Miss Seymour has the distinction of being a native born citizen of New Mexico, and of having settled with her parents in Portales at the very beginning of the town.

She has had exceptional training for the profession of Teacher, both at the Girls Seminary at Staunton, Va., and at the Northern Indiana Normal. Any one observing the work of Miss Seymour. with her grades, in the public school, must be convinced of her thorough understanding of approved methods of instructions; but results count most and the rapid and thorough advancement of pupils in her classes show that she gets results.

She is sincere, earnest, studious and hopeful of attaining high honors, proficiency and distinction, in her professional calling. Her amiable disposition and ladylike manner, has won her a host of friends.

Her election to the office of superintendent of our County Schools would be a warrant that the business of that office would be promptly and carefully attended to.

Cure to Stay Cured.

Wapello, Iowa, Oct. 10 (Special)-One of the most remarkable cures ever recorded in Louisa County is that of Mrs. Minnie Hart of this place. Mrs. Hart was in bed for eight months and when she was able to sit up she was all drawn up on one side and could not walk across the room. Dodd's Kidney Pills cured her, Speaking of her cure Mrs. Hart says:

"Yes, Dodd's Kidney Pills cured me after I was in bed for eight months for that was three years ago and I have not been down since. In four weeks from the time I started taking them I was able to make my garden. Nobody can know how thankful I am to be cured or how much I feel I owe to Dodd's Kidney Pills."

This case again points out how much the general health depends on the Kidneys. Cure the Kidneys with Dodd's Kidney Pills and nine-tenths of the suffering the human family is heir to, will disappear.

Dr. Smith has also now the title of physician in ordinary to the throne of Persia, but it is not certain that he will return to the land of the shah and fill the position. Dr. Smith is ending a two years' tour of the world. Early in the summer he arrived in Persia, and, as the plague was raging there, was quarantined. But just then the shah was taken ill at Teheran and Dr. Smith was summoned. A journey of 210 miles to the palace on camel back across the desert followed. "DEAR MRS. PINKHAN: - There are but few wives and mothers who have not at times endured agonies and such pain as only women know. wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable.

I have seen cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mrs. R. A. Anderson, 225 Washington St., Jacksonville, Fla.

ASPARAGUS LONG A FAVORITE WHAT ROME THINKS

Records Date Back Almost to Segin- THE POPE'S PHYSICIAN DORSES AN AMERICAN ning of Authentic History. Of all food plants there is none which has been so long known or been possessed of so distinguished a lineage as the asparagus. Its records reach back almost to the beginning of authentic history, and it is mentioned by the comic poet Cratinus, who died about 425 B. C. The Romans held the vegetable in high esteem. The elder Cato wrote a work which is still extant, "De re Rustica," and it treats at length of the virtues and proper cultivation of asparagus. Pliny, in his natural history, written about 60 A. D., has much to say about it. He feelingly observes: "Of ali the products of your garden your chief care should be asparagus," and he devotes several chapters to its many good qualities and the best methods of raising it. He asserts that the soil about Ravenna was so favorable to its production that three heads grown in that district had been known to weigh a Roman pound. This pound seems to have been about equal to eleven ounces in our day, so it would apparently have taken four of the stalks to have reached a pound of our weight.

The asparagus being essentially a southern plant, it is possible that the stock growing in Italy was of a more vigorous growth than that of our northern clime. It is found all around the shores of the Mediterranean and branches off into four or five distinct species besides the one ordinarily used for edible purposes.

Bright's Disease and Diabetes

We desire to place in the hands of hose afflicted with Bright's Disease and Diabetes a 36-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is prinof cases showing 87 per cent of recover-tes in these hitherto incurable diseases. The specifics employed in these test are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright Diseases alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The Pamphlet is free. Write to John J. Fulton Co., 409 Washington street, San Fran-

cisco, Cal. When to suspect Brights Diease:- puffy ankles or hands; weakness without apparent cause; kidney trouble after hird month; frequent urination, (may show sediment or cloudy on standing); failing vision; day drowsiness—one or nore of these.
