Engineer Sullivan has approved
the application of J. W. Rayneids
and George W. Pritchard of
Santa Fe for the construction of
a reservoir twenty miles south
of this city. The project will
use the surplus water from the
Santa Fe river and place under
irrigation 15,000 acres of land
between Santo Domingo and
Albuquerque.

Land in the project is part of
the La Bajada, Cape del Rio, San
Domingo, Pueblo and Cieneguilla
grants. It is expected that \$150,-
000 will eventually be expended
in the project. The location is
ideal and the work will not be
difficult.

The College.

The final answer of the Board
of Trustees of the Baptist Col-
lege was last week acted upon
by a meeting of our citizens and
its adopted was unanimously
voted. This meeting was com-
posed of the members of the
proposed Baptist Industrial
College Promotion Company,
which is to be chartered and have
charge of the erection of build-
ings for the college. This work
will go forward as rapidly as is
possible, and if the people will
give this stock company the un-
failing cooperation and confi-
dence, we will see opened here
next September a prosperous,
high class school in a splendid
modern building, equipped for
the most up-to-date instruction.
But thirty-five men can not do
this alone. They must have the
support of the people. On the
terms of the agreement with the
college board they will collect
all pledges of cash made to the
school and will practically be the
agents of the school in disposing
of all lands given for its estab-
lishment. They are in this capa-
city not mere private promoters
but are in a very real sense the
servants of the public.

This enterprise is going to test
the public spirit of our people.
It is a good chance for us to show
that we can stand solidly to-
gether to build our town and de-
velop the country around it. There is
no room for any divisive jealousy
anywhere, but there should, on
the other hand, be the fullest
measure of mutual confidence.
Let us see that this thing goes on
without a jar and when the work
is finished we will feel a public
pride in it and a sense of satis-
faction in ourselves.

Violin Concert.

Portales people have a treat in
store for Thursday, the 4th, of
March, in a Concert by Prof. G.
W. Oles, the American Violinist,
assisted by the best of home
talent.

The Hon. Jas. Hedden, the
Mayor of Dowagiac, Mich., in
1890, before Mr. Oles health
compelled his coming West, says
of the latter: "After hearing
Musin, Remenye, Camillo,
Ursa, and many other artists on
the Violin, and having devoted
no little time to the instrument
myself, I do not hesitate to pro-
nounce Mr. G. W. Oles, second
to none."

Hear him Thursday, March
4th, at Methodist church, under
Auspices of the Woman's Club.

Minutes of Teachers Association.

Be it resolved: That we the
teachers of Roosevelt county,
New Mexico, in Association as-
sembled at Elida, N. M., do
heartily endorse the Reading
Circle work of the Territory of
New Mexico and agree among
ourselves to do all in our power
to make it a success.

Be it further resolved: We
realize the necessity of uniform
and punctual attendance at the
various meetings of the Teach-
er's Association, that we ask the
Territorial Superintendent to
suggest some way by which we
may enforce attendance at said
meeting; and also that teachers
will consider themselves under
obligation to comply with the re-

quirements of the County Su-
perintendent as to time and place
of meeting of various divisions of
the Reading Circle.

Whereas: There is a shortage
of finance in the various districts
in the county, resulting in un-
satisfactory terms of schools,
which is a detriment to the
pupils:

Resolved that we hereby re-
commend and petition the elec-
tors of the several school dis-
tricts to vote the 10 mill levy on
April 1909. Where no such levy
has yet been made, also that the
Directors certify the extra 5 mill
levy. Which levy will amount to
a 15 mill levy.

Whereas: There are five Ter-
ritorial educational institutions
west of the Guadalupe Mts., and
but one in the Pecos Valley, and
whereas hundreds of bright boys
and girls are going to the states
for educational training,

Therefore be it resolved that
we memorialize our Territorial
Legislature now in session to
grant to Eastern New Mexico a
Territorial Normal School em-
bracing an Arts- and Industrial
Department; also we ask our
several representatives in both
houses of the Legislature to use
their influence in behalf of this
laudable enterprise.

Resolved:—That we most heart-
ily thank the citizens of Elida
for their hospitality and gener-
ous entertainment accorded this
Association.

That we, the visiting teachers,
desire to thank Superintendent
A. V. Glasgow and his efficient
faculty, for their many courtes-
ies while in Elida.

Further, it is the desire of this
Association to tender to "The
Home Mission Society" and to
Mrs. C. E. Hall, at whose beauti-
ful home they were entertained,
their sincere thanks for the very
delightful evening spent with
them as their guests.

M. Z. SPAHR,
W. F. IRVIN,

Open in Omaha.

Omaha, Neb. Feb. 21.—Following a harangue at a mass meeting at the City Hall in South Omaha, a wild mob of 800 to 1,000 men started for the Greek quarters to avenge the death of Patrolman Edward Lewery, who was shot and killed Friday night by a Greek whom he had placed under arrest. Before thirst for blood had been satisfied, two boys were shot and at least eight persons injured by heavy missiles which the crowd used as weapons, and not less than thirty buildings were partially demolished. The injured boys are Frank Sweeney and Joseph Garble, each about 15 years old, who received part of the contents of a shotgun fired into the crowd by the maddened Greeks. The other persons injured were all foreigners.

A crowd of perhaps 3,000 or 4,000 quickly gathered to augment the size of the mob and a general assault was begun on the homes and business places of the Greeks. The maddened crowd began its work of destruction by throwing stones and brick through the windows of stores and houses known to be occupied by Greeks. In a very short time havoc was made with the fronts of these places and the stocks of the stores were quickly laid waste.

Two blocks east another crowd smashed the front of a saloon and several daring spirits attempted to pillage the interior when a squad of police charged the crowd and prevented the mob from securing the liquor. It was at this place the two boys were shot and other persons injured.

A third crowd rushed to Twenty-Fourth and L. streets and attacked a confectionary store run by Demos Brothers. The big plate glass windows were quickly smashed, the doors kicked in and the stock and showcases destroyed. Mrs. Mary Demos and her aged father were in the store and both narrowly escaped death at the hands of the mob.

The three attacks were made almost simultaneously and the destruction was completed before Chief Briggs could get his scattered force, which is not great at any time, together and stop the depredations. Mean-time Sheriff Brailey was notified. He collected all the deputies possible and rushed them to South Omaha to aid the police. It took some time to get the force organized, and during the interval the Greeks were attacked on every hand.

The members of the mob assaulted many Italians and Roumanians who were mistaken for Greeks. The lawlessness lasted for three hours before a semblance of quiet could be restored. At 6 o'clock Chief Briggs asked the Omaha city authorities to send all the available police officers to South Omaha, as more serious trouble was anticipated tonight. After considering the legal and other phases of the case, it was decided not to comply with the request for Omaha police. Sheriff Brailey will swear in a large number of extra deputies, who will co-operate with the South Omaha police in preventing further disturbance.

Quitters.
John Wannamaker once said: "If there is one enterprise that a quitter should leave severely alone it is advertising. To make a success of advertising one must be prepared to stick to it like a barnacle on a ship's bottom. He should know before he begins that he must spend money—lots of it. Somebody should tell him, also that he cannot hope to reach results commensurate with his expenditures early in the game. Advertising does not jerk—it pulls. It begins very gently at first, but the pull is steady. It increases day by day, and year by year, until it exerts an irresistible power. It is likened to a team pulling a heavy load. A thousand spasmodic, jerky pulls will not budge the load, while one-half the power exerted in steady effort will start and keep it moving."

Every one will be interested to know that "The Mocking Bird," was composed by Mr. G. W. Oles, the American Violinist, while he was hardly more than a boy. It meant getting out many a day before dawn, and with violin in hand, listening, to catch the voice of each bird. Hear it March 4th, at Methodist church, by Mr. Oles himself.

Revival Meeting.

Sunday February 21, revival services began at the Baptist church, this city, in which Territorial Evangelist T. Joe Talley will assist the pastor E. P. Alldredge and all the Christian people of the community will co-operate. Evangelist Talley is in every way eminently qualified for evangelistic work, being endowed with an unusually strong body, a well trained and consecrated mind and heart and above all a conviction that he has been chosen of God for his particular work. His work at Mangum, Oklahoma, extending over a period of nearly three years, was nothing short of marvelous, and per part of all he splendid little winning of know and love follow the I have known years or more know that he the work as a Evangelist say from the heart that I be the best field within ge. I could bottom of my believe him to man for the my knowledge, the people of give him a me and will appreciate at good which suit from his tales. Talley arrived afternoon

from his home in Clovis in excellent spirits for a good meeting. There is good interest and large congregations, both at the morning services which are held at 11 o'clock, and especially at the evening services which are held at 7:30 o'clock. Members of all the churches in the town are rendering valuable assistance in the song service. Large results are expected.

Election of School Trustees.

- 1. On the second Monday in March (March 8) school directors shall post notice of election to be held by them on the first Monday in April (April 1st) Please note that the elections are to be held by the directors serving and not by any three persons, as was attempted in some counties last year.
- 2. Hours of election, 8 a. m. to 5 p. m.
- 3. Place of election school house or some other convenient place specified in notice.
- 4. Result of election must be certified to county superintendent by directors giving notice of election and acting as judges of such election.
- 5. Term of office of newly elected directors begins first Monday in May following the election (May 3rd 1909).
- 6. Directors must file oath with county superintendent before first Monday in May, (May 3rd 1909). Take oaths before a notary public and send them to the county superintendent, separately, by registered mail.
- 7. The term of office of all appointed directors, expire May 3rd, 1909. If the district has been recently organized and all members of the board of directors hold office by appointment, three men must be elected one for three years, one for two years and one for one year.

Consult section 1532, Compiled Laws of 1897; Also Chapter LV Laws of 1901. Directors please give attention to the above provisions of the election law, as submitted to the county superintendent, by the Territorial Superintendent. County papers please give place to this notice. Respectfully submitted, Mrs. S. F. CULBERSON, Co. Supt. of Schools.

A Sprained Ankle.
As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time as by applying Chamberlain's Liniment, as directed, a cure may be effected in less than one week's time, and in many cases within three days. Sold by Pearce & Dobbs.

A future, if not a present financial mistake, will certainly be your reward if your liberal patronage is withheld from Newsum Com. Co.
