## American Legion Held Social and Business Session

Some 25 or 30 members of John William Butts Post, American Legion, assembled in Laguna Hotel roof garden Monday night for a business and social session. Attendance was not as large as expected, but it was a thoroughly pleasant affair and a repeat meeting of the same nature will be held some time in March, it is said. Coffee and doughnuts were served.

THE LAND OF THE FREE—American soldiers repatriated from Germany wave joyfully as they get first glimpse of New York skyline. The men, all with crutches, are aboard Swedish exchange liner Gripsholm headed for Jersey City pier. Of the 1,206 repatriates, 463 are exchanged American prisoners, 632 are civilians, 42 are merchant seamen and 78 are Canadians. (U. S. Navy Photo.)

TAG-A-LONGS—Drake and pooch follow master on shopping tour down High Street in London. Bird was originally intended for Christmas dinner but family lost appetite when he became close pal of terrier. Animals are inseparable and frequently take long strolls together.

WIDE-EYED—Looking as though they don't believe their eyes, Mr. and Mrs. Francisco Reyes and baby Eve are first civilians to land from Swedish liner Gripsholm. Reyes was in Sweden studying paper pulp industry when war broke out and he was unable to get transportation home. While there he met and married the former Gerd Solveig. The family is en route to Reyes' home.

## Allies Prepared For Fall of Germany. ---Churchill

LONDON, Feb. 27.—Prime Minister Churchill declared today the great powers were completely prepared for the collapse of Germany, asserted the proposed Polish frontier would "not sow the seeds of future wars," and gave his personal assurance of Russia's good faith in plans for the peace. Poland's sovereignty will be maintained, he said.

## NAZIS SAY RUSSIANS BROKE THROUGH IN POMERANIA IN A BID TO CUT DANZIG OFF

LONDON, Feb. 27.—The Red army, breaking through for 30 miles in Pomerania in a bid to slice Danzig and Gdynia from the Reich, has thrust to Bublitz and Rummelsburg, 28 and 36 miles from the Baltic, the German high command said today.

## Filipinos Take Over in Manila At Big Rally

MANILA, Feb. 27.—Gen. Douglas MacArthur solemnly proclaimed Manila today the capital of restored civil government in the Philippines even as rifle fire against the last Japanese diehards echoed over the war-ravaged city.

While he spoke in a jubilant ceremony at shell-scarred Malacanang palace, his soldiers in a new island invasion 70 miles south of Manila pried open the shortest sea route through which to rush supplies from the United States and revive the stricken city.

Thanks of the show committee were extended to County Commissioner Arch Bint for the use of the grounds. The committee declared that the accommodations were the best that have ever been afforded such a show in the county, while the quality of the animals was said by the judges to be tops. Between 2,000 and 3,000 people visited the exhibits during the day.

Excellent cooperation made possible the success of the exhibits and the show committee and Cisco chamber of commerce extended thanks to all who in any way assisted in the organization and management of the show. The many exhibitors who brought animals were also thanked.

However, it is the opinion of the committee, as well as a number of citizens not affiliated with the Legion, that a structure should be erected immediately adjacent to the business district that would be a credit to both the city and the Legion — one large enough to entertain district conventions of the organization.

The thought has also been expressed by non-members that a Legion home, built of Cisco stone and costing not less than \$20,000 could be financed without much trouble through concerted effort on the part of citizens and Legionnaires.

The building committee is composed of H. H. Tompkins, Forrest D. Wright and Leon McPherson, third, B. O. Koonce.

## Modern Literature is Vile, Rotten, Baptists Are Told

DALLAS, Feb. 27. — Modern literature is "vile and rotten," Dr. T. C. Gardner, state director of the Baptist training unions, told more than 300 persons who met at the First Baptist church to initiate the centennial celebration of training unions in Dallas county.

"We must reconstruct the ideas of today's youths, but not with today's literature which is the vilest, rottenest stuff printed. We must encourage boys and girls to read the Bible every day," Dr. Gardner stated.

"It is discouraging to walk down a city street at about 9 o'clock at night and find the churches closed and black while brightly lit honkey-tonks are going full blast," he said.

Dr. Gardner stated that he hoped the centennial celebration of the training unions would cause religious leaders to bring about several changes in Baptist churches which would help pave the people's way back to God. His suggestions included:

- 1. Keep the churches open seven nights a week.
- 2. Establish well-planned programs each night that will interest the young people of the community.
- 3. During the coming centennial celebration and religious educational campaign we hope to convert 1,000,000 new Baptists in the South," Dr. Gardner said. He added that the quota for Texas is 200,000.

He promised drastic and effective steps "to render offensive action by Germany utterly impossible for generations to come," and called on Germany again to surrender.

Churchill said the United States would play "a vitally important part" in a new, far-reaching World Security league "which will not shrink from establishing its will against the evil-doer" by force of arms.

"The impression I brought back from Crimea and from all my other contacts is that Marshal Stalin and the Soviet leaders wish to live in honorable friendship and equality with the western democracies. I feel also that their word is their bond. I know of no government which stands on its obligations more solidly than the Russian Soviet government."

He declared the objective of the great powers was "to save the world—not to rule it," and that "the world organization cannot be based upon the dictatorship of the great powers."

## Heads Elected By 2 Historic Texas Groups at Austin

AUSTIN, Feb. 27.—The annual conventions of two state-wide societies, the Sons of the Republic of Texas and the Texas Society, of Sons of the American Revolution, were held here this week end.

A joint banquet climaxed the meetings. The banquet, sponsored by the Texas State Historical Association, heard Pat M. Neff, president of Baylor University, deliver the principal address.

New officers were elected by both organizations. Besides the election of officers, five members of the Sons of the Republic were elected to knights of the order of San Jacinto at the closing of Saturday's session. Elected were Admiral Chester Nimitz, Harry Pennington, San Antonio, retiring president; John M. Spellman, Dallas, past president; C. E. Gilbert, Jr., Houston, past president, and W. F. Tarver, Houston, past president.

Officers elected by Sons of the American Revolution were R. W. Thompson, Dallas, president; Charles E. Gilbert, Jr., of Houston, Harry Pennington of San Antonio and Lt. Col. Cornelius B. Savage, Fort Worth, vice presidents; Ben B. Hunt, Austin, secretary-treasurer and registrar; Dr. Valin R. Woodward, Arlington, genealogist and historian; and Rev. C. M. Myers, Fulshear, chaplain.

Officers elected by Sons of the Republic of Texas were James Shaw, Austin, president; O. H. Carlisle and C. M. Redfield of Houston, and T. J. Holbrook, Austin, vice-presidents; S. C. McVea, Houston, historian; Rev. C. M. Myers, Fulshear, chaplain, and Ben B. Hunt, Austin, secretary and treasurer.

General MacArthur, surrounded by men who fought with him in adversity at Bataan and Corregidor, told wildly cheering Filipinos he was lifting military rule from liberated areas of their commonwealth in favor of the constituted government of President Sergio Osmena.

"Your country once again is at liberty to pursue its destiny to an honored position in the family of free nations," he said.

"Your capital city, severely punished though it be, has regained its rightful place as a symbol of democracy."

Manila was occupied unopposed by the Japanese Jan. 2, 1942.

## American Tanks Pound Outlying Cologne Defense

PARIS, Feb. 27.—First army tanks burst into the outlying defenses of Cologne today as heavy artillery shelled the great cathedral city while just to the north, the Ninth army advanced nearly four miles to within five of the factory-packed Ruhr basin.

Canadians to the north advanced five miles, capturing the strategic road center of Uedem, and reached outer defenses of the Hochwald defense line guarding the northwest corner of the Ruhr, less than 15 miles away.

Lt. Gen. George S. Patton's mighty Third army captured high ground overlooking the Kyll river, moved to within a mile of strategic Bitburg and swept up nine towns in the Eifel along a 30-mile front which was pressed two miles deeper toward the middle Rhine and Coblenz.

Communication lines were down in many directions, electric service was interrupted in practically all sections of the city, approximately 100 telephone lines were down inside the city. Trees and utility wires were sheathed in ice. The weight of the ice broke lighter lines, and many were snapped by falling ice-burdened tree branches.

The Southwestern Bell Telephone company here reported nine Texas towns completely isolated from telephone communication.

They were Denison, Gainesville, Denton, Whitesboro, Farmersville, Whitewright, Nocona, Leonard and Muenster.

## Ice Storm Hit Ft. Worth Area Hard Blow Today

FORT WORTH, Feb. 27.—Fort Worth was in the grip of its worst ice storm in several winters today and much of the northern half of the state fought ice, snow, sleet and freezing rain.

Communication lines were down in many directions, electric service was interrupted in practically all sections of the city, approximately 100 telephone lines were down inside the city.

They were Denison, Gainesville, Denton, Whitesboro, Farmersville, Whitewright, Nocona, Leonard and Muenster.

Parks, lives on route four, near Scranton.

## Verde Island Taken

MANILA, Feb. 27.—American forces secured control today of the western end of the central Philippines water route with the virtually complete occupation of Verde Island off the southern tip of Luzon.

## FOREIGN-BORN THOUGHT.

Probably the only way to prevent another world war is for nations like America, England and Russia — who have all to lose and nothing to gain by war — to keep a wholesome force of well-equipped men ready to go anywhere on earth and extinguish incipient threats against peace before such threats develop into wildfires.

If well paid — and certainly army volunteers should be — this country in time of peace could easily build up and constantly replenish through the years an army of volunteers eight times the size of any peace-time army America has ever had.

Such a force, backed by similar allied armies, would be almost positive guarantee against future wars — IF UNITED ACTION FOLLOWED SWIFT UPON THE HEELS OF SECRET SERVICE WARNINGS.

An alternative to the volunteer system — which has always been the American way — is to invoke the draft in times of peace and thereby compel ALL young men of 18 to serve a year in the army, like the Germans.

As "bait" to build up sufficient backing to influence congress to put its okeh on "peace-time draft," some supporters of the movement are holding out attractive promises of "special educational advantages" for the draftees while serving their year.

And some of our surface-thinking educators have aligned themselves with this angle of the peace-time draft scheme.

What drafting of all 18-year-olds, year in and year out, would cost American taxpayers in money could only be estimated by first determining how many boys reach that age each year. However, the cost would undoubtedly be stupendous, with the huge amount practically a complete loss unless the trainee was called to war duty within five years or less.

What peace-time drafting would cost the average American youth who wants to finish school, enter business for himself, learn a trade or profession and get married, is also an important phase of the political suggestion — one that would be bound to have a far-reaching influence on the young men of this free land.

Parents of boys of tender age should give this foreign-born proposal their most serious thought and then tell their congressmen and the public press what they think about it, briefly but clearly. Indications are that there is little time to lose if they desire to be heard.

## NEW FRIENDS.

Greetings to our new Allies!

President Roosevelt has rounded up a mighty interesting bunch on this last trip for recruits in the Near East. He seems to have hauled in some old oriental friends that we haven't heard of for years, and indeed some that we had never heard of at all.

It peps us up to realize that we can now count on the help of big shots like Emperor Haile Selassie of Ethiopia, King Ibn of Saudi Arabia, King Farouk of Egypt, and our old pal Al Sayed Shukri al Kuwaty who operates the Syrian Republic. We may be a little off on our pronunciation of the monikers of these gentlemen, but anybody can see by the spelling that there's class to them. And since it's customary for Americans to pay the bill when they get into foreign company, we're ready to come across with our share of the money and food they want. But we naturally wish that, in partial recompense, we could have a good look at them. We always did want to get acquainted with Egyptian potentates especially. Gosh, think of meeting a ruler whose people were bossing his country 4,000 years ago, and are still doing business at the old stand.

## Porcupines.

By STUART RUSSELL.

The porcupine is a self-satisfied beast. He roams the woods, fat and slow, taking no heed of man or animal. His coat is the original barbed wire fence. His quills, sharply pointed and barbed, come away with the slightest touch, piercing the skin of the unwary. The barbs help them work even deeper into Porkey's enemy. Porkey is not clean, and they are apt to be infected. Anyone who has spent hours taking quills from a dog's nose with pliers or towel in one hand, holding down the suffering dog with the other, knows why dogs hate porcupines. He does, too, but Indians don't. They use the quills for decorative purposes.

Porcupines are protected in most states and Canada, because they are both edible and slow-moving. A starving man can kill one with a club. The meat is nourishing, somewhat like pork—but those forced to eat it usually lack enthusiasm.

It exasperates the woods-dweller to be awakened by a dull grinding, with occasional booms. Porkey, on hind legs on the out-

door washbench, is gnawing the hanging washboard, tasting deliciously of salt and soap. He can be routed by flash-light and well-chosen words, but, like MacArthur, he will return. On the other hand, charming is Mama Porkey with three or four wee pincushions wadding in solemn single file behind her. On the whole, Porkey's amusement value justifies him.

## MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 50 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

**MULLER-KISSINGER WEDDING AT AUSTIN.**  
In a lovely setting at University Methodist church, Austin, Sunday morning, February 25, Miss Betty Lou Muller, daughter of Mr. and Mrs. E. H. Muller of Cisco, became the bride of Joe H. Kissinger, son of G. H. Kissinger of San Antonio.  
Rev Edmund Heinsohn, church pastor, performed the double ring ceremony before an altar, decorated with yellow jonquils and greenery. Pre-nuptial music, "Because" and "I Love You Truly" was played by Eldon Sutton, who changed to the stirring strains of Lohengrin's as the bridal party entered. The bride was given in marriage by her father; she wore a taupe grey dress with black accessories and corsage of white gardenias. Her bridal hat was of fuschia color feathers with veil to match. For something borrowed she carried a friend's white Bible. Miss Muller's only attendant was her cousin, Miss Annetta Loy Parish of Abilene who was maid of honor. Miss Parish was dressed in an ice blue wool frock with matching feather hat and veil. Her crescent shape corsage was of miniature pink carnations. Sgt. Billy C. Alexander of Waco army airfield, lifelong friend of the bride-groom, was best man.

Following the ceremony a breakfast for the wedding party was held at Hotel Austin. Out-of-town guests attending were Mr. and Mrs. E. H. Muller, Cisco; Mr. and Mrs. G. H. Kissinger, San Antonio; Mr. and Mrs. C. H. Parish, Abilene; Mrs. Martin Parish of Cisco.  
Mrs. Kissinger was reared in Cisco, and is a graduate of Cisco high school and John Tarleton College. She obtained her degree from Texas University in October, 1944. She was a member of Alpha Omicron Pi sorority. Mr. Kissinger is a student of Texas University and is a member of Sigma Phi Epsilon fraternity.
