## **CUTICURA**

Purest of Emollients and Greatest of Skin Cures.

The Most Wonderful Curative of All Time

For Torturing, Disfiguring Skin Humours

#### And Purest and Sweetest of Toilet Emollients.

Cuticura Ointment is beyond question the most successful curative for torturing, disfiguring humours of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing preceded by a hot bath with Cuticura Soap, and followed in the severer cases, by a dose of Cuticura Resolvent, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humours, permit rest and sleep, and point to a speedy cure when all other remedies fail. It is especially so in the treatment of infants and children, cleansing, soothing and healing the most distressing of infantile humours, and preserving, purifying and beautifying the skin, scalp and hair.

Cuticura Ointment possesses, at the same time, the charm of satisfying the simple wants of the toilet, in caring for the skin, scalp, hair, hands and feet, from infancy to age, far more effectually, agreeably and economically than the most expensive of toilet emollients. Its "Instant relief for skin-tortured babies," or "Sanative, antiseptic cleansing," or "One-night treatment of the ands or feet," or "Single treatment of the hair," or "Use after athletics," cycling, golf, tennis, riding, sparring, or any sport, each in connection with the use of Cuticura Soap, is sufficient evidence of this.

## Marks of Merit

This magnificent building is a monument to honest values and fair dealing. Another proof of the confidence of the people in Montgomery Ward & Co. is the unparalleled volume of business we are enjoying this year. Twice since January 1st we have been forced to lease additional buildings in order to take care of our ever increasing business. We have lately leased the entire buildings of the old, well-known Schuttler Wagon Company, which will be known as Warehouse No. 5 and used for the storage of heavy merchandise.

Every physician of large practice has had the experience of being called on to attend women who imagined that they were in the last stages of some dire female malady, when upon examination the fact was revealed that obstructed physiology of the stomach or bowels was the whole cause of the trouble.

The physician, however, who has not had experience may fall into the error of diagnosing grave diseases of the female system when they do not exist, because disorders of the bowels may be neglected until they give many of the appearances of female disease. The bowels have been known to become so clogged with hardened contents as to produce a condition closely resembling uterine displacement, uterine prolapse (falling of the womb) and the sick headache which is often attributed to female diseases is most often actually due to some trouble in the digestive machinery involving the liver, stomach, bowels or the great "Solar Plexus," which is the central telegraph station from which nervous messages are transmitted to and from all the organs in the abdominal cavity.

Street Talk.

One would think to hear the talk on he streets that the air is full of socal news, but the proper investigation often proves that a mystery surrounds the difficulties.

For instance a cranky barkeeper threw a beer bottle at a customer, and in return the customer fired a billiard ball at the bar tender. Rumor says the amount of trouble he is getting into is hurting his employer's business, as people who wish to avoid trouble go where good treatment can be had.

Rumor also says a saloon man drew a knife on a fellow and the latter pulled a gun. Any way the fellow's arms were badly bruised. He left on the north

Also that a young man was going to be arrested Friday for stealing cattle from the DZs. Again, that a person carries his hand

over his pop in his right fore pocket, and that he will be arrested as soon as he shows the bright handle again. This occurred at 10 o'clock Friday. He is evidently bloodthirsty.
