SPAIN MENACE TO DEMOCRACY

Gorman Attorney First Saw Cisco Xmas Eve, 1885

J. M. Parker, Gorman attorney at law, was a Daily Press caller this morning. He was in Cisco on legal business.

Asked if he visited Cisco often, Mr. Parker smiled and answered that his visits here were only at wide intervals, but that he always enjoyed them, his first visit to Cisco being on Christmas eve in 1885. Continuing, he said:

"On that date my mother and five children, including myself, stepped from the Texas & Pacific train here, our first stop after leaving Hot Springs, Ark., where I was born. My father, Samuel C. Parker, met us at the depot and we immediately began the overland trip to Sipe Springs, Comanche county, where we lived for about four years. In 1890 we located at Gorman and I have lived there continuously since that year."

Mr. Parker was admitted to the bar in 1912. He farmed for several years before that. His son, Philip Parker, is county attorney of Brown county.

AQUATIC SCHOLARSHIP.

Miss Peggy Gallagher, daughter of Mr. and Mrs. N. D. Gallagher of Cisco, a sophomore at Texas Wesleyan college, has been selected for one of the three all-expense scholarships to the National Red Cross Aquatic school awarded in Ft. Worth. The school will be held at Camp Rio Vista, Ingram, Texas, May 30 to June 9, and is one of such regional schools held each year in the nation by the American Red Cross. Intensive training in swimming and aquatic safety is given those awarded the restricted scholarships. Miss Gallagher has been active in the Women's Athletic association at TWC, is president of the DeKa social club and has been elected president of the Korosophian Literary society for 1945-46.

DAVIES IN LONDON.

LONDON, May 25. — Joseph E. Davies, former United States ambassador to Russia, arrived here today on a special mission for President Truman. He was expected to see Prime Minister Churchill and Foreign Secretary Eden to discuss problems of liberated Europe.

Strangers Spring Pleasant Surprise On O. P. Weiser

O. P. Weiser had cut his oats on a field near the Rising Star highway. In vain he tried to employ some one to shock them for him, but friends and neighbors had to refuse because of their own work.

One day recently, while Mr. Weiser (a grandfather) was taking his afternoon rest upstairs, he saw some one placing the oats in shocks.

To his amazement he found three strange young men busy at the task and they refused to accept money for the service. The only reason they gave for voluntarily doing this arduous work in the heat of the afternoon was that they wanted to surprise the owner.

Mr. Weiser said these good Samaritans were unknown to him—that he had had no association with them previously.

When he heard of the incident, Rev. G. T. Naumann, pastor of Grace Lutheran church, made the following comment: "There is high hopes for this nation when wayfarers play such practical jokes on their fellow man."

CONFIRMATION SERVICE.

Five children will be received into communicant membership of the Lutheran church by the rite of confirmation Sunday morning at Grace church. After having received full instruction in the fundamental truths of the Bible these children were examined publicly last Sunday as to their knowledge of scripture. Sunday they will make public confession of their faith and will then be received into the church. The following are those who will be confirmed: Eugene Ziehr, Millie Newman and Richard Ziehr. They will receive their first communion the following Sunday. The public is cordially invited to attend the confirmation service.

CONNALLY'S LAUNCH SHIP.

RICHMOND, Cal., May 25. — Senator Connally of Texas, chairman of the Senate Foreign Relations Committee and delegate to the United Nations Conference, was the triggerman Friday at the launching of the S. S. Hobart Victory at Richmond Shipyard No. 1. The Senator's wife was named sponsor of the ship.

Rightly, Some Legislators In Fear of Press

AUSTIN, May 25.—Representative Julian P. Greer of Elkhart, warned that newspapers should be careful what they print about the legislature, to keep the public from losing confidence in their lawmakers.

Speaking to the house on personal privilege, Greer denounced a column written by two press association correspondents, reporting that the legislature ordinarily meets from 10 a. m. until noon and from 2:30 or 3 until 5:30 or 6 p. m. Some believe the column asserted, that legislative processes would improve by meeting earlier in the morning and taking a shorter lunch period.

"The newspapers will undermine the people's confidence in representative government," asserted Greer, a former state senator. "They ought to be careful what they say."

Greer contended that legislators work hard during the session and should be given credit for doing so.

Representative Charlie Pigg of Waxahachie claimed the column regularly dealt in frivolous reports and caused some of his constituents to ask "Is that all you do?" Pigg is author of the resolution to increase legislators' pay nearly \$3,000 a year.

Representative M. N. Westbrook of Magnolia Springs thought the public would benefit from radio broadcasts of the legislature's sessions, so reports would not be colored up by some second party.

Representative Carlton Moore of Houston expressed an opinion that a stenographic report of the house proceedings might embarrass some members.

But the main defense of the news writers came from Representatives F. G. Swanson of Tyler and W. A. Green of Cameron.

Drainage Streams Should Be Looked After Locally

WASHINGTON, May 25.—Local governments in Texas must take steps to eliminate stream pollution, in the opinion of Representative Hutton W. Summers of Dallas, or face the likelihood of federal intervention.

Making public in the Congressional Record correspondence with J. E. Sturrock, general manager of the Texas Water Conservation Association, Austin, Summers decried pollution on the Trinity river between Fort Worth and Dallas and on south.

"I do not know whether or not that condition obtains with reference to other streams," he wrote Sturrock.

"But this is an outstanding example of the failure to exercise a state power, and is the sort of thing that makes it very difficult for those of us who are trying to prevent a further concentration of power in the federal government to do it, much less bring about a necessary decentralization of government."

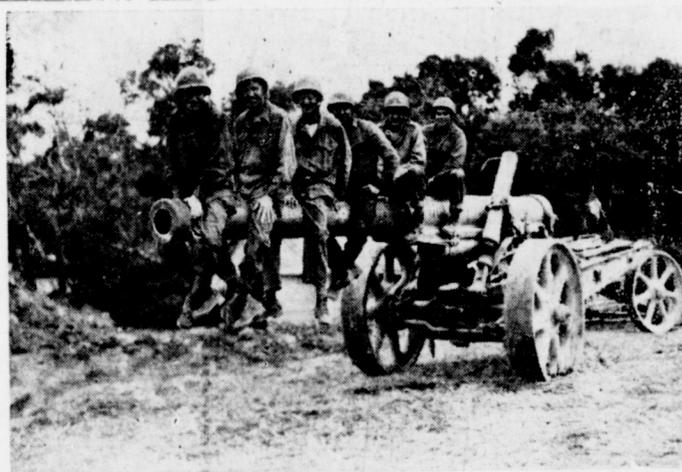

A vigorous exponent of the return to states of powers vested during recent years in the federal government, Summers praised Sturrock's position of opposition to certain proposed congressional measures dealing with water pollution.

BOMBERS ARE BUSY.

SAN FRANCISCO, May 25.—Mustang fighters from Iwo Jima and a "small number" of Super Fortresses raided the Tokyo-Yokohama district of Japan for nearly an hour in a midday strike today, the Japanese Domei news agency reported. Two B-29 mine-laying expeditions also were reported by Domei.

Four-H Club Boys Are Making Bond-Buying History

PLAINVIEW, May 25. — Setting a high mark for other club boys to shoot at, nine Hale county 4-H boys this week purchased war bonds having a face value of \$11,775.

Individual purchases ranged from \$100 to \$3,700. According to County Farm Agent C. B. Martin, the boys made their money largely with 4-H projects, mostly livestock.

Widow of Wealthy Oil Man is Found Dead in Her Room

NEW YORK, May 25. — Mrs. Genevieve Lloyd, 60, whose wealthy oil man husband, Fred Brochwe Lloyd, disappeared in Times Square nine years ago, was found dead in her hotel room.

Lloyd, British-born, was president of the Petroleum Conversion Corporation when he was reported missing.

He was declared legally dead in 1944. Securities, unclipped coupons and various other papers found in Mrs. Lloyd's hotel room totaled more than \$400,000 in face value, police said.

FRENCH GOVERNMENT ASKED TO BREAK RELATIONS AND FORCE FRANCO TO QUIT HIS OFFICE

PARIS, May 25. — The French foreign affairs committee asked the DeGaulle government today to break relations with Spain, force the extradition of Pierre Laval and propose means to the Allied nations to force Generalissimo Franco from office.

The committee is composed of members of the assembly and it corresponds roughly to the United States Senate foreign relations committee.

The recommendation to General De Gaulle's government asserted that the Franco regime was no different from the erstwhile Fascist government of Italy before the latter's surrender.

The Spanish regime was termed a menace to world democracy. The committee demanded that the government lose no further time in forcing Spain to hand over Laval. Laval, chief of government in the Vichy regime, is under death sentence in France as a traitor and is in custody in Spain after fleeing Germany by air.

The committee said the Allies should take joint action to remove Franco, head of the Spanish government since the old republic was overthrown in civil war, and provide the Spanish people with the means of holding an immediate consultative election.

The committee said the Franco regime was forcibly imposed and that throughout the European war its neutrality was a fiction. The pronouncement said the security of France demanded the resignation of Franco and the substitution of a republican form of government.

The Laval case has been developing over the past three weeks into a serious dispute. He landed at Barcelona early this month. France asked Spain to deliver him to the frontier and the Spaniards refused.

Both the United States and Great Britain were reported to have urged Spain to surrender him. The attitude of both governments, however, was said to have been that the Laval affair should be settled directly between France and Spain.

The suggestion that a British warship take him to a French port was said to have been accepted by the British foreign office, but it was reported here that Britain later balked. Laval may eventually be flown back to France.

Even as the French committee spoke out, the Communist party publication L'Unita in Rome called on the Italian government to break off diplomatic relations with Spain, charging that Franco was giving refuge to high ranking Fascists.

Mexico Shipments Pineapple, Onions, Cantaloupe Large

LAREDO, May 25. — Approximately 375 to 750 carloads of Mexican pineapples which have moved to United States markets this year have entered this country at Laredo.

The pineapples, grown on plantations in southern and central Mexico, are distributed by rail and truck to markets throughout the nation. Some shipments are being made to Canada.

A total of 2,268 carloads of Bermuda onions had been shipped from the Laredo district as the end of the season neared this week.

Eight carloads of cantaloupes have moved from this district to markets in Texas, Oklahoma and Louisiana.

Great Criminal Dies Alone, Unwept, Unmourned

LUENEBURG, Germany, May 25. — The mortal remains of Heinrich Himmler, the evil genius who supplied the terror needed to implement Adolf Hitler's bloody plans for complete Nazi domination of the world, were viewed by this correspondent soon after Himmler swallowed a lethal poison to escape Allied justice.

Himmler lay sprawled in dishonored death inside a two-story brick building to which he had been taken by the British after his capture.

He reached his end in a room as disordered as the world which his master, the reichsfuehrer of Nazi Germany, had conjured up from the blood and agony of Europe's suffering millions.

Chairs of antique vintage were piled over one another. Torn rugs cluttered the corners.

On the floor was water which had slopped from the tin basin into which Himmler had coughed his last.

And in the middle of this disarray, covered by a GI blanket, lay the erstwhile school teacher who had abandoned his books to become the chief architect of Nazi savagery.

The mustache Himmler had worn was gone, shaved off by himself in an effort to hide his identity.

A tiny blob of blood emanated from his nostrils as a result of the effect of the cyanide of potassium which he swallowed. Blood also filmed his upper lip.

Okinawa Japs Are Cracking But Brag to Keep Courage

PEARL HARBOR, May 25. — Organized Japanese resistance cracked in southeast Okinawa and on two more fronts — Mindanao and the Ipo Dam area northeast of Manila — in the Philippines today.

Radio Tokyo predicted American troops soon would attempt a landing on Amami Island, 115 miles northeast of Okinawa and 185 miles south of Japan.

Japanese air-borne suicide units struck back on Okinawa, Radio Tokyo said, with a surprise landing on two American-held airdromes. They blew up aircraft, munitions depots and other installations, Tokyo said.

A Chinese military spokesman announced that the Japanese have withdrawn three more divisions from Central China.

BIG FOUR STAND PAT.

SAN FRANCISCO, May 25. — The United States, Britain, Russia and China stood pat today against "softening" of their veto power in the new world organization. They were ready to reject demands of the "little" United Nations to liberalize the Yalta voting formula for the proposed security council.

NO HOPE FOR INDIA.

"When I went to India," says John Fischer in Harper's Magazine, "I believed in a kind of inarticulate, unconscious fashion that there must be some kind of solution for every problem. It might be only a theoretical solution, not immediately practical, but with enough effort and good will it ought to be possible at least to figure out some line of attack on any set of difficulties. I think nearly all Americans feel the same way—we've never been bent against anything we couldn't lick, somehow."

But the longer he stayed in India, the more deeply he studied the situation, the more he came to the conclusion that the problem of Indian hunger was insoluble. The heat is so great and so enfeebling, the birth rate so high, the conservatism so "merit, rock-like, almost impossible for the western mind to grasp," that they militate against any efforts at reform. Increase in per capita income, he fears, would lead to a rising birth rate and a declining death rate so more food in general might not mean more per person. He says:

"It appears probable that India will have to tackle her reconstruction largely on her own steam—and it also seems evident that there just isn't enough steam there."

There is one new factor—Britain is now heavily in debt to India for war materials, and if India could take payment in machinery and other capital equipment it might help.

Mr. Fischer ends his gloomy study of the Indian outlook with a quotation from an American general who appeared at breakfast haggard and worn, saying:

"I've been having a perfectly horrible nightmare. I dreamed that all the Englishmen quietly slipped out of this country during the night, and left us Americans holding the bag. Can you imagine anything worse?"

Primer of Prosperity

THROUGHOUT HISTORY, NATIONS WITH PROSPEROUS AGRICULTURE HAVE BEEN NOTABLY PROGRESSIVE.

THE FOUNDATION OF OUR ECONOMIC GREATNESS WAS THE SOIL—VIRGIN, VIGOROUS, APPARENTLY LIMITLESS. OUR DREAMS ARE TAPPING SOUND-LESS WEALTH.

WITH AGRICULTURAL PROSPERITY, INDUSTRIES, PROFESSIONS AND ARTS FLOURISH.

WITH EVER-INCREASING DEMANDS FOR FOOD AND OTHER PRODUCTS, IT WAS EASIER TO MOVE ON THAN TO REPLENISH THE SOIL.

WE CAN DO THAT NO LONGER TODAY. TIRED LAND MUST BE REVIVED, AND FARM PRODUCTION MADE EFFICIENT, IF WE ARE TO BE PROSPEROUS.

It's Not So Bad . . .

WOMEN'S CLUBS OF TEXAS ON THE JOB.

HOWE, Texas. — (By Mame Roberts.)—The five-year State-wide Civic Improvement Contest, recently announced by the Texas Federation of Women's Clubs and the three great regional chambers of commerce, has been received with great interest and co-operation throughout Texas. The first entry period closed May 1, with 141 towns on the honor list — the first towns to organize their forces and announce official entry into the contest.

These towns, which range in population from 300 to 15,000 represent every section of Texas. They are the vanguard for the many towns preparing for the fall entry, beginning Oct. 15.

This crusade for cleanliness and beauty for Texas towns has a workable plan created to meet the needs of every Texas town, regardless of size, location, or financial status. The essentials are vision, leadership, and the will to do. The smallest, most forlorn town can build for a better future by its own individual efforts.

Beauty and cleanliness give new life.

Significant in this contest is the leadership of towns which are educational centers, such as Denton, San Marcos, Nacogdoches, and many others, all educating the youth of Texas in civic beauty by example. High schools are calling on students for help in creating and preserving civic beauty.

County health units are co-operating with the citizens of the local towns in improving health conditions; checking water supplies, milk distribution centers; garbage collection; sewer facilities; breeding places for flies, mosquitoes, and rodents. Alleys, streets, back of store buildings are on the top list to be kept clean.

Do not sit back and wait for someone to pass a miracle to conjure up a better town — make your own miracles by your own small individual efforts.

Our Merchant Marine

ACTION IN THE PACIFIC

Pacific successes stem from revolutionary supply methods, overcoming the obstacle of distance. Our secret weapon, Admiral Nimitz reveals, is the Fleet Train.

The FLEET TRAIN consists of merchant-type ships, operated by the Navy or by private shipping firms under government direction. One of its chief services is re-fueling and supplying naval vessels at sea.

"Not once did they fail," Admiral Nimitz declares, speaking of our commercial tanker fleet.

Merchant ships have transported over 4 1/2 of our planes used in the Pacific. A majority of the 1,400 ships used in the Okinawa invasion were cargo vessels.
