NAZIS PREPARE TO MURDER MORE HOSTAGES

MRS. PRICKETT DIED FRIDAY IN HOUSTON

Mrs. Annie Baker Prickett, 71, wife of John Q. Prickett, 1500 East 11th street, Ft. Worth, died Friday in Houston at the home of her son, Baker Prickett, who has been ill for several months and whom she was visiting.

The body will be returned to Ft. Worth for burial, which will take place from Guardian Funeral home at 10 o'clock Monday morning, with interment in Greenwood cemetery. The Polytechnic chapter of the Ft. Worth Eastern Star will have charge of the burial.

The Pricketts lived at 709 A Avenue, Cisco, for many years, until their removal to Ft. Worth several years ago. Mr. Prickett was an engineer with the C. and G. E. railroad at one time, but is now retired. Mrs. Prickett was an active member of the Cisco Eastern Star during her residence here. Her son, Baker Prickett, has been with a Houston oil company since he left Cisco.

Other survivors are four sisters, Mrs. Joe Martin, Shawnee, Okla.; Mrs. Augusta Richardson, Santa Anna, Tex.; Mrs. S. E. Murphy, El Paso; Mrs. G. H. Richardson, Santa Anna; and three brothers, James Marion Baker, Dodge City, Kan.; Ernest Baker, Shawnee, and George Baker, Albuquerque, N. M.

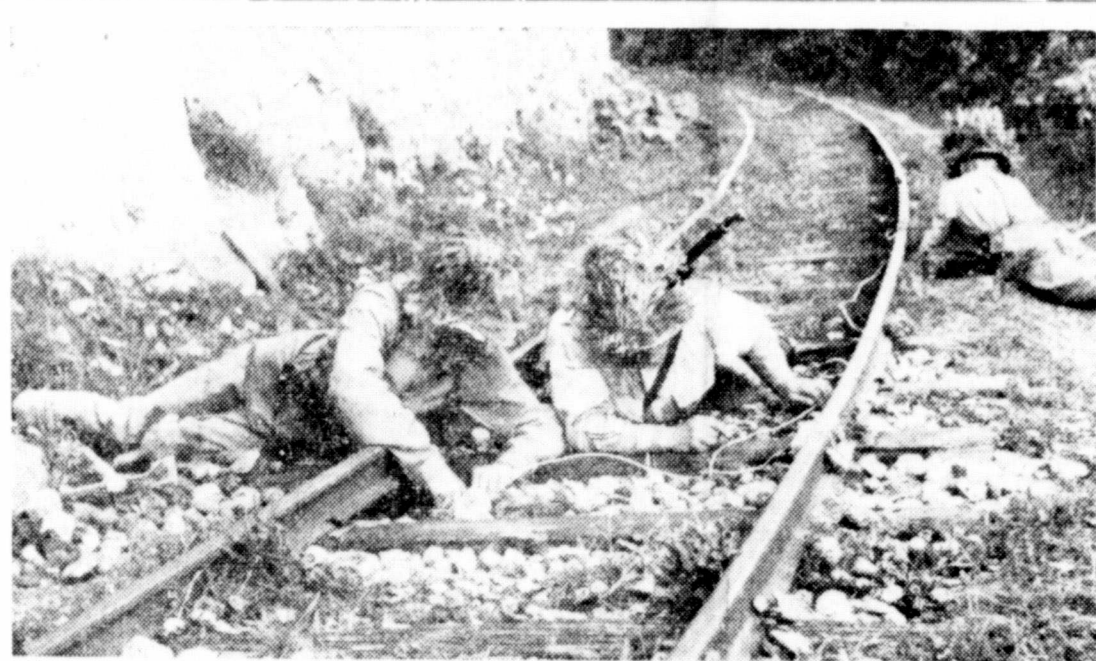

CISCO JUNIOR COLLEGE TO GIVE TESTS

Cisco Junior college has been authorized to give qualifying tests for applicants for the new navy college training program which will be conducted throughout the country on Friday, April 2. It is known as the V-12 program. For convenience, these examinations will be conducted at Cisco high school building, beginning at 9 a. m.

Applicants who qualify through the test will report at their own expense to district offices of naval officers procurement, where they will undergo a physical examination and an interview to determine potential officer-like qualities. Special committees consisting of a representative civilian, an educator and a naval officer will make the final selection of students for the navy college training program.

From those who take the test the navy will eventually select students for the training program. Those accepted will take their college training while on active duty in uniform, receiving pay and under general military discipline. Upon completion of their college training they will receive further training leading to commissions. Fifty per cent of those selected will start their college work in July and the remainder in November.

Taking this test places the candidate under no obligation, President R. N. Cluck said.

JUST IN CASE—Although Switzerland is neutral nation, she isn't letting her army lose its efficiency. These three soldiers, wearing camouflaged headgear, are at practice, preparing fuse to blow up railroad track, at unnamed location.

FATHERS FACE DRAFT CALL DURING 1943

WASHINGTON, March 20.—Every able-bodied father from 18 to 37 (inclusive) faces a draft call this year, unless deferred as an essential worker.

You can write that down as definite and make your plans accordingly. It doesn't matter how much legislation congress passes postponing induction of fathers, because—

Unless the size of the armed forces is reduced by law—and it won't be—there's no other place to get the men.

ALSACE AND LORRAINE SECTORS WILL LOSE 10 FRENCHMEN FOR EACH GERMAN KILLED, IS CLAIM

LONDON, March 20.—The Nazis have announced that they would shoot 10 hostages for every German soldier killed in the French provinces of Alsace and Lorraine, where sabotage and acts of violence against occupation forces were in the rise.

DOBBINS - WILLIAMS WEDDING HERE SATURDAY

Miss Dorothy Mae Dobbins of Cisco and Staff Sgt. Claud G. Williams of Eastland were united in marriage Saturday afternoon by Rev. Russell Dennis, pastor of the East Cisco Baptist church, at his home. The simple ring ceremony was used.

The bride is the daughter of Mr. and Mrs. I. J. Dobbins of Cisco and is a graduate of Cisco high school, class of 1942. She was dressed in navy blue with white accessories. Sergeant Williams is the son of Mr. and Mrs. J. F. Williams of Eastland. He is a graduate of Eastland high school and now stationed at San Marcos.

Those present for the wedding were Mr. and Mrs. I. J. Dobbins, parents of Mrs. Williams, and Billie and Louise Dobbins, her brother and sister; Mr. and Mrs. J. F. Williams and Miss Allene Williams of Eastland, parents and sister of the groom; Mrs. C. W. Pettit, Eastland, his aunt. Following the wedding, the young couple departed for San Marcos, their new home.

Swiss reports said a military court in Strasbourg had sentenced 13 Alsations to death and 14 to prison for maintaining "United Nations connections" and plotting to overthrow the New Order.

A Strasbourg newspaper reaching Berne, Switzerland, said all the plotters had German names.

Radio Dakar broadcast a report that the Germans had mobilized 45,000 Frenchmen from Alsace and Lorraine and scattered them through several German regiments on the Russian front. Other Alsations were said to have been forced into war industries in the Ruhr.

Radio Morocco, reporting from Berne, said the patriots entrenched in the Savoy Alps still have not acceded to Vichy's demand that they lay down their arms. A great many youths, according to Morocco radio, have been arrested while attempting to join the patriots.

German authorities have executed 300 strikers and ordered the deportation of the entire population of the city of Radom, in central Poland, the Polish government here revealed today.

The Polish statement said all except essential workers of the 75,000 Radom inhabitants were being deported. German settlers will replace them.

Polish resistance, particularly in the factory areas, was said to be increasing, with the Germans using starvation to force production. Workers who "go slow" or disobey lose the rations of their whole family.

DISPOSSESSED BY NAZIS—Hitler's overlords in Norway continue to requisition large numbers of homes for civilian and military use. Here are tenants of a modern apartment house in Oslo moving, after they'd been given hardly a moment's notice.

SALES TOTALED \$6,500 AT FRIDAY'S AUCTION

Sales reached \$6,500 at the Cisco Livestock Exchange auction Friday afternoon at their barns on Lake Cisco road north of town, with cattle and hogs bringing top prices in most cases. Steer calves brought \$15 per cwt. and hogs sold for \$14.40 per cwt., the latter representing within 35 cents of the Ft. Worth market.

One lot of 15 heifers sold for \$1,217, an average of \$82.50. The young bull sold for \$165.

BOYS OF 17 AND MEN 38 TO 50 NEEDED

Seventeen-year-old youths and men between the ages of 38 and 50 may now volunteer for enlistment in the regular army and naval reserves.

Since, as yet, the opening of navy quotas to this group is on a temporary basis, Abilene recruiters urge that these men contact them immediately for more details.

Especially needed in the 38 to 50 age group are men with construction experience to enlist with petty officer ratings in the navy construction regiments.

Training in the navy's 50 technical trades is open to all 17-year-olds with all eligible to qualify for courses in the navy trade schools throughout the nation, the Abilene recruiters point out.

A navy recruiter will be in Cisco postoffice at 10:30 a. m. Wednesday to provide more details and accept applications.

BUSTERS—Hard-hitting M-10 tank destroyers roll out of Detroit plant of Ford Motor Co. They're said to be faster and with more power than medium tanks. Allies have reported from North Africa that they're good stuff. Note difference between them and M-4's at right of picture.

PTA FUN PROGRAM PLEASSED LARGE CROWD

The PTA program at high school auditorium Friday night was a huge success, both from the standpoint of entertainment and patronage, according to those who attended and those interested from the standpoint of funds raised for the activities sponsored by this West Ward Parent-Teacher organization.

The net receipts will approximate about \$60, some of the officials said. This money will be divided among the activities sponsored, which are library, medicine chest, playground equipment and telephone.

The program was a very diversified one, and it would be difficult to say which numbers were outstanding; but, judging from the applause, it would seem that the singing of the west ward pupils, the numbers of the Grammar school club and the impersonation of Hitler by Jim Ewell, Daily Press carrier, were some of the high lights.

The auditorium was filled, with some standing in the rear.

28 ATTENDED WTU COMPANY SAFETY MEET

The quarterly safety meeting for the Cisco district of the West Texas Utilities company was held Friday night at Laguna Hotel roof garden. The meeting was called to order by Sam Ledford, chairman, and roll call and introduction of visitors and new employees revealed that 28 were present from numerous points in the district.

R. L. Dunwoody of Baird spoke

on "Why We Should Avoid Accidents During Wartime." This was followed by an interesting skit staged by J. E. Hays, A. W. Watson, Jack Norman and Jay Garrett. The skit was entitled, "Right and Wrong Way," and all agreed that the four Cisco actors put it on in just the right way.

"Review of 1942 Accidents," by E. L. Jackson, was very informative.

"Message From the Management," T. J. McCarty, district superintendent.

The meeting adjourned following a special message from Cal Young. Those present included the following:

T. J. McCarty and Cal Young, Abilene; J. G. Bennett, Throckmorton; Lou M. Grace, E. O. Parsons, R. L. Dunwoody, Baird; G. C. Burrage, Albany; Carolyn Choate, L. L. Walker, Prosper Walker, Moran; Wm. Kendall Cross, Plains; E. L. Gaines, Rising Star; N. C. Huston, M. F. Underwood, H. L. Jackson, J. E. Proctor, J. T. Waddell, A. B. Byrd, O. J. Russell, H. O. Anderson, E. L. Jackson, Sam Ledford, A. W. Watson, Jack Norman, Jay Garrett, J. E. Hays, Robert Watson, B. B. Hurst, Cisco.

HUGE ACREAGE.
WASHINGTON, March 20.—A nationwide survey indicates that American farmers will plant 10,000,000 more acres to food and feed crops this year than in 1942, when production records were smashed, the federal crop reporting board reports.

MUST HAVE TITLE AND LAST YEAR RECEIPT

Clyde Karkalits, county tax collector, informs the Daily Press that he will be at city hall, Cisco, Monday morning at 10 o'clock to issue auto license plates to people of this city and area.

However, if the plates are received here instead of at the tax collector's office in Eastland, it will be necessary for car owners to have their certificates of title and last year's registration receipts, the collector stated, since it will be impossible for Mr. Karkalits to bring the county records to Cisco.

The 1943 plates must be on all cars driven on and after April 1.

RECORD LOW FOR NEW YORK MEAT SUPPLY

NEW YORK, March 20.—Meat supplies dwindled to record lows in New York today while canned food products, virtually boycotted by housewives because of high point ration values, continued to pile up on store shelves.

Disclosure of the situation which food industry spokesmen believed may result in complete paralysis of food distribution, followed close on an order by the army quartermaster general halting production of rations "K" and "C" on March 31.

The suspension order of the rations, which are emergency allowances allotted soldiers removed from regular field kitchens, was issued, spokesmen said, because "production exceeded expectations."

KAISER EXCEEDED THE SPEED LIMIT

WASHINGTON, March 20.—Shipbuilder Henry J. Kaiser asserts the steel which his California company is accused of accepting in too great quantities "was allocated to us by the maritime commission."

This was Kaiser's reply to technical charges of priority violations. Failure to accept delivery of the material, he said in a telegram to Donald M. Nelson, would have cut production on ships which the commission was urging him to turn out "as rapidly as possible."

"Apparently we have been building ships so rapidly that it is illegal," Kaiser said in his telegram.

WORK FOR FBI IN THE LONE CEDAR SECTOR

EASTLAND, March 20.—P. O. (Porter) Woods, living in the Lone Cedar community about five

miles east of Eastland, and who milks a number of cows, selling the milk in Eastland, found one of his best cows dead and two others wounded Sunday afternoon.

According to Eastland officers investigating the case, one cow had been shot dead in her tracks and the others had been shot and wounded and it is believed will not recover.

Employees of Woods had driven the cows to the pasture at 10 o'clock Sunday morning and returned for them at 3 p. m. Sunday. The three cows, all good Jersey milk cows, were giving milk.

SHARING THE SACRIFICE.

People who had never paid income taxes before, and resented it and swore that they wouldn't give up the good money they had earned by the sweat of their brows, mostly yielded at last and came across handsomely. It was well for them that they did, and it is now ill for those who held out to the bitter end. The latter may have to pay taxes, or even go to jail if they persist in their stubborn selfishness.

It is natural enough to dislike paying such taxes. Anybody has a right to "flee" about it. But with most citizens that is a mere feature signifying their dislike of giving up money they have earned, and seeing it go down what seems like a bottomless hole. That is the way life is, especially in these times, when great losses and sacrifices have to be maintained at immense cost, to keep powerful enemies from taking everything we have.

The efforts of people making good money out of the war, to hang onto all their war profits, seem to come mainly from a lack of imagination. They don't see the whole picture and their place in it. But there are many also who, in spite of understanding, are grimly and unapologetically determined to pay as little as possible for their share of the national safety.

Such small souls are to be pitied, even while they are necessarily condemning. For, in America there is a noble pride in paying and doing and doing this big job together.

ARMS FOR FRANCE.

Things look better, on the North African front, and also on the European front as French leaders begin getting together and fighting the common enemy. The great weakness of France has been too much individualism. They have carried democracy to the edge of anarchy. But now the misery and slavery into which they were dragged by the Nazis are raising their old spirit.

If Giraud and de Gaulle can unite and forget their personal differences and ambitions, so can other leaders and groups. If the French people can be helped and self-sacrificing individually, they can do it nationally. They must still be capable of greatness and, except for a small minority of traitors loyal to their hearts, to France. They have little to lose in a revolt against their oppressors, and everything to gain. And France and America, as well as France and Britain, can work together in any extent that is necessary, when the French people renew their fight for freedom. Their sense of historic drama should help, too. In fighting for themselves they also fight for a free world.

What they need now is arms, and the free nations must see to that.

UNITY.

The finest thing that has happened in this country lately is the growing unity at Washington. It was feared for a while that the near equality of the two political parties might result in such a situation as arose at the end of the last war, producing enmity and inaction when constructive unity was essential. Fortunately patriotism has risen above partisanship, and the Republicans and Democrats are making a common front against the enemy.

Proof of this has been the practically unanimous renewal of the Lend Lease act, along with substantial unity in other vital branches of the war effort. The government at Washington, from the commander-in-chief down to the political privates in the ranks, seems to be getting down to the main job of fighting the enemy instead of fighting each other.

This is the nation's greatest assurance of victory and honor.

PYROMANIACS.

Some American cities lately are having to fight an epidemic of fires, mostly started by boys. It's

the war influence, and the inspiration comes from Hitler, the great destroyer. He is a far bigger pyromaniac than Nero, who tried to burn Rome. Hitler's fires have threatened to consume modern civilization.

Which facts don't excuse young American imitators of those big fire fiends. They must be taken in hand severely lest the flames spread.

There are always compensations, and people get a big kick out of bragging about the income taxes they've paid.

FARM UNIFORMS.

Congressman Frances P. Bolton has asked congress to take action drafting agricultural labor and putting the farm workers in uniform. The idea is not to "militarize" the farmers, but to give them an even break while keeping them on the farms to produce food and fiber for the nation. This would not be, in any way, intended as an imposition on the farmers. Mrs. Bolton apparently got the idea from a resolution adopted by Ohio farmers in her own country.

If farmers in general have the same attitude, is there any reason why it shouldn't be done? Presumably such a uniform, with its obvious implication that the wearers were growing their crops engaged in honorable war service, would help to keep on the farms sensitive young men who are needed there.

T. R. is in the war news again. Among American commanders in Tunisia is Brigadier General Theodore Roosevelt, Jr., who is leading troops in battle and having a busy time. How his father would have loved it!

With automobiles forced out by the war, golf discouraged because of the high cost of gasoline, and weather forecasts forbidden by the government, what will people do for conversation?

Confiscation of distillery equipment and the arrest of two men at one site and one-half mile west of Bonney Friday was announced by the sheriff's office Monday. Officials stated a 150-gallon still and 1,900 gallons of mash were confiscated and two suspects taken to Abilene, where they were to be charged in federal court by revenue agents from Fort Worth. Beside the federal men, Deputy Sheriff Ray Hardwick and Deputy Sheriff Claude Harnett participated in the seizure.

Johanna Evans of Scranton has been judged the best boy 4-H club reporter from the 19 counties in District No. 7 of the extension service. Assistant County Agent Hugo F. Barnhart announced Saturday. District Agent C. E. Bowles selected the 17-year-old Scranton high school student as the best in the district and by the selection he will be awarded an expense-paid trip to the annual farmer's short course at College Station, July 20-25. Evans will become a member of the editorial staff of a newspaper issued during the course.

The Cisco commandery which has been given the distinctive honor of giving its Grand Master degree at Brownwood, holds other distinctions relative to its ability to put on this degree. It appears that this is the only team that is equipped to give this degree of honor in this section of the state in what is known as the Long Form, requiring as it does some \$500 worth of equipment. It is interesting to note that this form of degree was only put in book form in about 1910 and W. F. Walker has in his possession the original typewritten copy of the work sent him before it was so published. Cisco's commandery will be greatly honored in giving this Knights Templar work at Brownwood on the night of July 10. Those composing the Cisco team are, D. K. Scott, Wm. Rea-

gan, R. E. Grantham, George Boyd, R. N. Clark, R. S. Wood, E. Boyd, H. T. Huffman, J. M. Whitten, W. H. Craddock, W. F. Walker and L. D. Wilson.

Two more merchants names were announced today as those sponsoring the beauty contests at the merchants bathing revue to July 4th. Those of Nance Motor company and A. G. Motor company having been named by the committee in charge as moving contestants to try for the prizes which are to be a two-day trip to the centennial with expenses paid, for the first prize winner, in season pass to the swimming pool, for the second, and a book of \$5.00 worth of swimming tickets for the third winner. Merchants names announced to date are: Nance Motor company, A. G. Motor company, Brown's Sanitorium, J. C. Peoney company, Garner's, Leach Store, The Man's Store, Altman's, Palace Theatre, Daily Press and Lake Cisco Amusement company.

R. L. Maddox, Sr. of Ballinger, was the speaker at the Rotary club today. Mr. Maddox, who is visiting the family of his son, Bandmaster Robert L. Maddox, talked of interesting incidents of 50 years ago, when Texas was much younger than at the present time, which marks its one-hundredth birthday, he said. Jubilantly entertained with his xylophone. Officers for the year were installed as follows: J. C. McAfee, president; R. L. Pausler, vice president; J. E. Spencer, secretary; J. B. Cate, treasurer; Garland Nares and P. R. Wark together with retiring past president O. J. Russell, and the above officers become the board of directors for the club.

Masses of Cisco who attended the Masonic ceremonies of conferring the Master Mason degree last night say it was one of the most impressive events they have witnessed in their degree work. Grand Master Weatherford of Coleman put on the work. Those attending from Cisco were: G. R. Kil-

patrick, Frank Leech, Frank Yarger, Dudley Lee, W. P. Coldwell, Frank Carter, Fred Steffey, J. M. Witten, L. D. Wilson, M. L. Persim and Sam King.

M. L. Agnew, district supervisor of the Abilene district for the Continental Oil company, has been transferred to Lubbock where he will have charge of both Lubbock and Big Spring districts.

The Pentecostal revival continues on Tenth street. This denomination will hold their state assembly at Rising Star, July 7, followed by a revival meeting for that place.

DEAD MEN—Of 160 photographers assigned by Red Army to record dramatic film of one day of war on far-flung Russian front, 30 were dead at end of day. Dead men above are Germans and Hungarians, slain by Soviet guerrillas pursuing others through Russian town.

TOO MUCH AT ONCE—Few days before this picture was taken, British 8th Army men in Tripolitania were complaining of sand, flies and lack of water. Then the rains came. Here, British airman mutters as he sweeps back flood from his tent.

And then action comes and perhaps that same soldier lies dead or wounded—or maybe it's his buddy that has lost a leg or an arm—crippled for life—

AND THEN YOU COMPLAIN ABOUT RATIONING — ABOUT THE RED CROSS DRIVE THAT URGES YOU TO PAY A PART OF THIS WEEK'S SALARY TO HELP CARE FOR THE WOUNDED — ABOUT YOUR VICTORY TAX AND YOUR INCOME TAX AND YET ALL OF THESE ALLOWS YOU TO LIVE AT HOME WITH YOUR FAMILY — DRY WHEN IT RAINS AND COOL WHEN IT'S HOT — WARM WHEN THE THERMOMETER GOES DOWN TO NEAR ZERO—

NOT MARCHING MANY MILES A DAY IN ALL KINDS OF WEATHER, BUT CALMLY OPENING UP THE GARAGE DOOR ON WELL-OILED HINGES TO DRIVE DOWN THE FEW BLOCKS TO YOUR WORK, AND THEN SITTING IN YOUR EASY CHAIR AT YOUR TYPEWRITER OR CALMLY GOING ABOUT YOUR WORK—

AND THEN HEAR THIS SOLDIER TALK — HE IS DOWN IN THE TROPICS WHERE HE MUST WADE MUD AND WATER — ENDURE STEAMING HEAT AND TORRENTS OF RAIN IN FEVER-SWAMPS:

"I'd like to swap places with you, though. Not for long, as I've got some scores to settle out here . . . and they won't keep.

"If I had your chance to help people think straight, I'd know what to tell them. There's something about the whistle of a bullet . . . about the whine of a shell and the scream of a falling bomb that makes you see things as blacks and whites and nothing in between.

"If I sat where you sit, I'd make more people realize that it's victory or defeat . . . freedom or slavery—nothing in between.

"I'd have mighty little patience with people who beef . . . about something as fair as rationing. Or walking a few blocks. Or bus-riding a few miles. Or buying more U. S. War Bonds. Or skipping this year's hunting and fishing.

"You get a different slant on things out here. I think you know what I'm driving at."

When life hangs by a wire!

IN HOSPITALS throughout West Texas (and close up to battle lines all over the world) a blue-white light blazes down on the tense little group. . . A suction machine hums quietly. . . Skillful fingers poise an electric knife. . . A human life hangs on the smooth, even flow of electric power.

Electric equipment of many kinds serves the modern hospital. Busy doctors and nurses use it every day for diagnosis and treatment, without even pausing to think of the constant supply of electricity that keeps it operating.

But electric power didn't just happen. The hard work, training and experience of West Texas Utilities men and women have made it dependable. They've made it plentiful, too—so that West Texas communities have not been hindered by any power shortage while joining in the Nation's war effort. And they've made it cheap—so that the average West Texas home enjoys over twice as much electricity for the same money it paid about fifteen years ago.

These are the results of practical business management under public regulation—part of the system of business freedom in which millions of Americans have put their faith and their savings.
