One More Good Result of the Great War.

Washington.-The supreme court sustained the conviction of Eugene V. Debs, socialist leader, found guilty of violating the espionage act through statements made in a speech at Canton, Ohio, last June, and sentenced to ten years' imprisonment,

In deciding the case the court in effect upheld the constitutionality of the so-called enlistment esction of the espionage act of 1917.

Debs, four times a candidate for president of the United States, began life as a locomotive fireman on the Terre Haute & Indianapolis railroad. He was born in Terre Haute, Ind., sixty-four years ago. For years he was prominent in the firemen's brotherhood, playing an active part in several big strikes. In 1885 he was a member of the Indiana legislature.

Mr. Lamar said hs conclusion is based upon information contained in seized mail matter.

Accompanying the memorandum were several hundred excerpts from

the mail matter. Mr. Lamar said this propaganda was being conducted with "such regularity that its magnitude can be measurde by the bold and outspoken statements contained in these publications and the efforts made therein to inaugurate a nationwide reign of terror and overthrow the government."

Mr. Lamar said it was signficant that this is the first time "in the history of the so-called radical movement in the United States that these radical elements have found a common cause (bolshevism) in which

CEASES TO EXIST

HUNS LIMITED TO A PITIFUL ARMY OF ONLY 100,000

AND THESE MUST VOLUNTEER

Treaty of Peace is About Completed and Huns Will Soon Be Shown Where To Sign On the Dotted Line.

Paris.-Military Germany will go out of existence as the result of the adoption by the supreme council of the military terms of German disarmament as they will go into the peace treaty. These terms provide for a sweeping reduction of the Germany military establishment down to 100.-000 men with 4,000 officers, the army to be recruited by the volunteer system for the period of twelve years. The effect of this is to limit Germany's military strength to less than the number of men Switzerland has in her army.

Other provisions in the military terms limit the arms and munitions Germany may possess to a quantity sufficient for 100,000 men, and all the remainder must be delivered over or destroyed. The German forts along the Rhine also must be destroyed. The imperial general staff is abolished as the result of reducing the force.

One of Premier Lloyd George's main purposes in substituting voluntary service for the conscription system, was to pave the way for the disappearance of the conscription system throughout Europe, as it was believed that the effect of the abolition of the system in Germany would be that the other European countries would generally follow it, thus ending the menace of large standing armies and their provocation to warfare.

Naval Terms Adopted.

The council has already adopted the naval terms of the treaty, except for a few provisions which will be discussed later.

The progress that has been made with the work of framing the peace treaty ensures the completion of the task by March 20.

A first draft was in readiness when President Wilson arrived in France, and the revision will be concluded before the twentieth. It is the pres nittee primarily to answer statements ent purpose of the peace conferees to call the Germans to Versailles after March 20, probably from March 22 to March 25. The document then will be delivered to the German delegates and in case they are not prepared to sign it at once, they will be given the opportunity to return to Germany to consider it and return for the formal signing at Versailles.

This plan obviates the necessity of holding sessions for debate at Versailles and restricts the functions to be conducted with the Germans to the delivery of the document and their return for its signature or such other action as they desire to take.

It is known definitely that Count von Bernstorff, former German ambassador to the United States, will not be one of the German delegates at Versailles.

The treaty promises to be a very long document, chiefly owing to delayed provisions concerning the German military system and methods for its control by the allies.

Five or Six Divisions. It will embody, however, only five or six main divisions, namely.

AIR LINE OPENS IN AUGUST

Commercial Planes To Travel Across the Continent.

New York.-America's first commercial air line has been organized and is scheduled to commence operations early in August. This became known when it was learned that Wesley A. Hill, tank corps, U. S. A., of Phoenix, Arix.. had placed an order with the Glenn Martin company for four huge passenger carrying aeroplanes.

Lieutenant Hilt proposes to launch his project by a pasenger carrying flight from New York to San Francisco some time this summer. He said that he has already booked one passenger, a New York hotel man, for \$5,000 for the first flight and that his prospective passenger offered to furnish two others at the same rate.

Upon arriving at the coast, the planes are to be operated on a regular schedule, one route to connect Globe and Phoenix, Ariz., and San Diego, Calif., and the other to operate between Los Angeles, Pomona and Riverside, Calif These routes will be adhered to, Lieutenant Hill said, until such time as the public is wiling to accept air travel as a practicable means of transportation. Then he expects to extend his air lines until several transcontinental routes are in operation. Lieutenant Hill plans to

pay his pilots \$5,000 a year. The planes to be furnished by the Martin company are duplicates of the twin engine bombing planes furnished the government and are to be equipped with liberty motors. They will be capable of accomodating twelve passengers including pilot and mechanician and an additional 500 pounds of mail or freight.

NO PLANES FOR THE HUNS Double Eagle's Wings To Be Effect-

ively Clipped.

Paris.-The aerial terms of the German disarmament, as adopted by the supreme war council provide that airplanes and dirigibles shall no longer be used for military purposes. The council concluded that it was not feasible to prohibit air planes from other commercial uses.

All forms of military airplanes are barred to Germany, the only exception being the temporary use until Oct. 1 of 100 hydro-airplanes and 1,000 men in gathering mines in the North

Germany must deliver all airplanes to the allies and must prohibit the construction of other airplanes until the conclusion of peace, the supreme war council decided in adopting the aerial terms.

The terms do not decide the future be destroyed or divided among the

Britons Downed 8,000 Hun Planes. London-During the war 8,000 enemy airplanes were shot down by the British air forces, while 2,800 British machines were missing, Brigadier General J. E. B. Seely announced in the house of commons in introducing the army's estimates of \$332.-500,000. General Seely said if the war had continues the estimate would have been \$10,000,000,000. ments Before Finding Relief By Taking Tanlac.

"I spent at least two thousand dollars on medicines and treatments before I finally got relief his money in a wildest by taking Tanlac," said Wiley Vesperman, of 4418 Bowser Ave.,

> "I suffered with rheumatism in my left arm and shoulder for seven years," he continued, "and at times I was so badly crippled up that I would just have to give up and go to bed. I also suffered terribly with indigestion, and what little I ate formed so much gas that I would belch up my sour undigested food and would become faint from dizziness. I could hardly sleep at night for the misery I was in and in the morning I would get up feeling so awful that I colud hardly get around.

"But Tanlac has driven away every bit of the pain and misery, I never suffer from indigestion and can eat anything I want. My condition has improved so wonderfully since I started on Tanlac that I am able now to give all my time to my business, just like I did before that awful rheumatism got its hold on me. My wife is taking Tanlac, too, and she is just as enthusiastic about it as I am.

GRAND JURY REPORT

The Hon, Sam G. Bratton, Judge of the Fifth Judicial District Court of the State of New Mexico, sitting within and for the County of Roosevelt:

We, the grand jury, duly empaneled, sworn and charged at this March, 1919, term of the district court of Roosevelt county, beg leave to report as follows:

We have investigated all matters brought before us, or coming to our knowledge; we have examined 52 witnesses during our session and have returned in the court twelve "true bills" and three "no bills."

Through the committees appointed by our foreman we have made an examination of the various offices of the county and find them all in good condition, and the books and records neatly and well kept; we would respectfully recommend the County Assessor's office be furnished with a map or blue print of the city of Portales for his use in checking the lots in the city.

We further recommend that cots and beds now in the county jail be either repaired or replaced with new ones and we also recommend that the lights in the toilet at the court house be put in good order.

We have made a thorough investigation of the sanitary condition of the jury room and beg to report that we find it in a very unsatisfactory condition and we recommend that the county commissioners cause a partition with raised or folding doors to be built so that bedding may be stored away from dust and dirt and that the same be kept under lock and key and that it also be kept in some responsible party's

We desire to thank the various officials, the Court, the District Attorney's office, the Sheriff's office, and our efficient bailiff for their kind and courteous treatment of us during our session.

Thus having completed our labors, we respectfully ask the Court that we be discharged. THE GRAND JURY,

By S. A. Crabb, Foreman. Attest: Clyde Knapp, Clerk.

It Costs More

FOR several years material and labor costs have steadily increased, and all transportation charges have been advanced. That means that every operation in the giving of telephone service has increased steadily in cost.

It costs more to operate a switchboard, keep the books, do the billing and collect the accounts.

It costs more to install a telephone.

It costs more to repair a telephone.

It costs more to take out a telephone.

It costs more to move a telephone.

It costs more to string a circuit, repair a wire and to set a new pole.

Every piece of equipment and every item of supplies costs more.

And Meanwhile-

THE BRUNSWICK METHOD of Reproduction includes the Ultona, a new conception in playing. The Ultona consists of an arrangement of the several necessary reproducing diaphragms upon one tone arm. This is an allin-one arrangement, with no attachments-nothing to take off or put on.

At a turn of the hand, the Ultona is adapted to play any type of record. The proper diaphragm is presented, the exact weight, the precise needle. Thus the requirements of each type of record are met.

The Brunswick owner can select records without regard to make. Every singer, every band, every musician, every selection, may now be played at its best on the one phonograph.

BUILD NO

We take this opportunity of saying to the people that THIS-in our honest opinion-is the time to build, to repair and to remodel. Generally speaking-THESE are the reasons:

FIRST-Lumber, compared with other living commodities, is cheap. (Rapson's Statistical Bureau, the most dependable in America, in a bulletin dated January 14, 1919, states that since July, 1914, lumber has advanced in price only 48 per cent, animal products 97 per cent, minerals 106 per cent and farm products 135 per cent.) There never was a time when a ton of alfalfa, a sack of flour, a side of beef or a box of bacon would buy as much lumber as it will today.

SECOND-The American Federation of Labor stated to Congressional Committee in Washington just a short time ago that they are depending on general building activity to prevent a bread line.

THIRD-Europe wants and must have all the lumber that ships can be secured to carry. It means that lumber will not be cheaper, but may be much more difficult to secure.

FOURTH-The United States Government, through its Department of Labor, is conducting a powerful campaign urging the immediate buying of structures of every necessary character throughout this land.

Think it over and go ahead with your building plans now.

General Dickman, Here of Chateau Thierry, Issues Order on Conduct-

Third division, A. E. F., and just brought to the attention of the National War Work Council of the Y. M. C. A., is a general order issued by command of Major General Dickman, which "Y" officials have hailed as an emphatic answer to charges that Red Triangle workers had avoided the danger zones in France and had wrung exorbitant prices from the soldiers for the comforts which the association had sent overseas. General Dickman directed that a copy of the order be sent to every one of the thirty-four men and six women who went with the division through the fighting at Chateau Thierry and along the Marne, to St. Mihiel, and later into action north of Verdun and along the Meuse. The Y. M. C. A. has made public General Dickman's order along with a communication from Col. J. C. Rhea

of another division which was in the St. Mihlel fighting. Colonel Rhea gave figures showing the large amount of supplies which were distributed in his division by "Y" secretaries without charge. The order of General Dickman, who is now in command of the Army of Occupation in Germany, is as follows:

"The commanding general desires to make of record in the general orders of this division his appreciation of the part taken by the members of the Y. M. C. A. who have been attached to this division and actively catried on their work in all its phases during the time that this division was in contact with the enemy from May 31 to July

"During the days beginning July 14, when the enemy made their attack and for days and nights afterward, the Y. M. C. A., through its faithful members at their posts of duty, not only with chocolate and cakes and tobacco cheered our soldiers, but were of efficient assistance to our medical staff in caring for wounded. Their citations, which were given to them at general headquarters, commended the two for their work under shell fire with the Twenty-sixth division, and especially mentioned their "zeal and devetion in carrying aid to the wounded under a very violent bombardment."

Both men have followed their division, which has been in the thickest of the fighting, to several fronts. They worked as stretcher bearers in the Toul sector, at Chateau Thierry and in the Argonne woods. Their job was to carry the wounded through the trenches, often several hundred yards. until it was possible to leave the trench for the road, where they put them on stretchers and carried them under fire to the dressing station.

While engaged in this work last summer Mr. Johnson was wounded by shell fragments and forced to spend two weeks in the hospital. He re ceived his former citation for his services at this time.

A Single Remedy Often Cures Many Diseases

BY VALENTINE MOTT, M. D.

It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive—to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs and distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are plaint, loss of flesh, nervousness, ry, dizziness, sleeplessness, no

Many times, when neglected, insults in coughs, throat diseases, sterrh, bronchitis and even more dangerous things. And all these disorders arise because the food is not properly digested child that relief and cure are to be had only by setting up a healthy condition in the stomach. Dr. Pierce, of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine, for the list of people all over the world who have had their countless ills overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thou-

New Tasks and New Opportunities Presented by Necessity of Supplying Large/Part of World's Food in Com ing Years.

gency has demonstrated that the service can lead as well as teach. It has been the "general staff" for America's army of 6,000,000 farming units, and the farmers have responded with admirable spirit, the proof of which is in the stupendous increases in the 1917 and 1918 production of essential food crops-the crops without which the war might have been lost.

The rapid war expansion of the federal agricultural extension service is shown by the fact that while, on April 1. 1917, the extension workers numbered 2,149, of which 1,461 were county agents, 545 home demonstration agents, and 143 club workers, on July 1, 1918, the number had increased to 6.216, including 3,000 county agents, 2.035 home demonstration agents, and 1.181 boys' and girls' club workers.

Extension work is divided into county agent work, home demonstration work, and boys' and girls' club work. The county agent system is an organized method of doing agricultural work in a county through a permanent local leader, who represents the state agricultural college and the department of agriculture in matters pertaining to agriculture, and who is also the official medium through whom the people can most readily deal with those public institutions in such matters.

Joshua, knowing that his life was drawing to a close, summoned the leaders of Israel to appear before him. He knew the tendencies which the nation was developing and the peril which faced it as his leadership was coming to an end. His jealousy for God and solicitude for them prompted him to assemble them and point out

I. A Review of What God Had Done (23:3, 4).

1. God had fought Israel's battles (v. 3). He gave them victory over the strong nations which inhabited Canaan. Striking evidences of this are the capture of Jericho and victory at Gibeon when the sun stood still at Joshua's command. This victory had that God had interposed in their be-

2. God by the hand of Joshua had apportioned the land among the tribes (v. 4) for an inheritance. In chapter 24 Joshua rehearses the wonderful things God had done for the nation extending from Abraham down given in any sickness. through the ages.

II. Points Out the Promises as Yet Unfulfilled (23:5-10).

1. "He shall expel them before you" (v. 5). The actual possession which God had given was the pledge that he would give them full possession. God's promise was the guarantee of this. In view of God's faithful performance of all his promises there should be no room for doubt.

2. "One man of you shall chase a thousand" (v. 10). The reason of this was because the Lord God would fight for them. To have the Lord fight for us is to have the assurance of victory

like this it required courage to look to God for all the nation's needs. (2) "Keep and do all that is written in the law of Moses" (v. 6). Fidelity to God's law was essential. Turning aside in any particular would forfeit their claims upon him. (3) "Keep aloof from the Canaanites" (v. 7). reference to (a) marriage among them (b) idolatrous customs, (4) Cleave wholly unto God (v. 8).

1. Take good heed that you love God With a total value of \$12,272,412,000, sincerely (v. 11). Love to God is the sum total of duty toward him.

2. Refrain from intermarriage among the Canaanites (v. 12). For God's people to intermarry among the heathen is to set in motion influences which would issue in confusion and disaster. 3. God will make the heathen snares, traps and scourges instead of giving victory over them (v. 13).

4. Evil things will come upon them fust as good things had been done for them even to their destruction (v. 15). 5. The wrath of God kindled against

Righteousness means victory with the help of the Spirit of God over ourselves, over our inclinations, our paspeace until righteousness is done. The Prophet said: "They have healed also the hurt of my people slightly, saving Peace, Peace, when there is no peace." There must be righteousness toward God and our fellowmen if there is to be peace and good will on earth.

If We Suffer.

"If we suffer, we shall also reign with him," says St. Paul. What a crown is that for this, O sufferer! "Thy pains and sickness are all cured: thy body shall no more hurden thee ing head and heart, thy hunger and thirst, thy sleep and labor, are all gone. Oh, what a mighty change is this which shines as the brightness of the firmament!"-Baxter.

The kingdom of heaven is not come is come when God's will is our will. When God's will is our law, we are but a kind of noble slaves. When his will is our will, we are free children. -George Macdonald.

To All Owners and Future Owners of Baby Bonds:

I am just in receipt of a letter from the Chairman of this district asking that the necessity for holding our Baby Bonds be taken up with every owner of same in this county. While we have suffered with a drought for the last two or three years, as well as a most severe winter, we are called upon to do our part in not embarassing our government in asking for the payment of a loan (and that is yhat the Baby Bond is) before it is due. We are asked to hold our bonds, as Chairman Smith of Dallas says, "For the boys who are to be brought back home, for the families of those boys, for the boys who are to be provided with positions when they do come home, for the payment of the allotments which those boys have made to their families while they are away, and for our great Nation which needs the money to further protect and safeguard us and for the advancement of our own interests and the preservation and protection of human life for which we fought and died to uphold." This is a strong appeal and I

wish to add a personal plea that every owner of a Baby Bond in this county that can possibly do so, shall not only keep his 1918 Baby Bonds, but keep up the good work and continue to buy 1919 series.

All fire insurance policies look pretty much alike before a fire. But after a fire the old reliable name of the "Hartford Fire Insurance Company" is a mighty comforting sight on a policy. We can put it there.

THESE BELIEFS ARE WOVEN INTO OUR **SERVICE**

We believe that service is the builder of banks; that the institution with the broadest, most helpful service will inevitably be the institution with the largest resources. We believe that "Where Courtesy Enters, There Currency Centers." We believe that "Banking must be made Democratic for savers." We believe in this Bank and its future; in Portales and its future; in America and its future; of the world, war-stricken and debt-laden though it may be. We believe there is much work ahead for everybody and that it is the duty of this Bank, at every opportunity, to lend its counsel, its facilities and its resources to the furtherance of every worthy enterprise.

"Oh!" was the little girl's comment. "There'll be changes here very sudden. 'Two's company, three's a crowd,' Carolyn May. Never was a truer saying. Those two will want just each other—and nobody else.

"Well, Carolyn May, if you've finished your supper, we'd better go up to bed. It's long past your bedtime." "Yes, Aunty Rose," said the little

girl in muffled voice. Aunty Rose did not notice that Carolyn May did not venture to the door of the sitting room to bid either Uncle Joe or Miss Amanda good-night. The child followed the woman upstairs with faltering steps, and in the unlighted bedroom that had been Hannah Stagg's she knelt at Aunty Rose's knee and murmured her usual petitions.

"Do bless Uncle Joe and Miss Amanda, now they're so happy," was a phrase that might have thrilled Aunty Rose at another time. But she was so deep in her own thoughts that she heard what Carolyn May said per-

The little girl tay with wide-open eyes, her imagination at work.

"Two's company, three's a crowd." She took that trite saying, in which Aunty Rose had expressed her own feelings, to herself. If Uncle Joe and Miss Amanda were going to be married, they would not want anybody else around! Of course not!

"And what will become of me?" thought Carolyn May chokingly.

All the "emptiness" of the last few months swept over the soul of the little child in a wave that her natural cheerfulness could not withstand. Her anchorage in the love of Uncle Joe and Miss Amanda was swept away.

The heart of the little child swelled. Her eyes overflowed. She sobbed herself to sleep, the pillow muffling the sounds, more forlorn than ever before since she had come to The Cor-

The Journey.

It was certainly a fact that Amanda Parlow immediately usurped some power in the household of the Stagg homestead. She ordered Joseph Stagg not to go down to his store that next day. And he did not!

Nor could he attend to business for several days thereafter. He was too stiff and lame and his burns were too painful.

Chet Gormley came up each day for instructions and was exceedingly full of business. A man would have to be very exacting indeed to find fault with the interest the boy displayed in running the store just as his employer desired it to be run.

"They'll be married."

"Well, when folks git married they allus go off on a trip. Course, they will. And me-I'll be runnin' the business all by myself. It'll be great! Mr. Stagg will see jest how much value I me!" cried the optimistic youth.

The stations were a long way apart and the conductor did not come open the door and come into the car Carolyn May started up with a glad cry. It was the very conductor who had been so kind to her on the trip up from New York.

The railroad man knew her at once and shook hands most heartily with

"Where are you going, Carolyn May?" he asked. "All the way with you, sir," she replied.

"To New York?" "Yes, sir. I'm going home again."

CHAPTER XIX.

The Home of Carolyn May. It was some distance from the railroad station to the block on which Carolyn May Cameron had lived all her life until she had gone to stay with Uncle Joe Stagg. The child knew she could not take the car, for the confuctor would not let Prince ride.

She started with the dog on his leash, for he was not muzzled. The bag became heavy very soon, but she staggered along with it uncomplainingly. Her disheveled appearance, with the bag and the dog, gave people who noticed her the impression that Carolyn May had been away, perhaps, for a "fresh-air" vacation, and was now coming home, brown and weary, to her expectant family.

But Carolyn May knew that she was coming home to an empty apartment to rooms that echoed with her mother's voice and in which lingered only memories of her father's cheery spirit. Yet it was the only home, she felt,

the bag from hand to hand, Prince pacing sedately by her side. "We're getting near home now, Princey." she told him again and again.

Thus she tried to keep her heart up. She came to the corner near which she had lived so long and Prince suddenly sniffed at the screened door of a shop. "Of course, poor fellow! That's the butcher's," Carolyn May said.

She bought a penny afternoon paper on a news stand and then went into the shop and got a nickel's worth of bones and scraps for the dog. The a new man.

However, it is usually found more economical to use dynamite than to depend upon labor for doing the work.

It is difficult to clear the earth from the roots of stumps in clay soil. Where stumps are shot clear of the ground there is less adhering earth than where they are cracked and pulled. Perhaps in clay soil it would be more economical to shoot the stumps clear of the ground.

Cost of Explosives.

If explosives are bought in small dynamite and result in better work quantities the cost is rather high. For this reason, the reader is advised to study with extreme care the instructions issued by the manufacturer of the brand of explosive which he proposes to use. If dynamite is to be handled in cold weather, study very carefully the manufacturers' instructions on thawing dynamite. Many accidents have happened through ignorance or carelessness in thawing. The blasting caps are much more sensitive than the dynamite itself, and should be handled with great care. A cap crimper is an inexpensive tool, and its use may prevent serious accidents.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applica-tions are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper .- Adv.

We advise Kelly-Springfields because we want our customers to be satisfied. All tires are guaranteed. All manufacturers make adjustments---and most of them are very liberal. But what's an adjustment beside mileage? What you want is a ride without interruption---not an adjustment. An adjustment is the second best thing. The first best thing is a Tire which goes so far beyond the guarantee that you will never know from experience what the guarantee is. The Kelly-Springfield Tires deliver you the Mileage you expect instead of an adjustment out of the guarantee.

We handle several other splendid makes of Tires and Tubes. We have on hand a well assorted, fresh stock of Kelly-Springfield, Racine-Horseshoe, Goodrich and Hartford Tires and Tubes---also Dayton Airless Tires for Fords.
