#### The First National Bank Of Portales, New Mexico

We are approaching the seventh milestone of our existence as a Bank in Portales.

Is the year of our birth, and we can truthfully say "We have grown up with the country" thus far. Since our organiza-tion we have paid dividends to stockholders every six months and have built up a business recond to none in Eastern New Mexico. At this time our

Capital, Surplus and Undivided Profits .... \$ 70,000 00 Deposits ..... 225,000 00 Cash and Exchange...... 115,000 00

We do not owe a dollar of borrowed money. This shows confidence in our stability, as well as a very prosperous condition of the bank. We thank our friends for their patronage in in the years gone by and, if we merit it, we hope to make the New Year.

The best in our history, in the meantime, we wish to aid our customers towards making it the best for them. Remember we CAN and WILL handle your business, be it large or small if you will permit us.

The First National Bank PORTALES, NEW MEXICO.

## Warren-Fooshee

### Our Sacrifice Sale Exceeded the Wildest Dreams

We have just about concluded another big sale and, as has been our invariable custom, we made a success of it. You see, the good people of Portales and surrounding country, have rather spoiled us; we have never attempted anything in the way of an "Opening" or a "Special Sale" without the people, apparently, making a personal matter of it, each one doing all in their power to contribute to its success. Now, we thoroughly appreciate your efforts in our behalf, and shall strive unceasingly to so conduct our business that you will have no cause to regret your past support nor any sufficient reason for its future withdrawal. Yet, we believe that we have merited, in no small degree, your confidence and support. We have, without a single exception, fulfilled every promise ever made by our house to the public and this policy will be strictly adhered to in the future, During the present New Year we shall arrange for you many pleasant surprises which will, without doubt, meet with approval. We are thoroughly convinced that the very best is none too good for our trade. We desire to heartily thank you for your past favors and earnestly solicit your future good will.

Signed, "OUR MANAGER."

All Wear Schloss Make

### Will Go to Market

About the First of February

Our buyers will start for the Eastern Markets about February 1st, where they will purchase the largest stock of Spring Goods ever brought to Portales. You see, our almost phenominal success in selling our Fall and Winter goods has caused us to sit up and take notice. Last fall we bought more than double the usual Fall and Winter order yet, the middle of January finds us with practically no Winter goods on hand, consequently Spring will mean greater demands than ever on our resources, but we'll have the goods, and we'll have 'em for less, no mistake about that.

In Clothing we shall continue to carry the Famous SCHLOSS BROTHERS' brand, for the reason that it has been impossible to get anything else as good, either in style, cut, finish, texture, durability and fit. We couldn't conduct our store without 'em.

Our Ladies' Shoe Department will still be graced with the justly celebrated Dorothy Dodd Shoes. Apparently, our ladies realize that there are no "Just as Good" on the market. They come a little high, but "They're Worth the Money."

Speaking of Shoes for men, the Walk-Over wins in a "walk-over" all its competitors, and this is no joke, either. We violate no confidence when we tell you that we are the exclusive dealers in Portales, in this world-senowned Shoe.

## Slaughter Sale of Seasonable Goods

..\$40,000.00 Stock of General Merchandise..

To be sold, regardless of cost. We are overloaded on Falll and Winter Goods and in order to make room for our Immense Spring Stock we must unload. Thousands of dollars' worth of goods suitable to late Winter and Early Spring at one half their value. The only store in the Southwest that gives their customers the benefit of their lucky purchases. The only store run exclusively in the interest of the cash buyer. The only store that does not care to make big profits, but wants to do a big volume of business with small profits. Panicky times of the last few months has enabled us to pick up many lines of merchandise at a big saving, and this we propose to divide with our friends and customers. Every statement we make will be borne out by facts. Every offering made by us is a genuine bargain. All bright, new goods, but they must go into the homes of the people. We have the goods, and we have the prices that will not be met. It's up to you to get your goods at a saving.

We have opened in Portales with the intention of remaining and, with this end in view have on display, and literally at your mercy, a

...\$40,000...

Stock of General Merchandise, Consisting of Dry Goods Groceries, Clothing, Hats, Caps, Boots, Shoes, Notions, Hardware and, in fact, Everything. Come in and get acquainted, we'll be glad to meet you and take pleasure in showing you what we have. If you don't like our goods there is no necessity to buy and, if you do buy and the goods are not as represented, we will cheerfully refund your money.

### FREE We will give, absolutely free, a \$35.00 U. S.

Army Gun to each and every customer who buys as much as \$25.00 worth of Merchandise from us at one time, during this sale.

#### Following Are a Few Prices.

### ... Unloading Sale...

When you see our goods and learn our prices you will be convinced that we are here to save you money. We have neither the time nor inclination to worry you with a long list of prices of goods you may not need but, if you'll call and select what you want we'll see to it that the price is satisfactory, and if the goods are not satisfactory we'll refund your money.

Call On Us. Do It Now.

## It Is Our Loss, Your Gain

We have come to stay and are going to make this Opening and Unloading Sale the greatest Feast of Bargains ever spread in Portales or this part of the country. Fifty Cents will do the work of a Dollar; One Dollar will do the work of Two Dollars. On account of our opening late at Portales our stock is unbroken. Over \$40,000.00 worth of goods, consisting of Clothing, Shoes, Hats, Caps, Dry Goods, Groceries, Millinery, Hardware, Notions, Etc., on display and at your mercy. Never was any such slaughtering of prices witnessed in Portales, or Roosevelt County. This stock will be sold in a hurry, as we are forced to unload. We are carrying a full and well selected stock of the best goods that money can buy. RUSH TO THIS GREAT UNLOADING SALE and share the many bargains we are offering.

## Sale Will Open Thursday, February 4th, 1909

Remember we are forced to unload, not a few baits thrown out to catch the public, everything in the store is marked in plain figures, prices plainly shown. Country merchants, take advantage of this sale, as you can buy goods cheaper from us than from any jobber. Let nothing keep you away. The hour is set, the date you know. The greatest sale ever held in Roosevelt County. Beg, Borrow and Save, any way to get the money, in order to take advantage of the low prices we are offering. Everything positively as advertised. Don't forget the date. THURSDAY, FEBYUARY 4, 1909, AT 9 O'CLOCK, A. M.

REPUBLICAN IN POLITICS.

SUBSCRIPTION \$1.00 PER YEAR

TELEPHONE NO. 83.

Why Divide Roosevelt County?

A bill has been introduced in the territorial legislature to make a new county out of the north half of Roosevelt county and make Clovis the county seat, The east and west line dividing the county under the proposed bill is placed on the base line about seven miles north of Portales, and they propose to add to the new county one tier of congressional townships from the southern part of Quay county. The why and wherefore of this bill is merely the ambition of one town, Clovis, to become a county seat. This county under its present area and taxable valuation has had hard enough time to maintain and keep up the expense of a county organization. At every regular session of the county commissioners just claims against the county have had to be passed over for want of funds in the treasury. The population of this section of the country and the amount of necessary county his wonderful knowledge of expense has increased more rap-territorial conditions, and his idly than the assessable valua- love for the whole territory, tion and the tax to be derived which was proven in numberless therefrom. Of course it is a ways, as any citizen of the whole laudable ambition of our enter- Pecos Valley, for example can prising town of Clovis and a nice testify. thing to have the name of being a county seat, but is it broke rapidly, and made a trip right to sacrifice the interests of to New York in hopes that surthe property holders of both gical relief might be had, but halves of the county that the without benefit, and after his ambition of our sister town, only return he failed so rapidly that sixteen miles from Portales, to it was finally found necessary to be the great seat of a county resort to the only possible chance of pulling him through the collapse, the prospect of which, however, is not bright, or indeed of any strength.

'So in all likelihood passes the land above the land above described, before W. E. Lindsey, U. S. commissioner, at his office at Portales, N. M., on the land above described, before W. E. Lindsey, U. We believe it Among the reports of new would be well for the law- railroads to be built is one from

"At a meeting of the Elida Commercial Club, which was informal and was well attended and participated in by many farmers and citizens of the surrounding country, it was unanimously decided to send a delegation of two to Santa Fe to appear before the proper legislative committee and oppose the present proposed division of Roosevelt county. Charles E. Hall and Henry Rankin were elected as a committee, and as the News goes to press it is reported that the necessary finances have been raised. The meeting present proposed division of have been raised. The meeting was well attended and was a N. George F. Hopkins, Pete MaDaniel, both very enthusiastic one. Several

Portales Times speeches were made that contained pure, cold blooded business propositions affecting the entire county, and this action upon the part of the citizens of this part of Roosevelt county is taken after much deliberation and thought upon the subject."

#### Max Frost Breaks Down.

Col. Max Frost, editor of the Santa Fe New Mexican on account of seriously failing health has vacated the chair as editor which he has held for more than twenty years. The New Mexican Printing company have elected Paul A. F. Walter of Santa Fe to the position as editor of this influential paper. Of the retiring of Col. Frost, the Roswell Register-Tribune says:

"Last Monday was a sad day for New Mexico for on that day Col. Max Frost, for more than twenty years editor of the New Mexican, was taken to a sanitarium near Kansas City, for treatment, suffering from a complete nervous, physical and mental breakdown. This in itself is bad enough, but there is more, for the physicians say that it is scarcely possible that he will ever return.

"Col. Frost suffered a paralytic stroke a number of years ago, which made him blind and crippled his body, but did not impair his mind, and for years, with such a handicap, he has worked incessantly at his desk every day, losing not a grasp of

#### Drug and Prescription Department.

Our Drug and Prescription Department is better equipped than any between Amarillo and Roswell. The Prescription Case is in a large, high ceilinged, thoroughly well lighted room, thus lessening the chances for mistakes which so often occur in those small dark rooms comused for the compounding of medicines. This department is conducted by two registered and licensed pharmacists, who have had a large experience in the compounding of prescriptions and recipes. Are they handling your business? They should be.

Undertaking and Embalming Being a graduated embalmer, I am prepared to render you services difficult, if not impossible, to secure elsewhere. We carry everything in the line of undertaking. Calls answered promptly, day or night. Office 'phone, 67 two rings; residence, 67 three rings.

greater part is what is generally ment of plant roots. land which has been cultivated. Crops planted on sod land do not land so treated was as dry if have a supply of moisture stored in the soil to draw on, so must broken sod. depend on the moisture that falls during their growing season. For this reason crops on sod land are uncertain, and one should not be discouraged when the yields are poor.

There are so many methods of treating sod land that it is difficult to say which is the best, especially as so much depends on the teams and machinery at the disposal of the farmer. The subject may be roughly divided under two heads, early breaking and late breaking.

Under the head of early breaking will be classed all breaking that is done several months before the ground is to be planted. The best time for early breaking s during the summer as the grass and other vegetation will e full of moisture, and this, with the combined influence of he heat and moisture in the oil, will cause the sod to rot most rapidly. The loosening of the soil at this time, will also llow the rain to soak into the oil instead of running off. The oosened surface, provided that t is properly fined, will act as a mulch and retain the moisture. This early loosening of the soil and the rapid decay of the vegetable matter favor changes in the soil which increases its fertility.

When land is broken early, it safe to plow deeper than when it is broken late, because the soil will have time to settle irmly back against the bottom of the furrow and to establish capillary connection with the lower part of the soil, before the time of planting. In the farmer need the farmer need the first the fi

marked difference in the productiveness of the upper and lower layers in the soils of New Mexico. There are practically no subsoils in New Mexico, using the term subsoil in the sense that it generally applied to it in the humid regions. Plow as Prof. J. D. Tinsley, of the New deeply as possible. Twelve exico experiment station at inches would not be too deep on esilla Park, has commenced tight land if it could be done. urnishing the newspapers of Six to eight inches is as shallow he territory a series of articles as it should be done to call it

Deep breaking is one of the secrets of success in dry farming. It opens up a volume of soil suf-There yet remains in New ficiently thick to catch and hold Mexico a large area of virgin the heavy showers, and also soil to be broken, and of this the provides room for the develop-

called sod land although much It is very important that the of it bears at most a very light land be thoroughly turned, and sod. For many years to come the sod thrown to the bottom of there will be a large amount of the furrow. When the land is this virgin land to be broken plowed, the surface should be this virgin land to be broken each year, and for this reason the handling of sod land is a worked down as fine as for a seed hed but the larger clods.

The best of the stresses of the stress matter of much importance. For seed bed, but the larger clods centuries the sod land in New should be broken up. If the Mexico has been beaten and surface were made too fine the compacted by dashing rains, and land would crust, and almost for many years has been tramped might not be sufficiently uneven by cattle, sheep, and horses with to catch drifting snows. The the result that the surface has partial fining of the surface been packed so firmly that it should be done at once, the best is now almost water proof, as rule is to work down what has is shown by the large amount been plowed in the morning beof water running off after the fore going to dinner, and the rains. This compact surface is afternoon plowing before going also very favorable to evapora- to supper. Never turn land and tion, so that the land rapidly leave it rough to be fined when loses the little moisture that it breaking has been finished or to absorbs, Because the water be weathered as in the humid penetrates slowly, and evapo- regions. Observations for the rates quickly, sod land usually past three winters on land contains much less moisture than broken and left rough have shown quite conclusively that not drier in the spring than un-

> broken sod.
>
> In early deep breaking, the subsurface packer may be run after the plow but the soil would probably settle without it and its use is not so essential as in the case of late breaking.
>
> The disk is probably the best tool for the partial fining as it tool for the partial fining as it not only cuts up the clods but also packs the soil considerably. If a disk is not available, the ground should be gone over with a spike toothed drag harrow or with some form of drag. The land may be allowed to stand in this condition until spring, and then worked to a seed bed. The method of early deep breaking that has been described requires heavy teams and considerable labor but it will pay.

Where deep breaking is impossible the sod may be turned three inches or more, and allowed to lie over winter. This will be better than not breaking at all, provided the sod is turned flat. Where for any reason it is impossible to break the land early, much good may be accomplished by discing the sod, especially if it be double disced with the discs set to lap one-half. In many cases this double discing will do about as much good as shallow breaking. It partly opens up the surface to let in water, and produces a partial
