WANTED FOR PORTALES VALLEY—5-ACRE MEN.

Portales needs 200 Truck-Farmers for Next Season. She has Electric Power From Town Power House to Irrigate 1000 Acres.

Do the people of Portales realize what it would mean to this community to have 200 five acre truck patches watered from the town power plant? Well, let us cut it down to 100 such garden patches, or even 50; and let us say that this number of men determine to arrange for power or use gas engine and get ready by next season to see how much stuff they can produce on one or two five acre plots of ground, and let us suppose that they go to work—many of them who own these close-in blocks of land—to dig their wells now and to arrange for power; prepare the ground, etc. Here are some of the results that would inevitably follow:

By next May, the time when the earliest vegetables would begin to come in, money matters would ease up in Portales. For if you fancy fifty of our citizens raising enough garden truck to begin to ship, as well as to supply the local market, you can also see what a relief it will mean to the community from the standpoint of dollars and cents. Of course these men could and would have something to sell not only in May but all during the year and for the cash too which as was demonstrated here this year, would amount to \$400 or \$750 an acre, which on fifty five-acre tracts would mean from 20,000 to \$37,500 during the coming season. Is it not worth while then? And can't we have the fifty five-acre men?

Again, we think it has been very clearly demonstrated that we can raise anything in the way of garden truck and Portales which can be raised anywhere and raise it in great abundance. And now that we can get electric power or gas engine,

sink our own wells, prepare our own ground and hot-beds, what's the reason that we can't have the fifty five acre men?

Think of what it would mean as an advertisement to Portales to have a truck growers association organized here; to have fifty men actually growing any and all sorts of truck on all sides of the town and turning the outskirts of our little city into a paradise of flowers, vegetables and edibles and making some of this profitless suburban property yield not only a living for 50 families, but add at least \$25000 in cash to the owners during the next year.

THERE WITH THE ADVERTISING MATTER.

Both of the local printing establishments have needed all hands and the cook this week to expedite the work of getting out the advertising matter for the great Chicago Exposition. There is no class of work which a printer would rather do than this boosting kind, for a printer above all other mortals is a firm believer that the reward is sure to those who cast their bread upon the waters, judiciously. This is an age of get-up-and-get-it, and every successful effort of this hustling age has its inception at this fountain. We are certain to get results from this form of advertising and every contributor should feel that he has rendered a patriotic service in making it possible to be at this big show with all the outward evidences of an abiding faith in our wonderful valley and its resources. Come to Portales Valley.

C. W. MORRIS SELLS RESIDENCE.

C. W. Morris last week sold his dwelling house southeast of the First National Bank to Judge H. F. Jones, the consideration being \$1000. Mr. Morris avows his intention of leaving the country but his friends continue to hope that he will tarry yet awhile longer that he may reap some of the fruits of his fortitude in remaining here these many years in the pioneer epoch of this country. The light of a new-born day for Portales Valley is just in the dawn, and such oldtimers as Mr. Morris should remain to see its glories unfold in all its fullness.

ATTEND THE TUCUMCARI CONVENTION.

Tuesday morning a party of seven Baptists from Portales and one from Elida left overland in carriages for Tucumcari where the eleventh session of the New Mexico Baptist Convention is held this week, beginning today and lasting over till Saturday. The party consisted of Messrs. Wm. Hewett, Flake Burke, C. M. Dobbs, E. P. Alldredge, H. C. McCallum and Mesdames H. C. McCallum W. P. Pitts and the latter two sons.

There were two excellent reasons for making the trip overland—for on the one hand it afforded an enjoyable outing and in the second place the entire party, having their own teams, could make the trip much cheaper. They expect to make the 85 or 90 miles in two days travel, reaching Tucumcari Wednesday night; leave there Saturday morning and reach Portales by nightfall Sunday in time for Mr. Alldredge to preach at night.

BUYS INSURANCE AGENCIES.

A. G. Trout has purchased the insurance business lately conducted by S. A. Morrison and will soon launch an exclusive office for this line of business. Mr. Trout gets many of the best old line fire insurance agencies of the world in this deal, and with the hustling ability which he possesses as an asset, it will be little wonder if he succeeds in placing a large share of the property risks in the town.

C. V. HARRIS WAS A BUSINESS VISITOR IN AMARILLO, TEXAS THE FIRST OF THE WEEK.

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold Pearce & Patterson Pharmacy.

AGATHERIDAN SCHOOL NOTES.

BY HAZLEWOOD MOORE.
Mattie Doss, "Isn't Professor Galbraith singular?"

Fannie, "Why, of course, didn't you know he's a bachelor?"

"Tis a pity her singing we never have heard;

We know that Marguerite could rival a bird.

Miss Bryan, "I tell you, pupils, that money's in somebody's jeans."

Prof. Galbraith, Edwin, what is a bellhydroid?"

Edwin, "It—it—it's a sort of a hydroscopic animal."

For some good common sense, To Sue Henderson apply;

For she sells it by the bushel, To whoever will buy.

Mr. Staples, "What accomplishments are acquired by practice in debate?"

Albert H., "It teaches you to think on one foot."

On Friday afternoon, the Portales Basket Ball teams played the Clovis teams with results as follows: Girls; Portales 27, Clovis 5; Boys; Portales 33, Clovis 9. On account of the rain, they were not able to finish the games next day. Portales expects to go to Clovis Friday week and wipe up both teams with little trouble.

Miss Leahy's room has been improved wonderfully in the last week. The boys and girls have made a nice screen which is remarkable work for third grade pupils and their room is now the prettiest in the building.

Jas. E. Clark, Territorial Superintendent of Instruction, visited Portales schools last week.

Dobbs has fine chocolates. Take some up to your sweethearts, wives, sisters, mothers and mothers-in-law.

PORTALES CAN HAVE A BRASS BAND.

L. W. Fiscus has been shelling the woods the past few days in quest of that specie of wind-jammer who can "toot a horn" with the purpose in view of organizing a brass band for Portales. As he is devoting his usual energy in the search, it is more than likely that the full complement of a dozen or more will be found, and as D. Hardy has gratuitously tendered the Armory building for a practice hall, it only remains for the people of the town to encourage the movement, which they can do in several ways. After the organization is perfected and in good working order it is a part of the program for this winter season to put on special "Band Benefit" entertainments of a local character and aside from everybody getting value received for the price of admission it will also be a long step toward helping the boys to equip themselves with good instruments and possibly uniforms. This writer has long since hoped that a band might be organized here, as he happens to be neighbor with two "band-tooters," who literally blow their lungs out in season and out of season. Not that it is a disturbing element in our neighborhood, for it is far from it. On the one side we have the popular jeweler, A. N. Freeman, who is some "tooter" himself on the horn, though he happens to perform on an instrument which is an accompaniment rather than a lead so there he needs company. On the other side we have no other than Mr. Fiscus himself, who, while not in the game quite so long as our jeweler, yet seems to possess the faculty of running anything from a Buick touring car to a first class choir in our churches. He plays a cornet, the same kind of an instrument whose intonations so closely resemble the army bugle, and if he would only play reveille at about 5:30 a. m. we could then say that our musical neighbors serve us in other ways than by entertainment. As it is we have to trust to an alarm clock, which doesn't seem to possess the melody which some instruments

might. All of which is merely another way of saying that Portales needs an organized band.

Mrs. W. S. Merrill is enjoying a visit from her sister, Mrs. Jack Anderson of Bovina, Texas.

The Portales Bank & Trust Co. is having renovated the nice 26x30 office room in the rear of the building which will include papering, painting and an awning. Mr. Williamson says he is fixing this room up to take care of the rush for nice places in which to conduct offices which is sure to come by the first of 1911.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Pearce & Patterson Pharmacy.

FURNITURE FOR SALE.

I have the following lot of household goods for sale at a sacrifice, but not to give away: 2 washstands, 2 dressers, 2 center and one cutting table, 3 rockers, 1 good small range stove, 1 Coles hot blast heater and 1 oil heater, 1 kitchen table, 1 kitchen cabinet and a few other articles. Call at Baptist pastor's home or Herald office. E. P. Alldredge.

"TO THE POST TRADE."

We will have in our yard, in the next few days, a car load of No. 1 Chincapin fence post. These post are split, straight and 6 1/2 feet long. We once handled these post, but owing to the fact that we could not get them, we have been handling the cedar post, but the Chincapin are far ahead of the cedar, and we can sell these for less than you can buy the cedar post.

When these arrive, we would be glad for you to call and inspect them at our yard west of the jail. Kimmons & Van Winkle Lbr. Co.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health. There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by Pearce & Patterson Pharmacy.

COMMISSIONERS' COURT PROCEEDINGS.
 Proceedings of the board of county commissioners of Roosevelt county, New Mexico, at a call session, thereof, held at the court house in Portales on the third day of November, 1910.

Present:
 C. V. Harris, chairman,
 E. C. Price, commissioner,
 C. P. Mitchell, clerk.

The account of Roy Epperson for painting and repairs on court house was examined and allowed for the sum of \$14.50.

No further business appearing the board adjourned to meet at its next regular business meeting or at the call of the chairman.

Signed,
 C. V. HARRIS, Chairman.
 Attest, C. P. MITCHELL, Clerk.

ARCH NEWS.
 (Delayed.)

Mrs. Ula Stark is on her way from Blanco, Colorado to visit her parents, Mr. and Mrs. Tubbs.

Jim Crawford made a business trip to Roswell the latter part of the week.

Henry Williams has been on the sick list for about two weeks, but is now re-flooring his house, making it double floored.

Mrs. Henry Williams has just returned from a trip to southern California where she has been to visit her grandmother. She has seen quite a bit of irrigated land on her trip, land that is selling for \$100 and upwards per acre, but she says that this country looks good to her.

Mr. Vencil made two trips to Portales this week after coal for the school.

Eva Nichols, Ettie Stovall and Thelma Byers are taking elocution lessons from Miss Lucile Dickson.

Miss Ula Allis and Mr. Everett Foster were married last week. Both these young people are well known in this community and their many friends send best wishes and congratulations to them in their Texas home.

Mr. Allie Boulder bought a house from Miss Minnie Burks and moved it to his place last Tuesday.

Mr. Dickson is developing his irrigation plant, making ready to show forth the hidden or dormant possibilities of this virgin soil whose underground flow is only waiting to be harnessed and called into service of man. Mr. Stovall, too, has installed an irrigation plant and is constantly drilling in the handling of his water, developing of his well, fixing his ditches and getting ready for the great outburst of this country's new day when all who have been engaged in the driving out of the prairie dogs and coyotes and making for themselves homes on this once known howling wilderness, will be made to feel that they have been well paid for their service and they too will have homes whose resurrected soil will bloom as a rose of the Nile, and whose prolific yield will be second to that of none under the shining throne of God's foot-stool.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by Pearce & Patterson Pharmacy.

The educational rally at the Baptist church Friday night was well attended. Prof. Poor of Clovis schools, County Supt., Mrs. S. F. Culbertson and Territorial Superintendent, Clark, addressed the audience and there were readings and music after which punch and cake were served by the Mother's Club.

At the monthly business meeting of the Methodist Philathea Baracas Thursday night, eleven new members were voted in which, with the fifteen charter members, makes a total of twenty-six.

The Store For All The People

The Days will soon be crisp and cool.

Nature will don her glorious Autumn garb. And then you'll want that Fall Suit.

We advise a Kirschbaum Suit as being the best medium to put yourself in touch with the spirit of the season.

Carefully selected all wool fabrics, in tweeds, worsteds, chevots—the BEST the mills turn out.

Each suit carefully hand tailored—each shape permanently and carefully sewn into the shrunken canvas and haircloth foundation by experts.

"All-Wool" Raincoats and Topcoats in endless variety—some all silk lined. Raincoats all proofed by the best process—Priestley Cravenette.

The Kirschbaum label is the identification mark of the best clothes made at the price.

Prices \$15 to \$35

Joyce-Fruit Company.

A. T. MONROE, Manager.

FROM MANN, NEW MEXICO.

October 31, 1910.
 I went bankrupt on cash last week and it was not convenient for me to lie very much in your favor so did not write.

Everybody wants to come to Mann. Two automobiles in one day also a western zephyr followed by darkness.

No more cold hands nor wet feet here, got 600 lbs. of dark coal.

Most people are nearly finished threshing broom corn. It is damaged some by ricking too soon after pulling. I would advise the susceptible farmers to avoid this from now on.

Protracted meeting began at Carter Saturday night. Rev. Speck of Texas who arrived recently is the pastor.

Mrs. Newcom who for some time has been ill of typhoid fever is now better.

Petroleum V. Nasby.
 Anderson Automatic computing scales, the best in the world, for sale by C. M. Dobbs.

NOTICE.
 For sale, one portable Fairbanks Morse gasoline engine, 16 horse power. In good repair. Price \$500. Call on or write, J. W. Anthony, Elida, N. M.

C. A. Rector consummated a deal last week by which C. V. Harris came into possession of 80 acres of Missouri land valued at \$6,000 for which he traded the owner, W. F. Richardson, 240 A.

A car of "Lyon's Best" flour, graham flour and Kansas meal will be here this week. Will Smith, the grocer.

GIVENS NEWS.

News is scarce in these parts as nearly everybody is away at work.

Rev. J. E. Givens got his family moved into their new house the 4th, just in time to be sheltered from the cold spell which came that night and brought rain, sleet and snow. He has gone to Clovis to take charge of his work.

Our people are greatly enthused over the prospects of a railroad coming through our country.

We are sorry to learn that Mrs. L. V. Brown is still very ill. Mrs. Beard is also sick.

Emil Schweikhard spent Sunday afternoon at W. B. Hensley's. J. J. Graham took dinner Sunday with the Givens boys, but after dinner hitched his horse at L. V. Brown's.

L. L. Brown made his weekly visit at the "little white house" a few miles west of here Sunday. As crops were late here, farmers are still busy saving them. November 7, 1910.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by Pearce & Patterson Pharmacy.

Mrs. S. F. Culbertson, county Superintendent of Public Instruction returned Friday from Santa Fe where she has been attending the Constitutional Convention in the interest of schools.

Tablets, pencils, books and other school supplies at Dobbs'.

PROPOSED ORDINANCE No. 32. Plumbing, Rules and Penalties.

Be it ordained by the Board of Trustees of the Town of Portales, Roosevelt county, New Mexico.

BOARD OF EXAMINERS.

Sec. 1. Any person desiring to engage in or work in the business of plumbing in the town of Portales either as a master plumber or employing plumber or as journeyman plumber shall obtain a certificate from the board of examiners as hereinafter provided.

Sec. 2. There is hereby created a board of examiners of plumbers. It shall consist of three members, one of whom shall be the superintendent of public works and who shall be ex-officio chairman of said board of examiners, the other members to be appointed by the Board, one of whom shall have a practical or theoretical knowledge of plumbing.

Sec. 3. Two members of said board of examiners shall constitute a quorum for the transaction of all business.

Sec. 4. Said board of examiners shall, as soon as the passage and taking effect of this ordinance, meet and shall then designate the time and places for the examination of applicants desiring to engage in or work at the business of plumbing in said town. It shall examine such applicants as to their practical knowledge of plumbing, house drainage and house ventilation; and if satisfied with the competency of such applicants, shall thereupon issue a certificate to such applicant authorizing him to engage in or work at the business of plumbing, whether as master plumber, employing plumber or journeyman plumber. Provided, said board of examiners may issue a certificate to applicants making the proper showing that they have worked successfully at the plumbing trade or have taken a course in some polytechnic or correspondence school, without examination.

Sec. 5. Said examination shall be in whole or in part in writing and shall be of a practical elementary character, but sufficiently strict to test the qualifications of the applicant.

Sec. 6. The fee for a certificate for a master plumber or employing plumber shall be \$5; for a journeyman plumber one dollar.

Sec. 7. All fees for examination shall be collected by the board of examiners, and shall be accounted for once a month and paid in to the town treasurer.

LICENSE.

Sec. 8. Application for a license to engage in the business of plumbing in the town of Portales shall be made in writing to the town clerk, accompanied with a certificate of examination from the board of examiners and a bond in the sum of five hundred dollars. Bond shall be signed by two good and sufficient sureties, to be approved by the Town Board, and shall be conditioned that they will faithfully observe all ordinances of the town pertaining to plumbing, that they will indemnify and save harmless the town of Portales from all accidents and damages caused by any negligence in their work or by any unfaithful or inadequate work done by themselves or their employes.

Sec. 9. The fee for such license shall be fifty dollars for one year payable in advance.

Sec. 10. A license shall be issued in the firm name, stating the name of each member of the firm. No license shall be transferable.

Sec. 11. Licensees shall be responsible for the acts of their agents or employes done by virtue of said license.

INSPECTOR AND PERMITS.

Sec. 12. There is hereby created the office of plumbing inspector, who shall be appointed by the Board of Trustees, which appointee shall hold office until his successor is appointed and qualified, and the term of office shall be for two years unless sooner removed by the Board.

Sec. 13. He shall be removed for cause at any time by the Board of Trustees.

Sec. 14. He shall be charged with the enforcement of this chapter, and shall have charge of all papers, the issuing of permits, the approval of drainage plans, and the inspection of house drainage in new or old buildings. He shall keep a daily record of his work and make written report each year, and, at the close of the term of his office to the Board, and make recommendations for the improvement of sanitary drainage in plumbing.

Sec. 15. He shall perform such other duties under order of the Board. His books and records shall at all times be open to the inspection of the mayor or other proper city officials.

Sec. 16. He shall have access during all hours of the day to all buildings of the town of Portales for the inspection of existing systems of drainage and shall be given every opportunity for a careful examination. If the same is unsanitary it shall be condemned and the building made sanitary as directed within six days after the notice is given in writing. The authority to condemn is vested in the Board of Trustees upon recommendation, in writing from the inspector stating reasons. Failure on the part of the owner to improve the system of drainage shall impel the Board of Trustees to do so charging the cost to the owner of the premises. Said cost to be collected by the town by an action of debt in the name of the town.

Sec. 17. When inspecting the drainage of any existing building the inspector shall make a plat of the same to be filed in his office with the date and location marked. Such plat shall show the run of soil and waste pipes, the size and material, the location of fixtures and traps, and the system of venting traps.

Sec. 18. He shall inspect the system of drainage in any building in the town upon request of the owner. The fee for such inspection shall be one dollar. He shall inspect any building whatsoever if called upon by a tenant or adjoining owner in writing. If the drainage is in a sanitary condition no fee shall be charged; if unsanitary the same shall be remedied as ordered in Section 16, and a fee charged to the owner of the premises for inspection. All fees shall be paid at the office of the plumbing inspector.

Sec. 19. He shall inspect all plumbing work in the process of construction; and when called upon, inspect and test for leaks, and

give a certificate of inspection when satisfactory.

Sec. 20. Permits for the drainage of any building, public or private, or for alteration, shall be obtained from the inspector before entering upon any work.

Sec. 21. The fees for a drainage permit shall be one dollar, for work costing one hundred dollars or less; and one dollar additional for each additional one hundred dollars or part thereof.

Sec. 22. Application for permit shall be made separately for each building and shall be accompanied by descriptive drawings giving the entire plan of the house sewer and showing connection with street main, and one or more sections showing each separate fixture. Such drawing and descriptions shall be made with ink on white paper or tracing cloth, and in accordance with rules laid down by the inspector. They shall show the size and kind of pipes, traps, fixtures and connections.

Sec. 23. Applications for changing permit must be made in writing and the original permit returned for correction or issuing of a new permit. No material deviation from permit and approval plan shall be allowed.

Sec. 24. A permit shall be good for one year from date of issue, if the work is not completed within that time the permit shall be returned and a new one issued.

Sec. 25. Permits for making taps to sewer shall be obtained in writing from the inspector and inspection called for when first connection is made to sewer.

Sec. 26. Permits shall be granted within 24 hours when practicable and in no case shall there be a delay of more than 80 days.

Sec. 27. All permits shall be returned within 24 hours of completion of work.

Sec. 28. All permits shall be issued in duplicate and numbered consecutively, and dated. One copy shall be kept on file in the office of the inspector.

Sec. 29. All property owners in the town of Portales shall have the right at his own expense to construct a lateral sewer abutting his own property under the direction and supervision of the Inspector and at such times as the Inspector may prescribe.

Sec. 30. That whenever any property owner desires to build any such lateral sewer as provided for in Section 29, he shall file in the office of the inspector a request or notice in writing stating where he desires to build such sewer, the point where he desires to connect with the main or lateral sewer, and shall also deposit with such notice a sum sufficient to cover the estimated cost to the town of Portales of building such sewer.

Sec. 31. When such notice has been filed in accordance with the provisions of Section 30, the Inspector shall prepare profiles, plans and specifications and deliver a copy to such property owner and such sewer shall be built in accordance with such profiles, plans and specifications.

Sec. 32. All private sewers hereafter constructed in the town shall be constructed at the expense of the owner or owners of the property of which the sewer is required and said owner or owners shall be liable for the costs of laying, repairing or cleaning the same. All private sewers shall be constructed in accordance with this article.

Sec. 33. All property along any lateral or main sewer may be compelled to be connected with such sewer by the service of a thirty day notice to be given by the sewer inspector to the property owner to connect his premises with said sewer. Upon the expiration of such notice and the failure of the property owner to connect with said sewer, the town may enter upon the premises and make such connections and such property shall be liable for the costs of making such connections and the same shall be assessed against the property and collected as other special taxes are assessed and collected in such case made and provided.

Sec. 34. All property connecting with a lateral or main sewer shall pay the Public Service Co. the sum of \$2.50 for such connections so made.

Sec. 35. Each building shall be separately and independently connected with the street sewer, where one is provided. If there is no sewer in street or alley, a private sewer may be constructed when plans for same are approved by the plumbing inspector and committee on sewer of the town Board.

Sec. 36. The main sewer drain, when two (2) feet or more from the building, shall be of cylindrical vitrified tile, of the best quality, free from splits and other imperfections. Spigot and hub ends to be concentric. It shall not be less than four (4) inches inside bore and 1/2 inch thick. It shall slope uniformly one-fourth (1/4) of an inch or more to each foot of run, from the building to the street sewer. It shall rest on a smooth and solid bottom with the ground hollowed out for hubs and the soil rammed on each side of pipe.

Sec. 37. The joints shall be made tight with equal parts of Portland cement and sand mixed dry and enough water added to give consistency. The cement shall be mixed in small quantities and used immediately. No retempered cement shall be used. Clean all joints on the inside with a swab.

Sec. 38. All changes in direction shall be made with proper bends. No "T" connection shall be allowed.

Sec. 39. The trench shall be left uncovered until accepted by the plumbing inspector.

Sec. 40. When a slope of one-fourth inch to each foot of run cannot be obtained or when the ground is newly made ground or of a yielding nature, and also for that part of the house sewer which is under the building and extending two (2) feet beyond the wall line, the sewer shall be constructed of material similar to that required for the solid pipes. No iron sewers shall be permitted with less slope than one-eighth inch to the foot.

Sec. 41. When the sewer passes through a new wall, the wall above shall be left two (2) inches clear, by arching or flagging over, to avoid danger of settling.

Sec. 42. The sewer under the house may be in a trench and covered over, or it may be supported on piers or from joists above the floor to the satisfaction of the inspector. No test shall be made until secured.

Sec. 43. Soil pipes shall be made of cast iron four (4) inches inside diameter, coated while hot, both inside and outside, with asphaltum or tar. They shall extend through the roof for ventilation not less than (2) feet. If receiving the discharges from more than five water closets and five other fixtures, or the equivalent thereof, it shall be increased in size as required by the plumbing inspector.

Sec. 44. Standing waste pipes shall be two (2) inches in diameter unless receiving the discharge of more than five fixtures. It shall then be increased 1 inch in diameter for each 2 or less additional fixtures. In other respects the waste pipes shall be similar to the soil pipes.

Sec. 45. No cap or cowl shall be allowed on vent or waste

pipes. On flat roofs, the outlets shall be covered with a strong mesh galvanized wire basket.

Sec. 46. A grease trap or catch basin of approved pattern shall be used in connection with slop sinks, kitchen or pantry sinks in all restaurants, hotels, eating houses and boarding houses.

Sec. 47. All traps shall be protected from siphonage by venting the crown of each trap.

Sec. 48. Revent pipes shall not be less than inside bore of trap. If more than five fixtures are revented from one pipe, the main revent shall be increased as required by the plumbing inspector. The revent pipe shall extend through the roof.

If less than five fixtures discharge into the vertical pipe, the revent pipe may branch into the vertical pipe two feet or more above the waste or overflow of the highest fixture. No revent pipes shall be more than ten feet from the vertical pipe. No revent pipes shall be allowed to run as to form a trap.

Durham fittings may be used in all vent work.

Sec. 49. The overflow and waste water from cisterns, safing under fixtures, sediment pipes from kitchen boilers, steam exhaust and blow off pipes and waste pipes of all descriptions shall be discharged into an open water supplied sink or condenser, and not directly into the sewer. All drip pipes shall be as short as possible and shall admit of frequent flushing and be protected at the outlet with a metal flap. Overflow and waste pipes shall have a weight of not less than:

One-inch pipe, two pounds per foot; one and one-quarter inch pipe, two and one-half pounds per foot; one and one-half inch pipe, three and one-half pounds per foot; two inch pipe, five pounds per foot; three inch pipe, six pounds per foot; four inch pipe, eight pounds per foot.

Waste pipe from refrigerators or receptacles in which provisions are stored or chilled shall waste into open trays in plain sight below such refrigerator or receptacles. The waste pipes from these trays may discharge into open sinks properly trapped or in the ground outside of the building in plain sight.

Sec. 50. A special permit shall be required for placing water closets in cellar or basements. Water closets within the house shall be supplied from special tank of five gallon capacity or more and used for no other purpose. Two or more closets when on the same floor may be supplied from the same tank. The flush pipe shall not be less than one quarter inches inside diameter. The tray shall be in the bowl and above the floor with a large body of water exposed to view and sufficient immediately to cover, and thus temporarily disinfect and deodorize the excreta. Such closets shall not require a revent. The water closet bowl shall be set in putty and firmly bolted to the floor, or provided with a rubber basket, in either case the stool must be secured firmly to the floor. No closet requiring mechanical devices, such as plungers or Pan closets shall be allowed. When such closets are removed for repairs, they shall not be replaced. Shall have separate cut-off cocks to facilitate repairs.

Sec. 51. Urinals shall hold a body of water in a bowl or trap, and shall be flushed by a tank or with direct supply pipes. If floor wastes are used, these shall be trapped and the traps supplied with water as above, all materials about these urinals shall be non-absorbative and non-corrosive.

Sec. 52. When the drainage system is completed ready for the connection of fixtures, the plumbing inspector shall be notified and he shall inspect the same, the inspection to include any test he shall see fit to apply, and, if satisfactory, give the plumber a certificate of inspection.

Sec. 53. The inspection of such work shall in no case be delayed over 24 hours after notice of completion is rendered. No notice to inspect shall be given until all is complete.

Sec. 54. No privy vaults or cess pools shall hereafter be constructed in the town of Portales when connection can be made with the sewer.

Sec. 55. If tanks are used for drinking water, they shall not be lined with zinc or galvanized iron. They shall be constructed of wood or iron, and may be lined with tin copper.

Sec. 56. If drainage pipes are put in for future use, they shall have all openings closed by soldering or calking up perfectly water tight and tested by the water test.

Sec. 57. Steam boilers for power purposes shall not be supplied directly from the service pipe, but from a tank of sufficient capacity to hold 12 hours supply in case of shutting off the district for repairs.

Sec. 58. It shall be unlawful to throw or deposit, or cause to be thrown or deposited, in any vessel or receptacle connected with a public sewer, any garbage, hair, ashes, fruit or vegetables, peeling or kitchen refuse of any kind, rags, cotton clinders, or any other matter or thing whatsoever, except faeces, urine, the necessary closet paper, and liquid house slops.

SERVICE PIPES.

Sec. 59. All connections with service pipes placed in any street or alley and connected with the town water main and one and one-half inches and under in diameter, shall be of lead or galvanized iron and shall be of standard and approved weight.

Sec. 60. Each premise shall have curb stop cocks, with an adjustable cut off iron box conveniently placed. The same to have cast an iron hinged cover with the letters 'water' on the top.

Stop cocks shall be made of good brass, and shall have a full sized roundway and a strong adjustable head. When curb stop cocks are over one inch in diameter they shall be 'gate valves.' And all service pipes running into any building shall have a stop and waste cock placed in a convenient place in the building so that the water can be turned off and the pipes drained; said service pipes shall be so constructed that they will drain to said cock.

No more than one house or premises shall be supplied from one line or service pipe, or hydrant, without a special permit in writing from the plumbing inspector.

Sec. 61. The openings of all connections to the water main shall be one inch or less in diameter.

Sec. 62. No taps shall be inserted in the same water main nearer than three feet apart, nor nearer than one foot to the joint. All taps shall be made at or near the top of the main.

Sec. 63. All hydrant or street washers shall be set at least two feet in the ground and have a good and sufficient drain well secured with rubble, broken stone or brick so as to allow free discharge of water from the bottom of the hydrant. And all service pipes shall be set at least 18" in the ground.

Sec. 64. In making excavations in streets or alleys or highways for any purpose whatever, the paving material and earth removed must be kept separate and deposited so as to occasion the

(Concluded on page 4)

NEVER WAS UNDERSOLD

Our business for the last week proves the above statement. Hundreds of people have availed themselves of the opportunity to buy their Dry Goods at, almost, wholesale prices. Remember, this big sale closes Wednesday Night, November 16th. If you haven't already attended this sale one day, you had better come in and get your share of the rich plums offered on this great sale. Compare our circular with other circulars being mailed out over the country from Clovis, Elida and Portales and bring these price sheets with you and watch us undersell them. **SALE CONTINUES UNTIL WEDNESDAY NIGHT, NOVEMBER 16th.**

Men's Suits.

Don't fail to see the prices we are making on Men's Suits. Owing to the fact that we bought very heavy in this department we are compelled to make some big reductions on all Men's Suits. We would much rather have the money than to carry the goods over, all we want is our money out of them.

Spero-Michael & Sons' Clothing for Men and Boys

Hart-Schaffner & Marx High Grade Clothing for the Men

Celebrated Flat Iron Pants for the Men and the Boys

One Hour Specials.

Saturday Morning, November 12th, from 10 to 11 o'clock, ten yards of the very best Canton Flannel at only 69c

Wednesday Morning, November 16th, from 10 to 11 o'clock, one hour only, ten yards of the very best 10c Bleached Domestic to go at only 69c

We are sole agents in Portales for the following High Grade Brands of Merchandise: *Edwin Clapp Shoes for men, Star 5 Star Shoes for the whole family, Great Western Gloves, Beaver Brand and Stetson Hats, Hart-Schaffner & Marx and Spero-Michael & Son Clothing, Flat Iron Brand Pants, Sweet Orr Overalls, J. C. C. Corsets, Hole Proof Hosiery for Men, Women and Children, S. Steinfeld & Co. and Seigel-Cooper Cloaks and Suits for Ladies.*

Ladies' Suits.

We have gone over all of our Ladies Suits and marked them down so every one can afford to buy them a suit at the prices we are making now. Be sure you see our ladies suits before buying

We are also making big reductions on our Ladies Skirts, Long Coats and Childrens and Misses Coats and Skirts.

We are going to run our stock down between now and the first of January, as we take our annual invoice January first, and we bought too heavy for all departments and we are determined to sell the goods, so watch this space each week for something special.

The young men of Portales, the D. D. D.'s, entertain their lady friends at the Woodman Hall this evening, a full account of which will appear in next issue

WHAT THE KIDNEYS DO.

THEIR UNCEASING WORK KEEPS US STRONG AND HEALTHY.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Fritz Sena, 1205 Twelfth St., East Las Vegas, N. Mex., says: "Experience has proven to me that Doan's Kidney Pills fulfil the claims made for them. For several weeks I suffered constantly from backache and in the morning when I got up, I had acute pains across my kidneys. Exercise brought some relief, but it did not entirely rid me of the trouble. The kidney secretions gained in passage and at times were discolored. Hearing so much said in praise of Doan's Kidney Pills, I procured a supply and commenced their use. After I had taken a few doses, I noticed a marked improvement

and before I had finished the contents of the box, I was completely cured. I have been entirely free from kidney complaint since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 50-2

WOMAN'S CLUB DISCUSSES "OUR SCHOOL."

Wednesday afternoon there was a large attendance of club women, about 25, met with Mrs. W. S. Merrill. Mrs. Jim Stone was leader in the subject, "Our School," as a whole, while Mesdames Culberson, Monroe, Oldham and Humphrey led in the four sub topics. The club got from this excellent leadership, hints and suggestions of a very helpful character from the standpoint of teacher as well as mother as all are mothers and some have been teachers.

Mrs. J. B. Priddy entertains next Wednesday and Mrs. Sam J. Nixon leads.

FAREWELL SERVICE.

Next Sunday night Pastor E. P. Alldredge will preach his last sermon as pastor of the local Baptist church, having accepted the pastorate of the First Baptist church, San Angelo. Mr. Alldredge has been pastor at Portales for over two years and regrets that his wife's health and financial pressure as well as the larger opportunity to do good, calls him to the larger field.

PROPOSED ORDINANCE No. 32. Plumbing, Rules and Penalties.

(Concluded from page 3)

least inconvenience to the public, with provisions for the passage of water along the gutter and a safe passage way for foot travel. Red lights shall be placed in sufficient numbers and kept in good trim at night when any danger exists. All excavated material shall be refilled, puddled and tramped as fast as practicable, firmly in a manner to prevent settling. The paving and planking or macadamizing shall be replaced to the satisfaction of the street commissioner.

Sec. 65. The service pipe within the premises and the house shall be of lead or galvanized wrought iron, and if lead shall weigh not less than pipes required for street service, or if any be butt-welded, wrought, galvanized iron pipe and fitting, proved in the factory to three hundred (300) pounds hydraulic pressure. All joints on lead line shall be wiped joints.

Sec. 66. All tapping of the water mains shall be done by an agent of the Public Service Co. and a charge of \$10 shall be made for performing such service.

Sec. 67. There shall be a separate stop cock placed on supply pipe to every closet.

Sec. 68. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and be subject to a fine of not less than five dollars nor more than fifty dollars for each and every violation. Any certificate may be revoked for cause by the Board of Trustees.

Sec. 69. All ordinances and parts of ordinances conflicting with the above ordinance are hereby repealed.

Read and ordered published this 27th day of October 1910.

JOE HOWARD,
Acting Mayor.

Attest: Sterling P. Moody, Clerk.

NOTICE OF SHERIFF'S SALE.

No. 453.
In the District Court of Roosevelt County, N. M.
Effie M. Wilson, plaintiff, vs. H. A. Shannon, et al., defendants. May, 1909, the plaintiff in the above entitled cause recovered a judgment against the defendants, H. A. Shannon and A. W. Shannon, in the sum of Six Hundred Nine Dollars and Seventy-one Cents, and costs of suit amounting to Fourteen Dollars and Forty-five Cents, which said judgment was obtained upon the promissory note of said defendants, executed and delivered by them to the plaintiff, and also upon said date plaintiff recovered a decree against said defendants foreclosing a mortgage lien upon Lot No. 9 in Block No. 17, in the town of Elida, New Mexico, which said mortgage lien was of even date with said promissory note, given by said defendants for the security of said note, and

Whereas it was directed by the Court in said decree that the Sheriff of Roosevelt County, New Mexico, after due notice, sell said described property to satisfy said judgment, with interest thereon at the rate of ten per cent per annum from the date of said judgment to the day of sale, all costs of suit and accruing costs.

Therefore, by virtue of said judgment and decree, J. R. A. Bain, Sheriff of said County and Territory, will, on the 22nd day of December, 1910, at the hour of 2 o'clock, p. m. of said day, at the East front door of the court house, in the town of Portales, New Mexico, sell at public vendue, to the highest bidder for cash, the above described property, for the purpose of satisfying said judgment, interest, costs of suit and accruing costs.

R. A. Bain,
Sheriff of Roosevelt Co., N. M.
