NO BOYCOTT HERE — "Sales as usual" was the word from local butchers as the national beef boycott took hold in some parts of the nation. Local checks showed the meat cases stocked as usual, with shoppers dropping a steady supply of beef in their carts. One housewife bought a week's supply of meat, even though her deep freeze was full, to make up for those not buying beef.

Immunization clinic set Tuesday and Wednesday

Dimmitt Public Schools will host an immunization clinic Tuesday and Wednesday at the South Elementary School. The clinic will be controlled and directed by the State Health Dept.

DR. DENNIS BLACKBURN, county health officer, and Dr. Bill Murphy, city health officer, urged all school-age children and all pre-school age children who will be attending school next year to take advantage of the immunization clinic or go to their family physician for the service, to make sure they get the required inoculations.

School officials are also urging parents to comply with the state regulation and not cause undue hardships on students at the beginning of school next year.

ceived since the fourth birthday. (Polio vaccine is not required for persons 19 years of age or older.)

— Diphtheria-Tetanus: minimum of three doses, with last dose within 10 years.

— Measles: the majority of children in this group will have been previously immunized or obtained natural immunity through infection. Recommended but not required on an individualized basis if history of vaccine or illness is thought to be negative.

— Rubella: not required past age 12 years.

— Smallpox: one vaccination within the past 10 years.

— Tuberculosis: a TB test is required in grades 7-12.

INDIVIDUALS may be excluded from the immunization requirements on the basis of

medical or religious conflicts. Students who fall into these categories must submit signed affidavits as specified by law.

Students with medical conflicts must present an affidavit signed by a licensed physician stating in the physician's opinion, the required immunization would be injurious to the health of the student or his family.

Students with religious conflicts must present an affidavit signed by himself, or if a minor, by his parents, stating that the immunization conflicts with the beliefs and practice of a recognized church or religious denomination. He must be an adherent or member of that denomination.

Exemptions will not apply in times of emergency or epidemic as declared by the Commissioner of Health.

State awards FM road contracts; work to start 'as soon as clear'

Boswell and Crafton, Inc., of Lubbock has been awarded a contract for paving 10.9 miles of Farm to Market Roads 3215, 2397 and 1057 in Castro County.

THE PROJECT extends from State 86 west of Dimmitt eastward to State 194 (the Dimmitt "bypass road"), from the end of FM 2397 at the Farmer County line eastward to FM 1057; and from six miles south of Summerfield southward to State 86 at Tam Anne.

Low bid for the project was \$603,386.74. Rhea E. Bradley of Littlefield will be the Highway Dept. engineer in charge.

Bradley said all traffic will be carried through the construction with detours only as needed around culvert installations. Standard barricades with flashing lights will be used to control traffic.

IN A PRE-construction meeting last Wednesday, John T. Boswell of Boswell & Crafton said work would begin on the projects as soon as the weather cleared.

He explained that work would begin first on the Tam Anne project because a lake fill must be completed before irrigation time.

Construction time is estimated at 250 working days. Boswell said his company plans to have the asphalt on the roads this summer.

HE ALSO TOLD the group that possible fuel shortages might delay the project. The company is working on alternatives to gain fuel for its projects, Boswell said, "but if further shortages develop we may have problems finishing."

Vandalism also could be a delaying factor, Boswell said. "I would appreciate citizens living in the construction areas to notify the Highway Dept. here if they see construction signs or markers down that pose a traffic hazard," Boswell said.

"WE ARE also having problems with unknown people disturbing our equipment on the construction sites," he continued. "It delays our projects and we ask citizens to report suspicious people around our equipment. We intend to prosecute them when captured."

Easter Lions plan egg hunt

Where's a better place to have an Easter egg hunt than Easter?

THAT'S WHAT Easter Lions Club members asked themselves. Then they voted to sponsor an egg hunt in the community and make it an annual event.

The hunt will begin at 2 p.m. Sunday, and is open to all children in the Easter, Fric and Summerfield communities. Children are to meet at the Easter Community Building at 2 o'clock. Eggs will be hidden in a nearby field.

THE LIONS will serve free refreshments to children and their parents in the community building from 2 to 4 p.m. — or as long as there are children still hunting eggs.

Incumbents fall; women fail

Saturday was an unlucky day for two incumbents and four women challengers in the Dimmitt and Nazareth school trustee elections.

BOTH BALLOTS were crowded, with six candidates going for two school-board seats in Dimmitt and five vying for two posts at Nazareth.

In the Dimmitt district balloting, Charles Wales made his third bid a successful one as he led the ticket with 237 votes. Jimmy Cluck, in his first try for elective office, was just five votes behind Wales with 232 to take the second seat on the board.

Dr. J. D. Blackburn, the only incumbent seeking re-election, polled fifth with 98 votes. Blackburn was considered a victim of the recent "free shot clinic" controversy in the schools, having opposed a mass immunization clinic for students' state-required inoculations.

The other incumbent, long-time trustee Frank Wise, did not seek re-election.

TWO WOMEN candidates failed in their bids to become Dimmitt school trustees, although Mrs. Ann Touchstone polled third with 182 votes. Mrs. Kitty McGuire trailed the field with 26 votes.

Polled fourth behind Mrs. Touchstone was George Sides, who received 152. Fifteen voters wrote in the names of Donald Wright, Carl King, Jimmy Ross or Donald Gilreath.

IN NAZARETH'S school trustee balloting, incumbent W. C. Hochstein was defeated while newcomer Dan Schmucker easily led the ticket with 159 votes. The other incumbent candidate, Charles Heck Jr., polled second with 82 votes to gain re-election.

Two women candidates for the Nazareth School Board also fell short of election. Mrs. Virginia Huseman polled third with 64 votes and Mrs. Mary Acker received 30 votes. Hochstein, the incumbent, also received 30 votes.

AT HART, incumbent school trustees fared better as they polled 1-2 in a four-man field for three available seats.

Re-elected were incumbents Wamon Foster with 110 votes and Bill Rich with 83. C. R. Jones received 82 votes to gain the trustee seat vacated by W. T. King, who did not seek re-election. Cleve McLain polled fourth in the Hart race with 75 votes.

ALL OTHER elections in the county — hospital board, county school board, City of Dimmitt and City of Hart — were shown in affairs with voters giving rubber-stamp approval to proposed candidates.

However, the hospital board election brought a flurry of write-in votes, especially at Nazareth, which has no resident on the board at present.

Here are the totals in those elections:

Castro County Hospital Board: Dan Nelson 302 votes at Dimmitt, 166 at Nazareth and 102 at Hart for total of 570; Dale Maxwell 294 at Dimmitt, 157 at Nazareth and 39 at Hart or 559 total; James Welch 28 at Dimmitt, 159 at Nazareth and 100 at Hart for 546 total.

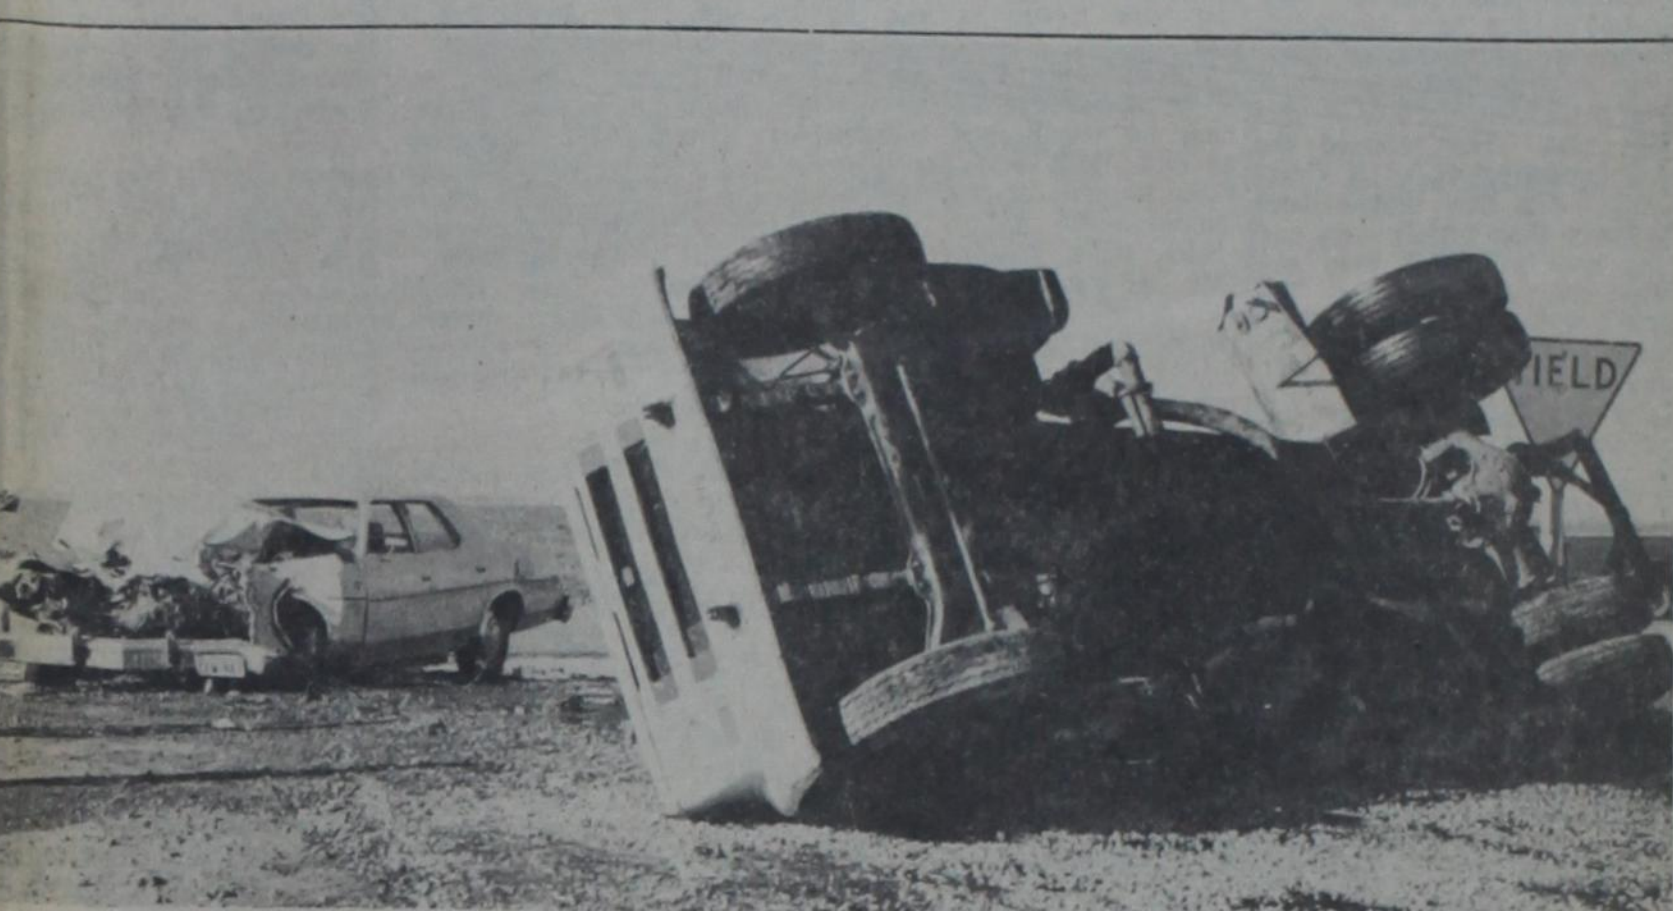

Write-ins: Trent Downing 2, Donald Wright 2, Anthony Acker 2, Dan Schmucker 2, Vincent Gerber 2, Dee Yates, M. L. Simpson, M. M. Langford, Kenneth Malone, Ed Drerup, Tom Brockman, Floyd Schulte, Cyril Brockman, Jerry Acker, Hubert Backus, James Wilhelm, Joe Drerup, Sam Albracht, Joe Warren, Charles Braddock, Edwin Schacher, Lewis Neal, Mrs. Lewis Neal, Vincent Braddock. (Hart write-ins unavailable.)

CASTRO COUNTY SCHOOL BOARD: Ivor Bagwell (at large), 312 votes at Dimmitt, 166 at Nazareth and 117 at Hart for 595 total; Jack Howell (Precinct 3), 80 votes, and Ed Drerup (Precinct 4) 125 at Nazareth and 17 at Hart for 142 total.

City of Dimmitt: Mayor Elmer Youts 69 votes; Corporation Court Judge L. G. Manning 70 votes. Write-ins for mayor: Chet Braafladt 3, Joe Cowen 2, Bill Behrends 2, Ray Robertson. Write-ins for Corporation Court Judge: Garnett Holland 2, Dan Nelson 2, Raymond Wilson, Ben Hill.

City of Hart: Mayor E. E. Foster, 70 votes; Commissioner W. T. Sanders, 68 votes; Commissioner Aubrey Myers, 64 votes.

ELECTION WORKERS at Dimmitt Junior High and Nazareth Community Building reported a "steady stream" of voters during the day as a larger-than-usual number turned out.

CAR-TRUCK WRECK SCENE FOUR MILES WEST OF HART MONDAY AFTERNOON ... Ervin Wilds of Plainview injured in broadside accident on FM 145

Plainview man has narrow escape

A Plainview fertilizer salesman had a narrow brush with death Monday afternoon when his car crashed broadside into a loaded Western Ammonia tank truck four miles west of Hart.

HOWEVER, the car's driver — Ervin Junior Wilds, 34 — survived the accident with a broken nose, contusions and abrasions. He was listed in satisfactory condition at Plainview's Central Plains General Hospital Wednesday morning. His 1973 Ford sedan was demolished as it crashed into the truck's frame just behind the cab.

The truck's driver, Larry Don Odom, 25, of Dimmitt, was not injured.

THE ACCIDENT occurred at 4:40 p.m. Monday where a dirt road intersects with FM 145 — the Hart-to-Sunnyside highway — four miles west of Hart.

Investigating Patrolman Bill Scott said Odom's truck was southbound on the dirt road, and came onto FM 145 into the path of Wilds' car, which was eastbound toward Hart.

As Wilds' sedan crashed head-on into the right side of the truck, the impact overturned the truck and caused liquid fertilizer to spill over the intersection.

Wilds was taken to the Plainview hospital by Dennis Ambulance Service.

Girls to serve chicken dinner

The Nazareth FHA's annual fried chicken dinner will be Sunday from 11 to 2 in the school cafeteria.

PRICES WILL be \$1.75 for adults, \$1.25 for students and 75 cents for pre-schoolers. The dinner is open to the public.

DHS land judges qualify for state

The Dimmitt FFA Land Judging team placed second in the regional land judging competition Saturday in Canyon.

TEAM MEMBERS are Randy Smithson, Marvin Spahr, Larry Duke and James Moody. John Quinby is team advisor. They will advance to state competition in Stephenville Tuesday.

Athletic banquet set Tuesday at 8

Dimmitt High School's athletes will be honored Tuesday night at the annual athletic banquet in North Elementary cafeteria. The banquet, which will start at 8 p.m., is open to the public.

BURL HUFFMAN, retired Texas Tech football coach, will be the speaker.

"He spoke here five or six years ago and was one of the most popular speakers we've ever had," Athletic Director Kenneth Cleveland said.

On the menu is a barbecued beef dinner catered by Underwood's of Lubbock. Admission will be \$3 per person. There will be no advance ticket sale, Cleveland said.

COACHES WILL name the high school's "Most Valuable Players" in football, boys' and girls' basketball and track. Also, a new award will be started this year for the boy and girl athletes who rank the highest scholastically.

Team members also will announce and crown the year's Football Queen and Basketball Queen.

Trustees elect Miller; Cluck, Wales sworn in

Jack Miller was elected president of the Dimmitt School Board Monday night after two new board members were sworn in.

JIMMY CLUCK and Charles Wales are the new members. Elected Saturday to succeed Frank Wise and Dr. J. D. Blackburn.

The board canvassed Saturday's election and accepted the election judge's results.

To serve as officers with Miller are John Merritt, vice-president, and Charles Nutt, secretary.

BOARD MEMBERS tentatively approved the Panhandle Community Action Agency's request to reinstate the bi-lingual program in Dimmitt's lower grades.

Supt. Charlie White said final approval for the program will be given if the guidelines do not require English to be taught as a second language.

The bilingual program was dropped here two years ago in a dispute on guidelines for the local program.

IN OTHER action, the board: — Set swimming pool rates at 25 cents for students and 50 cents for adults in the junior high pool this summer. Rental fee for private parties will be \$10.

— Voted to purchase a new car for the superintendent's use. His present vehicle will go into the motor pool to replace one wrecked last year.

— **APPROVED** Texas State Technical Institute's request for use of school for extension classes.

— Approved purchase of \$7,300 worth of equipment for the CVAE homemaking program, pending state funding participation.

— Voted to abandon the Social Security program for employees at the earliest possible date.

— Set May 11 as the date to receive bids for sale of City Lot 3, Block 63 and Lot 3, Block 43 in Dimmitt. Bids will be received in the superintendent's office on Western Circle Drive.

— Heard the superintendent's reports on school departments and approved the payment of bills totaling \$24,216.53.

Anthony's take voyage to Bahamas and Virgin Islands

By MYRTLE SHEFFY

Wes and Alice Anthony are home from a four-week trip east. They went by camper trailer to Miami, Fla. They took the good ship "Song of Norway" for a seven-day cruise, first to the Bahamas, on to San Juan, Puerto Rico and St. Thomas in the Virgin Islands. Alice says such blue waters, colorful flowers and extra good food everywhere. And entertainment, plays, music and things. Then back to Florida in the car and on toward home. The most beautiful place was the Bellinghams Gardens at Mobile, Ala. They crossed the big Mississippi River at Vicksburg. The new bridge there is more than a mile wide and the river is higher than any time since 100 years ago. Too much water for comfort. They came on through Tyler to see the azaleas, then home to our blizzard. But our plains will be pretty next week.

BARBARA WHEAT and children Steven and Toni visited a friend Wilma Ashworth at Midland last weekend to celebrate their birthdays the 5th and 6th with a big dinner and much conversation.

Eugene and Shirley Carlile of Yreka, Calif., came by here for a visit with his uncle Horace and aunt Ceal Carlile enroute to South Texas to visit other kin. This is the first visit to Texas in 20 years.

Mrs. Russel Moran is in Atlanta, Ga. for a visit with her daughter Pat and Ginger Kemp. She called husband Russel to

say they had made the garden tours and how beautiful the dogwood and azaleas are. It has rained two more inches there, a lovely Southern state, Georgia. Pat teaches school there and Ginger works.

ES AND KATE NOBLE are home from Texas City. Their son Don Loy came here for a visit. They took him home. They went by Temple, then south to the coast. They report the beauty of our big state.

Mayor Elmer Youts and E. B. Noble left here Sunday morning for Austin and Houston on city business. They are lucky to miss our cold weather Sunday.

Mrs. Hazel Rush of Kansas City has been visiting her son George and Adeline and granddaughter Alice this week. So Friday Adeline put the coffee pot on and made some cookies and invited friends in to meet Mrs. Rush. We had a good visiting hour with these charming ladies.

Mrs. James Welch reminds you if you have old books you are tired of, bring them to the Library for the book sale. They call it the bargain table. They will sell for 5 to 35 cents. Do go by and buy.

The view from your library

By MARY EDNA HENDRIX We observed National Library Week April 3-14. This year the slogans "Get Ahead, Read" and "Widen Your World, Read" were selected for National Library Week.

WE RECEIVED a letter from Mrs. Bill Hobby who is the State Chairwoman for National Library Week in Texas. She addressed her form letter to the Librarians of Texas stating that we knew the value of library services in supplying material resources for information, for life enrichment and for occupational and professional improvement. National Library Week gives librarians an opportunity to focus attention on these values by telling the library story to the public.

Libraries are changing. Public libraries are stressing new programs to provide adequate reference services to all patrons, to serve economically disadvantaged persons, and to take their services to the elderly and to the home-bound. Audio-visual materials have taken their places alongside books in so many school libraries that they are often called media centers.

National Library Week provides an opportunity for all Texans to take a good look at the libraries that serve them. Libraries provide an opportunity for self-fulfillment and continuing education for all who avail themselves of the opportunity to use them.

WE RECEIVED an official memorandum by Dolph Briscoe, Governor of Texas, designating April 8-14, 1973 as Library Week in Texas, and he urged all citizens to become better acquainted with the services and needs of our libraries.

Our own Mayor Elmer Youts proclaimed that week National Library Week in Dimmitt.

HARVEST of the citrus crop is expected to improve as weather conditions return to normal. Citrus trees are in excellent condition and fruit continues to size well with the rains.

LAURA HARSH a student at Bemidji, Minn. and her friends Dick Peterson of Minneapolis and Brian Hopper of Trenton, N. J. spent a week and a half with her parents Jim and Jean Harsh.

Sam and Virginia Gilbreath are home from a three-week trip up north. They visited on Zay and Charlotte at Des Moines, then on to Rochester, Minn., where both had physical checkups. Seems they are just fine. They saw much of the US here and there.

Opal Browning Jarvis of Plainview came over to our town Saturday to visit her cousin Birdie Neill. I saw them downtown. Opal and I were friends when we were 17 years old. "Was I ever that young?" They reported Mrs. Harold Gladman had major surgery, doing fine now. Her sister-in-law Myrna Cowser has been to see her.

AUKAL DAVIS had a birthday, so her friend Mrs. Joe Benson was hostess to a party with dinner at the Hayloft in Lubbock. They saw the play, "Is that you, Norman?" Others going were Verna and Ron, Susan Benson and a friend Mr. Royal of Hereford.

Heywood Smith, Mr. and Mrs. Don Sargent and Margaret Henson made a quick trip to Calexico, Calif., near Mexico to see the arthritis doctor.

Roy and Dorothy Bell of Plainview and Lee and Sylvia Webb, sons Steve and Mike were recent guests of Roy's sister and Lee's mom Ruby Webb. You can hear Lee give the news over an Amarillo TV station.

Bobcat cheerleaders Alice Rush, Bobbie Kirby, Virginia Sheffy and Mrs. Ted Sheffy at-

tended the Teens Fashion Show by Vance Hall sports store at the Villa Inn in Amarillo Saturday. The girls came back to Lubbock to stop, but they like seeing the big town.

JOE AND DUGAN Butler and Barbara Sandlin of Lubbock are home from a trip to Houston where they visited their children Jimmy Jack and Jeri Butler and children. They went to Galveston to see the Gulf and Island, made a trip over the city to see the beautiful gardens planted with azaleas. Dugan says they had such good seafood.

Mona Merritt was hostess to bridge playing ladies Thursday afternoon. Mona served those good pickup foods and coffee to Shirley Wise, Ina Cleavinger, Courtenay Armstrong, Dorothy Gilbreath, Jo Edjie Riley, Pat Bagley, Joannis Robertson and Ruth Jackson.

David Hays, Jackie Clark, Roy Liley and Joe Nelson went to Lubbock Thursday to attend a conference on the new and different uses of farm machinery. They represent the International Harvester Co. here. Company people from Chicago and Dallas were there to speak to the group.

MAC McDANIEL went to Athens a while back to attend the funeral service for his brother. Athens is up at the northern part of the Big Thicket.

Mr. and Mrs. W. C. Eddleman of Eurika, Calif. have been here for a visit with kin Neva and Claude Hickey, George Grimm, Fra and Wayne Heckerson. All the family went to Quataque for Sunday dinner with sister and family Murry and Johnny Morrison.

Robbie Lindsey of Houston came home for a visit with his parents Reb and Doris. This is his spring break from his U.T. Lental School. Last weekend he and brother Kent and his friends did a little skiing on the slopes at Ruidosa. Albert and Frances Lytle have moved to Brownsville. That is in the southern tip of Texas. Their daughter Karen is in school at WTSU and was a weekend guest of the Ted Sheffys.

HORNEY AND PUNKY Rhea and two sons Rocky and George have moved here recently. They live at S&K Manor. Mr. Rhea is with Whitfield Dispatchers. They attend church with the Lutherans.

43 teenagers went out to Curtis, Teresa and Sherri Bruegel's Saturday night for a fun party. The blizzard and snow came in, so, parents Carl and Gail kept the kids there for the night and managed to cook breakfast for all, as well as a man who was caught out in the storm. Everyone had a good time except Gail.

Mrs. Rachel Graham, her son Bill and Katy Graham went east for a sightseeing trip. They stopped in Marlowe, Okla. to pick up Aunt Henry McMurry then on through Arkansas and other southern states. The flowering shrubs are at their finest now.

RAY AND EDNA Riley and son Kim spent three weeks a Kerrville. Ray says he played a little golf while Edna rambled around San Antonio, the big town southeast and Fredericksburg, a most interesting German town north of there, and over to Hunt and the Moran Ranch. Kerrville is an

ideal place to retire or stay a while because of the good climate. It is in the Hill Country with they say the most beautiful river in Texas, the Guadalupe. The Rileys came home by way of Alpine and Fort Davis.

Carol Drerup calls to remind you to come to the FHA's fried chicken dinner with all the trimmings. This is April 15 at the Nazareth Cafeterium. Food will be served from 11 a.m. till 2 p.m. The girls' teacher is Paralyrn Render Moore.

Carden Club will meet Wednesday, April 18 at 3 p.m. in the home of Mrs. George Bradford. Assisting hostesses are Mrs. J. C. Gilbreath and Mrs. George Rush.

FAYE KENMORE HAS returned from visits with her children in Tempe, Ariz. and Grand Junction, Colo. She visited the Emperor's New Clothes at Arizona State University, an art show and an antique show.

At Grand Junction she visited her daughter, Monette and George Ray and children. She

was there for the first service in the new church, the Monument Baptist Church, where George is pastor. The Ray's have a new home, also. A highlight of her trip was when she sent with them to be a part in a "This is Your Life - Tera" program honoring Mrs. George Ray, Sr. of Grand Junction. She is state president of the W.M.U. of Colorado and is finishing up her fifth year in that office. This was a state meeting held at the Ponderosa Assembly near Colorado Springs. One of Mrs. Ray's surprises

was when she received a bouquet of roses from women of the First Baptist Church at Dimmitt.

Beral Hance spent the weekend in Panhandle with her daughter Beth Hodges, Jack and family.

Likeness. The artist is capturing the physical likeness of this lovely girl on her paper. The likeness is amazing. But her inward beauty, her wonderful Christian heart and soul, can only be captured fully on God's canvas. The Bible says that "Man looketh on the outward appearance but God looketh on the heart." How would God's painting picture you and me? One good way to improve your heart condition is to attend church and hear God's word proclaimed from the pulpit. Learn God's plan for your life by listening to His word. We invite you to attend the church of your choice this week.

Lions help 16 with eyeglasses

The Dimmitt Lions Club has bought eyeglasses for 16 school children during the 1972-73 school year.

ALL ARE children whose vision is bad enough to hinder their school work and grades, but whose parents could not afford to pay for eye examinations and glasses.

At their meeting last week, the Lions authorized eyeglass fittings for eight children, at a projected cost of \$550.

The Lions had paid for glasses for eight other children earlier in the school year.

BY THE time the newly authorized pupils receive their glasses, the Lions Club will have paid out \$1,100 this school year on the program.

Eyeglasses for disadvantaged school children is part of the Lions Club's sight conservation program. The club also participates in the High Plains Eye

Bank (which accepts willed eyes for corneal transplants, etc., for living persons) and other sight conservation projects.

Weldon Skinner is chairman of the club's Eyeglasses Committee. Skinner and his committee depend on school nurses and teachers to recommend children with poor vision and no eyeglasses. The committee then checks into the circumstances of each child's family before recommending that the Lions Club purchase eyeglasses for the child. The final decision on each purchase is made by club vote.

"WE MAY have bought eyeglasses for a child or two whose family actually could have afforded them," Skinner said, "but we'd rather be wrong once in a while than to see a child continue to suffer in his school work because he needs glasses and doesn't have them."

FB establishes market affiliate

Goals have been reached for beginning operation of a Livestock Purchasing Division by the marketing affiliate of the Texas Farm Bureau, according to Larry Hausmann, president of the Castro County Farm Bureau.

CASTRO COUNTY Farm Bureau is one of 18 county units in this area participating in the purchasing program, Hausmann said. The Livestock Purchasing Division will be operated by the Texas Agricultural Marketing and Development Association (TAMDA), the marketing affiliate of the Texas Farm Bureau. To participate in the marketing program, producers must pay a one-time membership fee in TAMDA.

The TAMDA members in the 18 Panhandle and South Plains counties have committed the 30,000 head of cattle and subscribed the \$50,000 needed to underwrite the program, according to an announcement this week by J. T. "Red" Woodson, TFB president. The purchas-

ing division will become operational after a manager has been employed, Woodson said.

Major objective of the program, which has been in the organizational and development phases for about 18 months, is to establish a purchasing service for members that will provide the kind of livestock desired at the lowest possible net cost to the buyer, Hausmann explained.

"THIS MEANS MORE direct movement of livestock from the original producer to provide the buyer-producer with fresh cattle," he said.

Cattle will be drawn from all marketing associations affiliated with the various state Farm Bureaus, as well as from individual producers in other parts of Texas and the nation. It will deal primarily in stocker feeder cattle.

Hausmann said the county Farm Bureau will set up a livestock purchasing advisory committee and will nominate two persons from the county to serve on the advisory committee to the State Livestock Purchasing Division. Woodson will appoint members to the state committee from nominees among the 18 counties, he said.

"The initiative to develop this program has been on the part of local Farm Bureau leaders all along in getting it established, and the reaching of these goals as to number of livestock and funds needed to start the program is a real milestone in Farm Bureau organization progress in this area," the local farm leader declared.

The 18 counties participating include Armstrong, Bailey, Carson, Castro, Collingsworth, Deaf Smith, Floyd, Gray, Hale, Hansford, Hartley, Lamb, Moore, Ochiltree, Farmer, Randall, Swisher and Wheeler.

"We were hoping for a low bid in the neighborhood of \$20,000, but the lowest was about \$25,000 and they ranged up to \$36,000," County Judge Raymond Wilson said Tuesday after the county commissioners' court opened bids on furnishings for the new Rhoads Memorial Library.

FIVE FIRMS submitted bids to outfit the new library with shelving, desks, chairs, tables, book trucks and other furnishings. Members of the library board sat in on the opening of bids, and the commissioners agreed to allow the library board to study the bids before awarding contracts.

Little Dribblers all-stars named

Coaches of the Dimmitt Little Dribblers Major League named two all-star squads Friday night, at the completion of the Major League tournament.

PRESIDENT Gene King explained in post-tourney award ceremonies that Dimmitt's Little Dribblers allow all fifth and sixth grade boys to compete, but that many sixth graders are too old to compete in post-season playoffs under age restrictions set by the National Little Dribblers.

So two all-star teams were chosen — one squad of older boys and a "tournament squad" of younger boys who will represent Dimmitt in the playoffs.

Named by coaches to the older boys' all-star squad were Larry Bossett and Tony Gonzales of the Longhorns, Frank Alvarez of the Horned Frogs, Richard Espinoza, Danny Reyes and Eloy Gonzales of the Razorbacks, Craig Turner and Randy Furr of the Owls, Joel

All-stars fall in LD tourney

Dimmitt's Minor League All-Stars lost two games and won one to finish in third place in the Junior Little Dribblers district tournament at Dalhart Friday and Saturday.

DIMMITT LOST to tournament favorite Dalhart 37-31, in the opening game, then came back to eliminate Bovina, 29-15, in the second round.

The victory over Bovina gave Dimmitt a chance at Farwell in the winner's bracket Saturday afternoon, and a win over Farwell would have put the local lads into the championship game against Dalhart. But Farwell emerged with a one-point victory on the strength of a pair of last minute free throws.

Dalhart won the district title with a three-point victory over Farwell, and will advance toward the national playoffs.

AMY CATHERINE DOWNING
Dressed as a Hummel Figurine

Easter girl models as figurine, wins company 'look-alike' award

A photograph of Amy Catherine Downing, daughter of Mr. and Mrs. Trent Downing of Easter, won a 'Hummel' Look-Alike Runnerup Award in recent competition.

THE PICTURE, submitted in the seventh annual search for a living Hummel was chosen for its close resemblance to the Hummel figurine 'Weary Wanderer.'

The award is sponsored annually by W. Goebel of West Germany, the sole manufacturer of the world-famous figurines which are three dimensional interpretations of Sister Maria Innocentia's sketches. Mrs. Downing told contest officials it took her one Sunday afternoon to pose Amy for the look alike photo.

"Amy doesn't have a cowlick so we had to put hair spray on and brush it into shape," Mrs. Downing said. "We thought that in costume and with a woe-be-gone expression she really looked like the figurine."

Runner-up pictures were awarded a Hummel figurine.

Experts say feedlots aren't big polluters

Are cattle feedlots a major contributor to America's growing pollution problem?

THE ANSWER is an emphatic "NO!" in the opinions of Dr. Myron Paine and Dr. John Sweeten, who both have a good understanding of the situation.

Paine is located at Oklahoma State University and is a regional Extension Service feedlot waste management specialist serving a six-state area of the Southern Great Plains. Sweeten is an agricultural engineer in animal waste management for the Texas Agricultural Extension Service, Texas A&M University.

With some 25½ million cattle fed in lots across the nation annually and each animal producing about a ton of manure, the potential for waste management problems is there, the two engineers admit. But one very real reason why a mammoth problem has not been created is simply good public relations on the part of the operators.

MOST OPERATORS keep the manure moved out as a matter of animal health. After they move out a load of cattle, they clean the pen. However, this soon results in a huge pile of manure, and here is the problem.

According to the specialists, most feedlot operators have solved this problem by developing close working relationships with local farmers.

They have convinced farmers to take the manure on the basis that it is valuable fertilizer. Some farmers are even paying as much as \$2 a ton. But in areas where the farmers are not convinced of the fertilizer value, private deals to move the manure have been worked out in many ways.

ANOTHER REASON the pollution potential of feedlots has not been reached and unlikely ever will is that only a small percentage — research shows only about 2 percent — of the solids reach any stream, explain Paine and Sweeten.

"If that total of 25½ million

tons produced annually went directly into a sewage system — as do human wastes — the effect would be devastating. But actually, one human contributes 10 times as much toward water pollution as one feedlot animal."

The specialists feel conflicting and misleading statements have posed an out-of-focus view of feedlots in the overall ecology picture.

"IF ALL the animal wastes from one animal fell directly into a stream, that one animal would equal 16 persons in pollution contribution. But the actual fact is that manure falls on land and it's 85 percent water. This evaporates and the only way the manure gets into a public water stream is in case of a rainfall in excess of one inch. Then, we might get runoff into the stream."

Most of the Southern Great Plains states now have laws requiring feedlots to have a system of runoff retention structures. About 90 percent of the cattle fed in Oklahoma are in lots that are in compliance with this law, and some 95 percent of Texas feedlots with a capacity of 1,000 head or more are in compliance or moving toward compliance.

On the federal level, guide-the Environmental Protection Agency relating to feedlot pollution protection. A new federal water quality law will prohibit the discharge of pollutants into water courses by 1985.

All in all, Paine and Sweeten feel the feedlot operators of

the Great Plains are doing a good job of housekeeping. "They're producing beef, not pollution."

GREEN REVOLUTION

The "Green Revolution" that was once acclaimed as the solution to the world food crisis is being hampered by such factors as population growth, drought, waste and poor distribution, says an economist for the Texas Agricultural Experiment Station. Today, only one-third of the world's population lives in an area where the food supply is good; 80 percent of these people are in North America and Europe.

VACCINE FOR CALF SCOURS

A new vaccine is now available to reduce newborn calf losses resulting from a form of diarrhea caused by a reo-like virus. The reo-viral calf diarrhea vaccine has been licensed by the US Dept. of Agriculture and is available through local veterinarians, says the Texas Agricultural Extension Service. To be effective, the vaccine should be administered to calves as soon as possible after birth.

USE HOT WATER wisely — it takes a lot of fuel to heat water, notes Lynn Bourland, home management specialist with the Texas Agricultural Extension Service.

Webster defines a library as "a place in which books, manuscripts, musical scores, or other literary and artistic materials are kept for use but not for sale."

But is that all a library is?

Or is it a place where children and their imaginations can read about places, ideas and worlds far from the boundaries of everyday life? Where they can fly with Peter Pan, hunt big game animals in darkest Africa or dream of rescuing fair princesses from fire breathing dragons.

Or is it a place where adults can find light reading to bring a smile to their weary faces. Where hobby books and craft books explain how to do nearly anything in this world during leisure time. Where technical books add to their growing knowledge of their job, their world and their life.

Or is it a place to keep historical displays and manuscripts for historians and students. Where the past is brought vividly to life in their studies.

However, you view a library, when Rhoads Memorial Library opens its doors this summer you will feel pride in its facilities.

Only \$35,000 in local contributions is needed to provide the county with a \$225,000 library. A gift of stock from Mrs. Ralph Perry of Plainview and matching funds from the Texas State Library make up the bulk of the money needed.

Fund drive chairman Jimmy Ross said contributions have slowed down in the past weeks. Roughly 50 percent of the needed funds have been contributed, he said.

Ross said approximately \$11,000 to \$12,000 are needed to take the drive over the top.

Contributions of \$100 or more will be recognized in a special way in the new library. Checks should be made out to Castro County, Texas, and labeled "Library Fund" or "For Benefit of Library." Ross and members of the library board are accepting contributions and can answer questions about the new library. All donations are tax deductible.

The First State Bank of Dimmitt takes pride in all civic, business, industrial and cultural developments in our town and community, and we are especially happy to have the opportunity to express our thanks and appreciation to everyone who has had a part in making this fine new library facility available for our county.

Letter to the Editor Historian seeks information on tent-show owner

Dear Editor:
I am seeking information about Art Names. During the 1930s and 1940s he operated a traveling tent show which I think played in this area.
I AM searching for information about him and his show with the ultimate hope of writing his biography. I would like to hear from anyone who knew him who would be willing to correspond with me about their memories. I would also like to hear from anyone who might have pictures, letters, poems, or other memorabilia about Art Names or his troupe.
My address is Donald W. Whisenhant, History Department, Thiel College, Greenville, Pa., 16125.

Home and hobby 4-H'ers raising money for center

By IRENE KEATING
County Extension Agent

Two years ago our 4-H members sold chocolate bars to help raise money for the State 4-H Center at Brownwood. The Center is almost a reality now and construction is due to begin this fall. All 4-H clubs in the county are working to raise money to help District I erect a dormitory at the center. Each 4-H club will be raising money for this center, so please support their projects. We will enjoy using the Center when it is finished and I'm sure many of you will, too (groups other than 4-H will use the center).

EASTER IS rapidly approaching and I know you women are busy sewing. Here are some

Sorority to hold Hard Times party

Beta Sigma Phi sorority will have a "Hard Times" party Friday night at the Castro County Country Club for members and their guests.

New officers will be installed May 2 in Carol Wright's home. To serve through '74 are Sandra Clark, president; Marty Benton, vice-president; Jan Baca, secretary; Kay Keller, treasurer; and Shirley Shrum, parliamentarian.

In the meeting last week, sorority members voted on girl of the year and discussed the planned furniture purchase for Rhoads Memorial Library.

On the Go

Mary Edna Hendrix has returned after attending the Texas Library Association convention. Those helping Lynn King in the library while she was gone were Leora Little, Reta Welch and Betty West.

ALL AMBITIONS are lawful except those which climb upward on the miseries or credulities of mankind. — Joseph Conrad

interesting facts about consumers and clothing. A moderate-income family spends about 11 percent of its income for clothing. (down from 15 percent in 1970.)

Per capita expenditures for clothing and shoes increased to \$275 in 1971 (\$255 in 1970).

Clothing costs have increased 21.1 percent in the past six years. (as compared with 23.7 percent a year before.)

The knitting industry estimates that knits accounted for more than one-third of all apparel fabric in 1970.

IN 1972 the legislation was passed to require permanent care labeling of all fabrics and garments purchased (with so many fabrics it is impossible for consumers to know how to care for each item without this label).

Flammability standards were enacted in July, 1972 that requires all children's sleepwear under size 6X to be flame retardant.

Home sewing is one of the 10 fastest growing industries in America, a \$3 billion dollar industry. It is estimated there are 50 million women (and a potential 50 million men) home sewers.

In 1970, 44 million women sewed. The chief garments made in order of importance are: dresses, children's wear, pants and skirts, and blouses.

From this we see that we're doing the "in-thing" when we sew. There are many advantages to sewing, ranging from saving 60 percent to 75 percent of the cost of ready-made garments to the satisfaction of having created something attractive.

Miss Malone is shower honoree

Linda Malone, bride-elect of Gary Langford, was honored with a shower in the home of Mrs. Bud Hill Friday evening.

MRS. HILL, Mrs. Jack Cartwright and Mrs. M. E. Cleavinger greeted guests. Miss Malone, her mother Mrs. Kenneth Malone, and Langford's mother, Mrs. Marshall Langford were in the receiving line.

Sherri Burrous registered guests. Sharon Gowdy and Vicki Carpenter served punch and cookies from a table covered with an organdy cloth and centered with a blue carnation and white dove arrangement. Twenty-three assisted with the hostess duties.

Out-of-town guests included Mary Hatch, Edith Sims, Mrs. J. A. Hatch, Leta Hatch, Mrs. R. A. Richey and Mrs. Lottie Langford, all of Plainview, Mrs. Norman Caldwell of Lockney, Mrs. Jimmy Hatch of Roswell, and Mrs. Cleve Evans, Judith Nelson and Peggy Hartman, all of Amarillo.

Once a month, during a bath or shower, every woman should begin a quick breast self-examination. The American Cancer Society has a leaflet of instructions about this simple but lifesaving procedure.

Conservation

Water, soil should be partners and not work against each other

By DAYNE M. COLIGHTLY Water is a necessity for life and survival for man, livestock and wildlife. The Soil Conservation Service helps to conserve the water and land, and to put both of these natural resources together so they can work together to save each other, rather than working against each other and causing water loss, water damage and erosion to the land. MANY PHASES of conservation can be put to use to conserve water and land. For instance, where water runs and washes out a gully, a grassed waterway can be established and save this land, and to also route the water to a lake or tailwater pit where it can be used again.

Then livestock can benefit from the grassed waterway by grazing in it, and wildlife such as game birds can find refuge in it. Pipeline is another conservation practice that can be applied that will conserve the water from evaporation. Diversion terraces can be installed where one has land that is moderately level, then breaks into a severe slope. A diversion can be installed on the break of the slope, letting the water above it come to the diversion. Then the diversion can carry the water to a safe place of deposit. The land below the terrace is protected and can be watered safely without worry of soil erosion. DRAWS THAT carry great amounts of water at times may cause erosion and flood damage. This can be prevented by dams that can be very useful in holding the water for other uses. Dams prevent flooding, and the water from the dam can also be used for municipal use in cities and towns, as well as recreational use. Water and land are essentials, and something that we all should be very interested in conserving for our future use — for production, recreation, and for our own necessity.

(Editor's note: This third in a series of stories on organized crime in Texas deals with so-called "victimless crime." This series is part of a public education program developed by the Texas Organized Crime Prevention Council with assistance from the Texas Criminal Justice Council, the Law Enforcement Assistance Administration, the Texas Department of Public Safety, the office of the Attorney General of Texas and local law enforcement agencies. "I had some girls working for me, enjoying being on the outside after a six-year stretch. Ready for some action, you know."

THUS BEGAN the street saga told matter-of-factly by a prison inmate: a recital of prostitution, theft, bribery, graft, narcotics and gambling. This man's sordid tale didn't take place in Texas, but that doesn't mean that it couldn't have. Organized crime, and its attendant various areas of vice, is seeking a foothold in Texas, but law enforcement officials at all levels have a close eye on the picture. The story continues: "I HAD three girls hustling and was getting \$150 to \$200 a day from them. "I'd wake up about 1 or 2 p.m., maybe shoot some speed, lay around drinking and talking most of the day and then go to the bars at night, throwing \$100 or \$200 across the bar. I was very free-hearted with the money. "I wasn't doing any collecting. After all, a guy's entitled to a rest. No stealing, neither. "BUT THE cops started arresting the girls. "Each bust meant going to bail them out, and then money for the bondsman and the lawyer. They were losing time because of the arrests, so it was a very hard time for us. "Well, the upshot is that I had to go back to work for my bookie friend. One of his marks had wretched and he needed me to go get the money."

THE MORAL shock of so called "victimless" vice — prostitution, gambling, and corruption — has faded with the times. For the most part criminal activity of this "blue" nature continues without complaint. If there is a victim, he is usually a willing victim. But someone always loses — often the "victim's" family. IN THE consensus of three Texas metro vice squad chiefs: "Nobody gets as upset over prostitution as they used to. The only time we get a complaint is when a person gets clipped or something."

Most professional gamblers willingly admit that a bettor is a sucker, that the odds are overwhelmingly against the bettor. Gambling experts have estimated that for every dollar bet legally five to seven dollars are wagered illegally. As one famous East Coast bookmaker used to tell his aides, "Boys, don't be envious of any rich customer. No matter how much money he makes in his own business, remember if he keeps playing the horses, he's working for us."

FROM THE nickel numbers bet to the sophisticated computer-calculated wager, Texans trusted lady luck to the illicit tune of \$4.8 million a day... \$33.9 million a week... \$815 million a year on one sport — professional and college football — for one season: September 1, 1971 through January 15, 1972. The Dept. of Public Safety figures do not include bets on horse racing, baseball, basketball or other sporting events. These unlawful gambles put over \$97.8 million into the criminal purses of an estimated 847 individuals currently known to be operating in organized bookmaking activities in the state. Says DPS Director Col. Wilson Speir: "We found that football betting on a dollar volume basis is greater than all other sports betting combined in Texas. "IN CONTACTING other agencies and researching DPS intelligence files, we determined that for the average bookmaker case, to make a raid, or get enough evidence for a search warrant, required 369 man hours of surveillance work. "Lacking enforceable legal aids and statutes, law enforcement personnel work under a handicap in deterring organized gambling practitioners. Badly needed is a law which would permit electronic surveillance under court supervision. Intelligence information reveals that a number of bookies used \$30 to \$50 per day for public pay telephones to obtain lines (the odds) and make layoffs (a bookie's insurance whereby he balances his bets on each side of an event) from out-of-state and Texas sources. COL. SPEIR gave some more dollars-and-cents examples of the scope of organized bookmaking in Texas: —A bookmaker averages 12 percent return on his betting volume. For the '71-72 football season, this amounted to a tidy \$97.8 million, tax-free; — On the average, college bets make up 66 percent of the bets taken, pro football the remaining 34 percent. — The gross investment or bankroll for a bookie to operate and stay in business in Texas is \$30,000 (for an estimated criminal investment of \$17.6 million); — A raid on a bookie costs him about \$30,000 (new location, losing bettors and business as a result of the raid). PROSTITUTION, gambling's kissing cousin, is another "victimless" crime according to the DPS definition: one that im-

plies a willingness on the part of the consumer to participate — with no complaints afterward — in organized criminal activity. Vice squad chiefs point again toward today's liberalism as a reflection of public attitude on prostitution. "It's the change in society itself... today there's by far a greater liberal attitude toward morality." "Some people have a more permissive attitude toward prostitution."

HOWEVER, WHAT you get in addition to prostitution, is its companion crimes. The prostitute "works" to support her procurer and often to support a drug habit. When business gets bad due to arrests, the procurer often steals. He sells his stolen goods to the fence, who ups the price and resells the merchandise for a profit. (In the underworld, fencing hardly registers as a crime but as a method of receiving the benefits of discount buying without having to go to a shopping center.) PROFITS FROM fencing help swell the purses of organized criminals — profits which are often used to fund heroin trafficking and other crimes. DPS intelligence information reflects that "many persons involved in criminal violations with respect to prostitution are (or were) also involved in the following criminal violations: narcotics, auto theft, burglary, theft, fencing, stolen goods, armed robbery, murder, assault, bribery, graft, blackmail, gambling and bookmaking."

In the words of Dallas Police Chief Frank Dyson: "Prostitution goes hand in hand with other types of crime. "PROSTITUTION is involved in shoplifting in a large way; prostitution is involved in drug traffic in a large way; prostitution is involved in highly organized crime and in violence." Organized crime is not a legal category and thus is not legally punishable. Legal recourse comes from one-at-a-time attempts to cripple those elements of organized crime (i.e. prostitution) which operate contrary to the laws of the state. Texas law prohibits prostitution and engaging in prostitution. Other laws make it a crime to keep a bawdy house or employ prostitutes. LIVING OUTSIDE these laws can be expensive. Brothel prostitutes split 60-40 with the house, according to the DPS report. Prostitutes working with procurers split 50-50. DPS analyses of prostitution uncovered a number of circuits working in and out of Texas, saying that a prostitute averages 10 to 14 days at each circuit location. As a result of local and state enforcement agency investigations, many arrests have been made. From the independent street-walker to the professional cir-

cuit call girl, prostitution contributes millions of dollars to organized crime coffers, the DPS believes.

IT USED TO BE that you could point out the prostitutes on the streets, comments one young woman. "They wore spike heels, no hose and lacy evening dresses in the middle of the day. But now they dress like everyone else and you can't recognize them."

I hear a lot of them are college girls; some are married," she added, "working to earn extra money."

Such was the case in one county where DPS undercover operatives broke up a call girl operation in hotels. CHARGES OF pandering were brought against a 47-year old security guard who claimed to have 300 women working for him. Authorities estimated the number was more like 50. Testimony revealed that some clients paid \$100 an hour for the girls to come to their rooms.

They are businesses — lucrative ones. The customer rarely, if ever, considers the legality of the vice in question. As long as the public is willing to participate, there will be a market. (Next: Credit card swindling)

Food Costs Are Defended

Every housewife in the U.S. and everyone else who goes grocery shopping is aware of the recent sharp increase in food prices and is unhappy about it.

A great deal of this frustration has surfaced in the form of criticism directed at the farmer. This is understandable but it is unfortunate and unjustified.

Americans have more money to spend than ever before. Not only are individual wages higher but with a great many wives now working, family incomes have soared.

The Bureau of Labor Statistics reports that while retail food prices went up 33 percent from 1965 through 1972, per capita income was going up 62 percent.

The affluence of Americans is reflected in their food demands. Ten years ago the per capita consumption of beef was approximately 88 pounds.

Production of choice grade beef is more than double that of 10 years ago. Sixty percent of total beef produced is choice grade.

Several important points should be emphasized:

1. Farm prices for food are up only six percent from 20 years ago.

2. Wholesale food prices are up 20 percent from 20 years ago.

3. Retail food prices are up 43 percent from 20 years ago.

4. The farmer gets only 40 cents out of each dollar spent on food. The rest goes for transportation, processing, packaging and marketing.

5. While the farmer only recently began to get for his crop what he received 20 years ago, after a big dip in the intervening years, the costs of items that go into his production have doubled and in some cases tripled.

6. Average wage rates per hour of non-farm production workers are more than 2.5 times higher than 20 years ago.

Notwithstanding present day prices, Americans still are getting their food for a far smaller portion of their income than any other people in the world.

(Continued Next Col.)

Note that of \$100, significant \$22.97 goes for non-food items, another \$8.43 for alcoholic beverages, soft drinks, candy and chewing gum—adding up to over 30 percent of total "food" budget—leaving \$68.60 for more essential food products.

Red meat—largest item of purchase—accounts for 27 percent of food plus "non-essential" beverages, candies; just under 19 percent of total store purchases.

CONSUMER SPENDING IN GROCERY STORES: PERCENT IS NON-FOODS:

Food Costs Defended

(Continued)

the family income today goes for food. In Russia it is between 45 and 50 percent, and in Asia it is almost 80 percent.

With the debate on extension of the 1970 Farm Act getting underway, there undoubtedly will come bitter attacks on the price support programs, which have been running \$3.5 billion per year.

It should be remembered first that our farm program basically is an effort to bring supply into rough balance with reasonable demands for farm products.

Without an incentive to land owners to withhold some of their acreage from production, we would have wasteful surpluses. Temporary drops in

food costs likely would occur, but still more farmers would be driven out of business—the smaller and less wealthy falling by the wayside first, and then shortages and higher consumer prices inevitably would follow.

That these farm programs have worked, and worked well, is proved by the fact that we Americans have been better fed and clothed during these past four decades since they began than ever before in our history.

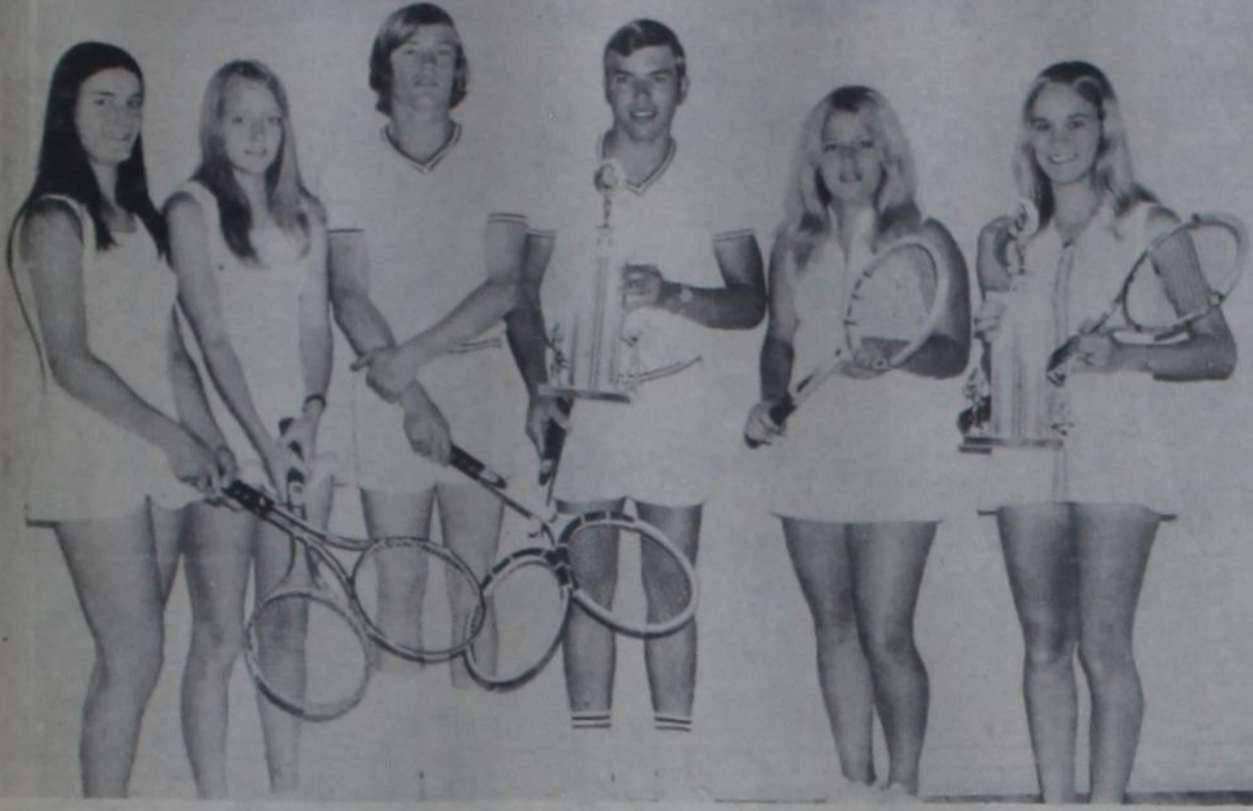

If the support payments are transferred to the market place, as has been proposed, the burden will fall on those least able to pay the bills—the man with a large family to feed. You can be sure the farmer will not be able to absorb the costs. As it is, the return on investment in the agricultural sector of our economy is about five percent, as compared with approximately 15 percent in all manufacturing.

(Data based on original cost.) Why would an investor put his money into farming when much larger returns can be assured elsewhere? A farmer could get at least an equal return by putting his money in government bonds, and have no risk involved. The Department of Agriculture estimates approximately \$200,000 is required in investment to maintain a financially successful farming operation.

Aside from all these points dealing directly with agriculture, there is the fact that many householders overlook the increasing diversity of items to be found in the grocery store. Magazines, photographic films, insect sprays and deodorizers run up the total at the cashier's counter, but many consumers fail to separate this category of purchases from the food that is sacked up and taken home.

City men study disposal system

City Manager E. B. Noble and Mayor Elmer Youts toured Consumat plants in the Houston area Tuesday.

The commission is investigating the solid waste disposal system for Dimmitt use. The city faces a Dec 31 deadline to improve the city's present garbage disposal system.

Consumat is a closed air combustion process that reduces solid waste volumes up to 300 to 1.

Noble and Youts attended a legislative breakfast in Austin Monday before traveling to Houston.

Lions Club cites five long-timers

The Dimmitt Lions Club last week presented "anniversary" awards to five of its members.

THEY WERE B.M. Nelson, who has been a member of the Dimmitt Lions Club 30 years; Stanley Schaeffer, 15 years' membership; and Bob Baker, Charlie White and C. W. Anthony, 10 years each.

Longhorns win in five events

Hart scored first-place finishes in both relays and three individual dashes Saturday in the District 3-A track meet at Springlake-Earth.

THE LONGHORNS scored 88 team points to finish in a second place tie with Furwell. Springlake-Earth won the district meet with 123 team points.

Hart was the best chance in the Region 1-A meet in Lubbock this weekend, though, with teams entered in both of the 20-point relay races, as well as in four individual events.

BROWN AND FINCH teamed with Juan Valadez and James McLain to win both the 440-yard and mile relays. In the sprint relay, the Hart quartet posted a 45.0 time, and in the mile relay Hart was first with 3:38.2.

Randy Finch also qualified

for the regional meet by finishing second in the 440-yard dash, just 0.2 of a second behind his brother Bobby at 52.4.

Because of foul weather, times and distances were well off the pace in all events. Valadez and McLain stayed busy before running their legs of the sprint and mile relays.

Golfers stage big comeback; go to regional

Dimmitt High School's golf team staged a scrambling comeback in the fourth round of District 3-AA play last Thursday, climbing from fourth place to second and qualifying for the regional golf tourney.

Going into last week's round on the Castro County Country Club course, the Dimmitt team appeared locked in fourth position, 19 strokes out of first place and 16 strokes away from second.

But the DHS linksters blazed their way through the local course to emerge in second place just three strokes behind league-leading Olton.

AS A RESULT, the DHS golf team left Wednesday for the regional tournament at Andrews. After a practice round Wednesday, they'll play 18 holes Thursday and 18 Friday in their bid for regional laurels.

After tallying the totals of four rounds in the district's roving round-robin, Olton finished as the 3-AA champion with a total team score of 1425, taking the best four scores from a five-man team.

But because of its fast finish, Dimmitt emerged in second place just three strokes behind Olton at 1428. Friona, which had a grip on second going into last week's round, fell off the pace and finished with a 1435. Littlefield came in fourth with 1445.

COACHED by Kenneth Cleveland, Dimmitt's golfers entered two teams in each round — one team of five and a team of four.

Pacing Dimmitt's golfers during the season was Kyle Broderson, who shot a 351 in the four rounds. John Cook was DHS's second low with 354, followed by Jim Glenn with 357, Steve Reed with 360, Ronnie Lawson with 370, Kelly Moore with 375, George Copeland with 376, Johnny Webb with 390, and Max Wohlge with 407.

Dimmitt's regional entry team consists of Broderson, Cook, Glenn, Reed and Lawson.

Freshmen third in district meet

Leon Sandoval won the 440-yard dash and Ronnie Lawson captured the 220-yard dash to pace Dimmitt's freshmen in the District 3-AA track meet at Olton Saturday.

DIMMITT finished in third place with 72 team points. Littlefield won the freshman division with 143.

Sandoval made the 440-yard lap in 57.1 seconds to earn a first-place finish and 10 points. Lawson paced off the 220 yards in 24.4 seconds for his 10 points and blue ribbon.

Dimmitt's freshman 440-yard relay team garnered 16 points with a second-place finish in the meet. Team members were Arthur Rueda, Steve Stanton, Leon Sandoval and Ronnie Lawson.

OTHER DIMMITT freshmen who placed in the meet were: 120-yard high hurdles — Jim Birdwell fifth.

100-yard dash — Steve Stanton fifth.

330-yard intermediate hurdles — Jim Birdwell sixth.

220-yard dash — Arthur Rueda fifth.

MILE RUN — Kyle Touchstone third, Ricky Bagwell fifth.

Mile relay — R. Lawson, S. Stanton, A. Rueda, L. Sandoval fourth.

Junior Joiner

Joiner qualifies for regional meet

THE FRESHMAN runner was clocked in 10.9 seconds.

The meet was run in cold, drizzly weather that dashed all hopes for any new district records.

Other Nazareth athletes who placed in the district meet were:

440-yard dash — Charles Heck fourth, 56.5.

MILE RUN — Keith Birkenfeld fourth, 5:04.

880-yard dash — Robert Huseman sixth, 2:21.

Final LL tryouts slated Saturday

Saturday afternoon is the last time for boys 9 through 12 to try out for the 1973 Little League baseball program.

TRYOUTS WILL begin at 2 p.m. in the Little League Park. Boys must bring their birth certificates to the tryouts.

Boys who played Little League ball last year will be on the same teams this year, and do not have to attend tryouts.

Eight-year-old boys, who are eligible only for Minor League, will have their tryouts at a later date.

Mayberry paces DHS at district

Robert Mayberry won the 220-yard dash and long jump and finished second in the 100-yard dash to pace Dimmitt High School's tracksters at the District 3-AA meet Saturday at Olton.

MAYBERRY was the only Dimmitt lad to qualify for this week's regional track meet in Odessa. He is in three preliminaries today (Thursday) — the long jump at 4 p.m., the 100-yard dash at 5:15, and the 220-yard dash at 6:20. The regional finals will be staged Friday afternoon on the Odessa High School track.

The speedy sophomore personally accounted for 29 of Dimmitt's 35 team points in the district meet. Dimmitt finished in fifth place as Littlefield won the district track championship with 163 points and Friona came in second with 114. Olton scored 85 and Morton 64 to round out the district tallies.

In junior high competition, Dimmitt's seventh graders won their division's championship with 46 1/2 points, the eighth graders placed fifth with nine points and the freshmen came in third with 72 points.

IN ALL, SIX Dimmitt High School athletes earned points in eight events in the district meet. Here are their placings:

220-yard dash: Robert Mayberry first, 23.0.

Long jump: Robert Mayberry first, 18-6 1/2.

100-yard dash: Robert Mayberry second, 10.1.
