Obituary.
Vestal May Lester was born May 8, 1898, at Hubbard City, Texas and died January 12, 1906, in Portales, N. M.

Vestal was a very bright and lovable child and during the short time that her parents have resided in Portales, had won many friends. She was a member of the Baptist Sunday school and the Sunbeam Society and loved to attend. Her funeral was preached on Sunday the 21st inst. by Rev. J. F. Rorex. In this hour of sore bereavement, Mr and Mrs Lester have our heartfelt sympathy and we would point them to Him who said, "Suffer little children to come unto me and forbid them not for of such is the kingdom of heaven." A FRIEND.

Eighteen Victims of a Panic

Cry of Fire in a Negro Church Stampedes the Congregation with a Jam.

Philadelphia, Jan. 22.—Eighteen persons were killed and probably half a hundred injured in a panic following the cry of fire tonight in St. Paul's Colored Baptist Church, in Eighth street.

The services were held on the second floor of the building. A defective fuse set fire to the chimney, causing smoke to issue through the crevices in the floor near the pulpit.

The room was well filled at the time and the cry "fire" coupled with the sight of the smoke threw the congregation into a panic.

A wild rush was made for the stairs, despite the efforts of Rev. B. W. Johnson the pastor, to allay the fears of the frenzied people. All wanted to get out at once and men, women and children alike were knocked down and trampled upon by those pushing from behind.

The crash and the screams and shrieks of the women and children added to the frenzy of those above, and they did not stop in their mad rush to get out. Notwithstanding the wide-open doors of the first floor leading to the street the crush was so great that eighteen persons had the life stamped out of them before the panic was ended.

A general alarm was sent in for ambulances, firemen and policemen. In the meantime the greatest confusion reigned. Men and women ran about the streets calling for missing ones. Large crowds gathered and the work of rescue was promptly started.

Dead and injured were quickly taken to hospitals and near-by houses. The fire was only trifling, the flames being extinguished before the firemen arrived.

The disaster occurred while collections were being taken up. The pastor had just concluded his sermon, the text of which was, "Why sit we until we die?"

BOY DRAGGED TO DEATH.

Becomes Entangled in Harness of a Plow Team. Henrietta: A sad accident occurred at the home of A. R. McMasters, about seven miles north of town late Saturday afternoon, resulting in the death of Mr. McMasters' little boy, about seven years old. The father was plowing some distance from the house and when he quit for the day he put the little boy on an old gentile family horse he was working with a younger and somewhat fiery horse.

In starting the little boy to the house with the team, he failed to unsnap the check lines between the horses. The younger horse became frightened, which excited the horse, the boy was on, and in falling the little fellow became tangled in the harness and was dragged to death.

He was terribly bruised and mangled, nearly all his clothing being torn off. Life was extinct when the horses were stopped.

Mr. Smith assisted the State officers to organize fifteen counties in Texas during last November, and now that this new series of appointments is being worked out with the help of the new State President, R. RUSSIA IS TRANQUIL.

Peace Seems to Reign Over All Russian Cities. St. Petersburg, Jan. 22.—There is almost an entire lack of prognostications of disorder today, the anniversary of the historic march of "Father Gapon and his followers to the Winter Palace, which has now become the most prominent date in the chronology of the Russian Revolutionists. There is general confidence that the day will pass without serious occurrences in St. Petersburg and Moscow, though there may be collisions in the provincial towns. The labor and revolutionary organizations generally have proclaimed against hostilities and even against organized demonstrations. The St. Petersburg police fear attempts at bomb throwing on the part of the fanatics. Many of the factories undoubtedly will close and the strike may affect the street railroad service and perhaps the electric lighting plants.

Yesterday passed quietly, although all the workmen were at liberty and last night St. Petersburg was tranquil; there is none of the apprehensions of a year ago. The aspect of the capital is entirely changed. The palace square, which was then gleaming with the watchfires of the troops, tonight is entirely deserted and a handful of horsemen are patrolling the Nevsky Prospect and the main thoroughfares.

Boy Burned to Death.

Sunset: Roy Jackson, the 4-year-old son of Sam Jackson, was burned to death in his father's barn, about ten miles east of this place, early Tuesday evening. Another child was badly burned, but will recover. The children went to the barn to do some light feeding and, having some matches, set the barn on fire. The mother ran to their rescue, but only succeeded in saving one of the children.

Waters Gets Ninety-Nine Years.

About eight months ago Waters, a man about 32 years of age, and a bachelor, took a notion to get married and advertised for a wife. His advertisement was answered by a Miss Northington. They were married and all seemed to go well until the tragedy that ended the life of one and the happiness of the other.

Mr. Morton, it was stated, begged him to remain and give the pleasure further test.

Football in the West.

Chicago: Members of the faculty of the University of Chicago believe the way of football abolition will not strike conference colleges of the west. Dr. E. H. Haverford, acting head of the department of physical culture, and Dean E. B. Hubber, head of the physical school, and a member of the athletic board hold that none of the middle west institutions will do away with the game.

TILLMAN SENSATION FIERCELY VINDICATIVE.

Tillman Abandons Judgment for Sway of Passion. Washington, Jan. 18.—Taking for his text that which treaty with the Doak-Morris-Morales, Panama, president of Santo Domingo, but now a wanderer on the earth, Senator Tillman yesterday afternoon delivered a most scathing arraignment of the President.

In the extremity of its bitterness as well as in some of the episodes that attended the delivery, it was the most sensational event of the session, one which embarrassed most of the Senators and delighted those of the crowded galleries whose instincts of barbarism are not extinct, however much they may have been refined by the centuries.

Senator Tillman's criticism of the Santo Domingo treaty was incisive and illuminating. There were many who thought, too, that his denunciation of the President's use and abuse of the press was not unwarranted. His temper grew as he proceeded, and, finally, in a paroxysm of passion and seemingly, in an abandonment to his hatred, Senator Tillman began an abuse of the President because of the ejection of Mrs. Morris from the executive office.

Senator Danell tried to admonish Senator Tillman, suggesting that he take time to consider what he was about, but Senator Tillman, wrought up to the highest pitch, continued his arraignment, and concluded it in a climax of bitterness.

Then Senator Hale moved an executive session, and the galleries were cleared.

The course of Senator Tillman is regretted keenly by most of the Democrats and they will endeavor to dissuade him from carrying out his threat. If he should persist, the likelihood is that the resolution will be defeated by Democratic votes alone, although this action would be tantamount to a rebuke of Senator Tillman, which all of them would be reluctant to deliver.

The resolution which Senator Tillman has promised to introduce, it is held, would be impertinent, since whatever offense the President may have committed by his failure to express regret because of the treatment of Mrs. Morris is one against good manners, and therefore not within the purview of the Senate. The opinion of Senator Tillman's proposition is best expressed in the remark of one Democratic Senator that a political court would have better jurisdiction over what Senator Tillman complains than the Senate.

FALLIERES IS CHOSEN.

The New President of France is a Home-Lover. Paris, Jan. 18.—M. Fallieres was yesterday elected President of France on the first ballot.

The revised figures are as follows: M. Fallieres, 449; M. Doumer, 371. The voting proceeded steadily. Cheers were raised whenever a popular legislator or statesman deposited his ballot in the urn, each group applauding its leaders and booing the leaders of the opposing groups. Several aged Senators, including Mm. Ranc, Coujon and Barrot, who were obviously ill, received the assistance of the ushers when mounting the tribune. Finally silence proclaimed the end of the balloting and all present eagerly awaited the announcement of the result. Then when the last figures—M. Fallieres 446 and M. Doumer 371—were given out there was an outburst of enthusiasm, which was renewed after the corrected figures, giving M. Fallieres 449 and thus increasing his already clear majority was announced.

M. Fallieres is noted for his devotion to a simple country life. Whenever opportunity offers he returns to his birthplace, Meziis, the home of his ancestors through hundreds of years. In his youth the President-elect apparently gave no indication of a capacity for a brilliant future. After concluding his term as a law student M. Fallieres returned home and for some time appeared to justify the prediction of his father that he would not be successful in his career. However, he plunged suddenly into the work, became a close student, soon obtained general appointments, entered politics and made that rapid progress which has just resulted in his selection as head of the French Republic.

Wireless Makes New Record. Portland, Maine: Officials at the government wireless station at Cape Elizabeth announced that they were in communication with one of the tugs accompanying the dry dock Deyce last Monday night. The dry dock was then 2,226 miles off Cape Hatteras and moving four and one-half knots an hour. It was more than 3,000 miles from the local station. The officials say that this breaks all records for a long distance wireless telegraph in the country.

New Yaokum Road Chartered. Austin: The Brownsville, Hidalgo and Northern Railway Company, has filed its charter in the Secretary of State's office. It is a Yaokum project and will connect with other Yaokum roads in the State. The company has a capital stock of \$600,000 and its general offices are located at Brownsville. The new road is to run from Brownsville to Houston, a distance of 330 miles, passing through the counties of Cameron, Nueces, San Patricio, Refugio, Goliad, Victoria, Jackson, Lavaca, Wharton, Colorado, Austin, Fort Bend and Waller.

A branch line is to be built from a point not more than ten miles from the southeast corner of Lavaca County to San Antonio, a distance of ninety miles. Another branch line is to be built from a point near Brownsville to Hidalgo, a distance of fifty miles; another branch line is to be built from a point near Brownsville in an easterly direction to the northern shore of Brazos Island, a distance of twenty-five miles, making a total of 550 miles.

"A little widow, a neighbor of mine, persuaded me to try Grape-Nuts when my stomach was so weak that it would not retain food of any other kind," writes a grateful woman, from San Bernardino Co., Cal.

"I had been ill and confined to my bed with fever and nervous prostration for three long months after the birth of my second boy. We were in despair until the little widow's advice brought relief.

"I liked Grape-Nuts food from the beginning, and it all incredibly short time it gave me such strength that I was able to leave my bed and enjoy my three good meals a day. In two months my weight increased from 95 to 113 pounds, my nerves had steeled down and I felt ready for anything. My neighbors were amazed to see me gain so rapidly and still more so when they heard that Grape-Nuts alone had brought the change.

"My 4-year-old boy had eczema, very bad, last spring and lost his appetite entirely, which made him cross and peevish. I put him on a diet of Grape-Nuts, which he relished at once. He improved from the beginning, the eczema disappeared and now he is fat and rosy, with a delightfully soft, clear skin. The Grape-Nuts diet did it. I will willingly answer all inquiries." Bread and Water for Toppers. Mayor Scherr, new reform executive of Marion, O., proposes to punish habitual topers by putting them on a diet of bread and water for forty-eight hours or more whenever they are arrested. He believes that this would be the most effective punishment that could be devised and will put it into practice at once.

"A little widow, a neighbor of mine, persuaded me to try Grape-Nuts when my stomach was so weak that it would not retain food of any other kind," writes a grateful woman, from San Bernardino Co., Cal.

"I had been ill and confined to my bed with fever and nervous prostration for three long months after the birth of my second boy. We were in despair until the little widow's advice brought relief.

"I liked Grape-Nuts food from the beginning, and it all incredibly short time it gave me such strength that I was able to leave my bed and enjoy my three good meals a day. In two months my weight increased from 95 to 113 pounds, my nerves had steeled down and I felt ready for anything. My neighbors were amazed to see me gain so rapidly and still more so when they heard that Grape-Nuts alone had brought the change.

"My 4-year-old boy had eczema, very bad, last spring and lost his appetite entirely, which made him cross and peevish. I put him on a diet of Grape-Nuts, which he relished at once. He improved from the beginning, the eczema disappeared and now he is fat and rosy, with a delightfully soft, clear skin. The Grape-Nuts diet did it. I will willingly answer all inquiries." NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fall. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food enters the digestion and assimilation. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weakness.

Mr. Louis Fane, of Quebec, writes: "For years I was unable to bear to eat, my head grew dizzy, eyes pained me, and my stomach was sore all the time. While everything that I ate would seem to be heavy like lead on my stomach. The doctors claimed that I was anemic, but I could never get any better. I was advised to try Dr. Pierce's Golden Medical Discovery, and soon taking the doctor's medicine, I can never say that I was so weak as I was before. I soon found that I began to improve, so I kept up the treatment. As a result, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never say that I am grateful for what your medicine has done for me and my highest respect to Dr. J. C. Pierce, 603 Main Street, Buffalo, N. Y."

Don't be hoodwinked by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicine, recommended to be "just as good."

Blind City Attorney.

William M. Perry, a blind lawyer, 37 years old, has been chosen city attorney of New Bedford, Mass. Last fall the citizens threw out an administration which had been in power uninterruptedly for fifteen years and chose for Mayor Thomas Thompson, a stone cutter. The new executive was expected to appoint as city attorney some lawyer who had been active in his behalf in the campaign, but he chose Mr. Perry, and the council confirmed his selection by a substantial majority. PAIN IN THE JOINTS

Rheumatic Tortures Cease When Dr. Williams' Pink Pills Make New Blood.

The first sign of rheumatism is frequently a pain and swelling in one of the joints. If not combated in the blood, the poison spreads, affecting other joints and tissues. Sometimes rheumatism attacks the heart and is quickly fatal.

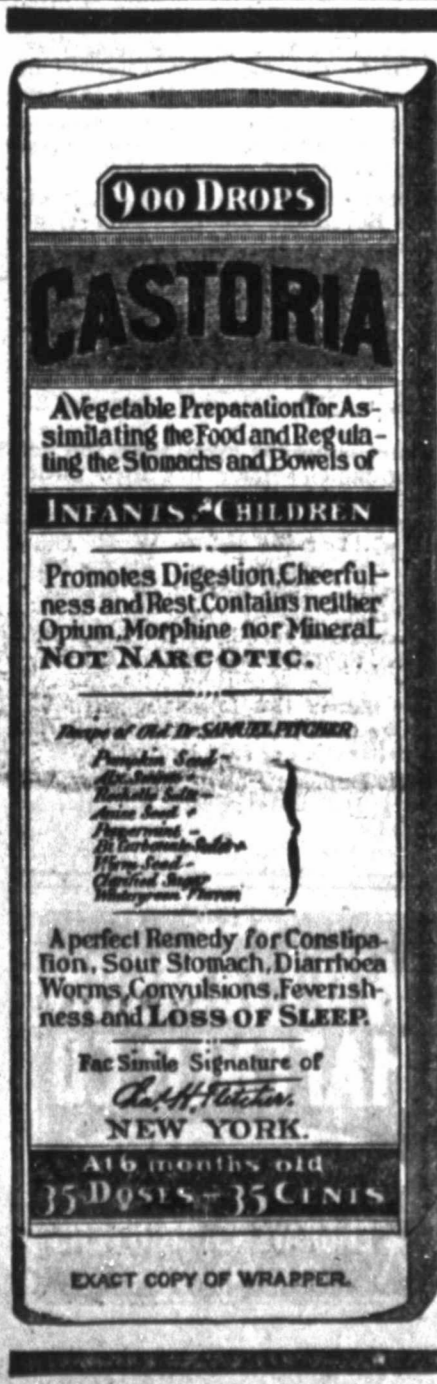

The one remedy that has cured rheumatism so that it stays a cure is Dr. Williams' Pink Pills. These pills rid the system of the blood and restore the system, so that the poisonous matter is passed off as nature intended.

Mrs. I. T. Pitcher, of No. 130 Monmouth street, Newark, N. J., suffered for about three years from rheumatism before she found this cure. She says: "It began with a queer feeling in my fingers. In a little time it seemed as though the finger joints had lumps on them and I could not get my gloves on. Then it grew worse and spread to my knees. I could not stand up and I could not sleep nights. My suffering was more than I can describe. I took a great deal of medicine, but nothing gave me relief until I tried Dr. Williams' Pink Pills.

"I read an account of a cure in a case that was exactly like mine and my husband got me some of the pills. I took them for three weeks before I really felt better but they finally cured me."

Mr. Pitcher, who is a veteran and a member of E. D. Morgan Post, No. 807 of New York, substantiates his wife's statement and says that she now walks without difficulty, whereas a year ago he was compelled to push her about in a wheeled chair. Both Mr. and Mrs. Pitcher are enthusiastic in their praise of Dr. Williams' Pink Pills.

LOST EYESIGHT Through Coffee Drinking

Some people question the statements that coffee hurts the delicate nerves of the body. Personal experience with thousands proves the general statement true and physicians have records of great numbers of cases that add to the testimony.

The following is from the Rockford, Ill., Register-Gazette:

Dr. William Langhorst of Aurora has been treating one of the queerest cases of lost eyesight ever in history. The patient is O. A. Leach of Beach county, and in the last four months he had doctored with all of the specialists about the country and has at last returned home with the fact impressed on his mind that his case is incurable.

A portion of the optic nerve has been ruined, rendering his sight so limited that he is unable to see anything before him, but he can see plainly anything at the side of him. There have been but few cases of its kind before, and they have been caused by whisky or tobacco. Leach has never used either, but has been a great coffee drinker, and the specialists have decided that the case has been caused by this. Leach stated himself that for several years he had drank three cups of coffee for breakfast, two at noon and one at night. According to the records of the specialists of this country this is the first case ever caused by the use of coffee.

The nerve is ruined beyond aid and his case is incurable. The fact that makes the case a queer one is that the sight forward has been lost, and the side sight has been retained. According to the doctor's statement, the young man will have to give up coffee for the rest of his sight will follow and the entire nerve be ruined.

Let it be remembered that the eyes may be attacked in one case and the stomach in another, while in others it may be kidney, heart, bowels or general nervous prostration. The remedy is obvious and should be adopted before too late.

Quit coffee, if you show incipient disease.

It is easy if one can have well-brewed Postum Food Coffee to serve for the hot morning beverage. The withdrawal of the old kind of coffee that is doing the harm and the supply of the elements in the Postum which Nature uses to rebuild the broken down nerve cells, insure a quick return to the old joy of strength and health, and it's well worth while to be able again to "do things" and feel well. The Portales Herald of last week took occasion to mention Texico in a derogatory manner in several instances, notably, one item in regard to our public school. The Herald might go on from now until doomsday reiterating statements of this kind and its influence would not amount to anything, for several reasons, which we charitably refrain from mentioning in this article, but for the Herald's own good let us remind it that pulling down another's structure is not a satisfactory means of building up one's own, and the Herald is not doing justice to Portales when it tries to slur Texico.—Texico Trumpet.

Correct you are, Mr. Trumpet, but if your little school troubles were occasioned by too much Hornbeck, you should not tell it so plainly. The "idiot" of the Portales Gabsquirt Hornblower-ski" is one of those unfortunates who is, from its very nature, immune from censure for its hallucinations and vapors.

Hill business house. Besides this there has been consummated several other real estate transfers which by request of parties interested are not given out at present. Who says we are not going some.

Card of Thanks.

We have not language enough to express our heartfelt thanks for the great kindness shown by our neighbors and friends, from the beginning of our great sadness to the present. Our son Moodie was accidentally shot while out hunting the 22nd day of December, by a friend from which his arm was amputated two days later. We are glad to say he is up most of the time now. We hope that we may in some way be able to show a helping hand to them. Respt.,
