## Hereford Heifers Averaged \$465 at Mitcham Auction

Fine Hereford foundation stock, most of it young cows just off grass and heifers yet to calve, brought an average of \$465 for 61 head at the annual G. P. Mitcham auction at Mitcham Ranch, 12 miles northwest of Cisco, Wednesday. Earl Gartin was the auctioneer. Included in the offerings were fine show heifers in nice condition, which brought the top prices. Highest price was paid for a Don Axtell heifer, entered as an extra lot and bought by Edge Cliff farms of Missouri for \$2,700. Fifty-two females averaged \$490 a head. Nine bulls sold for \$321 average. B. Domino 811th going to Marvin Owens of Abilene for \$500. Grad Acres farm of Dallas purchased Lady Axtell 955th for \$1,675, second highest price of the day. This buyer also paid \$1,900 for Lady Axtell 959th and \$500 for Lady Axtell 818th. Other top prices included: \$1,250 for Lady Axtell 729th and the same for Lady Axtell 846th, bought by Naud Burnett of Greenville; \$1,000 for Lady B. Domino 963rd, by Harrisdale farms of Fort Worth, and \$1,000 for Lady Axtell 771st, by Tom Grissom of Eastland. Cisco and Eastland county catlemen who purchased individuals included: M. E. Fry and Sons, Lady Axtell 914th, \$265, Lady Axtell 922nd, \$300; Tom Patterson, Lady Axtell 754th, \$225; Joe Coates, Lady Axtell 617th, \$350; Roy Royal, Lady Axtell 666th, \$225; U. E. Brown, Lady Axtell 712th, \$290; H. H. Tompkins, Miss Lady Domino, \$205, and Vera Domino 1st, \$210. Although the attendance at the auction was smaller than in previous times, due to transportation difficulties, the percentage of buyers in the crowd was much higher and bidding was spirited.

## 49th Legislature to Be Noted For Its Spending Proclivity

AUSTIN, June 7. — The Forty-Ninth legislature, which brought its regular session to an end Tuesday, will be commemorated mostly by its spending. The exact total of it has not been announced but there is small hazard in saying that it is greater than that of any of the forty-eight legislatures which have preceded. The experience of a majority of its members in both branches has been with deficits, which have vexed the last six. They came to this session last January confronted by a surplus in the general fund, and by the smooth operation of a tax scheme which was every day adding to the sum of that surplus. Apparently they set out to spend it, and they seem to have accomplished their purpose with rare aim. There is not apt to be much if any surplus for the next legislature, and there is a possibility that there may be the recurrence of a deficit to reimpose the restraints which have irked the six which immediately foreran this one. The old folks and the teachers have been the chief beneficiaries. They have come to constitute a powerful combination in the legislative policies of Texas, and while they are not yet leagued, they are drawn together by a growing sense of a community of interest. However, they have not been the only beneficiaries of the legislature's profusion. The fact is that pretty nearly every one within the reach of its dispensing hand has shared in its bountifulness, not excluding its own members to the extent that they had the power to help themselves. For the salary amendment on which the voters will pass judgment in August is, in its own phrase, "self-enacting;" and, if adopted, it would begin to function on promulgation of the fact. To every one of them it would be worth something like \$5,000. In the matter of output this legislature has probably fallen behind any of its predecessors of late years, both as regards the number and importance of its enactments. How many bills is sent to the governor is a bit of statistical information which will come later; but it is patent even now that the dead level of THEIR IMPORTANCE IS CONSIDERABLY BELOW THAT OF ANY LEGISLATURE IN A DECADE AT LEAST. There is not one among the list that is monumental. Probably the one which will be remembered longest is that act of the early days of the session which imposed on the Board of Education a new formula for determining the scholastic apportionment, and this solely for the reason that it raises the rate of the advalorem tax for school purposes to the constitutional maximum, where it is apt to remain a long time. Surveying the list casually these are about the only enactments which mount to the level of notability: A bill to make a university for Negroes out of the Prairie View Normal and Industrial College; a measure motivated by the desire to keep Negroes out of the university. Two bills revising the tax levies on the gross premium receipts of life, accident, casualty, fire and other kinds of insurance companies; designated to preserve to the state its regulatory control over the operations of those corporations. A bill to create an aeronautics commission, whose power would be mostly advisory and whose

## Dub Robinson, on Okinawa, Wants to Hear From Cisco

OKINAWA ISLAND, May 30, 1945. — (To Cisco Daily Press).— I have a few minutes, so I thought, I would drop you a brief letter. Wherever roses are being thrown at my home town, Cisco, I sure do like to write about them, and I think all the folks would like to hear them. In the ten months I've been overseas I've run into quite a few boys from Cisco, or thereabouts. They, like myself, think our home town is like a dream. Everyone there is so nice. Then they would name various persons and societies that contributed to the making of lasting memories of Cisco. Hearing all this made me feel a little closer to my home town. At the present time I'm in on some action again on Okinawa—taking part (erasure) since D-Day, Easter Sunday, April 1. Slightly wounded once when my tractor ran over a mine or a mortar shell. I've collected a lot of good Jap souvenirs, such as a flag, pictures, books and compasses, and lots of small things like that. I'm still looking for a Jap pistol. I would like to hear from a lot of my Cisco friends. They will remember me as "Dub." I promise to answer all letters I receive. Also I will be glad to send any one some Jap money that would like to have a sample. You might call this "a plea for mail." Affectionately Yours, PFC. W. H. ROBINSON, Co. B, Sixth Pioneer Bn., Sixth Marine Division. Care Fleet Postoffice, San Francisco, Calif. Wisdom is not finally tested by the schools; wisdom cannot be passed from one having it to another not having it. Wisdom is of the soul, is not susceptible of proof, is its own proof. — Walt Whitman.

## Cisco Rotarians Had Perfect Attendance Score

Declaring that Cisco Rotary club had tied for first place in the upper-ten group of the district, W. W. Fewell, president-elect, said today that the local club stood 100 percent perfect in attendance for the month of May. Twelve were absent from home club meetings, but all made up their attendance at clubs in other towns. T. J. McCarty, N. C. Huston and Joe Philpott were guests and visitors, young Philpott being introduced by Supt. R. N. Cluck as the recipient of the Rotary medal for the most valuable boy in Cisco high school the past school year. In speaking of the attainment of this young man, Mr. Cluck said among other things that Philpott was an eagle scout, as were all boys who had won the honor during the past three years. He then paid tribute to the scouts organization and its local directors and scout masters. The resignation of Rev. O. L. Savage was announced to the club. A. E. McNeely, in charge of the program, introduced Mrs. A. L. Thomas, who presented two of her pupils, Robby Jo McNeely and Dorothy Grantz, in song numbers with herself at the piano. Robby Jo McNeely first sang a solo and was then joined by Dorothy Grantz in duets. O. J. Russell reported on the local committee's efforts toward organizing a Rotary club in Baird.

## TEXAS WAC LOST.

FT. WORTH, June 7. — Wac Pfc. Ruth E. Warlick, who worked as a riveter at the bomber plant here prior to enlisting a year ago, is one of a group of 18 Wacs reported missing aboard an Army transport plane in Africa which has not been heard from in a week. She is the daughter of Mrs. J. W. Warlick of Goldthwaite.

## SIX CROATIANS EXECUTED.

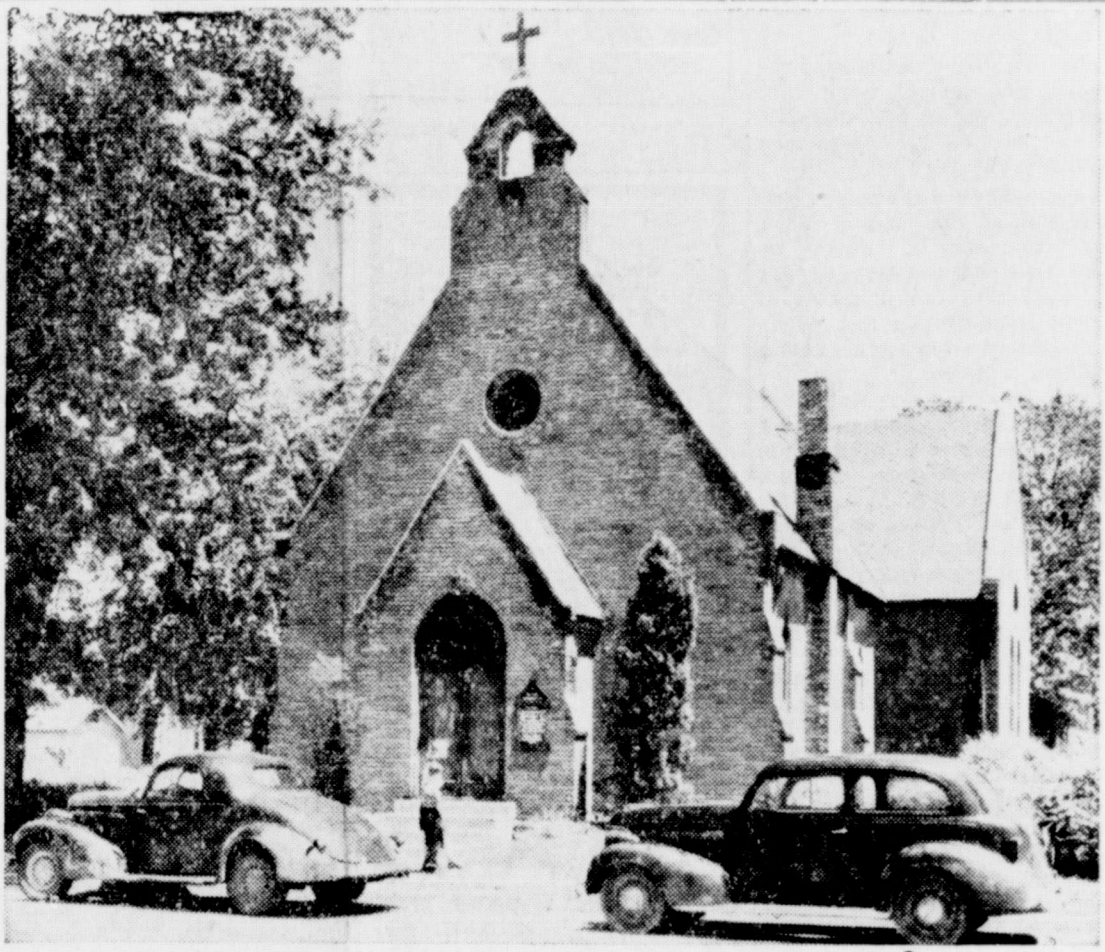

LONDON, June 7. — Premier Mandic and five other leaders of the former Croatian Fascist government have been executed after conviction of high treason and war crimes by a Zagreb court-martial, the Yugoslav telegraph agency said today. function would be to encourage the spread of air transportation in Texas. It should be noted, parenthetically, that this is the only new administrative agency which this legislature has created. A bill which revises the health code, and considerably improves, in the judgment of men familiar with the subject; though, as is nearly always true, the virtue of the statute will be in the quality of the administration. A bill to increase the office space for the state's agencies in Austin by purchase or construction or possibly both; and thus abolish a big and growing rent charge. A bill to authorize the voters of water improvement and conservation districts to issue and sell refunding bonds. And finally a bill which celebrates the thirtieth anniversary of rural aid with an appropriation twenty-eight times the original one. These make up a fair sample of the best enactments that could be used to dress the window of this legislature's accomplishments.

## STANOLIND HEAD DIES.

TULSA, Okla., June 7. — Funeral arrangements were being made today for Barton P. Sibille, 57, president of the Stanolind Pipe Line Co. He died yesterday at his home from a heart attack. MORE POLIO CASES. HOUSTON, June 7. — Three

## Catholics Favor Taking Time On Peacetime Draft

WASHINGTON, June 7. — Delay in consideration of peacetime draft legislation was urged today by Catholic leaders in the United States as the house postwar military committee met to hear more opposition witnesses. The views of Catholic archbishops and bishops were stated in a letter to Chairman Woodrum (D-Va.) from the Very Rev. Msgr. Howard J. Carroll, general secretary of the National Catholic Welfare conference. Woodrum made the letter public as the committee arranged to hear those who could not take the stand yesterday when the opposition opened its drive after two days of testimony from proponents of universal military training. The stand of the Catholic prelates, Monsignor Carroll advised Woodrum, was based on these considerations: A matter "so important should await decision until the end of the war when it can be known what the international situation will be." Those now in the army and navy "should be given an opportunity to express their views at the close of the war."

HAS NEW SIGNIFICANCE—This simple brick church in Independence, Mo., takes on an added dignity. It is here that President Truman and his family will worship when they return to the President's home town for the summer months. Daughter Margaret Truman sings in the choir.

TIME OUT—Submarine patrol duty in the Pacific is no cinch, so these men have come ashore for well-earned relaxation. Two of the men have stripped off uniforms to get most benefit from sun as they gather around exchanging stories in the good old American way.

LIGHTHOUSE KEEPER Mrs. Fanny May Salter is only woman tender in Coast Guard lighthouse service. She has been keeping beacon atop Turkey Point in Chesapeake Bay alight for 43 years. Here she polishes lens in great light that guides mariners.

## CONFERENCE OF M'ARTHUR AND STILWELL CAN ONLY MEAN EARLY ACTION AGAINST NIP MAINLAND

MANILA, June 7. — Gen. Joseph W. Stilwell, commander of ground forces in the United States, visited the Southwest Pacific recently and conferred with Gen. Douglas MacArthur and his staff. It was announced today. Neither the purpose nor the results of Stilwell's mission were revealed. However, the visit came at a time when Gen. Douglas MacArthur, as new commander of all ground forces in the Pacific, was deep in plans for the next phase of the American march on Japan. Radio Tokyo already was reporting that American invasion next will land on Japan itself. American naval sources in another theater said as long as last month that preliminary preparations had begun for an amphibious landing on Japanese home islands. Stilwell has charge of the training of American ground forces for the Pacific, and his conferences with MacArthur took on added importance in this respect. The meeting came as the Pacific campaign appeared about to enter a strategic pause. The bloody battle of Okinawa was about over and American troops in northern Luzon rapidly were clearing Japanese remnants from the Cagayan valley. Both Okinawa and Luzon already were being converted into major bases for an invasion of Japan. Stilwell probably knows as much, if not more, than any other American general about Japan and the Japanese. As commander of American forces in China, Burma and India and chief of staff to Chiang Kai-Shek before taking his present post, he fought the Japanese throughout Southeast Asia.

## Federal Agents Vacate Humble's Ingleside Plant

GALVESTON, June 7. — Officials of the Petroleum Administration for War today vacated offices of the Humble Oil and Refining Co.'s Ingleside, Tex., refinery under a restraining order issued by Federal Judge T. M. Kennerly. Judge Kennerly delivered his ruling last night a few hours after the plant had been taken over by PAW representatives, acting on a presidential seizure order in a labor controversy. A hearing on Humble's petition for a permanent restraining order against the Government agency will be conducted by Judge Kennerly at Houston next Monday.

## China Strength Grows.

CHUNGKING, June 7. — Chinese authorities announced today the capture of Menghsan, a highway and river junction 200 miles northwest of Canton and 80 miles east of the American airbase city of Luochow, which also is said to be in Chinese hands. Capture of Menghsan would represent a growing drive from west, southwest and south of Kweilin, former provisional capital of Kwangsi province and another American air base city which the Japanese took in establishing their now ruptured land corridor to French Indo-China. Menghsan is 85 miles south and slightly east of Kweilin, and Luochow is 90 miles southwest of Kweilin. One Chinese force was last reported 55 miles west of Kweilin. Both Chinese and American reports have told of the recapture of Luochow. The Chinese high command said Chinese forces, pushing the Japanese northward along the Kukien coast, had reached the suburbs of Futing, 105 miles above Foochow and less than 10 miles from the Chekiang border. The announcement said the Chinese were heavily attacking enemy positions in the town and it was believed here that a Japanese retreat to Wenchow, 55 miles north of Futing, was imminent.

## MEXICO POSTAGE CUT.

FT. WORTH, June 7. — Effective Monday, the air mail rate to Mexico will be reduced to eight cents a half ounce from the Continental U. S., Alaska, Puerto Rico and Virgin Islands. The present rate is 10 cents.

## CONTROL DAVAO GULF.

MANILA, June 7. — American troops seized control of Davao Gulf today with new landings on southern Mindanao, and the beaches of northern Luzon were shelled possibly in preparation for a similar move.

## SOONG SUCCEEDS CHIANG

—T. V. Soong succeeds Generalissimo Chiang Kai-shek after his resignation as President of Executive Yuan in China. Chiang's position as President of China and head of the State is not affected.

Per week, by carrier boy 12c

## YOUNG PROFESSOR.

In these spartan times it is difficult for a normal American, aware of what is going on in the world and with a reasonable amount of responsibility for it, to fall in with a current statement from President Robert Maynard Hutchins, youthful president of the University of Chicago. It seems worth quoting at some length.

"I venture to predict," he says, "that the present excitement about war criminals will seem ridiculous a few years hence. At this juncture we can afford to remember what Edmund Burke said of us: 'I do not know the method of drawing up an indictment against a whole people.'"

"We cannot support the thesis that because German leaders acted illegally, they should be treated illegally. Two wrongs do not make a right. It is easy to see why Mussolini was lynched; it is more difficult to see why Americans should do it. The most distressing aspect of the present discussions of the future of Germany and Japan is the glee with which the most unhuman proposals are brought forward and the evident pleasure with which they are received by our fellow-citizens. The peace of the world depends upon the restoration of the German and Japanese people. The wildest atrocity stories cannot alter the simple truths that all men are human, that no men are beasts."

All this sounds very noble. But it would be more to the point to acknowledge that intelligent lead-

ers and large groups of followers of the Nazi and Japanese regimes have been conducting themselves like beasts, and doing their best to destroy decent and law-abiding nations in every possible way. When men act like savage beasts, individually and collectively, it becomes necessary to control or destroy them in order to save civilization and preserve the righteous. It cannot be done by mere homeopathic doses of sweetness and light.

## TRAIN SAFETY.

There has been some criticism of the railroads during the last years. People complain that trains are late or meals too simple, or service bad. It makes an onlooker suspect that these are chronic complainers, whose personal convenience comes before the general interest.

Seldom do they have a real argument. Trains may be late, but they do arrive. Luxury service may not be on tap, but passengers find legitimate needs provided for. And in spite of wear on equipment subjected to extraordinary demands, they arrive safely.

The safety record of our war-time transportation is amazing. Much of it is due to the years of forethought which have produced such devices as the "dead man's throttle." One of those levers, which are so contrived that the moment the engineer's grasp lessens the train stops, saved the lives of 200 passengers the other day in New Jersey. The engineer had a heart attack, which in former years could have meant death

or injury to passengers, crew and the train itself. But as his hand slipped the throttle, the train came to a halt without hurting a person.

## Lions Heard All About Soil Saving Yesterday

Lions heard L. K. Gregory from the office of soil conservation, Rising Star, yesterday at the weekly luncheon, after a meal of sandwiches and soft drinks. H. R. Garrett, acting president, appointed a committee to arrange for future meals, since it was reported they could not be served by Laguna hotel coffee shop in the near future. Rev. Stanley Williams, Dublin; Charles Dunn, Fort Worth; Sgt. Randolph Taylor, Breckenridge, and Lt. Gayle Bailey were guests.

Lion Tom Henry introduced the speaker, who showed maps illustrating his talk on soil conservation and how local business men could help.

The map showed the sandy, peanut section of the upper Leon conservation district, which includes Eastland county, and the talk dealt with the depletion of the soil from erosion and winds which take the top soil unless protection is given.

Terracing, strip crops and cover crops are the remedies and he said local business men could aid by helping stimulate interest among land owners to conserve the humus and fertility of the soil.

Trash, vegetation and legumes are the things farmers must use to maintain the fertility that nature has been centuries in building up.

Gregory spoke of the function of the conservation district and how it was supervised and aided by employing men with proper training to show farmers how they can maintain and build their land to keep it able to support the rural population necessary to prosperity in this section.

Lion members expressed their appreciation of the talk and manifested their interest by asking for pamphlets which the speaker distributed.

## JUST HUMANS By GENE CARR

**the 112,000 girls of the U. S. CADET NURSE CORPS**

**Opportunities Now Open for Immediate Enlistment**

The 112,000 girls of the United States Cadet Nurse Corps are doing one of the most important jobs in the country's war effort.

While they learn as student nurses, Cadets help free graduate nurses for duty with the Army and Navy. 80% of all nursing in hospitals with schools of nursing in 1944 was done by students, working under graduate supervision.

No wonder the U. S. Government is glad to give the Cadet Nurses tuition, room, board, and uniforms free . . . and a monthly spending allowance.

In return, the Cadet Nurse pledges to do only essential nursing—military or civilian, for the duration. If you want free education for this proud profession, check the list at the right. If you can answer "yes" to these questions you may be eligible for membership in the U. S. Cadet Nurse Corps.

**GIVE YOURSELF THIS TEST**

Are you between 17* and 35 years of age?	<input type="checkbox"/> YES NO	Have you a sense of humor?	<input type="checkbox"/> YES NO
Are you in good health?	<input type="checkbox"/>	Have you an orderly mind?	<input type="checkbox"/>

**ACTS ON THE KIDNEYS**

To increase flow of urine and relieve irritation of the bladder from excess acidity in the urine

Are you suffering unnecessary distress, backache, numbness, tingling, and discomfort distributed nights by a frequent desire to pass water? Then you should know about that famous doctor's discovery—DR. KILMER'S SWAMP ROOT— that restores the kidney's natural ability to filter out poisons, acids, and toxins from the blood. It is not harsh or habit-forming in any way. Many people say its marvelous effect is truly amazing.

Get your sample TODAY! Like thousands of others you'll be glad that you did. Send name and address to Department D, Kilmer & Co., Inc., Box 1255 Stamford, Conn. Offer limited. Send 10¢. All druggists sell Swamp Root.

**Acid Indigestion**

Relieved in 5 minutes or double your money back

When your stomach acid causes painful, uncomfortable heartburn, indigestion, or a temporary relief—medicines like those in bottles shown here—bring comfort in a matter of minutes. They are available at all druggists.
