Indeed words mean nothing more nor less from pure cream of tartar. These deny that the trust is an institution than pure chemicals, and in no way deny that it is an economic institution der is Alum and another Cream of enough for any one; Alum baking powder is better, and very much

MORE PULQUE BEING DRUNK.

Mexico City Gets Away With 800,000 plained on the ground that they had Litres Every Day.

Mr. Bryan declared that the trusts crowd which had waited so long to The consumption of pulque in Mexico city is rapidly increasing, and enue on a number of lines entering which a vessel can scarcely be guardthe city.

On nearly every railroad entering which is always serious and often the city a special pulque train is run disastrous. into the city daily and many of the regular freight trains carry large numbers of cars containing the popular drink.

During the month of June three railroads, the Hildago, the Mexican and the Interoceanic, carried into the city 59,861 barrels and 334 skins full of the pulque gathered within a radius of sixty miles of the city. The National, the Central and the smafler

lines brought in an amount probably half as great. Allowing that the population of Mexico city is 400,000 men, women and children, the quantity of pulque brought into the city daily is sufficient to supply almost two liters to share? During the month of June 14,-985,290 liters of pulque were brought into the city, as in one barrel there are 250 liters and in one skin 60 liters. During each day of the month an average of 748,263 liters was brought to

The amount thus reckoned is exclusive of the pulque brought to the city in wagons and on muleback from the nearby haciendas.

DFTENTHE BEST PART OF LIFE

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break the bottom of the Beltran arroyo and Have you Chills of any variety, or out into perspiration easily, and your drowned. Several travelers had nar any other malarial trouble? If so, face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better change of life we know of no better medicine than Lydia E. Pinkham's Veg-etable Compound. Here is an illus-tration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago. Ill., writes: "I have used Lydia E. Pinkham's Vegetable

Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women,old or young, and will surely cure all female disorders." Mrs. Pinkham, daughter-in-law of Lvdia E. Pinkham, of Lvnn, Mass, invites all sick and ailing women to write her for advice. Her great experience is at their service, free of cost.

What a miserable crowd of pessimists we would be if we could see ourselves as others see us.

Smokers have to call for Lewis' Single Binder cigar to get it. Your dealer or Lewis' Factory, Peoria, Ill.

Remarkable Fig Tree.

In the gardens of the Raby castle, Durham, England, is a fig tree which has a spread of branches from 20 to 24 feet. It was brought from tlaly in 1786, and is kept under glass.

The Old Man Did. Wife-Say, old man, what makes

you scratch so all night long? Old Man-Well, wife, I guess I got that new disease I hear them talking so much about; they call it eczema, or something like that.

Wife-Eczema the mischief, it's the campus and for a large truck garden. old-fashioned itch you got, and nothing else. Go right now and get a box of Hunt's Cure, it will cure you in a day or two. It never fails.

Long Journey for Pleasure.

Justus Miles Foreman has left New York for an extended journey, the itinerary of which includes Australia, New Zealand and the South Sea islands, and which is undertaken, he said, not to gain new literary material, but solely because he "wants to play a little."

To keep your auto looking bright use the following mixture for all paint ed parts: Sperm oil, one-half pint; common vinegar, one-half pint; oil bergamot, one dram. Mix and rub with clean cloth. For all brass work use tripoli, one and one-half pounds; any lubricating oil, eight ounces; gasoline. three quarts. This is one of the best cleaners for all polished brass.

If you contemplate buying a medium priced automobile and want to be certain of securing a car suitable for touring on country roads, up hill as well as down hill, you will make no mistake in buying either a Buleck, Maxwell, Mitchell, Reo, Knox, Franklin or Queen. These range in price from \$750 to \$2,000.

The Central American Soldier.

These barefooted soldiers are antagonists not to be despised. Nearly worthless in attack, they are nevertheless tenacious in holding a position, a trait that comes from their Spanish descent probably. In the Cuban campaign Gen. Garcia is said to ha ve said in reply to the remark of an American officer: "The Spaniards never attack." This may have been true in the main, but the defense of the trenches at Caney showed that the Spaniards would hold a position with as much courage and tenacity as any other troops. The Central and the South Americans have not generally showed much steadiness in war, but there have been occasions when their conduct has been conspicuous for gallantry, and all the virtues which go to make up the stalwart soldier .-N. O. Times-Democrat.

. Sensible German Idea.

On continental railways and the Rhine steamers there is no miscellaneous scrambling for meals. Instead a steward goes through the train or boat and lists the people who want to eat. Each gets a number, and this insures a seat without crowding or delay.

MEXICO VISITED BY STORMS.

The Pacific Coast Suffers Great

Property Damage. City of Mexico, Sept. 3 .- The terible storm which swept over the Pacific Coast of the Republic for nearly three weeks has ended, after having occasioned immense damage through out an extensive region. The port of Manzanillo is, after many days of iso lation, in communication with the rest of the country. Telegraph lines were prostrated and in a lonk distance not a single signal post was left in place; often everything was swept away by

the floods. In the State of Sinaloa and the territory of Tepic great injury was done to farmers and great loss of crop done to farmers and great loss of crops and cattle is reported.

Some of the machines employed on the port works at Manzanillo were de-

stroyed or rendered useless. Many housess occupied by poor people and situated near the sea were

Elida, New Mexico.

W. E LOGAN. Arch, New Mexico. F r Probate Judge,

T. A. TILLINGHAST, Elida, New Mexico. To Republicans. We are anxious to have every Re-

publican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a Republicao Congress. The Congressional campaign must be

based on the administrative and legislative record of the party, and that beng so, Theodore Roosevelt's personality must be a central figure and his schievements a cettral thought in the We destre to maintain the work of

this campaign with popular subscript ions of one dollar each from Republicans. To each sudscriber we will send the Republican National Campaign Texr Book and all documents issued by the Committee.

Help us achieve a great victory. JAEES S. SHERMAN, Chairman.

Good Words for Roosevelt County. Mrs. Lucy Macfarlane, of Mondamin. Iona, sister of the Logan brothers, of pear Arch, but recently returned to her home after a pleasant visit w & her brothers, has the following to say

about Roosevelt county through the court this the 23rd. day of August, A. columns of her l o ne paper; "Mondamin, Ia., Aug. 27-To all who want a good home cheap, I would direct their attention to Roosevelt county, New Mexico. We have just neturned from a visit south, and to say that we were perfectly delighted with that corntry is but mildly expressing ourselves. We bought our tickets for Portales, New Mexico. This flourishing little city is the county seat of Roosevelt county and is 701 miles southwest of Kansas City, Our route lay from Kansas City by way of Newton, Kansas, and south through Wicbita and Wellington, across the Panhandle to Portales. We found a modern little city with many substantial business houses and fine residences. Many of its public buildings, such as school houses, court house, jail stores, etc., are built of stone and pressed brick, which bespeaks for the meaning and said such as lower of sevent of the meaning will be held at 10 o'clock a. m. on Cotober 24, 1906, before W. E. Lindsey, U. S. commissioner, at his office in Portales. New Mexico, and that final hearing will be held at 10 o'clock a. m. on November 7, 1906, sefore the Register and Receiver at the United States land oil.ce in Roswell, New Mexico.

The said contestant having, in a proper affidavit, filed August 27, 1906, set forth facts which sow that after due diligence personal service of this mittee can not be made, it is hereby or dered and directed that such notice be given by due and proper publication. ourselves. We bought our tickets for beauty and durability. A new \$15,000 school house of cement or pressed brick is one of the latest improvements. We found the country a level stretch of prairie, reaching as far as the eye could see, mostly improved. The soil is a rich, sandy loam, very fertile and producing successfully, without irrigation, corn, Kafir corn, maize, cane, cats, alfalfa, broom corn, millet and wheat. It is a great grazing country, and four or five years ago was a vast cattle range over which immense herds roamed at will. How different today. That portion of the country known as 'Inland Valley,' of which Portales is the center, is a prosperous, wide-awake and up-to-date community, enjoying all the advantages of school and church, rural mail routes and telephones, with a farm house on every quarter section. Good water ranges in depth from ten to twenty-five feet in depth, and the supply is inexhaustible. The windis one of the latest improvements. We supply is inexhaustible. The windmills run from ten to sixteen feet wheels and pull cylinders of from four to six inches. They pump from 800 to 1000 barrels of water a day. In connection with this mill the farmers have what they call a tank, made by scraping the earth about three feet deep and banking up from five to six feet. The tanks range 150 to 200 feet long and from fifty to 100 feet wide. mills run from ten to sixteen feet long and from fifty to 100 feet wide. Pipes run from these tanks to garden ed, but they do not irrigate their fields. Those who have not put

rtales Times, wanted to sleep all the time, and while home folks were sweltering with and expected to meet a mixed populand an intelligent, industrious, lawbiding, white population, fully awake to the wonderful possibilities of this Mecca of the homesseker and the nealthseeker. We also found in this untry a total absence of mosquitos. Many thousands of acres of such land are still government land, subject to homestead entry, and nearly all other land is held at a low price. In conclusion I would say that while a few men are born great more achieve greatness by simply 'taking tarts while they are passing,' and the man, with or without family, who locates in this 'garden spot,' where nature has been so lavish with her gifts, can surely make no mistake.—Mrs. Lucy Mac-Many thousands of acres of such land make no mistake.--Mrs. Lucy Macfarlane."

The above article was written by lady who has seen for herself the country she so truthfully describes, and the Times takes pleasure in reproducing her description. Mrs. Macfarlane has placed onr people in her debt by so generously advertising our advantages in her community.
