G. C. and R. J. Bradford, two young men looking for localities, arrived Sunday from Roswell, where they have been looking over the country sometime. Prices too steep in that section for them, they say.

W. A. Manes, the energetic and obliging proprietor of the Pecos Valley Hotel, is rapidly pushing to completion a two-story front addition to his hostelry, which will add several good rooms to his house.

Geo. E. Scott, the land surveyor, was in on business Tuesday. Mr. Scott's boldy inclines to the opinion that he lives in the best section of this country, which if a sin at all, is certainly a venial one.

W. T. Wages, who has been holding down a splendid homestead four miles northwest, the past six years, made us a call last Saturday and contributed to our subscription fund, for which Mr. Wages has our thanks.

Chas. Brant, 18 miles southeast, called Monday, and in addition to subscribing for the Times for his own use here at Portales he ordered a copy sent regularly to his wife, who is still at their old home at Okmulgee, I. T. Every paper sent east and north and south is distinct help to this section.

Jas. Armstrong, out on the Judge Carter place, three miles west, is showing the dwellers hereabouts what can be done cottonwise in this quarter. He had in 25 acres this year, from which he expects ten bales. His cotton is so good that he and his two little girls were able to pick 400 pounds in one afternoon. Ten bales ought to bring him \$400 or \$500. This is as good as a 40 bushel corn crop at 40c.

Postmaster Leach moved his office, Monday, into the elegant and commodious brick building he has lately had completed adjoining the old office on the east. His new quarters are not only ample for his large and constant growing official business, but so arranged as to most thoroughly accommodate himself and the public. Mr. Leach is to be commended and congratulated. Few towns the size of Portales can boast of postoffice facilities equal to this place.

Ancient Boreas, the classic god who dishes up the weather from the universal cold storage on the north, has sent cold chills down the nation's spine the past week. New Orleans saw the mercury fall to 48 on the 11th, the lowest for the time in her history, and cotton got a serious black eye. In 1876 New Orleans shivered under a temperature of 50 on October 2.

Every body remembers Eiler's big show that appeared here about a year ago as being good. They are coming again soon with the great new play "King of the Cattle Ring" and now far better than ever. Portales, Monday, November 5.

R. E. Card, ten miles southeast, was a visitor first of the week. Mr. Card has one of the greatest living curiosities on earth, in the shape of a three-year-old bull that weighs only 72 pounds. This bantam bovine he has had on exhibition, and he expects to go on the road with him and other attractions soon.

Eiler's "King of the Cattle Ring" was presented here Monday night and was witnessed by a very large crowd, for Weeping Water. The play is a good one and well presented by the company. The company includes some very good artists and every part of the show including the concert was above the average. We think that should they decide to come this way again they would have to enlarge their tent to hold the crowd.—The Weeping Water Republican, Portales, Monday, November 5.

WOMAN WILL GET LAND.

United States Supreme Court Decides Status of Texas Estate. Washington, Oct. 23.—The Supreme Court has affirmed the decision of the Court of Appeals, District of Columbia, in the case involving title to a ranch of 68,000 acres in Texas, and nearly of the value of \$60,000 in the District of Columbia.

The case was Landrum vs. Jordan. Dr. Thomas Carney of this city died about three years ago, leaving his property to two trustees to be held by them until 1928, when it was to go to Miss Gabriell Jordan of New York. The heirs at law contested the will on the ground that it created a perpetuity, and was in consequence void. The lower courts held that even if it did do the thing contended by the defendants it was plainly the intention of the testator to give the property to Miss Jordan, and that she should hold it forthwith. The Supreme Court sustained that view.

The county in Texas in which the ranch is located is not stated. Denver to Enter Dallas. Dallas: While no official admission of the proposition can be had at this particular time, it is unofficially stated in several quarters that the Denver Road will soon be operated into Dallas over the Rock Island tracks. The matter has been held up, it is stated, because of the Union Depot plans. If the lines entering Dallas agree on a Union Depot proposition the Denver is to come in with them. In case the plan for housing all the trains in one depot fails, the Rock Island-Frisco interests and the Katy will build a depot of their own, or the Rock Island-Frisco people will, and will take the Katy as tenants.

Labor Famine in West Texas. Austin. The scarcity of labor in Western Texas is a serious problem, according to reports received from there. It is impossible to get pickers for the cotton fields, which are simply loaded with immense yields, about the best in Texas. Fabulous prices are offered for laborers and they are being imported from the outside. One thing that makes it difficult is the impression that negroes are not wanted in that part of the State.

Train Smashes Wagon. Cleburne: The Trinity and Brazos Valley train struck a wagon, containing several negroes as they were crossing the railroad track in the southern limits of this city on their way to the country. The wagon was the property of Mr. Atwell, living west of here. The negroes were en route to his farm. The wagon was torn up and several of the occupants were cut and bruised, but none of them were fatally hurt.

Killed His Wife. Stoneville, N. T.: A very sad accident occurred Monday morning at about 8:30 o'clock, resulting in the death of Mrs. John V. Andrews. Mr. Andrews was cleaning an automatic shotgun at his home, when, in some way, it was accidentally discharged. The full contents of the shell entered Mrs. Andrews' right side, killing her almost instantly. Mrs. Andrews was the daughter of Mayor W. L. Cortran of this city.

At his home in Houston Heights Daniel Van Valkenburg, a wealthy real estate dealer, past middle age, fatally shot his wife and then fired a bullet into his brain, inflicting a mortal wound. The Frisco will begin right away to erect a brick depot at Hugo, I. T., to cost \$5,000. A Harvey eating house will also be erected.

Mangled by the Cars. Waco: At the crossing of South Fourth and Mary streets Monday morning Stephen A. McClellan was crushed beneath the Cotton Belt switch engine and tenders. Shonta Prefers Whites. Washington: Chairman Shonta of the Isthmian Canal Commission has received reports from Chief Engineer Stevens and Chief Sanitary Officer Gorgas stating that the Spanish laborers brought to the Isthmus are doing very well, not a single one of the 200 brought since January having died. WINDS SWEEP THE SOUTH AND SNOW COVERS NORTH

Death and Destruction Mark the Way—Snow and Blizzards Lock the Land's Activities in the Northwest.

Key West, Fla., Oct. 22.—Survivors from one of the houseboats of the Florida East Coast Railway extension along the Keys tell a harrowing tale of death and destruction during the storm of Thursday.

W. P. Dusenberry, civil engineer in charge of the work on Long Key, who miraculously escaped death, arrived here on the Russian steamer Jennie, among other survivors rescued. He says houseboat No. 4, on which were 150 men, was struck by the storm at 5 o'clock Thursday morning and was driven out into the Gulf through Hawkes Channel.

At 6 o'clock the houseboat began to break up as the great waves hit her men singly and in bunches of two and three were washed into the sea and drowned. Some went below for protection, but when the top of the boat was carried away the waves rushed in and the boat soon went to pieces, thirty or forty of the men being crushed to death in the collapse, the others grabbing timbers to save them from drowning. Engineer Dusenberry was in the hold, but succeeded in getting a log and floated until Friday night, when he was rescued.

On one piece of timber sixteen men were clinging and nine were hanging to another. The side of the houseboat was crowded with men. It turned over three times, each time reducing the number. The Russian steamer Jennie sighted the wreckage and succeeded in rescuing forty-nine men, who were brought here. Three other steamers with searchlights were picking up men dead and alive when the Jennie left the scene.

The snowstorm extends through the Rocky Mountain districts and the Plains States eastward. New Mexico Gets Here. Albuquerque, N. M., Oct. 22.—The worst blizzard since the big storm of 1882 is general throughout New Mexico. A high wind is bringing a general fall of snow and sleet throughout the Grand Valley and reports indicate that the losses to sheep growers will be very heavy.

The storm began here about 7 o'clock Saturday morning with a high wind, which rapidly increased in velocity until by 9 o'clock the gale had reached the proportions of a tornado. The wind carried dense clouds of sand and dust, which developed into rain, and with the rapidly falling temperature, into sleet and snow. Tonight the snow is falling in blinding sheets and reports indicate that it is much more severe in the country.

Nothing Too Big for Texas. St. Louis: A special to the Republic from Valentine, Texas, says: The first shipment of elephants which are to stock the large elephant ranch which is being established near here, has arrived here. Tyler, Texas, Oct. 19.—Dr. Knapp, of the United States Agricultural Department, who has been attending the Farmers' Congress, which was in session here Tuesday and Wednesday of this week, was a guest of the Comical Club and in an address delivered to a large number of the membership of the club, besides several farmers and other prominent men of the county made an offer to establish at least 150 demonstration farms in this county provided the club and citizens would bear half the expense. The proposition was readily accepted and the work will be commenced within a few days.

And Now It's Jap Persecution. Decapitated by an Elevator. Fort Worth: Sam Hanks, a plasterer, 21 years of age, met sudden death Monday in the Farmers and Mechanics National Bank building, where he was at work. Hanks was leaning from the second floor into the elevator shaft engaged in smearing some mortar on a bare spot of the interior wall, when the elevator descended. The elevator descended swiftly and noiselessly, like the blades of a guillotine. Hanks had his neck extended as he peered downward to spread the mortar and was leaning just over the edge of the shaft. The car carried a number of passengers and was heavy. The edge of it struck Hanks with great force and almost severed his head from his body. So great was the impact that the man's body was flung upward through the door of the elevator car and fell among the passengers, three of whom were women.

Victim of a Runaway. Lamasas: Early Thursday morning the dead body of Bud Berry, who lived a few miles south of town, was found near the lot gate of his place. From the coroner's inquest, it seems that Mr. Berry left town at night about 9 o'clock and when about 200 yards from his lot gate his horses took fright, running away with him, throwing him out and crushing his skull. His family knew nothing of his fate until next morning.

By Pipe Line Project. Beaumont: The Texas Company will lay an eight-inch pipe line from Indian Territory oil fields to Port Arthur, Texas. An east wind and rain saved the remainder of the block. If the plans of S. M. Isaacs, a wealthy Jew of St. Petersburg, succeed, Southwest Texas will be made the haven of refuge for the persecuted Jews of Russia. In a difficulty at Eagle Lake, Henry Young, a negro, about 55 years old, was shot and killed, and his companion, Irvin Wheat, was shot in the shoulder with one buckshot. Both negroes lived in San Antonio.

The Texas Brick Layers, in annual convention, wound up their affairs at Fort Worth Wednesday and held a banquet at night. The association will demand seventy-five cents per hour for every local in the State. Mrs. A. E. Riley was found dead in a cowpen about 8 o'clock Friday morning at her home on the Noyes place, a mile east of Lamasas. Her husband states that when she left the house she was apparently in good health. A few minutes later he found her dead.

Jennie Johnson, a negro at Marshall, killed herself by shooting herself in the head. The Bank of England has raised the discount rate to 6 per cent Friday. This is the first time so high a rate has been charged since 1890. A new bank under the State banking act, to be known as the First State Bank of Paris, has been organized with a paid-in capital of \$100,000 and will succeed to the business of the Paris Loan and Trust Company.

Terry McGovern and Young Corbett fought a hard six-round bout at the National Athletic Club in Philadelphia recently. When the gong announced the close of the battle there was little to choose between the two fighters. Johnnie Amos, a boy of 10 years, living several miles north of Hillsboro picked 346 pounds of cotton in one day recently and the amount picked by him within the week averaged 300 pounds daily.

The Fort Worth Third Ward Club of nonpartisans unanimously adopted a resolution endorsing Bryan and Crane's expressions that no public servant should affiliate with public service corporations, monopolies, or allied interests. City Officers Parks and Cobb of Amarillo, were shot from ambush a few nights since. The former was wounded in the leg. It will have to be amputated. The latter was wounded slightly in the abdomen.

The live stock pavilion of the Fort Worth Fat Stock Show is now a certainty. The contract has been signed by the committee of the National Breeders and Feeders Live Stock Show Association and the representative of the Stock Yards company. The State Superintendent of Public Instruction holds that teachers should not be required to pay for fuel out of their own salaries, also that school funds set apart by apportionment for next year cannot be used this year.

During the fiscal year ending Aug. 31, 1906, there was collected in Texas an occupation tax the large sum of \$66,908.68, an increase over the preceding twelve months of \$45,278.68. One-fourth of the occupation tax goes to the available school fund.

THEY CURE ANEMIA.

Dr. Williams' Pink Pills for Pale People. Anemia, whether it results from actual loss of blood, from lack of nutrition, or from a deficiency of the vital fluid, Dr. Williams' Pink Pills actually make new blood. They do that one thing, and they do it well.

"As a girl," says Mrs. Jennie Fink, of 180 East Mill-street, Akron, Ohio, "I suffered from nervous indigestion and when I was eighteen years old I was reduced in weight to 85 pounds. I was nervous, nervous, couldn't get or sleep, was short of breath after the least exertion, and had headaches almost constantly. I had a doctor, of course, but I might as well have taken no other medicine for all the good his medicine did me. Finally my vitality and strength were so reduced that I had to take to my bed for several weeks at a time. I could not digest any solid food and for weeks I did not take any other nourishment than a cup of tea or beef broth.

"While I was sick in bed I read of Dr. Williams' Pink Pills and I stopped all other medicines and began to take the pills. Soon my improvement was very noticeable. My strength began to return, my stomach gave me no pain and just as soon as I began to take solid food I gained in weight. Dr. Williams' Pink Pills certainly saved my life. I am now perfectly well, have regained my normal weight of 120 pounds and I think Dr. Williams' Pink Pills are a wonderful medicine."

Nothing takes the ambition out of men more effectively than an easy chair. Mrs. Winslow's Soothing Syrup. For children teething, soothes the inflamed membrane, reduces inflammation, cures colic, cures all the troubles of the stomach. Jap Expedition to Formosa. Japan has organized a strong military expedition to occupy the island of Formosa, owing to the many assassinations which have recently taken place by the savages of the interior.

Vesuvius Dust Traveled Far. Paris was overcast with a dry, yellowish fog the morning of April 11 of this year. A scientist, believing that the fog had been caused by the eruption of Mount Vesuvius, placed upon the roof of his dwelling a series of plates covered with glycerin to catch the dust in the fog. It was found that part of the deposit on the plates was a very fine sand, completely identical with the ash sent up by Vesuvius in 1822. In addition to this sand the fog contained some perfectly spherical globules of oxidized iron.

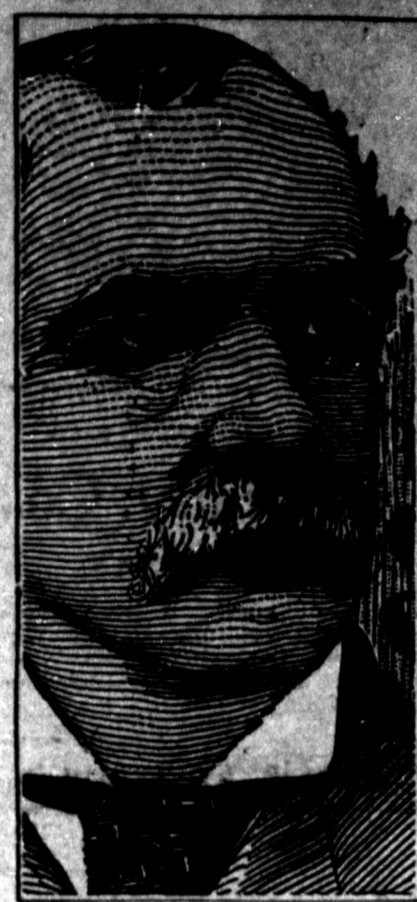

TERRIBLE SCALP HURON. Badly Affected with Sores and Crusts—Extended Down Behind the Ears—Another Cure by Cuticura. "About ten years ago my scalp became badly affected with sore and itching humors, crusts, etc., and extended down behind the ears. My hair came out in places, also. I was greatly troubled; understood it was scabies. Tried various remedies so called, without effect. Saw your Cuticura advertisement, and got the Cuticura Remedies at once. Applied them as to directions, etc., and after two weeks I think of use, was clear as a whistle. I have to state also that last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skillful treatment of my doctor, combined with Cuticura Soap and Cuticura Ointment, I found myself cured. H. M. F. Weiss, Rosemond, Christian Co., Ill., Aug. 21, 1905."

Mrs. Craigie's Address. An amusing story of the late Mrs. Craigie, the noted novelist, was told the other day at the Author's club in New York. "When Mrs. Craigie was in America last year," said the editor, "she was invited to make an address at a certain meeting. She accepted the invitation, but her name, through some oversight, was put far down on the programme, and worse than that, the chairman, a rather stupid person, introduced before her some speakers who were not on the programme at all. "In short, it was close on to 11 o'clock when the chairman, with a pleasant smile, bowed and said: "Mrs. Craigie, the eminent author of 'Some Emotions and a Moral,' is now giving us her address."

"Mrs. Craigie rose and said, calmly: "My address is No. 56 Lancaster Gate, Hyde Park, W., London, and I now wish you all good-night, for I am far from home."

UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PERUNA.

Ex-Senator M. C. Butler.
Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy For Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catarrh must be eradicated. Only an internal cathartic remedy, such as Peruna, is available. Peruna exactly meets the indications.

Royal Names for Peaks.
The duke of Abruzzi has named the three highest peaks of Mount Ruwenzori after Queen Margherita, Queen Alexandra and King Leopold.

It's Strenuous.
There is no true superiority except that created by true merit. The reason Hunt's Lightning Oil outclasses all other liniments—it has the merit—it does something. See what it will do for cuts, burns, bruises, sprains, sore and stiff muscles and joints. Your surprise will only be exceeded by your gratification.

Worry Postal Authorities.
Because the postal administration has imposed a duty of five pennings instead of two on postal cards intended for urban delivery, the citizens of Hanover have inaugurated a singular strike against the postal authorities. Instead of writing postal cards, they all write letters, and, not satisfied with sending their effusions in an envelope, they fill it with newspaper scraps to bring the weight of the letter to the maximum of 350 grams. As the envelopes they now use are of the maximum size tolerated it is easy to construct a letter box with only a dozen of such misdeeds. The postal authorities are alarmed at this obstruction of the postal service, and it is probable that the former tariff of two pennings on postal cards will have to be reestablished.

Had Church Roof Fixed.
Miles Finlen, the rich Montana copper miner, visited some relatives in Bay City, Mich., recently. He attended services in an old wooden church, and while there a rainstorm came up. The roof leaked, and some water fell on Finlen's neck. After the services had ended he asked one of the church officials: "Why in blazes don't you give people a decent place to worship in?" "I suspect it's because we haven't the money," was the suggestive reply. Next afternoon material for a new roof began to arrive in front of the church and Finlen walked into the pastor's study with a check for \$750. "Fix up your old roof," is all he said.—Indianapolis News.

A FOOD CONVERT.
Good Food the True Road to Health.

The pernicious habit some persons still have of relying on nauseous drugs to relieve dyspepsia, keeps up the patent medicine business and helps keep up the army of dyspeptics.

Indigestion—dyspepsia is caused by what is put into the stomach in the way of improper food, the kind that so taxes the strength of the digestive organs they are actually crippled.

When this state is reached, to resort to stimulants is like whipping a tired horse with a big load. Every additional effort he makes under the lash increases his loss of power to move the load.

Try helping the stomach by leaving off heavy, greasy, indigestible food and take on Grape-Nuts—light, easily digested, full of strength for nerves and brain, in every grain of it. There's no waste of time nor energy when Grape-Nuts is the food.

"I am an enthusiastic user of Grape-Nuts and consider it an ideal food," writes a Maine man: "I had nervous dyspepsia and was all run down and my food seemed to do me but little good. From reading an adv. I tried Grape-Nuts food, and after a few weeks' steady use of it, felt greatly improved.

"Am much stronger, not nervous now, and can do more work without feeling so tired, and am better every way.

Farmers' Co-Operative Union Of America

Who said that cotton would not go to eleven cents?

Have you taken time to go out and get acquainted with the new school teacher? Well, you ought to. You are mighty particular about your colts not getting "ruined in breaking," but you hold your own flesh and blood mighty cheap, when you allow "unknown quantities" to handle them.

Maybe the fact that cotton is now bringing a profit making price will induce the planting next year of another record-breaking crop. If it does, the high price will disappear. Just plenty of cotton does not run a price down, but the smallest quantity over present demand will run it down, because the farmer has not yet learned to hold it himself, instead of letting the money sharks hold it. But they are learning mighty fast.

While you fellows are casting about for some sort of diversification, why don't you get busy investigating the creamery question. There's millions in it, if the thing is done in a business way. Don't go half-cocked, and let some smart yankee unload an outfit on you for your good cash that doesn't fit your conditions at all. Go slow; write to those creameries scattered here and there all over the South that are succeeding and learn from them how to start right, and there is nothing under heaven to prevent the men who own the cows from owning the factory.

A WISE SUGGESTION.
Most of the State Legislatures meet in a few months, and surely the farmer, individually and as a class, is vitally interested in wise, just economic legislation. If every district and local Union will have its Secretary and Senators send them a copy of the journals of each house, keep these journals carefully, and when the Legislature adjourns have them bound, and then study carefully exactly what their legislators did and tried to do, they can thus cull out useless and unfriendly legislators. In a little while a legislative membership will be secured to be depended upon to do the right thing.—Co-Operator.

FARMERS' JOURNAL PHILOSOFY.
One of the beauties of diversification is, that it benefits the man who practices it, even though others do not cooperate with him. It is easy to say eleven cents, but it is not so easy to stay with the game when he supply merchant, or the banker, or the land agent, holds notes or other obligations bearing your signature.

What doth it profit a man if he gain two cents on cotton and lose two cents on everything else? The idea of a people's representative engaging his services to protect and promote private interests that are seeking to gouge the people would seem preposterous to the foresaid people if they had not been brought up that way.

The farmer has as much or more right to set the price on the product of his labor as the merchant has to set his price on his goods. Of course, it is a departure from the old custom, but it is legitimate.

MERCURY MUSINGS.
Even the despised corn cob is to be converted into alcohol instead of ashes. The department of agriculture is developing a new industry in the production of alcohol from corncobs, which promises to be of much commercial value.

"You know what a corporation lawyer is paid for, don't you? He gets a hundred thousand dollars, and even two hundred thousand dollars and more at a time, when he can go into court and get for the corporations what they want."

Now that the cotton market has touched the eleven-cent mark, don't be in a hurry to get your cotton sold. Eleven cents is the minimum price, not the maximum. By marketing slowly and as the spinners shall need it, you may get 15 cents. See!

THE HOUSE THAT BAKER BUILT.
CHAPTER IV.
Statements in the press and in the reports of Pure Food Commissioners show that there are on the market at this time many cheap and chopinized waxes which have been treated with adulterants, more or less injurious to health, for the purpose of cheapening the cost and giving a fictitious appearance of richness and strength. The safest course for consumers, therefore, is to buy goods bearing the name and trade-mark of a well known and reputable manufacturer, and to make sure by a careful examination that they are getting what they order. The products of Walter Baker & Co., Ltd., Dorchester, Mass., have held the market for 126 years with constantly increasing sales. They have received 16 highest awards from the great international and local exhibitions in Europe and America.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

Margrite Ryan

When a physician tells a woman, suffering from female trouble, that an operation is necessary, it is a terrible frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for just such operations! It is quite true that these troubles may reach a stage where an operation is the only recourse, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind., writes of her cure as follows:

"Dear Mrs. Pinkham:—I cannot find words to express my thanks for the Lydia E. Pinkham's Vegetable Compound. The doctor said I could not get well unless I had an operation for the trouble from which I suffered. I never had any more of it. I feel as if I had a new lease on life. I am now a healthy woman and I can do my share of the work. I am very grateful to you for the good medicine you have given me. I will be glad to write you if you need any more testimonials. I am, dear Mrs. Pinkham, your truly, Margrite Ryan."

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

A WOMAN'S KIDNEYS.

Women have much to do, so many pains to suffer, so many critical periods to go through, that it is important to keep the kidneys well, and avoid the headache, backache, dizziness, languor and other common signs of weak kidneys.

Mr. Charles E. Smith, of 23 Boyden St., Woonsocket, R. I., says: "My kidneys were weak from childhood, and for eight or ten years past my back was very painful and I had many annoying symptoms besides. When I began taking Doan's Kidney Pills I weighed only 120. To-day I weigh 165, and am in better health than for years. Doan's Kidney Pills have been my only kidney medicine during four years past. They bring me out of every attack."

May Return to America.
William Waldorf Astor, Jr., who lives in England with his self-exiled father, has been visiting in Kentucky, and it is rumored that he intends to purchase a country place in the blue grass state. Mr. Astor was accompanied by his wife, a daughter of Danby Langhorne, of Charlottesville, Va.

It Will Stay There.
"In my family medicine chest no remedy is permitted to remain unless it proves beyond doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

L. P. Taffinder, Roosevelt County's

Republican Candidate for Sheriff.

is a man in the very prime of ex-

ceptionally sturdy physical, intellectual

and moral manhood. He is a son of

the "Lone Star State," a product of

Hopkins county. Losing his father as

the age of seven and his mother when

fourteen, he and a brother and sister

were left to fight their way in the

world alone. For five years he has

been a resident of this section and

knows it and its people like a book.

That he will make, if elected, a capable

and official is doubted by no one ac-

quainted with him. He is honest, he

is intelligent, prompt and fearless,

prime requisites in a county executive.

One for L. P. Taffinder and you guar-

antee against mistake in planting your

ballot.

Judge W. E. Lindsey.

The following biographical

sketch of Washington E. Lindsey,

Republican nominee for the

legislature, 19th district, will

interest the people of Portales

and surrounding country at this

juncture:

Judge Lindsey was born on a

farm, in Belmont county, Ohio,

attended country school, in the

winter, until he was seventeen,

which he evinces and stimulates

unimpaired by fact as proof, the vil-

lification to which Mr. Andrews has

been and is being subjected will do

him no harm.

Politics aside, W. H. Andrews poss-

esses far greater competency than

Mr. Larzols as a representative of

New Mexico in the coming Congress.

His voice, to speak, to the manner it

is not to the manner born, is a bit, strong,

forceful man, one who does things of

elephantine proportions, and hence a

man who gets things for which he goes

praising. He is the sort of man who

plunge into the sea of events generates

groundswells of tidal-wave magnitude,

a captain of industry who has brought

more money and improvement to New

Mexico than probably any other man

within her borders. Lastly, and as a

major consideration, he is in harmony

with our "square deal" President and

the dominant party in Congress.

That he will be re-elected Nov. 6, is

beyond doubt. That he will be re-

lected by a considerably bigger ma-

jority than the most sanguine of his

supporters at first believed possible

seems almost certain.

Regarding the democrat candidate,

Mr. Larzols, we take pleasure in say-

ing that so far as we know and believe

he is a clean, conscientious, scholarly

gentleman, but it is also our belief

that owing to his lack of experience

and natural heretofore forcefulness of

character he would signally fail to

serve this Territory as her representa-

tive in the fierce parliament in Wash-

ington, where only trained brain and

brawn win the battle.

It is service we want and not senti-

ment and it is not to be expected that

the driving door for it instead of to

the academic pedant. We want a coiner

of consequences instead of a coiner of

phrases, a practical legislator instead

of a dilettante. We want a man who

can stand squarely on the angle of

the law of any opposition and lift it

off the ground at a blow. Mr. And-
