ALLIES ARE ADVANCING IN ITALY

Mrs. Emilia Wende 91, Dies; 8 Grandsons With U.S. Colors

Mrs. Emilia Mathilda Wende, 91, a most excellent Christian woman and pioneer citizen, died at her home near Cisco at 1:15 Thursday afternoon, after an illness of three weeks. She was born in Holland, March 2, 1853, and was the widow of Daniel John Wende, who died in 1915.

There will be two funeral services. The first will be held at the late home at 3 o'clock this afternoon with Rev. G. A. Oberhaus conducting the services in the German language. At 3:30 there will be services at Christ Lutheran church in English, conducted by Rev. B. H. Munshink of Albany. Burial will be in the Lutheran cemetery beside the husband, with Thomas funeral home in charge.

The pallbearers, all grandsons, will be Alvin Wende, Martin Wende, Edwin Wende, Ben Weis, Bill Wende and Edward Wende.

Deceased was married to Daniel J. Wende, March 7, 1877, in Germany. They came to the United States and Eastland county some 60 years ago, settling on the farm south of Cisco where they died.

Survivors include six sons, three daughters, 38 grandchildren and 19 great grandchildren. Eight grandsons are now serving with the U. S. armed forces and one son, Pvt. Fritz Wende, died in France during World War I.

Surviving children are Charlie, Otto, Paul J., Gus E., Emil J. and Ben J. Wende, all living in and near Cisco; Mrs. Ida Huber, Houston; Mrs. Huldah Weiser and Miss Martha Wende of the Lutheran community.

TO WORK CEMETERY.

State Hart requests the Daily Press to remind all interested parties that next Saturday is the annual date to work and decorate Goshute cemetery, located between Cisco and Eastland. Corvath cemetery has always been given regular and careful attention by those who have friends and loved ones buried there. In fact, Eastland county in general has an excellent reputation for maintenance and constant upkeep of its many burying places. Oakwood cemetery, Cisco, stands out in this respect, too.

GAS-MASK HELMET—Seabee ingenuity fashioned this contrivance during early days of war when materials were scarce. It is regulation gas mask which, with a few minor changes, can be used as diver's helmet, shown above. (U. S. Navy Photo).

FLEWELLEN TO REMAIN WITH ATTY. GENERAL

L. H. Flewellen, Eastland county legislative representative and now a member of the attorney general's legal staff at Austin, has decided he will not be a candidate for re-election as state representative.

Mr. Flewellen, formerly a practicing attorney at Ranger, stands high with the members of his profession and with the voters of Eastland county in general. He would very likely have had no opposition had he decided to offer for re-election.

All in all, the Daily Press feels it is worth much to have a man of Mr. Flewellen's caliber in the attorney general's office, which now seems to be well-manned, from the top on down. His letter to the public follows:

"After much deliberation I have decided not to seek re-election to the legislature. It was a hard decision to make. Being a member of the 48th legislature was an enjoyable experience which I shall always cherish. I tried at all times to represent my county and state in a courageous and dignified manner. Although many of us differed at times regarding proposed legislation, I feel that every member of said legislature is my personal friend.

"I am now an assistant to Honorable Grover Sellers, the attorney general of Texas. It is an important office and one in which valuable service can be rendered. The experience which it affords, coupled with my legislative experience, will enable me to render assistance to my successor in legislature, should it be sought.

"I am pleased to know that two good friends are candidates to succeed me as representative of the 19th district. Either, in my opinion, will make a good legislator. Whoever is elected will receive my co-operation.

"My wife and I take pride in the fact that Eastland county is our legal residence. There we shall always take an interest in its affairs. Its people are unexcelled by those of any other county. While I am in Austin I want them to call on me at any time I can be of service. I shall always be grateful for the honor and privilege of having represented Eastland county in the legislature of our great state."

WAR MUST WAIT.

DETROIT, May 13.—One big war factory — Packard makers of Rolls-Royce aircraft engines and PT boat engines — stood idle Saturday as the strike of 3,300 Detroit war plant foremen began to have more serious consequences. The Packard plant was closed by the management Friday night.

MOTHER IS UNFIT.

MIDDLETOWN, Conn., May 13.—WAC Corp. Muriel McCormick Hubbard, accused by her brother, Fowler McCormick, wealthy Chicago manufacturer, of being an unfit person to care for two foster children, has given them in adoption to Dr. Frances M. Clarke of Durham, a Middletown suburb. Among other things, the WAC officer is alleged to be "addicted to the excessive use of alcohol."

Roy Lee George, son of Mr. and Mrs. Roy George, who joined the navy recently, has gone to Dallas for assignment to training quarters.

BLITZ LAUNDRY—One boon to housewives in bombed out areas is National Emergency Washing Service which takes family laundry off British women's hands. Here, ladies queue up before mobile unit with their dirty wash. They return in three hours to collect snow-white belongings.

LLOYD WITTEN OF U.S. NAVY KILLED

Another Cisco home was saddened Saturday when Mr. and Mrs. J. M. Witten were notified by the government that their son, Lloyd Lee Witten of the U. S. navy, had been killed in action. Time and place of the Cisco boy's death will be announced by the government later.

The young man, a chief pharmacist's mate, was 28 years of age and was born in Waco, the family moving to Cisco from Waco in 1920. He graduated from Cisco high school in 1935 and enlisted in the navy in August of the same year. After joining the service he was married to Miss Ellinor Cole in California. They made their home at Long Beach, Calif., and were visitors in the Witten home here in January.

Survivors in addition to wife and parents are four brothers and a sister. Raymond Witten, one of the brothers, is a member of the army air corps. Another brother, Monroe Witten, was discharged from the service because of physical disabilities.

The Telegram.

The telegram to the parents came from Vice Admiral Randall Jacobs, chief of navy personnel, Washington, D. C., and was as follows:

"The navy department deeply regrets to inform you that your son, Lloyd Lee Witten, chief pharmacist's mate, USN, was killed in action in the performance of his duty and in the service of his country. The department extends its sincerest sympathy in your great loss.

"On account of existing conditions the body if recovered cannot be returned at present. If further details are received you will be informed.

"To prevent possible aid to our enemies, please do not divulge the name of his ship or station."

BELLIGERENT STUDENTS.

COLLEGE STATION, May 13.—Directors of A&M College were face to face Saturday with the problem of discipline for 2,000 wild-eyed students who have been staging demonstrations against the school authorities for the last 48 hours.

IT NEVER RAINS, perhaps, but it practically always pours on Guadalcanal, where there are only two seasons—the rainy and the wet. Wheeling barrow of gravel through flood waters toward their tent where they will use it to build up floor against the tide, are PFC. Harold Williams (left) of Akron, O., and PFC. Edward R. Robinson of Richmond, Ind.

DIGGING IN—First thing reconnaissance pilots Lt. George Scheon (left) of Little Rock, Ark., and Lt. Gerald Priebe of St. Paul, Minn., do after landing light plane at Anzio is dig themselves a fox hole. They keep watchful eye aloft even while they work.

NEW DEAL SWEATING BIG JIM

WASHINGTON, May 13.—Peace maneuvers are on between Jim Farley and Fourth-Termers. Big Jim's personal following is still loyal on everything but the main issue — re-nomination of FDR. Crumbling of Southern opposition to fourth term is one compelling reason for Farley's reported desire to forget grievances against Administration. Friends say he wants to be mayor of New York, might covet administration help. Pro-Roosevelt group could have beaten Jim for re-election as New York state chairman, but kept him on in hope of '44 peace.

Opening of Washington headquarters for Gov. Bricker is last-ditch stand to head off Dewey nomination. Bricker organization still hopes to inspire anti-Dewey movement among Republicans in Congress which would percolate back home and win over uncommitted and wavering delegates.

Eye-opening disclosures of manpower waste are promised by investigators for House Civil Service Committee, now mapping inquiry into employment of 50,000 to 60,000 civilians at army air force headquarters at Dayton.

Battle rages in House Appropriation committee over medical program for servicemen's wives. Medical profession doesn't like present setup, fears "socialized medicine" wants fixed cash amounts given each prospective mother for her confinement. American Legion argues fixed amount wouldn't cover special cases, like caesarians, would leave servicemen uncertain, worried about adequacy of wife's care. Legion seems to be winning the argument.

Question being asked by Texas politicians and some newspapers: Where is Sen. Pappy O'Daniel going to get the paper to print the "W. Lee O'Daniel News," for which he is seeking \$500,000 in contributions? O'Daniel has already collected \$100,000, declines to make names of contributors public. He says he'll start the paper on condition it has 100,000 subscribers pledged, and adds, "We should have a million subscribers." The \$500,000, if collected, will be used to pay publication costs, with any surplus used for O'Daniel radio broadcasts. All this, of course, aimed at defeating what O'Daniel calls "the New Deal dynasty."

Second-guessing inside administration on its handling of Montgomery Ward case. Officials concede privately that court action should have preceded seizure instead of following it; that Attorney General Biddle should not have gone to Chicago personally; that seizure should have been made at night, when clash with Sewell Avery could have been averted. Congressional and justice department mail has been sharply critical.

Immigration in fiscal 1943 hit 80-year low, with 23,775 aliens admitted. It'll be even lower in fiscal 1944, according to indications.

POOR IMITATION.

NAPLES, May 13.—American army ordnance experts pronounced Hitler's recently unveiled secret weapon — the "Goliath" radio-controlled explosive-laden tank — to be only a poor imitation of a weapon the United States tried and discarded nine years ago.

GERMANS FIGHT FIERCELY BUT YANKS AND BRITISH TAKE IT ON THE CHIN AND GO FORWARD

NAPLES, May 13.—Allied armies, driving toward Rome in a win-or-lose-all offensive to crush the Germans in Italy, have routed the enemy from his outer strongholds, captured at least three towns and five hills and engaged the main defenses of the Gustav Line.

Heavy fighting is raging all along the 25-mile main front from the mountains above Cassino to the Tyrrhenian Sea, a communique reported, with the Germans resisting fiercely from long-prepared defenses and in some sectors counter-attacking in a desperate effort to bar the gateway to Rome.

Enemy opposition appeared to be stiffer than anticipated. The Germans were throwing tanks, self-propelled guns and flame-throwers into their counter-attacks and regained some ground on both the Fifth and Eighth Army fronts.

Fifth Army troops were forced to fall back to the outskirts of one town they had penetrated, while the Eighth Army at Cassino finally yielded a foothold it had gained at heavy cost on Hill 560 overlooking the Monastery on Monastery Hill after standing off six counter-attacks.

(A London broadcast said the Allied forces in some places had advanced two to three miles, but in others had been checked. The German DNB Agency, estimating that four to five divisions—60,000 to 75,000 men—had been thrown into the attack, acknowledged that the Allies had made "some unconnected breaches in the forefield."

(DNB also said that five more Allied divisions were being trained behind the main front for a possible new landing along the Italian coast, perhaps north of the Anzio beach-head.)

Americans of the Fifth Army under Lt. Gen. Mark W. Clark repulsed two counter-attacks and pushed on through the mountains around Castellote north of the Garigliano river to capture four hills overlooking the seacoast end of the main supply line between Cassino and the Tyrrhenian Sea.

Swept up in the American advance were the towns of San Sebastiano, Ventosa and Ceracoli on an arc extending west and south of the German stronghold of Sastelforte, the nearest only a quarter mile away. Late reports said the Americans were attacking Castellote itself from the southeast.

The Americans were supported by tanks in the capture of Ceracoli, which lies southwest of Castellote. Some 200 German prisoners were taken in the first 15 hours of the offensive on the Fifth Army front.

On the Eighth Army front, Allied forces threw one or more bridges across the Rapido river below Cassino in the face of heavy enemy artillery fire and sent tanks and anti-tank guns across to the west bank.

German troops were driven from their outposts on the west bank as the Allies steadily built up their bridgehead and drove on to engage the main defenses of the Gustav Line in one of its strongest sectors.

Front reports said the Germans had unleashed their heaviest artillery and mortar barrage in months in an effort to halt the large-scale offensive ever launched by the Allies in the Mediterranean theater. The battlefield was "spongy with blood," one correspondent said.

MOSCOW.—Red Army troops beat off new attacks on the Soviet bridgehead on the lower Dnestr river near Chisinau, Bessarabia, today as the last enemy resistance was liquidated in the Crimea, where the Germans and Romanians lost more than 111,000 men killed or captured.

The futile assaults on the bridgehead northwest of Tiraspol, in which the Germans brought large forces of infantry and tanks into action, cost the enemy 4000 dead and the loss of 100 tanks in two days through yesterday.

Soviet pilots aided guardsmen in repelling two enemy attacks on the bridgehead yesterday and shot down 23 German planes as the Red Army troops turned back assaults at dawn and in the afternoon.

WASHINGTON.—American submarines have been sinking Japanese ships at a rate of better than one a day during the last six months, a United Press analysis showed today.

Since Nov. 1 of last year, Navy announcements have added up a total of 203 enemy vessels sunk by U. S. under-seas craft. This is a monthly average of more than 33 ships.

The Germans chalked up a higher daily average in the summer of 1942 when their U-boats sank Allied ships at a rate of about three a day. Nevertheless, the American average is considered relatively good since our submarines do not have as many targets to shoot at as the Germans had. Furthermore, Japan's shipyard capacity is hopelessly outstripped by her merchant losses to date.

UNIONS ARE BIG BUSINESS.

Union leaders are vying for the "honor" of being the first to break the government's wage and price stabilization program wide open and start another inflationary spiral. They have compiled statistics professing to show why the "soldiers of production" must have more money. They call strikes at the drop of a hat. Disrupting war production is their club. They get what they want, or else. The government's stabilization laws are currently the subject of their wrath and every attempt will be made to smash those laws.

Millions of Americans watch these unchecked union abuses in helpless fury. Those in the armed forces do not expect wage increases every time the going gets harder. They are at war and know it. Many more in civilian life do not expect providence or a labor union to hand them more money to make up for rising taxes and bond purchases and high prices.

Labor leaders should consider well and long before they decide to smash by force the laws designed to protect the nation from runaway inflation. If the unions put themselves against the government as ruthless as they have against industries, public opinion may destroy the unions, along with pussyfooting office holders.

Labor unions like Big Business, are essential to modern progress and prosperity; if permitted to run wild they are as dangerous as an unchecked fire. In fact, the labor unions of America — their coffers bulging with gold — can only be classified as Big Business, hence must be treated as such for the common good.

The skill and fairness and balance with which ALL Big Business in this country is administered by government, now and at the end of the war, will measure the future success of the United States of America, both at home and abroad.

It's a task for men and women of mental might, who are strong enough to sidetrack personal ambition and put America FIRST.

UNDER THE CLOUD.

(1 Corinthians 10-11)

This is the word that is written out
To comfort you and me:
"All our fathers were under the cloud,
And all passed through the sea."
Some of them abused the solid Rock,
And reached the coast at last,
Some of those losing their faith in God,
In death's dark sea were cast.
All of them drank from the self-same font,
Whence livest waters flow,
All were afforded the self-same chance
In grace and truth to move,
Some went forward from under the cloud,
And safely crossed the sea,
Some turned backward and lost their chance
Through all eternity.
"All our fathers were under the cloud,"
A cloud we all would dread;
Sickness and famine and plague and death
Were hanging overhead;
Some of them murmured through trials sore,
Their faith could not withstand,
Others stood firm with their faith in God,
And reached fair Canaan's land.
So it is oft on our pilgrim way,
We shrink beneath the cloud,
Sins of temptation and trials sore
Are oft by Him allowed.
Let us stand firm through the testing time,
And join the conquering band;
Let us cling fast to the faith of those
Who reached the golden strand.
—MRS. Wm. C. ARNOLD.

BRIDE-ELECT WAS HONORED WITH SHOWER.

A shower honoring Miss Frances Hill, bride-elect of Cadet Bill Collins, son of Mrs. Jay Warren, was given Thursday afternoon in the home of Mrs. S. L. Cook, 1302 West Seventh street, with Mrs. Cook and Mrs. Charles White as hostesses.

Decorations of cut flowers adorned the rooms and the dining table held a centerpiece depicting a miniature bridegroom and his veiled bride.

Guests were met at the door by the hostess who presented them to the bride-elect and her mother, Mrs. C. B. Hill. A period of games was enjoyed, following which an array of lovely gifts was brought in by Mrs. White while Mrs. Cook read "To the Honoree, Miss Frances Hill, Her Ship of Life." The gift packages were opened by the honoree and passed for inspection.

Refreshments were served to Miss Frances Hill, Mrs. C. B. Hill, Mrs. J. P. McCullies, Mrs. Edith Rainbolt, Mrs. E. C. McClelland, Mrs. W. C. Clements, Mrs. L. A. Burgett, Mrs. Jay Warren, Mrs. C. M. MEMORIES of the Sweetest Lady you know
Illustration of a framed sign with a woman's silhouette.

LET'S TURN BACK THE CLOCK

Remember... of course you can't, but you were the apple of mother's eye from the first... Remember... The visits of relatives and friends... Remember... She was stern about such things as neck and ears... Remember... Those wonderful meals... Remember... Her constant watchful care when you were sick...

A Message For Mother

Today we pay tribute to the Mothers of America. The world is at war, and for this reason Mother's Day achieves an even greater importance this year.

For the millions of Mothers over the land whose sons and husbands are fighting in the war, the "sitting and waiting" job isn't easy -- sitting and waiting for months at a time for just one word from a loved one.

It is up to us remaining at home to show Mother the love and admiration she is winning for the fine way she is doing her job. And it is up to us to make "Her" day as happy as we possibly can.

LIP HAT—Elegant character Lucille Veron, who has just completed run in Cisco in Broadway production of "The Merry Widow," models John Fosters' kiss hat for women. Inspired by El Borinquen's attraction, hat is red velvet, velvet in blue and finished off with gardenia-pinked seductiveness between lips.

Mother's Day

There isn't a day in the year when Mother doesn't think of her child's happiness and future welfare. Her love and devotion make Mother's Day meaningful and significant.

Today we salute the Mothers of America, and our prayer is that next year Mother's Day will hold happiness for many who are grieved today.
