REVENUE LOSS, HIGHER COSTS

Reduction in All Classes Would Take Effect July 1

CHICAGO, April 29 (AP) . The association of American railroads adopted today a resolution under the railway labor act to serve notice of a 15 per cent reduction which will become effective July 1 for all classes of labor.

The cut would represent savings of \$250,000,000 annually to member roads, the association said.

The association stated that the cut was necessary because of the loss of revenue and the increases in operating costs.

Formation of New Party Anounced By LaFollette

Governor Philip LaFollette's lieu tenants disclosed today that Iow and California were his immediate objectives in the organization of the new progressive party outside of Wisconsin. At Washington, the party was seen as a threatening schism to the political forces that helped to elect Roosevelt.

LaFollette of Wisconsin announced to the nation last night formation of a new political party—the National Progressives of America-dedicated to philosophy of preserving the "right of a free people to work, and by their work add to the wealth of the country.'
