HOW TO CATCH FISH—This is Dimmitt's first big fish bonanza of the year and they were caught by a party that really appreciated the event. Two of the big lunker bass on the left side of the string weighed 7 1/2 pounds each, and the fishermen also pulled in a total of 85 pounds of a mixture of bass, bluegill, and catfish from a private lake near Quanah Monday. Shown with their catch are (left to right) O. B. Winkle, Pate Brown, Yvonne Brown, Irene Winkle, Randy Brown and Harry Brown.

Wednesday was the first big day at the pool—and the water was cold and crowded.

Foreign Exchange Student to Live With G. I. Clingsmiths

Pia Margaretha Birgitta Nasman, 17, of Nylund, Finland, will come to Dimmitt to live with the G. I. Clingsmiths when school starts this fall.

Pia will be a senior at Dimmitt High School and will be the first foreign youngster to attend school here under the American Field Service International Scholarships exchange student program.

Miss Nasman's application was enthusiastically accepted here this week by the Clingsmith family and she will live with them at 309 Northwest Second Street.

She is a member of the Lutheran Church and she speaks four languages—Finnish, Swedish, German and English.

Her father is an accountant with Helsingfors "Telefontoring" (probably a telephone company).

Each exchange student must submit a personal statement about themselves which gives the accepting family and community some idea about their background and general adaptability to their new surroundings. Following is the personal statement which Miss Nasman sent to this country.

social statement which Miss Nasman sent to this country.

My Personal Statement

I am a seventeen-year-old girl. I was born during World War II in Helsingfors. Already at that time I was a very big child, and today I am 170 cms tall, (5'7") but my weight is only about 55 kgs. (123 lbs.) I have brown hair and brown eyes, and more over I look like my mother. That is, my father's relatives say that I look like him, but my mother's relatives and all strange people say that I look like her.

When I was four years old I got a little brother. I thought that it was my merit that we got him, because one month earlier I had visited the Zoological Garden of Helsingfors with my mother and grandmother and then I had asked a stork to bring me a brother, and so she did. At that time my family and I lived in Helsingfors, but in the following year we moved to Grankulla, a small village about 19 kms (12 miles) from Helsing-

fors, and here we live still today.

We live in a house with two floors. On the ground floor my best friend Eva and her family live, and on the first floor my family and I. We are a very happy family, the youngest member of which is a badger-dog. Eva and I have been best friends for 12 years and we have almost always been together at school and at home. When we were 7 years old we became Brownies and when we were 10 or 11 Girl Guides and soon we got an own patrol. But at the age of 16 every Girl Guide in Finland becomes a Senior, and so did Eva and I. And still today we are Seniors, and we both think it is very nice. Thus one of my greatest interests is just scouting.

This year I attend the last class in the secondary school in Grankulla. I like my school very much, and I think it is a little bit sad that this year is my last real school year. Our school's three last classes are divided into two parts. The one is for French and psychology and the other for the natural sci-

ences, and mathematics. I attend the latter part of the class, and I think that it is very interesting to study these subjects.

In our school, as in all secondary schools in Finland, the three or four highest classes form an association, in Swedish called a "kon-

vent". This association organizes all kinds of meetings, but particularly parties with programmes and dance. Last year I was the head of these programmes. It was very nice, but rather laborious.

In winter the young people, at least in the country, spend a lot of their time outside their homes. Here in Grankulla we skate almost every night. About three years ago Eva and I attended a figure-skating school in Helsingfors, which was led by the two world champions Mr. and Mrs. Jacobson. But now we have not time anymore. On Sundays we do a lot of skiing, because the surroundings of Grankulla are very suitable for this kind of sport.

In summer my family and I do not stay in Grankulla. We have a small summerhouse on an island outside the town of Ekenas. There we swim and fish and take part in the work of the farm, which is situated about one kilometer (slightly over 1/2 mile) from our cottage. Here our badger-dog has a wonderful time, for here it can

run about in the forest and eat almost all the fish that my brother catches.

My whole life has been very happy, and my family and I are very happy together. But even if a stay in the U.S.A. would part me from my family one of my greatest wishes is just to have the opportunity of going there. My reasons of this wish are many, but the most important is perhaps that I always have been interested in American people, customs, daily life and so on. The interest has increased since I met an American, Mr. John Lewis from California, who told me a lot about the life of the New World.

Further my plans for the future are very insecure. I do not know, if I want to become a teacher of languages or a gymnasticsmaster or a dentist. But if I could get this scholarship for a year, I should perhaps during this year realize what I really want to become and furthermore I should learn English, or American, and learn to know America on the whole.

Second Democratic Primary Voting At Regular County Boxes Saturday

Castro County Democratic party voters will have the opportunity of casting a ballot in the second primary Saturday.

Voting places will be the same as the first primary held May 7. This second primary is sometimes known as the run-off primary are voted upon when neither received more than 50 percent of the votes cast in his race.

Only four races for twenty-four on the first primary ballot will appear on the second primary runoff ticket.

Most significant in the Castro County balloting is perhaps the Commissioners races in Precincts 1 and 3. In Precinct 1, T. C. Ray, the incumbent, is running against E. I. (Tump) McLain, former commissioner and a write-in candidate in the first primary. J. W. Wright is running against incumbent Olen Rice for the job of Commissioner of Precinct 3.

Considerable campaigning has been done in Castro County by the two candidates for the position of State Representative of the 96th Legislative District. These candidates are Clarence L. Hamilton of Earth and Jesse M. Osborn of Muleshoe.

There will also be a runoff in the Bethel Community between Vern Lust and Leland Smith for the position of Precinct Democratic Chairman.

The only other runoff race will be between W. T. McDonald of Brazos County and Lloyd W. Davidson of Lamb County for the position of Judge, Court of Criminal Appeals.

Forty-three persons had cast absentee ballots before the deadline.

Funeral services for Mrs. Sallie Patton Shuford, 80, were conducted Saturday, May 28, in the First Baptist Church of Dimmitt at 4 p.m.

Mrs. Shuford died at her home at 105 NW 5th at 5:45 p.m. Friday.

She was a member of the Baptist Church and had lived in Dimmitt for 44 years, having moved here with her husband, R. C. Shuford, from Bellevue, Texas on October 12, 1916. Mr. and Mrs. Shuford had been married on December 5, 1901 in Bowie and had lived on a farm near Stoneburg until moving to Clay County and to Bellevue in 1906.

Officiating at the services were Rev. M. A. Smith, Jr., of the First Baptist Church and Rev. Darris Egger, pastor of the First Methodist Church. Interment was in the Bellevue cemetery and graveside services were held there Sunday at 3:45.

She was born in Cook County May 11, 1880. Mr. Shuford preceded her in death in 1926.

Mrs. Shuford is survived by one daughter, Mrs. Leola Haberer of Dimmitt; one son, Clyde, of Odessa; one sister, Mrs. Clara Young of Dimmitt; one brother, Clyde Ayers of Houston, three half brothers, two half sisters, three grandchildren and three great grandchildren.

Active pallbearers were Ed Leinen, Sam Maynard, E. B. Noble, Curtis Tate, Bob McLean and Fred Kuntz. Honorary pallbearers were Posey Cunningham, Earl Lust, Edgar Ramey, Edwin Ramey, Elmer Dixon, Dewey Owens, Louie Allen and George Webb.

Arrangements were under the direction of Dennis Funeral Home.

Many of us think of a legend as a story handed down from a long-ago past, something that our fathers passed on to our children... This is the story of a legend that originated in the memory of many who read these lines...

The horns of this tale was no different in appearance from any of the unnumbered thousands which swirl over numerous Texas counties each spring and summer... In the winter of 1947-48, this character was edited by Earlwood Wood, former county clerk and later justice of the peace...

Newspaper incident told me that there was a story but that incident also told me to handle the line with care... "How is that?" Because when the cornerstone of this courthouse was laid, a live horned frog was placed in it...

ing. A second time, the worker placed the frog in the hole... Because of his duties as a mailman, Wood knew he would have the opportunity to place the frog in the cornerstone...

That night, after our conversation, I wrote a short news article... The next morning, I received the original to the Fort Worth Star-Telegram, of which I was the local correspondent...

It was not long until destruction of the courthouse began... The horns of this tale was no different in appearance from any of the unnumbered thousands which swirl over numerous Texas counties...
