OVER 200 ATTEND CARRIERS MEETING

Jaycees Invite Cisco Young Business Men

Through the Editor's Spectacles
By GEORGE

Brownwood reporter who accounts of the Loboes' victory over the Lions at Brownwood to the state papers in the Brownwood, Texas, is unable to take it. It is said that seven hitherto boys had entered the lineup for the first time in Brownwood. Only two boys did not play in a conference this season made against the Lions. They were never ineligible a student from one of the schools who came out for the first football experience weeks ago and the other a lad who had broken a leg in the game with Lubbock which had not sufficiently to enable him to play until Friday. The five boys who were invited to Cisco last year against Big Spring and Angelo. So Brownwood is a better team, a team which has been improving in spite of defeats, and Friday afternoon should be a touchdown, an offense nullifying one touchdown and three other pass interceptions in the field having been muffed.

reasonable to predict on the basis of the improvement of the Loboes have been playing and with the confidence engendered by the victory that the Cisco Loboes will be a harder team to beat in future games.

old overpass, about which Leon Maner Saturday accused me of being sentimental, built, so I am told, in 1907, almost exactly 30 years ago. Lula Paschal exhibited other day an old Sunday record book for a class in which she taught in that year of which the builders of the structure were members.

Tree Scout Troops Grid Contest

The three scout troops of Cisco have decided to battle it out the way of football contests. The boys who will rule the football among the scouts of the city will on its way toward a victory today when the scouts of Troop 49 showed the boys from Troop 101 how the man's game of football is played. Troop 101 had asserted to supremacy the week before by edging out the Troop 49 by a 20-19 count. This time the forty-niners the right to challenge the winners and, as a result of the win Saturday, were ahead of their two rivals, for the time being at least. Another game is planned to be staged next week.

SMOKER TO BE HELD MONDAY FOR PLANNING

Program of Projects to Be Talked at Laguna Hotel

An invitation to all young men of Cisco to join with the members of the Cisco junior chamber of commerce in a "smoker" at the Laguna hotel at 8 o'clock Monday evening was issued by President James Harvey, Saturday.

The Jaycees, Mr. Harvey said, are seeking to enlist all professional and business men 40 years of age or under in their program of community development.

At the meeting Monday evening a number of projects will be discussed, including plans for a big parade on November 11, preceding the Cisco-Ranger football game, the Cisco Livestock show next February, and the erection of a score board at Chesley field.

The junior chamber of commerce is initiating a more aggressive campaign for community building with the beginning of a new term, and a variety of projects are being studied with a view to formulating a program that will be effective in developing a better and more prosperous community.

Ten Persons Die in Bus-Train Crash in Iowa

MASON CITY, Ia., Oct. 23. (AP)—Ten persons, including seven high school students were known dead today and 19 injured in the wake of the middle west's most disastrous crossing accident.

Two teachers and a bus driver were also killed when the Rock Island railroad's "Rocket" streamlined passenger train, plowed into a school bus yesterday. Bodies of the dead and injured were scattered five hundred feet as the wooden bus burst under the impact at a private crossing inside the yards of the Mason City brick and tile company. Students from Renwick, Ia., and Bern Mott, who saw the accident, said that the "bodies were hurled out of the bus with children screaming. "The most horrible sight I have ever seen."

Loboes Smack Lions With Six to 0 Win

When Cisco's little Coy Warren crossed their goal line Friday, whatever hopes of a possible Oil Belt championship Brownwood had were blasted. Cashing in on a fumble by Brownwood on their own goal line, the Loboes took three of their four downs to drive over a touchdown from the Lion's six yard line after Banning Wade, playing his first game for the black and gold, pounced on a Lion fumble at that point. Catching the Brownwood boys at this disadvantage the Loboes could not be denied the touchdown.

As Coach Petty expressed it: "The boys went out on the field to win and they won." The Brownwood team was outplayed by the fighting big dam Loboes during the greater part of the first half and the half saw neither team account for a single point. It was the early part of

250 TEACHERS ATTEND MEET AT EASTLAND

Registrations With Ass'n Show Great Increase

The fall meeting of the Eastland County Teachers association at Eastland Saturday drew an attendance of more than 250, and resulted in larger registrations for membership than in any year since the organization of the association, which takes the place of the old county institutes.

Outstanding addresses by Dr. L. A. Woods, state superintendent of public instruction; H. E. Robinson, assistant state superintendent, and Miss Lillie Martin, primary teaching expert from Baylor university, and interesting discussions in the various sectional meetings which followed the general assembly, marked the program.

Organization of the county Interscholastic league committee and designation of Eastland as the site for the county meet next spring, occurred coincident with the meeting.

Supt. R. N. Cluck, Cisco, president of the association, called the general assembly to order promptly at 8:30. Business of the various sections was concluded and the convention dismissed at 12 noon. Resolutions adopted by the teachers recommended particularly that the state rural aid law be clarified for more effective administration.

The association holds two meetings annually with a business session for election of officers in the spring.

New Business Is Located in Cisco

A former Ciscoan has returned to this city to open a wholesale and retail automobile accessory business.

He is Shoval Huston whose new business, to open in a few days, is located at 116 West Eighth street. Three families have been moved to Cisco with the location of the new enterprise here.

A generator and armature repairing service will also be maintained.

Mr. Huston will operate a wholesale business in this area and do a retail business at his location here. For a number of years he lived at Clyde, Texas.

She Has Seen 22 States

MISS PAULA BOOKMAN

Midgets to Meet Gorman Eleven Here Monday

The Cisco grammar school Midgets will play the Gorman grammar school team at 4 o'clock at Chesley field Monday afternoon. This game will be one postponed from last Thursday because of a misunderstanding at Gorman.

The Midgets, said Prin. C. C. Duff are primed to a higher degree of determination to win the contest because of the failure of the Gorman team to appear at Chesley field last week after the Cisco school had made extensive preparations to entertain them, and he promised a thrilling contest.

Playing with the Gorman eleven will be some high school boys who have not made the high school squad and this strengthening of the grammar school team will enable it to give the Cisco boys a much harder battle.

There will be no revision of class schedule for the day, Mr. Duff said.

Revival to Begin at Church of God

A three weeks revival will begin today at the Church of God. Services will be conducted by the Rev. W. S. Hancock of Greggton, Tex. Rev. Hancock will not arrive until Tuesday evening and preaching Sunday morning and evening will be by the pastor, the Rev. C. S. Moad. Monday night, the Rev. Robert E. Bowden of Eastland, Tex., will do the preaching.

Services will begin each evening at 7:30. Day services will be announced later. The public was invited to attend these services.

Three-Year-Old Cisco Girl Is Real Traveler

She is only just a little past three is Little Miss Paula Bookman, daughter of Mr. and Mrs. L. F. Bookman of this city, but she has travelled more miles and visited more states than the average person does in a lifetime. She made her first trip with her parents at the age of six months, and since then she has visited 22 states of the Union and old Mexico, travelling an estimated 250,000 miles during that time. She has seen the Sugar Bowl game at New Orleans, the Dixie Series and numbers of other outstanding spectacles in the world of sport and amusement.

Her father is the representative of the Mergenthaler Linotype company for west Texas and New Mexico, and Paula and her mother accompany him in his travels over the territory quite frequently. But most of the tours in which she has visited other states and countries have been in vacation periods. The states she has been in are her native Texas, New Mexico, Arizona, Utah, Colorado, Oklahoma, Arkansas, Louisiana, Mississippi, Alabama, Virginia, West Virginia, Maryland, Pennsylvania, Ohio, Indiana, Illinois, New Jersey, New York, Delaware, Connecticut and Kansas.

Student March in Cairo Broken Up

CAIRO, Egypt, Oct. 23. (AP)—Twenty-five persons were wounded today when police clashed with several thousand Giza university students trying to enter Cairo for a demonstration against the government.

FDR SAYS NEW TAXES NEEDED FOR FARM AID

Letter to Jones Says Budget Balance Is Essential

WASHINGTON, Oct. 23. (AP)—Chairman Jones, of the house agriculture committee today revealed a letter from President Roosevelt saying that new taxes would be necessary if the cost of the crop control program was increased by the special session of congress.

The president said "It is especially important that the new legislation should not unbalance the expected balancing of the budget." No additional federal expenditures from the general fund of the treasury should be made above the existing planned expenditures excepting incurring of additional obligations by the treasury backed a hundred per cent by additional receipts from new taxes, he wrote. Jones said he felt confident that legislation would be worked out embodying these principles.

Chinese Claim Japs Definitely Checked in Drive

SHANGHAI, Oct. 23. (AP)—The battle for Shanghai swayed tonight in a maze of creeks and meandering canals north of Tazang, and six miles northwest. Both sides admitted severe losses as the Japanese endeavored to smash lines and open the way to Nanking. The Chinese army spokesman said that the Japanese threat was definitely checked after 70 hours of combat. An observer at the northern edge of the international settlement found that the Chinese made slight gains in street fighting.

Hallow'en Party for Young People

The intermediate and young peoples departments of the Cisco First Methodist church were entertained Saturday night with a Hallow'en party in the basement of the church. The program was along the Hallow'en line of entertainment and a grand time was had by all. A large group was present to enjoy the party.

New Ford Models To Be Out Soon

S. H. Nance, president of the Nance Motor company, announced Saturday receipt of a telegram from the Ford Motor company at Dearborn, Mich., which indicated that the Ford company shortly would come out with a sensational announcement of new 1938 models. Two completely new cars and an additional one-ton truck will be included in the new lineup of Ford cars, it was understood.

Date for the announcement was not learned, but it was expected to be within a few days, Mr. Nance said.

ROSE HAIR IS STYLE

NEW YORK, Oct. 23. (AP)—Hair tinted "a tender, tender rose" is the great new thing in women's styles, a European hair-styling expert said Friday.

DISTRICT HEAD SAYS MEETING IS BEST EVER

Cong. Garrett One of Speakers on Program Saturday

Rural letter carriers of the 17th congressional district and their guests to the number of more than 200 gathered at the Laguna hotel last night for the annual meeting of the 17th district Rural Letter Carriers association which President Joe I. Nally of Trent described as the best such convention that he had witnessed in any district of the state.

The dinner, served on the roof garden of the hotel, was attended by numerous state and regional officials of the association, post office department officials, city and county officials and by Cong. Clyde L. Garrett of the 17th district, whose address was the principal one on the program.

Capacity of the roof garden was more than taxed to take care of the crowd, which was increasing at 9 o'clock.

Among state officials of the rural letter carriers organization attending were President John Hood of Dallas and Vice President D. E. Smith of Colorado City. Earl Slater of Clyde, Texas, editor of the Texas Carrier, official publication of the state association was also a guest.

Inspector P. M. Juvenal of Abilene was a speaker, as was Adolph Geue, of Austin, state paymaster for rural letter carriers at Austin. W. L. Fletcher of Hamlin, treasurer of the national association, was also a speaker. Officials of the district association in addition to President Nally, included Elmer T. Gilbert of Roby, vice president and Roscoe Reeves of Gorman, district secretary.

Other speakers were W. S. Adamson of Eastland, county judge, who formally welcomed the

Credits Offered for Attendance on Sunday School

Rev. Joe I. Patterson, pastor of the First Methodist church of Cisco, announced Saturday that the public schools have agreed to cooperate with the churches of the town in raising the Sunday school attendances in the young peoples divisions of the various churches. The plan adopted by the two groups to put over this project will consist of the granting school credits for those students who make a habit of regularly attending the Sunday school services.

R. N. Cluck, superintendent of the Cisco public schools, acknowledged the plan a good one and one that would be beneficial to the community. The Ministerial association at a meeting Thursday voiced their approval.

The plan, as it was explained by Mr. Cluck, will enable students in the public schools, of all denominations, who attend some Sunday school or whatever the denomination may term it, for six consecutive Sundays beginning today, may use this attendance to raise any two of their lowest passing grades from a C to a C plus or a C plus to a B, etc. But in no case, it was emphasized, may they use a Sunday school attendance credit to raise a grade from a D to a C.

Large Crowds See New Models of Chevrolets

Large numbers of people from the city and surrounding sections were guests of the A-G Motor Co. yesterday, attending the reception and exhibition of the new 1938 Chevrolet models. Weather conditions were ideal for the occasion and throngs were passing in and out of the show rooms throughout the day.

According to A. D. Anderson, the entire program was carried out very satisfactorily. The number of visitors was even larger than had been anticipated, and every one seemed to be much delighted with the new Chevrolet 1938 models.

Revolutionary Clutch

Driving effort is greatly reduced, and control over the car is increased, by the new "Tiptoe-matic" clutch, of revolutionary design, which is being introduced on all the new 1938 Chevrolets, both passenger cars and trucks.

The mechanism operates on a principle which has already had some applications in long-range artillery, hydraulic presses, rail-car couplings, and similar heavy-duty installations, although it has never before been adapted to use in the automotive field. Many months of testing, both at the General Motors Proving Ground and on the highway, preceded its adoption on the 1938 Chevrolet.

The central unit is a spring diaphragm of heavy heat-treated steel, shaped something like a concave disc, or, more accurately, a "dished" washer, with 18 tapering steel fingers pointing inward from its edge.

When the clutch is in the engaged position, the entire outer rim of the disc bears against the pressure plate, providing complete distribution of the driving load. When the pedal is depressed for disengagement, however, the pressure of the throwout bearing on the inner ends of the fingers causes a diaphragm action, comparable to that which takes place when the bottom of an oil can is pressed. The outer ends of the fingers, toward the rim of the disc, pivot on the foremost of two fulcrum rings, one of which is located on either side of the diaphragm. This causes the rim of the diaphragm to spring away from the friction disc against which its own stiffness has held it, and disengagement results.

25 Per cent Less Effort

Just as the initial pressure required to operate an oil can is greater than that needed to complete its depression, so does the pressure required by the new Chevrolet clutch decrease as the pedal stroke progresses. Engineers report that it takes 25 per cent less effort than in 1937 to operate the clutch.

At the same time, engagement characteristics have undergone marked improvement. The fact that the entire rim of the diaphragm bears on the clutch disc assures complete distribution of the driving load. Uniform load distribution around the pressure plate, and softer application of the load, are affected by the substitution of the 18 tapering steel fingers, stamped integral with the spring, for the three pressure levers of 1937. Because the disc pivots on the fulcrums provided by the two steel rings, friction is held at a minimum, not only when the car is new but after long service, when the conventional clutch develops noticeable friction drag.

The design of the new mechanism, Chevrolet engineers point out, is such that it requires no lubrication throughout the life of the car.

Ice absorbs heat when melting.

Purchases First 1938 Chevrolet in Cisco

The first of the new 1938 Chevrolets delivered in Cisco was delivered to Barton Philpott of Philpott, the Florist. Here is shown A. D. Anderson, extreme right, and Jack Anderson, left, president and vice president of the A-G Motor company, congratulating Mr. Philpott, center, on his choice of one of the beautiful new models which went

on display for the first time yesterday. The Chevrolet is a Master DeLuxe. (Photo by Mills-Morton; Daily Press Engraving).

Markings on State Highways Will Be Simplified

Motorists traveling United States designated highways in Texas no longer will be puzzled by a multitude of highway markers in thickly populated areas, according to instructions just issued by the Texas Highway commission through Julian Montgomery, state highway engineer, ordering state markers taken down on such routes.

"After an exhaustive study of this whole matter of highway markings we have found that by simply using U. S. route markers it is much easier for the traveling public to follow such highways," said Mr. Montgomery. "With the trend toward simplicity and elimination of confusion caused by duplicate markers some thirty-five states are using U. S. markers exclusively to the satisfaction of all concerned."

"According to the present marking, many places in the state, and especially the business districts of cities, require so many markers on each post that the traveler is forced to stop traffic while studying these markings, thus creating a safety hazard."

State highway officials state that the original purpose in assigning U. S. route numbers was to simplify the markings of highways enabling the traveling public to follow the route, to, or through, other states.

These U. S. route numbers are designated by the executive committee of the American Association of State Highway Officials after a careful consideration of the needs for such designation as submitted by the states.

According to Mr. Montgomery, the elimination of state markers from U. S. routes will result in a considerable saving to the depart-

ment. He further said that state markers would remain in place on state highways which have not been designated as U. S. routes and which do not carry standard U. S. shield markers.

Sunspots No Cause of War, Prof Says

WASHINGTON, Oct. 23. (AP)—Don't depend on sunspots to explain the European crisis, the Sino-Japanese war, and the recent stock market gyrations, a Harvard astronomer advised Friday. Loring B. Andrews, secretary of the Harvard observatory, said in an article written for the annual report of the Smithsonian institution that the frequent efforts made by economists and amateur astronomers and others to correlate the occurrence of sunspots with earthly troubles, depressions and booms are almost pure guesswork.

Glamour is as glamour does. Many "beauties" who wear false eye lashes also wear false fronts.

Matters in Probate
Final report of Allie Putnam Castelow (now Allie Perkins), guardian of the estate of Louise Howell et al, minors, it which was shown the condition of the estate, and the report was approved. The guardian reported to the court that since being appointed guardian of said minors she had re-married, and asked for authority to sign all checks and other pa- pers in connection with her guardianship as Allie Perkins, instead of Allie Putnam Castelow (Perkins). This authority was ap- proved by the court. The guardian further informed the court that she and her wards have re- moved from Eastland county and the state of Texas to Tennessee, that the law authorizes the court to remove a person as guardian when they are no longer resi- dents of Texas, she asked the court to vacate the guardianship after she had paid all costs in- volved in her administration of the estates of her wards, and had discharged and paid approved claims against the estate. It was the further petition of the guar- dian that she be authorized to sign checks for such funds now on deposit in the First National bank of Cisco without the signature of the representative of the surety company by whom she was bond- ed, as the company no longer has a representative in the county. These several petitions of the guardian were approved and au- thorized. It was the further or- der of the court that Allie Per- kins be and was removed as guardian of the estate of Louise Howell et al, minors, for the rea- son she was no longer a resi- dent of Texas upon the payment of the costs of court involved, and certain other allowed claims against the estate. In the matter of the estate of J. R. Wood, deceased. Petition of Mrs. Rose Wood for designation of the family home and the 15 acres of land on which it is lo- cated as her homestead. Petition approved and the homestead was so designated by the court. Ap- praisalment of the estate was ap- proved as reported by J. W. Barnes, J. M. Searcy and A. G. Pool. Petition of W. H. McDonald for letters of temporary guardianship of the estate of Billy Bob Mont- gomery et al, minors, approved and letters ordered issued, and it was further ordered that the guardianship become permanent unless contested at the hearing named in the citation. Petitioners bond was set at \$3,400, which was filed and approved with Guy Patterson and R. F. Jones as sureties after said guardian had subscribed to the required oath. Petition of A. H. Rhodes, in- dependent executor, to probate

the will of C. M. Root, deceased, approved and citation ordered is- sued for a hearing on November 1. The estate is estimated to be of the value of \$40,000 in which the testator bequeaths all of his estate to his widow, Mrs. Alice S. Root, his daughter, Mrs. May Smith, and his grandsons, Melvin and Robert Root Smith of Tor- rance, Calif., his sole beneficiaries, one-fourth to each and A. H. Rhodes, his nephew, is named in- dependent executor and trustee, who is charged with the distribu- tion of these bequests, either in cash or kind, at his discretion. The will is dated May 21, 1937. A codicil, dated Sept. 8, 1937, be- queaths his life insurance, the family jewelry and automobile to his widow, Mrs. Alice S. Root. Citation was ordered issued for a hearing on November 1.

The will of J. A. Bearman, de- ceased, was filed for probate by the executors, Mrs. Alice T. Bear- man, R. A. Bearman and Agnes T. Bearman, independent execu- tors and executrixes under the will, who are sole beneficiaries. The will recites that the estate is community property, half of which is bequeathed to his sur- viving widow, and one fourth each to his son, R. A. Bearman, and Agnes T. Bearman, his daughter. The will also provides for keep- ing in force his insurance policy, the proceeds of which to be a fund for the education of his grandchildren, children of Mr. and Mrs. R. A. Bearman. The peti- tion for probate was approved and citation issued for hearing on No- vember 1. Final report of J. H. Woodruff, guardian of the estate of J. T. Woodruff, incompetent, showing condition of the estate, filed and approved.

Instruments Filed
The following instruments are of recent filing for record in the county clerk's office:

First Presbyterian Sunday school 9:45, and we wish to announce that preparations have been made for an increased attendance...

Grace Lutheran Church Sunday school at 10:00 a. m. Service at 11:00 a. m. The public is cordially invited.—E. H. RIESE, Pastor.

Church of God Sunday school 9:45. W. B. Ellison, superintendent. Morning service 11:00. Evening services at 7:30. Preaching at each service by the pastor, Rev. Robert E. Bowden of Eastland, Texas...

First Baptist Sunday school, 9:45; morning service, 11: BYPU, 6:30 p. m.; evening service, 7:30.—JUDSON PRINCE, Pastor.

Christian Science Services "Probation After Death" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 24.

Among the citations which comprise the lesson-sermon is the following from the Bible: "I heard a voice from heaven saying unto me, write, blessed are the dead which die in the Lord" from henceforth: Ye, saith the Spirit, that they may rest from their labors; and their works do follow them" (Revelation 14:13).

Mass Meeting of Baptist Pastors, Laymen at Paso

EL PASO, Oct. 24. (Sp) — A great mass meeting of Baptist pastors and laymen will be held in the First Baptist church of El Paso on Nov. 8, preceding the annual meeting of the Baptist general convention of Texas...

Dr. Porter Bailes of Tyler, president will preside at the four conference sessions. Dr. D. M. Wiggins, College of Mines, El Paso will address the conference Nov. 8 on "The Church's Challenge to Men."

Judge Thomas L. Tyson, Corsicana, will address the men on christian giving, urging them to exceed during the coming year the approximate total of \$625,000, which was donated through Baptist churches of Texas from Oct. 1936 to Oct. 1937.

Dr. H. H. Hargrave, Waco pastor, will deliver the conference sermon, key-noting the program of the denomination which includes hospitals, missions, active participation in christian education, orphans' homes and many phases of local church work. Texas Baptists share in a mission program which includes mission enterprises in every nation of the world with the exception of Albania.

Miss Blanche Peebles who has been visiting her uncle, L. F. Mendenhall, and Mrs. Mendenhall for the past month while recuperating from a recent illness, left Friday for Austin where she is employed in the drivers license bureau of the state department of public safety.

Ducks with biggest bills go after the smallest food—minute insects.

Rain crow really is a cuckoo.

COLLINS HARDWARE

Two's Company

By MARGARET CUION HERZOG

The Characters
 Nina, a nice girl with flaxen hair, meets a young man at a party.
 David drives her home, confessing he crashed the party and is an automobile salesman. He has copper hair and a dog named Button.
 Honey, Nina's plump, youthful mother, brings home a new husband.
 Richard, Nina's stepfather, is charming, poised, dark-haired, well-tailored and Honey's junior by 10 years.
 Cordelia, Nina's closest friend.

'Stick Close to Her'
 Tonight Nina did not notice her beautiful room, or drink it in appreciatively, as she usually did. She drew her things off over her head, cold-creamed her face, brushed her teeth and hair and opened the windows, in a sort of daze; and the minute she was in bed, she started to cry, softly.

"Oh, daddy," she murmured into her pillow; and as the wintry dawn crept in, she was a little girl again, having her first little talk with her father, about Honey.
 "But it would have been so easy for her to remember, daddy! I said 'tan,' so plainly, and she got green . . . and now I'll have to wait a whole week for another order, and your present won't be done for Christmas! I do think she might have . . ."

"Now, listen, youngsters," she could absolutely see her tall thin father, with his sensitive mouth and kind, humorous eyes. "There are two kinds of people in this world: the serious, sensible kind, like Annie, who mend your clothes and look after you, and never forget things . . . and then there are people like your mother, who make all the fun and gaiety in the world. Now you couldn't expect Annie to make you scream with laughter, and think up wonderful new kinds of games, and have all the kids crazy about her, could you? . . . No. Well then, you mustn't expect your mother, who brings you so much of another kind of happiness, to be like Annie, as well. That's sensible, isn't it?"

Nina had been able to see that it was. After that she had thought of Honey as having a very special sort of gift—as indeed she had—and had understood her much better.

Never Been In Love
 Once or twice she had come upon her father unexpectedly, with an inexpressibly sad look in his brown eyes, and she had wondered if Honey's special gift brought him as much happiness as it did others; but she had been too young to think very much about it. It was not until she was 16, and daddy had another little private talk with her, that she understood better.

It had been in the library—daddy's room then—with rows of

slightly musty books and dark green leather chairs and sofa.
 When he had called her in for that second talk about Honey, they had all known of his heart trouble—that he might go, suddenly, at any time.

He said: "I want to tell you some things, Nina dear, that I wouldn't be telling you if I were a well man. I'll plunge in." He sighed. "You may, or may not have noticed that your mother has never been—in love with me. That's very different, you know, child, from caring for someone. Your mother cares for me a lot. As a young girl she was engaged to a man, and something went wrong. . . I practically browbeat her into marrying me."

Nina had interrupted. "Oh, daddy, darling, you couldn't browbeat anyone!"

"Well I did, just the same, youngster; and I don't feel badly about it because we have you as a result, and we've been awfully happy together. Of course I should have let her go in a minute, if she had ever wanted to . . . ever met anyone else. But the point of all this is that your mother is still a child, almost. You're not old enough to know it yourself yet, but a normal passion, a love that is satisfied, matures a person—completes them; and Honey has never had that. . . All her sudden enthusiasms . . . her instability . . . her darling crazy fads, are simply because she had never been—crazy enough about me. Can you grasp all this, Nina dear? . . . Well, now, a person like that needs a lot of looking after, and on the best authority, I'm not going to be here much longer to do it."

Nina had marveled at his being able to speak of his death so lightly. Her own throat had closed up on her till she had had to make a little choking sound to breathe.

"You've Got to Grow Up"
 "You've had a grand childhood, haven't you? And I want you to forget all this, for now, and go on being just as young and silly as you like. But when I'm gone, Nina," he was very solemn, "when I'm gone, you've got to grow up

and speedily. Will you promise, me child?"
 "I do promise, daddy, I do."
 "And another thing, I don't want any loyalty to me, on your part, to make you unhappy if your mother should marry again. I want her to . . . if he's the right man. She would turn into an entirely different person if she really fell in love, deeply . . . and if I'm anywhere up high enough to get a good view of her, I shall be entirely happy about it. But if he isn't the right man (and here's where you've got to be grown up and keep an eye on her) . . . she'll go to pieces, you know that. Stick close to her, youngster, you've got a good head on your shoulders, I'll be depending on you. . ."

Nina remembered all this, as she lay, now, between her peach crepe de Chine sheets.

Her father had been depending on her, and she had always done her best . . . till now, when it was too late to do anything at all, only hope.

"Oh, daddy, darling . . ." she murmured again, and fell asleep, because after all, she was young and healthy, and it was nearly 6 a. m.

At 11, she went down to breakfast. Honey had never, never had breakfast with her first husband, so Nina had always made the effort; and now—some peculiar leftover—she always felt disloyal if she stayed in bed. Sometimes after a late night, particularly in her debutante winter, she had struggled in more asleep than awake, merely kissed him, gulped down a glass of tomato juice and returned to bed . . . but it had been comradesly, and her father had never been able to break her of the habit.

This morning as usual, these

Smart in Style New Lincolns Well-Groomed,

NEW YORK, Oct. 23. (Sp)—Metropolitan New York today got its first glimpse of the 1938 Lincoln-Zephyr motor cars on display at Lincoln's Park avenue salon and Broadway showrooms. Showings in other cities are to be scheduled as rapidly as new cars are shipped from the Lincoln Motor company plant in Detroit.

Smart and well-groomed, the 1938 Lincoln-Zephyr cars inject into the melange of motor car fashions a new and modern style note. It is a fresh approach to the advanced streamlining pioneered by Lincoln only two years ago with its entry in the medium-priced field.

Two new convertible body types, a sedan and a coupe, have been added to the Lincoln-Zephyr group. Other types are a sedan with four doors, a coupe-sedan with two doors, a three-passenger coupe and a town limousine.

Principal engineering improvements are a lengthened wheelbase, a smoother engine, redesigned

Warehouse Assured for Peanut Territory

MAN, Oct. 23. (Sp)—As was given Tuesday of this week the Gorman Luncheon it would underwrite the amount necessary to supply a warehouse in Gorman for the use of those who are members of the Western Peanut Association, their peanuts in and provide a market here peanuts that the association purchase at 93 and 87 per bushel respectively.

Building which has been the Carbon Peanut storage, has been secured for this purpose, and an application is being filed with the Credit Corporation for a warehouse permit.

Buying of peanuts is expected to start early next week. Government grader is already in Brownwood and is to qualify the local grader as the warehouse facilities are secured, and these facilities will be ready as soon as the Credit Corporation approves the application. We are informed by officials of the association, will be a matter of only a few days.

Federal Reserve bank in has the money ready for payment of the peanuts, and farmers will experience no difficulty in obtaining their money they sell their peanuts. The money which the farmers will receive for their peanuts is simply this. A grader, owned by the government will grade the nuts and the warehouseman will issue a receipt for weight and the grade, this receipt is taken to the local bank and cashed in the same manner as a check.

At the end of 1935, there were 10 postoffices in Japan.

CLICKING FOR CORNELL

PREDICTS CLOSE OF WAR
CLEVELAND, Oct. 23. (AP)—Yakichiro Suma, Japan's second-ranking diplomat in the United States, predicted Friday "a satisfactory and reasonably quick settlement with China if there is no outside encouragement or assistance given the Chinese forces and if no difficulties are made for us by other countries."

Skunk and black fox are popular trimmings for coats and suits this fall.

Before approximately 456 A. D., Japanese history is mostly legend or pure myth.

Waiting Tactics Are Adopted by Sales Tax Bloc

AUSTIN, Oct. 23.—Lying-in-wait strategy is the only solution so far offered to the conspicuous absence of the sales tax plan, up to the time the senate got from its committee the omnibus oil-liquor tax bill.

Either a coup to tack on a \$5,000,000 sales tax tail to the \$2,225,000 production levy, during senate debate, or, more probable, to engraft it in conference, where the bill will not be subject to point of order and must be taken or rejected as a whole, may be the answer.

Observers, advocates and opponents alike of the sales tax, did not believe the strong bloc of its champions were going to pass up this best chance in a decade to push for its adoption at this session.

There is a joint legislative rule that only matter considered in one or the other house may be included by a conference committee.

The predicate has been laid to bring a sales tax within this rule.

The house voted a separate sales tax at 20 per cent of the sale price of fixed drinks. Senate state affairs took this bill, with the rate at 10 per cent, and put it into the omnibus bill. Thus, in both branches, the subject-matter of sales tax has been acted upon. It would not be the inclusion of an approved levy to other types of

business, to include the Redditt plan for a luxury tax.

Spread Tax Base

Most of those who go before committee and protest important increases in production and occupation levies, offer as their solution "spreading the tax base more broadly," that is, the sales tax principle. Some of the observers at the capitol still hold to the idea that the production, franchise and occupation levies will flatten off at around \$2,500,000 in the conference bill, and that a mild sales tax will be spread on, just to acclimate Texas to this policy of taxation.

They think the closest guess is the Redditt plan, greatly modified. Former Gov. Jas. E. Ferguson's 2 per cent universal sales tax would have brought in more than 40 million dollars. The Redditt proposal, originally, was to exempt the first \$1 of all sales, and sales below \$1; and to put a rate of 1 per cent on the rest. This was figured to bring in somewhere around \$10,000,000 a year. Now the guess is, to exempt all sales under \$10, and the first \$10 of all sales. Thus, on an \$11 sale, the tax would be only 1 cent. A \$50 suit of clothes, for instance would include only 40 cents of tax.

Gov. Allred has said he welcomed a "luxury" tax that really was a luxury levy; and those talking about this \$10-take off tax insist that 99 per cent of all food and clothing purchases would entirely escape this tax.

The main objection urged to the sales tax is that it brings in too much money. The proposal, if this 1 per cent, \$10 exemption, plan is brought forward in the final two or three days of session, will be

Finds Model In Wisconsin City

TWO RIVERS, Wis., Oct. 23. (AP)—When Artist Lester Bentley was commissioned to paint 14 canvases for St. Luke's Catholic church, he had to have a model for the Christ. He found one right in Two Rivers, which hasn't much more than 10,000 population.

The model was Joseph Krey, 29-year-old aluminum plant worker, who came complete with beard. When he broke his leg vacationing, he decided to let his whiskers grow out while he convalesced. The result was a gaunt, high-templed face framed in just such a beard that Christ is portrayed as wearing.

a big Thanksgiving Dinner is easy to get with an ELECTRIC RANGE

Turkey Day is more than a month away but invitations for the gala event already are in the mails. Plans for the annual festive occasion are in the embryo stage. Acceptances soon will be forthcoming—and menus must be set. If it's your first Thanksgiving dinner, you can go about it without a worry if you use an electric range. If you haven't included electric cookery in your plans, do so now. It will give you time to enjoy the Big Day, visit with visitors, and renew friendships you've been too busy to maintain all year long. Electric Cookery is easier. Phone us today for information about the electric range, trade-in allowance and terms.

NEW! WINTER and SUMMER **AIR CONDITIONING** FLOOR FURNACE

Electrogas AIR CONDITIONING HEATING EQUIPMENT

"The Greatest Advancement in 20 Years of Gas Heat Engineering"

At Last! Heats! Cools! Filters! Purifies!

ELECTROGAS — Pioneer manufacturers of Gas Floor Furnaces — now give the world the first "AIR CONDITIONING" Floor Furnace — All of the advantages of modern air-conditioning in a simple, rugged unit of highest quality and finest efficiency — yet priced far below the cost of any air-conditioning equipment offered today!

Clean, pure, warm humidified air literally forced to every corner of every room. And you may maintain an even temperature automatically year in and year out.

For hot, humid climates, cooling coils may be added.

STUDY THESE EXCLUSIVE ELECTROGAS FEATURES

- Fresh Air Intake (Summer Cooling)
- Silent Blower
- Rubber Mounted Motor
- AIR FILTERS (Remove dust, pollens --- An assurance of good health.)
- HUMIDIFIER --- Self regulating.
- ELECTROGAS---Original hollow-fin streamlined heating unit.

A Complete Change of Air Every 10 Minutes

Think of it! 36,000 cubic feet of "comfortable" pure air every hour in the small size Air-Conditioning Furnace—and available to 60,000 cubic feet per hour. This heat at 150 degrees (at furnace), as compared to the average of 6,000 cubic feet of air every hour at 450 degrees with usual type of floor furnace.

EASY TO INSTALL --- Placed in the floor with very little expense. Estimates given.

EASY TO BUY --- Terms if desired. A Model and Size for Every Home

Laughing Around the World

With IRVIN S. COBB

More Versa Than Vice, Probably

By IRVIN S. COBB

IN A certain Southern city the lady who is at the head of the public library has a fondness for larding her speech with quotations from foreign languages, including the dead ones. Especially is she addicted to Latin phrases. Locally there is a suspicion that she sometimes gets a trifle mixed. But the lady herself goes serenely along, pumping strange words into her everyday conversation. One afternoon a patron dropped in to get a book.

"You weren't here the last time I called," said the visitor. Your assistant said you were taking a little rest. Did you enjoy your vacation?"
"Very much," said the learned one. "I just took a little jaunt up to New York via train and came home vice versa."
"How did you say you came home?" asked the astonished citizen.
"Vice versa," repeated the lady blandly. "By steamer, don't you know?"

bers. According to this evidence, the overpass was constructed in the summer of that year.

All of the old bridge, except the framework of the central

span, has been removed, and foundations for the eastern approach to the new overpass are being laid. Forms were down for one set of pillars Saturday and almost ready for pouring while the big deag shovel of the Jensen Construction Co. was biting into the earth for a second set.

Loboes---

(CONTINUED FROM PAGE 1)

first two tries by Odell Harrison failed to advance the ball leaving only two more downs remaining for a chance of a score. On the third play, however, Cisco's diminutive quarterback, Coy Warren plunged over the middle of the line for the tally. An attempted line buck by Odell Harrison for the extra point failed and the score was 6-0 in favor of the Loboes where it remained for the rest of the game.

Lobo Fight Some Victory

Only the Loboes fight kept the Lions from scoring after they advanced the ball deep in Cisco territory on more than one occasion to be held by the Cisco forward wall. Three penetrations one to the seven, one to the 14 and one to the 15 bogged down. The only department in which the Loboes were outshown was their running game. The Lions managed to mount up a large total of yardage in the center of the field where nothing counted but they didn't have what it took to carry the old pigskin over in the crucial moments when the Lobo line showed up brilliantly.

Unable to cope with the passes being tossed by the Lions during the first two periods, the Cisco boys finally solved the Brownwood attack and nothing more was heard from the Lions in this phase of the game. The Loboes tossed 7 passes, completing 4 of them for an average of better than 50 percent.

One of the most thrilling plays of the entire game and one of the most disappointing for the Cisco fans came late in the fourth stanza when Odell Harrison, playing one of the best games of the season, snatched a Lion pass and galloped 45 yards to cross the Brownwood goal line standing up. The play was called back, however, and Cisco was assessed a five yard penalty for offsides.

One of the dramatic points of the game was enacted when "Cotton" Harrison, oldest of the three Harrison brothers played for Cisco who receiving a broken leg early in the season, was taken off the field after having played one quarter to see his first action for the Loboes this year. A mighty cheer arose from the crowd at this point and the band struck up one of the school songs.

The whole team showed more spunk and fight than they have ever exhibited in a game before, the Cisco coaches said, and to the large crowd that saw the game this was evident. The team after seeing that they had a chance

to beat the highly touted Lions buckled down to the task and went about it in a determined business-like way which spelled doom for the Lions.

Every Man Outstanding

Every man on the team was outstanding and no individual stars stood out above any other player. The whole team cooperated with one another in order to realize the victory that they had set out to fight for. However, Wade and Dunham, two new boys were everything that the coaches expected they would be. These two beefy lads, placed at the tackle positions, were a great factor in the Loboes' win, and this added weight to the team will be greatly felt when the Loboes tackle their remaining opponents in the Oil Belt scramble. Dunham is a student from a rural district attached to Cisco.

Cisco is to take on the ram-raging Eagles at Abilene next week and will prepare for the contest with a week's hard practice on pass defense and polishing up on their offense where weaknesses were discovered in the Brownwood tilt.

The team which started against the Lions was as follows: Harrison and Preston at ends; Wade and Dunham at tackles; Cone and Latch at guards; Stewart at center; Yancey and Steyer at halves; Warren at quarter; and Harrison at full.

Credits Offered---

ance credit to raise a failing grade.

Credit for attendance on four consecutive Sundays may be used to raise one lowest passing grade, it was explained.

"We are happy to cooperate with the ministers in the town on this movement," said Mr. Cluck. "Children who do not attend Sunday school will not be penalized in any way, of course. We are merely offering this reward to encourage what we believe is a splendid influence upon the children of the community. In my opinion it is a step in the right direction toward establishing a more definite course in character education. Continuation of this policy will depend upon the success met with during this experimental period."

RETURNS FROM CANADA

Miss Mary Elizabeth Prange has returned home from Penbrooke, Ont., Canada, where she has been visiting her sister, Mrs. C. H. Neuhaus. She was accompanied on her return by her two small nephews, George and Tom Neuhaus, who will make their home with their grandmother, Mrs. Dorothy Prange, for an indefinite stay. The return trip was made with Mr. and Mrs. Mart Prange from Detroit, Mich., by automobile, who are enjoying a visit with relatives here.

WITH SINCEREST THANKS

Our sincerest appreciation is extended to our friends and neighbors for their kind and loving ministrations in our bereavement by the long and continued illness and death of our loving husband and father, the late Geo. W. Weaver. Your kindness and sympathy contributed much to assuage our grief. Especially are we appreciative for the beautiful floral offerings, mute emblems of love, which you contributed.

gathering to the county; Gordon Wier of Abilene, who responded on behalf of the district organization; O. T. Burlison, county judge of Jones county; and Burris C. Jackson, Hillsboro postmaster.

County officials were the special guests of the letter carriers because of the peculiar relation of their problems of county road building to those of the carriers.

Music for the dinner was furnished by the Schaefer-Hittson orchestra.

Arrangements for the dinner were in the hands of a local committee headed by W. L. Boyd. Serving with Mr. Boyd were W. H. Hall, Sam King, J. A. Krisell and Postmaster Luther McCrea and Assistant Postmaster Velma Hayden.

Selling Sweeps Market Into Decline

NEW YORK, Oct. 23. (AP)—Selling swept the stock market into a broad decline today, forcing prices down one to eight dollars.

Railroad and steel issues were the first to feel the selling which soon spread throughout the market. Steel common reached a new low for the year, Santa Fe and Southern Pacific also suffering wide losses.

Belgium Indicates Parley Postponement

BRUSSELS, Oct. 23. (AP)—The Belgian foreign office disclosed today that the government was considering postponing the nine-power conference on the Chinese-Japanese conflict from October 30 to Nov. 3.

Officials indicated the belief that Japan would participate. This optimism was understood to be based on negotiations underway in Tokyo today.
