# THE CISCO DAILY PRESS

Combined With Cisco Daily News and Cisco American and Round-Up November 1, 1937

In an area of beautiful, benevolent climate, at ideal altitude, blessed with an abundance of the purest, soft lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather transcontinental route, with two railroads and many highways, Cisco is the best place in Texas to live and to work.

VOLUME XVIII.

CISCO, TEXAS, SUNDAY, MARCH 6, 1938

NUMBER 180

## THOMAS NO. 1 RECALLS BOOM-DAY GUSHERS

### Lone Star Well Is Dramatic Producer

Offset to Ellenberger Discovery Northwest of Cisco, Roars Over Crownblock to Establish Prolific Westward Trend to New Area

Described by oil men as one of the most important developments in west central Texas in years and second only to the Hickok Van Parmer discovery well in its importance to the area northwest of Cisco, the Lone Star Gas company's

Marshall Thomas No. 1 roared over the crownblock at 11:10 Friday night to establish a prolific westward trend to the Van Parmer Ellenberger pool and excite this community with the prospect of a major producing formation at its doors.

It was impossible to estimate the probable production of the strike, but observers were of the opinion that it would exceed even the 1,100-barrel potential of the pool discovery. Important, if somewhat puzzling, indications were seen also in the location of the producing horizon which is 37 1/2 feet lower than the Van Parmer pay and is believed by some to be a different member of the Ellenberger series and to suggest a variety of geoclastic horizons of prolific quality extending over a wide territory.

**Yale Prof. Is Offered Place Left by Jackson**

WASHINGTON, D. C., March 5 (AP)—Attorney General Cummings said today that he had offered the post of assistant attorney general to Prof. Thurman Arnold of the Yale law school in succession to Robert H. Jackson, who was formerly in charge of the justice department's anti-trust division. Jackson today was sworn in as solicitor general.

**Japs Claim Capture of 20,000 Chinese**

SHANGHAI, March 5 (AP)—The Japanese army today claimed the capture of 20,000 Chinese troops in the extreme northwest of the Honan province, far behind the line which the Japanese are pushing southward toward the Yellow river.

**Ass't State Sup't Under Indictment**

AUSTIN, March 5 (AP)—Miss Edger Allen Wilson, second assistant state superintendent, was indicted by a Travis county grand jury today on charges of extortion and misapplication of funds. The extortion count was based on the charge that she collected \$117 in fees which were illegal.

**Negro Choristers to Sing Today at Methodist Church**

Lawrence L. Grimes, graduate of Fisk University, Nashville, Tennessee, long famous for his Jubilee singers, will present the members of the Negro community of Cisco in a recital of Spirituals and religious songs at the First Methodist church, this afternoon at 3 o'clock.

The funds thus raised will be used in defraying the expenses of representatives to the Sunday school and Young People's union meet at Mineral Wells and to the Interscholastic meet in Brownwood.

The program will be: Negro National hymn, Cisco Choristers; Remarks and Invocation, Rev. Joseph I. Patterson, pastor of the First Methodist church; "Father We Thank Thee," (duet and chorus), by Cisco Choristers; "Heigho Ho," School Chorus; "Little Brown Church," Boy's Chorus; "God Keep You Everywhere," Girls' Chorus; Offertory, selected; Spirituals: "God's Going to Set This World on Fire," "None But The Righteous," "Do Lord," "Down By the Riverside," "A Little Talk With Jesus," and "Swing Low Sweet Chariot," by the choristers and "It's Me O Lord," congregation; Benediction.

**Weather**

East Texas: Sunday partly cloudy, colder in the east and south. West Texas: Sunday fair; slowly rising temperature in the north.

### Panay Officers Still in Hospital

The Panay bombing may be a "closed incident" to the Japanese, but here are two men who haven't forgotten. Still bedridden in a Shanghai hospital are Lieut.-Com. James J. Hughes, top skipper of the ill-fated American gunboat which was bombed and sunk on the Yangtze river by Japanese planes, and Lieut. W. J. Geist, an officer of the Panay.

### STORM DEATH TOLL OVER 200 IN CALIFORNIA

Inaccessible Areas Yet Unchecked for Loss of Life

LOS ANGELES, March 5 (AP)—The toll of dead and missing in southern California's most devastating flood soared over the 200 mark Saturday as rehabilitation work continued in the stricken area.

The last check showed 104 bodies have been recovered, of which have been identified. Still missing is an undetermined number of persons. Authorities in the various counties estimated the missing will amount to at least another 100, and will require days to check.

The death toll is expected to be considerably swelled. Surrounded by yellow flood waters are farmhouses as yet inaccessible. The fate of the inhabitants is still a matter of guesswork.

The laborious, slow removal of thick carpets of flood silt and debris continues to swell the count of victims.

**Damage Uncertain**

Nor will the damage caused when prolonged, torrential rains caused southern California's customarily thin, gentle rivers to swirl over their banks be estimated for some time.

Preliminary estimates by officials, however, indicated that the havoc wrecked upon public property will exceed \$50,000,000 in the four counties of Los Angeles, San Bernardino, Riverside and Orange.

No guess has as yet been hazarded as to the damage done to homes and crops.

The region emerged painfully from its inundation and citizens worked feverishly to throw off the storm paralysis. In some sections the threat of further death and disaster still impended.

At Claremont, an army of 300 worked to keep the rebellious San Antonio river from disregarding its confines and sweeping through the town.

**Troops Guard Stores**

National guardsmen co-operated with police in Anaheim to prevent looting of stores. The measures were prompted by the theft of articles from a liquor store.

Airplanes dropped food to persons marooned in the Sierra Madre Mountains. Four hundred pounds of food were flown into the isolated spa of Palm Springs, sunning place of film celebrities and society folk.

Rescue workers who emerged from the Camp Baldy region brought out dramatic stories of how a huge wall of water, armed with boulders, roared down the slopes, sweeping all before it.

It was reported that 500 mountain cabins were destroyed. So was a hotel at Camp Curry and a new tavern. Many were marooned in this sector, but only one death was reported, that of a woman. A man was missing.

The worst damage was inflicted and the most fatalities recorded along the Santa Ana River, which runs out of the Sierra Madre Mountains above San Bernardino and flows to the Pacific through rich citrus lands.

### March Winds Invite Their Kites

Laveria Huddleston, Harry Watkins, Bruce Watson and Reese Huddleston were snapped here while their kites soared in the March winds over a vacant lot in south Cisco.

### Cold Wave Seen as Threat to Fruit

Another and a serious threat to the fruit crop of this section was seen last night as falling temperatures in the face of a stiff north wind bore out the predictions of the weather bureau for freezing or near freezing temperatures.

The dry character of the cold wave increased the vulnerability of the fruit buds and blossoms, it was pointed out, and although the temperature was not expected to fall near the levels it reached in the last wintry spell the extent of damage because of the lack of protecting moisture was feared might be greater.

The cold period was due to be brief with rising temperatures Sunday.

The weather bureau Saturday issued livestock warnings for the north portions of east and west Texas for last night. A hard freeze is forecast for the north part of west Texas.

Lower temperatures already were recorded in the Texas panhandle. Amarillo, which had a minimum of 48 degrees Friday, shivered in 36-degree weather. Lubbock had a minimum reading of 40 degrees. At Big Spring the minimum was 50 and at Wichita Falls 56 degrees.

**SNOW STORM IN COLORADO**

DENVER, March 5 (AP)—Eastern Colorado received today a taste of the cold storm that roared down the western slope of the Rockies, from Montana to New Mexico, and piled snow in the high passes of southwestern Colorado.

**Appeals for Clothes for Needy Children**

An appeal for clothing for children, badly needed by the Cisco Charity and Welfare association, was issued Saturday by the chairman, the Rev. M. H. Applewhite, pastor of the First Presbyterian church.

The appeal was: "The Cisco Charity and Welfare association needs very badly articles of clothing for children. Boys' shoes, trousers, shirts and shoes of any kind.

"Shoes and dresses for girls of all ages, anything you can spare will be of value and service to some one more needy.

"Take time to go through your closets and shelves and whatever you can do without, if it be clothing, children's books, dishes, household linens or any other article bring it to the Welfare office which is open every afternoon from one to five p. m.

"M. H. APPLEWHITE, Chairman, Cisco Charity and Welfare Ass'n."

Mr. and Mrs. Gayle Moore and children of Farmers Branch and H. A. Nix of Carrollton are guests of Mrs. Barton Philpott.

### OPPOSITION TO COTTON QUOTA WORRIES DEP'T

Farmers to Vote Upon Proposal in March 12 Referendum

WASHINGTON, D. C., March 5 (AP)—Reports of mounting opposition in the cotton belt to Sec'y Wallace's proposal to apply marketing quotas to this year's cotton crop aroused concern at the agricultural department today.

The proposal will be submitted to more than 2,000,000 growers in 19 states at a referendum on March 12.

It must be approved by a two-thirds vote to become effective. The department ordered I. W. Duggan, director of the southern division of the AAA, to Texas next week for a series of speeches stressing the advantages the department says the growers would derive from the quota system.

**Scranton Future Farmer Wins Prizes**

Elbert Morton, Scranton Future Farmer, has made a fine record with his club lambs at stock shows this spring. He entered his lamb project in the Eastland County Livestock show at Cisco February 25 and 26 where he took first and second prizes. Prize money totaled \$2.50.

At the West Texas Livestock show at Abilene, March 1, 2 and 3, he was awarded fourth place taking seven dollars prize money on one lamb. He also entered two capons in the Abilene show, taking second place on one with prize money of \$2.50.

His lambs are of the Hampshires breed. Attending the stock show at Abilene with him was R. T. Ezzell, also of Scranton.

**MEETING POSTPONED**

Because officials of the Good-year Tire and Rubber company who plan to attend the zone meeting at St. Louis were flood-bound in California, the meeting scheduled for today was postponed. J. W. McKinney, Cisco Goodyear store manager, who also will attend the meeting, was informed Saturday. The meeting probably will be held within the next week.

R. D. Jones is transacting business in Ireddell this week.

### Through the Editor's Spectacles

By GEORGE

ding in royalties and lease in the area northwest of was spurred Saturday with coming in of the Lone Star company's Thomas well for larger production of unestimated character. Farmers and mines from the area own mines northwest of the mine. The Van Parmer mine opened up a new perspective of possible great have been excited with possibility of setting up rights royalties on their acreage though money to pay out against their land or establish themselves on a comfortable financial foundation.

es of as much as \$10 per acre-quarter royalty in were being demanded by owners live miles or more the location. Whatever is upon as a legitimate price holdings in deals that made, it is certain that the of the territory stand to from the development to degree. During the past or more the income to of our soil from this source has been pinched to a minimum. Combined the poor crop conditions, to degree resulting from the of farm crops encouraged a previous period of boom city, and with the low which agricultural comes brought during and even the depression, this factor lured lease and royalty in has been one of the most conditions affecting local using power.

efore, if there is any expansion development of oil production in this area the resulting to the owners of the soil abouts is going to boost this of purchasing power to a erable degree. ### Can An Airplane Sink a Battleship? Yes, Says Army; No, Replies Navy

By DEVON FRANCIS  
AP Aviation Editor

If an airplane can sink a battleship, defense of America's coastlines would appear to be a simple matter. If it can't, a lot of money is being wasted on that argument.

While the navy's battle-wagons conduct their annual maneuvers in the Pacific, a tide also for stopping an invading fleet in its tracks is being evolved by the Army Air Corps.

Both Make Good Cases

Army bombers, as a new "first line of defense," would wing for to sea to engage the fleet. At best, the invader's warships would be sunk or disabled. At worst, they would be put at a disadvantage.

The Air Corps makes a good case for itself.

But so do champions of the warship, insisting that the navy still is the nation's first line of defense.

Little has been added to available knowledge in the Battleships-Aircraft argument by the Ethiopian, Spanish or Sino-Japanese wars. No modern bombing plane has been tested against a modern warship.

Partisans of the "plane" say Italy won the first war in history without firing a shot — by threatening to sink the British fleet in the Mediterranean if the Suez canal were closed during the Ethiopian excursion. But the facts are not public.

A Deep Secret

Still a deep secret among military men were the results of the "bombing" of the battleship Utah by army planes last year, several hundred miles off San Francisco's Golden Gate. They were impressive. Dropped from an average of 2,000 feet, "water bombs" penetrated the deck and the water near the vessel.

The army argued that the direct hits with real bombs would have sunk or crippled the Utah; that near-misses would have opened her seams.

The answer to the plane's accuracy, was a new, secret, bomb sight.

It is all theory, of course, and the rebuttal of the navy adds up to an equally logical conclusion that for offense, the airplane is as effective as a gnat on an elephant's hide.

Battleship Protection

Modern battleships, they point out, are armor-plated above the water line and that bulges or "blisters" below it absorb the shock of explosions.

Even the value of torpedoes against modern men-of-war is questioned. At Jutland the warship Marlborough was torpedoed, but not disabled.

The Spanish insurgent battle-

### Hitler's Friend Replaces Eder

A personal friend of Adolf Hitler and advocate of an immediate British understanding with Germany and Italy, Viscount Halifax, above, was believed certain to succeed Anthony Eden as Great Britain's foreign secretary. Observers predicted that Halifax would pursue the British diplomatic policy which prevailed before the World War — to make friends with the strongest nations first.

ship Espana was sunk by a chance hit down a funnel. The gunboat Panay, sunk in China, was meagerly equipped for combat.

Alone among high navy officials, Admiral William D. Leahy, chief of naval operations, has conceded publicly that an airplane might be able to sink a battleship.

Let's enter a hypothetical war. An enemy is approaching our shores. A warning has been sounded.

The Carrier's Brood

Asbore the Air Corp's heavy bombing planes, the largest capable of flying 1,500 miles, unloading several thousand pounds of "eggs" and returning without refueling.

Co-operating with the defense fleet are the navy's slower, heavily armed patrol bombers. On cruisers and battleships of each fleet are nests of scouting and observation planes, and on aircraft carriers are several hundred combat observation, and light bombing machines.

The usefulness of the carrier's broods can be discounted beyond 300 miles from their base. Exceptionally vulnerable to attack, the carriers will remain far behind the zone of battle.

With the enemy still a thousand miles out, a dozen Air Corps bombers take off to meet him.

But, the navy interposes, how

is the army going to find him? Well, runs the answer, the Utah was found in a search of 90,000 square miles of ocean; to find a whole fleet would be easy.

All right, says the navy. The enemy has been spotted. Let the enemy also have spotted the army, and a swarm of fighting planes is rising from every ship.

A "curtain" of anti-aircraft shells is being thrown athwart the bombers' line of flight.

A New Idea

Not so fast, says the army: (1) Enemy observation units are off on missions and the surprise is complete; (2) Only a few enemy combat planes are in the air, and the rest are being launched too slowly to worry about; (3) The carriers, looming like the broadside of a barn, can be dispatched quickly; (4) Anti-aircraft fire is innocuous at 10,000 to 12,000 feet.

Very well, retorts the navy with deadly finality, but the airplanes can't sink the battleships; and as for "barrasing" the enemy, submarines and torpedo boats can do a better job.

The Air Corps recently pulled a new idea out of its sleeve. How about laying down a blanket of deadly gas, it asks, and let the elaborate ventilating systems of enemy ships suck in the fumes?

The navy, which can give as

well as take, will have an answer to that one soon.

The deity Brahma is represented in Hindu art as four-headed and four-armed, and riding a swan of peacock.

**OVEN WATCHING IS OUT**

*And so is Mother*

**When MAGIC CHEF GAS RANGE Cooks The Dinner**

There's no need to watch baking when Magic Chef cooks the meals. The famous Red Wheel Oven Regulator does that. So efficient is this oven-watcher, the woman with a Magic Chef can place a whole meal in the oven, spend the entire afternoon away from home, and find dinner cooked and ready to serve when she returns. Other Magic Chef advantages are the High-Speed Oven that bakes biscuits in 12 minutes from a cold start; the comfortably-high, smokeless Swing-Out Broiler; automatic, non-clog top burners. See these and many other Magic Chef features at our store today. Your choice of style, size and price.

## Will Be Married Here Sunday

Miss Christine Westfall, daughter of Mr. and Mrs. A. R. Westfall, whose marriage to Mr. L. A. Cockroft, of Ft. Worth, will take place at home of the parents here, 1500 L

## Westfall-Cockroft Nuptials Today

The marriage of Miss Christine Westfall and Mr. L. A. Cockroft will take place Sunday afternoon at 4 o'clock at the home of the bride-elect's parents, Mr. and Mrs. A. R. Westfall, 1500 L avenue. The Rev. Joe I. Patterson, pastor of the First Methodist church will read the ceremony before an improvised altar of palms flanked with tall baskets of pink snapdragons and schizanthus, emphasizing the chosen theme of pink and blue. The attendants will be Miss Eda Mooney and Mr. Jerry Volpert of Fort Worth. The bride will wear a bolero suit of navy blue with blue accessories. Immediately following the ceremony a reception will be held and Mrs. Ed Huestis will assist Mrs. Westfall in serving the guests. Other guests who will attend are Mr. and Mrs. C. R. Wehrea, Mrs. Ida Wehrea and Mrs. H. B. Snedeker of Fort Worth, Mr. and Mrs. C. C. Westfall and W. J. Westfall of Stamford. The couple will live in Fort Worth where Mr. Cockroft is associated with the Renfro Drug Stores.

**Thursday**  
The Thursday Forty-two club will meet with Mrs. L. A. White, 511 W. 8th at 3.

**Friday**  
The Entre Nous club will meet with Mrs. W. J. Armstrong, 1308 ave. M, at 3.  
Friendly Twelve Forty-two club will meet with Mr. and Mrs. Joe Clements at 8 p. m.

FRANK MORRIS

### Candidate Favors Allowable Based on Well Expense

Frank Morris, who two years ago was runner-up to Col. Ernest O. Thompson, Saturday, announced his candidacy for the place on the railroad commission, now held by C. V. Terrell. In making his announcement Mr. Morris advanced certain ideas concerning the control of Texas' oil fields which are new to state politics.

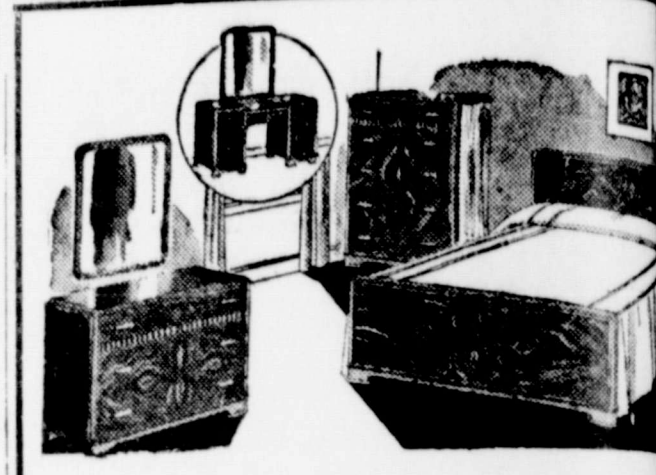

He said he favored reasonable regulation of the flow of this natural resource so that the best interest of the operator, land owner, royalty holder, school children and the public in general would have adequate production. The whole purpose of proration is to prevent "physical waste" and to conserve our natural resources, all of which he pledges his support in order not to bring about an injus-

After conservation has been cared for.

On the question of proration he purposes to regulate them after conservation has been cared for, as follows, permitting the allowable from wells to be regulated by the expense incurred in developing them until such time as their costs had been returned.

For an example, he will favor, as railroad commissioner, an allowable based upon the cost of drilling a well, together with the cost of producing the oil after the well has been drilled. If, in a given field, a well which cost \$15,000.00 will pay for its cost in 18 months, under his proposal the allowable for a well which cost \$30,000.00 should be increased in an amount sufficient for its production after conservation has been cared for.

Mr. Morris is a native born at Pittsburg and Winsboro. He is a banker, who made a race for governor one year ago. Furthermore, nephew of Lon Morris, who endowed the Lon Morris leg at Jacksonville, Texas, lived in Dallas and practiced in that city for several years.

### WHO IS RIGHT?

The fellow who is willing to leave his products with you on trial to prove they will do everything he claims or the fellow who must have his money in his hat before he leaves anything with you? I am so sure that Watkins' Milkmaid Brand will make money for you that I'll leave it with you on trial. If you are not satisfied with the results, you do not need to pay me a cent. That's fair enough, isn't it?

Watkins' Tonic speeds up growing time, make healthier animals and poultry and will save you money. They pay for themselves many times over. I carry a complete line of the famous Watkins' products and have some real bargains to offer you when I call. "Save your order for me and I'll save money for you."

Road Service from 6 a. m. to 12 p. m.

A motor car is a total instrument of transportation. How well it performs depends upon a number of things—pure oil and gas, properly inflated tires, safe brakes, clean windshields, proper lubrication; all minor items but in the aggregate important. The most convenient place to get them is the filling station. The more rounded that service, the more it will attract the motorist. The station which can relieve him of car worries.

**TEXAS THEATRE**  
Tuesday-Wednesday  
**"A Moral Lesson With a Punch"**

It's an exposé of the most distasteful traffic in human blood and agony that ever came to the screen! It's a moral lesson to all beholders, but you'll never forget "RACE SUICIDE," which comes on Tuesday to the TEXAS Theatre, in ONE film that you can't afford to miss. Nothing like it has ever before flashed upon the screen. Until you have allowed the exciting events of this story from real life, you could never have believed that criminals dealing in illegal operations prosper to such an extent in the big cities of the United States. But besides hammering home a much needed lesson, RACE SUICIDE gives you entertainment of a type that's a medley of vivid thrills from start to finish.

We Are Co-Operating with Better

### Accordianist

Although only nine-year-old and having studied the instrument but a few months, Yancey McCreary, Jr., son of Mr. and Mrs. Yancey McCreary has developed such proficiency with the piano-accordion that he already has appeared on several public programs.

### Miss Moriarty to Become Bride of Howell Greer Foy

Miss Pauline Moriarty, daughter of Mr. and Mrs. J. E. Moriarty, will become the bride of Mr. Howell Greer Foy Sunday at noon in the pastor's study at the First Presbyterian church with the Rev. M. H. Applewhite reading the ceremony. The bride's only sister, Mrs. J. B. Henderson and Mr. Henderson will be the attendants. Miss Moriarty is a graduate of Wichita Falls high school, has attended Randolph college and Draughon's business college in Abilene. Mr. Foy is the son of Mrs. Hattie Foy of Dallas and is a graduate of Rice university. The bride will wear a blue suit with blouse of pink and dark blue accessories. They will make their home here where Mr. Foy is employed by Lone Star Gas company.

### Psychologist Says Late Sleep If Able

CHICAGO, March 3 (AP)—That adage about the benefits of turning in early and rising early is better rhyme than reason, says Dr. Joseph Jastrow, psychologist. "There is absolutely no virtue in early rising," Dr. Jastrow writes in "Hygeia," published by the American Medical association. "What you need and crave is enough sleep to start the day right. If you don't get refreshing sleep—which millions do not—no night is long enough for recovery. "The best you can do is to get all the sleep you can in the morning, for you are then in the most relaxed condition for sleeping—and to make it up during the day by as many naps as you can."

Before London's Victoria embankment was erected, the Thames river flowed over ground where scores of buildings now stand.

St. Helena, the island where Napoleon spent his last days, is 1,200 miles off the west coast of Africa.

The steepest railway in the world is in the canton Ticino of Switzerland.

### Personals
