FT. WORTH DUE To Symbolize Hitler's Latest Triumph

While the rest of the world breathes easier with threat of general European war at least temporarily averted, little Czechoslovakia watches Adolf Hitler's legions march into four areas that go to Germany automatically under the fourpower agreement reached at Munich between Hitler, Britain's Chemberlain, Italy's Mussolini and France's Daladier. First to be occupied was a southern area along the Bavarian frontier. Germany sliced off a curve of Czech territory bulging into Bavaria and Austria. Next, German troops moved into a region in the north bordering on Saxony. cutting off two knobs of Czechoslovakia that formerly jutted into Germany. Taken over next was the hotbed of Konrad Henlein's nazi activities, the area around Eger and Asch in the extreme western end of the country. And final-

to the section along the north ern border of the Czech state near Poland. The map above shows where and when the occupation is being made. Shown also are the areas in which an international commission will probably supervise plebiscites to see whether the territory will remain part of Czechoslovakia or go to

Barriers Between States: Barriers to Prosperity

Campaigners In

Hilbilly Music

Hawaii Helped By

mericans regard the politician

Americans in the Hawaiian Is

warned the recent national conference of American prosperity a blow from which it state governors that various state taxes are can hardly recover. creating serious interstate trade barriers.

The states, remarked Governor Allred, are forbidden to erect tariff walls. Yet in today is like a cubist painting. Why of many cases they are doing what amounts to course: something made up entirely of conthe same thing by use of tax laws.

Some states levy sales taxes on materials manufactured in other states. Ports of The Russians are training children to bail entry at state boundaries have made their out of planes now. Teaching the young idea appearance. And these things, said the gov- how to 'chute

ernor, "are liable to promote economic provincialism if they increase at their present

THE development of these destructive laws is easy to understand.

One state wants to develop its home industries. The products of a neighbor-state neighbor enjoys certain economic advantages which enable it to produce these things more cheaply. So the first state levies a tax on goods from its neighbor. It sets up highway patrols to check on goods which are trucked Editor and Publisher in. In every way possible, it tries to preserve its home market for its own producers.

All natural enough, certainly-and logical enough, too, up to a certain point.

Yet this trend will inevitably lead to ecoomic disaster if it is not soon checked.

We have been proud of the lofty "Amer-National advertising representatives, Texas ican standard of living" for many years. We have compared our lot with that of Europe Any erroneous statement reflecting upon the and have preened ourselves on the better pocharacter or reputation of any person will be gladly sition which we enjoy. TRIPPERS FROM How German Troops Move Into Sudetenland FT. WORTH DUE To Symbolize Hitler's Latest Triumph

While the rest of the world breathes easier with threat of general European war at least temporarily averted, little Czechoslovakia watches Adolf Hitler's legions march into four areas that go to Germany automatically under the fourpower agreement reached at Munich between Hitler, Britain's Chemberlain, Italy's Mussolini and France's Daladier. First to be occupied was a southern area along the Bayarian frontier. Germany sliced off a curve of Czech territory bulging into Bavaria and Austria. Next, German troops moved into a region in the north bordering on Saxony, cutting off two knobs of Czechoslovakia that formerly jutted into Germany. Taken over next was the hotbed of Konrad Henlein's nazi activities, the area around Eger and Asch in the extreme western end of the country. And final

Compromise of \$17,000,000

to the section along the north. ern border of the Czech state near Poland. The map above shows where and when the occupation is being made. Shown also are the areas in which an international commission will probably supervise plebiscites to see whether the territory will remain part of Czechoslovakia or go to

A Three Days' Cough Is Your Danger Signal

Just a common cough, a chest cold, or a bronchial irritation of to-day may lead to serious trouble to-morrow. They may be relieved now with Creomulsion, an emulsified Creosete that is pleasant to take.

Croomulsion is a medicinal creomulsion is one preparation

generations recognized the benefi-cial effect of Beechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chem-ist, for blending Creosote with other

Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing infected mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling germ-laden phlegm.

The Medical Profession has for generations recognized the benefit designed by both adults and children.

Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel germ-laden phlegm. When coughs, chest colds and bronchial troubles—due to common colds—hang on, get a bottle of Creomulsion from your druggist, use it as directed and if you are not satisfied with the relief obtained.

Scarlet Fever Is Preventable Says Health Officer

state health officer, in discussing diseases common to children. 'Many cases are slight, but they may infect others who may become seriously ill. It is treachergood thing about it is that if one here an avoid it until grown, the nances of never getting it are ex-

"Scarlet fever is spread by the lene Saturday. transfer of the infection in the discharges of nose and throat, ears, or abscesses of persons ill with dale of Stephenville visited their the disease and those who are car- parents the past few days. riers of the infection. The handling of articles soiled by the patent may cause the disease. "Children under ten years of

age are usually susceptible to scarlet fever. Children becoming suddenly ill with fever, sore throat, vomiting and showing a fine red rash, should have medical attention and be immediately quarantined to prevent the spread of this disease. The appearance of scarlet fever in the home should be immediately followed by a rigid quarantine for at least three weeks. The public should be warned against exposing young chil-

tarrhal symptoms of any kind. Take no chances-be on the safe

"The use of potent scarlet fever antitoxin is of value in shortening the course of the disease. The antitoxin should be administered within three days of the onset Scarlet fever antitoxin lessens the complications, such as heart and till continues to be a menace to kidney diseases, discharging ears hildren," said Dr. Geo. W. Cox, and infected sinuses that often occur after scarlet fever.
