CONSTRUCTION WORK BEGINS IN EARNEST

Portales Irrigation Company Launches Work--Messrs. Fuller and Woods Construction Engineers--Matthews Gets Contract for Power House First Unit of 5,000 Acres to be Installed in April.

As announced last week Mr. P. E. Fuller who has a temporary leave of absence from the Agricultural Department of the government service, arrived in Portales Friday night, followed Sunday by Mr. Robt. P. Woods, of Indianapolis, Indiana. These gentlemen have charge of the work of the installation of the 10,000 acre irrigation project. At a meeting of the stockholders of the Portales Irrigation Company held at the court house Saturday afternoon, the construction work was outlined by Mr. Fuller, it being decided that the farmers should be asked to dig the several pits for installation of the motor and pump; but that the contracts for drilling of the wells should be handled through the Portales Irrigation Company, to whom bids will be submitted on specifications presented and the

contracts let perhaps in three or four groups, there being some 60 or 70 wells altogether. The wells must be drilled within 60 days, within which time Mr. Fuller proposes to have the main work of installing the first 5,000 acre unit of the plant completed. The pits will be six by ten feet and dug down to the level of the first strata of water, which in most cases is about 18 feet. The work on these pits has been going on in a cursory way for some two weeks, but has begun in dead earnestness since last Monday. The Portales Irrigation Company and the people of Portales in general feel flattered to have so capable a man as Mr. P. E. Fuller at the head of the work of constructing and installing our irrigation plant, and while we do not know Mr. Woods so well, we feel sure that the

Westinghouse Engine Company has in him an equally able and honorable representative in this gentleman who will sign the checks, and Etc.

Another matter of importance passed upon at the stockholders meeting Saturday afternoon was the assessment of a 25c an acre fee to cover some very important incidental expenses in closing up the irrigation proposition, the items for which the assessment was levied being as follows:

Trustees fee for holding bonds and mortgages	\$1500.00
Expense of three committeemen to Chicago and return	800.00
Incorporation fees	125.00
Recording fees	100.00
Testing plant	500.00

WELL DRILLERS WANTED AT ONCE!

The Portales Irrigation Company begins the work of installing her 10,000 acre irrigation plant next week and is under the necessity of sinking 73 wells immediately. Each well is to be 14 inches in diameter and of an average of 100 feet in depth. Owing to a strata of quick sand, it will be necessary to drill the wells inside of 15 or 16 inch casing, then insert 14 inch casing. Plans and specifications for these wells are on file in Secretary T. J. Molinari's office. Every competent man with proper outfit will be given a sufficient number of contracts to make it worth his while. But first come first served.

MACHINERY BOUGHT.

Friday evening Messrs. J. B. Priddy and B. Blankenship returned from Kansas City where, along with Mr. W. O. Oldham they purchased the machinery for the power house of the Portales water, sewer and light system. Mr. Oldham, however, did not return until Monday evening. As the foundation for this power house is rapidly nearing completion, it is believed that the machinery purchased by these gentlemen will be shipped into Portales.

Mr. W. H. Beck so long and so familiarly known and honored by the Portales people dropped into our little city once again last Saturday, remained over Sunday and left on the south bound Monday. He will look over some property in the Pecos valley and will return to Mississippi with the hope of again returning and making his home in Portales.

O. E. McQuatters has added new shelving and will shortly receive a large line of piece dry goods, in addition to his increased stock of gent's furnishings.

Dr. M. B. Jones of Elk City, Oklahoma, is in Portales looking over the county and especially some property he owns here.

There will be specially interesting services at the Baptist church Sunday. Pastor C. R. Stewart, of the Melrose Baptist church will arrive in Portales Saturday, preach Sunday, both morning and evening, at the Baptist church. BASKET BALL GAME

Portales basket ball team went to Clovis last Saturday and at 8:30 o'clock in the afternoon played an interesting game with the Clovis team, resulting in a score of 17 to 13 in favor of Portales. COWBOY REUNION A SUCCESS

The unique and novel show at the Wonderland Theatre last night in the form of a cowboy's reunion, given by Mr. and Mrs. J. E. Carroll of Erick, Oklahoma, was a decided success from every standpoint. The attendance was large and the interest intense. It will be repeated tonight so that every one can get a chance to see the realistic scenes which are reproduced from an actual cowboy's reunion held in Oklahoma, December 31, '09 and January 1, '10. The tickets are 10c and 25c each.

It now appears that the Quanah Acme & Pacific R. R., will be extended to Roswell within the next twelve months. Why may not Portales wake and get busy on some two or three of these half a dozen lines pointing this way?

JONES LOSES

Santa Fe, N. M., Feb. 12.—Territorial Engineer Sullivan this afternoon announced his decision in the A. A. Jones, Las Vegas Grant Board and J. D. Hand applications for the waters of the Gallinas, Sapello, Pecos, Pecos Arroyo and Sanguijela for large irrigation projects over which there has been controversy. He rejects the applications of A. A. Jones for his great irrigation project on the Preston Beck grant in Guadalupe county, on the ground that no actual survey has been made of the project; that the lines presented are impractical and unfeasible; that the water rights sought conflict with the U. S. Reclamation service and Territorial Carey Act filing for the Urton Lake project on the Pecos.

It is certain that an appeal will be taken to the territorial board of water commissioners and from them to the courts.

TWO QUESTIONS ASKED.

The editors were asked these questions:
Is the Hon. Joseph G. Canon of Illinois your choice for speaker of the next congress?

Do you endorse the Aldrich-Cannon tariff law or the Aldrich-Cannon organization of the senate and the house?

To each question there was an emphatic "No."

Ballots were sent, except to Chicago, to all of the editors in the following states:
Ohio, Michigan, Illinois, Indiana, Wisconsin, Iowa, Kansas,

Nebraska, Colorado, Oklahoma, Utah, Wyoming, Minnesota, North Dakota, South Dakota, Montana Idaho, Washington, Oregon, California, Nevada Missouri, Kentucky and Tennessee.

The ballots were sent to the editors of every newspaper, and each was asked to state his political affiliation. The answers of those who recorded themselves as Democrats are omitted from the compilation of the returns, as it was desired to secure only the opinions of the Republican and independent editors.

HOW TARIFF AND TRUSTS WORK.

New York, Feb. 17.—Now comes the pauper European hen to compete with the hard working American biddy and reduce the price of her industry. Paraffin-coated eggs from Europe, nearly a million of which were imported this week, were placed on sale today by hundreds of New York retailers at 3 to 8 cents a dozen less than the price of American cold storage eggs.

At the same time there came the announcement from the market men that American beef exported by way of New York to London is selling there at 3 to 5 cents a pound cheaper than the price asked here.

Wholesale beef prices, according to this statement were:
London—American frozen beef, 8½ to 9 cents per pound.
New York—American frozen beef, 11½ to 14 cents per pound.

The Stark Year Book for 1910

is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records.

25% Discount to Mail Order Buyers

is allowed from prices quoted in The Year Book for direct, all-cash-with-order business. Salesmen have been cut out—commissions formerly paid them is given to the planter—he can now have Stark Trees—the highest standard of tree-quality at prices usually asked for inferior nursery stock.

We Pay Freight—Pack Free and Guarantee Safe Arrival

In addition to giving 25% discount we prepay freight to any point in the United States on orders amounting to \$10.00 (net) or more. All orders are boxed and packed free (most nurserymen charge extra for boxing and packing). We absolutely guarantee safe arrival, give liberal premiums and assure every customer complete satisfaction.

\$15 per box for Delicious

Eight boxes of Stark Delicious, at the Denver National Apple Show, sold at \$15.00 per box, while one box was sold for \$25.00.
—J. W. Murray, Glenwood, Iowa.
That is the world's record price for apples. All the newspapers reported it—it further opened the eyes of planters everywhere. Only surpassing quality—complete apple supremacy could command such a price. Stark Delicious is all that and more.

If you have not yet planted Delicious or if your plantings of it have been small, make a big order for it this spring—don't wait another season. It is the greatest profit-producer in the whole list of apples—you simply can't afford not to have it in your orchard.

Don't be deceived by unscrupulous nurserymen offering you Delicious. There is but one Delicious and that is Stark Delicious—owned, controlled and sold only by us. Send your order early—our immense stock will be over-sold before the end of the season.

Black Ben Wins Carload Premium

Black Ben won the \$500.00 carload premium at the Denver National Apple Show. Here's a telegram:
At National Apple Show just closed five hundred dollar carload premium was awarded a car of Black Ben apples grown on one hundred sixty Stark Trees at Fruita, Colorado.
(Signed) Dr. B. T. Green, President
Fruita Chamber of Commerce.

Have you Black Ben in your orchard? If not get it in this spring—plant largely of it. As a commercial sort it is unsurpassed, a sure, regular producer of handsome profits. It sold this year at the Wenatchee Wash., Fruit Grower's Ass'n sale, at the same price as Jonathan—\$2.00 per box, while Ben Davis brought only \$1.40, Gano \$1.50 and Mo. Pippin \$1.50. You positively cannot make a mistake on Black Ben—plant it largely—you'll never regret it. As a filler for Spitzburg, Newtown, Jonathan, Delicious, etc., it is excellent.

Our stock of Black Ben is immense—finer trees never grew. Get your order in early.

From a commercial standpoint I fully and heartily recommend Delicious, Black Ben and Stayman Wineap as three of the finest varieties for commercial orchard planting. The eating qualities of Delicious and Stayman Wineap are superior to any other table apple while Black Ben is the apple for the masses. The keeping qualities of all three varieties are excellent. I came to the United States Land and Irrigation Exposition at the Coliseum, Chicago, with the Wenatchee Commercial Club Exhibit and have sold a number of boxes of Stark Delicious at \$10.00 per box. This, I think, speaks well for them. —C. W. Wilmeroth, Wenatchee, Wash.
Note: Mr. Wilmeroth spent 32 years on South Water St. Chicago as an apple commission man. He probably is the best posted apple man in the country.—Stark Bro's.

You will find 32 pages of color illustrations such as you never before saw. You will find the best list of the best varieties ever propagated—the varieties you want in your orchard. And you will find The Year Book the best salesman that ever called on you—it will tell you more than most tree salesmen ever knew.

If you are planting only one tree or many, you absolutely cannot afford to be without this incomparable book.

fruit you will want more. Stark Early Elberta will increase peach-orchard profits where ever planted.
I believe Stark Early Elberta is one of the best varieties introduced since the first Elberta came. It will no doubt play an important part in sections such as we have here where growers do not want too many varieties but must have early and late kinds. In Early Elberta one has all the good qualities of Elberta and the additional feature of early ripening.—E. H. Feyer, Horticulturist, Davis County, Utah.

General Stock

We never grew a finer or larger stock of all the popular western varieties than we are offering this spring. Tree-perfection is a description of every tree, and remember—we positively assure complete satisfaction. Most of the country's reliable nurseries are already sold out. The demand is ten times greater than the supply. We have the stock to fill every order for all sorts and the kind of stock that will make the buyer our lasting friend. But early buying is wise buying. It is to your advantage to order promptly.

Increase your orchard profits—do it by planting the splendid tested special sorts of Stark Trees. Begin now—don't wait until next season. Plant now and be that much nearer a big profit paying crop than you would be by waiting 6 months or a year.

Here is a brief list of varieties highly adapted to western conditions—the kind that will make a model orchard which will yield profitable returns.

Prof. H. E. Van Dames, Esq., U. S. Pomologist and chief judge of the 1909 National Apple Show held at Spokane, Wash., says: King David was the most beautiful apple I saw in all the West this year.

Our stock of the above and all other varieties worthy of propagation is complete in every sense of the word—all sizes in one and two year but only one quality—Stark Sterling Quality.

Our cherry trees are the top-notch of tree-perfection. Finer grape vines than the stock from our branch at Portland, N. Y., never grew, while the peach, apricot, ornamentals, etc., are just as perfect as modern nursery science can grow them. We can positively fill every order which is promptly sent.

Dropsy—
Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy and I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

SCHOOL NOTES.
Rev. Joe Hedgepeth visited the High School and 8th. grade Monday morning, giving interesting talks of the pioneer life and some good Indian stories.

Monday being Lincoln's birthday the pupils of the 8th. grade were asked to write essays on his life; the teacher in charge telling them that the best one would be selected and published in the paper. The pupils worked hard to excel. The essays were collected and submitted to a committee composed of three teachers. Committee: Misses. Ann Farrar, Lula Anderson and Lillie Franzene.

The committee reported Miss Alma Steward as having the best essay.

THE LIFE OF ABRAHAM LINCOLN.
Abraham Lincoln was born Feb. 12, 1809, Hardin County, Kentucky, and died April 14, 1865.

He came up from the humblest walks of life, his father having been a poor farmer in the pioneer settlements of Kentucky. When Lincoln was but seven years old, the Lincoln family moved to the state of Indiana, built a log cabin and began a failing struggle with poverty, hardships, and toil which was the constant lot of Abraham Lincoln in his early life. At the age of twenty-one his father moved to a farm in the prairie state of Illinois, where another log cabin was built and the struggle familiar to his Indiana life was repeated.

Until the age of twenty-one his entire education amounted to but twelve months of schooling, and yet during his youth and younger manhood he so applied himself to the acquiring of an education that he became one of the wisest statesmen of his time. His biographers dwell in detail on the untold hours he spent in studying geometry by the flickering light of the fireplace; and how through his speeches to rank with the finest specimen of English in our literature.

Before going to the presidency he had been but little in public life. He had served as captain in the Black Hawk war, was a member of the Illinois state legislature for several terms, and had served a single term in congress during the Mexican war.

As a lawyer, he rose to the head of his profession in the state.

At the time of the organization of the Republican party, he became one of its most prominent leaders. His debate with Douglas while contesting for the senatorship of Illinois revealed his keen insight into the science of government, and brought him prominently before the country as one of the rising men of the nation. As a leader he was king among men. His heart was as tender as a child's, and he loved child nature with such tenderness and affection that wherever he went he won the love of children. No man more fully realized the peril of the republic than did Lincoln when he was elected president of the United States.

On bidding his friends and neighbors good-bye at Springfield and upon setting out for Washington to assume the reins of government, he said, "I now leave, not knowing when I will return, with a task before me greater than that which rested upon Washington, without the assistance of the Divine being, whoever attended him, I cannot succeed, with that assistance I cannot fail. Trusting in him who can go with me, and remain with you, and be everywhere for good, let us confidentially hope that all will be well."

In his inaugural address, he said, "That the United States was one nation; that it was his purpose to execute the laws of the United States in every state of the Union, and that he would defend the Union at whatever cost."

On the question of slavery, he said, "he had no intention of interfering with the institution of

slavery in the states where it already existed, and that he would in every way give notice to the southern states that they would be protected in their rights the same as any other section of the Union, that one section of our country believes slavery is right and ought to be extended, while the other believes it is wrong and should not be extended." His closing words, memorable and touching, were to the South, he said, "We are not enemies but friends. In your hands, my dissatisfied fellow-countrymen and not in mine, is the momentous issue of the civil war. The government will not assail you. You can have no conflict without being yourselves the aggressors. You have no oath registered in heaven to destroy the government, while I shall have the most solemn one to preserve, protect and defend it."

The memory of Abraham Lincoln, the greatest emancipator, grows more brilliant with each passing year. We regard Lincoln today as the equal of Washington or any of the patriots. Even in the South where prejudice was strong against the martyred president at first but soon a new feeling of appreciation sprang up. Intelligent Southern people now realize that during the re-construction period, Lincoln would have been more of a brother to the Confederate states than to the politicians, then at Washington.

There was nothing of revenge in Lincoln's attitude toward the confederacy. In his heart there was only charity toward all.

COUNTY CORRESPONDENCE

BRUNGO, TEXAS

One month and a half of our beautiful New Year has passed, and I wonder how many made new resolutions and turned over a new leaf—has kept the new leaf white and unspotted.

Beloved readers let us examine our hearts daily and see if the swiftly flying years are carrying us down to endless woe an misery, or are we every day climbing higher towards celestial joys and place of happiness.

Our here-to fore quiet community has been shocked by a most cruel crime. A Mr. Bonard who has recently moved into the community went out one morning to drive in his horses and found three of them over in Texas with their throats cut. It hardly seems possible for an imp to escape from the lower pit and do such a thing. Mr. Bonard has the sympathy of the people, and some are proving their sympathy in a substantial way and it is to be hoped that the guilty parties will have to suffer the full penalty of the law.

School closed at Murphy's Chapel Feb. 7th.

Rev. Lovelady filled his regular appointment here Sunday.

Mrs. Eubank is visiting Mrs. Payne today.

Rev. Lovelady, Mr. and Mrs. Lunly and daughter Miss Bertie, and Miss Sallie Sudduth and Mr. Adams went to Mr. Fisher's from church Sunday.

CROMER.

We have been having some very cold weather but can stand it if will only end up with a good rain or snow.

Mr. Brandom is building a blacksmith shop, also a grocery store is going up near New Hope school house. Mr. Smithee will have charge of that.

Mrs. Epperson has been ill the past few weeks but is improving now.

Mrs. D. B. Moore is able to be up now, but it is still up to D. B. to do the washing and work.

Bro. L. L. Kyle gave us a good service at Dora last Sunday morning and evening.

A. J. Burkett is fencing off a pasture so as to have a place for his stock when the herd law goes in effect.

Mrs. Hess has built an addition to her concrete house in the form of a kitchen.

We are very glad to see R. A. Cromer's smiling countenance over the counter of his store.

Rev. D. B. Moore filled his appointment Sunday at the Oklahoma Church.

A NEW AND INTERESTING BOOK.

We are just in receipt of a very unusual book—"The Stark Year Book for 1910"—which is now being sent out by Stark Bro's Nurseries & Orchards Co., the famous nurserymen of Louisiana, Mo. The book contains 116 pages 82 of which are four-color process reproductions of fruit in nature's own colors—the most natural, like-to-nature illustrations we have ever seen. The other 84 pages are devoted to full descriptions and prices of the various fruit trees, shade trees, ornamentals, vines, plants, roses, small fruit plants, etc., grown by Stark Bro's.

Any of our readers who are planning to plant a home or commercial orchard, or to increase the beauty of their home grounds by planting shubery, roses or other plants this spring, should by all means send for the "Stark Year Book for 1910." It really is a remarkable volume—one you will thoroughly enjoy looking through because of its exceeding beauty and one you will find very practical and helpful. Stark Bro's have advised us they will send this beautiful book to anyone interested, on receipt of 7 cents to cover postage. Address them at Louisiana, Mo.

A BOOST FOR PORTALES.

The Roswell Register-Tribune, the great semi-weekly of the Pecos slope, has been putting on a new feature of late which is destined not only to multiply readers to its already large circulation, but is also proving a wholesome medium of publicity to the great and growing eastern half of the Land of Sunshine. The plan is simple and is void of any strings or graft, and consists only of their staff representative visiting the towns up and down the Pecos country and noting the advantages offered by each to the homeseeker and then devoting a page or more of their paper to an exhaustive illustrated write-up of each particular town. Portales is the last to fall heir to this benevolent privilege, which no doubt has been occasioned by the fact that its people is to join hands with its brothers in the Pecos Valley in extolling the virtues of the combination of an abundant water supply, a rich virgin soil and intelligent toil. Naturally would the progressive Register-Tribune "sit up and take notice" of the first town in Eastern New Mexico to lay hold of a scheme of irrigation such as the Portales Irrigation Company is installing, when it is remembered that everything is computed by the rule of the "duty of water" by the denizens of this, the greatest artesian well zone in the world. So, in accord with these facts, Portales was this week visited by Mr. J. M. Nicholson, staff representative of the aforesaid paper.

Yes, Portales was interrogated. Did we say Portales? Yes; her men, women, children, dumb-brutes, winds, sunshine, shopkeepers, industrial institutions, water supply, irrigation plant, the town people, the country people, the visitors—all, everything seen and unseen, came under the securitizing, omnivorous appetite for news and views of Mr. Nicholson. If we are guilty of any thing this staff representative knows it. If there is ought worth while in the efforts and outlook of Portales and Portales Valley we dare say, he knows it. Thank you, Register-Tribune, Portales is glad to be investigated, doubly glad because we know that no other town in Eastern New Mexico has greater undeveloped resources, none has a greater promise, none has a more certain or a more advantageous future.

METHODIST MEETING CLOSURE.

Last Sunday night a crowded house witnessed the closing exercises of a very successful protracted meeting which was conducted by the local pastor, Rev. C. L. Young and Rev. Joe Hedgepeth of Artesia who was formerly a cow boy in the wilds of the early days in Arizona. There was splendid attendance and marked interest from the beginning; and while the in-gathering was not what might have been expected, there was a decided uplift given to the religious life of our town. Mr. Hedgepeth is decidedly a popular speaker; and is the best illustration of the effective and wholesome use of stories in sermons we have ever met, notwithstanding the fact that he is but thirty-three years old. In addition he has decided oratorical gifts. But in it all he never lets a story, however good and telling, nor an oratorical flourish however imperial to sway him from the scriptural truth he is presenting.

In this respect, Mr. Hedgepeth is indeed a master and may be studied by other preachers with decided advantage. Again, his broad experience with the real ups and downs of a real life in its most vigorous and thrilling aspects, gives Mr. Hedgepeth what every preacher should consider his paramount need, viz: the ability to apply the message to actual and practical needs of the people he addresses. Finally, Mr. Hedgepeth is singularly free from hobbies and unbalanced conceptions of life and of the scripture teachings. Or to change the figure, he is one of the best examples of a well balanced man, understanding and prescribing for the plain man with equal facility and accuracy as for the college bred man. Mr. Hedgepeth carried away the hearts of Portales people.

THE BEVERIDGE BILL.

The principal provisions in the Beveridge bill affecting New Mexico are as follows: The constitutional convention shall consist of one hundred delegates; the apportionment shall be made by the Governor, Chief Justice and Territorial Secretary by counties in accordance with the voting population as shown by the vote cast for delegate in 1908. The election of delegates shall take place not earlier than ninety days after the passage of the bill.

The constitutional convention shall meet on the fourth Monday after the election and shall be in session no longer than sixty days. Immediately after organization it shall adopt the constitution of the United States; shall provide irrevocably for religious tolerance and against polygamy; against the sale or giving of intoxicating liquors to Indians or the introduction of liquor into Indian country; disclaim all title to unappropriated land or Indian lands; provide for equality of taxation between residents and non-residents; assume the valid debts of the territory; provide for the establishment of a public school system which must be conducted in English; provide that no law shall be enacted to abridge suffrage on account of race or color; that ability to read, write and speak English shall be a pre-requisite for all state officers and members of the legislature; that the capital shall be at Santa Fe until changed by electors; that there be reserved to the United States all water and other rights for the carrying out of the reclamation act and amendments; that the state acquiesce in the conditions under which lands are granted it by federal government.

The election for the ratification of the constitution shall not earlier than ninety days after the adjournment of the convention. If the constitution is rejected the constitutional convention called together within twenty days after the certification of the election.

If the constitution is ratified it shall be submitted to the president and Congress, and if both approve, or if Congress fails to approve, then on March 4, 1911, the President shall certify the fact to the Governor of the territory, who shall within thirty days issue a proclamation for the election of state and county officers, the state legislature and representatives to Congress; such election to take place not earlier than ninety days and not later than one hundred and eighty days after the proclamation, so that the earliest date for said election would be June 5th. and the latest October 4, 1911.

Sections two and thirty-two in addition to section sixteen and thirty-six of each township are granted to the new state and provisions are also made for lieu land and forest school sections. Grants are also made to the different educational institutions. The exact number of acres allotted to each to be determined by the committee on territories.

The act also provides that five per cent of the proceeds of sale of public lands, less expenses, shall go to the permanent school fund, and provision is also made for the disposition of lands heretofore granted and minimum prices fixed therefor. The bill appropriates the sum of one hundred thousand dollars for the constitutional convention and election.—Silver City Independent.

The reader will note that it is implied, in next to last paragraph that no county of territorial elections shall be held until sometime between June 5th. and October 4th. 1911. And the dispatches say that Beveridge has accepted an amendment to this bill specifically stating that no such elections shall be held until 1911. Whether this is the case or not we cannot say until all the amendments to the Beveridge bill are incorporated and published.

Saved From Awful Peril

I never felt so near my grave as when Lewis Chamblin of Manchester, Ohio, R. R. No. 2, as when a trichloral cough and lung trouble pulled me down to 110 pounds in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 pounds and can work hard. It also cured my four children of croup. Infallible for coughs and colds. Its most certain remedy for grippe, asthma, desperate lung trouble and all bronchial affections. 50c and \$1.00. A trial bottle free. Guaranteed by all druggists.

COAL OIL BURNER DEMONSTRATION

On Tuesday evening, February 22d, the ladies of the Baptist church gave a chicken dinner at the Red Cross building on Main street. They were fortunate enough to find Messrs. W. E. Branch & Company here in Portales demonstrating their coal oil burner, an appliance patented by W. D. Breckenridge which burns common coal oil and which can be easily and readily fitted to any cooking stove. These gentlemen readily rigged up a common cooking stove and gave a demonstration which more than verified all they claim for this burner. The ladies sprang over \$200 on the chicken supper and were so well pleased that they called oysters and repeated the supper Wednesday evening.

LIKES NEW MEXICO BEST.

Mr. Editor: Will you please change my paper from Pearson, N. M. to Nebo, Ky. We have a seven inch snow here and it is so cold that we have to stay in the house and keep a good fire going or freeze. There is no place like New Mexico for me. Give me the winds and bright sunshine of New Mexico in preference to such weather as we are having here. We all stood the trip well, but have had colds since we arrived here.

M. T. Winstead.
