Through the Editor's Spectacles

By GEORGE

The infant 1939 arrived with a very beautiful smile. There is about the coming of a new year something inspirational and full of hope, if it really does mean a new chance, a new start, a new beginning for a weary, weary world. As a matter of fact one can start another year at any time. January 1 is merely a peg put down to stob Old Man Time to a human invention so that his footsteps may be measured. It is like the beginning of a surveyor's chain. It has no effect upon the thing that is measured.

But New Year's has a happy significance. It is entirely psychological but psychology plays a tremendous part in our lives. Some people find it really does them good to go to a fortune teller, not because they get any actual glimpse of the future—the Almighty wisely denied any human creature that terrible privilege—but because they are inspired. They gain faith.

The Good Book speaks constantly of faith. It says that people with faith can move mountains. Some take the assurance too literally and thus fail to appreciate the true and deeper significance of that statement. Skeptics, taking the literalists literally, scoff at the thought. They assert that only human endeavor counts on the earth. And strangely enough, both are right and both are wrong. For man with faith has moved mountains. No one has ever been able to do so much as lift a toothpick without faith. The Panama canal is an example of what faith can do. Faith calls forth the best that is in man and to the extent that faith is sincere and great to that extent are man's powers magnified. That is what is meant by faith.

Thus New Year's, because our finite minds cannot grasp the real god content of ourselves, brings to man renewed faith. A real understanding of ourselves and our capacities would make such superstitions unnecessary. We should have a sufficient confidence in ourselves to do that we wish to do. But because the institution has long suggested a new beginning, we can now make use of its stimulating suggestion and realize a new and powerful energy in promoting that which makes for our prosperity.

The biggest single problem before Cisco as the new year opens is the extension of its trade influence to its rightful boundaries. The territory is there and the purchasing power is there. We don't see it, perhaps, because we haven't tried to see it. Let's make 1937 a time of real aggressive action to sell Cisco to its own people and to its trade territory.

Cisco Baptists to Moran Conference

Story of Gustav Foelich, Whose Friends Beat Goebbels

By NEA Service
Gustav Foelich, the German movie star whose pals lashed Propaganda Minister Goebbels within an inch of his life as he left the apartment of Foelich's wife, the lovely Lida Baarova, has lived as exciting a life off the screen as on.

Today he lives in the fifth of a concentration camp. Six years ago he was Germany's greatest film actor, happily and newly married to Gitta Alpar, a Jewish of Budapest. Goebbels ordered Foelich to divorce Gitta. Foelich refused. Then Gitta went to Budapest. Gustav followed and for a time was in exile.

In 1935 another woman did what Goebbels failed to do—she separated the couple. Gustav returned to Germany and the screen with a new love, Brigitte Helm, and from Vienna Gitta announced she would divorce Gustav rather than stand in the way of his career. The blond Nordic favorite seemed to be coming back in favor. His triumph was short. Goebbels sought revenge and Gustav's pleasant days were over. Shortly after he married Lida Baarova, the Czech actress, he was jailed. Gustav's friend, who laid the whip on the minister who was spreading a little propaganda of his own, put Goebbels in the hospital swathed in bandages and minus one of his prominent teeth. His wife, Magda, is reported in Denmark seeking a divorce. Hitler is sore.

Mexican Indicted in Kennedy Murders

SAN ANGELO, Jan. 3 (P)—Frank Salazar, Miles Mexican, Monday was indicted by a Tom Green county grand jury for the murders of Mr. and Mrs. Paul Kennedy, Miles farm couple, at their home last December 15. The indictments named Salazar as the killer of Kennedy in three counts and in one count in Mrs. Kennedy's death. John E. Sutton, 51st district judge, said he would likely set the date for Salazar's trial and appoint defense counsel when court resumes work today. Order for a special venire will also be issued. The grand jury worked on this case four hours Monday and then recessed to continue investigations on 20 other cases Tuesday morning. District Attorney O. C. Fisher reiterated he would ask the death penalty for Salazar. Officers here have not indicated when they would return the Mexican to San Angelo but six rangers of Company C, headed by Capt. R. C. Hawkins, are here and will remain until after Salazar's trial.

SOAP GUN WAS 'WEAPON' USED IN JAIL BREAK

Patterson, Taken at Hamlin, Still Had Fake Pistol

ANSON, Jan. 3.—It was a soap gun with which two prisoners escaped December 29 from the Palo Pinto county jail. Sheriff Bill Dunwoody verified that fact late Monday when Gray Patterson, one of the fugitives, surrendered at Hamlin. He was taken into custody by Dunwoody and Jack Miles, Hamlin's chief of police. Patterson, 27, still carried the "weapon" when he gave up. The fugitive was accompanied by his stepfather, a reputable farmer of the Hamlin community eight miles west of Hamlin. His mother's critical illness was credited with prompting Patterson's surrender. He had been held at Palo Pinto to await grand jury action on a forgery charge. Palo Pinto officers returned him there today. Sheriff Dunwoody described the soap gun as "a pretty good imitation." He said it appeared to have been blacked with shoe polish and resembled a .22 automatic pistol. Earlier, Sheriff John Bond of Palo Pinto had discounted the theory his prisoners had used an imitation gun. More Wanted Patterson escaped with W. T. Haley, also 27, who is under sentences totaling 14 years for thefts and burglaries in seven counties. Haley was considered by Dunwoody as the more wanted member of the duo. The two locked Jailer Ott Howard of Palo Pinto in a cell with six other persons, then fled in Howard's automobile. Dunwoody quoted Patterson as tracing the fugitives' movements only vaguely. The prisoner disclosed, however, that he and Haley had spent some time in the vicinity of Coleman. Patterson and Haley separated about 5 o'clock Monday morning. Dunwoody said he was told, and Patterson walked to his mother's home. The Jones county sheriff said his prisoner was badly worn by four days of flight. Sheriff Dunwoody said Patterson's fear of his companion also was a factor in the jail breaker's surrender. Patterson refused to say who carved his soap gun, but the fact he still carried it gave him the artist's credit. His fear of Haley also was apparent in Patterson's refusal to tell the second fugitive's destination. Unshaven and Haggard Patterson was unshaven and haggard, apparently had not changed clothing since his escape and appeared almost famished. He met Miles and Dunwoody about 6:30 o'clock this evening in Hamlin and was brought here shortly afterward. Sheriff Dunwoody said Patterson ate with relish a T-bone steak and a few minutes later he was sound asleep in Jones county jail. "I didn't even handcuff him," Dunwoody said of his drive here from Hamlin.

BIBLE THOUGHT FOR TODAY

The kingdom of God is not meat and drink, but righteousness and peace and joy.—Rom. xiv. 17

Gather the sunlight
Aglow on thy way;
Gather the moonbeams,
Each soft silver ray.

Bury thy sorrow,
Let others be blest;
Give them the sunshine,
Tell—Jesus the rest.

It is not making others happy the best happiness. There is a sort of religious joy in helping to renew the strength and courage of noble minds.—Amiel's Journal.

Good Intentions No Excuse for Driver Carelessness

It is a long time since anyone has accepted "I didn't know it was loaded" as a satisfactory excuse for a shooting. And it may be that one reason why our automobile traffic death toll is at last going down is the fact that a similar healthy skepticism is being developed toward the excuses offered by motorists.

A case in point occurred the other day in Fresno, Calif., where a young man was sent to jail for 30 days because he fell asleep while driving his car.

The man's family was moving, and he was transporting household goods back and forth. It got to be late at night, and he was—naturally enough—very tired and drowsy. He dozed off while driving along the road.

His car swerved and hit a truck. His niece, riding in the car with him, was killed, and the young man was held on a charge of manslaughter.

Now the point is that this driver, in a sense, was as blameless as a man could be. He hadn't been intoxicated, nor had he been speeding or breaking any traffic laws. He was a good lad, and the district attorney asked that leniency be shown. But the judge remarked:

"The fact remains that he was negligent in driving while sleepy. It is the duty of drivers to stop their automobiles before they go to sleep. A sleepy or a drowsy driver is a menace to the public."

So the young man has to spend a month in jail, where he can meditate on the need for eternal vigilance at the steering wheel. Simple enough, all of this—and hardly worth comment, except that it does highlight a little truth that we can too easily overlook.

THE man who is driving an automobile has a ton and a half of steel rolling along the highway. He may have the best intentions in the world, but if for any reason at all it gets out of his control, somebody is going to get hurt. He may be guilty of nothing more heinous than dozing for five seconds—but the effect can be as bad as if he were a homicidal maniac possessed of a meat-ax. And the only possible rule that can be laid down is that he has no business getting behind the wheel if anything is going to interfere with his ability to drive his car safely.

It has taken us a long time to learn this lesson, but it is soaking in slowly. And when we get it digested, we may be able to go on from there and realize that the same sort of truth applies to all of our activities in the modern world.

For this whole 'age of machinery, with its mass production lines, its speedy communications, its intricate web of financial and political relationships, is careening along the highway of history like a speeding automobile. It requires our constant attention and our best skill. We may have the best intentions in the world, but if we let the thing get out of control the results will be disastrous.

The world is moving at automobile speed, not at a horse-and-buggy pace. If we fail to take charge of it, it will take charge of us. Like that man in the auto, we can't afford to doze even for a moment.

RAIDERS BOW TO GAELS' POWER

DALLAS, Jan. 3 (AP)—Power burst razzle-dazzle out in the sun drenched Cotton Bowl Monday, St. Mary's galloping Gaels interlocking Texas Tech, 20-13.

The rites were interrupted in the final 11 minutes, however, by an incredible Tech aerial show that sent 40,000 partisan Texans into a high fever.

Outclassed and smothering under a 26-0 deficit, the Texans bounced back with a shower of long shots, screen and lateral passes that netted two touchdowns and came uncomfortably close to the one needed. One of their many aerials boomeranged, however, and that was St. Mary's victory margin—a 23-yard touchdown sprint with an intercepted pass.

VOLS KEEP RECORD FLAWLESS

MIAMI, Fla., Jan. 3 (AP)—Tennessee's Volunteers crowned their flawless 1938 record with a bruising 17-0 victory over Oklahoma Monday before an overflow Orange Bowl crowd of 32,191 persons.

Led by a whirling dervish named George Cafego and a jack-rabbit runner dubbed Babe Wood, Tennessee ripped through Oklahoma's vaunted defense for two touchdowns and Capt. Bowden Wyatt kicked a field goal as the Sooners failed in the last minute to complete their only serious scoring threat.

West Texas Oil Deal Involves Two Million

PECOS, Jan. 3—One of the largest sales of West Texas Permian basin and west central Texas oil producing properties was disclosed Monday.

It was the deal closed December 31 by A. R. Eppenauer, of Jeff Davis county, who sold to Interstate Petroleum corporation of New York and Los Angeles a sizeable block of oil and gas properties in those areas.

Eppenauer reportedly received \$1,900,000 in exchange for 64 producing wells on 31 separate leases, a portion of the payment in the form of a one-fourth mineral reservation to the oil in place.

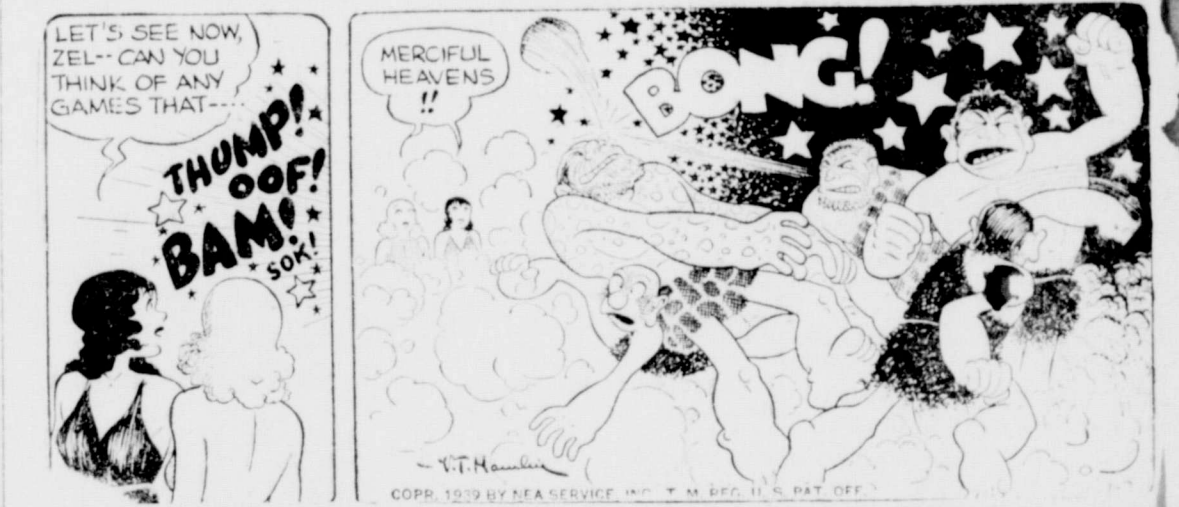

The leases, totaling 2,915 acres, lie in Loving, Wadsw. Ector, Upton, Crockett, Coleman and Shackelford counties. Total potential of the wells involved aggregated 18,732 barrels as of December 1, 1938. Total daily allowable was 1,355 barrels.

Eppenauer retained and will continue to operate his producing properties in New Mexico, in the Yates pool of Pecos county and in Young county, Texas. A considerable acreage of undeveloped properties, principally in West Texas, also was reserved.

Management of the properties purchased by Interstate will be assumed by J. A. MacDermott, vice president, formerly in the com-

NEW ORLEANS, Jan. 3 (AP)—The International Star Class Yacht Racing association always has held its spring championship series at Hamilton, Bermuda, or Nassau, Bahama. Frogs Pass to Brilliant Win in Sugar Bowl

NEW ORLEANS, La., Jan. 3 (AP)—That little giant of the gridiron, David O'Brien, of All-American fame, uncorked a famous right arm Monday to pass the Blessed Frogs of Texas Christian into a 15 to 7 triumph over Carnegie Tech's Tartans in the annual Sugar Bowl classic.

With the exception of one brief spell in the wildest football game of the Sugar Bowl history, the Southwest conference champions from Fort Worth monopolized the struggle as O'Brien, a 155-pound quarterbacking dynamo, directed the nation's No. 1 gridiron machine to a well-earned victory.

Ablly supporting the devastating aerial attack that saw the air filled with 28 flings from the big-handed little marksman was a powerful display of ball carrying by Fullback Connie Sparks and Halfback Johnny Hall behind what was probably the biggest and best line the Southwest had produced.

While O'Brien was uncanny in firing the pagskin right into the arms of his receivers, his support on the catching end by such luminaries as Don Looney, Earl Clark and Dursward Horner stood out in the attack that saw the Frogs, trailing at the half 6-7 and on the short end of a score for the first time in 11 consecutive games, come from back to win handily. Leo R. (Dutch) Meyer, the Frog coach, was extremely happy and lost no time in praising the Carnegie Tech team, eastern champion who stopped the long string of victories by Pittsburgh last fall. "It was a son-of-a-gun," said Meyer. "They've got a great ball team and we're happy to have won."

Trojans Win with Storybook Touchdown

PASADENA, Calif. (Jan. 3 (AP)—Southern California's mighty Trojans, riding to the peak of the comeback trail with a 61-yard touchdown drive in the last min-

ute of play, defeated Duke university's big Blue eleven, 7 to 3, before 91,000 spectators Monday. Wrecking Duke's proud boast of never a loss, never a tie and never a point surrendered in nine games of the 1938 schedule, the warriors of Troy, celebrating their return to the Rose Bowl after an absence of six years, traveled through the air to victory about 45 second before the final gun.

The substitute story book back was Doyle Nave, and the sophomore end was "Antelope Al" Krueger, the lad from Antelope valley. Krueger took Nave's last long pass, good for 18 yards, as he

How to Ease CHEST COLD MISERY

FIRST—massage throat, chest, and back with Vicks VapoRub at bedtime. This relieves the distress.

THEN—to make its long-continued action last even longer, spread a thick layer of VapoRub on the chest and cover with a warm cloth.

LONG AFTER sleep comes, VapoRub keeps working—loosens phlegm—eases muscular soreness or tightness—clears air-passages—eases coughing—relieves local congestion.

Often, by morning the worst of the cold is over.
