## Economic Alliance Between Russia and U.S. Be a Blessing

There has been and is a lingering fear of Russia in the rest of the world, but it is not very well understood that there is also a lingering fear of the rest of the world in Russia, Samuel D. Rosen, and lecturer in the series presented by Cisco Rotary club in its institute of International Understanding, told the largest crowd in the series at high school auditorium last night. Mr. Rosen was introduced by Rev. O. L. Savage.

## Cisco Rotary Is Lauded for Attendance Record

Rotarian Bill Fewell gave club members a double-header program Thursday when he introduced Sidney Parks, Abilene youth of magic and trickster skill, in a very mystifying short program, and Rotary's Institute number for this week, Samuel D. Rosen, native-born Russian, who proved to be big in intellect as well as physique.

Both Secretary Pete Nance and President J. W. Slaughter read letters from the international office quoting from the report of District Governor Harris Cook which lauded the Cisco club and official staff. An outstanding item was that the Cisco club had been in the upper-ten attendance rank five times recently.

The entertainment of young Mr. Parks was pronounced unusually good and a hearty invitation to pass this way again was given.

The talk of Mr. Rosen was listened to with rapt attention, especially after he had subtly caught his audience with his jovial humor and launched into his stories which probed the depths of human sympathies and made those present ask themselves just how long will man persist in dealing death and misery to his fellow creatures, and just how can we curb men who would bring such disaster to the human race.

Other visitors were Raymond McDaniel, Eastland; Geo. Fewell, J. B. Pratt, Charles Clark and Monroe Sweeney, Cisco; Rufus Parks, Abilene; Rusty Russell, coach at S. M. U., Dallas.

## Keep Control of State Insurance In Texas Hands

AUSTIN, March 16.—Bills designed to keep control of the insurance business in state hands rather than the federal government, and submission of a constitutional amendment to the people to vote whether the Constitution shall be rewritten are among numerous bills recommended favorably by the senate committee.

That the state is determined to retain control of the insurance companies was shown in the action of the committee on insurance approving two senate measures regulating casualty and fire insurance and appointing a subcommittee to work with insurance men in redrafting two house bills which affect life insurance.

This action is necessary since the United States Supreme Court has ruled that insurance is interstate commerce. Congress then voted a moratorium until 1948 which will allow states to rectify their laws to make it possible to retain the grasp of the states upon insurance for purposes of taxation and regulation.

The joint resolution calling for a vote of the people on a constitutional amendment provides that if the people vote for it that a convention will be held in Austin in 1947 to rewrite the state Constitution.

A measure allowing employers to write their own insurance on employees under the workmen's compensation law, was approved by the state affairs group.

CONGRATULATIONS—President Roosevelt smiles broadly as he shakes hands with Admiral William Halsey, Jr., following presentation of Gold Star in lieu of Third Distinguished Service Medal to the naval officer. Following months of directing death blows on the Japanese, Commander of the U. S. Third Fleet is in America for brief rest.

CATNAPPING—Pausing in rapid advance to Rhine, soldiers of the U. S. 9th Army's 2nd Armored Corps, stretch out to catch 40 winks of much needed rest. Yanks are lining sidewalk in front of building in Juechen. Residents of town were cordial to invading Americans.

COMPENSATION—Daughter of discharged serviceman, 5-year-old Ruth Marie Swanson hugs dolly after being awarded \$50,000 in Chicago court. She lost a leg when locomotive ran over her while switching cars near her home.

## Young Drivers' License Bill Is Up to Governor

AUSTIN, March 16.—A bill allowing drivers license to youngsters between 14 and 16 years, who pass prescribed safety courses in school, was passed finally in the house and now goes to Gov. Coke Stevenson.

The bill, as passed, still authorizes county judges to permit per-

sons between 14 and 16 to take examinations even without passing the school courses.

Also passed finally in the house was a bill by Weaver Moore, Houston, authorizing district judges to try court cases. Dallas members said it does not increase the authority already held by judges in this respect.

HOUSTON.—Todd-Houston Corporation launched its 208th Liberty vessel Thursday. It took 254 days to build the first vessel, while the last was built in less than 40 days.

## Machinegun Fire Sweeps the Great Six-Lane Highway

NEW YORK, March 16.—American troops in the Rhine bridgehead cut the great Ruhr-Frankfurt super-highway with machinegun fire today from positions 200 yards away, while to the south the smashing offensives of the U. S. Seventh and Third armies threatened to rip away the Saarland and the Palatinate, 1st German holdings of importance west of the Rhine.

Aerial reconnaissance indicated the Germans had begun a flight from the Reich Palatinate and the industrial Saar toward Frankfurt, as the Third and Seventh clamped a steel vise on the valley. Six divisions have been hurled into the Seventh army offensive, which fought to within a half mile of Saarbrücken and outflanked Bitche, burning Maginot line fortress town. The Third, meanwhile, swung down behind Saar river fortifications from the middle Moselle, and French forces with the Seventh attacked the last German picket in northeast Alsace before Karlsruhe.

Americans across the Rhine now are 6-12 miles from the river at their deepest penetration of inner Germany.

In the Remagen bridgehead the Germans reported "the biggest single concentration of power on a narrow front ever seen in this war." The Nazis said four more divisions were hurled into the rising battle there. Previously they had reported more than 100,000 Americans in the bridgehead, including forces of the new U. S. 15th army.

## Senators Think Patton, Hodges Merit Promotion

WASHINGTON, March 16.—Members of the senate military committee talked today of calling Gen. George C. Marshall to explain promotions of nine officers to four-star rank.

Some, like Senators Bridges of New Hampshire, and Chandler of Kentucky, expressed disappointment that Lieutenant Generals George S. Patton, of the American Third army and Courtney H. Hodges, of the First weren't included in Monday's list.

"I think the military committee probably should ask the war department to explain the policy behind this series of promotions," Bridges told a reporter.

"I was disappointed in not seeing in the last General's Patton and Hodges because of the magnificent jobs both are doing in Europe."

While both Chandler and Bridges said there was merit in the army's position that the promotions were designed to give the nine men rank commensurate with their posts and comparable with those of Allied officers, Chandler said "an exception could have been made in the cases of Patton and Hodges."

These two, Bridges said he understood, were not recommended for promotion because they command only armies.

All agreed the committee will recommend quick senate confirmation. Senator Johnson of Colorado, said he is against "interfering with the operations on the war front where the war department has full responsibility."

## STEER BROUGHT \$3,000.

FT. WORTH, March 16.—Fort Worth club paid \$3,000 today for the grand champion steer of the Southwest Exposition and Fat Stock Show, "Colorado Challenger," which was donated to the Red Cross by its owner, Otto Fulscher of Holyoke, Colo.

## "AMERICAN INCENDIARIES AND BOMBS POURED LIKE RAIN ON PEOPLE'S HEADS," SAID TOKYO

SAN FRANCISCO, March 16.—Japanese evacuated from five of Nippon's largest cities to escape B-29 raids that have already killed thousands of city dwellers will be put to work producing food, the Domei news agency said today.

The enemy dispatch, intercepted by the Federal Communications commission, said only a "minimum number of essential persons" would remain in Tokyo, Osaka, Nagoya, Yokohama and Kobe. The five cities had a combined population in 1940 of 13,293,553.

Reports from Japan told of terror, wholesale death and mass flights from Tokyo, Osaka and Nagoya precipitated by Superfortress raids of the last seven days.

"Incendiaries and bombs poured like rain on the people's heads," Radio Tokyo said. Domei described damage as "considerable" and the Tokyo newspaper Asahi added that the number of deaths "could never be called small."

The Tokyo correspondent of the Soviet Tass agency said the capital was thrown into panic by last Saturday's 300 plane raid and people fled the city for six days by special train, trucks, rickshaws and on foot. He said hospitals were overcrowded and quoted Asahi as saying transport facilities were so jammed that "sufferers must wait two or four days more" before they could get out of town.

The fugitives will be employed on Japan's intensely cultivated farms in an effort "to establish a self-sufficiency structure."

Another Domei dispatch reported Nippon is suffering from such a serious salt shortage that "authorities concerned are demanding the government take drastic measures."

A broadcast said Emperor Hirohito had empowered Premier Koiso to sit in on meetings of the Japanese general staff because of the grave war situation.

The broadcast quoted an announcement by Koiso as saying: "I have been empowered by the august emperor to take part in the deliberations at imperial headquarters at this moment when the war situation is so grave that the fate of our country is in the balance."

Koiso added: "The government and imperial headquarters have now been fused into one body."

## Dash For Berlin Is Expected Soon Say Nazi Radios

LONDON, March 16.—Nazi radios said today that Red armies had opened violent new offensives on both wings of the Berlin front, in Silesia and before Stettin, to set the stage for the grand assault on the menaced capital.

Berlin broadcasts reported that Marshal Konev's First Ukrainian army attacked on a broad arc south and southwest of Breslau and that Marshal Zhukov's First White Russian army stormed the Nazi bridgehead across the lower Oder from Stettin.

Directly before Berlin, Soviet forces were reported pouring across the Oder into a growing bridgehead some 30 miles east of the capital for the final push forecast for some days by both Berlin and unofficial Moscow dispatches.

## FDR Sees More Belt Tightening in This Country

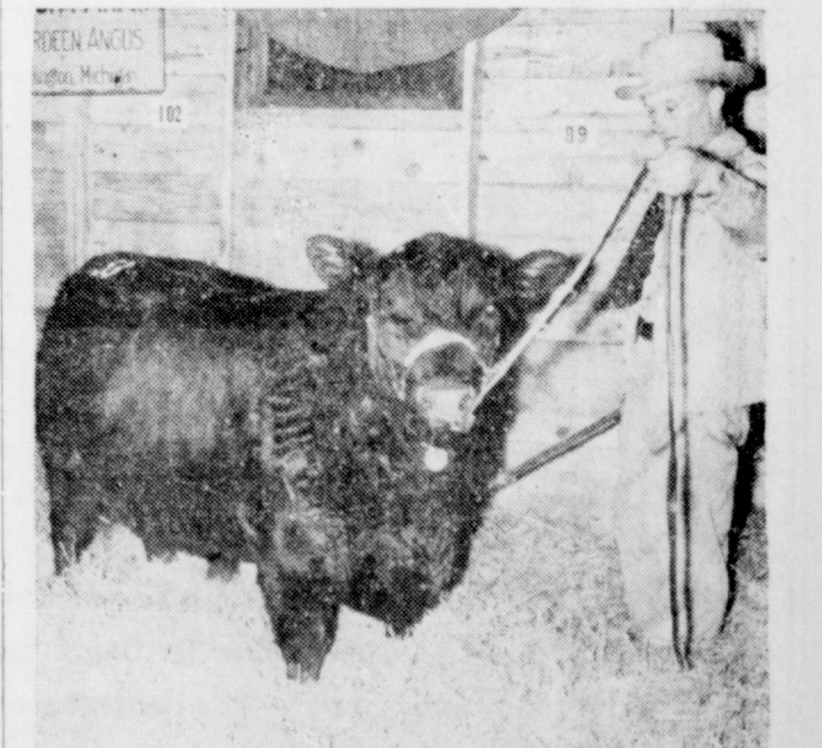

WASHINGTON, March 16.—President Roosevelt declared today that the American people have to tighten their belts before the war is won.

Replying at a news conference to some criticism of the handling of food matters, Mr. Roosevelt said he thought the country would back up the idea of tightening our belts since it would mean keeping certain other people alive.

Holland, he said, is a very bad case.

## IRISH SET RECORD.

SCHENECTADY, N. Y., March 16.—The Irish gave 441 pints of blood in 480 minutes to set a new record at an advance celebration, of St. Patrick's Day. The previous record was 403 pints donated by the Masons on Washington's Birthday.

GRAND CHAMP—Impressively named Raona's Burgess Eston, VII is exhibited by Ray Smith after yearling was judged grand champion bull at 3rd annual Aberdeen-Angus cattle show in Chicago. After winning award, owner Ralph Wadley sold bull for \$10,000 to Grand River Stock farm in Michigan.

NAZI GENERAL Edwin Graf von Rothkirch and Truch commanding German 53rd Corps, and whole staff were captured during drive to Rhine. He was taken by Maj. Gen. Hugh J. Gaffey's 4th Armored Division during 35-hour drive to Rhine. Rothkirch encircled Bastogne during German break-through in December. General Gaffey plunged in to break siege.

## RECONSTRUCTION MONEY.

Some people seem to have been indulging in needless worry about financing the reconstruction period after this war era. The Mortgage Bankers' Association of America has just been assured by L. E. Mahan of St. Louis, who is president of the association, that private enterprise in this field will need no federal subsidy, but can go ahead under its own steam. He finds that all kinds of mortgage lending companies, banks, and other investors, will be able and eager to carry the load.

He adds that there need be no worry about the interest rates. He doesn't believe that lower rates will be needed to stimulate building, and insists that the cost of carrying a four and one-half per cent mortgage, as compared with a three and one-half per cent interest rate, is so slight that it will hardly affect the real estate market at all.

This is a debatable question; but at least it is reasonably sure that there will be a big up-surge of building activity when peace returns. And Mr. Mahan forecasts that there will be at least ten and one-half billion dollars ready to go into mortgage investments when the war ends.

## KWAJALEIN DEVELOPMENT.

On Jan. 29, 1944, the first marines waded ashore on islets of Kwajalein Atoll in the Marshalls, and a week later had almost all of Kwajalein Island under control. But that is only the first part of the story. The second half is one of incredible building, which has turned the island into a

focal point on the routes from Pearl Harbor to the Marianas, Philippines and other points west. Capt. Walter G. Thompson, commanding officer of the Kwajalein naval base is proudest of the cooperation attained among the services. The Navy handles all mail and communications, the Army the food. Both the Naval Air Transport Service and the Army Transport Command use it, and both have built enormous hotels, capable of lodging hundreds of transients each. This is not wasteful duplication because not only are all the many cargo and passenger planes daily full on every trip, but so, often, are both hotels. The men of the army, navy and marines, themselves, have built a chapel at which all worship.

It's only one example of the

power and speed of the American war machine, and also of the smoothness of its cooperative performances out there.

## RUSSIA'S JOB.

Many Americans seem to take it as a personal grievance that the Russians so far show no indication of entering the war against Japan. It would be very gratifying if they did so, but surely that

NAVY BLUE demurely softened with white dicky of eyelet embroidery is first spring choice for radio songstress Mary Ashworth. Pink satin ribbon tying ruffled collar adds ultra feminine touch. Dainty navy sandals have platform soles.

is a matter which Americans may well leave to Russia. So far, Russia has done a great job as an American Ally, and she will doubtless continue doing so if our nation continues treating her with courtesy and respect. But surely the question whether Russia should take on the Japanese, in addition to her present obligations, is one for the Russian government alone to determine.

A sensible statement on this matter was made the other day by Philip Cummings, a special consultant of the American government on Pacific affairs, a geographer and a world traveler. Here is what he said.

"If Russia were to fight Japan,

**MORE ABOUT THE SAME THING**

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.

## CORINTH CHURCH REVIVAL.

Rev. Clifford Nelson of Olden and Rev. Homer Starnes of Eastland preached to a fair-sized audience at Corinth Baptist church, near Cisco, last night. The Life Service Band from Hardin-Simmons college, composed of six people, had charge of the music, and there were a number of visitors from Olden and Cisco. Rev. S. D. Smith of Sunset church, Abilene, and Rev. Arthur Johnson of Cisco First Baptist church, will bring the revival message tonight, the services starting at 8 o'clock. The Hardin-Simmons group will again be in charge of the musical program. Rev. Evan Holmes of Cisco Eastside Baptist church and Rev. H. D. Blair, Baptist missionary, will bring the gospel messages at 8 o'clock Saturday night.

## SCRANTON CLUB MEETING.

Assistant County Agent Brigham held a meeting with the 4-H club boys of Scranton high school Wednesday, says Carl Bailey, club reporter. Mr. Brigham discussed buying and feeding of dairy cattle before a large number of club members. He emphasized the

importance of proper care and feeding of the cattle, and the need for clean and healthy animals.

Members of the club were encouraged to continue their efforts in improving their stock and in promoting the welfare of their community.

The meeting was held in the school building and was well attended by the club members and their parents.

Plans for future meetings and activities were discussed, and it was decided to hold another meeting in the near future.

The club members expressed their appreciation for the information and advice given by Mr. Brigham.

The meeting was a success and the club members are looking forward to their next meeting.

The club members are committed to their duties and are working hard to improve their stock and their community.

The club members are proud of their achievements and are looking forward to the future.

## LEGAL NOTICE.

A RESOLUTION ORDERING AN ELECTION TO BE HELD IN THE CITY OF CISCO, ON THE 3RD DAY OF APRIL, 1945, FOR THE PURPOSE OF ELECTING A MAYOR AND TWO COMMISSIONERS FOR THE CITY OF CISCO.

BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF CISCO: That an election shall be held on the first Tuesday in April, 1945, same being the 3rd day of April, 1945, at which election the qualified voters of the City of Cisco shall elect a mayor and two commissioners, each to hold office for a term of two years;

That said election shall be held at the City Hall of the City of Cisco between the hours of 8:00 o'clock a. m. and 7:00 o'clock p. m., to be conducted according to the Ordinances and Charter of the City of Cisco, and in compliance with the election laws of the State of Texas.

Public notice of this order shall be given for a period of not less than twenty days next preceding the date of said election by publication in each issue of a newspaper published in the City of Cisco.

Signed and approved by the Mayor, and attested by the City Secretary, this 13th day of February, A. D. 1945.

EDWARD LEE, Mayor of the City of Cisco.  
GEO. W. DOWNIE, City Secretary.

produce; the sacredness of marriage and its greater productivity in population, and even religion, unrestricted by state control, have come back to Russia.

Russia, he said, wants nothing more than peace, a peace in which it can develop its vast resources. He discounted the idea that Russia wants to conquer the world. Russia, he suggested, has vast resources in manpower and the greatest store of undeveloped raw materials on earth. In short, the tenor of Mr. Rosen's talk indicated that Russia, led by the thoroughly practical Stalin, will be too busy developing its own resources of raw materials and manpower to try to control the world.

It has suffered in this war as no nation has suffered. It will require almost a generation to restore itself to the position it held before the war. Germany, he said, is dumb. It is helping the allies to destroy what it has. Russia will not follow that course, he said.

An economic alliance between Russia with its raw materials and manpower and the United States, the greatest nation on the globe, is the natural and wise thing, Rosen said.

Responding to a question about Russia's probable participation in the war against Japan, the speaker pointed out that Russia has

been a landlocked nation, denied access to the sea or restricted in that access. "When we, and Russia, have finished with Japan," he said, "I think that Russia will have more coastline on the Pacific."

He pointed out, in elaborating on Russia's innate fear of the other countries, that ever since the revolution of 1917, all other countries demonstrated their distrust of Russia by political action such as the organization of a "cordon sanitaire" or buffer belt between the soviets and the rest of Europe, and by their refusal to enter into agreements with Russia. This attitude of suspicion naturally aroused a similar attitude of suspicion on Russia's part, although that nation has always demonstrated its fidelity to treaties. The non-aggression pact with Germany before World War II was a defensive outcome of this attitude, after Russia's efforts to cooperate with the democratic countries in agreements aimed to prevent aggression were rebuffed.

That said election shall be held at the City Hall of the City of Cisco between the hours of 8:00 o'clock a. m. and 7:00 o'clock p. m., to be conducted according to the Ordinances and Charter of the City of Cisco, and in compliance with the election laws of the State of Texas.

Public notice of this order shall be given for a period of not less than twenty days next preceding the date of said election by publication in each issue of a newspaper published in the City of Cisco.
