President C. V. Harris, Vice-President T. E. Meares, Cashier G. M. Williamson, Directors, C. V. Harris, T. E. Meares, G. M. Williamson.

State of New Mexico, County of Roosevelt, ss. G. M. Williamson, Cashier, and C. V. Harris, President of the Portales Bank & Trust Company, of Portales, New Mexico, a bank organized under the laws of the Territory, now State of New Mexico, upon oath duly sworn, each for himself deposes and says, that the above foregoing statements of the resources and liabilities, deposits, interest paid on deposits and dividends paid on capital stock, of the above named bank at the close of business June 20, 1917, are correct and true.

G. M. WILLIAMSON, Cashier.  
C. V. HARRIS, President.

Subscribed and sworn to before me this 28th day of June, A. D. 1917.

[SEAL] ROY SMITH, Notary Public.  
My commission expires October 28, 1920.

## W. O. W. Unveiling at Floyd

About a dozen members of the Woodmen of the World of Portales attended the unveiling of the monument of Sovereign Wm. M. Darby at Floyd last Sunday and assisted in the ceremonies. The work was well put on and very impressive, and was well attended by the friends and neighbors of the family of the deceased. The Floyd camp is a live one and deserves much credit for the progress they have made. The Portales camp has three or four monuments to unveil in the near future and the Floyd camp has promised to be present and assist in the work.

Mrs. A. L. Bryan arrived in Portales Monday, from their ranch near Anal, New Mexico, to visit several days with friends.

## Special Court This Week

Judge G. A. Richardson was up from Roswell Monday of this week and held a special session for the purpose of sentencing Everett W. Archer, convicted of forgery, and Candelario Romero, who plead guilty of assault with intent to kill, to the state penitentiary at Santa Fe. They were both sentenced to not less than twelve nor more than fourteen months and were taken to Santa Fe the following day by Sheriff Arch L. Gregg and Blake Neal.

Mr. and Mrs. Coe Howard returned Thursday morning from Mineral Wells, Texas, where they have been for the past two weeks.

Mrs. S. F. Moore returned Wednesday morning from Ft. Sumner, where she had been on a visit with her daughter, Mrs. Neely F. Baker.

Carl Berry, Lee and Glenn Langston left Tuesday morning for the harvest fields in the Panhandle of Texas where they will work during the harvest months.

J. R. Day and wife and Anderson Boone, wife and children, of Floydada, Texas, were here the first of the week visiting in the home of Mr. and Mrs. S. D. Day. They left Tuesday morning for their homes.

C. Stetson, known as the cowboy preacher, is holding a meeting at the Christian church west of the railroad. These meetings will continue until Sunday night and everyone is invited to attend and help in any way that they can.

## U. S. VETERANS NOW IN FRANCE READY TO FIGHT

### First Army from United States Arrives in Europe This Week Ready for Action

### Under Command of Pershing. A Master Move Getting These Soldiers Over Without Mishap

It was made known yesterday that American troops had landed in France the day before. Owing to the strict censorship on the details of news of military operations it is not generally known at what port they were landed, where they will be stationed before being put in the battle line, or how many have crossed the Atlantic. This is the advance guard of the great army that this government expects to have operating in France under General Pershing, who has been in that country some two or three weeks. Considering that it was not announced before May 18th that this force would be sent to France without delay, at which time these troops were on the Mexican border, it is a demonstration of the ability of our military officials to handle the war machine without delay or mishap. Everything was done secretly to baffle the Germans with their submarines, which was successfully done.

Great shipments of war supplies began to assemble at the embarkation ports. Liners suddenly were taken off their regular routes with no announcement. A great armada was made ready, supplied, equipped as transports, loaded with men and guns and sent to sea, and all with virtually no mention from the press.

The navy bears its full share in the achievement. From the time the troop ships left their docks and headed toward sea, responsibility for the lives of thousands of men rested upon the officers and crews of the fighting ships that moved beside them or swept free the sea lanes before them.

While his troops were embarking or steaming toward their destination, General Pershing and his staff, supplemented by a special corps of general staff officers, have been busy in France preparing the way for the new army that is to fling itself soon against the German lines. The camp sites have been selected, and details of the final training to be given before the move to the front begins have been worked out and the question of supply and transportation lines studied. Regiments of the national army, composed of railway workers and engineers, will aid in that work. They, too, have been created in a few weeks' time.

Mr. and Mrs. Clyde Boucher were down from Clovis Sunday visiting with relatives and friends. Clyde is now a brakeman for the Santa Fe between Vaughn and Clovis.

## Different Concerns

This is to notify the people of Portales and surrounding country that the Model Store is and has not been connected with the People's Store in any way and the management for the two concerns are different parties. Some people have had the idea that they were under the same management, which is a mistake.

D. WEHBA, Proprietor,  
The Model Store.

## Kansas Club Will Have a Basket Picnic on Merrill Lawn

Members of Kansas Club and prospective members should take notice that there will be a basket picnic on the lawn of Mr. and Mrs. W. S. Merrill, July 4th. Every member and those from Kansas who would like to be on hand with lunch baskets well filled.

George Caylor and wife and Miss Waldine Wilson, of Hereford, Texas, were visitors in Portales Thursday of this week.

## Canning Fruit Without Sugar

In these times of practiced economy some recipes for canning fruit without the use of sugar should be of interest to the housewives of this community. Fruit for use in pie or salads or as stewed fruit can be put up or canned without the use of any sugar at all, according to the canning specialists of the department of agriculture. They, therefore, advise those who, because of the high price of sugar, have been thinking of reducing the amount of fruit they put up, to can as much of their surplus as possible by the use of boiling water when sugar syrup is beyond their means. Any fruit, they say, may be successfully sterilized and retained in the back by simply adding boiling water instead of the hot syrup. The use of sugar, of course, is desirable in the canning of all kinds of fruits and makes a better and ready sweetened product. Moreover, most of the fruits when canned in water alone do not retain their natural flavor, texture and color as well as fruit put up in syrup. Fruit canned without sugar to be used for sauces or desserts must be sweetened.

Can the product the same day it is picked. Cull, stem, or seed, and clean the fruit by placing it in a strainer and pouring water over it until it is clean. Pack the product thoroughly in glass jars or tin cans until they are full—use the handle of a tablespoon, wooden ladle, or table knife for packing purposes. Pour over the fruit boiling water from a kettle, place rubbers and caps in position, partially seal if using glass jars, seal completely if using tin cans. Place the containers in a sterilizing vat such as a wash boiler with false bottom, or other receptacle improvised for the purpose. If using a hot water bath outfit, process for thirty minutes; count time after the water has reached the boiling point; the water must cover the highest jar in container. After sterilizing remove packs, seal glass jars, wrap in paper to prevent bleaching and store in a dry, cool place. If you are canning in tin cans it will improve the product to plunge the cans quickly into cold water immediately after sterilization. When using a steam pressure canner instead of the hot water bath, sterilize for 10 minutes with five pounds of steam pressure. Never allow the pressure to go over 10 pounds.

S. F. Preston, of Roswell, was in the city this week looking after his interests here. Mr. Preston owns considerable property around Portales and while here contracted for another half section, through Bascom Howard.

## At Baptist Church

Sunday school at 9:45 A. M., M. B. Jones superintendent; preaching by pastor 11:00 A. M., 8:00 P. M.—Subject: Morning, "Signs of the Times"; Night, "Danger of the Way-side Hearer."

## To the Cream Producers of Roosevelt County

The writer has had this article in mind ever since our creamery started. We all want our creamery to run and we think the best way to keep it running is to furnish it with a number one product to run on—a good quality of cream. We do not know anything about making butter nor do we want to learn, but we have had ten years of experience in dairying, and in those ten years we think we have learned something about handling milk and cream. We worked six years for a dairy company and saw their retail trade on sweet milk grow from 90 to 500 gallons a day in the six years. Now what made this enormous growth in that trade? We claim it was selling a first class stuff. They preached cleanliness all along the road from the dairy barn to the delivery wagon. Now we all want to get all out of our cream that we can so let's get busy and furnish a cream that will make a butter that will create a demand. When we do that our creamery will bid for our cream. We hold that no producer of cream should sell or offer to sell a cream that he could not make nice sweet butter out of at home. We have seen cream brought to the cream stations that if it had been churned at home it would have run the cats out of the house in three days, yet they got the same price as the man who sold a good quality of cream.

It is claimed water will cool milk or cream twenty-seven times quicker than air. That being the case it behooves every cream producer to keep his cream in water. We have found from experience that a tub filled with water and kept continuously in the shade, with wet burlap sacks covering the can, is the best way to keep our cream cool.

U. S. MARKLAND.

There will be a public sale at the farm of A. W. Stokes, one mile north of Rogers, next Monday, July 2nd, at which time he will sell all his belongings to the highest bidder. Mr. Stokes has some extra good horses and mares and anyone wanting anything in that line will do well to attend. Free lunch at 11 a.m.

## Portales the Best

The following letter from David Major to W. L. Doyal is self explanatory and indicates that the Portales Valley is not so worse as we, ourselves, might think it. We knew there was no place any better than this valley, but when a close observer like Mr. Major makes a statement of this kind you can just put it down that way. The letter follows:

"Pittsburg, Pa., June 22, 1917.  
"Dear Friend:  
"Just a line to let you know I have been called here on account of the illness of my mother. I expect to return in about thirty days or less. I find conditions worse than I expected. Crops are going to be a failure on account of the cold backward spring. Many people are on the verge of starvation already. Portales is as good a place as I have seen so far. Remember me to the folks.  
"Yours truly,  
"DAVID MAJOR."

Wister McDowell, of Wichita Falls, Texas, was in Portales the first of the week on his way to Albuquerque where he will join his company. Mr. McDowell is a member of company "M" and served with that company on the border last year.

## GREAT TIME AND MUCH BOOSTING AT CONVENTION

### Delegates from Five States Attend Ozark Trail Meeting at Amarillo Boosting for the Route

### Many Speakers State Reasons the Great Highway Should Cross Their Part of Country

The majority of the delegates and visitors which attended the Ozark Trail convention at Amarillo, Texas, this week returned home today and report a good time and a large attendance, the 1008 tents which had been put up for the convenience of the visitors, all being occupied.

Nothing definite, as yet, has been decided upon as to what route they will choose, but it is expected that the selection will be made today. Interest is at the highest pitch and the decision will find a full tent with some of the greatest demonstrations of the entire convention to follow, which will be put on by the route which secures the recognition. Each of the contending routes had their speakers present, well prepared with data showing the advantages of their respective routes. With reference to the meeting yesterday the Amarillo Daily News has the following:

"Four hours of oratory, long drawn, but so arranged that no speaker was allowed the privilege of the floor more than sixteen minutes, interspersed with loud demonstrations and marching in the big 'top' the like of which has never been seen outside of a big road convention or political meeting, made every auditor at the big 'top' at the Ozark Trail Tent City yesterday familiar with the various routes contending for official recognition and permitted them to hear the greatest orators of more than five states. At times the demonstrations became so uproarious that the gavel of the presiding officer availed little although his small table had its four legs almost smitten off."

Rev. J. H. Shepard will preach at the First Christian church next Sunday night at 7:30 o'clock. J. H. Luck will render some special music. Everyone invited.

## Be Canny

Home preparedness—cans loaded with food.  
That rubber ring you put on a preserving jar helps you to stretch your income.  
Can't eat 'em all in summer? Not enough in winter? Home canning is the answer.  
You put a lid on waste every time you seal a preserving jar.  
Canned berries are bird proof. Frost doesn't nip canned vegetables.  
Canned green peas and yellow peaches help fight the blues.  
See that your garden produces dry beans, cabbage, potatoes and root crops that can be kept without canning.  
R. B. Rogers, of Tolar, was a business visitor in Portales Monday of this week.

C. R. Sexton and wife were up from Elida Tuesday shopping and attending business matters.

O. W. Miller, J. D. Duncan and Mrs. J. C. Berry and son, Herbert, of Melrose, were in Portales Tuesday of this week shopping and attending to other business.

## State Bank Report

Report of the condition of  
**THE SECURITY STATE BANK**  
of Portales, New Mexico, at the close  
of business June 20, 1917.

RESOURCES	
Loans and discounts	\$49,117.85
Secured by real estate (including mortgages owned)	\$ 600.00
Secured by collateral other than real estate	41,267.35

[SEAL] W. H. REALEY, Notary Public.  
My commission expires January 2, 1919.

## Board of Education Meets

The Roosevelt County Board of Education met last week and was in session for several days. Those present were: Sam J. Stinnett, chairman; John W. Russell, Earl J. Stratton, F. G. Forrest and Mrs. G. L. Reese, members. A number of school questions were taken up and adjusted but the most important of them all was the establishing of four rural High schools in the county, with Emzy, Inez, Richland and Upton as centers of their respective districts. The board worked faithfully and adjusted the business to the best of their judgment for the best interests of all concerned and they hope there will be no ill feelings derived therefrom. They will meet again at the call of the chairman which will be some time in July.

## Auto Accident

Wednesday, while at Amarillo at the Ozark Trail convention, Amos Brewer and J. F. McDonald were in an auto wreck when the former's racing Ford collided, head-on, with another car driven by Lewis Riley, of Tulia, Texas. The cars were on the road between town and the speedway. The Tulia man suffered internal injuries and a broken leg, while Messrs. Brewer, McDonald and Ira Smith, mechanic for Riley, were only slightly injured.

L. E. Davies, one of the live wires of Taiban, was a visitor in the city Monday and Tuesday.

Miss Sue Henderson, day operator at the telephone office, left Wednesday morning for a few days' visit with relatives at Amarillo.

N. A. Ferguson, an old timer of Portales, but now of Cordell, Oklahoma, was in Portales Wednesday shaking hands with friends. Nerus is now in the dry goods business for himself at Cordell.

S. E. Moore, the town photographer, left Wednesday morning for Milwaukee, Wisconsin, to attend the World's Photographic school, and expects to be back about August 1st. This school makes a specialty of negative making and Mr. Moore will be better prepared than ever to serve his already good trade here.

# RAISE Broom Corn

The first demand when the United States declared war on Germany was money for the Allies. The best money crop for the farmers of Eastern New Mexico to raise is Broom Corn. Early delivery, ready cash, the only sure crop to make; it brings home the money when other crops fail. The Broom Corn crop can be harvested earlier than any other and the fodder makes good roughness for feed in addition to the brush value, which answers the purpose for feed and money crop. The same land can be planted in Wheat earlier than other crops; earlier planting of Wheat is the only method of any assurance of Wheat in this district. x x x

Year 1916 the Broom Corn crop was short and light tonnage. Year 1917 demands a large tonnage to supply the demand at good prices. x x x

Portales, New Mexico

### Portales Astonished By Merchant's Story

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. One spoonful buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, relieved me instantly." Because Adler-i-ka flushes the entire alimentary tract it relieves any case constipation, sour stomach or gas and prevents appendicitis. It has quickest action of anything we ever sold. Portales Drug Store.

**Cost of Keeping Chickens.**  
 The actual economy secured by the keeping of a small flock of chickens depends primarily upon their egg production, and this in turn is largely a matter of care. Under favorable conditions, however, it is estimated that 150 eggs the first year and 120 the second is a fair return from the ordinary hen. On the other hand, at least 25 to 50 cents a year must be expended for grain and other feeds, the exact amount depending upon the quantity of table scraps and green and insect food available. Where all the feed must be purchased from \$1 to \$1.25 is allowed.—United States Department of Agriculture.

### Home Cookery

**A Novel Fruit Salad.**  
 Mix together one cupful of large strawberries cut in halves, two sliced bananas, two slices of chopped pineapple and the yellow pulp from one large sweet orange. Let the fruit stand in a cold place covered for half an hour, then drain. Place two heaping tablespoonfuls of the fruit mixture in each nest of crisp lettuce leaves. Pour over a whipped cream dressing that has been flavored and blended with the drained fruit juices and serve immediately.

#### Pimento Butter.

This is such an excellent relish to use with broiled fish and also as a sandwich filling that it is sure to prove a popular favorite. Use the canned pimentos (drained), chop finely and then mash to a pulp with a spoon. Beat a quarter of a cupful of butter to a cream, add sufficient of the pimento pulp to flavor to taste, a pinch of celery salt, a tablespoonful of lemon juice and one heaping tablespoonful of chopped parsley. Mix well before using.

#### Southern Egg Dish.

Heat an earthen dish over a moderate fire and drop in a piece of butter. Season with an onion minced fine, a little red pepper and a small saltspoonful of fine salt. Break six eggs very carefully into the dish and cook until the whites set. Turn carefully, cook until done and serve hot from the dish in which they were cooked.

#### Lima Bean and Celery Salad.

Take two cupfuls of cold boiled lima beans, a cupful of chopped celery and four hard boiled eggs, also chopped. Toss in mayonnaise, add the juice of an onion and lay up the salad on white lettuce leaves. Garnish with strips of red pepper.

### Method of Preserving Eggs in Water Glass

When the hens are producing eggs faster than they can be used on the home table, or if a neighbor has an oversupply of eggs, it is time to put them away against the egg shortage of fall and winter, according to the Kansas College of Agriculture, which tells how to do it:

Eggs must be fresh and preferably infertile. The shells must be clean and free from cracks. A single cracked egg may cause the whole batch to spoil. Get water glass solution from the drug store, dilute with nine parts of cool boiled water and place eggs in small crocks containing the water glass. The solution should cover the eggs to a depth of two inches above the topmost layer of eggs. Cover the crock and place in a cool place where it will not have to be moved about. Replace the water which evaporates with cool boiled water occasionally.

Lime water may be used in place of water glass. Make the solution with three pounds of unslaked lime in five gallons of cool boiled water and use the clear liquid after the lime settles. Containers for eggs must be clean and should be scalded with hot water after washing.

Eggs preserved in water glass or lime water should be rinsed in clean cold water and used immediately after taking them from the solution. They can be used for soft boiling up to November, frying until December and after that, until March, for omelets, scrambled and in cooking.

#### Turkeys on the Farm.

A more profitable side line than turkeys for the farmer can hardly be found for those situated on grain or stock farms, according to F. S. Jacoby, professor of poultry husbandry at the Ohio State University. Improper feeding, combined with close confinement, has been the cause of many failures in turkey raising. Given free range on the average farm, the poult is generally pick up their own living. One light feed per day for the purpose of inducing them to come in at night is sufficient.

#### Hens on Range.

The hens out on range must be looked after. They are apt to hide their nests in some out of the way place, and in consequence many eggs are lost or never found until they have lost their value. Beware of the hidden nest, and above all things never market an egg that has been found outdoors; let the cook in your own kitchen test its quality.

#### Origin of the Jury System.

A jury is a body of laymen summoned and sworn to ascertain the truth as to facts raised in legal proceedings. The jury system of the United States developed from that of England. This in turn had its origin in Frankish law, which was translated into English by Norman kings. In these inquiries a body of neighbors was summoned by a public officer to give an sworn opinion on some question of fact or law or of mixed fact and law. In the beginning the object of the inquiry was usually to obtain information for the king to ascertain facts needed for assessing taxes.

#### Couldn't Stand Defeat.

Dr. Greuffell tells an amusing story of the introduction of football in Labrador, when defeat was considered so unendurable a mortification that it had to be mutually agreed beforehand that neither side should win. "We saw," he says, "the unusual spectacle of the side that had been scored against solemnly allowed to walk across the field and kick a goal to save them the feeling of being beaten."

### What Women Like to Know

and girdle are hand embroidered in colors. The box plaited skirt is ornamented with self covered buttons. Design by Franklin Simon & Co., New York City.

### Use Whole Wheat Flours For Home Breadmaking

The use of flours which contain more or less bran is sometimes advisable both for the sake of the variety which they give to the diet and because of the mineral substances and growth regulating substances these flours contain. Farmers' bulletin 807 of the United States department of agriculture, "Bread and Breadmaking," includes, in addition to white bread recipes, a number for homemade bread from whole wheat or graham flour, from home ground flour, from rye, rolled oats, etc. Two of these follow:

**Whole Wheat or Graham Bread.**—One and one-half cupfuls of lukewarm milk, three tablespoonfuls of brown sugar, one and one-quarter teaspoonfuls of salt, three cupfuls of whole wheat or graham flour, one-half of a yeast cake. Scald the milk, together with the sugar and salt. When lukewarm add the yeast, mixing it first with a little of the milk. Add the flour, beat well and let it double its volume. Beat it thoroughly, put into a pan and let it rise. In a pan of standard size it should come nearly to the top.

**Home Ground Wheat Bread.**—One and one-quarter cupfuls of water or skim milk, one and one-quarter teaspoonfuls of salt, one tablespoonful of sugar, three cupfuls of home ground wheat flour, one-half cake of dry yeast or one gill of liquid yeast. Set a sponge at night, using half of the flour. In the morning add the rest of the flour, beat well, put into a greased pan, allow it to rise until it doubles its bulk, and bake.

### Agri-graphs

For speeding up agricultural production the cheapest and quickest agency is lime.

The demand for pork is in excess of the supply. Consider the pig for quick meat production.

Keep stock off the pasture until the grass has had a chance to get a good start. It will be better for grass and for stock.

Save all your glass jars and wide mouthed bottles for canning and preserving this year. Glassware is going to be scarce and expensive.

The next two months will tell in large measure the final story as to crop production. There is no need to wait for a chance to enlist in the forces of the farm.

### Mother's Doll Story

A Baby Doll

May was just three years old on the last day of May. That's how she got her name.

Her papa was rich. So May always had to wear nice clean dresses with lace and ribbons on them and big pink bows in her hair. She never could seem to manage it to go out and dig in the garden the way some little girls do, little girls who wear blue socks and nice blue gingham gowns with big pockets on them.

But if May never could get into the garden to dig she had one big comfort. This was a lovely little doll baby that everybody who knew her used to say looked just like May herself when she was a tiny baby.

This baby doll had a beautiful carriage to ride around in. And, just like May, she always wore fine white dresses. Of course, baby dresses are very long and have lots of lace around the bottom. And she always wore a French cap of white lace and pink rosebuds.

So around and around the big piazza May used to wheel her doll baby in a beautiful carriage. But deep down in her heart she always wanted to wheel her baby right out into the garden and tip her over into the verberna bed. But this would have soiled her lovely dress.

#### Camp Fire Girls.

Home enlistment is now the slogan of the campfire girls in the United States. They are putting to use the knowledge of household work which the government requires them to acquire and relieving their sisters of home duties so that the women can take men's jobs while the latter are at the front.

Next winter that awful question, "What shall I have for dinner?" will be easily answered if your shelves are filled with home canned products this summer.

With better than \$3,000,000,000 raised by the Liberty Loan for war purposes and over \$100,000,000 for the Red Cross fund, the Kaiser should sit up and take notice.

New York has taken about one-half of the liberty loan bonds. Ten years from now the demagogues will be abusing the New Yorkers as "bloated bondholders."—Albuquerque Morning Journal.

The Allies will not drop bombs upon unfortified towns and innocent inhabitants, in spite of the German airship raids upon English towns. English speaking people continue to be human even when engaged in war.

If you are going to do any home canning or preserving this summer or fall, as every household should, get your cans and jars now, for these things may be impossible to get later on.

Now that the upboasters have worn out their welcome by telling the farmers just how much croppage to put in this season they can whipsaw the bunk and tell us how to conserve the moisture so as to keep the unfed millions from overeating next winter.—Field and Farm.

Some delay, but now with money by the billions for war expenses besides many millions for the Red Cross service and fighting ships in Irish waters ready for action and trained troops on French soil waiting for the order to fight, when Uncle Sam cuts loose it will be a hard day for militarism and the divine rights of rulers.

A. A. Rogers and others are interesting themselves in collecting jelly, preserves and other appetizing home produced edibles for company M, having learned that the boys are not supplied by the government with any of these delicacies, being furnished only staple food. To show due appreciation to these boys for what they are doing for us in volunteering and undergoing the hardships in the army service, we say send them anything you can spare in this line, for it will be appreciated more than it could possibly be worth in actual money. Even if the boys were receiving ample food of all kinds they would relish any delicacies from home. Anything that you might care to give the boys just paste your name on same and deliver to A. Rogers' office and he will forward it to them.

The communication we print this week from David Major is another reminder of two things—first, the fact that our nation is facing a shortage in nearly all crops at a time when bumper crops are most needed; and second, that New Mexico can still produce good crops after getting a late start on account of cold spring, which caused almost a complete failure in some places. Keep your enthusiasm up and don't become discouraged if conditions are adverse, for that is more reason you should put forth an extra effort to produce the more. Here in New Mexico, where the season is usually late, if we get a good season in April and have an early spring we can raise good early crops; if not we can plant when the season comes, any time between then and August and produce crops that will be a pleasant surprise to anyone. Last year, which was one of the worst ever known, there was hardly a season in the ground until the first of September and still much feed was produced, in fact, more than enough to supply this part of the state. Back in the north and east if they have no spring weather, as it was this year, and they fail to get the crops started at the proper time those crops are a failure. This shortage of crops will mean that we can not produce too much and what we will produce will bring a fine profit to the producers, so keep planting beans and turning water on your little garden spot.

## Commissioners Proceedings

Monday June 4th, 1917.

Proceedings of the Board of County Commissioners, of Roosevelt County, at a stated meeting held in the Court house in Portales, New Mexico, Monday June 4th, 1917. Present J. S. Pearce, Chairman; Ed L. Wall, Commissioner District 2; Seth A. Morrison, Clerk. After having convened as a board of County Commissioners the board then went into executive session as a Board of Equalization and continued as such until June 6th, 1917. It is ordered that Court adjourn until June 7th, 1917.

THURSDAY, JUNE 7th, 1917.

Court convened pursuant to adjournment of the 6th inst, present J. S. Pearce, chairman, Ed. L. Wall and John G. Tyson, commissioners, and Seth A. Morrison, clerk.

The board convened as a board of county commissioners, an estimate having been made by the County Highway superintendent of funds necessary for road work for the month of June, 1917, it is ordered by the board that a warrant in the amount of one thousand dollars be drawn in favor of D. W. Jones, county highway superintendent, to be disbursed by him in construction and maintenance of highways in Roosevelt county.

It is the order of the board that the Portales Valley News be, and is hereby authorized to print the delinquent tax list for the year 1915, and shall receive therefor the sum of fourteen cents per line for entire publication of four consecutive issues.

Application of the Security State Bank of Portales, New Mexico, to be designated as one of the depositories of public moneys for Roosevelt county received and it is the order of the board that said bank be and it is hereby declared one of the public depositories for the funds of Roosevelt county, upon its filing a good and sufficient surety bond in the sum of ten thousand (\$10,000.00) dollars.

It is ordered by the board that John W. Ballow, county treasurer, be instructed and he is hereby authorized to transfer immediately his balance as such treasurer, now in the Bank of Commerce, at Taiban, New Mexico, to the Security State Bank, at Portales, New Mexico.

Bond of Security State Bank as a depository for public moneys of Roosevelt county, received and approved as to form and sufficiency of sureties.

D. W. Jones, county highway superintendent, is authorized to order the following iron culverts:  
Ten 18-inch, 16 gauge, 24 foot, at \$1.75.

Ten 24-inch, 16 gauge, 24 foot, at \$2.35 f. o. b. Portales.

Also authorized to order dump wagon to be used on public highways.

It is the order of the board that the county highway superintendent shall advertise in four consecutive issues of some newspaper published in Roosevelt county, state of New Mexico, for sealed bids for the maintenance, repairs, improvement and construction of the county roads of said county, to December 31st, 1917, according to plans and specifications prepared by and on file in the county highway superintendent's office, at the courthouse at Portales. All bids shall be subject to the approval of the county commissioners, who reserve the right to reject any and all bids.

The following claims were received, examined and approved and the clerk instructed to draw warrants in payment of same:

J. E. Morrison, commission on tax collected for 1911 and prior years.....	\$ 11.07
Burl Johnson, office expense and transcribing records at Roswell pertaining to assessor's office.....	138.30
B. W. Smith, road work.....	190.00
L. C. Spire, road work.....	37.80

Bob Moore, road work.....	\$ 7.50
J. E. Morrison, commission on taxes collected, 1911 and prior years.....	20.62
D. W. Jones, county highway superintendent, estimate for June, 1917.....	1000.00
Sam J. Stinnett, office and traveling expenses.....	79.30

The board now went into executive session as a board of equalization and remained as such until June 9th, 1917.

SATURDAY, JUNE 9, 1917.

The board arose as a board of equalization and sat as a board of county commissioners.

The following claims were received, examined and approved, and the clerk is instructed to draw warrants in payment of same.

S. H. Harris, road work.....	\$ 4.00
Percifull & Rocky, blacksmithing on road tools.....	6.00
N. F. Wollard, medical services rendered prisoners.....	9.00
Ed J. Neer, supplies for jail and prisoners.....	6.25
C. W. Stone, care of indigent.....	26.55
Worrell Mfg. Co., disinfectant and supplies.....	177.50
M. S. Servis, road roller.....	25.00
C. L. Carter, five county maps revised.....	5.00

Bond of David W. Jones, as county highway superintendent received and approved.

It is the order of the board that John S. Pearce, chairman, be and he is hereby authorized to pay telephone bills for court house and jail on the first of each month and the clerk is instructed to issue warrants for said bills as approved by chairman.

Application of Mrs. Maude Smith for the transcribing of the records of Chaves county affecting property in that portion of territory annexed to Roosevelt county from Chaves county, received, and her proposition to make said transcript for nine (9) cents per hundred words is accepted, and she is hereby authorized to prepare said transcript as early as books can be secured.

The board now rose as a board of county commissioners and sat as a board of equalization.

It is now ordered that the board of equalization now recess until Monday, June 11, 1917, at which time the schedules for property, lately annexed to Roosevelt county from Chaves county, will be taken up.

MONDAY, JUNE 11, 1917.

Court convened pursuant to recess of Saturday, June 9, 1917. Present, J. S. Pearce, chairman; Ed L. Wall and John G. Tyson, commissioners, and Seth A. Morrison, Clerk.

The board remained in session as a board of equalization until Thursday, June 14th, 1917. The board now rose as a board of equalization and sat as a board of county commissioners. No further business appearing, it is ordered that the board adjourn until the next regular meeting unless sooner convened by order of the chairman.

J. S. PEARCE, Chairman.

Attest:-

SETH A. MORRISON, Clerk.

### Transplanting Palm Trees.

It is almost impossible for even a lettuce slip to be removed from the spot where it has taken root without a consequent drooping and period of suspended growth. But nowadays great palm trees are uprooted and carried hundreds of miles from their native soil and climate with scarcely a wilted leaf.

The secret of the success of transplanting such trees lies in the preliminary work. This is begun fully six months before the time for the moving of the tree. First the roots are dug around and carefully cut, and the plant is side boxed. Three inches are allowed between the balls of roots and the boxing. This space is next filled with earth, which is well tamped down. Thus the tree is made to stand in the box in which it is to be moved, without lifting it from the earth. Here it remains during the six months of preparation. It is thoroughly mulched and given the best of care, so as to induce a plentiful side growth of roots. At the end of the six months it may be lifted and shipped. It will show no signs of fatigue at the end of its journey, however far it may travel.—Popular Science Monthly.

Take a good book slowly. You see much finer country in a mover's wagon than you do from a car window.

**VALUE OF THE PORPOISE.**

Oil From Its Jaw Keeps Clocks and  
Watches Running Smoothly.

In this hastening age of ours, when  
even seconds count in business life, it  
may sound paradoxical to say that we  
owe our punctuality and time saving to  
the playful porpoise. And yet such,  
indeed, is the fact, for watches, clocks  
and the still more dignified chronometer  
would not run month in and month out  
with regularity but for the lubricant  
obtained from its jaws. This oil has  
the unique property of being able to  
retain its fluidity summer and winter,  
and there is an authentic record of the  
lubricant doing its work at a tempera-  
ture of quite 100 degrees below the  
freezing point.

A variety of other oils have been  
tried for the same service, but all of  
them have proved far less reliable. In  
a watch or chronometer the oil must  
stay where put—it must not "creep"  
over the mechanism and thus steal  
away from its proper post of duty.

Therefore, it ought not to run away in  
the presence of considerable heat. Nel-  
ther should the oil oxidize, evaporate  
or grow rancid. These exacting re-  
quirements are met in their entirety  
only by porpoise jaw oil, and it is no  
wonder that the stuff when refined sells  
wholesale in the neighborhood of \$25 a  
gallon. There are many other mechani-  
sms that are best cared for by using  
porpoise jaw oil, such, for instance, as  
talking machines, delicate recording ap-  
paratus, etc.—Scientific American.

**A String to Them.**  
Mrs. Flatbush—What became of that  
string of pearls your husband was go-  
ing to give you? Mrs. Bensonhurst—  
Oh, he had hold of the string.—Yonkers  
Statesman.

**Her Own Idea.**  
"His wife is a woman of one idea."  
"That so?"  
"Yes; whenever he starts to do any-  
thing she has the idea that he's doing  
it wrong."

**Housework Is a Burden**

Woman's lot is a weary one at  
best. But with backache and  
other distressing kidney ills life  
indeed becomes a burden. Doan's  
Kidney Pills have made life  
brighter for many Portales wo-  
men. Read what Mrs. McKin-  
ney says.

Mrs. J. F. McKinney, Portales  
says: "Bad drinking water  
caused my kidneys to go back on  
me. I hope I never get  
another such attack. My  
back ached nearly every minute  
of the day, making my house-  
work a burden, especially any  
washing or ironing. My kidneys  
were in bad shape, also. I often  
had dizzy spells when I could  
hardly go. I felt run down and  
miserable. Doan's Kidney Pills  
were always so highly spoken of  
that I tried them. I felt much  
better after taking the first few  
doses, and before long this me-  
dicine cured me of every symptom  
of kidney trouble."

Price 50c, at all dealers.  
Don't simply ask for a kidney  
remedy—get Doan's Kidney  
Pills—the same that Mrs. Mc-  
Kinney had. Foster-Milburn Co.  
Props., Buffalo, N. Y.

**Could See His Finish**

A horse cut in a field one day  
Full of two-dollar corn and expensive  
hay  
Saw something that made his breath  
come short  
While he cavorted with a plunge and a  
snort.

"I've seen all kinds of bugs said he  
But this here thing looks different to  
me  
Derned if I ever saw such a Roach  
With wheels for legs and seats like a  
coach."

He scratched his head and flipped his  
ears  
While the strange insect kept coming  
near  
Making a noise a worried Flivver  
While Mr. Horse had an nervous shiver.

The Bug came close—he could see it  
now  
He saw it was pulling along a plow  
And the plow was diggin' and diggin'  
deep  
'Twas a sight to make the Angels  
weep.

For here was a job that belonged to a  
horse  
And the poor old plug was worried of  
course  
Years had passed since he'd worked  
with a carriage  
And even now he slept in a garage.

And now he saw the end of it all  
He was losing even the right to a stall  
There was nothing left if he couldn't  
plow  
So to gasoline he made his bow.

The bug he saw was a Smith Form-a-  
Tractor.  
Among up-to-date farmers a mighty  
big factor,  
And the horse was right when he said  
to himself  
"I see my finish—I'm laid on the shelf."

Ameen El Kouri, a wholesale  
drygoods dealer of Sherman,  
Texas, arrived Wednesday morn-  
ing for a few days' visit with D.

**Save Bottles to Use  
In Putting Up Fruits**

The home canning specialists of the  
United States department of agricul-  
ture urge every housekeeper to save  
bottles, especially wide necked ones,  
for putting up fruits, preserves, jellies,  
jams and fruit juices. Saving of bot-  
tles is highly important, they say, as  
there threatens to be a serious short-  
age of regular jars and preserving cans  
this season.

The fruit products named, if sealed  
with corks and paraffin, can be kept  
perfectly in these makeshift contain-  
ers. Jellies, jams and preserves can  
be kept even in ordinary drinking  
glasses by the use of paper and paraf-  
fin. Fruit juices should be packed in  
ordinary small necked bottles.

Vegetables, soups and meats, on the  
other hand, to keep must be sealed by  
the usual fruit jar or tin can packing  
methods. Reserve regular containers  
for foods that cannot be packed in bot-  
tles.

The specialists are also urging all  
members of canning clubs and others  
not only to can products, but to dry  
and evaporate all such products as ap-  
ples, pumpkin and squash. They ad-  
vise strongly that if containers are  
scarce locally those in stock should be  
used to preserve perishable products  
which have the highest nutritive value.  
Nothing should be packed in jars or  
cans which can be conserved effective-  
ly in other ways.

If you have half an hour to spare  
don't go and spend it with a man who  
hasn't.—Sidney Lewis.

**The Nation's Needs First**

The illustration shows a military officer hurrying to the telephone for impor-  
tant military business and a civilian cheerfully according him the right of way.  
This typifies the attitude of the nation and it also typifies the attitude of the  
Bell System.

The nation is at war and it is necessary that private interests shall be subor-  
dinated to the Government's need for telephone service.

When war was declared, the whole Bell System was immediately placed at the  
disposal of the Government.

During these weeks of military preparedness the Government has had the serv-  
ice of the most comprehensive and efficient telephone system in the world.

As our military strength grows, and we become larger participants in the great  
war, the demands of the Government upon our service will continue to increase,  
and must always be met.

An extraordinary increase in telephone traffic, due to the unprecedented com-  
mercial and industrial activity incident to the war, must be adequately pro-  
vided for.

We ask you to cooperate in this patriotic service, and to bear cheerfully any  
unavoidable inconvenience or delay in your telephone service.

Physicians All Over the World Are Prescribing Phosphates to build up Run Down Enemic Conditions and Those Who Have Treated Their Patients With Argo-Phosphates Are Changing Thin, Enemic Women With Toneless Tissues, Flabby Flesh, into the Most Beautiful Rosy Cheeked and Plump Round Formed Women Imaginable

Atlanta, Ga. Dr. Jacobson said in a recent interview that 90 per cent of enema comes from nervous breakdown, which can only be corrected by supplying the necessary phosphates to the nervous system that is lacking in the food you eat, and this can be quickly supplied by taking one or two 5-grain Argo-Phosphate tablets after each meal and at bed time. It will in many cases make a pale scrawny face the picture of health in a few days. I have seen women that I expected would have to be kept under treatment for months restored to perfect health in one or two weeks time.

**SPECIAL NOTICE.** The Argo-phosphate recommended by Dr. F. H. Jacobson contains phosphates such as are prescribed by leading physicians throughout the world, and it will be found the most effective form for treating patients with nervous dyspepsia, stomach troubles, brain fog and nervous prostration. It will renew youthful vim and vigor and build up the whole body. If your druggist will not supply you with Argo-phosphate, send one dollar for two weeks treatment to Argo Laboratories, 10 Forsyth St., Atlanta, Ga.

### Colored People Delighted With New Discovery To Bleach the Skin

Atlanta, Ga.—Says that recent tests have proven without doubt that swarthy or sallow complexions can be made light by a new treatment recently discovered by a man in Atlanta. Just ask your druggist for Cocotone Skin Whitener. People who have used it are amazed at its wonderful effect. Rid your face of that awful dark color or greasy appearance in a few minutes. It costs so little that you can't afford to be without it. Just think how much prettier you would look with that old dark skin gone and new soft, light skin in its place. Men and women today must care for their complexions to enter society.

If your druggist will not supply you with Cocotone Skin Whitener, send 25c for a large package to Cocotone Co., Atlanta, Ga.

### NOTICE

COUNTY OF ROOSEVELT, STATE OF NEW MEXICO, IN THE PROBATE COURT.

In re the Estate of Atlas Hall, deceased.

Notice is hereby given that Benjamin Hall, administrator of the Estate of Atlas Hall, deceased, has filed his final account with the Probate Court and that by an order of said court duly entered, the second day of July, 1917, the same being Monday, the first day of the Regular July Term of the said court, was fixed as the date for hearing the objections to said final account and the settlement thereof.

SETH A. MORRISON,  
Clerk of said Court.

### Do You Love Music

We have one of our best pianos on hand unsold, in the vicinity of Portales. Rather than reship or pay storage we will rent to a responsible party at \$5.00 per month and will apply rent on purchase price later; or will sell now on easy monthly or quarterly payments. Someone will save at least \$50.00 to \$75.00 on this instrument. Send full business references when you write. Address

THE KNIGHT CAMPBELL MUSIC CO  
Denver, Colorado.

Subscriptions taken for all kinds of magazines and newspapers at Dobbs' confectionery. tf

### Around the House

To freshen velvet and feathers place the articles in a corn popper and hold them over steam. They will freshen easily and quickly.

Ground cinnamon burned on top of the stove will remove the odor of cabbage or onions and will give a pleasant aroma to the room.

To clean crocheted articles place in a deep pan and rub well with flour. Shake flour out and rub in a fresh supply, continuing the process until the article is perfectly clean.

The best manure solution is made by putting a tablespoonful of lemon juice in a cupful of hot water. It removes stains from the fingers and nails and softens the cuticle about the nails in a satisfactory way.

In the dining room be especially careful to obviate the slightest suggestion of stuffiness from too heavy or too many hangings.

To clean silver put a gallon of water and a quarter of a cupful of any one of the common brands of washing powder into an aluminum kettle, boil and immerse silver for about five minutes.

Prunes cooked without adding sugar are more wholesome and better flavored.

**Record Fishing.**  
A correspondent asks for the record tuna taken on light tackle in Santa Catalina island waters. He requests further enlightenment on what light

### Smartly Said

Nothing succeeds like a failure that is profitable.

To write modern poetry one should first cultivate a foolish feeling.

The man with a muscle usually hates to develop it by manual labor.

You can often learn things by listening—if the right person is talking.

Some smart kids often wonder why pa and ma can be so modest after raising them.

A peep into the future might spoil a lot of promising matrimonial prospects of today.

In this game of life the big fish always eat the smaller ones, so do not be a small fish. Swim out among the big ones.

### Light as Chaff

**Near the Mark.**  
The minister of a Scottish village being away on holiday, a young deputy took over his duties.

During his long journey north he had caught cold and arrived at the village inn late on Saturday night with a huskiness which threatened to spoil his preaching powers next morning.

After being shown to his room he suddenly decided to have a glass of hot lemonade and rang the bell, which sounded rather undecidedly. When the servant appeared he remarked pleasantly:

"That bell seems to be like myself—a bit hoarse."

"Aye," replied the girl calmly, "it's cracked."—San Francisco Chronicle.

**The Boaster.**  
A gentleman in Cincinnati employs two negroes to work in his rather extensive gardens, which he personally oversees. One morning Sam did not appear.

"Where is Sam, George?" he asked.

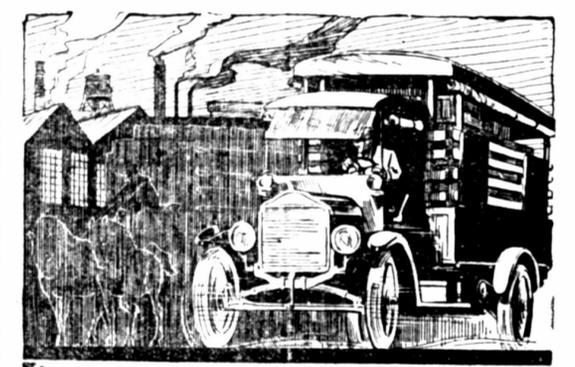

"In de hospital, sah."

"In the hospital? Why, how in the world did that happen?"

"Well, sah, he been a-tellin' me ev'ry mornin' for ten years he gwine to lick his wife 'cause o' her naggin'."

"Well?"

"Well, gladiddy she done overhaeb him. Dat's all."

## Make your investment earn four times as much — use Smith Form-a-Truck in place of horses

Get full returns out of every dollar you invest in hauling and delivery equipment. Smith Form-a-Truck gets four times the value out of every dollar you spend when you compare it with horse-drawn service.

It hauls twice the tonnage horses can haul—over three times the area—and in the same time. It costs you nothing in non-working hours. And even when it is working it costs fully 75% less than horses.

18,000 users in 600 lines of business have proved this for you. Among them are many of the largest corporations in the country:

Standard Oil Company	Cudahy Packing Company
Armour & Company	U. S. Mail Contractors
Morris & Company	Schlitz Brewing Company
Indian Refining Company	Butler Paper Company
Fleishmann Yeast Company	Montgomery Ward & Co.

And you can now use Smith Form-a-Truck with Ford, Maxwell, Buick, Chevrolet, Dodge Brothers or Overland power plants.

Arrange for demonstration NOW. Start saving real money in your hauling by using

### Preserve the Wild Flowers.

An earnest appeal has been made by the Kansas City Star for the preservation of one of the most beautiful of wild flowers, the columbine, particularly along tourist routes. This appeal will find sympathetic support everywhere throughout the states in which the columbine is a natural annual, but it should be broadened to include all wild flowering plants that are needlessly and often wantonly pulled up by the roots. The conservation of wild flowers is a patriotic duty.—Christian Science Monthly.

### Feed Young Chickens Apart From Older Fowl

When chicks have reached the age of a month and are hunting something to do they must be kept busy or they are apt to start some bad habits, says the Country Gentleman. Such a favorite pastime as picking the toe of some weak chick until it bleeds is frequently indulged in. Broods of chicks sometimes get so vicious that they will kill one of their number and tear it to pieces. This habit can generally be stopped by hanging up one or two pieces of tough, lean beef every day or so for them to pick and pull at.

The increased activity of the chicks at one month of age calls for liberal yard space for exercise and foraging if possible the yard should be increased to three or four times its present size and a little higher wire used to keep the chicks from flying over.

When the chicks are about a month old it is a common practice to feed them where the older fowls have free access to their feed. This is a bad practice, to say the least, but if conditions are such that it cannot be helped the older birds can be protected from the chicks by constructing a wire covered, slat sided runway, in which the chicks may be fed. Have the slats just far enough apart for the young

### War Vegetables—The Pea

**CIRCULAR PEAS**—ASIA THIS PEAS ARE PLANTED IN THE FIELDS AND ARE USED AS SEED. IS A GOOD FOOD FOR LARGE IS SMALL LOWS.

**CAN-O-PEAS**—(CROPPED) — GROW QUITE HIGH AND ARE USED AS A SHELTER FROM THE HOT SUN OR RAIN. STORED IN S.

**SPLIT PEAS**—THE ORIGINATED IN THE SPLIT PEAS ARE PLANTED IN AMONGST THE GRASS IN THE FIELDS AND ON A WINDY DAY THE GRASS CAN BE GETTING BLADES OF THE PEAS IN HALF — THAT IS WHY THEY ARE CALLED SPLIT PEAS.

**KUBIST PEAS**—THE KUBIST PEAS ARE HIGHLY PRIZED BY MANY PEOPLE, BECAUSE THEY DO NOT ROLL OFF THE KNIFE WHEN EATING THEM.

**SWEET PEAS** ARE PLANTED IN SOIL WHICH CONSISTS OF 60% BLACK DIRT, 35% SUGAR AND 5% FLOUR — THE BLOSSOMS ARE A SWEET SCENTED FLOWER — YOU CAN BUY THEM FOR A CENT.

**EARLY JUNE PEAS**—EVERY MORNING IN THE MONTH OF JUNE, YOU GET UP AT 3 A.M., CREEP OUT INTO THE GARDEN WHERE THE PEAS ARE PLANTED IN BEDS — YOU MAKE A NOISE LIKE A JUNE BUG, THE PEAS HEARS IT AND WHEN THE PEAS LOOKS 'ROUND, YOU GRAB IT AND PUT IT IN YOUR BAG.

OTHER SPECIES OF PEAS ARE: —

**PICNY POIS** — ALIAS FRENCH PEAS

**BLACK PEAS** — ALIAS BURNT PEAS

**GREEN PEAS** — WEARS IRISH OVERCOAT

**HAD PEAS** — GROWS JOYFULLY

**DUPPEA (SWEET)** — FULL OF OPIUM — IT IS

"THE BANK WHERE YOU FEEL AT HOME"

### STUDY YOUR BUSINESS.

Learn a Lesson Out of One Big Man's Book of Success.

Perhaps the most wonderful memory in the United States is owned by James A. Farrell, president of the United States Steel corporation, whose methods and successes are described in an article by B. C. Forbes in the American Magazine.

Mr. Farrell could rattle off the exact location of every sizable iron plant, not only in America, but in England, Germany, Belgium, France, Austria, Russia, China, India, in short, all over the world. He knew the charges made by the railroads for carrying iron and

steel from all these works to seaboard and the ocean freight rates from any one point to any other point on the map.

"Distances, too, he had at his fingertips and could always explain exactly the cheapest way to ship material from anywhere to everywhere. Straight off the bat he told the exact percentage, even to the decimal point, of how much of America's total production was exported in every recent year. One lawyer wanted light on how many wheels were made in the United States, and Mr. Farrell obligingly informed him that the annual total was 2,293,000.

"I could conceive no more humiliating experience," he replied, "than to be

asked some question concerning our operations and to be obliged to send for a subordinate to answer it. I would not consider myself fit for the job unless I knew the ins and outs of the business and how each detail of it is conducted."

### Have an Old Fashioned Garden.

If you wish to grow flowers in quantities for house decoration or other purposes grow them in a border three or four feet wide along a back fence. This is the place for larkspurs, hollyhocks, dahlias, columbines, phlox, shasta daisies, gladioli, etc. Call this an old-fashioned garden if you will, all the same everybody likes it.

### Agricultural Expert

Favors Food Control

Food speculators and gamblers, some of them men of great wealth, who have been opposing the request of the president that congress give power to the executive to control the distribution of food are allies of the Kaiser and

Photo by American Press Association. CARL VROOMAN.

traitors to their country, said Carl Vrooman, assistant secretary of agriculture, in a recent pronouncement.

Mr. Vrooman is a native of Missouri, forty-five years of age, and was educated at Washburn college, Kansas, and Harvard university. At Harvard he specialized in economics and later studied at Oxford, England, and on the continent. Following his studies in Europe Mr. Vrooman took up scientific farming and for many years conducted and still controls several thousand acres of land in Illinois. His home is at Bloomington.

State of New Mexico, State Corporation Commission of New Mexico.

### Certificate of Filing

UNITED STATES OF AMERICA.)  
STATE OF NEW MEXICO.)  
It is hereby certified, that there was filed for record in the office of the State Corporation Commission of the State of New Mexico, on the fourteenth day of June, A. D. 1917, at 10:00 o'clock A. M., by the

PORTALES POWER AND IRRIGATION COMPANY (No Stockholders' Liability) a corporation organized under the laws of New Mexico, a duly executed consent in writing that said corporation be dissolved, and this commission being satisfied that all of the requirements of Section 919, New Mexico Statutes, Annotated, Codification of 1915, relating to the voluntary dissolution of corporations have been duly complied with.

Now, therefore, upon the filing with this commission of an affidavit showing that this certificate has been published as required by law, the said corporation shall be dissolved.

The principal office of the said corporation in this state is at Portales, and the name of the agent in charge thereof and upon whom service may be made is A. A. Rogers.

(No. 7540)

In Testimony Whereof, the State Corporation Commission of the State of New Mexico has caused this certificate to be signed by its chairman and the seal of said commission to be affixed at the City of Santa Fe on this 14th day of June, A. D. 1917.

(Seal) HUGH H. WILLIAMS, Chairman  
Attest: EDWIN F. COARD, Clerk.
