RUSSIANS BREAK NAZI LINES

Lynch Has Both of His Eyes on the Weather Man

Only one uncertainty stands in the way of a very successful Eastland County Livestock Show here Saturday, according to County Agent Floyd Lynch, general chairman. It is the weather. Given a period of fair skies over the week-end, prospects are that the show will attract one of the largest entry lists in recent years, he said. Since this period of mist and rain occurred during the early part of the week, it is hoped that the latter part of the week will be fair and the prospects realized. The show will be held at the Eastland County Machinery barns on D avenue which have been made available through the courtesy of County Comm'r Arch Birt. The show will open at 10 o'clock. In addition to the stock exhibited, there will be a display of household arts by the women of the Eastland County Home Demonstration clubs. These clubs will serve refreshments at a concession allowed them by the show association. The Cisco chamber of commerce, which is sponsoring the show, appealed to Cisco business men to visit the show Saturday and to assist with their presence and goodwill in making it a success.

F. Urban Walked Off With Bowling Honors Last Night

The Man's Store took two of the three games with U. S. Post-office at the bowling alley last night and Paul's Chiros goose-necked West Texas Utilities. Scoring was very ordinary except in the case of F. Urban of the Chiros, who chalked up the nifty total of 447 for the three games. Tonight's schedule: Collins Hardware vs. Cisco Gas; White Tire Shop vs. Cisco Lumber.

Dairy Subsidies For 3 Months Be Paid at One Time

The A. A. A. has been instructed that production for January, February and March will be paid at one payment. Payments on these three months production will begin the first of April and the closing date for receiving applications for this period will be May 31, 1945. At this time the A. A. A. is still making payments for the production during the months of November and December, 1945. However, the closing date for accepting this application will be February 28, 1945. If you have not already filed your application for your November and December subsidy payment, please attend to this before the 28th, which is the final date for the Eastland county office.

LT. THOMAS KILLED ON FEBRUARY 6

First Lt. Kessler O. Thomas of Cisco, pilot of a bombing plane, was killed in action on February 6, word from the war department revealed today. The young man was born in Thurber, Nov. 10, 1917, but moved to Cisco with his parents about 20 years ago. The sad news was received here this morning by his wife, who has been making her home with his parents, Mr. and Mrs. Oliver Thomas, in Humboldt. Lieutenant Thomas was a graduate of Cisco high school, entered the service two years ago and left the states Sept. 13, 1944, for overseas service. He was married to Miss Aurelia Pittman of Scranton in 1940. Today's early mail brought the Daily Press a communication from an air force base in England telling of a new type gun sight Lieutenant Thomas was learning to operate, together with a photo of the Ciscoan while seated in what is known as the Link trainer, an indoor device for improving instrument flying.

Cornelius Warm in Praise of Polio Workers

Victor Cornelius, county chairman of the infantile paralysis campaign, says the drive just closed was a most successful one and that citizens are to be complimented for their generosity. The total amount raised, says Mr. Cornelius, was \$1,952.18 divided as follows between the towns of the county: Cisco, \$329.29; Eastland, 296.48; Ranger, 267.04; Rising Star, 138.50; Gorman, \$128; Scranton, \$9.10. The following workers and chairmen, as well as many others, are to be commended for their efforts in this worthy cause, said Mr. Cornelius. M. L. King, Ranger; E. T. Thomas, Cisco; Mrs. M. L. Stubblefield, Gorman; Mrs. Joyce, Rising Star; John D. Harvey and Mrs. Hollis Bennett, Eastland. The school children, too, were very generous in their contributions, the chairman stated, and the following amounts, were raised through the efforts of the theaters of Cisco, Eastland and Ranger: Palace, Cisco, \$258.50; Lyric, Eastland, \$229.50; Arcadia, Ranger, \$295.87.

BORDERS PROMOTED. VIII AIR FORCE SERVICE COMMAND STATION, England.—John E. Borders, Cisco, Texas, has been promoted to private first-class at this strategic air depot where he is on duty with the special services section. He arrived in England in December, 1943, and since that time has devoted his time to promoting entertainment for the armed forces in this theater. Son of Mr. and Mrs. John V. Borders, 1017 E. Jessemine, Fert Worth, Pfc. Borders was with the circulation department of the Star-Telegram before entering the service in April, 1943. His wife, Mrs. Pauline Borders and son John E., live at 1100 W. Sixth street, Cisco.

HOBBY HORSE—Youngsters convert tank which took part in liberation into playground equipment at Santo Tomas camp, Manila. Pic. Olen Ogies, (left) Monticello, Ark., and Cpl. Howard Blair, Duluth, Minn., keep watchful eye on laughing children playing hobby horse on gun.

WOOD CHOPPERS—Responding to government's need for more pulpwood, business and professional men of Virginia, Minn., spend Sundays chopping wood. Virginia Chamber of Commerce purchased the tract of stumpage and the young men do the work to aid home front war activity.

IN REVERENCE—The Rev. John S. Kennedy places ashes on forehead of 7-year-old Betty O'Hare at the Dominican Church of St. Catherine of Siena, inaugurating Holy Season of Lent. Foreheads of Genevieve Citarel (left) and Joan Koval bear holy mark.

CISCOAN PROMOTED. NINTH AIR FORCE FIGHTER-BOMBER BASE, France.—A former clerk in The Men's Store, Cisco, Tex., now a P-38 Lightning fighter-bomber pilot in the European theater, James C. Paschall, 23, was recently promoted to captain, the Ninth Air Force announces. Veteran of more than 60 aerial missions over Europe, Captain Paschall is the son of Mrs. Crigler Paschall of Cisco and graduated from John Tarleton Agricultural college, Stephenville, Texas.

Eastland Woman Named to State Board Education

AUSTIN, Feb. 20.—Gov. Coke Stevenson today sent to the senate a list of appointments, including Frank Jones of Marfa as a member of the state game, fish and oyster commission. Named to the state board of education were Mrs. Joseph Perkins of Eastland, C. C. Chesher of Groveton, and Herman C. Custard of Cleburne. Named to the state finance commission for six year terms were H. Amdots of Hempstead (banking section), J. H. Ashby of Uvalde (building and loan section), C. A. Gibner of Spearman (banking section). Mrs. Perkins and Chesher are new members of the Board of education, succeeding Ben G. O'Neal of Wichita Falls and Royal Watkins of Dallas. Custard was reappointed. Mrs. Perkins has been active in state women's club circles. She is a former president of the state federation of women's clubs. Chesher was a member of the board of representatives in the 48th legislature.

US. MARINES SPLIT IWO WIDE OPEN

NIMITZ HEADQUARTERS, GUAM, Feb. 20.—U. S. Marines, strong-arming their way forward, have cut Iwo in two with a drive to the west coast, a communique announced today, and Radio Tokyo said other forces seized a new beachhead in a landing farther north. Backed by newly-landed tanks and guns, the Marines slashed clear across the southern end of Iwo and seized 1000 yards of the west coast beach in the first nine hours of the invasion yesterday, Admiral Chester W. Nimitz reported in a communique. The advance sealed off the gun-bristling 546-foot-high Suribachi volcano at the southern tip of Iwo from the enemy's remaining strong points in the north. Resistance in the area described as "moderate." Marine units storming inland just north of the break-through area expanded their hold on the southern end of the island's largest airfield—within fighter-plane range of Tokyo—in some of the toughest fighting of the Pacific campaign. Heavy fighting also was under way at the northern end of the airfield, which lies parallel with the east coast.

Dairy Meeting and Chili Lunch Friday Evening

Under the auspices of the Cisco chamber of commerce a meeting of dairymen and dairy-farmers will be held at the chamber of commerce Friday evening, February 23, for the purpose of discussing the organization of a dairy herd testing association. G. G. Gibson, dairy specialist of the extension service of Texas A&M, will be the speaker. Tom J. Henry, Cisco vocational agriculture teacher is in charge. Chili will be served. This meeting is one of the first steps in the promotion of a program undertaken by the Cisco chamber of commerce to increase farm-dairy production in the county. Cisco business men were urged to attend the meeting, both as a means of acquainting themselves with the program and to encourage its promotion. The meeting will begin at 8 o'clock.

DOGS ARE DANGEROUS. FT. WORTH, Feb. 20.—Rabies treatment is being taken by five members of the W. J. Cornish family, 1403 Joplin, after their pet bulldog was found to have rabies last week, their physician reported. The dog scratched Mrs. Hazel Gray, a daughter of Mr. and Mrs. Cornish, and her 10-year-old daughter, Mrs. Dorothy Lewis, another daughter of the Cornishes, Miss Nina Ragan, a granddaughter, and bit Cornish last week.

ANOTHER GAS TAX. AUSTIN, Feb. 20.—A bill proposing to increase the state tax on gasoline from 4 to 5 cents was introduced in the House Tuesday by Rep. M. L. Ramsey of Breckville. The proceeds of the increase would be applied on construction of lateral and farm-to-market roads.

GEN. KONEV RESUMES MARCH TOWARD BERLIN AND DRESDEN ALL ALONG A 65-MILE FRONT

LONDON, Feb. 20.—Russian troops have punched several deep breaches in German lines on a 65-mile front stretching within 50 to 60 miles of Berlin and Dresden, the German high command declared today. It indicated Marshal Ivan Konev had resumed his push toward these two cities after withdrawing German counter-attacks which Berlin only last night said had swept back into four towns. The German communique declared Konev breached German lines in the areas of Guben, 51 miles southeast of Berlin, at Sorau, 28 miles farther southeast, and at Lauban, 61 miles east of Dresden. Fighting of "the bitterest type" is raging in this sector between the Bober and Nesse rivers, a Transocean broadcast said. Transocean made no mention of Nazi counter-attacks which the Germans last night said had rewon Guben, and Somerfeld, Sorau, and Sagan, on a 35-mile line to the southeast of Guben. Moscow never has claimed fall of Guben, but announced capture of the other three last week. Moscow dispatches said the Red Army despite Nazi counter-attacks was clinging to its positions in front of the Oder-Spree line southeast of Berlin, "while carrying out what may be some of the most important consolidations of this phase of the war." Field dispatches to Moscow said Konev and Marshal Gregory Zhukov were warding off Nazi blows "in strategic moves which promise shortly to pay dividends when the drive on the capital is resumed." A Russian push farther north had carried within 47 miles of Danzig, capturing the Polish corridor town of Nowe (Neuenburg). The German command said a new Russian offensive had opened north of Ratibor, on the upper Oder 85 miles southeast of Breslau, "after German defensive successes of the past two days." As for Breslau, Transocean said all Soviet blows in an "all-out" attempt to take the Silesian capital had been beaten off. Battles are fluctuating in the Pyritz area 12 miles southeast of Stettin where Zhukov is fighting toward the Baltic, the German communique said, while in East Prussia other Russians are attacking violently on the Samland peninsula west of Koenigsberg despite a bombardment by the German Baltic fleet.

STEADY ADVANCE. PARIS, Feb. 20.—Canadian First Army troops blasted all but a stubborn handful of Nazis from the West Wall anchor of Goch today and pushed on beyond the town at the center of a 15-mile offensive front closing slowly on the German Ruhr. To the south, the American Third Army wedged a mile or more into the German Eifel Mountain defenses at a half-dozen points on a 50-mile front and pushed a new invasion spearhead across the Moselle river into Germany behind a drum-fire of artillery barrage.

CAMP ASFTC TO CLOSE. ABILENE, Feb. 20.—The War department has directed the closing of the Army Service Forces Training Center at Camp Barkeley to be effective before April 1, Brig. Gen. Roy C. Heflebower, commanding general of the center, announced yesterday. The order to close the unit calls for the in-activation of part of the training center, the general said, with several of the training battalions to be transferred to Camp Crowder, Mo.

Ayer is Back on U. S. Soil After 64 Air Missions

MIAMI BEACH, Fla., Feb. 20.—Capt. Samuel J. Ayer, 24, of Abilene, Tex., has arrived at army air forces redistribution station No. 2, here, for reassignment processing after completing a tour of duty outside continental United States. Medical examinations and classification interviews at this post will determine his new assignment. He will remain at the redistribution station about two weeks. Captain Ayer flew 64 missions as pilot of a B-26 Marauder medium bomber in the European theater of operations, for which he was awarded the Distinguished Flying Cross and the Air Medal. His wife, Johnnie, lives at 604 East Eleventh street, Cisco, Tex.

FRED M. LANGE, of Dallas, has been elected vice-president and managing director of the Southwestern Medical Foundation located in Dallas, according to announcement made today by Dr. E. H. Cary, president of the foundation. Dr. Cary stated that Lange will be in charge of the business and expansion program of the foundation.

EAST AND WEST.

Party politics are discarded at Washington, at least for a little while, as president and congress plunge into the great, vital region of international affairs. With two great wars to be won and liquidated, it is generally recognized that the issues transcend mere party loyalty and enter the region of world statesmanship, where both Congress and national opinion have a big and honorable part to play.

It was a wise decision of Mr. Roosevelt to select two such prominent and able Republicans as Senator Arthur H. Vandenberg of Michigan and Commander Harold Stassen of Minnesota to participate in the forthcoming peace organization. Thus President Wilson's tragic failure a generation ago to recognize the power and dignity of congress, and particularly of the United States senate, is avoided. It was also a happy thought to stage the forthcoming conference of the United Nations at San Francisco, thus treating the Far West with the consideration it deserves especially in this war.

HEROIC ENDURANCE.

No American can find much to rejoice over in any phase of the Japanese occupation of the Philippines, except in the triumphs of the human spirit over great obstacles. The courage, endurance and faith of the Americans in Manila and other regions held by the Japanese, during those dreadful years, are never to be forgotten. Men, women and children showed their mettle and lived and died like the heroes they were.

All this time many of us here at home were fussing and complaining about little deprivations and troubles which, in comparison, were so trivial that they bring now a flush of shame at the recol-

lection of the griping done about them.

Grandma, giving a bond as a wedding present, tells the bride that no matter how much she thinks she wants something today, she will want something else more ten years from today. Took her a lifetime to learn it, she says, but now she knows.

ADMIRAL IN SENATE.

An admiral in the Senate is something new. Admiral Thomas C. Hart, who commanded the Asiatic fleet from July, 1939, to June, 1942, is the new senator from Connecticut, having been named by Gov. Baldwin to replace the late Senator Maloney.

The appointment arises out of the balance of parties in Connecticut. Senator Maloney was a Democrat. Gov. Baldwin is a Republican. Authority to appoint a senator depended on the action of the legislature, the upper house of which is Democratic, the lower house Republican. Without this action an expensive special election would have been necessary, delayed for at least five months to give time for the return of the service men's ballots. The Democratic State Senate was not eager to grant this authority if the appointee was to be an ordinary party hack. Admiral Hart is the governor's answer, announced ahead of the legislature's action, and now confirmed.

When Senator Hart speaks on naval matters, the whole country will listen. It would not do so, had the appointee been a second-class lawyer or politician.

IMPRACTICAL CARS.

Has the automobile improved in 30 years? John W. Love, industrial commentator, doubts it. The cars of 1910 often had wheels

three to four feet high, carrying the vehicle through any quantity of snow. These wheels were spoked, permitting chains to be installed in four minutes and removed in two. Later, putting on chains became a major operation.

Batteries, too, have greater responsibilities now than in 1910. Then if the battery went dead, the owner could climb out, crank his car and go right on. A lot of cars today have neither crank nor crank hole.

The lack of visibility from today's cars is another familiar story. When automobile makers resume business after the war, they might reconsider some of these facts of life.

(Files of Cisco Daily News)

The American Legion ballot box is now located at the Daily News office and citizens and former soldiers are casting ballots for a delegate to the national convention of the Legion, which meets in Omaha next month. Thirty votes had been deposited in the box at 2 o'clock this afternoon, but there is no indication that either of the ten nominees has any considerable lead over the others at this time. It is hoped the total vote will reach 250 before the closing of the polls, at 6 o'clock in the afternoon, September 30. Those who have already voted include: Alex Spears, Bud Gibson, P. W. Campbell, J. M. Williamson, A. B. O'Flaherty, Omar Pass, Abe Brennan, C. H. Statham, Eugene Ford, Haywood Cabaness, Sam Malberg, W. R. Cabaness, J. E. Stuart, H. P. Shafer, R. C. Hilgenberg, Crigler Paschall, H. A. Bible, F. D. Wright, J. T. Elliott, G. B. Adams, Jr., George Ruppert, J. T. Maddux, B. V. Frost, R. M. Herron, J. R. Mason, Carl Wilson, Dr. K. J. Scott, Leonard Simon and H. L. Bailey.

A real estate transaction of far-reaching importance has been under way in Cisco for several days. This is the offer of A. A. Hutton to purchase the Masonic building at the corner of Main and Broadway, which has been outgrown by that fast multiplying order. It is understood that the small sum of \$500 was the cause of the rejection of Mr. Hutton's offer, but the Masonic committee having the matter in hand has made a counter proposition that may be accepted. Its acceptance, however, is understood to be contingent upon whether the Woolworth company still desires to come to Cisco, and the Daily News is informed that Mr. Hutton will either accept or reject the offer of the Masons as soon as he hears from the Woolworth people. Should the Masons sell this building a

QUEER SOUNDS OF WORDS.

By FLORENCE BOWER.

"The sanitary officers are not getting as hearty cooperation as we desire in keeping down the mosquito and fly nuisance," said Judge L. H. McCrea, sanitary commissioner of Cisco this morning.

"Some have not yet supplied themselves with garbage cans of regulation design, and others allow rain water to remain in the cans after the rains. In most cases where we have found mosquitos we have ascertained that they breed in these cans and small pools about the premises where water is allowed to stand. We shall be compelled to file charges against those who are violating the sanitary ordinances unless there is better compliance with instructions," Judge McCrea said.

"Another matter I wish to call to the attention of the women of Cisco is the custom some have their hair. In the first place this is not necessary, as the city water is as soft as rain water, and when rain water is allowed to stand in open vessels three days, wiggle tails are hatched, and soon there is a brood of mosquitos. With complete cooperation we would have no mosquitos at all. True there are only a few, but there should be none in the city."

All English-speaking people seem to have a tendency to sound letters supposed to be silent, and to omit others that should be heard. The London Cockney has the well-known way of mixing up his h's: "Arriet lives in Haberdeeen." Americans haven't that particular habit, but here are some points to watch:

1. There is a tendency to say ATH-E-LETIC instead of ATH-LETIC, adding a syllable not there, and to omit a needed one, saying MATHMATICS for MATH-E-MATICS.

2. OFTEN and SOFTEN should sound like OFFEN and SOFFEN. Skip the T.

3. SALMON, CALM and YOLK have no sound of L when said correctly.

4. WHILE, WHEN, WHERE and WHY are often heard wrongly as WILE, WEN, WARE and WY. Thinking of them as beginning with HW instead of WH makes it easy to get them right.

A Letter of Appreciation to the many friends of Wrigley's Spearmint, Doublemint and "Juicy Fruit" Chewing Gum

WRIGLEY'S CHEWING GUM MANUFACTURERS

We want to thank all the people here at home for the fine spirit of understanding shown us since we told you that, for as long as possible, all the very best gum we could make would go only to our Armed Forces and Merchant Sailors overseas and at sea.

With this in mind, and so that there can be no misunderstanding, we want you to know that we have now used up all our pre-war ingredients and that we have stopped making the well known trade-marked brands of Wrigley's Spearmint, Doublemint and "Juicy Fruit" even for the Armed Forces overseas.

There will be no more chewing gum of these three famous brands and flavors for anyone—until we can again make gum worthy of these three trade-marked labels, which have always been your guarantee of uniform, finest quality and flavor.

Until we can bring back Wrigley standard brands we are making a plain but honest wartime chewing gum to help take care of both military and civilian needs. We are offering this gum to the public only on its own merit, and for that reason it is not associated with any Wrigley standard brand but has its own brand name and flavors.

The roadways of the world are worn deep with Studebaker wheel marks

ON the war fronts from France to Russia, and from Italy to India and the Pacific islands, over 165,000 military vehicles built by Studebaker have been writing new pages of transport history.

Scores upon scores of thousands of heavy-duty Studebaker military trucks have recently been supplemented by steadily increasing quantities of Weasel personnel and cargo carriers, designed by Studebaker engineers and powered by the famous Studebaker Champion engine.

Studebaker is now one of the largest truck manufacturers in the world—and over 55,000 Wright Cyclone engines for the Boeing Flying Fortress have also been built by Studebaker.

In addition to all this war production activity, Studebaker cars and trucks in civilian service continue to impress the world with their remarkable stamina and exceptional operating economy.

War-time builder of Wright Cyclone engines for the Boeing Flying Fortress—heavy-duty, multiple-drive Studebaker military trucks—Weasel personnel and cargo carriers.

"MOTHER!"

We need those Boxes and Cartons ...

Your boy in khaki would personally urge you to get your waste paper into the war. He knows how important paper is in warfare today—it makes or wraps 700,000 different articles for his use.

Blood plasma containers, bomb rings, plane parts, cartridge boxes—our fighting men must have those things. And they're made of paper!

Save your cardboard boxes, cereal cartons, brown wrapping paper—save all the waste paper in your household ... help relieve the national shortage.

Don't take waste paper for granted—don't burn it—don't discard it—fighting men need it. Your own son may depend on it. Get your waste paper in—now!

WHAT IS AN ABSTRACT ?

Now that many people are selling their farms and town properties at good prices they should be interested in land titles for the title very definitely enters into the value of all real estate. The abstract is the title dressed up in Sunday clothes ready for any suitable occasion. If interested, follow future ads in this newspaper where the abstract will be discussed and the important part it plays in real estate transactions.

BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 2 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or acute passages with smarting and burning sometimes shows there's something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

SUPPOSE THAT YOU COULD FLICK A SWITCH

AND GET A SIZZLING STEAK!

Be wonderful, wouldn't it? Sizzle . . . sniff . . . m-m-m . . . a-a-ah!

"But," you say, "steaks are scarce and expensive. Steaks are rationed. Steaks have gone to war."

That's right — and there are good reasons why.

But is it any less wonderful that you CAN still get electric service at the flick of a switch — without shortage or rationing — at low pre-war prices — when vast amounts of electricity have gone to war plants?

Our folks have done their war job so quietly and well that it's easy to take 'em for granted. We hope you won't—that you'll remember their hard work as you use radio, range, refrigerator, washer, cleaner and the other electric servants that make wartime living so much easier.

What you can take for granted is the fact that your friends in this company will provide plenty of low-priced electricity to run the mechanical marvels in your post-war home.
