ALLIES GIVE JAPS LITTLE REST

CISCO DENTIST INVENTS JAW CAST, ENGLAND

HEADQUARTERS, EUROPEAN THEATER OF OPERATIONS — A Cisco, Texas, dentist has invented a special improvised splint for fractured jaws during his work as chief of the dental service at a United States Army station hospital in England.

He is Lieut. Col. H. Beecher Dierdorf of 1302 N. avenue, Cisco, who resolved to make chin rests more comfortable than hard plaster cast. Colonel Dierdorf demonstrated his new cast at a recent meeting of the American Medical Society held at a station hospital.

MANY MILLIONS TO HEIRS OF J. A. STILLMAN

NEW YORK, April 15.—Trust funds valued at \$11,385,256 will go to Gay Stillman, Ann Stillman Davison, James Stillman and Alexander Stillman — all children of banker James A. Stillman, who died three months ago.

Papers filed in surrogate court listed the children's trust funds represented their father's interest in the \$29,323,967 estate of their grandfather, another James Stillman, who founded the National City Bank and died in 1918.

BLOOD DONORS 224

Final reports on the registration of blood donors show that 224 Cisco people have agreed to give a pint of blood for the Red Cross plasma bank, says Rev. Leslie Seymour, chairman of the local committee. Those who have registered will be notified by mail next week of the exact hour they are to report in Eastland on the 17th of this month for the donation. That date has been set as Cisco Day. Arrangements will be made to provide transportation for all who do not have their own conveyance. Specific instructions will be sent to the registrants before they report in Eastland.

ROWCH OVERSEAS

Sen. Eugene Rowch, son of Mr. and Mrs. H. J. Rowch of Eastland and grandson of Mrs. Della Davison of Cisco, writes that he has arrived safely overseas. He is in the South Pacific area and said he would like to have a fishing outfit. Rowch, 25 years of age, is attached to the army engineers. He formerly lived in Cisco.

FOUND DEAD—Manhunt is under way in Bakersfield, Cal., to uncover slayer of Billie Horn (above), bride of a week found slain in rooming house.

500 AMERICAN INTERNEES IN SWITZERLAND

BERN, April 15.—One hundred and thirty Americans, comprising the crews of 12 bombers which landed in Switzerland and of another bomber which was shot down by the Swiss, arrived Saturday at the mountain resort of Adelboden for internment.

The Swiss shot down one bomber which they said failed to respond to landing signals Thursday, when the US Air Forces attacked nine targets in Germany and occupied Europe.

The entire crew, however, parachuted to safety, the plane falling near the village of Siedmen, south east of Zurich. Investigation has not yet established why the plane did not observe the signal to land. Three of the men, slightly injured, were hospitalized.

There are now 400 uniformed American internees at Adelboden, and 100 others who escaped from Germany at Glasters. Those who escaped into Switzerland wear civilian clothes. Seventeen American flyers are now buried in Switzerland, 13 of whom died in crashes last Fall, and four of injuries sustained in combat over Germany.

The internees get board and room and \$13 monthly, plus use of a credit system for purchases of such items as clothing and cigarettes. Those escaping from Germany draw full pay.

U. S. FLYERS LAND SAFELY IN YUGOSLAVIA

NEW YORK, April 15.—Two American planes have been shot down or made forced landings in Yugoslavia, messages reported Saturday.

On April 4 an American bomber was shot down by the Germans on its return from the Ploesti raid and the crew of eight was rescued and given first aid by the Yugoslavs after parachute jumps.

On April 6 an American plane piloted by Lt. John Lendstrax was forced down 30 miles south of Belgrade. At the direction of the pilot the plane was dismantled and hidden, the communique said.

YANK AIR RAID ON BUCHAREST KILLED 2,942

NEW YORK, April 15.—A Romanian high command communique transmitted by the German Trans-Ocean agency said 2942 persons were killed and 2126 wounded in the American air raid on Bucharest.

The casualties were the highest ever reported by an authorized source for a single air raid.

The Germans never have released the number of casualties suffered in Allied raids on their cities, and the largest toll in a German raid on Britain was 1436 killed and 1792 injured in the last heavy blitz attack on London May 10, 1941.

WRECK KILLS TWELVE

MEXICO CITY, April 15.—A large U. S. military plane crashed in Northern Mexico and the 12 crew members were killed, the Interior Ministry announced. The crash was 22 miles from Palomas, Chihuahua, about 1,000 feet from the Texas border, the ministry said.

NAZI DEAD AT ANZIO—Remains of dead Nazis lie in gully where they fell in fruitless attempt to infiltrate our lines and cut vital Allied road junction; at Anzio, mute testimony of grim fight Yanks and British are putting up to hold position. (U. S. Army Photo).

RAILROADERS IN INDIA—Crack American railroad men are running Bengal and Assam Railroad in India, few miles behind the lines at Kohima, scene of fierce fighting for vital stronghold. Here, Sgt. Charles Roth of Canandaigua, N.Y., greases locomotive. (U. S. Signal Corps Photo).

ANZIO ARRIVALS—All ready for hard job that lies ahead, Army nurses Maxine Burton (left) of Kearney, Neb., and Jean Heaslip of Youngstown, O., carry barracks bags to their quarters, after checking in at Anzio beachhead hospital.

WALLACE CHANCE IS GOOD

WASHINGTON, April 15.—Notwithstanding the many things not in his favor, feeling grows on Capitol Hill that Vice President Wallace has a good chance to be No. 2 man on a fourth-term ticket. Reason: Polls showing his popularity, and the thought that he might gather in the nebulous labor vote and the confirmed New Deal vote. He has steadily advocated the New Deal, even after FDR chunked the name out of the window.

Speaker Sam Rayburn's friends say he brought back from Texas no important worries about his campaign for renomination in July primaries. The Democratic national convention opens in Chicago three days before the first Texas primary, and some think the speaker might be nominated for vice president before his renomination to the house.

Naval rockets on landing craft are a little-known development of recent months. Results are good and many more have been ordered. While German rockets have been getting publicity, our navy bureau of ordnance has been quietly at work developing its own.

American planes get into action against Nazis five days after they leave our factories, in some cases. It's no longer secret that they're flown over Alaska to the Russian front. This is one reason for emphasis on developing oil supplies in Alaska.

Rep. A. L. Miller of Nebraska says he's surprised at rumpus he kicked up with MacArthur letters. He didn't think they were news! But Miller has no qualms about publishing them, expects no protest from the general. Months ago, he says, he wrote MacArthur that he'd make no use of correspondence if the general preferred that he did not. Says he had no answer.

American experts chosen to discuss international petroleum policy with the British here next week include experienced oil men, but some independent operators warn that unless they're on their toes they may get their pants traded off them. Early discussions will center about our government's proposed trans-Arabian pipeline.

COMMANDS INDIANS—Gen. F. Messerby is commander of Seventh Indian Division fighting with British 14th Army hitting Japs in Burma. Cut off by Nips in February in the Arakan sector, Messerby's men were supplied with food and ammunition by air. British capture of Nagaydauk pass freed them.

NIP FLEET ALREADY DAMAGED SO THEY CANNOT HOPE TO MAKE UP LOSSES SAYS ADMIRAL KING

Allied forces, striking against the Japanese from land and air, carried an aerial offensive on the Kurile Islands in Japan's northern empire, into the fourth day, while 4000 miles to the south they captured Bogadjim, on the north coast of New Guinea, and were driving toward Madang, 16 miles away.

Jungle-hardened Australian troops occupied Bogadjim without opposition, the same day that U. S. bombers twice hit the big enemy naval base at Paramushiro in an intensified campaign against Japan's northern defense anchor.

The Australians took Bogadjim, protective base of Madang, while American bombers blasted the Wewak area, 200 miles north of Madang, with 250 tons of explosives, and strafed a 90-mile stretch from Wewak to Aitape.

Southwest Pacific bombers also hit Wake Island, 110 miles west of Hollandia on the far northern New Guinea coast, and shot down a Japanese bomber 280 miles southeast of Palau, 550 miles east of the Philippines.

In the attacks on Paramushiro, approximately 1200 miles north of Tokyo, Navy Venturas and Army Liberators flew from the Aleutians in sub-zero weather to carry out separate attacks on the naval base. The Navy planes ran into intense anti-aircraft fire but the Army raid was unopposed. Liberators from the same Army force also hit Shashikotan and Matsuwa in the Kuriles.

Central Pacific forces continued their offensive against the Carolines, hitting the main base of Truk on Wednesday and four of its protective positions on Thursday.

Japan's war fleet is already damaged so that she can never hope to make up losses, and heavy new blows at it may be expected in the "next few months," Admiral Ernest J. King, navy commander-in-chief, declared Saturday.

MOSCOW.—Heavy Russian tanks neared the outskirts of the big Black Sea naval base of Sevastopol today, driving the panicky remnants of an Axis garrison into a death pocket at the southern tip of the Crimea.

(The London Star said the Russians were within 10 miles of Sevastopol).

Unshaven, unkempt and tattered German and Romanian soldiers, their escape cut off by the lightning Russian advance, surrendered en masse as the Soviet re-conquest of the 10,000-square-mile Crimea entered its final phase a week after it began.

More than 31,000 prisoners had been rounded up by Thursday, and almost as many more enemy troops had been slain by two Red armies that smashed simultaneously into the Crimea from the north and east last week-end.

Swarms of Red Air force fighters, attack planes and bombers swept the 60 miles of the south coast still in Axis hands with an almost constant hail of bombs and bullets and joined warships of the Black Sea fleet in blockading the shoreline from the sea to thwart any 'Dunquerque' evacuation attempt.

A 3000-ton transport, several smaller ships and three self-propelled landing barges loaded with infantry were sunk, while a large enemy transport was set afire and five self-propelled landing barges and a mine-laying ship were damaged severely.

NEW DELHI—British and Indian troops engaged Japanese forces in the hills north and northeast of the Imphal plain today in the attempt to stop the enemy drive which has carried to within 10 miles of Imphal, capital of India's Manipur state.

The Japanese were reported suffering heavy losses in the fighting around Imphal, where they were attacking from three sides in an effort to isolate British and Indian veterans in the town.

The communique acknowledged that small enemy parties remained in the area of the Bishenpore-Silchar trail indicating that Allied troops were holding their own against renewed Japanese assaults on the jungle track leading west from the Imphal plain and only remaining land connection between Imphal and inland Indian bases.

The enemy troops were believed attacking just west of Bishenpore, about 70 air miles east of Silchar, terminus of a spur from the southern branch of the Bengal-Assam railway.

In the virtually encircled Kohima area, 60 miles north of Imphal, British Imperials opened attacks on Japanese troops holding a road block a few miles outside of Kohima on the highway leading to Dinapur.

The enemy was said to be defending strongly the road positions, apparently expecting that the Allies would attempt to send reinforcements along the highway.

TOJO THINKS ALLIED INVASION TO FAIL

LONDON, April 15.—An Axis "three-power" parley has been held in Tokyo on the eve of the Allied invasion of Western Europe, the Berlin radio disclosed today.

The broadcast said a technical committee of Germany, Japan and the Italian puppet Fascist regime had reached "complete agreement" on war plans and quoted Japanese Premier Tojo as telling the delegates that the Nazis would smash any invasion attempt.

"I am firmly convinced that the German wehrmacht not only will smash an Anglo-Saxon attack, but moreover, will deal such a devastating counterblow as will accelerate the final victory of our three nations," Tojo was represented as saying.

EISENHOWER CHEERED

LONDON, April 15.—General Eisenhower was cheered by a record crowd of 85,000 soccer fans when he appeared at Wembley Stadium to see the league south cup championship final. The invasion commander-in-chief shook hands with every player, most of whom were service men.

DEADLY DELAY.

One hundred thousand people die needlessly of cancer in the United States every year, and about 480,000 have the disease who will die in the next two or three years.

People who find some little unusual thickening of tissue, some unusual discharge, some indigestion which recurs without any apparent cause, some little sore, frequently around the mouth, which does not heal in a few days, should see their doctors.

Thorough study and research have been devoted to cause and cure of cancer in the last few years, and while much remains to be discovered, much of use has been learned.

HULL WILL CONSULT.

One of the most interesting things in Secretary Hull's notable address to the nation was the statement that in the conduct and settlement of this war the executive would consult congress.

Only too well remembered is the mournful experience of Woodrow Wilson at the end of the last war, when a great opportunity was lost because the president, confident of his position and purpose, assumed that the senate, with its power of veto in international affairs, would go along with him.

TREASURES OF IND.

Many spices and drugs native to this hemisphere were planted in the East, in the last century. Because of the crowded populations eager to work for low wages, and because of superior Dutch organization of these workers and the exporting of their products, the Netherlands Indies came to be regarded as the only source of such drugs and condiments.

Quinine is a well-known example, but allspice, capsicum, cassia, cardamom, ginger, mace and nutmeg are now growing successfully in the Central American and some South American countries.

The American spice business is not heavy as yet, but it shows a good beginning. Rubber is coming up, and so is the abaca fiber which is taking the place of hemp.

BONDS WITH COUPONS.

Too many war bonds are being redeemed. It is natural, perhaps, for people who have never had the habit of buying securities, stowing them in a safety deposit box, and living along without thinking of them except when dividend time comes around, to put the bonds in a dresser drawer as they might stow a bill for next week's groceries.

The basic idea of the bonds is that they should be put away for ten years and not turned into cash before their due dates except for dire need. Held this way, they become a good backlog for the future, a comfort and a satisfaction.

The E-bonds are all right in their way, but more and more people who look sensibly at the situation wish there were also small bonds with coupons—bonds of \$50 and \$100 denominations.

People don't always know when they are well off. Both Germans and Europeans generally complained of their lot in the '20's, when neither had as yet heard of the Gestapo.

The so-called civilized world grows less so all the time.

Fifty-two people submitted names for Cisco's big new hotel yesterday. Next week will doubtless see many more sent in to the Daily News. It will be some honor and considerable distinction to be successful in submitting the name chosen for this finest of hotels in this section of the state.

Judge Elao Ben, of the 88th district court, empaneled a grand jury for that tribunal this morning at 10 o'clock in the court room on the second floor of the old high school building.

The high jumping kangaroo of the Texas University team, Garland Shepherd, of Cisco, still maintains his reputation in aerial flights in intercollegiate athletic sports and track meets.

PUBLIC OPINION

Bureaucratic Progress. The Daily Press: The recent attempt of the War Labor Board to force newspapers to submit their editors to the dictates of union labor, whereby the union could fire an editor from their union and force the newspaper to fire the editor, is a very serious situation.

This should concern us all. We should not sit back and say, "I am not a newspaperman, so this does not affect me." If we allow bureaucratic control to creep upon our free enterprises, one by one, while the rest of us sleep, then slowly but surely each of our times will come.

will not be collared at some future date by the same process and placed under a bureaucratic control by which the very life blood of all they have worked for, their education, their ambition, their initiative will be squeezed out of them.
