Mr. Stahlcup was in to the rally.

We are agents for the genuine Pictos Maitland Coal, the best on the market. Jones & Morrison's Grain Store.

No one seems to doubt the election of Miss Seymour for Supt. of Schools, but lets see how large the majority can be made.

Patronize our advertisers in preference to others. It's our duty to assist each other mutually.

Hurd & White sent their cattle back to Red Lake, on account of not getting cars to ship. They had 26 car loads.

Keith Jones and Mart Birdwell shipped twenty cars of cattle on the 13th.

Some of the best friends we have in the county have been Democrats. We appreciate it, and will also appreciate their friendship on Nov. 8th.

W. S. Prager will win out, there is no doubt, but lets give him a majority to feel proud of. He is worthy of it.

Hon. George P. Money spoke here last night to enthusiastic democratic audience, and made a fair talk from his standpoint and was neither an extremist nor abusive to the opposition.

Hon. Jerry Simpson addressed our citizens Wednesday night from a Democratic standpoint as he sees it. He had a large audience who were very attentive, as Portales audiences always are to visitors.

B. W. Miller, one of Warren, Foosee & Co's, old time clerks, is again with them. We are glad to see business increasing so as to need an increase in the force.

Place the county's affairs in safe hands by voting for our Republican Commissioners. The democratic nominees are good, but there are others. Compare and vote intelligently. The results will take care of themselves.

The oldest and most successful musical organization in the county, viz. the Portales Band, will give a concert in the Methodist church, Nov. 18.

The affairs of the county should be in the hands of safe, conservative men for commissioners, and the Republican nominees are true blue, and are as follows: H. C. Justice, Dist. No. 1; Jim Stark, No. 2; and J. R. Montgomery, No. 3. You can't get better men than these, so why not give them your support.

E. M. Shinn and Chas. Frazier are here at work on their farms.

The Baptist people have an article which is crowded out this week, but will appear next issue.

Vote for Andrews for Congress and the Republican county ticket.

Sterling Moody, of Warren, Foosee & Co's, said last Friday was the largest day's sales they have had since they have been in Portales.

The Republican county ticket has no fight against any individual whatever. We claim it on ability and efficiency. In county affairs the man's ability should be considered first.

S. F. Wooding killed a hog last week which weighed 800 lbs. and was two years old, of the Poland-China and Berkshire stock, and enough lard was rendered from it to fry those 700 bushels of sweet potatoes raised in India Humphrey's flower bed.

In dividing the officers in Roosevelt County between Democrats and Republicans has been something strange to some, but the votes on Nov. 8th will show that Democrats appreciate favors from the Republican administration just as much and will "do unto others as they have done to them."

On last Saturday night there was a Grand Republican Rally at the Vendome Hall, and the Republicans and Democrats came from far and near, to be present and meet the Governor and his party.

The special train rolled in at 8 p. m., and supper having been ordered at the Vendome Hotel for thirty-two, they proceeded to the dining-room, under a lively march which was exquisitely rendered by our home band, and after which the speakers came forward to the stage. The hall was crowded to the sidewalk, there being many ladies present to honor the occasion.

The first speaker presented by W. E. Lindsey, was Gov. M. A. Otero, who in his brief speech stated how pleased he was to be with us again, and with what pleasure he signed the bill which gave us Roosevelt county, and that the pen he signed it with, was now in the White House, and that the President stated that he appreciated that pen more than anything he had received since he has been President. His speech was necessarily brief, as they were limited in time, but he did not forget to mention the ladies as all noble speakers do, when their wife is at home taking it all in all, his remarks were enjoyed hugely.

The next speaker was Senator W. H. Andrews, who only made few remarks to the point, stating what he wanted and what he would endeavor to do and knowing that they would all vote for him anyway, so he did not care to take up their time, so he gave way to Col. Pritchard, who proved the orator of the evening, and while he did not go into detail on the issues of the day but simply stated the important theme in Senator Andrews's behalf, and acquitted himself with honors generally.

The Mexican band of Santa Fe, was accompanying them and assisted in the entertainment, one feature, that of a Mexican song with brass band obligato was loudly applauded, as was "Dixie," also. A general handshaking was in order after the speaking and Republicans and Democrats alike came forward and shook hands with the speakers and by their actions proved that the Governor and his party were welcomed visitors to our little city.

They left soon after the speaking in order to reach a point 700 miles distant by Monday morning to fill an appointment, hence, little time lost here. This brief but pleasant visit has no doubt made hundreds of votes for the Senator as will be shown at the polls on the 8th.

Called Home.

Monday afternoon at four o'clock Mrs. J. S. Fitzhugh passed away after an illness of about three weeks. The funeral services were conducted the following afternoon by Rev. John Meeker, in the presence of a large concourse of sympathizing friends and strangers. Mrs. Fitzhugh was born June 15, 1868 in Alabama, being the daughter of Dr. and Mrs. W. E. Spaulding and niece of Dr. A. T. Spaulding, the well-known Baptist preacher of Atlanta, Ga. In 1887 she graduated from Baylor College. After her marriage, Sept. 15, 1888, the Fitzhugh home was at Waco, Texas, for many years; later at Carlsbad; the family having been here but a few weeks when she was called to come up higher.

Mrs. Fitzhugh was a member of the Presbyterian church and not only at home, but in church and literary circles her loss will be felt.

Besides the bereaved husband, eight children, five boys and three girls, survive her.

The TIMES joins the community in extending heart-felt sympathy to the bereaving family.

Andrew's Interviewed.

Albuquerque, N. M., 11, 5, '04.

Senator W. H. Andrews was seen on yesterday in this city regarding result of election, in which he is the Republican candidate delegate to congress; He replied: "I prefer not to be quoted at this time, only that the result will undoubtedly give me heavy majority. I have visited every county but one and know prevailing sentiment. The receptions that have been given the Governor and myself have greatly impressed me. The more I see of New Mexico the more I love it. The trip we are just completing has shown me the vast extent of territory and its many needs. It has taught me better than ever before the fact that we live and have our homes in a territory of wonderful resources vast and undeveloped of unexcelled opportunities and limitless possibilities, but a territory unfortunately handicapped by certain natural disadvantages. When I am in congress I shall devote all my time and influence to the removal of all obstruction to the growth of New Mexico. To day my election being practically assured, I pledge myself to secure those appropriations so essential to the systematic irrigating of our lands and the storage of the waters of our rivers and to secure for each particular section, regardless of locality, Federal assistance so long delayed."

When Governor Otero was asked regarding his views of the situation said: "Useless to talk, Senator Andrews has the votes and will win by one of the heaviest majorities; 6000 I believe is too conservative. I never was better satisfied in my life with an election in New Mexico. We are sending a man to Congress who is the man for the position. I firmly believe that in electing Andrews we elect a man who will secure the tardy recognition of The Greatness of our Territory in Washington. He is well known, has great influence, is in sympathy with the administration and will make good where many have failed. On our trip the people have been very conservative and now at the close of the campaign I desire to thank them for their enthusiasm and kindly reception."

REAR-END COLLISION.
Three Are Killed and Twenty-three Are Hurt.
Kansas City, Mo.—Three persons were killed and twenty-three injured in a rear-end collision of sections Nos. 1 and 2 of train No. 3, Missouri Pacific World's Fair Special, at Tipton, Mo., early Sunday.

Train No. 3, on account of the heavy World's Fair travel, was made up in two sections, the first leaving St. Louis for Kansas City last night at 10:10 o'clock. The second section left a few minutes later, and when it reached Tipton section No. 1 was taking on passengers. According to Engineer Ramsey of section No. 2, a headlight in the yards blinded him and he was unable to see section No. 1. He also says that his orders were "Clear ahead." The section was running thirty miles an hour when the collision occurred.

Sodalia: The Coroner of this county held an inquest inquiring into the cause of the wreck on the Missouri Pacific Railroad at Tipton, Mo., and the following verdict was rendered: "The collision was caused by neglect of flagman of first section of train No. 3 in not properly flagging the second section, and also by the No. 3 for coming into station in a careless manner, in not having his engine under control."

From the Mexican Capital.
City of Mexico: There are six cases of yellow fever at Texistepe. There are in all twenty-four patients. The last patient has left the hospital at Tehuantepec. Merida reports two new cases and Salina Cruz four cases. Fifteen States of this Republic will send delegates to the irrigation congress at El Paso, Texas. Much interest is felt here in the results of the congress, and President Diaz has shown hearty sympathy with its objects.

Aged veteran Passes Away.
Piano: Major O. Sims, a veteran of the Mexican and Civil Wars, died Sunday morning at his residence here of old age. He was 88 years old, and had been a resident of this city for the past twelve years, moving here from Richardson. His remains were shipped to Richardson for interment.

Donald Fisher, former station agent for the Katy at Whitewright, has been sentenced to a term of two years in the penitentiary on a plea of guilty to embezzling company funds to the amount of over \$300 some months ago.

Roswell Has an Oil Excitement.
Roswell, N. M.: Hundreds of business and professional men of the city and valley are flocking to the Riverside stock yards, where oil was discovered several days ago in the Rose and Cottingham artesian well at a depth of about one thousand feet. Great secrecy was held in regard to the discovery, but it leaked out finally. Saturday night the Veuvius Oil Company was formed in this city, with thirty-two stockholders, and surveys were sent to the scene of the discovery, twelve miles north of the city. About four thousand claims have been staked Friday and Saturday, and a square of four miles has been taken up in the mineral claims.

Blaze at Yoakum.
Yoakum: One of the most disastrous fires in the history of Yoakum occurred at 5 o'clock Sunday morning, entailing a loss of approximately \$10,000. The fire started in the store of John Mansur on Front street and was not stopped until the entire west half of the block, a frame block, had been consumed by the flames. The losses are estimated at about \$10,000, and the insurance is light.

Exploring for Oil.
Paris: From further information obtained in regard to the presence for several days of an oil expert in this city, who has been quietly securing lease privileges to bore for oil and gas, it appears that he has been following a vein down from the oil and gas fields of Coffeyville, Kan., through Oklahoma and Indian Territory to Paris. He expressed confidence in being able to find both oil and gas near this city.

Cremated in a Coke Oven.
Masontown, Pa.: Steve Borek, employed at the Bessmer coke plant, reported to the authorities that he saw a man thrown into a coke oven and cremated. Borek says he saw three men scuffling on top of an oven and a moment later saw two of them jump to the ground and disappear in the darkness.

The trappings of a monarchy would set up an ordinary commonwealth.

Marshall: Constable McNeel of Woodlawn stated that on Wednesday N. H. Calloway found a dead man just east of Josh Calloway's residence, north of this city. He was recognized by Mr. McNeel as one to whom he had given breakfast on Sunday. He was about 60 years of age, and said he was from Kansas City. There were no marks of violence on the body, and he doubtless died a natural death.

A cow is a very good animal in a field; but we turn her out of a garden.

HAPPY WOMEN.

Mrs. Pare, wife of C. B. Pare, a prominent resident of Glasgow, Ky., says: "I was suffering from a complication of kidney troubles. Besides a bad back, I had a great deal of trouble with the secretions, which were exceedingly variable, sometimes excessive and at other times scanty. The color was high, and passages were accompanied with a scalding sensation. I can rest well, my back is strong and sound, and I feel much better in every way."

Handsome Bible.
The most beautiful volume in the Congressional Library at Washington is a Bible which was translated on parchment by a monk in the sixteenth century. The general lettering is in the German text, each letter is perfect and there is not a scratch or blot from lid to lid. Each chapter begins with a large illuminated letter, in which is drawn the figure of a saint, some incident of whom the chapter tells.—Biblical Recorder.

French Pension Fund.
The law of France requiring all seamen to deposit 3 per cent of their wages with the government is applicable to fishermen, and this fund so collected is used to create a service pension payable to all who have served twenty-five years under the French flag on the seas. The amount received by pensioners varies according to the capacity in which they have served. After the death of a pensioner one-half is continued to the widow.

Stanley's Faith.
Several weeks ago, before his illness assumed a fatal aspect, he was speaking of his famous expedition of 1871, when he used the words descriptive of central Africa, "illimitable day and illimitable night." One who was present asked him if he did not feel unusually impressed by the awful grandeur of the surroundings, to which he replied: "I knew there was a great power above me."—Westminster Review.

The Height of Luxury and Folly.
Some of the London papers are poking fun at the new St. Regis hotel in New York—the establishment where only the very rich can afford to look in. One society journal, telling of the magnificence of the hotel, gives its readers these few tips: "All bills are payable hourly; one patron having a servant who does nothing else but pay bills. One of the beds in the hotel was twice owned by a czar of Russia. The waiters appear and disappear through trap doors near the tables. Patrons are shaved by electricity. One family pays \$250,000 pounds—not dollars—for five rooms for a year. The hotel is perfumed with violet in the morning, geranium at noon and rose at tea time."

All other methods for strengthening the memory of a woman are useless compared with one which never fails, and that is making her jealous.

SEIGE DRAWS TO AN END.

Stoessel is Said to Have Wired Farwell to the Emperor.
Shanghai, Oct. 23.—A private letter from Port Arthur, dated Oct. 21, has been received here today. It says: "Gen. Stoessel wired the Russian Emperor and Court recently: 'I now bid you all good-bye forever: Arthur is my grave.'"
"Gen. Stoessel, the garrison of the beleaguered fortress with a spirit that to court glorious death was preferable to capitulation."
"The Japanese shells are inflicting great damage to the Russian fleet in the harbor and to the fortifications. The arsenal, with its contents of ammunition and small arms, has been destroyed, and preparations are being made for the last deadly struggle at close quarters. The water supply having been cut off, wells are being sunk. Provisions are scarce, only tinned meats being left. The soldiers are holding feasts on horses by shells. Gen. Simnoff, it is said, would surrender, but is overruled by Gen. Stoessel."
"Certain troops included in the garrison have to be closely watched at present for fear of desertion or treachery. Field and naval hospitals are crowded and hygienic conditions are becoming desperate. The bombardment at times is so incessant that it is impossible to bury the dead to any depth. Over one-half of the original garrison is dead, wounded or sick."
"The high angle at which their artillery fire is directed by the Japanese has practically destroyed the new town."
"When the fleet attempted to break through the blockade some time ago the garrison was to have made a desperate sortie and inflict as much damage as possible and if necessary capitulate. The failure of the fleet to escape frustrated the plan."
The besiegers are pressing closer daily, and it is hard to say how long we can hold out. When the end comes there will be a desperate fight and a surprise. Thousands of the enemy will perish, as everything is mined."
This letter was intrusted to a native boatman who ran the blockade and mailed it at Chefoo.

Cattle Dies of Cholera.
Cleburne: Walter Moore of Godley, was here today and reported the loss of many head of cattle in his portion of the country by recent heavy rains and cold weather. He stated that S. L. Carroll had lost fifty head, Sam Hardcastle also lost fourteen head, and it was further reported that W. Oldhouse of Cresson had lost seventy head, Willis Souther of Godley four head of cattle and one horse.

Mrs. Wilson of Cresson fifty head and other residents lost from one to twenty-five head. The sudden change of temperature and the forty hours of rain was too great a shock for cattle to overcome, and they gathered in herds and died. The total loss to stock raisers has not yet been estimated, but it is already known that it will amount to several thousand dollars.

Fatal Gin Accident in Fannin.
Bonham: A horrible accident occurred at the gin of Dane Mills, fifteen miles north, near the postoffice of McRea, Thursday. The boiler exploded, killing Alton Fain instantly and seriously wounding a Mr. Ballard. A customer, whose name is not learned, was also injured. Fain was the engineer. His body was blown through the roof and out into a pond. No cause whatever could be found for the accident.

Fierce Wharf Fire.
New York: Fire believed to be of incendiary origin, swept over the piers, warehouses and shipping at the Bush Terminal Company's stores, South Brooklyn, Friday. The loss is estimated at more than \$1,000,000. One life, that of a policeman, is supposed to be lost, and others may be found. One man is badly wounded. Four fine ocean-going steamships were badly damaged, having been ablaze from bow to stern.

New Railway Projected.
Austin: Advice received here that there would shortly be filed the charter of a railroad corporation, to be known as the Peach River Railroad Company, with \$100,000 capital stock. The road is projected from Willis, Montgomery county, to Beaumont, traversing a rich timber and oil country. Messrs. Minor, Vidor and Miller of Galveston are associated in the enterprise with Iowa capitalists.

Sunk in a Collision.
Seattle, Wash.: The steamer Mainlander, of the Pacific Coast Steamship company's fleet, lies at the bottom of Puget Sound, off West Point light-house, four miles north of Seattle, as the result of a collision with the powerful tug Sea Lion. No lives were lost despite the fact that the Mainlander went down with everything aboard save the people. The tug was little injured and her crew escaped without injury.

Viewing the Country.
Dallas: One or two members of the Dunkard Church in Indiana were in Dallas Friday looking over the conditions in this State, with a possible view of bringing a settlement of that denomination to this part of Texas. Their trip to Texas is a part of a general tour of the Southwest for the purpose of looking into material resources and conditions.

It matters not how a man dies, but how he lives.

FARMERS MAKE MONEY.

Milam County Planters in Prosperous Condition.
Camron: This has been a successful year for many of the progressive farmers in Milam County, including all classes, from land over to tenant. A successful farmer of Ben Arnold raised 200 bales of cotton this year at a cost, including gathering it, about \$2,700, and has sold 100 bales and yet has the balance. He has sold and yet sell 1,500 bushels of corn at 40c a bushel, and \$800 worth of hogs. The cotton crop is a clear profit to him, as other products, including cotton seed and stock, will pay all the expenses of the farm.

Another farmer of the Clarkson neighborhood started out this year without money, and has made enough by his own work to pay for two teams and a wagon and buggy, and has \$1,000 to his credit in a bank. Others have paid for their teams and yet have a few hundred dollars or several bales of cotton to pay first installment on land or pay the expenses of making next year's crop.

This is not true as to the whites alone, but the industrious and frugal negro has also made money. A negro from Baileyville community was in Camron today and paid \$400 on his land notes, and has paid all expenses of this year's crop. It is unquestionably true that the farmers of this county, on all lands, are in better condition financially than ever before, and they are making substantial improvements on their farms by building better houses to live in and better barns, and providing other comforts for a country life.

Peace Hovers Over England.
New York: Details of the agreement between Russia and Great Britain upon a mode of settlement of the questions arising out of the firing upon British trawlers in the North Sea by the Russian second Pacific squadron in a speech delivered before the National Union of Conservative Clubs at Southampton Friday night. The ascertainment of the facts for submission to a commission formed under the rules of the Hague peace conference will be through the coroner's inquest at Hull, an investigation by the British Board of Trade and the examination of officers of the Russian ships which fired upon the fishermen. In his speech Mr. Balfour ridiculed the official explanation of Admiral Rojestvensky, but praised the spirit in which the Russian Emperor and Government had met the crisis. In both Russia and Great Britain the prevailing feeling is one of relief that there is now no danger of war between the two Nations.

Six Hundred Thousand Short.
Austin: The deficiency in general revenue Friday morning amounted to \$582,000, and in a week it will have exceeded \$500,000. Monday is pay day in Government circles, and all salaries and institution supply accounts are approved and presented for payment. Warrants are issued thereon and promptly registered in the Treasury Department. Inasmuch as the monthly accounts aggregate \$50,000, and often as much as \$10,000, the deficiency will take an upward bound. Up to this time there have been called in for payment warrants totaling \$204,000.

Death in the Mines.
Trinidad, Colo.: A terrific explosion occurred at Mine No. 3 of the Rocky Mountain Fuel and Iron Company at Tertio, Friday afternoon and the number of dead is variously placed between thirty and forty men. The number reported as having gone into the mine this morning was seventeen miners and four company men. This afternoon many more miners known to have gone into the mine. The mine is burning.

Looking for Oil in Lamar.
Paris: A party who came here a week or two ago from Indiana has been quietly securing leases on a number of tracts of land a few miles from the city with the view to prospecting for oil. It is believed that he is backed by Northern capital. It is claimed that a stratum of oil lies through a strip from the coal fields around South McAlester to the Gulf Coast and that the oil is of the same stratum as that found in the Beaumont field.

Beekeepers Meet.
San Antonio: The second annual meeting of the Southwest Texas Beekeeper's Association was held here Friday. The following officers were elected: H. H. Hyde of San Antonio, president; W. A. Atchley of Beeville, vice president; A. T. Davis of San Antonio, secretary. A committee was named to lobby in the interest of a pure food apriary bill at the next Legislature, and discussion was had of live problems of the business.

Designs for Precious Gems.
The leaf of the geranium, the fruit of the vine, or the flower of the poppy may serve us models to be carried on in precious gems. It is by these things that the jewels of this age will be recognized by future generations. One is glad to notice that artists are not confined entirely to copying designs of the periods of Louis XIV, Louis XV and Louis XVI, but that some scope is given to their original genius.

His Japanese Wife.
The widow of Lafadio Hearn is coming to this country in connection with a claim she has on a Cincinnati estate. Another motive for her long journey is found in a desire to see the wonderful country in which her husband spent part of his life, and particularly the city in which he attracted attention when without a dollar in his pocket and in great need of one he wrote a newspaper story which made his reputation and gave him the nucleus for an investment, which now represents his estate in this country. Mrs. Hearn is a typical Japanese woman, with slant eyes, coal black hair and petite figure. She was taught English by her husband and possesses a fair vocabulary. The literary legacy left by her husband embraces a review of Japanese womanhood and is written in the language of Nippon. The suggestion has been made that in addition to her curiosity to see America, the widow has in view the disposition of this manuscript to the highest bidder for literary rarities.

A married woman is able to reach a decision without consulting her reflection in the mirror, but an unmarried woman isn't.

Cured Her Rheumatism.
Deep Valley, Pa., Oct. 31.—(Special.)—There is deep interest in Green county over the cure of the little daughter of I. N. Whipkey of Rheumatism. She was a great sufferer for five or six years and nothing seemed to do her any good till she tried Dodd's Kidney Pills. She began to improve almost at once and now she is cured and can run and play as other children do. Mr. Whipkey says: "I am indeed thankful for what Dodd's Kidney Pills have done for my daughter; they saved her from being a cripple perhaps for life."
Dodd's Kidney Pills have proved that Rheumatism is one of the results of diseased Kidneys. Rheumatism is caused by Uric Acid in the blood. If the Kidneys are right there can be no Uric Acid in the blood and consequently no Rheumatism. Dodd's Kidney Pills make the Kidneys right.

The Color Hardest to See.
The most common form of color blindness is an inability to distinguish red. Last year thirty-four officers and would-be officers of the British mercantile marine service failed on their color tests, twenty-three being red blind and the remainder unable to distinguish green. The 4,600 candidates for certificates were also submitted to the form vision tests and twenty-two of them failed to distinguish the form of the object submitted.

Beware of These Flowers.
It is claimed that the tulip is a dangerous flower. Take a tulip of a deep crimson color and inhale it with profound inspirations and it will be apt to make you lightheaded. You will say and do queer things—dance, sing, fight, swear and so on. For two hours you will cut up in this way. Afterward you will be depressed. The poppy is another flower supposed to be dangerous. A young woman of a nervous temperament, if she lingers among a bed of poppies, will grow drowsy, the same as if she should have smoked a pipe or two of opium. In Asia Minor, where the opium manufacturers cultivate vast fields of poppies, tourists inspecting the beautiful flowers often become altogether insensated. They get so sleepy they can hardly talk. They reel in their gait. In some cases they have to be put to bed."

BY PROXY.
What the Baby Needed.
I suffered from nervousness and headache until one day about a year ago it suddenly occurred to me what a great coffee drinker I was and I thought that by this might have something to do with my trouble, so I shifted to tea for awhile but was not better. If anything worse.
"At that time I had a baby four months old that we had to feed on a bottle, until an old lady friend told me to try Postum Food Coffee. Three months ago I commenced using Postum, leaving off the tea and coffee, and not only have my headaches and nervous troubles entirely disappeared, but since then I have been giving plenty of nurse for my baby, and have a large, healthy child now."
"I have no desire to drink anything but Postum and know it has benefited my children, and I hope all who have children will try Postum and find out for themselves what a really wonderful food drink it is." Name given by Postum Co., Battle Creek, Mich.

Both tea and coffee contain quantities of a poisonous drug called Caffeine that directly affects the heart, kidneys, stomach and nerves. Postum is made from cereals only, scientifically blended to get the coffee taste. Ten days trial of Postum in tea or coffee will show a health worth more than a gold mine a reason.

nothing for the benefit of the Territory because he could do nothing, not having the knowledge, the experience necessary, the intelligence required, nor the confidence of capitalists to induce them to invest money for the development of New Mexico's resources. As delegate, having the support of his party, he was enabled to do some good for New Mexico, not because he was B. S. Rodey, but because he was the delegate from the Territory, having been sent to Congress by the largest majorities ever given any man for delegate. The work that he did was to a great extent and in many instances materially aided and brought about by the help of the Territorial administration and of the leading Republicans of the Territory. Naturally, he came to the conclusion that he did it all himself and with his "little hatchet," just as two and four years ago, he thought he elected himself, when in all truth had it not been for the Territorial administration, the daily and weekly newspapers and for the leading Republicans, all supporting him, he would have been elected to stay at home. It is up to the people of the Territory to choose on the 8th of November which of these "carpetbaggers" they want. Andrews, whose record for the good he has done the Territory already in the development of its resources, is great and unassailable? Money, who is a lawyer and who has made a living for himself since he came here but only this and nothing more? or Rodey, who, without the help of the party, of the administration, of the Republican newspapers would be endeavoring to make both ends meet as an attorney?

This is the man whom some of the Democratic losses and newspapers and the Rodey Independents decry as a "carpetbagger." This Territory would become in a decade one of the greatest railroad, manufacturing and agricultural commonwealths in the United States had it ten men like Senator Andrews, "carpetbaggers" like him, despite the detriment and disadvantage it has to endure by being afflicted with the presence of political bosses and office seeking cormorant, who for the sake of temporary political advantage, to obtain office or in order to get "even," advise the people of the Territory to vote against the Republican candidate for Congress, because they charge him with being a "carpetbagger."

It is not conceivable and certainly would not be good sense nor patriotism were the majority of the voters of the Territory to cast their ballots on election day against Senator Andrews, the man who has done so much, especially within the past five years for the development of the material resources of New Mexico. Facts speak for themselves. The Santa Fe Central Railway is in actual operation daily, and every day its management under President Andrews is doing something to build up and develop the country along its line. The Albuquerque Eastern and its Hagan branch is inactive course or construction; the mineral development which Andrews and his associates have done in southern Sierra County is a potent fact; friends of the Senator are partially engaged in the construction of a reservoir to save the underflow of the Mimbres River in Luna County; surveys have been made and capitalists are being interested in the proposed construction of a road from Torrance to Roswell and from points on the Santa Fe Central to San Juan County and to El Paso. These matters are in actual existence and can neither be poohed nor blown away.

As far as the achievements of Mr. Money since his residence in this Territory in contradistinction to those of Senator Andrews, are concerned, in the very nature of things, they amount to nothing. Right here it would be well to consider Mr. Rodey's work for the Territory as a private citizen. As such a one, he did absolutely

Wool Growers, under the McKinley tariff law your product commanded about 77 cents a pound; under the Wilson Democratic tariff law it falls down to 5 cents a pound. Now again under the Dingley Republican tariff law it has risen to from 15 to 18 cents per pound. A vote for Money means a vote for 5 cent wool and a vote for Andrews a vote for 18 cent wool. Which do you like best?

Why You Should Vote For Andrews.
Senators Andrews will be in sympathy with the administration in Washington, where a Democrat would be lost.
Senator Andrews has great influence personally with numerous representatives and senators in the national legislative bodies.
Senator Andrews is developing the resources of New Mexico.
Senator Andrews is bringing millions of dollars of money from the east to the pockets of the people of this Territory.
Senator Andrews is opening up New Mexico by a great system of railroads similar to the Denver and Rio Grande in Colorado.
Senator Andrews understands your needs and is a business man capable of supplying those needs.
Senator Andrews is a man who DOES THINGS.
Vote for a man who helps you: who knows how, can and will help our Territory.

Saved Him.
"It did not kill me but I think it would if it had not been for Hunt's Cure. I was tired, miserable and well nigh used up when I commenced using it for an old and severe case of Eczema. One application relieved and one box cured me. I believe Hunt's Cure will cure any form of itching skin to make up. —Clifton Lawrence, Helena, O. T.
A prosperous county needs efficient officials. Elect the Republican ticket, they'll do the rest.
Our candidate for Assessor is especially adapted for the place. Vote for Vencil.
W. J. Horney is one of the most reliable, trustworthy men we know of, and has the ability and no other business to interfere with the office should be elected as County Treasurer. Remember him on election day.
Correct your mistakes in life and get forgiveness for the past, by voting the Republican ticket next Tuesday, and be the happy crew afterward.
The man who votes against his own interests, is lacking under his hat, so consider well who will be to your best interests in congress; and see if you don't think it best to vote for the man who "does things."
The man who "does things" will of course be the next delegate to congress, but having done what he has for New Mexico, and what is doing and will do, entitles him to a handsome majority, and let Roosevelt county show her appreciation of Senator W. H. Andrews.
This is the last shot we get at the voters before election, and we have no votes-crow or magnified supposition, neither have we sarcasm nor abuse for any who believe different to us in our opinion such is indulged in by the less enlightened, who should really be pitied rather than censured. True Republicanism pursues and even treads with harmony and with good words for all, even the opposition, as was amply exemplified at our Republican rally on Saturday night we have discord to the fellow who believes in it, we do not. We work against no one, but do work for our ticket, that's what we are here for, and we are proud of our ticket, and would kindly ask a careful consideration and comparison of the ticket, but urge the voters to cast ballots for the men best adapted for the performance of the duties of the offices to which they aspire, regardless of their political views—good men are on both sides, so select the best, and after election, if we find the Democrats have succeeded in electing two or more of their candidates, which they likely will, we shall stand by the choice of the people, for they will be our officers, and we must all stand shoulder to shoulder to the wheel and lend a helping hand toward the upbuilding of Roosevelt county, the banner county of New Mexico, and when our water flow has been obtained, we will then be in the middle of the swim, and while personally, we have given as liberally as we could afford, to every enterprise, public and otherwise, we shall continue to do so, and work unceasingly for Roosevelt county, its citizens collectively, and share in its future prosperity. Do the right thing by voting right, and after election call at the office of the Probate Clerk in the new Court house and we will take great pleasure in congratulating you and give you a hearty hand-shake which will send an electric shock throughout your entire anatomy, even to the bottom of your sox, provided you wear 'em."

Never Disappointed.
"Many extensively advertised remedies are failures when put to the test. Hunt's Lightning Oil is an exception. Confidence in it is never misplaced—disappointment never follows its use. It is surely the grandest emergency remedy now obtainable. For cuts, burns, sprains, aches and pains, I know no equal."—Gov. E. Padipok, Doniphan, Mo.

Bright's Disease and Diabetes
We desire to place in the hands of those afflicted with Bright's Disease and Diabetes a 26-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicine, but is principally made up of reports of scientifically conducted tests in a large variety of cases showing 87 per cent of recoveries in these hitherto incurable diseases. The specifics employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The Pamphlet is free. Write to John J. Fulton Co., 409 Washington street, San Francisco, Cal.
When to suspect Bright's Disease: puffy ankles or hands; weakness without apparent cause; kidney trouble after third month; frequent urination, (may show sediment or cloudiness on standing); falling vision; day drowsiness—one or more of these.

Neuralgia And Other Pain.
All pain in any disease is nerve pain, the result of a turbulent condition of the nerves. The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.
Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.
Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia. They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.
"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules, until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in ten minutes time."—FRED E. BORDEN, Cashier Nat. Bank, Atkinson, Iowa.
Dr. Miles' Anti-Pain Pills are sold by your druggist, who will be glad to send the first package, will be sent, if you will return your money, if it does not cure. Never sold in bulk. Miles Medical Co., Elkhart, Ind.
