STATION

THE ROOSEVELT COUNTY TEACHERS

We, the teachers of Roosevelt County, in assembly at Portales, from September 1 to 5, 1919, hereby resolve:

1. We express our appreciation to the State Superintendent and State Board of Education for instead of the usual institute.

2. We recognize the co-operation of both Curry and DeBaca counties with our County Superintendent, Sam J. Stinnett, in planning our meeting and securspeakers.

of Supt. W. M. Wilson of Por- busy at once. It required three tales, as conductor, and Mrs. big road trucks to pull it and that much of the success of this pany has just finished the fitting meeting has been a result of their up of their offices in the Oldham request that their services be rush the work to completion as secured for 1920 if possible.

4. We express our most sincere thanks to the County Board of Education and the Board of County Commissioners for the increase in salary to the teachers for the coming year, in compliance with the recently enacted

5. In view of the fact that school directors seem willing to increase the salaries of teachers to an extent that they may better qualify themselves, we recommend that the State Board of Education requirement to take place as soon as practicable and as soon as it is possible for the teachers to se-

6. Whereas, the teachers some-

times find it necessary to secure loans on their warrants for work already done and pay due, and in view of the fact that this is quite often embarassing to the teachers, and of the further fact that the banks would prefer to do business with the county as a unit than with the teachers individually, be it resolved: That the County Board of Commissioners be requested, and they are hereby respectfully requested by the teachers of Roosevelt county to make arrangements with the county depository to pay all teachers warrants when due, and the county take care of the interest instead of the teachers, as this is, in our opinion, where the burden properly belongs.

7. Be it further resolved that we endorse the action of the County Board of Education in the consolidation of the schools they have already thrown together, and that we recommend that they establish other such schools and, where it is practical, supply

transportation for children. 8. To the people of Portales, we express our appreciation for the hospitable manner in which we have been received and entertained during the week.

9. We thank the W. C. T. U. in convention, for their co-operation and the reception tendered us on Thursday evening.

10. We endorse the Modern Health Crusade movement and plan to have it carried out in every school in the county.

11. As a body of teachers we are opposed to the proposed amendment efeating a board of four men whose duty it shall be to govern the State Institutions, both educational and penal.

I'mt the Eighth Grade State exam- Board of County Commissioners, inations be made more exacting, the New Mexico Health Associaand that no pupil who has failed tion, Senator R. G. 13. Be it further resolved, that

SMOKER AT THE COURT HOUSE SATURDAY NIGHT

The Chamber of Commerce will give a smoker at the court room Saturday night, September 13th. beginning promptly at 8:15, and it is hoped that a good attendance will be had as there is sever eral questions of interest to come up for discussion. It is the duty of every man in the county who again allowing an Inspirational is interested in the welfare of this Meeting, consisting of instructive county to come out and exchange lectures by state educators and ideas and it might be that you lecturers of national reputation, will learn something. If you don't there won't be much time lost, so come out.

OIL RIG MOVED OUT

The oil rig of the Mesa Oil and ing the services of such capable Gas Company was moved out to their holdings some thirty miles 3. We hereby approve the sel- west of Portales last Tuesday ection by Superintendent Stinnett morning, and they expect to get Katie Kenady as instructor in several wagons were used in haulprimary methods; and believing ing the big bits, etc. The comuntiring efforts, we respectfully building and are now ready to fast as possible.

POWER OFF THIS WEEK

The people of Portales got out their old oil lamps and shined them up, most of us hunted up our discarded water buckets and made regular trips to the nearest well, and the Portales Valley News is late and short of news all caused by a breakdown at the city power plant last Saturday evening about eight o'clock. The city force, however, worked diligently and faithfully and we now have plenty of water to drink lots of light to see by, and we ask your indulgence with the paper this week, and hope that such will not be the case any more. The engine head on the big producer engine saw fit to burst was the cause for the breakdown and Mr. Kugler, manager of the city plant, carried it to Roswell and had it welded. A new one has been ordered and is expected here in the next day or so.

WILL SPEAK AT THE CAP-ITAL DURING WEEK OF THE STATE FAIR.

TOUR BEGAN AT COLUMBUS, O.

And Will Take the President Over lost of the States Whose Senators Are Opposed to the Treaty.

Washington.-The itinerary of Presnt Wilson on behalf of the peace reaty and league of nations covenant calls for visits in 30 cities in 21 states. The route to be followed will cover about 10,000 miles and the trip woll last 27 days.

The president left Washington Wedmeeday and will return at 11 a. m. Sept. 30. He will go west as far as Kansas City, north into Nebraska, the Dakotas, Minnesota and Montana, and then go into the Pacific coast.

Back Through Oklahoma

He will then swing down the coast to San Diego, turn north to Reno and across to Denver, returning through Kansas and Oklahoma.

The itinerary reveals how the president has planned his journey to carry the fight into the territory of the bitterest enemies of the treaty and the league. He will confine his speeches to the west and middle west, from which section comes some of the strongest opposition. He will open his attack in Ohio, Senator Harding's home state.

New and Watson Next

Both Senators New and Watson, of Indiana are opposed to the presi-Sent's peace plans. He will try to arouse their constituents at Indianap-

To Speak in Mormon Temple

in the Mormon temple at Salt Lake sistance to the British up to late in City. Senator Smoot, Utah, recently 1903. cited Mormon revelations against the league pact.

The president's determination to dewote so great a share of his time to the Pacific coast is partly because of 1907, General Botha was called upon the strong opposition from there to the Shantung settlement, it is said by administration advisers. It is regarded as improbable the president will make many open air speeches from the platform of his train. The official itinerary was announc-

ed as follows: Sept. 4.—Columbus, Ohio, and In-

dianapolis, Ind. Sept. 5.-St. Louis.

Sept. 6.-Kansas City.

Sept. 6 and 7.—Des Moines.

Sept. 8.-Morning address Omaha; evening, Sloux Falls.

Sept. 9.—St. Paul and Minneapolis

Sept. 10.—Bismark, N. D. Sept. 11.-Morning, in Billings, Mont.; evening, in Helena, Mont.

Sept. 12.-Morning, in Coeur D'Alene, Idaho; afternoon, in Spokane. Sept. 12 and 14.—Day meeting in

Tacoma; evening, at Seattle. Sept. 15.-Portland, Ore.

Sept. 17 and 18.—San Francisco.

Sept. 19.-San Diego.

Sept. 20 and 21.—Los Angeles.

Sept. 22.-Reno, Nev. Sept. 23.-Salt Lake City.

Sept. 24.-Cheyenne, Wyo. Sept. 25.-Forenoon, address in Denver; afternoon, address in Pueblo.

Sept. 26.-Forenoon, in Wichita; evening in Oklahoma City. Sept. 27.-Mid-afternoon in Little

Rock: night in Memphis. Sept. 28 and 29.—Louisville, Ky.

Sept. 30.-Arrive in Washington, 10 The president's car will travel as

special section of regularly scheduled trains.

Packer Is Fined for Food Storage. Milwankee.-Found guilty of holding 80,000 pounds of meat in cold storage from 13 to 24 months, in violation of the cold storage laws, the Cudahy Packing Co., was fined \$2,300 in the United States court here. Michael Cudahy did not appear in court but was represented by five officials of the company. These officials testified that the meat was held in storage "because there was no market for it." They declared that to have placed it on the market would have resulted in heavy losses.

Another Mexican Outrage. Paso.-Adam Schaeffer, said to be either an American or British citiwas killed by Mexican bandits at his mine in the state of Zacatecas, est 28, according to a telegram ived by the American Smelting and Refining Company here. WHY WEAR ANY?

ndon.-- Modistes anno that the Paris autumn styles are the most sensational yet. The signs call for a greater area of back exposure than ever and skirts are to reach but little below the knees. Lingerie designs are in keeping with those of the outer garments and the costumes as a whole are guaranteed to enable the wearers to economize in trunk space.

GEN. LOUIS BOTHA DEAD

Famous Boer Leader is a Victim of Influenza.

Pretoria, Union of South Africa,-General Louis Botha, premier and minister of agriculture of the Union of South Africa, died suddenly, following an attack of influenza.

Louis Botha was born at Greytown Natal, in 1863, and was a member of the first Volksraad of Transvaal, in which he represented the district of Vryheid.

At the beginning of the Boer war in 1899 he was Veldt-Colonel for that district. During that period he soon rose to several commands. He was in charge of Boer forces at the battles of Colenso and Spionkop, and fol-

Gen. Botha

lowing the death of General P. J. Joubert, he was made commander-in-chief of the Transvaal Boers. After the fall of Pretoria he reorganized the Boers with a view to prolonged guerilla

Following the peace negotiations Botha took a leading role in period of reconstruction. After the grant of self-government to the Transvaal in to form a government. From this position he resigned in December, 1912, owing to dissension in the cabinet, but was immediately asked to form a new government. At the outbreak of the great war in 1914 Botha took command of the Union forces in Southwest Africa, achieving a complete success over both rebels and the Germans.

LABOR MEET OCTOBER 6

All Organizations Will Be Represent ed by Delegates

Washington.-The conference called by President Wilson to discuss relations between labor and industry will meet Oct. 6 and will be composed of 5 persons selected by the chamber of commerce of the United States, 5 by the National Industrial Board, 15 by the American Federation of Labor, 3 by farming organizations, and 3 by investment bankers, and 15 by representatives of the public.

Ironmaster's Will Leaves Estate té His Widow.

New York.—Having given away more than \$350,000,000 during his life-time, Andrew Carnegie died leaving a fortune of between \$25,000,000 and \$30,000,000, according to his will, which was filed for probate here. It was his oft-repeated intention to die a poor man. The will disposes of \$960,000 to public and charitable institutions and leaves annuities of approximately \$300,000 to friends and relatives, including \$10,000 each to former President Taft and Premier Lloyd George of England, and \$5,000 each to Mrs. Theodore Roosevelt and Mrs. Thomas J. Preston, widows of former presidents.

Mrs. Carnegie, his widow, is left the remainder of the estate.

Wilson to Review Fleet at Seattle. Seattle.-President Wilson will review the Pacific fleet here at 4 p. m., Saturday, September 13.

Chicago Firm Buys Doniphan Barracks Lawton.-Buildings of Camp Donishan at Fort Sill, were sold to Harris Brothers of Chicago for \$61,000. Twenty thousand men from Missouri and Kansas were trained at Camp treaty and also to ask the government Doniphan for the Thirty-fifth division of the national army.

Six Aliens Eescape From Ellis Island New York-Six aliens who have en held at Ellis Island awaiting deion, escaped, R was announced

BAKER AWAITING FURTHER **WORD FROM DICKMAN** BEFORE ACTING.

SEE NO EXCUSE FOR ATTACK

Southern Commander Also After More Word of Shooting of Aviator McNabb by Mexican Soldiers.

Washington.-The war department will await an official report from Major-General Dickman, commander of the southern department, Secretary Baker said, before considering the question of whether some action shall be taken against the Mexicans who fired on an American army airplane on the Rio Grande, wounding one officer. Until some report was received Mr. Baker declined to speculate on what line the department's action might take.

In military circles the firing upon the army fliers was considered far more serious than the recent detention of two other aviators for ransom. All army machines are plainly marked, it was said, and the reports from the border would indicate that Captain McNabb's airplane was either on the American side or was following the river—the international boundary at this point. In either case, it should have been immune from hostile attack.

The fact that press dispatches referred to repeated "volleys" from the by congress. Mexican side also was considered significant as indicating that the assailants were under some sort of military command.

Reports persist here that General Dickman has authority to meet such situations without waiting on his superiors, by sending a column across to capture or scatter the offenders and to clean up the district in which they committed the objectionable action.

It would not come as a surprise to many officers if dispatches related to a southward movement by cavalry.

Carranza's Message Sincerity Doubted. Washington. - Officials here read with interest the summary of Presi-

dent Carranza's message to the Mexican congress, but were disinclined to discuss it.

It was pointed out, nowever, that United States and Great Britain. there seemed to be nothing to indicate that Carranga contemplates any leum deposits belong to the nation tain and the United States. and that confiscation of property of foreigners is to be expected by some legal means. The statement that the government was willing to conciliate the oil interests was regarded with question, as it was pointed out that nothing in announced intentions on the part of the Mexican government has indicated a willingness to protect the rights of foreigners acguired prior to the enactment of the present constitution. The fact that ninety per cent of the property of the American oil companies is admittedly to be confiscated as undeveloped land is regarded as significant.

President Carranza's reference to the Monroe doctrine, declaring that Mexico did not and would not recognize it caused no surprise in official circles for his attitude on that American policy has long been known.

Correll Slavers Caught. Mexico City.—The federal authorities in Tampico report the capture of five rebels, among whom were the assassins of John N. Correll, an American of Ada, Okan, who was slain south of Colonia, in June.

CARNEGIE LEFT 25 MILLION MANY QUIT THE SOCIALISTS

War and Radicals Blamed for Big Loss to the Party

Chicago.-War and the withdrawal duced the membership of the national socialist party in this country to 42, which the late autocratic government 217, according to a report read at the at Vienna in close association with the convention of the organization. Be rulers of Germany had long prepared fore the war the socialist party claimed a membership of 117,000.

The delegates applanded for several Emma Goldman would be released from prison soon. The new communist party of America adopted a platform after wrangling over the phraseology nearly all day. It declares the party in full harmony with the revolu-

tionary parties of all countries. John Reed, of New York, presented the report of the committee on program and labor, which was said to be the most radical declaration of principles ever issued by a political party in the history of the country.

Canada Against One Article Ottawa, Ont.-Strong opposition to article X of the league of nations covenant is developing here. At a caucus of liberals last week it was decided to ask for more time to study the for more information with regard to article X and the obligations Canada must assume in the event of ratification. As a result of this decision Sir Robert Borden and D. D. Mackenzie, the opposition leader, held a conference and agreed to postpone debate on the treaty for & week.

COMMITTEE REPORTS TREATY WITH AMENDMENTS AND Southwest News RESERVATIONS

Fight New Transferred From the Committee Room to the Floor of the Upper House

Washington.—The senate foreign relations committee has finished its work on the peace treaty with Germany, and after adopting four reservations to the league of nations covenant, ordered the treaty reported to the senate with about two score amendments previously incorporated.

The treaty signed at Versailles on June 28, and submitted by President Wilson to the senate and referred to the committee July 10, now passes, so far as the United States is concerned, into its final stage—that of open consideration by the senate for ratification or rejection. Committee action was deferred on the special treaty to protect France and on other treaties submitted

A minority report by the democrats opposing both amendments and reservations is to be filed and it is expected that acual considration of the treaty will begin about September 15.

Conclusion of the committee's work -which has taken nearly two months -came somewhat unexpectedly at a special executive session of three hours' stormy debate which divided both the republican and democratic membership.

The Reservations First: "Unconditional withdrawal

of the United States from the league." Second: Refusal of this nation to assume any foreign territorial guarantees under article ten of the league covenant or mandate without action

Third: Exclusive action by the United States on domestic affairs. Fourth: Interpretation of the Mon-

roe Doctrine solely by this nation. The amendments, briefly, provide: For return of Shantung to China under the amendment of Senator Lodge to substitute "China" for "Japan" in the Shantung section.

For withdrawal of the United States from representation on the numerous international commissions. (This amendment was by Senator Fall, republican, New Mexico, and involves about 35 textual changes.)

For limitation of the authority of American representatives on the reparations commission to act with direction of their government, except on shipping questions.

For equal voting power in the ague council and assembly of the For a prohibition against British colonies voting in league deliberarecession from his position that petro- tions on questions between Great Bri-

AUSTRIANS CAUSE OF WAR And Now They Can't Shift the Re-

sponsibility. Paris.-The note transmitting the allied reply to the observations of the Austrian delegation on the conditions peace, addressed to Karl Renner and signed by M. Clemenceau, as president of the council follows:

The people of Austria, together with their neighbors, the people of Hungary, bear in a peculiar degree responsibility for the calamities which have befallen Europe during the last

"The war was precipitated by an ultimatum presented to Serbia by the government at Vienna and requiring acceptance within 48 hours of a series of demands which amounted to the destruction of the independence of a neighboring sovereign state. The royal government of Serbia accepted within the prescribed time all the demands except those which involved the virtual surrender of its inde-

pendence. "Yet the then Austro-Hungarian government, refusing all offers of a conference of conciliation on the basis of that reply, immediately opened hostilities against Serbia, thereby deliberately setting light to a train, which led directly to a universal war.

matum was no more than an insinand for which it considered the time had arrived. The presence of Austrians guns at the siege of the Liege minutes when a report was read that and Namur is further proof, if proof were required, of the intimate guilt of Austria and the Austrian people."

Prohibition Party in Field. Chicago.-Declarations that law enforcement is the greatest issue in the United States and that the prohibition party should be perpetuated with law inforcement as the dominant feature of its policy, was loudly applauded by members of the national committee of the party in session here. It is regarded as certain that a national convention will be held.

Bomb Thrown at Egyptian Premier London.-An unsuccessful attempt was made to assassinate the Egyptian premier with a bomb during a demonstration at Cairo said an Exchange Telegraph dispatch from that city. The bomb was thrown wile the premfer was en route to his office. The would-be assassin was arrested. He was a theological student and made no effort to escape, said a news agency dispatch from Alexandria. He had concealed the bomb in a basket of grapes. The city is quiet, the dis

thirteen miles east of Tucumcari, N. The assessed valuation of the state of Arizona has increased \$21,000,000 during the past year, according to figures arrived at by the State Tax Commission sitting as a state board of

equalization. The cider presses in the Pecos valley have started on the season's work, the run being on the early variety of apples. Robert Beers of the Capitan orchard expects to make 20,000 gallons of cider during the season which will call for the grinding up of from ten to twelve thousand bushels of apples.

The City Commission has donated to the Arizona Organization of the American Legion a quarter of a city block on the edge of the business district as a site for the state headquarters building. The donation, which was not solicited, is conditional upon the legion's agreeing to erect a building costing \$75,000 or more.

Union county, New Mexico, has a county farm and livestock bureau, which has filed its articles of incorporation with the State Corporation Commission. The bureau represents more than 5 per cent of the total of the farmers and livestock men in Union county, and is organized under plans approved by the Agricultural College. It is for mutual benefit, but not for

of being the wealthiest in Arizona, ac- judgment. cording to a table released by the State Tax Commission at Phoenix, It 473.34. They are especially interesting years. In 1902 the valuation was about four million.

A memorial to the boys of the county who paid the greatest price to the war will be erected in the yard of the Bernalillo county court house, according to the plans made at the meeting of the county commissioners. The monument is to be a large granite boulder from the Sandia mountains. upon which will be a bronze tablet giving the names of the soldiers who lost their lives during the war.

Construction of a great hydro-electric power plant in White Rock canon on the Rio Grande, forty miles north of Albuquerque is a feasible and practical commercial undertaking. The demand for electric energy in the district embraced in a radius of thirty miles of the proposed plant site has nearly doubled within two years, having increased from 34,000,000 k. w. hours in 1917, the date of a preliminary report, to 68,800,000 k, w. hours in 1919. These are the outstanding features in a report of Waldo C. Cole, commercial engineer of the Westinghouse Electric and Manufacturing Company, upon the proposed plant of the Rio Grande Light, Heat & Power Company in White Rock cafion.

Approximately 1,000 coyotes have been killed in northern Arizona this year, according to a statement given out at Flagstaff by M. A. Musgrave, of the Federal Biological Survey, who has charge of measures in this state for control of predatory antmals. Musgrave declared predatory animals in Arizona did \$2,000,000 worth of damage to livestock each year. Announcement has been made by the

Arizona State Fair Commission that the famous "Victory Show," consisting kept separate all confusion will be of joint exhibits of government departments will be shown during the week of November 3rd, as one of the worth while features of the 1919 fair. One of the biggest features of these exhibits will be made up of trophies and other enemy material captured on the battlefields of France by American soldiers. The captured articles, including almost everything from a big trench mortar to a canteen, have just been brought to this country and have never before been on exhibition. With them will be shown military and naval equipment of the American forces, in addition to displays from other departments of the government.

Raton.-Word has been received at Raton that the molybdenum mines which have been shut down for some time will resume operations in the near future. The company is now hiring men and teams and have a long term contract for their output of concentrates. The operation of the mines will start at once.

According to Secretary Alexander nearly two thousand carloads of alfalfa hay were shipped out of Yuma, Arizona, last year and this total will be increased anywhere from 50 to 100

LESSON FOR SEPTEMBER 14 THE JUDGMENT OF THE NATIONS.

LESSON TEXT-Matt. 25:31-46. GOLDEN TEXT-For we must all ap-pear before the judgment seat of Christ--II Cor. 5:10. Frank Strickland, of Vaughn, Guada-

The subject selected by the lesson committee is "The Future Life," but at best such a statement would be the use of the term in an accommodated sense. According to legitimate textual and contextual signification it is the judgment of the living nations were killed when the train turned over which lies still in the future (v. 32). The idea of a general judgment which is of such frequent occurrence in religious literature and teaching is a fundamental error. It is not once found in the Bible, neither the idea which it is intended to convey. Doctor Pentecost most distinctively says. "It is a mischievous habit that has led the Christian world to speak of the judgment as being one great event taking place at the end of the world, when all human beings, saints, sinners. Jews and Gentiles, the living and the dead, shall stand up before the great white throne and there be judged. Nothing can be more wide of the Scriptures." The Bible speaks of different judgments, differing in respect to the subjects to be judged, the place of judgment, the time of judgment and the result of the judgment. This is not the judgment set forth in Revelation 20:11-14, but precedes

that one at least one thousand years. I. The Judge (v. 81.).

It is the Son of Man, the one who came and died to redeem the human race, and who now being clothed with majesty and power will act as judge. Those who accept him now shall not come into the judgment (John 5:24).

II. The Time (v. 31). This will be when the Lord comes in his glory, accompanied by a retinue of glorious angels. This will take place after he has gathered the elect remnant of Israel. There will be no Cochise county bears the distinction resurrection in connection with this

III. The Place (v. 31).

It will be on his glorious throne. leads all the state in taxable wealth. This throne will be most surely in the The Cochise figures are \$172,142, land of Israel. The Prophecy of Joel. third chapter, and Zechariah 14:1-5 in comparison with the assessed valua- make it to be in or near Jerusalem. tion of the county published eighteen The angel said to Mary, "Thou shalt call his name Jesus; he shall be great and shall be called the son of the highest; and the Lord God shall give unto him the throne of his father David: and he shall reign over the house of Jacob forever, and of his kingdom there shall be no end." (Luke 1:31-33). Just as there was a literal place and a literal king there shall be a literal

> IV. The People Judged (vv. 32-45). These will be the living nations upon the earth after the church has been translated (I Thess. 4:16, 17). These are the nations to whom the gospel of the kingdom shall be preached, just prior to the coming of the end. "And this gospel of the kingdom shall be preached in all the world for a witness unto all nations and then shall the end come" (Matt. 24:14). This gospel is distinguished from the gospel of the grace of God which is now being preached. The preachers of this gospel will be Jews (Rev. 7 and Rom. 11). These are the brethren in the flesh, of the Lord, they that move among the nations of the world with the startling message of the news of the Lord's approaching kingdom. Some of the nations will gladly receive the message and most kindly receive the king's messengers, giving them clothing, food, shelter, etc. Others will persecute them, thrusting them into prison, etc. Here the former will visit these messengers of the king and provide for their wants. At this time the judge will separate the nations, placing the sheep on the right and the goats on the left. The "sheep" are those who have given proper treatment to Christ's brethren. The goats are those who rejected and ill-treated his brethren. If these three classes, the "sheep," "goats," "brethren," be a foided.

V. The Issue of the Judgment, (v. 46,

1. The sheep enter upon the inheritance of a prepared kingdom (v. 34). 2. The goats go into an everlasting fire prepared for the devil and his angels (v. 46). This judgment shall determine their destiny. The Secret of Comfort.

The chief secret of comfort lies in not suffering trifles to vex us, and inprudently cultivating our undergrowth of small pleasures, since very few great ones, alas! are let on long leases. -Sharp.

Love Thy Neighbors. I would tear out my own heart if it had no better disposition than to love only myself, and laugh at all my neighbors.--Pope.

Live by the Day. The secret of a sweet and Christian life is learning to live by the day. It is the long stretches that tire us.

A Hope Begun. Immortality does not consist of an argument completed, but in a hope begun.-Newell Dwight Hillia.

Peace or War? Dorothy Is Forced to Choose.

Synopsis - Geoffry Carlyle, master of salling ships at twenty-six, is sentenced to 20 years' servitude in the American colonies for participation in the Monmouth rebellion in England. Among the passengers on board the ship on which he is sent across are Roger Fairfax. wealthy Maryland planter; his niece, Dorothy Fairfax, and Lieurenant Sanchez, a Spaniard, who became acquainted with the Fairfaxes in London. Carlyle meets Dorothy, who informs him her uncle has bought his services. Sanchez shows himself an enemy of Carlyle. The Fairfax party, now on its own sloop in the Chesapeake bay, encounters a mysterious bark, the Namur of Rotterdam. Carlyle discovers that Sanchez is "Black Sanchez," planning to steal the Fairfax gold and abduct Dorothy. He fights Sanchez and leaves him for dead. In a battle with Sanchez' followers, however, he is overpowered and thrown into the bay. In a desperate effort to save Dorothy, Carlyle decides to swim to the Namur. By a ruse he gets aboard and mingles with the crew. The pirates return to the Namur with Dorothy, the captured gold and Sanchez, badly wounded but still alive. Carlyle finds a friend in Watkins, an English sailor. Estada, acting captain, makes Carlyle first mate of the Namur.

lea oc-ys, led hie id, in-ng be of re-he-ls-nt.

CHAPTER XV. -10-

The Cabin of the Namur.

spokes, and it was evident that it reuired all his giant strength to conugly-looking brute, the lower portion of his face apelike and the wool growing so low as to leave him scarcely an inch of forehead. His eyes lifted an instant from the binnacle card to glance at me curiously. They exhibtted no flash of recognition.

For half an hour Estada hung about aft, apparently paying no attention to me, and yet watching my movements closely. There was little to be done, but I thought it best to keep the watch reasonably busy, so they might thus learn that I knew my work. They proved prompt and capable enough, although I was eyed with some curiosity when I first went forward, and, no doubt, was very thoroughly discussed behind my back. The idlers amidships were a totally different class—a mongrel scum, profanely chatting in Spanish or swaggering about the deck, their very looks a challenge. However, they kept out of my way, and I found no occasion to interfere with their diversions. After Estada left the deck the majority amused themselves gambling. and as I had received no orders to interfere I permitted the games to proceed. Mondez interfered only once on occasion of a brief fight. My only instructions from the Portuguese on his going below was to call him at ence if a sail was sighted. Apparently he was satisfied of my ability to command the deck.

No occasion to call him arose during my watch. It was still daylight, but with a purple gleam across the waters, when LeVere arrived on deck for my relief. We were talking together abaft the wheel when Estada appeared in the companionway.

"Every promise of a clear night," he said, glancing about at the horizon. "Better change the course two points, with you honorably; I have reason to Levere; we are lying in too close to believe that to be his purpose now. the coast for our purpose. The table Nothing will change his purpose. He call will come very shortly, Senor is that kind, and he has the power. Gates."

I washed up hastily in my stateroom and came out into the cabin made to by force. You are here now perplexed as to what might occur by his orders and will remain until within the next few moments. Yet you consent to his purpose—all that whatever the result there was no remains for you to decide is whether avoiding it. My every move was one you choose to be prisoner or guest of extreme caution.

Estada and Estevan awaited me. The latter was all rigged out, and with smooth black hair oiled and plastered differently. down upon his forehead. I never beheld a more disagreeable face, or one which so thoroughly revealed the naat Estada's brief introduction, it was as if I fingered a snake.

"This is your chair, Gates, and you will find we live well aboard the Namur-wine, women and song-hey. Of what rank in this company are Manuel! Why not, when all are at you?" command? Steward, you told the lady what my orders were. Then bid her first officer, now, by occasion of Cap-

We stood in silence, as Gunsaules crossed the deck and inserted a key the expression on the face of Estada was that of grim cruelty. I felt my here." hands grip like iron on my chair back and my teeth clinch in restraint. God,

"You sent for me? For what?" she arouse suspicions. asked, her Spanish clear and well

unmoved. "It is better than to remain alone."

"Better! You must have a strange opinion of me to believe I would sit with murderers and thieves."

"Harsh words, senorita," and Estada grinned grimly. "Yet I expected them. There are many trades in the world ward, but Estada remained for some quently burrow right into the heart by which men are robbed. We only work at the one we like best; nor will I discuss that with you. However, even he finally became discouraged of in a natural history of the army senorita, I can say that we have taken making her comprehend his meaning, worm's hurtful ways. During the sumno lives in this last affair."

Both huge, black hands grasped the surprise. "You mean my uncle lives?" complished so graciously as to leave later it aroused apprehension. hose room the chest was hidden, I trol the bucking wheel. He was an can only reply truthfully that he lives.

One of my men struck him down, but it was not a death blow. If that be the reason of your disdain there is no cause. This chair is held for you." "But why was I brought away a prisoner? To be a plaything? A sport for your pleasure?"

"That was but the orders of our chief; we await his recovery to learn his purpose,"

"Sanchez! Was he your chief? A pirate?"

"A buccaneer; we prey on the enemies of Spain. It was at Captain Sanchez' orders we waited the arrival of your vessel from England. He loved you; he would no doubt have dealt

He determined that if you would not come to him by choice you should be aboard."

"And if he should die?" Estada shrugged his shoulders in-

"Who knows?"

Her lips tightened as though to hold

back a cry while one hand pressed to ture of a man. As I touched his hand, the open door steadied her. There was a look in the searching eyes I did not like to see. It was a moment before she could control her voice.

"I have heard them call you Estada.

"I am Pedro Estada, formerly the tain Sancher' wound, in full commend.

Her eyes dropped, and I could dis-tinctly note the trembling of her slender figure. When she slowly rais her glance once more it rested on my face as though seeking approval, guid-

"If there be only the one choice," she said quietly. "I accept peace. I cannot live locked in that room alone haunted by my thoughts and memories. If I pledge you my word, senor, am I to ajoy the freedom of this cabin and the deck?"

Estada looked at us, a shade of doubt in his eyes. I made no sign, but Manuel nodded.

"Why not?" he asked in his harsh roak of a voice. "So long as we be at sea? What harm can the girl do?" "Perhaps none; I will take a half chance, at least. You shall have the freedom of the cabin. So long as you in the after stateroom door. Manuel keep your word, while as to the deck, was grinning in full enjoyment, but we will consider that later. Prove you mean what you say by joining us

"Gunsaules, you need not lock the senorita in her room or guard her in any way hereafter. She is permitted to come and go as she pleases aboard." Estada entered his own stateroom, leaving the door ajar. When he came out he had exchanged his coat for a rough jacket. Thus attired for a turn on deck, he disappeared through the companion.

CHAPTER XVI.

In Dorothy's Stateroom.
I stood crouched, with eye at the crack watchful of every movement in the lighted cabin, my own decision made. I must see and talk with Dorothy. Gunsaules turned down the light and departed along the passage leading amidships. A moment later I heard the sound of dishes grinding together preparatory to being washed. No better opportunity for action was likely to occur, although the situation was not without peril. I crept along close to the side walls, lifted the latch noiselessly, and slipped quickly within. There was no light, except a glimmer of stars through a large after port, but against this faint radiance she stood vaguely revealed. Her first thought must have been Estada, for there was a startled note in her challenge.

"Who are you? Why do you come here?"

"Speak low," I cautioned. "You must know my voice." "Geoffry Carlyle!" "Yes, but do not use that name all

hope depends on my remaining un known. You welcome me?" She came straight forward through

the dim star shine, a spectral figure, with both hands outstretched. "Welcome!" her tone that of intense sincerity. "Your presence gives me all the strength I have. But for you I should throw myself through that

port into the sea. But I know not how you came here—tell me, you are not one of these wretches?" "No; you must believe that first of all, and trust me."

"I do-but-but tell me all you can." "Is there a divan here, or anywhere we can sit down together? I can see nothing in this darkness."

Carlyle saves Dorothy from death at the hands of a mysterious intruder but is unable to account for the sudden attack in the night. There is some dark plot behind it all. What will morning disclose?

Experts or Theorists— Which?

The packing industry is intricate, complex—far more so than the railroads or the telegraph.

Every day multiplying needs of society increase its problems and multiplying responsibilities demand more of it.

Highly trained experts, specialists of years' experience, thinkers and creative men, devote their lives, their energies, their activities, to solving the problems of the packing industry and meeting its widening duties.

Swift & Company is not a few dozen packing plants, a few hundred branch houses, a few thousand refrigerator cars, and a few million dollars of capital, but an organization of such men. It is the experience, intelligence, initiative and activity which operates this physical equipment.

Can this intelligence, this experience, this initiative and creative effort which handles this business at a profit of only a fraction of a cent per pound from all sources, be fostered through the intervention of political theorists, however pure their purposes? Or be replaced by legislation? Does Congress really think that it can?

Let us send you a Swift "Dollar".

It will interest you.

...State University of New Mexico... AT ALBUQUERQUE

Will Open October 1, 1919

REGISTRATION DAYS

Monday, September 29

Tuesday, September 30

DAVID S. HILL, PH. D., LL. D., President

-LEADERSHIP-

The world today needs trained, loyal leaders. Notwithstanding that less than one-half of one per cent of the population of the United States is enrolled in colleges and universities, college men and women have predominated remarkably in leadership. College and university enrollment should be doubled for the good of the country. The University of New Mexico invites ambitious young men and women to prepare for leadership.

-OPPORTUNITIES-

The University is undergoing reorganization and betterment. Special attention will be devoted to the conservation of the health of students. A new department of Hygiene, supported in part by Federal appropriation, will be in operation. Nearing completion is the new building for Practical Mechanics. Instruction offered in Mathematics, Biology, Chemistry, Physics, Geology, History, Political Science, Economics, Business Administration, Home Economics, Education, Hygiene, Psychology, Philosophy, Physical Training, Music and Languages, including English, Spanish, French, Italian, Latin and Greek. Courses preparatory to Law, Medicine and Mechanical Engineering.

Curricula in Chemical, Electrical, Civil and Geological Engineering.

Regular courses leading to the Degrees: Bachelor of Arts, Bachelor of Science and Master of Arts.

-RESERVATIONS-

Residential accommodations are limited. Prospective students should immediately address inquiries and requests for

PERSONS OF ROYAL DESCENT

In Natural Course, Millions Might Lay Claim to Blood of William the Conqueror.

There are more claims of descent from William the Conqueror than from my monarch in the world, and in most cases a descendant of this king comes down a line of 15 or 20 other royal personages, although sometimes the cent from monarch to plain, untitled yeoman seems to have been acplished in two or three generations. There is practically no limit to his descendants today and one genealogist says this fact is accounted for by the statement that, according to the regular proportion of increase in each reperation since his time, the descendants of William the Conqueror would now number more than twice the present population of the British isles. So, arse, it is very easy to see how many of them came over to the United

Large Seismological Library.

Dr. J. C. Branner of Leland Stanford university has purchased the seismological library of Count F. de Monteasus de Ballore, director of the seismological service in Chile, and presented it to Stanford university. This is said to be one of the largest collections of seismological literature in existence, and is accompanied by a manuscript catalogue including some 5,000 titles.—Scientific American.

WHEAT GROWERS SHOULD WORK TO AVOID LOSSES TO 1920 CROP BY HESSIAN FLY

Development of Hessian Fly From Egg to Adult.

(Prepared by the United States Department of Agriculture.)

Losses to the winter wheat crop from Hessian fly have been rather wide spread. Losses are reported in the Shenandoah and Cumberland valleys. Straw-fallen wheat due to this of clover and forage grasses. cause was commonly observed in these regions where the percentage of infestation by the Hessian fly has very materially increased this year. Reports received from the western half of the Mississippi basin also indicate increased abundance of the pest. No Remedy for Pest.

Growers of winter wheat should put into practice at once measures advocated by the United States department of agriculture to avoid losses to the is no remedy for the pest when once it takes possession of a crop of wheat. Injury can be prevented solely by keepthe fly out of the wheat. The department experts say the following meth-

1920 crop by the Hessian fly. There ods are effective:

by local farm advisers or state experiment stations. Community action in these measures is absolutely essential to complete suc-

"Well, if it is not a question of STORAGE HOUSES IN DIFFERENT SECTIONS

Insulated Potato House Is Best Adapted to South.

Aroostook Type is Distinctively a Product of Maine and Confined Largely to That State-West Uses Storage Cellars.

Prepared by the United States Department of Agriculture.)

The insulated potato house is not used extensively, and as a rule is better adapted to southern than to northern climates. The construction feature of such a house is the thorough insulation of its walls, ceilings, doors and windows. In northern locations such a house must be heated by a

The Aroostook type of storage house, with concrete or masonry walls and wooden superstructure, is distinctively a product of Maine and confined largely to that state. It is expensive and is always located on a side hill or knoll in order that advantage may be taken of a ground level entrance. The basements are usually from 8 to 12 feet deep, and most of them have a capacity of sevtrapdoors in the floor through which the filling of the bins is completed.

These houses, although practical in Maine, will never supersede the dugout pit or storage cellar now used in the middle and far western states. Each of these types of storage has distinctive features which peculiarly adapt it to its own environment, but do not necessarily preclude use in other localities.

The artificially refrigerated potato storage house is confined practically to the storage of northern grown seed potatoes held in cold storage for second crop planting in the South. It is thought that community cold-storage plants of this type could be profitably used by the southern truck growers.

PREVENT WASTAGE ON FARMS

Among Other Things There May Be Spots That Wash, That Overflow or Are Poorly Drained.

Look out for the waste places on the farm. Some of these may be on fields that wash; some may be on the overflowed fields; some, the poorly drained places. The barnyard manure may be wasting; the implements being left out in the weather to deteriorate. The waste may be in trying to do with the hands what should be done with implements and machines. Look for wasted energy and orous birds, whether they are for wasted opportunity.

TOAD IS FRIEND OF FARMER

They Are Useful Guardians of Grow ing Plants and Vegetables-Devour Many Insects.

Despite its general unpopularity. the toad is a harmless, interesting and valuable creature. While the toad is often thought to be poisonous, the fluid which comes from a gland behind its eye is not harmful to human beings unless it comes in contact with a tender part of the body, such as the eye or lip. Toads change their skin periodically by splitting the old skin down the back, peeling it off like a jersey and swallowing it. They are also useful guardians of growing plants and vegetables since they eat all sorts of insects. Their chief weapon against their enemy, the snake, is their ability to inflate their bodies to twice their normal size, thus making it difficult for snakes to swallow them.

ATTENTION TO SANDY SOILS

Very Deficient in Organic Matter and Are Subject to Blowing-Straw Covering Helps.

Sandy solls are very deficient in organic matter and are subject quite seriously to blowing. If such fields are covered with straw it will prevent eral thousand barrels. Generally the this damage to a great extent. It only provision for ventilation is by will also add considerable to the humus content by increasing the organic matter in the soil, and the soil will Occasionally a ventilator is found in hold a much larger per cent of moisture. Consequently it will be far superior to a soil that is deficient in organic matter. The straw spreader is very practical.

BEST EQUIPMENT FOR GARDEN

No One Can Enjoy Work With Crude or Unsultable Implements-Work is Made Easy.

Garden equipment is essential for best results in making a garden. No one can enjoy work with crude or unsuitable implements. All realize how easy hard work may be with the right kind of facilities for doing it. This is true in garden work. Garden implements cost so little in comparison to their value that no one can afford to get along without them. The same may be said of farm implements and needed equipment in general.

GROWING HEALTHY CHICKENS

Among Other Things Shade, Fresh Water, Clean Coops and Ventilation Are Important

Shade, clean, fresh water, clean coops and colony houses, and good ventilation and plenty of room during the night are of the greatest importance in growing healthy, strong, vigneat, eggs or breedir

Acid-Stomach

Millions of people—in fact about 9 out of 14—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloat after eating, foed repeating, sour, gassy stomach. There are many aliments which, while they do not cause much distress in the stomach itself, are, nevertheless, traceable to an acid-stomach. Among these are nervousness, billiousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year. The right thing to do is to attack these aliments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it assy to do this. One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pains in my bowels disappeared. EATONIC is just the remedy I needed."

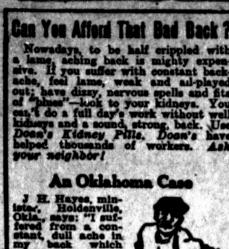

We have thousands of letters telling of these marvelous benefits. Try EATONIC and yea, too, will be just as enthusiastic in its praise.

Tour druggiet has EATONIC. Get a big tee box from him today. He will refund your money if you are not satisfied.

The Possibilities of Peat. The Commercial museum of Phila-

delphia has been holding a large exhibition to illustrate the possibilities in the utilization of peat. There are about 11,188 square miles of peat bog in the United States, capable of producing more than 12,000,000,000 tons of fuel. The exhibit shows how, apart from its use as fuel, peaf may be spun into yarn, made into paper, used for packing, etc. It is valuable as a preservative, as it contains large amounts | cold water), then placed in a warm hat. of humic acid. Ground up peat may also be used as a filler for fertilizer. a filler for stock feed, such as molasses. Its manufactured products include insulations, soundproof boards, paving stones, and alcohol,-Scientific American.

Arithmetic.

"Charley, dear," said young Mrs. Torkins, "would you mind belping me with a little bit of arithmetic?" "Not at all."

Some people can't even be crazy without attracting attention.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHIII TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic valu

GROVE'S TASTELESS CHII TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic prop-erties never fall to drive out impurities in

The Strength-Creating Power of GROVE'S TASTELESS Chill TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

"I Was So Weak That I Could Not Walk

Rich-Tone Is Making Me Strong and Healthy."—Says F. Maese.

"I was so very weak and nervous, had lost all my appetite and had become in such a bad physical condition that at times I could not walk. I saw your advertisement on Rich-Tone and am now taking it. I feel so much better that I take pleasure in recommending Rich-Tone to all my friends as the very best tonic in the world."

Take RICH-TONE and gain new energy

Rich-Tone makes more red corpuseles, epriching and purifying the blood. It contains all of the elements that are needed most in meintaining strength and vigor. Rich-Tone rests the tired nerves, restores appetite, induces healthful sleep—it gives you all those things which mean energy and well-being. Get a bottle teday—only \$1.00 at all deep stream.

Cleaning Suits at Home. in cotton that go by that name-are cleaning, and cleaning done by professionals has become expensive. The Palm Beach suit is apt to prove a costly luxury unless it can be cleaned at home. The process which follows is about the same as that used by professionals, except that they have special facilities for pressing. But if one has a sleeve board the pressing ought

not to present any very great difficulty. Before washing, garments should be run in gasoline to remove grease or oily matter of any kind, allowing them to remain for five minutes. For washing, make a suds of lukewarm water and a good neutral soap. Wash in this suds for about fifteen minutes and rinse three times thoroughly.

After washing, the suits should be carefully examined for remaining stains, such as grease, paint, varnish and stains from automobile sents. Stains of this nature should be scrubbed with a brush and a good quality of soap. A few drops of carbon tetrachloride should be dropped on the stain and worked into the soap.

Fruit stains should be treated with a warm perborate of sodium solution, with dark costume has a brim of from a valley to the front line on the using one ounce of perborate to a pint of warm water. The spot is immersed in this solution from five to around the crown and made into a fifteen minutes. Ink stains should be small bow across the back. Blue and treated with a weak solution of muri-

solution of perborate of sedium until Summer suits made of Palm Beach the spot has turned pale brown. Then cloth—that is, of strong, plain weaves touch with a crystal of exalic acid, and rinse. Dye stains are often found on cool and serviceable and they are very this class of goods, such as red from popular. But they require frequent plush-covered seats on railway trains. This stain yields to perborate of sodium treatment.

After the garments have been rinsed they should be only partially dried before they are pressed. Iron with moderately hot iron on the wrong side and use hangers for both coats and skirts when they are put away.

Veils Return With Small Hats.

The veil is very much in demand for wear with the small hat or the toque, particularly a large square style with a silk hexagonal mesh in black, maroon, beaver, or blue, and a border more or less lavishly embroidered in chain stitching. One of these vells has a hexagonal mesh, bordered with a row of large embroidered pastilles; another has a square meshed foundation in a filet pattern, the troops who were in mountain surrounded by a large Greek border embroidered in silk.

Lift off Corns!

Doesn't hurt a bit and Freezons costs only a few cents.

With your fingers! You can lift of any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!-Adv.

DOGS HELPED DEFEAT HUNS

Splendid Work of Alaskan and Labrador Animals in the Alps and Vosges Mountains.

Alaska and Labrador served the cause of the allies in one especially interesting way by contributing the motive power for the sleds that kept trenches supplied during the dead of winter. In four days after a heavy snowfall, writes a contributor to the National Geographic Magazine, one kennel of 150 dogs moved more than fifty tons of food and other supplies sled dogs helped to hold back the Germans during the last year of the war. One woman brought back to Ameri-

atic acid first (ten drops to a pint of maize-colored wheat give color to the ca a Croix de Guerre awarded by France to her dog teams. The deed that won them that honor was their saving of a storm-bound, foe-pressed outpost in the French Alps. Dispatch bearers had been sent back with requests for ammunition, but they failed to get through the blinding blizzard. At last the situation became desperate; only quick action could save the being offered some she said: "Oh, no, post. Lieut. Rene Haas hitched his I never drink milk by heart; I only dogs to a light sled and managed to like it with tea or coffee. make the long and perilous trip down to the army base.

There he hitched the 28 dogs to 14 light sleds that the soldiers loaded with ammunition. Back over the forbidding trail they went, under artillery fire, and facing a bitter wind. On the fifth day at sunrise the panting dogs reached the outpost. Their burden of ammunition was immediately rushed to the gunners and the mountain was saved.

After-War Bulletin From the Rhine. The "Sally Anns" visited D company Monday and put over a doughnut and ice cream barrage, which was met with great resistance. Having inflicted a heavy loss (doughnuts and ice cream) in the taking of the first objective, they went in for seconds, and got 'em, too! It is thought that the "Sally Anns" are preparing a counter-attack -let 'em come; we won't budge an inch, as the last assault raised our morale wonderfully.-Bridgehead Sen-

KIDNEYS WEAKENING? BETTER LOOK OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don: trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you feel that you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1696 the govern-

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound.'

How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could

get well.
"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St.,
