A Happy and Prosperous New Year

The coming year, 1910, will see the most wonderful improvement in Portales and surrounding country, which will be of benefit to all of our people as well as the business interests. Each and every one of us will feel the benefits of the snow and rain which has recently fallen, enabling the the farmers to break out more land to put under cultivation. More people are coming and investing in our land and, whether under dry farming or irrigation, you will see the country blossom as the rose. The result is that all of us will be happy and prosperous during the year 1910. We wish to thank one and all for your patronage during the past year and extend you an invitation to contigue the same.

One of the socialistic demands to which Uncle Sam must give in sooner or later is that for old age pensions and insurance against sickness and accident. His wealth protects the rich man against the vicissitudes of enfeebled health and old age, but the workman always lives in the uncertainty that the next day may bring him illness, accident or disabillity to earn his daily wage and it is beginning to be the recognized duty of the state as representing all, to provide measures that will relieve the workers of the dread of sickness and old age. Germany, England and other nations have thus provided for their workmen and have thus robbed socialism of one of its strongest arguments. Says the Youths' Companion:

WORD AND WORKS

New Year Greeting

We are taking advantage of this opportunity to thank our numerous friends and customers for their highly valued and liberal patronage during the year just closed and extend to one and all a hearty wish for "A Happy and Prosperous New Year." May your efforts throughout the coming year be crowned with the fullest measure of success and plenty.

The year just closed has been an eventful one for Portales and vicinity but, in all probability, the most important and far reaching in results was the action of certain of our farmers and business men in closing the contract for the big irrigation system, the construction and installation of which is now a certainty. This means great things for our farmers who have taken advantage of this opportunity and put their lands under this project, it also means great things for Portales and Roosevelt county. Our earnest hope is that, 'ere long, ever foot of shallow water land in our great valley may be put under some sort of practical and profitable irrigation.

Jur trade relations with the purchasing public during the past year have been most cordial and satisfactory, and we feel that our efforts to please and accommodate the public have been fully appreciated. It is our intention to continually build up and improve our business, keeping it, at all times adequate to any demands that may be made upon it by the intelligent and ever increasing citizenship of Roosevelt county. We cordially invite you to make our store your headquarters when you come to Portales.
