SUBSCRIPTION SLOO PER YEAR.

#### TELEPHONE NO. 63.

We are now fairly launched on the irrigation proposition and we must make it a success. To make it a success we must make the payments in the first place, though it will take a sacrifice. We must exert every energy at our command to do this because it means so much. When once started conditions will change and the man who owns irrigated land will be on easy street.

Territorial Superintendent J.E. Clark has recently made an apportionment of territorial school funds to the respective counties based on the school census of 1909. The total famount apportioned is \$27,558.72, mostly derived from leasing the public school lands. The completed returns for the 1909 census is 98,424 of school age and the apportionment is made on a basis of 28 cents | per, capita. Roosevelt county reported 4,483 persons of school age and received in this -apportionment \$1,255.24.

We owe it to the community in which we live to do everything we can in every way possible that will be to its advantage. Our neighbor's prosperity means a great deal more to us than someones who lives elsewhere. We should bear this in mind in buying our goods. We can afford to pay our home man a firm price for his wares rather than send our money away, knowing as we do that every dollar our own citizen makes will help in sustaining our schools, in Po

ers get their irrigation project in running order, we believe they will deserve the plaudits of the nation in general for having accomplished so great an undertaking, considering our means. Here we are, reported to be half starved dry farmers, still we are arranging for a two or three

When the PortalesValley farm-

hundred thousand dollar irrigation plant and we will make it make the money to pay for itself. Many of the farmers will have to exhaust almost their last resources to make the first payment, and in doing so they have the absolute certainty of everything to gain, yet they deserve great credit for enterprise and push, being home builders in the broadest and truest sense. Hats off to Portales Valley irrigators.

churches, and other public institutions. It pays richly to patronize home industry.

This is the Lime of year to think about protecting your trees from the ravages of rabbits during the winter. A little carelessness and neglect in this line may mean' peculiarly aggravating loss. The New Mexico experiment station has lately issued a timely bulletin on this subject a timely bulletin on this subject reccommending two efficient methods of preventing rabbits methods of preventing rabbits from girdling fruit or shade trees. One is to paint the trees with a lime wash made rather thick, to which one half pound of arsenate of lead has been added to each pail full of the wash. The other is to wrap the trees with old newspapers or

sleep, but get up and, work for inga pleasant, and you will be worth more in the market. If you are doing reasonably well advise your friends to come and invest near you. Work steadily for your home dealers. Keep your money at home as much as ponsible, and it is likely to help you in return. The successful towns have been made by the property owners pulling together. Public improvement is an invest-ment that pays. Don't waste ment that pays. Don't waste your time over dirty quarrels and hold hack your aid from good hold back your, aid from good objects through spite, but work for some good and you will find yourself benefitted.
