Vote for W. A. Andrews.
Mr. Wheeler, of Elida, is a Portales voter this week.
Two camp chairs for sale at Cash Bazaar.
G. C. Johnson was in Amarillo Sunday.
March Wright spent a few days at Judge Carter's, last week.
Mr. Newman's family, after an absence of four months, returned home Sunday.
Aty Reese and wife are very much better, while he is still confined to his bed, Mrs. is able to be up again.
W. Andy Sept, of Mexline, went to Childers Monday, and while in Portales renewed his subscription to the Times.
Mrs. J. M. Ackerman and family left for Albuquerque Monday, where they go to join Mr. Ackerman, who has been there since January.
Marcus Johnson went to Bovina Sunday, where he will work in a lunch room. Marcus is a quiet and industrious young man and does not believe in being idle; such boys usually succeed in life.
For Pasturage—See Jones & Morrison, section pasture adjoining town. Rates on application.
Henry Bodinger has for sale Best Quality Sorghum Molasses at the Mill on the road to the dipping vat or at Stewart's Grocery in Portales. '3-6
Miss Jennie Carter, who has been visiting friends and relatives in Texas for some time, returned Tuesday. She will reside with her brother, our popular Judge and surveyor.
Mr. Eightower's mother, who has been visiting him this last month, returned to Canyon City Thursday to spend some time with her daughter, Mrs. L. T. Lester.
The Assessor's office is one of importance to the county's financial welfare. He better man could be elected than the candidate, R. W. B. Vinell, of Arch. He has every qualification and all should vote for him.

Vote for Prager for Representative.
Mrs. H. F. Jones returned to Portales Monday.
We have had three frosts in succession.
Mrs. Hopper returned Thursday after a year and a half's visit in Tennessee. Ladies' skirts, the best and latest styles, at Blankenship & Woodcock's.
Ed Wright, who lives near Portales, went to the Indian Territory the first of the week.
The Cash Bazaar is very much alive. A fine line of Girls Caps next week. Wait for them. Miss Carr in charge.
Buster DeGraftenreid has moved to the Horn ranch. Their house in town will be occupied by Mr. Raborn.
Rev. J. Meeker returned Saturday of last week from Albuquerque and Santa Fe, after an absence of two weeks.
This cool weather should remind the ladies that they need a new Jacket to be had at a bargain, at Blankenship & Woodcock's.
Dr. Bryan's mother came in this week to be with him during his illness. He is getting along nicely at this time and hopes to be up in ten days.
Chas. Fuller leaves for his Texas home this week. Mr. Fullers pleasant countenance will be missed, as he will be gone for some time.
For Probate Judge, don't look past John F. Morgan. He will put all matters in the balances of justice and mete them out accordingly. He is the man for the place. Remember him.
Wm. J. Horney is certainly a natural product for the office of County Treasurer. You all know him and will give him your support. You can't do better.
Miss Stella Seymour, our candidate for Supt. of Schools, is in every way capable for the office she seeks. Give her your careful consideration before casting your vote.
Ed. J. Neer has moved his Furniture Store to the rock building next to his Drug Store. He buys in car-load lots and can save you money. Get prices before buying elsewhere. A full line of Coffins at reasonable prices. Embalming a specialty.

Andrews for Congress.
Fixtures for sale at Cash Bazaar.
W. M. Kennon was in the Denver wreck this week, but was not injured. The fireman was the only man killed. A defective switch was the cause of the wreck.
All kinds of school tablets and pens, pencils, inks, etc., at Stewart's.
Miss Jo Greene returned from Texico Sunday.
W. H. C. Smith returned to Portales last Sunday after an absence of six months.
Mrs. May is confined to her bed with rheumatism, at the home of her sister, Mrs. Yarborough.
Brown Sugar for making preserves, can be had in any quantity desired and cheap, too, at Stewart's Grocery.
A. L. Chesher returned from Canada Wednesday, where he has been for the past three months, as cattle inspector.
The friends of Miss Mary Burrows will be pleased to see her out again after her severe attack of illness.
Complete line of Staple and Fancy Groceries, Candies, Tobaccos, Cigars, etc., at Stewart's Grocery Store.
The Republican county ticket has no fight against any individual whatever. We claim it on ability and efficiency. In county affairs the man's ability should be considered first.
C. O. Leach brought in a bunch of beautiful colored autumn leaves today, which reminds him of days gone by. We all admire the emblems of the season, and a pleasant study it is—the book of nature, as time turns it's leaves.
Appearance count for much in this life, and in order to make a good appearance, get your new suit from Blankenship & Woodcock, who are agents for Edward Rose & Co., of Chicago. Their samples are the best selection and their suits fit.
The affairs of the county should be in the hands of safe, conservative men for commissioners, and the Republican nominees are true blue, and are as follows: H. G. Justice, Dist. No. 1; Jim Stark, No. 2, and J. R. Montgomery, No. 3. You can't get better men than these, so why not give them your support.

Mrs. W. E. Lindsey was ill the first of the week but is now well again.
W. E. Self died Monday of stomach congestion, supposed to be the result of eating watermelon. Mr. Self was one of our early settlers, a hale and hearty man, and his death was not expected. His family have the sympathy of a host of acquaintances.
If you would have an orderly, law-abiding community, elect a sheriff who will see to it that the law is properly enforced at all times. There is no better man for the place than M. J. Logan our candidate for Sheriff. Keep him in mind.
N. S. McGee and Geo. Baker have had a horse shipped in for future use in Portales. We believe this is one of Mr. McGee's ideas, as we understand he is a wide-awake, far seeing man, and has an eye to business. He knew it was a paying proposition, for if we strike the water in paying quantities, the town will become a city at once, and a horse will be needed, and on the other hand, if we do not get ardent water, chances are there will be more business than one horse can do. So it's a winner anyway.
Notice to Teachers.
On Saturday Oct. 29 commencing at 7:30 o'clock there will be held in the Public school building at Portales an examination for those desiring THIRD grade certificates.
F. E. GORDON,
Superintendent.

Senator W. H. Andrews.
Our Next Congressman.

Vote for Andrews and feel better for having done your whole duty.

Music lovers will kindly take to heart the announcement that the Portales Band is working on a concert program to be rendered about the middle of November. The Band will then be about ten months old and strengthened with the recent addition of an old cornet player. The concert will undoubtedly eclipse all previous efforts. Get your life insured, settle up your business affairs and then watch for the exact date.

It is time the people obeyed the doctors and common sense and burn all rags, refuse, etc. The trash thrown in a great many of our back yards is enough to cause the death of half of the population. Burn everything. Fumigate with sulphur. Do it today. A. Subscriber.

Claim for Sale Cheap.
A party desirous of selling his claim at once tells us if sold by November 1, he will take \$500 cash and hand over the relinquishment papers. This place is six miles from Portales, the county seat. About all tillable land and a snap at the price asked.

The Things of Autumn at Morrison Bros.,

Already the autumn leaves have turned. The gay garments of Summer have been set aside. Men and women have donned the warmer Fall Apparel, of this or year last, as convenience or opportunity provided. But the new is distinctly New. Fashion in many cases has been most radical in her revisions.

The New is here—for Men, for Women, for Children—ample, complete, satisfying. Showing is interesting, instructive—a safe guide, a sufficient, gratifying source of supply. Come and see the New Tailor-made Suits, the New Coats, the New Skirts, the New Waists, the Beautiful Hats, the New Furs, the New Neckwear, the New Belts, the New Bags and the New Underwear for the whole family. All reasonably priced.

YOU WANT THAT NEW SUIT, OF COURSE
These crisp, fine Autumn days are hurrying men after their NEW FALL SUITS, for the Light Summer Suit is out of date—a man looks badly and feels worse, until he gets a new one. We are ready with a new stock. The handsome new browns are in the highest favor, and we have them in big varieties, covering practically every new style that has been brought out.

Here are Single and Double Breasted Sack Suits made of Cheviots in brown and gray mixtures, as well as hard-worsted, in neat gray effects, which so many men prefer. Prices \$7.50 to \$30.00. For young men of fifteen to twenty years, we are showing a very fine collection of Single or Double Breasted Sack Suits of Fancy Cheviots, in new brown and gray mixtures. Prices \$5 to \$15.

See our New Style Hats, New Shape Shoes, New Neckwear, New Underwear and everything in the way of fixings for Men, Women and Children.

BOYS' CLOTHES
With the Mrs. Jane Hopkins label possess the good points needed to make them "BOY PROOF."
Come to us and look at these clothes. They'll win your boys heart and please you, we know. Priced a bit lower than the average Suit with 50 per cent. more quality.

RUSSIANS HOLDING UP.

Situation Looks More Promising for Kuropatkin.

St. Petersburg, Oct. 18.—The news from the front is now more reassuring from the Russian standpoint. The situation is still regarded as being critical, but General Kuropatkin is apparently holding the Japanese firmly on his center and right wing, even having recrossed the Shangkai River, and while there are rumors of extensive Japanese flanking movements both on the east and on the west, there is no evidence that they are actually occurring.

General Kuropatkin's left wing has been heard from. The Associated Press has the first connected account of the four days' fight in front of Tumin and Saitchou Passes, resulting in the final withdrawal of the strong Russian column which had been sent to turn the Japanese right, though General Mitchenko seemed to have actually penetrated a considerable distance inside the Japanese line. The report of the operations of the Russian left wing is still three days old, and since that time no news has been received from this column. The situation at this date may be described as follows:

General Kuropatkin has slightly advanced his center, recrossing Shangkai, south of the Shangkai river. Directly behind him at a distance of nine miles lies the Hun River, and across the bridge spanning this stream the Russians must retire in case they retreat on Mukden. General Kuropatkin must continue to firmly hold his center and right flank in order to prevent the Japanese getting possession of the Hun River bridges. Thus he will cover the withdrawal of his apparently beaten left wing.

There are still uncertainties as to the disposition of the left column. It has not returned to Mukden. Whether it is again advancing after its withdrawal is not known.

It is no longer a question of a Russian Sedan, though all hope of relieving Port Arthur must apparently be abandoned. Little hope is expressed that Kuropatkin will be able to advance.

POULTRY MEN GET TOGETHER.

North Texas Poultrymen Organize for Larger Shows.

Dallas: For the purpose of holding larger exhibits than severally they had been able to do, the Dallas and Fort Worth Poultry Associations, with additional members from many other towns in the State, have merged into the North Texas Poultry Association and the executive committee of the new organization has gone to work to hold a big show this season at a time and place yet to be chosen. The membership of the new organization is larger than the combined rolls of the older bodies and the prospects of a successful conduct of the association are regarded as very flattering.

Officers of the North Texas Poultry Association are, Dupont B. Lyon, president, Sherman, Cliff Cates of Decatur, L. C. McMaster of Honey Grove and S. B. Ferrell of Granbury, vice presidents; Elbert Beaman, secretary, Dallas. The executive committee embraces J. G. Goss of Decatur, William Plumhoff of Waxahatchie, A. F. Dodson of Wichita Falls, Walter Ellsworth of Bonham, H. F. Weldon of Henrietta, George T. Tabler of Roysa City, W. M. Cornett of Dallas, Alvin Kramer of Fort Worth and the officers of the association.

Can Held Cotton.

Manor: Cotton is nearly picked. Two weeks more will see the bulk of the crop in bales. Farmers are hauling the cotton home and but little is being sold. They are in good circumstances and can hold indefinitely. They believe that their cotton is well worth 10c. The imported seed that was planted did not do so well as the native seed. The genuine Meyer cotton, which is in its purity here, excels all other kinds.

Election Off in Rains County.

Greenville: The prohibition election called for Rains county has been declared off by the county commissioners because of Judge Bryant's decision. Judge Bryant decides that the law requires twenty days' notice of election, and there were but nineteen given in Rains county. The pros ask the commissioners to call another election at once on the former petition, but the matter was laid over until November.

Mine Explosion at McAlester.

South McAlester: A mine explosion occurred in shaft No. 19 at Wilburton which destroyed the fanhouse and tipped and damaged the mine to the extent of \$10,000, with no insurance. No lives were lost. The mine is owned by James Dignan, James McConnell and L. W. Bryan. An explosion in the Bolen-Darnell Mine at McAlester earlier killed two miners named Edwards and Croft. The mine was not badly injured.

Gold in His Belt.

Leggett: Two hundred dollars in gold was found in a handmade belt on the dead body of J. W. Hanner, a Confederate soldier 74 years old, who fell dead at his home on the 3rd of this month. When the inquest was held the justice took the belt off and laid it aside in an old pasteboard box, thinking it was an electric belt. The gold was discovered by his son ten days after the inquest.

PEACE TALK IS VARIANT

Washington Says Yes, but Russia's Envoys Say No.

Washington, Oct. 18.—The war in the East has enlisted the closest attention of the Administration and it is felt that the time is approaching when it will be in order for the great neutral powers to move toward the restoration of peace. President Roosevelt has from the first stood ready to use his good offices to stop hostilities on a basis honorable to both belligerents, but he is stopped from moving by the fact that it has been the unbroken rule of our Government to wait until it is assured that both sides to a controversy of this kind are willing that we should act. There has so far been no open proposition nor can it be truthfully stated that even an indirect overture has come to Washington from St. Petersburg or Tokio, but it is believed that the signs point to an early move in that direction.

Washington, Oct. 17.—Count Cassini, the Russian Ambassador, in a conversation with a correspondent of the Associated Press tonight reiterated with great emphasis what he has already had occasion to say several times regarding intervention by the Powers to conclude the war: "There is," he said, "absolutely no opportunity for intervention to stop the war. Russia proposes to prosecute the war to the end and all efforts of peace at this time must be rejected."

Paris, Oct. 17.—Owing to the renewed suggestions in leading English newspapers that the overwhelming victory of Japan makes the time opportune to propose mediation, the Foreign Office here says official information shows that Russia will not consider mediation from any quarter whatever, being more than ever determined vigorously to prosecute the war.

Mysterious Killing.

Dallas: Officers found an unknown negro lying on the sidewalk on Main street near Preston Monday afternoon with a mortal knife wound in his left side. The man was taken to the City Hospital, where he died from his injuries about two hours later. The attendants at the hospital stated that he was unable to give his name, but the police claimed that he was a brother to the late Dr. Henry Robinson, who died from a pistol shot Sunday night, and had come here from New Orleans to bury him.

Very few details as to how the negro received his wound could be secured, but it is believed that he was stabbed by some other party or parties, and yesterday afternoon Police Officer Tom Riddell made an affidavit against Ben Williams and Pattie Van Zandt, both negroes, charging them with assault with intent to murder in connection with the case.

Two Women Drop Dead.

Paris. Mrs. Hadley, the wife of a tenant on Hamp Dennis' farm, a mile east of Garretts Bluff, dropped dead in the yard Saturday morning. She had two or three chills and was complaining of a pain in the back of her head during the forenoon. Mrs. Campbell, the wife of a tenant on P. B. Chastaine's farm, in the northwest corner of the county near Direct, also dropped dead Saturday morning. She had cooked breakfast and seemed to be in good health.

The Southwestern University, Georgetown, now has an enrollment of 650 students in all departments, the largest attendance in the history of the institution.

McGregor's Free Circus.

McGregor: It is estimated that more than eight thousand people were in McGregor Monday attending the regular third Monday trades day. The Board of trade chartered a circus to come and give a free performance—something that has never been done before in any town in Texas. The result was the bringing together of the largest crowd ever seen in McGregor. No man is a nonentity unless he is a prominent woman's husband.

The Postal Telegraph and Cable company has established an office at South McAlester.

Arthur Fields, living three miles north of Livingston, shot himself through the head with a Winchester. He was 40 years of age.

In Grayson County it is estimated that at least 75 per cent of the cotton crop has been gathered. A large number of farmers are holding their cotton for better prices.

The fruit and truck growers of Smith County have organized a county association with C. W. Wood of Shreveport as president and Alex. Woldert of Tyler secretary. The company will incorporate.

It is generally reported that the pecan and persimmon crop in Kaufman County is large this year. Pecans grow in abundance on the Trinity River in the south end of the county and on the Sabine, in the north part of the county. The Controller of the Currency has declared a third division of 15 per cent in favor of creditors of the Citizens National Bank of McGregor, Texas, making in all 85 per cent on claims proved, amounting to \$61,087.74.

TALK ON ADVERTISING

By C. W. Post to Publishers at Banquet at Battle Creek.

The sunshine that makes a business plant grow is advertising. Growing a business nowadays is something like growing an apple-tree. You may select good seed, plant it in good soil, water and work with it, but the tree will not produce fruit until another and most powerful, energizing and life-giving element is brought to bear. You must have sunshine and lots of it. Can you expect to ripen apples in the dark? Can you expect to grow a profitable business plant nowadays without the sunshine of public favor produced by advertising?

This Postum plant is a good illustration of that law. It seems but a short time ago when I put a few men at work in the carriage house of the Postum plant, where we began making Postum coffee. The seed then planted, less than 9 years ago, was a new kind of apple seed and it was not altogether certain how the people would like the apples. We did our work thoroughly and plenty of it. We knew we had a good

Pure Food Factories that Make Postum and Grape-Nuts.

apple tree of fine quality but how to develop our work and turn the apple tree into a productive and profitable tree was another question. It needed sunshine and the kind of sunshine that is spread by the newspapers and magazines. It is an absolute certainty that without the publicity thus given—in other words, the sunshine—the business never would have developed.

You have seen today factory buildings—thirteen or fourteen in number—covering many acres of ground, employing hundreds of workpeople, producing food and drink in an aggregate of four million packages per month, which go to every civilized country on the globe, and yet the entire enterprise is less than 20 years old. We have found it necessary, inasmuch as the tree has grown and the apples matured by hard work and sunshine, to continue the work and the sunshine day in and day out, month in and month out, the sunshine appropriation amounting to approximately a million dollars a year for advertising, for experience teaches that if you mature the tree under strong sunshine, and bring it up to a thrifty and healthful state where it produces profitable apples, you can not withdraw that sunshine else the tree will gradually die.

A Hanna Memorial.

On the demise of the late Senator Hanna the family received 1434 telegrams of condolence and 3240 letters. These were sorted up in alphabetical order and sent to Mr. Burrell to be inserted in albums as companions to the eight books of newspaper clippings already delivered. Included in the books are the resolutions passed by all manner of organizations and the cards left at the house and the cards attached to the floral offerings. There were four large volumes, making a total of twelve volumes of tributes, constituting a remarkable memorial that will be most highly cherished by future generations of the late Senator's family.

The trouble with most pretty girls is they think that is all that's necessary.

THE FICKLENESS OF MAN.

Woeful Plight of the Girl with the Sentimental Eyes. The girl of the sentimental blue eyes sighed. "He asked me to marry him," she remarked plaintively. "The girl with the new shade of mahogany-tinted hair looked interested. "And you accepted him?" she asked with an uplifting of the eyebrows. "No. Like a fool I asked for time in which to consider it." "Indeed! And what did he say then?" "Why," replied she of the blue eyes. "He was awfully nice and sympathetic about it. Said he understood the innocent shyness of a natural disposition like mine; and that he would give me three months to think it over."

And what did you answer to that? "Oh! I saw my mistake right away. I knew that three days would be ample time; but I couldn't tell him so, could I? Besides, he was so nice about it. Thought no girl should be pestered under the circumstances. Upon my soul, Gladys, he almost insisted on my taking three months! I grow very thoughtful and sad and silent, and we finally compromised on two weeks."

Valuable Coin Collection.

Mrs. Alice Hall of Kenduskae, Me., has a very valuable private collection of coins. The earliest is an old Roman coin, which bears the date of 1373. There is a particularly large collection of the coins of foreign countries, nearly every nation on the globe being represented. Mrs. Hall has all of the U. S. coins from 1800 up to the present time. Among this number are two half-cent pieces of the 1804 coin age.

Lord Milner Breaking Down.

A letter received from Johannesburg gives a painful picture of Lord Milner. It declares that since his return from England he has aged considerably. The stress of the last few months has, in fact, told upon him more than did all the anxieties of the war time. His shoulders are bent, his hair silvered and his general appearance careworn. He has been besought by his friends to relax the strain which he persistently places upon himself, but this he refuses to do.

Flagler's Philanthropic Life.

Henry W. Flagler, Standard Oil Midas, is known to the general public only as a bloated trust magnate, monopolist, railroad owner and hotel proprietor. His intimates declare him to be a philanthropist without a peer. His business associates say that his life is spent in helping his fellow men to help themselves; he is always ready to lead the way, and his friendship inspires his employees with a resolution to labor unceasingly and devotedly in his interest.

The Czar's Private Fortune. The Czar is the owner of over a hundred estates, all of which supply him with private revenues, but he is also the possessor of a hundred palaces and castles, which have to be maintained in imperial style at a great expense to the owner. The Czar has more servants than any one else in the world, for a veritable army of over 30,000 domestics—cooks, pages, butlers, groomers, gardeners, and so forth—is employed on his estates. He possesses over forty residences which he has never seen, a score of homes which he has viewed externally, but never inhabited, even for one night, and another score, in each of which he has slept on only one occasion. The Czar's private stable contains over 5,000 horses belonging to him and the herds of cattle feeding on his own lands are estimated to number over 50,000 head.

The self-admiration of some men proves that there is no accounting for tastes.

The man who is unable to work and smoke at the same time invariably smokes.

Could Get No Rest.

Freeborn, Minn., October 17 (Special)—Mr. R. E. Goward, a well-known map here is rejoicing in the relief from suffering he has obtained through using Dodd's Kidney Pills. His experience is well worth repeating as it should point the road to health to many another in a similar condition. "I had an aggravating case of Kidney Trouble," says Mr. Goward, "that gave me no rest day or night but using a few boxes of Dodd's Kidney Pills put new life in me and I feel like a new man."

"I am happy to state I have received great and wonderful benefit from Dodd's Kidney Pills. I would heartily recommend all sufferers from Kidney Trouble to give Dodd's Kidney Pills a fair trial as I have every reason to believe it would never be regretted." Dodd's Kidney Pills make you feel like a new man or woman because they cure the kidneys. Cured kidneys mean pure blood and pure blood means bounding health and energy in every part of the body.

The Longest Tunnel.

The meeting of the two galleries of the Simpson tunnels is anticipated about the end of September, when the whole of the twelve miles 453 yards will have been pierced. Seven miles of this distance are in Italy. When completed this will be the longest tunnel in the world, since the St. Gothard is about nine and one-half miles, the Mont Cenis eight miles, and the Arberg six and one-half miles long. The tunnel reaches an altitude of 2313 feet, while the elevation of the renowned Alpine road of Nyon over the Simpson pass is 6590 feet. The total cost of the tunnel will be about \$15,654,000.

The Father of Baseball.

Henry W. Chadwick, the "father of baseball," is still in the front ranks of those actively employed in newspaper pursuits. While over 80 years of age, Mr. Chadwick conducts a syndicate of chess, whist, cricket and baseball specials, and his articles on these subjects are as vigorous today as they were forty years ago or more. The old gentleman is hale and hearty and attributes his good health and longevity to a life free from tobacco and stimulants and with plenty of outdoor exercise.

SAFEST FOOD

In Any Time of Trouble is Grape-Nuts. Food to rebuild the strength and that is pre-digested must be selected when one is convalescent. At this time there is nothing so valuable as Grape-Nuts, for the reason that this food is all nourishment and is also all digestible nourishment. A woman who used it says:

"Some time ago I was very ill with typhoid fever, so ill everyone thought I would die, even myself. It left me so weak I could not properly digest food of any kind and I also had much bowel trouble which left me a weak, helpless wreck."

"I needed nourishment as badly as anyone could, but none of the tonics helped me until I finally tried Grape-Nuts food morning and evening. This not only supplied food that I thought delicious as could be, but it also made me perfectly well and strong again so I can do all my housework, sleep well, can eat anything without any trace of bowel trouble and for that reason alone Grape-Nuts food is worth its weight in gold." Name given by Postum Co., Battle Creek, Mich.

Typhoid fever, like some other diseases, attacks the bowels and frequently sets up bleeding and makes them for months incapable of digesting the starches and therefore pre-digested Grape-Nuts is invaluable for the well-known reason that in Grape-Nuts all the starches have been transformed into grape sugar. This means that first stage of digestion has been practically accomplished for you. Food at the factory is made for anyone, no matter how weak, how sick, how old, how young, how fat, how thin, how all the world's.

SADIE ROBINSON.
 Pretty Girl Suffered From Nervousness and
 Pelvic Catarrh—Found Quick Relief
 in a Few Days.

**NERVOUSNESS AND
 WEAKNESS CURED
 BY PE-RU-NA.**

Mrs. Sadie Robinson, 4 Rand street,
 Malden, Mass., writes:
 "Peruna was recommended to me
 about a year ago as an excellent remedy
 for the troubles peculiar to our sex, and
 as I found that all that was said of this
 medicine was true, I am pleased to en-
 dorse it.
 "I began to use it about seven months
 ago for weakness and nervousness,
 caused from overwork and sleepless-
 ness, and found that in a few days I
 began to grow strong, my appetite in-
 creased and I began to sleep better,
 consequently my nervousness passed
 away and the weakness in the pelvic
 organs soon disappeared and I have
 been well and strong ever since."

Oatmeal Coffee.
 Oatmeal coffee is a very wholesome
 drink for any invalid, and one which
 is little known. Procure some nice
 fresh oatmeal of a coarse kind, moist-
 en it with just enough cold water to
 allow of its being made into cakes.
 Roll out thinly, and brown in a slow
 oven until the color of a coffee bean
 without being burnt. Place two or
 three of these cakes in a pint jug, fill
 with cold water and stand for two
 hours. Strain, and it is ready for use.

Weight of New-Born Babies.
 Well authenticated instances of chil-
 dren weighing at birth as much as 13
 pounds are of extreme rarity. Among
 15,166 children born in Chrobak's
 clinic in Vienna only one weighed
 5,300 grammes (11 1/2 pounds); while
 in seven years at the Clinie Baudeloc-
 que in Paris there were only six chil-
 dren who exceeded 5,000 grammes
 (11 pounds) at birth, the largest
 weighing 6,150 grammes (13 1/2
 pounds). Dubois in 1897 collected 75
 cases in which the child weighed more
 than 5,000 grammes (12 pounds) at
 birth and stated that the heaviest
 children on record weighed respectivel-
 y 24 pounds 3 ounces, 24 pounds 2
 ounces, and 23 pounds 10 ounces.

American and German Colleges.
 The University of Berlin, acting for
 all the universities of Prussia, has de-
 cided to recognize the leading Ameri-
 can universities by admitting any of
 their graduates without examination.
 This means that Germany is making a
 bid for our students to take post-
 graduate courses in her advanced
 schools, and it is also an honor for our
 universities so recognized. They are
 Yale, Harvard, Columbia, Princeton,
 Michigan, Johns Hopkins, Pennsylvania,
 California, Chicago, Cornell and
 New York. The number of Americans
 studying at the German universities
 has increased rapidly since Edward
 Everett, the first American to take a
 German degree, was graduated in 1817.
 Now there are over 300 American stu-
 dents matriculated in the various Ger-
 man institutions.

Speltz or Emmer.
 Up to the present time spring sown
 speltz has given better returns than
 the fall sown of the same kind. The Okla-
 homa experiment station. There are
 known varieties, however, that are
 well able to withstand the winter and
 are even quite hardy in that respect
 as well as drought resistant. In the
 fall of 1902 one plot was seeded to
 speltz. The soil was in excellent con-
 dition and the seed, germinated mod-
 erately well, but the plants made a
 very slim growth during the fall and
 the major portion of the crop was de-
 stroyed by the frosts of winter. Last
 season two plots containing one acre
 each were seeded to this crop. The
 seed was sown October 20 and the
 plants made a fair growth on both
 plots up to the winter season. The
 cool dry weather during the winter
 months was very severe of the crop.
 The plants on one plot went back to
 such an extent that it was necessary
 to reseed it in the spring. On the re-
 maining plot the stand was very light.
 The yields for this season are given
 in the table below:

Grain, bu. Straw, tons Test	
Treatment, per A.	per A.
Fall sown...6.9	.82 27.2
Spring sown...8.8	.68 24.0

The yield of grain per acre was fig-
 ured on a basis of 30 pounds per bush-
 el. In this test the spring sown speltz
 gave the largest yield of grain per
 acre. The quality of the spring sown
 crop was inferior to the fall sown.
 Weeds came up very thick in the fall
 sown speltz. In the course, in-
 creased the yield of straw per acre
 on this plot. It should also be noted
 that very heavy rains occurred at the
 harvest season and this had a ten-
 dency to decrease the yield per acre
 to quite an extent.

Experience with this crop on the
 station farm would lead to the opinion
 that very little, if any, pasture, can
 be obtained from speltz during the
 fall and winter months. It may be
 possible to obtain, in the near future,
 hardy varieties that will furnish a
 fair amount of pasture, but for the
 present wheat will give far better
 satisfaction in this respect.

The Hessian fly has given us no
 trouble whatever in this section. The
 insect works on wheat, rye and barley,
 and probably will also work on speltz,
 the latter plant belonging to the same
 genus as wheat. One variety of speltz
 that though none of our wheats are
 exempt from attack, those varieties
 with large, coarse, strong straw are
 less liable to injury than weak-strawed,
 slow-growing varieties. Speltz has in
 a very stiff straw, which is much in its
 favor so far as insect attacks are con-
 cerned.—Oklahoma Station.

CURE YOUR KIDNEYS.

 Troubles Set In, Get at the Cause.
 Don't make the mistake of believing
 backache and bladder ills to be local

 "It was three years ago that I
 used Doan's Kid-

 ble that was mostly backache, and
 they fixed me up fine. There is no
 mistake about that, and if I should
 ever be troubled again, I would get

Old Vanderbilt's Complaint.
 It is reported that the late Corn-
 elius Vanderbilt just before his death
 said to a friend: "I don't see what
 good it does me—all this money that
 you say is mine. I can't eat it; I can't
 spend it, in fact, I never saw it and
 never had it my hands for a moment.
 I dress no better than a private secre-
 tary, and cannot eat as much as my
 coachman. I live in a big servants'
 boarding house, am bothered to death
 by beggars, have dyspepsia, and most
 of my money is in the hands of others
 who use it mainly for their own
 benefit."

**Mrs. De Long Finds That the In-
 describable Pains of Rheumatism Can
 Be Cured Through the Blood.**

Mrs. E. M. De Long, of No. 160
 West Broadway, Council Bluffs, Iowa,
 found herself suddenly attacked by
 rheumatism in the winter of 1896.
 She gave the doctor a chance to help
 her, which he failed to improve, and
 then she did some thinking and ex-
 perimenting of her own. She was so
 successful that she deems it her duty
 to tell the story of her escape from
 suffering:
 "My brother-in-law," she says, "was
 enthusiastic on the subject of Dr.
 Williams' Pink Pills as a purifier of
 the blood, and when I was suffering
 extreme pains in the joints of my an-
 kles, knees, hips, wrists and elbows,
 and the doctor was giving me no re-
 lief, I began to reflect that rheuma-
 tism is a disease of the blood, and
 that if Dr. Williams' Pink Pills are
 so good for the blood they must be
 good for rheumatism and worth a
 trial.
 "I was in bed half the time, suffer-
 ing with pain that cannot be described
 to one who has never had the disease.
 It would concentrate sometimes in one
 set of joints. When it was in my feet
 I could not walk; when it was in my
 elbows and wrists I could not even
 draw the coverslets over my body. I
 had suffered in this way for weeks
 before I began using Dr. Williams'
 Pink Pills. Two weeks after I began
 with them I experienced relief and
 after I had taken six boxes I was en-
 tirely well. To make sure I continued
 to use them about two weeks longer,
 and then stopped altogether. For sev-
 eral years I have had no reason to
 use them for myself, but I have rec-
 ommended them to others as an ex-
 cellent remedy."
 Dr. Williams' Pink Pills furnish the
 blood with all the elements that are
 needed to build up healthy tissue,
 strong muscles and nerves, capable of
 bearing the strain that nature puts
 upon them. They really make new
 blood and cure all diseases arising
 from disorders of the blood or nerves,
 such as sciatica, neuralgia, partial
 paralysis, locomotor ataxia, St. Vitus'
 dance, nervous prostration, anemia
 and all forms of weakness in either
 male or female. They are sold by all
 druggists.

Roosevelt Also a Fencer.
 According to Genaro Pavese, said
 to be the champion fencer of the
 world, President Roosevelt has more
 ability with the foils than many of
 the foreign ministers and attaches in
 Washington who have handled the
 flexible steel rods since their youth.
 Signor Pavese has been instructing
 the President for the past year and
 declares that he is his aptest pupil.
 For a time the lessons have been dis-
 continued, he says, but they will be
 resumed about the middle of Decem-
 ber. "Mr. Roosevelt," says the fencing
 master, "is wonderfully quick and
 is finely developed physically. His
 arms are rounded and sinewy—in fact,
 he is a perfect specimen of manhood."

**Beware of Ointments for Catarrh
 that Contain Mercury.**
 An ointment will surely destroy the sense of smell
 and completely derange the whole system when
 applied to the mucous surfaces. Such
 articles should never be used except on prescrip-
 tion from reputable physicians, as the damage they
 will do is ten fold to the good you can possibly de-
 rive from them. Hall's Catarrh Cure, manufactured
 by F. J. Cheney & Co., Toledo, O., contains no mer-
 cury and is taken internally, acting directly upon
 the blood and mucous surfaces of the system. It
 cures Catarrh of the Nose, Throat, and Lungs, and
 is the only reliable remedy for such affections.

"DEAR MRS. PINKHAM:—I am so pleased with the results obtained
 from Lydia E. Pinkham's Vegetable Compound that I feel it a duty
 and a privilege to write you about it.
 "I suffered for more than five years with ovarian troubles, causing
 an unpleasant discharge, a great weakness, and at times a faintness
 would come over me which no amount of medicine, diet, or exercise
 seemed to correct. Your Vegetable Compound found the weak spot,
 however, within a few weeks—and saved me from an operation—
 all my troubles had disappeared, and I found myself once more healthy
 and well. Words fail to describe the real, true, grateful feeling that is
 in my heart, and I want to tell every sick and suffering sister. Don't
 dally with medicines you know nothing about, but take Lydia E. Pink-
 ham's Vegetable Compound, and take my word for it, you will be a

**Another Case of Ovarian Trouble
 Cured Without an Operation.**

"DEAR MRS. PINKHAM:—For several years I
 was troubled with ovarian trouble and a painful
 and inflamed condition, which kept me in bed part
 of the time. I did so dread a surgical operation.
 "I tried different remedies hoping to get better,
 but nothing seemed to bring relief until a friend
 who had been cured of ovarian trouble, through
 the use of your compound, induced me to try it.
 I took it faithfully for three months, and at the end
 of that time was glad to find that I was a well
 woman. Health is nature's best gift to woman,
 and if you lose it and can have it restored
 through Lydia E. Pinkham's Vegetable Com-

To Keep Up Soil Fertility.
 Agriculture demands and deserves all
 the investigation which is being given
 to it—it is in need of, and is worthy
 of, all the investigators whose services
 are being devoted to this greatest of
 all our industries, but let us remem-
 ber that it is only a genius who can
 draw correct conclusions from incom-
 plete data or insufficient premises; that
 we are to use all obtainable in-
 formation to guide us, and that we
 are to work together as a unit for the
 betterment of American agriculture.
 The work is greater than any man or
 any office. Let every man develop
 and magnify the line of work which
 he is called upon to perform, but let us
 neither decry nor ignore nor un-
 derestimate the value of any other
 good work. And God speed the time
 when we shall agree on some funda-
 mental principles; and when we shall
 discover and demonstrate the best and
 most economic methods for the perma-
 nent maintenance or increase of the
 productive capacity of our soils, not
 only by maintaining the most suitable
 physical conditions of the soil and by
 effecting the utmost possible control
 of soil water and by the most econ-
 omic utilization of the virginal fertility
 already stored in the soil, but also,
 wherever necessary and profitable, by
 liberal additions to the soil of valu-
 able plant food,—not by the purchase
 and use of sodium nitrate, almost cer-
 tainly not, but undoubtedly by the
 assimilation and utilization of unlim-
 ited quantities of atmospheric nitro-
 gen,—probably not by the use of acid
 phosphates, containing six per cent of
 phosphorus and sixty per cent of man-
 ure and plaster,—anally supply-
 ing, as commonly practiced, but
 from one-half of the phosphorus actu-
 ally removed by the crops and stimu-
 lating the soil to give up a greater
 quantity of the stock of plant food it
 contains, thus leaving it in a still more
 impoverished condition, but much
 more likely by returning to the land
 in pure form the bone meal produced
 on the farm and by using, together
 with farm manures and leguminous
 green fertilizers, large quantities of
 fine ground rock phosphate direct from
 the almost inexhaustible natural phos-
 phate deposits in our southern states.

cal in this Territory. He has been a citizen of New Mexico about nine years. Mr. Money, on the other hand, has been a citizen of the Territory about ten or eleven years, has held a nice little office for five or six years and thereafter devoted himself and his time in compiling and editing "Money's Digest" of Territorial Supreme Court opinions. Business men, property owners and citizens generally will serve the best interests of this commonwealth and of themselves by voting for Andrews, who "does things" to the advantage and benefit of the Territory. Except for purely political reasons, there can be no valid excuse offered why anybody interested in the material and business progress of the Territory should vote for Mr. Money. From a political standpoint even, there is very little to be said in favor of such action. A vote for Mr. Money cannot and will not do the Territory any good; a vote for Mr. Andrews can and will do the Territory much good. This situation is so plain that it cannot be successfully contradicted. —New Mexican.

Two Sowers.
Behold Uncle Samuel had a big field to sow; whereupon he sent forth into the field one Grover whose surname was Cleveland to do the sowing. And Grover straightway sowed the field with the seeds of Free-Trade, with a remarkable crop resulting.
For in due season the field was white unto harvest with a mighty yield of bond issues in a time of peace idle factories, tramping laborers, Coxy armies, ragged breeches, shaggy shadow soap and poor prices, everywhere.

Then arose Uncle Samuel in the midst of his wrath and spoke unto the sower, saying:
Grover, get. Depart unto the dungeons of political darkness. Hie thee away to the shimmering waters of Buzzards Bay, there to follow the gentle crash of Sir Isaac. Go quickly ere I dash my No. 13 into the midst of thy year rotundity. And Grover went away sorrowful, and had hopes of great riches and a third term.
Then Uncle Samuel opened his mouth again, and said: Son William whose surname was McKinley, sow in my field this year. And William went straightway and sowed in the very same field, but he had good seed to wit: Protection, Sound Money and such.

Again the field brought forth abundantly, but this time it was an overflowing treasury, busy factories, employed labor at increased wages, clothed, fed and well paid people and good pay for all produce.
Then Uncle Samuel was made much glad, and smiled a smile of great joy, and said: I will have this seed sown in my field forever more.
And all the people were well pleased, and shouted with a great shout, saying: Let this be true.

Good Reasons For Voting For Andrews.

The people of New Mexico should understand that it will benefit them to be represented in the 59th Congress by a Republican delegate. That body will surely be Republican and the delegate from New Mexico who belongs to the minority party cannot and will not accomplish much good during his term. On the other hand, a man like Senator W. H. Andrews, who has a thorough and intimate acquaintance with the many Senators and Representatives and who possesses extensive legislative experience can and will accomplish much of benefit for the Territory. Both as a political and as a business proposition, the voters of the Territory should give their votes to him on election day and send him to Congress by the largest majority ever given any candidate for that honorable office. Such a majority will strengthen his position and aid him to do all the better, more effective and more beneficial labor for the good of the people. —New Mexican.

Compare the Records of the two Candidates.
Senator Andrews, Republican candidate for delegate to Congress, has achieved much for New Mexico and has been the cause of the investment of millions of dollars of foreign capi-

The strongest argument the Republicans have in the present campaign is their appeal to the business interests of the country. There is really little, if any politics, which is fundamental, left for discussion. It is admitted that the once paramount issues of free silver, a high tariff or free trade, have quite disappeared. Ex-Senator H. G. Davis, the Democratic candidate for vice president, says it is a mistake to speak of the Democratic party as a free trade party. He says West Virginia is a tariff state, and he himself is a high tariff man. These questions having virtually disappeared, the only problem left is how shall our inter-state and foreign commerce be promoted and protected? Last year our foreign commerce reached \$2,450,000,000 and in the immediate future it will increase vastly. How shall we recover our own carrying trade? How shall we read just the tariff so that it will not be burdensome and not promote monopoly? How shall we promote agriculture and manufactures? There are the business propositions of interests alike to all sections of the country.

The Republican party leaders in Kansas feel so hopeful that they have informed Chairman Cortelyou of the Republican National Committee that they need no money to carry on their campaign. The farmers of the state have over \$100,000,000 in the banks and this year's crops are very bountiful. Kansas will, on November 8 next, give one of its record-breaking majorities for Roosevelt and Fairbanks.

Dr. Carter of Emma was shot last Monday by C. L. Lockwood at Estacoda. The ball from a 44 Smith & Wesson pistol shattered his lower jaw and penetrated the neck. The wound was not fatal and Dr. Carter was taken to Chicago by Dr. Wayland of Plainview. The shooting was the result of a practical joke.—Silverton (Tex.) Enterprise.

Pastor Wagner has been preaching in Philadelphia on the "great sin of silence." He says strong men should speak. There is great peril in silence, he says. Beware of silent men. Speak out! All this with five hundred spell-binders on the stump, and the country ringing with speeches from one end to the other. Judge Parker is the only "silent man," according to Pastor Wagner, of whom one needs to be afraid, while President Roosevelt "speaks out in meeting" whenever the spirit moves.

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs. If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves. Dr. Miles' Restorative Nervine is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.
"When I began taking Dr. Miles' Restorative Nervine and Anti-Pain Pills I was confined to my bed. I had severe nervous spells, the result of two years illness with malaria. I gradually grew so weak that I was unable to sit up. The spells would come with cold chills, and I would become weak and almost helpless. My circulation was poor. I had doctored right along but grew weaker and weaker. The Nervine seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nervine, and I am entirely well."
ROSA E. WEAVER, Sturtevant, Ia.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Many Good—One Best.
"So many Oils and Liniments are advertised it is hard to decide which to buy. I tried a number before using Hunt's Lightning Oil. After using it once, however, I realized I had found the best there was, and it was useless to look further. If it fails its 'all off.' No other liniment will hit the spot if Hunt's Lightning Oil fails." 25c and 50c bottles. C. G. Young, Okemee, O. T.

Test Its Value.
Simmons' Liver Purifier is the most valuable remedy ever tried for constipation and disordered liver. It does its work thoroughly, but does not gripe like most remedies of its character. I certainly recommend it whenever the opportunity occurs. Price 25c. W. M. Tomlinson, Oswego, Kansas.

Bright's Disease and Diabetis
We desire to place in the hands of those afflicted with Bright's Disease and Diabetis a 36-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is principally made up of reports of scientifically conducted test in a large variety of cases showing 87 per cent of recoveries in these hitherto incurable diseases. The specifics employed in these test are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The Pamphlet is free. Write to John J. Fulton Co., 409 Washington street, San Francisco, Cal.

When to suspect Bright's Disease: puffiness of hands; weakness without apparent cause; kidney trouble after third month; frequent urination, (may show sediment or cloudy on standing); falling vision; day drowsiness—one or more of these.

Having just returned from a trip to Oklahoma (Custer County), we desire to say, since seeing letters from Greer county, where crops were short, that such is not true along the line of the C. O. & G. R. R. From west of Erick on east through Rodger Mills and Custer counties one is most favorably impressed with the fine crops of corn, cotton, kafir and feed stuff, as well as an endless amount of broom corn, now stacked at every station. Our people should give the culture of broom corn a careful consideration, as the towns of Foss, Arapaho and Custer City, were alive with this valuable crop. We can raise it here just as fine as they do, and its a ready-money crop.

Elida Notes.
Gathering crops has been the order of the day for three weeks. There is lots of feed to cut yet; three binders, and they are all kept busy, while a great many people are cutting by hand.

The bean and pea crops are fine. Thomas Armstrong has put up a mill. There will be about 1000 gallons of molasses put up this fall.

J. G. Brawley, of Rock Springs, Texas, has arrived with his family and will take up land about four miles southeast of Elida.

The private school is progressing nicely under the management of Miss White of Portales.

The health of the people around Elida is the very best, in fact, there is not enough sickness to keep one physician busy. The doctor has to get sick occasionally to keep in practice.

Owing to the washouts along the P. V. Line we have not been able to get much mail during the last twelve days.

Jim Hunter and George Littlefield were in town Wednesday.

It is reported that some cotton will make one-half bale per acre.

W. P. Kilpatrick celebrated his birthday Thursday.

See the new ad. of Bank of Portales in this issue.

Consider well the MAN for the office in our county affairs regardless of politics. It results in causing any party to put forth its best material.

Attend to Your Liver.
No organ in the human body can give as many different kinds of trouble as the liver when it is not right. Simmons' Liver Purifier makes it right and keeps it so.
