Drug and Prescription Department.

Our Drug and Prescription Department is better equipped than any between Amarillo and Roswell. The Prescription Case is in a large, high ceilinged, thoroughly well lighted room, thus lessening the chances for mistakes which so often occur in those small dark rooms comused for the compounding of medicines. This department is conducted by two registered and licensed pharmacists, who have had a large experience in the compounding of prescriptions and recipes. Are they handling your business? They should be.

The reported insurrection of a band of Indians in Oklahoma, headed by the old chief, "Crazy Snake, " sends our minds back to the days when there was a wild and wooly west in this country, and seems crazy indeed in this period of civilization. While there may have been considerable ex-citement, caused mainly by some renegade outlaws, making some renegade outlaws, making some provocation for calling out the militia, matters will all settle down and be as peaceful as ever in a few days.

Judge W. H. Pope, in a decision this week, sustained the town board of Portales in its action banishing the saloon from the prosperous Roosevelt county seat. Portales, therefore, takes its place with Aztec and Artesia and a few other towns having eliminated the grogshop alto-gether and that without a local option law. Evidently, where the people really are desirous of cleaning their municipality, the law will afford them ample facil-ity. - New Mexican. Notice for Fublication. Department of the Interior. WERE NO MATCH FOR EAGLE

Trie of Vultures Completely Routed in Conflict with Monarch of the Air.

From the Rockies comes a stor about three vultures that attacked an cagle in his nest on a mountainpeak. Although attacked from three points, the king of birds gallantly held his own and slew two of the vultures.

The manner in which the eagle did this was peculiar. Singling out one of the attacking birds, he grasped it tightly by the neck, burying his talons deeply in the flesh, and then, rising almost perpendicularly Arizona and California, March 1 for about a hundred feet, allowed his to April 30, inclusive, very low prisoner, then pretty well choked, to rates. For further particulars drep on the rocks below in a stunned apply to condition.

Two falls served to kill the first victim, but three were required to knock out the second.

The survivor, seeing the fate of his companions; turned tail and flew down the mountain side, uttering shrill cries as it flew.

GIRL'S TOBACCO CROP.

An example of thrift and independence comes from the Knob section, says the Franklin (Ky.) Favorite. The three young daughters of Samuel H. Ragland, a prosperous and well-to-do land owner of that section, conceived the idea of earning pin money for themselves, and accordingly secured permission from their father to raise a tobacco crop of their own. With the exception of breaking

the land the three young ladies, Misses Elma, Idell and Annie Ragland, raised the crop entirely unaided. They accomplished the work solely from a wish to be independent and self-sustaining.

BALD HEADS.

"If you care to observe the baldheaded row," remarked the theatergeer, "you will find that there is great variety in bald heads. There are elliptical bald spots, circular bald spots, elongated egg-shaped bald spots, bald spots that are almost square and bald spots whose shape can hardly be described for the reason that they include the entire circomference of the head with the exception, perhaps, of a slight row of finishing fringe between the head and the neck. If it wasn't for the bald heads the theater would be a bore before the rising of the curtain."
