GERMANY BORDER LINES FIXED

Eastland Co. Needs More Speed if Bond Quota Promptly Met

Eastland, Texas.

Cisco Daily Press: At the end of this week only three more weeks will remain of the three months that were set aside to put over the Seventh War Loan. The amount of the Seventh War Loan for the nation is \$14,000,000,000; \$7,000,000,000 of this is to be subscribed by the corporations and \$7,000,000,000 is to be subscribed by individuals. Of this last \$7,000,000,000, \$4,000,000,000 is to be subscribed in Series E Bonds.

Eastland county's part of this loan is \$680,000, \$405,000 of which is to be Series E Bonds, and the other \$275,000 is to be made up from any or all of the seven different issues offered for sale during this loan. This last mentioned \$275,000 is now in sight, and we feel confident this part of the loan will be oversubscribed, so our anxiety now goes to a successful subscription of the Series E quota.

At the beginning of each week the Federal Reserve Bank of Dallas, Texas, gives Eastland county an official statement covering the sale of Series E Bonds cleared through that bank for the week just closed, and thinking that you might be interested in seeing how the Series E part of the Seventh War Loan has progressed in your county, we are submitting herewith the weekly reports, as follows:

At the close of the first week, April 23, 1945, Eastland county ranked tenth from the top down of the 59 counties constituting the Fort Worth district, showing that she had subscribed 10.19 percent of the Series E quota; April 30, 1945, 13th down from the top, sales 16.79 percent; May 5, 1945, 19th place down from the top, sales 22.24 percent; May 10, 1945, 17th place down from the top, sales 31.25 percent; May 14, 1945, 20th place down from the top, sales 46.27 percent; May 19, 1945, 22nd place down from the top, sales 48.48 percent.

So it will be seen that on Thursday of last week Eastland county had subscribed only 48.48 percent of the Series E quota, as officially returned by the several post-offices and banks in Eastland county on that day.

However, at the close of business Saturday, June 2, 1945, the Series E sales in the county had reached a total of approximately \$250,000, leaving a balance of \$155,000 to be subscribed during the balance of June.

This will be no small task, and unless each individual in the county, each community in the county, each town in the county, each city in the county, and each and all of your official committees in the county do their full duty, we are liable to find on the last day of June that we have failed our quota, and if this be the case, we will not have failed our government in this great task, but even more important, we will have failed our boys and girls in the armed forces throughout the world.

time to give to this Seventh War Loan than you have, so won't you do the fine, business-like thing, and patriotic thing, and go at once to your postoffice or bank and purchase your part of the Series E quota for the Seventh War Loan?

Won't you please do this? Save the time of your committeemen and satisfy your own conscience! Very kindly yours,

CYRUS B. FROST, Chairman Eastland County War Finance Committee.

MRS. PAUL M. WOODS, Chairman Women's Section, Eastland County.

Humble and Thomas Keglers Tournament Leaders

At the close of last night's games, standing of the four teams of the men's summer bowling tournament — a 36-game schedule — was as follows:

	Won.	Lost.
Postoffice	9	12
Thomas	12	9
Humble	13	8
Collins	8	13

U. S. Postoffice won all three games from Collins Hardware and Humble Oil took two of the three with Thomas Funeral Home. High scores were: I. J. Henson, 523; Lee McDonald, 518; F. Essl, 516; R. L. Ponsler, 510; F. Urban, 495; Pete Nance, 488; James Moore, 486. High team score went to Humble again, 2418.

Schedules for next Monday night: Collins Hardware vs. Humble Oil; Thomas Funeral Home vs. U. S. Postoffice.

LAST NIGHT'S SCORING.

U. S. Postoffice—	
A. B. O'Flaherty	124 93 165—382
C. C. Cutting	127 161 190—478

TRAINING IN KANSAS.

PRATT, Kansas. — Soon to enter a combat theater of operations in a B-29 Superfortress bombardment group to help bring the war against Japan to a close is Corp. Thomas C. Hart, son of Mr. and Mrs. Samuel Hart, Cisco, Texas. Hart is now completing final training at Pratt army air field. Before entering the service he was employed as an aircraft assembler for the Douglas Aircraft Corp.

This airport map of Texas shows how citizens of this state will participate in the nationwide airport expansion program being sponsored by the Civil Aeronautics Administration and now under discussion in Congress. When completed Texas will have 532 airports, far more than any other state in the Union. The entire program is designed to encourage private flying and the development of commercial air transportation.

Exclusive of buildings, hangars and special facilities, the cost of the proposed State program is estimated at \$120,923,000 of which the Federal Government would pay half and local agencies the remainder. Buildings and equipment will add an estimated 25% to the total. This map was prepared by Cities Service Company, from official records of the CAA.

Pedro Lopez of Cisco Captured Six Nazi SS Men

WITH U. S. SUPPLY FORCES IN GERMANY. — Private First Class Pedro Lopez, Jr., Cisco, Texas, returned from an off-duty hunting trip in Southern Germany with a somewhat different bag than he expected.

A member of E company, 317th Engineer General Service Regiment, Pfc. Lopez went for a stroll after finishing a tour of guard duty on the railroad bridge the company was reconstructing along the supply line of the rapidly advancing Third Army.

He was keeping his eye open for small game as he walked along the tracks. Instead, Lopez caught sight of a figure in German uniform part way up the meadow sloping away from the railroad line. Raising his M-1, he called the German to a halt, and then indicated that he should place his hands behind his head.

The German nodded, obeyed, and then called over his shoulder. Five other Jerries appeared from hiding — hands in the approved position.

The leading Jerry, who spoke English, assured his captor that he and his comrades had been anxious to surrender to the Americans. Pedro told him he had heard that one, too, and to line up in single file, fast. Whereupon he marched them two miles down the track to his rather astonished company.

At an Army PW enclosure, they told Pfc. Lopez that his captives were SS men, but he wasn't much impressed. "Six SS men are still a half dozen Germans," he said.

Pfc. Lopez is the son of Pedro Lopez of Cisco, and his wife, Mrs. Juanita Lopez, lives in Baird, Texas. He entered the army at Abilene, Texas, October, 1943, and received basic training at Fort Leonard Wood, Missouri. He joined his present unit in England in 1943 and landed in France on D plus 29.

The sins ye do by two and two ye must pay for one by one. — Kipling.

Capt. Droel Looney is Back From Overseas Service

MARINE CORPS AIR DEPOT, Miramar, Calif. — Marine Capt. Droel H. Looney, 36, of Paducah, Texas, engineering officer with a first Marine air wing group, has returned from the Philippines for leave and further assignment.

He supervised the repair and maintenance of fighter-bombers for squadrons of his group and helped keep them flying over Jap targets on the road to Manila.

His wife, the former Maurine Kirby, lives in Denton, Tex. He is the son of Dr. and Mrs. O. E. Looney of Paducah.

Graduating from Quanah, Tex., high school in 1925, he obtained a bachelor of science degree from North Texas State College in 1929. He received his master of science degree there in 1940. He was principal of Cisco high school five years before enlisting in January, 1942.

Ensign Huffman to Join Fleet Soon as Deck Officer

GREAT LAKES, Ill. — Kenneth W. Huffman, 19, son of Mr. and Mrs. H. T. Huffman, Cisco, Tex., was commissioned an ensign in the U. S. Naval Reserve when he graduated recently from the naval reserve midshipman's school at Abbott Hall, Northwestern University, Chicago.

The Cisco lad's completed four-month course consisted of instruction in navigation, seamanship, damage control, communications, ordnance and gunnery, in addition to which he underwent a strenuous physical conditioning program and numerous drills designed to develop initiative and leadership.

Capable Instructor Will Teach Swimming Here

Randall B. Young, health service director of the Fort Worth YMCA, who holds both YMCA and Red Cross instructor and examiner ratings, will teach classes in swimming at Lake Cisco for two weeks beginning July 8. It is announced by W. J. Foxworth, manager Lake Cisco Amusement company.

Mr. Randall will conduct two free "Learn to Swim" classes for children 10 through 15 years each morning, each group limited to 25.

He will also give individual instructions to adults, teaching two groups of 20 each. A charge of \$10 will be made for 12 lessons. Personal swimming instructions will be given adults by appointment only. All pupils must pay admission prices to pool.

VFW Favors Stay-at-Home Military Training at 18

WASHINGTON, June 5. — The Veterans of Foreign Wars suggested a program for peacetime compulsory military training today that would permit the trainee to live at home.

Instead of going off to an army camp for a year the 18-year-old would stay with his family, remain in school or in his job, taking weekly drill at the local armory and training for two weeks during the summer at a reserve camp.

At variance with these views was the American Legion, which recommended a program calling for one year of continuous service for all men.

Both organizations testified today in favor of some form of post-war training at hearings before the House postwar military policy committee. The hearings on peacetime conscription began yesterday and are scheduled to last two weeks.

Dick Starr, Cisco Native Son, Here For Brief Visit

Mrs. E. M. Starr and son, Staff Sgt. Dick Starr, of Abilene, are guests here in the home of Mr. and Mrs. Leon Maner. Mrs. Starr and Mrs. Maner are sisters and Sergeant Dick Starr, 22, was born in Cisco. The late Dick Starr, father of the young man, was manager of the Cisco branch of Wooten Wholesale Grocery before his removal to Abilene about 15 years ago. He died about seven years ago and is still remembered by many Cisco people as an unusually fine gentleman.

Sergeant Dick Starr is a veteran of 42 missions, with 254 combat flying hours as a gunner on a B-24 based in England. He spent eight months overseas and was on the Atlantic enroute home on V-E day.

The Cisco native was never wounded. Nor did he lose a ship. His only explanation for the fact that the crew changed planes several times is "they wore out." Shortly before returning to the states he flew 13 out of 15 nights. "Princess Starlight" was the name they gave their planes most of the time. He entered the air force September 5, 1942. Upon completion of his furlough, the sergeant will report to Santa Anna, Calif., for reassignment.

Superfort Fires Gut Kobe, Japs, Greatest Port

SAN FRANCISCO, June 5. — Great fires set by Superforts raged through Kobe today while sweeping American advances on Okinawa and gains on three China fronts led Japanese to see "unmistakable signs" that Allies plan "to invade the Japan mainland."

About 450 unescorted B-29s flying through some of the worst weather they have ever encountered, including snow and thunderheads, rained 3,000 tons of fire bombs on Kobe in an hour-long daylight raid. The successful attack on Japan's greatest port celebrates the beginning of a second year of Superfort raids.

An amphibious landing by Sixth division Marines "at the end of the rainbow" on Okinawa island's Oroku peninsula carried them halfway across Naha airfield. The operation topped all fighting on this potential invasion island, which included extensive gains by three other divisions.

A hitherto unreported Chinese offensive has enveloped four towns on the south China coast, Chungking announced. Press dispatches told of gains in the Fochow area of the east China coast, and American observers reported Allied forces were within 21 miles of Luichow on the south China front.

Swiftly converging 24th and 31st division columns in the southern Philippines trapped a substantial number of Japanese on Mindanao island. Tanks led British through minefields in the Burma cleanup.

DEATH OF W. W. SMITH.

Will Wesley Smith, 68, died early this morning at the home of a daughter in Abilene. Funeral and burial will be held at Eastland tomorrow morning. Mr. Smith had been a resident of Eastland county since 1909 and had lived in Abilene only a few months. He was born in Alabama and came to Texas at the age of 10. He was a farmer until he retired and for several years had lived with Walter Boone, near Eastland. He went to live with his daughter in Abilene when Mr. Boone moved to Eastland a few months ago.

FOUR OCCUPATION ZONES SET UP AND ASSIGNED TO U. S., BRITAIN, RUSSIA AND FRANCE

WASHINGTON, June 5. — Germany's frontiers were rolled back to the boundaries of Dec. 31, 1937, today in a joint occupation statement by the Allied powers.

The statement, setting up occupation zones for the United States, Great Britain, France and Russia, recreates the German nation as it was before Hitler's annexation of Austria and Czechoslovakia. The declaration was made simultaneously in Washington, Moscow, London and Paris.

With Germany's unconditional surrender, the statement said, there no longer is any central government or authority there "capable of accepting responsibility for the maintenance of order, the administration of the country and compliance with the requirements of the victorious powers."

Four occupational zones were set up and allotted to the victorious Allied powers as follows:

- An Eastern zone to the Soviet Union.
- A northwestern zone to the United Kingdom.
- A southwestern zone to the United States.
- A western zone to France.

In addition, an area of "greater Berlin" was created, to be administered by an inter-Allied governing authority with representatives of each of the four powers.

The statements were released through the State department here as Gen. Dwight D. Eisenhower left his Frankfurt-on-Main headquarters for a four-power meeting of Allied occupation commanders in Berlin.

A SHAEF announcement said Eisenhower went to the German capital as "commander of the forces of occupation."

In connection with the control of Berlin, the State department announcement said:

"The administration of the 'greater Berlin' area will be directed by an inter-Allied governing authority, which will operate under the general direction of the control council, and will consist of four commandants, each of whom will serve in rotation as chief commandants. They will be assisted by a technical staff which will supervise and control the activities of the local German organs."

Details of the unconditional surrender were announced simultaneously.

In addition to trimming Germany down to pre-Anschluss size, she is disarmed, her ships and communications made forfeit to Allied control, her planes grounded, and her war factories placed at Allied disposal.

Cohesion of the four-power control council in matters affecting Germany as a whole was provided for as follows:

"In the period when Germany is carrying out the basic requirements of unconditional surrender, supreme authority in Germany will be exercised, on instructions from their governments, by the Soviet, British, United States, and French commanders-in-chief, each in his own zone of occupation, and also jointly, in matters affecting Germany as a whole. The four commanders-in-chief will together constitute the control council.

89,776 U.S. Prisoners Freed and on The Way Home

PARIS, June 5. — The provost marshal's office of the European theater announced today that virtually all American prisoners of war, including those in Russian-occupied areas, have been recovered and that more than two-thirds have departed for the United States.

The announcement said 89,776 recovered American prisoners were either enroute home or awaiting transportation.

Roughly 64,000 have been shipped home, it was said, and all except 3,900 to 4,000 of the remainder have been processed for shipment.

"We feel confident that all of them will be enroute home before the end of the month," it was stated.

The counterfeit squad of the criminal investigation division of the Mediterranean theater recovered \$500,000 worth of phoney 1,000-lire notes.

OLD HAND PUMP yielded only trickle of water when found on Okinawa, but these Yank aviation engineers soon will have it supplying thousands of troops. Examining pump from left are T/5 Joseph N. Studley, Lynn, Mass.; David M. Lewis, Jr., Woodstown, N.J., and Charles Colacino, Newark, N.Y.

Per week, by carrier boy 12c

MOMENT OF BEAUTY.

The citizen dashes to his office, or to the bus which takes him there. But why so fast? Is this not June? Right beside and around him all the beautiful world of sight and sound and smell is calling.

Busy? Work to do? No time for idling? It is true that these days of war are busy days. But the faithful worker will be less tired, and the day will seem shorter, if a few moments are taken here and there, to smell a flower, to glimpse a tree, to relax for a bit under the warm breezes of this greatest time of year does not really set him back. It refreshes the body and renews the soul, adds vigor for the task.

After all, the June of this year comes but once. What can be grasped of its beauty should be taken, because the moment of this particular beauty and of the chance to find pleasure and refreshment in it will never come again.

DREAM-CARS.

It has been estimated that some 200,000 new automobiles may roll off the production lines before the end of the year. The average citizen, weary of years of struggle with worn-out parts, repair bills and crowded public transportation, grins as he counts the months. But, alas, it isn't so simple.

Those 200,000 cars would be

barely enough, according to authorities, to "sample" the more than 30,000 automobile dealers in the country. What is more, there are so many priority orders already piled up or expected from doctors, ministers and others engaged in public service that not even the 2,000,000 cars considered possible during 1946 will fill them all.

Mr. Average Driver probably won't have a chance to spend his money until the year after that. So he may just as well resign himself to the fact that some of it will have to go on repairs, and he will be wise to have them made as soon as defects show up. Unless he does, he may find himself without any car at all, which would be ironic, now that there's more gas to use.

LOST MOTION.

Good mechanics are economists. Whether a workman is a competent millwright or a graduate mechanical engineer, he is an enemy of lost motion. And lost motion is a menace to prosperity, serious as fire. When an engine is running idle it is only wearing out. When a machine is driven with its brakes on, the waste is even more damaging; property is injured and energy thrown away.

What is true of a mechanical assembly is true of a human or-

ganization in this respect. The owners of a farm or the stockholders of a corporation are no penny richer for having a crew that works hard all day doing nothing. Work is necessary on a farm; sweat and callouses are only incidental: it's the crop that brings in the money and pays the men who till the land.

PRODUCTION PAYS. Prosperity results from work but not from all work. Prosperity results from productive work. People who keep busy but don't increase the yield might as well be resting. The man who figures out a way to increase yield without extra labor is the best man in the job. He works with his brain; knows enough to stop lost motion, to take precautions against fire and the like.

In England there is a magazine called The Economist. It is Britain's leading financial publication. It is read and respected by business men and financiers generally. Right recently it has been running a series of articles entitled "A Polley for Wealth." The articles have shown why England is poor; that is, why the English people must put up with low living standards.

DESERVE THE BEST. A large and respected group of Americans often say "Mother England." The British are a proud and industrious people and the Americans respect them. The British well understand how to enjoy and appreciate life's good things. They deserve to live as well as anybody but they don't. What's the reason? Well, here's what one writer for The Economist, looking back at 1943, has to say:

Industrial efficiency, as measured by production per head, was roughly similar in Great Britain and Germany while in the United States it was more than twice as great as in the other two countries." The statement is that of Dr. Leon Rostas, based on serious study of authentic records. Now there is a movement on foot in England to double her productive output per man by 1972.

LEST WE FORGET. No longer ago than 1943, when American and England both had full employment, our American workers were twice as well off. They were producing enough to live twice as well as the British. About that time Britain was investing only 3% of her income in equipment for additional production. It was like a woodman saying, "Why buy a file? A dull saw pulls easier."

The British point to America and say, "Look! They work fewer hours a day, earn more money and live better than we, all because they encourage more investment in tools to produce more goods per man." It's the truth but it may not be true long. America is starting her post-war race with her brakes on — high taxes to discourage investment. England wisely encourages production. Unless we adjust today's tax laws, we will be poor, watching the British fare well in 1972.

COUPLE RETURN FROM BRIDAL TRIP.

Sgt. and Mrs. Leonard Snedaker have returned from a honeymoon trip to Kansas City, Mo., where they were guests of his mother. The young couple were married in the parlor of Cisco First Baptist church, May 8, with Rev. Arthur Johnson, church pastor, officiating.

Mrs. Snedaker is the daughter of Mr. and Mrs. B. M. Jones of Sipe Springs, Tex., and Sergeant Snedaker, son of Mrs. M. Snedaker of Kansas City, is stationed at Camp Bowie.

BAPTIST BIBLE SCHOOL BEGAN WORK MONDAY.

Daily Vacation Bible school of

First Baptist church began Monday with fine response and prospects for a splendid school, eighty-six students being enrolled. An excellent faculty has been secured, as follows: Principal, Mrs. W. W. Fowell; secretary, Mrs. Marguerite Pittman. Intermediate department superintendent, Mrs. W. D. Hazel; assistants, Mrs. W. P. Guinn, Mrs. N. S. New, Mrs. M. M. Taber, Miss Mary Edith Pippen. Junior department superintendent, Mrs. E. L. Jackson; assistants, Mrs. R. F. Blackstock, Mrs. Roy Morrison, Mrs. Algie Skiles. Primary department superintendent, Mrs. A. B. Cooper; assistants, Mrs. F. E. Shepard, Mrs. Arthur Johnson, Mrs. L. A. Harrison, Mrs. W. Frank Walker, Misses Dorothy Grantz and Betty Grist. Beginners department superintendent, Mrs. W. C. Clements; assistants, Misses Cathryn Shepard, Bonnie Jean Wilson, Louise Norris.

Other assistants are Mrs. R. R. Jones, Miss Robbie Joe McNeely. Rev. Arthur Johnson is devotional leader and teaches a class of intermediate boys.

Latest March of Time.

Do the Yalta and San Francisco conferences really signal the Nazis' final hope of inter-Allied misunderstanding?

Women in your 40's

Do you—like so many women between the ages of 38 and 52—suffer from hot flashes, nervous tension, irritability, are a bit blue at times—due to the functional "middle-age" period peculiar to women?

Then start at once—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. This great medicine helps nature. Taken regularly—it helps build up resistance against such "middle-age" distress.

For almost a century—thousands upon thousands of women have reported benefits. Also grand stomachic tonic. Follow label directions.

PERSONAL photographer to Hitler, Heinrich Hoffman is giving "thumbs up" sign for some unexplainable reason. After capture by U. S. 7th Army, Hoffman claimed to be only business friend of der fuhrer. He also stated that Goering disliked him and refused him permission to take pictures. During early days of Nazism, Hoffman fed and clothed Hitler.

Your BABY

The chances are that when you were a baby, your mother gave you nothing but milk until you were about 7 or 8 months old. Modern babies have a much more interesting menu long before that age.

Babies vary in the kind of growth they make and your physician recognizes what additional foods are necessary and when they should be started. However, there is a more or less general plan which is usually followed.

When your baby is about 7 weeks of age, some form of vitamin D is given. The doctor may specify one of the concentrates, or you may buy cod liver oil. Give it before the bath and avoid oil stains on clothing. Hold baby's head so that a sudden movement will not spill the oil. A small spoon teaches the use of other ways of eating than drinking from a bottle.

In a few days orange juice, for its vitamin C, is introduced. Dilute the juice with an equal amount of boiled water, partially cooled. If baby doesn't open his mouth, gently press his cheeks with your thumb and first finger and his mouth will open. Place the spoon well over his tongue, so he can't push it out.

At about 3 months the first cereal is given. Select a special baby cereal because of the fine texture and for the vitamins and minerals which have been put into it. Even though baby has learned to take orange juice and the cereal is thinned with milk, it is not liquid; it is the first solid food. It is something strange and his first impulse is to spit it out. To make baby's meals more interesting try using two special baby cereals alternately.

The heavens declare the glory of God, and the firmament sheweth his handywork.—Psalms.

PERSONAL photographer to Hitler, Heinrich Hoffman is giving "thumbs up" sign for some unexplainable reason. After capture by U. S. 7th Army, Hoffman claimed to be only business friend of der fuhrer. He also stated that Goering disliked him and refused him permission to take pictures. During early days of Nazism, Hoffman fed and clothed Hitler.

PARIS BUTCHER SS Gen. Karl Albrecht Oberg is shown after capture by U. S. 7th Army. He admitted identity but claimed superior officer Field Marshal Stulpnagel ordered mass executions which took place in Paris.

PLASTIC HAT — Milliners and chemists collaborated to produce hat of new plastic plexon. Yarn made in 120 colors is immune to powder, moisture and is easily cleaned with damp cloth. Garden flowers trim brim of dainty lacey straw.

LAW OF GRAVITY

Sir Isaac Newton was unquestionably a great scientist, but he must have left something to be desired as an economist. He believed, as you remember, that everything—without exception—was subject to his law of gravitation. He'd be surprised and chagrined to see how prices are behaving today. They certainly are one notable exception to his theory. It's much easier to let prices go up than it is to hold 'em down.

Business-managed electric companies really qualify as experts in this line, however. Because they've not only kept the price of electricity down to pre-war levels, but have actually succeeded in reducing the price in the face of rising costs for almost every other commodity. In fact, the price of electricity is so low today that the average American family gets twice as much for its money as it did fifteen years ago.

Obviously, that was no accident. It didn't just happen. It represents a remarkable achievement. And it was brought about, in large measure, through efficient management on the part of the experienced men and women who operate America's business-managed electric light and power companies.
