General Rains Bring Castro County Best Moisture In Months

Methodist Choir Will Offer "Song Sermon" At Evening Hour

DIMMITT GETS 1.7 INCHES SUNDAY

DIMMITT SECTION RECEIVES 1.70 INCHES OF RAIN SUNDAY. SHOWERS GENERAL

The best rain seen in this section in the past two years fell here Sunday night when one and seven tenths inches of precipitation was registered. The rain cooled a seared and sweltering countryside and revived hopes within the breasts of Castro County farmers for feed and other row crops and for gardens.

Not only in the Dimmitt Area did good soaking rains fall, all sections of the county have reported moisture during the week. Hart, Flagg, Nazareth, Jumbo, Easter, Big Square and all are giving thanks for the fine rains and conditioning fields and other work is rapidly going forward throughout the county. Lakes which have been dry for months and months once again are filled with water and resound with happy grunts from hundreds of frogs.

DIMMITT CIRCUIT

Since our Parsonage is completed, we, in behalf of our people on the Circuit want to offer our heartfelt thanks and appreciation to the business men of Dimmitt and others for their generous donations of money and labor.

We also want to thank our neighboring town of Hereford for their splendid donation from the business men of that city.

May the ones who occupy your parsonage from time to time bring a blessing to your little city and its churches within its borders. May it stand as a monument to the on-going of the Kingdom of God.

May the Lord bless each and every one is our prayer.

E. C. Armstrong, Pastor.

Approximately thirty contracts remain to be completed and these will go forward at an early date. Something like \$240,000.00 representing the second 1934 payment and the first 1935 payment will be received on these contracts probably early in the fall.

TRANSFER PERIOD ENDS JULY 31

JULY 31 LAST DAY TO MAKE TRANSFER OF SCHOOL CHILDREN THIS YEAR

Dimmitt and Castro school authorities received a copy of the new school Transfer Law, H. B. 492 as recently passed together with notification from the State Superintendent that all transfer applications must be tabulated and then sent to Austin and that no application shall be received after July 31. The changed transfer law makes provision for school districts to receive the net per capita apportionment from Austin with the regular monthly remittances from the State Treasurer to the district depositories and district census rolls are revised according to the transfer applications which are allowed by the respective county school boards.

The statement is authorized by Dimmitt school authorities that if a pupil is transferred to the local district, the pupil's tuition account is credited with four to five months free time and is charged tuition at the regular rate for the length of the school term for which local funds must be used. Tuition is charged for the full nine months for those children from other districts who move into this district for school purposes only without transferring. It is reported that several persons each year fail or forget to take advantage of the transfer opportunity in the Month of July. Transfer applications must be made to Judge Percy Estes prior to August 1.

STOCK ON HIWAY IS AGAINST LAW

\$200.00 FINE TO ALLOW LIVE STOCK TO STRAY ON DESIGNATED HIGHWAYS

The Legislature of the State of Texas this year passed a law providing that any person owning or controlling any livestock and who permits them to run at large unattended on any portion of any designated State highway in this State shall be guilty of a misdemeanor. Each day such livestock are allowed or permitted to run loose is a separate offense. The punishment for each offense shall be a fine of any sum not more than two hundred dollars (\$200.). The law further provides that State Highway Patrolmen as well as local sheriffs and other local officers shall have the power to enforce the law.

This law will become effective on August 10, 1935, and thereafter will be strictly enforced upon the complaint of any citizen of Texas.

During the past few years livestock roaming at large on State highways have become a dangerous menace to the traveling public. Because of the carelessness and neglect of those who own or control such livestock, numerous accidents have resulted by reason of the collision with such livestock by automobiles lawfully operated upon highways, and a large number of people have been killed and others have been so badly injured as to be maimed for life. In addition, untold property damage has resulted.

The State Highway Department asks every citizen in this locality to co-operate with this Department, with the local peace officers and with the State Highway Patrol in the enforcement of this law to the end that the State highways in this locality may be made more safe for the traveling public.

DIMMITT VS SUNNYSIDE SUNDAY

WILL PLAY STRONG VIGO PARK NINE ON LOCAL DIAMOND SUNDAY WEEK

Dimmitt's rejuvenated baseball team will attempt to make it three straight victories this Sunday afternoon when they journey to Sunnyside for a bit of baseball warfare against that team. Each club boasts a powerful diamond machine and Sunday's game will likely settle the dispute over who is the strongest. Old Jup Pluvius walked away with the decision the last time these two teams met as rain ended the fray with the score standing at 3-all.

Since that game Sunnyside has added several new men who have materially strengthened the team and the home club boasts several new additions to its line-up, and Sunday's battle will see each nine at its full strength and determined to carry off the honors.

A good crowd is expected to be on hand for the game and each of the managers have announced their strongest hurlers ready for duty. A big delegation of Dimmitt baseball fans are expected to make the short trip to Sunnyside.

Manager McLroy intends to use the Sunday game as a means of finding a strong combination for the game next Sunday, August 4, on the home diamond against the powerful Vigo Park team. The invaders walloped the homelings several weeks ago and the locals are looking forward to making the standing even after the approaching game.

LADIES ORGANIZE 4 TEAM LEAGUE

FOUR CLUBS ORGANIZED AND PLAY STARTED ON SOFTBALL DIAMOND IN TOWN

Evidencing a great deal of enthusiasm since the announcement in last week's issue of The News to the effect that a ladies softball league would be formed in Dimmitt the result has been even better than anticipated and four teams of the fair sex will frolic about on the local softball field and show the male species just how and what should be done in the better class of softball circuits.

The four teams organized are the Dizzy Deans, with Florette Meek as captain; Rinkydinks, Mrs. Elvis Burch captain; Girl Scouts with Tina Mae Wright captain and the Whirlwinds, captain unannounced. Games have already been started and from the large crowds attending the ladies' sport is going to crowd the men's league for the greater interest. SOFTBALL LOOP ENDS IN 4WAY TIE

FOUR TEAMS TIED FOR TOP POSITION AT CONCLUSION OF LEAGUE SCHEDULE

Only two teams have been eliminated from the local softball title after two months of play and four clubs are tied for the pennant as the league schedule was completed this week. After a hectic fight which has seen all six teams claim the top rung in the standing the High School ten blew a chance at a clear claim to the title when the Lumbermen slipped in just ahead of a shower and ran off with a close 5 to 4 decision to deadlock the league in the four-way draw.

The General Motors and News clubs paced the field with wins from the Druggists by scores of 19 to 5 and 30 to 6, respectively.

Whether a play-off between the H. S. News, Lumbermen and General Motors teams will be held has not been announced, however it is most likely and also that another schedule will be worked out and announced in the near future.

YOUR TAX DOLLAR

He is a salesman by profession, and we shall call him James Black, because that is not his name. He covers considerable territory in the Southern States.

James Black writes that, during a three-hour train trip recently, he sat in the smoker and listened to the conversation of three men.

"One of the men," writes Mr. Black, "boasted of the money he was going to make by not growing cotton.

"The second," continued Mr. Black, "told of spending several hundred dollars he had been paid for killing hogs.

The third bragged of having been paid by the government for six days work when he had worked only three."

Salesman Black continues: "I'm working harder now than I ever did in my 25 years on the road. And I'm making less money. I'm paying federal income tax and a state income tax. The property tax on my home is very heavy. These and a dozen other smaller taxes are taking 30 cents out of every dollar I manage to bring home."

And he concludes: "Those three fellows certainly set me to thinking." They have set other people to thinking too. But its too bad few of these live in Washington.

TOO LITTLE OR TOO BIG?

He was just a dirty little street urchin, bedraggled, grimy and ill-kept. When we saw him the other day he was selling newspapers on a downtown Colorado Springs business corner.

There are lots of dirty little street urchins . . . in Colorado Springs and elsewhere. One sees them every day . . . sees them and feels sorry for them. But we noticed this young chap in particular . . . noticed him and felt sorry to a degree more than normal . . . for there was something about him that particularly attracted our attention. It was the fact that he was wearing a regulation O. D. army blouse.

Yes, a soldier's blouse was hanging about the upper part of his body. It struck him half way to the knees. Only his fingers protruded from the lengthy sleeves. The blouse flapped in the cold breezes . . . flapped as though it were on a scarecrow in some farmer's corn field. It was much too big for the little newsie. He was lost in it.

We looked at the boy. We wondered. We became sorry all over again. Hard times these that force American youngsters and American grownups, too, to wear cast-off clothing too large for them . . . or too small; or too ragged. Not enough to wear in a land that produces too much. No wonder we were sorry.

The youth was a pitiful figure. And we thought of the lad, of the blouse that was too big and of war . . . for the blouse was a garment of war. It was not difficult to think of war. Weren't the very papers that this lad of 14 or 15 years was carrying . . . weren't they telling of war clouds hovering over Europe? Yes . . . or war and of threats of war. Dictators, leaders, politicians, common citizens . . . most every one talked of the possibilities of war. Many feared the race of armaments would end in conflict . . . maybe not now, perhaps not within the next two or three years; but in the not far distant future.

War looms. That seems certain. By this time we had passed by the newsboy with the army blouse that was too big. But we thought of him again. Two or three or four or five years from now . . . would he by that time have grown into the garment? A few years and it would fit him? No, we couldn't figure it that way.

Another thought came. The blouse isn't too big for American youth . . . whether their ages be 15, 16, 20 or 25. The garment of war is too little for the boys of this nation and every nation. The youth of today have outgrown war blouses. They are the ones who are too big . . . too big for the tunics of war; too big for war itself.

Twenty years ago there were war clouds in Europe. And war came . . . the most devastating conflict in all history. America entered that war to make the world safe for Democracy. That war failed, as all wars fail. With the clouds of war again hovering over the European horizon . . . it behooves America, Europe and all nations to shun armed conflict that the world may be made safe this time for Democracy's most precious possession: Youth . . . youth that is too big for war. You may be cool enough but your motor is hotter than Death Valley!

Protect your motor with Germ Processed Oil!

2 to 4 times greater film strength than plain mineral oil—even at motor heats of 225 to 425 degrees

BREEZES may cool you off as you drive, but your motor runs at terrific heats—from 225° in the crankcase to 425° in the cylinders.

To protect your motor, your oil must have extra film strength and maintain it at these high temperatures. Otherwise, the lubricating film ruptures and the bearings and cylinders suffer damaging wear.

Plain mineral oils have little film strength and oils over-refined by the new cleansing methods have even less. Moreover, these oils rapidly lose film strength as motor heat goes up.

You can protect your motor far better with Conoco Germ Processed Motor Oil, for tests

on the Timken Machine prove that at high motor temperatures it has 2 to 4 times greater film strength than any plain mineral oil!

More proof—supervised road tests were made in identical cars fitted with the new alloy metal bearings used in many 1935 cars. The bearings lubricated with a high-quality plain mineral oil showed 45% more wear than those lubricated with Conoco Germ Processed, the first alloyed oil.

Say "O. K.—Drain"—fill with Germ Processed Oil. Drive far—drive fast—without a worry!
